RE: Clarification #1 for Measurement Year (MY) 2022 Updates

Dear Colleague,

This letter contains information about edits incorporated into the 2022 Quality Assurance Reporting Requirements (QARR) Technical Specifications for Measurement Year (MY) 2022 reporting.

The information contained in this clarification has been incorporated into a revised version of the MY2022 Value Set.

The updated 2022 Value Set is posted on our Managed Care [Information for Health Plans](#) page. The revised specifications should be used in plans' processing for MY2022 QARR.

Listed below are the changes and further explanation:

The following edits were made to the 2022 Value Set specifications:

- Eight codes in the 2022 Value Set had incorrectly labeled date versions. They have all been changed to the correct date versions of 10-22-2021.

If there are any questions about the above edits, or if you find issues or have concerns with the 2022 Technical Specifications manual or the 2022 Value Set, please email nysqarr@health.ny.gov.

Sincerely,

Paloma Luisi, MPH
