- ✓ Children's Services Survey
- ✓ Children's Services Waitlist
- ✓ Alerts/Notifications
- ✓ Export Waitlist
- ✓ Live Presentation (Demo)
- ✓ Next Steps
- ✓ Q&A

January 2022

Children's Services Capacity Tracker

Why create a system:

- Provider feedback that too many entities were asking for waitlist and service availability - duplication
- HHCMs feedback that they don't know which providers have capacity and that they are referring the same child to multiple providers
- HHCMs do not know when and if children/youth get off a waitlist in a timely manner
- HCBS providers indicating they could build capacity if they knew the number of referrals they might receive and for which services are in need
- Medicaid Manage Care Plans (MMCP) are responsible for network adequacy but do not know if their members are on a waitlist to work with providers to build capacity
- Lead Health Homes do not know the children on a waitlist to ensure care managers are appropriately linking to services

Children's Waiver

- The Children's Waiver requires that enrolled and eligible children/youth are connected to services
- The State is unable to indicate how many children/youth are on a waitlist to collaborate with providers, managed care plans, lead Health Homes, and other stakeholders to build capacity, identify needs, and gaps to services
- There are requirements within the Children's Waiver to report to the Federal Government of the Centers for Medicare and Medicaid Services (CMS) regarding Children's Waiver access to services, as well as waitlist or gaps in services

The Children's Services Capacity Tracker

Purpose

- Report waitlist by services, by county, and by provider at a member level
- Show availability of providers by service and by county
- Provider availability information that will be linked to the current public facing Map on NYS DOH website
 - The public facing Map - [Children and Family Treatment and Support Services/Home and Community Based Services \(ny.gov\)](https://www.ny.gov/children-and-family-treatment-and-support-services/home-and-community-based-services)
- Indicate to providers if they have the same child/youth waiting for services
- Notify providers if a child/youth was removed from a waitlist and reason why
- Assist with the coordination of service delivery

Collaboration and Building Capacity

Additionally, on a monthly basis, information will be shared with HCBS providers, MMCPs, and Lead HHs to foster communication and collaboration regarding building capacity and assisting children/youth who are on waitlist to obtain services.

- HCBS providers have been willing or open to building capacity but needed more information – what services, what counties, and potential referral volume
- Lead HHs will understand the number of members awaiting service connectivity and be able to assist HHCMS to connect children/youth to other services as needed, and work with the Department to identify gaps in HCBS
- Medicaid Managed Care Plans (MMCP) will have a clear list of members on a waitlist by provider, service, and county to work with the Department to build network adequacy and assist HHCMS to link members to other services as necessary

Children Services Capacity Tracker – Process and Platform

January 2022

The Children's Services Capacity Tracker - Platform

In 2021, the State launched the Incident Reporting and Management System (IRAMS) to meet the Children's Waiver requirement to timely report critical incidents, complaints, and grievances

- HCBS providers, lead Health Homes, and HH care management agencies are already required to have access to IRAMS

The State leveraged this platform to build the Children's Services Capacity Tracker since HCBS providers already had access to IRAMS and not to build a separate system

The IRAMS and Children's Services Capacity Tracker is housed in a secure platform of the Health Commerce System (HCS)

The Children's Services Capacity Tracker - Access

At this time, only HCBS providers and the State will be able to access the Children's Services Capacity Tracker component of the IRAMS platform

It's **required** that HCBS providers report their capacity of HCBS by county, service and waitlist

- HCBS Providers will be required to submit a capacity survey and their waitlist information through the Children's Services Capacity Tracker at minimum every three (3) weeks on Friday by 11:59pm.
- **NOTE:** CFTSS Services are also available to document capacity and waitlist information. Currently, CFTSS providers are **not** required to complete a capacity survey or enter the Children's Services Capacity Tracker. However, HCBS providers who are also designed for CFTSS can manage their CFTSS waitlist in the Capacity Tracker.

How To Access Children's Services Capacity Tracker

- Each provider should identify 2-3 users who will have access to Children's Services Capacity Tracker (not all practitioners staff need access).
- Each agency/organization's HCS Coordinator is the person who has the responsibility and authority to request and manage HCS accounts and roles for their agency via the Communications Directory.
- The HCS Coordinator is by default a user and therefore will have access to the Children's Service Capacity.
- The HCS Coordinator will assign the Children's Service Capacity user role to the identified users for their agency and assist users in requesting a valid HCS ID registers with their organization if necessary.

Who Should Use Children's Services Capacity Tracker

- It is the responsibility of providers to ensure that capacity reports are submitted on time and have internal processes in place for the Children's Services Capacity Tracker.
- The Department will extract reports of the Children's Services Survey every three weeks to monitor compliance.
- Children's HCBS providers will determine who will enter capacity and waitlist data in the Children's Service Capacity System housed in IRAMS.
- Children's HCBS providers must develop a policy to ensure complete and timely submissions of reporting.

The Children's Services Capacity Tracker - Monitoring

- The Providers will receive a reminder email three (3) days prior to the due date of submitting their capacity and waitlist information
- Providers will be able to run reports and monitor their waitlist information
- Providers will be able to see other providers' children/youth on a waitlist if the providers have the same child/youth on their respective waitlist
- The State will be able to run reports to share information with lead HHs and MMCPs regarding waitlist
- The State will review submitted survey reporting and aid providers who have difficulty submitting timely reporting

Responsibilities and Capacity Reporting Requirements

Archive

January 2022

Process and Overview of Responsibilities

Providers will report capacity in the Children's Services Capacity Tracker - the following three (3) areas

Report the number of children/youth being served by service

Report if the provider has availability to serve additional children/youth by service and in which county (ies)

Report specific children/youth information regarding who is on the provider waitlist and the reason why they are waitlisted

The Children's Services Survey and Waitlist

Providers

- Will be responsible for submitting **timely capacity reports** which are due every **three weeks by Friday at 11:59pm**.
- The provider must complete the survey to be compliant.
- This information will be transmitted to the public racing Map to assist providers, care managers, managed care plans, and families to identify services within their county that have availability.

Note: If survey submissions are submitted late, the State will reach out to set up a call to provide technical assistance to the provider to come into compliance

The Children's Services Survey

Providers will be responsible for submitting *at minimum* every **three weeks by Friday at 11:59pm**.

Within the Children's Services Survey, the provider will report:

- Number of children being served by service type
- Potential availability by county and service type

The Children's Services Waitlist

Providers will be responsible for submitting *at minimum* every **three weeks by Friday at 11:59pm.**

- *Providers can utilize this system to regularly manage their waitlist. On going management, monitoring, and reporting children/youth on a waitlist will assist other providers manage their waitlist (for children in common) and the State to begin building capacity*
- The following information is needed to complete child waitlist:
 - CIN and member information to verify correct Medicaid member,
 - Referral Date/Start Date on Waitlist
 - Service being requested
 - Within which county to be served
 - Reason for Waitlist

Children's Services Waitlist

Archive

January 2022

Children's Services Waitlist

- The Children's Services Waitlist must be completed and monitored **regularly** to reflect additional waitlisted children as well as removed waitlisted children.
- Click on Manage a Child's Waitlist to add a child to waitlist at the top of the waitlist screen

The screenshot displays the 'Incident Reporting and Management System (IRAMS) & Children's Services' interface. The main content area is titled 'Children's Services Waitlist' and features a 'Manage a Child's Waitlist' button. Below this is a table with columns for Child's Name, CIN, Days, Service(s), County, and Organizations. Two children are listed: John Doe and Jane Doe, both with a waitlist duration of 1 day and assigned to Health Home organizations.

Child's Name	CIN	Days	Service(s)	County	Organizations
> Doe, John	FY000000	1	Caregiver Family Support and Services	New York	HH: CMA: Plan: Health Home
> Doe, Jane	FY000000	1	4 Services	New York	HH: CMA: Plan: Health Home

January 2022

Children's Services Waitlist - Access

- In order to add a child to the waitlist you will need their CIN.

Manage a Child's Waitlist ✕

- Child was hospitalized/institutionalized
- Disenrolled from waiver
- Enrolled in Service

January 2022

Department of Health

Children's Services Waitlist – Remove from Waitlist

The list for removal reasons consists of:

- Aged Out of Waiver
- Child was Hospitalized/Institutionalized
- Disenrolled from Waiver
- Enrolled in Service
- Family Cancelled Request
- Family Requested Alternate Service
- Moved out of Service Area
- Moved out of State
- Unable to Contact Family

January 2022

Alerts/Notifications

Archive

January 2022

Children's Waitlist Alerts

- Agencies will receive email notifications of children who are removed from the waitlist for specified reasons
- An alert icon will be present next to the service in the Children's Waitlist

Service Type	Waitlisted Service	Reason	Referral Date	Elapsed Days	Remove
	△ Caregiver Family Support and Services	Insufficient Staff / Capacity	01/21/2022	0 Days	
HCBS	Prevocational Services	Insufficient Staff / Capacity	01/21/2022	0 Days	

January 2022

Note: This applies to children who are on multiple agencies waitlist.

Children's Services Survey Alerts

Agencies will receive email notifications serving as a reminder **three days** before the next submission due date.

Opt Out of Email Notifications & Delete Alerts

- Providers will have the option to opt-out of receiving email notifications for waitlisted children.
- Providers will have the ability to delete alerts from a child's case record.
 - Alerts are found next to the service the child is waitlisted for.

Send an email when...

Children's Service Surveys are due within 1 day

Children's Service waitlist alert

Exporting Waitlist

Archive

January 2022

Exporting Waitlist

HCBS Providers will have the functionality of exporting their existing waitlist into a excel spreadsheet. This can be used for record keeping as well as waitlist management.

The screenshot displays the 'Children's Services Waitlist' interface. The table contains the following data:

Child's Name	CIN	Days	Service(s)	County	Organizations
> Doe, John	FY000000	1	Caregiver Family Support and Services	New York	HH: CMA: Plan: Health Home
> Doe, Jane	FY000000	1	4 Services	New York	HH: CMA: Plan: Health Home

January 2022

The Children's Services Capacity Tracker - Implementation

Timeline for implementation

- Webinar with HCBS providers – January 26th
- User guide and FAQ posted to State Website – by January 28th
- Launch of new Children's Services Capacity Tracker – January 31st
- **First Reporting by HCBS providers – due Friday February 4th by 11:59 pm**
- Reporting thereafter **minimally** every 3 weeks by Friday at 11:59 pm
- Follow up with HCBS providers during February HCBS provider monthly call with the State – February 16th

January 2022

CFTSS Provider Inclusion

- This is still in discussion
- Information and data from the launch of the system with HCBS providers will inform these discussions
- Majority of HCBS providers are also CFTSS providers
- CFTSS Services are also available to document capacity and waitlist information. Currently, CFTSS providers are **not** required to complete a capacity survey or enter the Children's Services Capacity Tracker. However, HCBS providers who are also designed for CFTSS can manage their CFTSS waitlist in the Capacity Tracker.

PHASE 2

- The State has received a lot of feedback regarding the HCBS Plan of Care Workflow, and that the forms and process is difficult
- Request for real time information and ability to have the process automated
- Phase 2 will begin to examine the ability of an electronic referral process to request services
 - Care Managers will be able to submit referrals
 - Providers will be able to indicate in real time connection to services, waitlisted, or not able to serve
- Possibility for lead HHs and MMCP access, as well as MMCP ability to authorize services electronically
- HCBS Providers to be able to share Frequency, Scope, and Duration
 - Will engage the HH/MCO kids subcommittee to begin the discussion

January 2022

January 2022

Questions/Feedback

- Questions and requests for technical assistance regarding IRAMS can be sent to the Email Health Homes webform: https://apps.health.ny.gov/pubpal/builder/email_health_homes Select:

Children's Services Capacity Questions Only No PHI

- Additional questions and to share feedback regarding potential needs/changes to the system BH.Transition@health.ny.gov
- **Thank you** to the providers focus group that already provided feedback!
