## Appendix 360 Survey – NYU Lutheran Medical Center PPS

### DSRIP 360 Survey

As part of the Mid-Point Assessment, the Independent Assessor (IA) prepared and disseminated a survey to Performing Provider Systems' (PPS') network partners, to assess the experience and involvement of network partners with the PPS lead entity. The name of the survey was the DSRIP 360 Survey. The IA utilized an electronic survey product to submit and collect survey responses. The survey release date was August 15, 2016 and the close date was September 30, 2016. Weekly reminder notices were sent to every recipient that didn't respond to the survey. The survey was sent to a random sample of the PPS' network partners identified as participating with the PPS lead entity.

The survey consisted of twelve multiple choice questions focusing on four primary areas around three themes. The areas of focus were network partners' experience with *i*) governance, *ii*) contracting and funds flow, *iii*) performance management and *iv*) information technology (IT) solutions. The three themes were engagement, communication and effectiveness. See below for the summary results by question for all responders. The survey instructions asked the survey recipient to answer all questions and to provide comments to each question. The survey responders were anonymous to the PPS lead entity.

### Survey Results

NYU Lutheran Medical Center PPS' sample size to be surveyed was calculated to be 47 individual network partner organizations that were identified as participating partners with the PPS lead entity based on the size of their Provider Import/Export Tool (PIT) report. A total of 12 (26%) survey samples were received. Respondents' answers overall were positive with 47% of all respondents' answers were either "Strongly Agree" or "Agree." Below is the breakdown summary of all answers. Not every responder completed every questions.

<u>Survey Answers</u>	<u>Total of all Responders' Answers</u>	<u>Percentage</u>
Strongly Agree	25	19.53%
Agree	35	27.34%
Disagree	20	15.63%
Strongly Disagree	13	10.16%
N/A	35	27.34%
	<u>128</u>	<u>100.00%</u>

Survey responders were requested to leave comments after each question, and to also provide additional overall comments regarding any other aspects of the network partners' experience with DSRIP and the PPS lead entity. Details of responders' comments are included in the appendix. Examples of overall comments are below:

- *"Outreach to partners over the past 6 months has progressively improved."*
- *"There needs to be more clarity and communication regarding this project."*

The number of survey recipients and responders included the following provider categories as listed in the PPS' own Provider Import/Export Tool (PIT) report that was delivered with the PPS' quarterly reports:

#### Sampling Methodology

The Independent Assessor (IA) utilized the same sampling plan for selecting network partners for the DSRIP 360 Survey that the IA has used for other sampling processes throughout DSRIP. The universe of network partners to be included in the survey was limited to each individual PPS' Provider Import / Export Tool (PIT) report, where the PPS marked individual network partners as participating. The sample generated was intended to capture all provider types using a stratified random method. Not every PPS' sample selected list of network partners included every provider type.

Every PPS delivered to the IA the applicable names and e-mail addresses or mailing addresses for the network partners' names selected from the random sample generator for each PIT report. In this initial random sample, some PPS' identified one or more network partners that were not participating with the PPS, or had otherwise left the PPS' DSRIP project.

Below are each of the 12 questions included in the survey, with corresponding charts showing the variety of responses from partners. Included for each question are comments from partners related to their response to that particular question.
