**Quarterly Report - Implementation Plan for Finger Lakes Performing Provider Systems, Inc.**

Year and Quarter: DY2, Q1

Quarterly Report Status: Adjudicated

**Status By Section**

Section	Description	Status
<a href="#">Section 01</a>	Budget	Completed
<a href="#">Section 02</a>	Governance	Completed
<a href="#">Section 03</a>	Financial Stability	Completed
<a href="#">Section 04</a>	Cultural Competency & Health Literacy	Completed
<a href="#">Section 05</a>	IT Systems and Processes	Completed
<a href="#">Section 06</a>	Performance Reporting	Completed
<a href="#">Section 07</a>	Practitioner Engagement	Completed
<a href="#">Section 08</a>	Population Health Management	Completed
<a href="#">Section 09</a>	Clinical Integration	Completed
<a href="#">Section 10</a>	General Project Reporting	Completed
<a href="#">Section 11</a>	Workforce	Completed

**Status By Project**

Project ID	Project Title	Status
<a href="#">2.a.i</a>	Create Integrated Delivery Systems that are focused on Evidence-Based Medicine / Population Health Management	Completed
<a href="#">2.b.iii</a>	ED care triage for at-risk populations	Completed
<a href="#">2.b.iv</a>	Care transitions intervention model to reduce 30 day readmissions for chronic health conditions	Completed
<a href="#">2.b.vi</a>	Transitional supportive housing services	Completed
<a href="#">2.d.i</a>	Implementation of Patient Activation Activities to Engage, Educate and Integrate the uninsured and low/non-utilizing Medicaid populations into Community Based Care	Completed
<a href="#">3.a.i</a>	Integration of primary care and behavioral health services	Completed
<a href="#">3.a.ii</a>	Behavioral health community crisis stabilization services	Completed
<a href="#">3.a.v</a>	Behavioral Interventions Paradigm (BIP) in Nursing Homes	Completed
<a href="#">3.f.i</a>	Increase support programs for maternal & child health (including high risk pregnancies) (Example: Nurse-Family Partnership)	Completed
<a href="#">4.a.iii</a>	Strengthen Mental Health and Substance Abuse Infrastructure across Systems	Completed
<a href="#">4.b.ii</a>	Increase Access to High Quality Chronic Disease Preventive Care and Management in Both Clinical and Community Settings (Note: This project targets chronic diseases that are not included in domain 3, such as cancer)	Completed

**Narrative Text :**

FLPPS budget categories submitted in the June 1 submission do not align with the categories in the current MAPP tool module 1.1. The crosswalk for FLPPS used to complete this submissions is as follows: Cost of Project Implementation = Administration and Operational Costs (15%); Cost of non-covered services=Sustainability (10%); Revenue Loss=Contingency and Revenue Loss (10%); Other=Partner Share of Funds (65%). The Internal PPS Provider Bonus Payments is the same as the original submission and still TBD based on actual high performance dollar drawn for the PPS. The total net project value in the MAPP tool is also off by \$1 when compared to the amount from the award letter. Please note that our original DY projections did not align with those included in the MAPP tool due to precision of decimal points in determining the % of funds from total award per DY.

**Narrative Text :**

DY2Q1 S1.10 (PPS Flow of Funds - Non-Waiver Revenue) Remediation Narrative:  
Per the IA remediation instructions, FLPPS now changed the "1" to a "0" in both DY1 Amount-Update and DY2 Q1 Quarterly Amount-Update PMO fields. Previously, per the IA instructions, FLPPS had to enter a value of '1' in both columns on able to submit, even though FLPPS did not flow any funds. This had been due to a MAPP restriction that did not allow an entry of "0".

DY2Q1 PIT File Remediation Narrative:  
FLPPS updated the PIT file and resolved the discrepancies indicated by the IA for remediation. FLPPS confirmed that all four Providers that the IA asked to remediate are indeed the correct provider associated within the network, and FLPPS was able to enter all four providers in the PIT file that FLPPS uploaded.

DY2Q1 S1.10 (PPS Flow of Funds - Non-Waiver Revenue) Narrative:  
Alert to the IA: The IA needs to return this module to the PPS during the remediation period, given the known defect in the system that is requiring that the PPS, for the PPS PMO line, enter a number greater than 0 into either the DY1 Amount-Update or DY2 Q1 Quarterly Amount-Update, despite not flowing any funds to this category. FLPPS did not flow any funds, and has zero in both DY1 Amount-Update and DY2 Q1 Quarterly Amount-Update PMO fields. FLPPS had to enter a value of '1' in both columns on able to submit.

**✓ IPQR Module 2.3 - Major Risks to Implementation & Risk Mitigation Strategies**

**Instructions :**

Please describe the key challenges or risks that you foresee in implementing your governance structure and processes and achieving the milestones described above, as well as potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

It is anticipated that FLPPS will encounter little risk in the implementation of the governance structure, since the new non-profit corporation has been functioning with committees and a Board since November, 2014.

1. Risk/challenge: There will continually be a risk of ensuring full PPS representation from all geographic areas and provider types in all levels of the governance structure.

Mitigation: Continually review committee rosters, the geographic representation of committee members, and their professional background. Membership will be altered as necessary to maintain a balance over time.

2. Risk/Challenge: Due to the unclear nature of the mechanism of funds flow and the value proposition for partner organizations, there might be a risk that members representing the diverse FLPPS partnership of the governing body become disengaged and/or less supportive of PPS mission and vision

Mitigation: Organize a communication and provider engagement team to establish and maintain relationships across PPS partnership through transparent communication process that is aligned with PPS culture and vision.

3. Risk/Challenge: FLPPS geography is large and contains both rural and urban areas which introduces the challenge of attending meetings and may create a cultural divide between representatives from various areas of the region.

Mitigation: FLPPS has established a well-functioning web-conferencing process by which members who live further from the meeting location can connect and be engaged in conversations. In addition, the leadership team in Rochester, NY organizes quarterly trips to each of the 4 sub-regions to ensure a larger partnership is represented and engaged within their geographical area.

**✓ IPQR Module 2.4 - Major Dependencies on Organizational Workstreams**

**Instructions :**

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

**New York State Department Of Health**  
**Delivery System Reform Incentive Payment Project**  
**DSRIP Implementation Plan Project**

**Finger Lakes Performing Provider Systems, Inc. (PPS ID:9)**

**IT Systems:** As part of developing data reporting mechanism to manage the provider data base and performance and process reporting, the full governance structure will need to ensure the appropriate measures are captured as part of the reporting process and appropriate analytics are built in over time to allow for real-time dashboard reporting. Each specific committee, especially the NOCNs will need to do outreach and education on IT systems and how FLPPS central office will leverage technology for PPS reporting. IT Systems may be a key source of success for document retention, both for project development, but also for access to Governance structure documents such as meeting minutes and supporting materials in a central location, accessible to all various committee representatives.

**Workforce:** As part of the workforce strategy the full governance structure would need to consider the impact of DSRIP on current and future workforce individuals. As key leaders within their respective organizations, it will be vital to the success of the PPS that workforce issues that need to be elevated to committees and the PPS board are identified and addressed through established governance principals.

**Finance:** Is a key operational committee with significant responsibility to all PPS partners and the Board. The smooth operation and transparency of work of this committee is an integral success factor for the PPS governance structure. From policies regarding funds flow, contracting, and eventually payment, the Finance committee is a foundational committee for provider satisfaction and fiduciary responsibility. The State's availability of data will impact funds flow and therefore will need to be considered by the State and PPS as it becomes more clear.

**Cultural Competency and Health Literacy:** Members of the governance structure will need to be in full support of efforts of this workgroup, and as key leaders in their own organizations ensure that culture change is occurring within their organization to verify that all attested partners are practicing culturally competent care.

**Performance reporting:** Governance relies on accurate and timely reporting for informed decisions. The ability of the PPS to obtain accurate reporting from Partners will directly impact the success of the overall DSRIP initiative. Financial health reporting protocols will need to be standard across the PPS in order for the lead organization to be able to make accurate assessment of the overall PPS health. The development of strategies to establish the appropriate reporting structure will be approved by the Finance Committee before being finalized.

**Population Health Management:** The full governance structure, specifically the Board will need to ensure consistent review and understanding of population health management activates occurring in the PPS as well as review dashboards that show where the PPS is being successful in implementing change and where it is not. For areas that proper population health management is not occurring, the Board and full governance structure will need to address and handle these situations as part of the formal governance polices and protocols.

**Practitioner engagement:** Serving as the leaders of the PPS, the governance structure will need to ensure that all attested providers, specifically clinical practitioners are engaged, satisfied, and helping to drive the work necessary to achieve DSRIP projects goals. Each committee and the board will help provide strategic visions and workflows for the successful engagement of all practitioners across the PPS for five years and beyond DSRIP.

**✓ IPQR Module 2.5 - Roles and Responsibilities**

**Instructions :**

Please list and elaborate upon the key people/organizations responsible for the development of your governance structure and processes and describe what their responsibilities involve.

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities
FLPPS Central Office - Staff and Leadership	Finger Lakes PPS Performing Provider System	Staff committees, workgroups, and project teams, support co-chairs; drive engagement and communication strategy.
Lead Applicants and Sole Corporate Members	Strong Memorial Hospital (UR Medicine) and Rochester General Hospital (RRHS) Regional Health System & Medical Center/Hospital	Support PPS through leadership activities
PPS Governing Board - Chair	Kathleen Parrinello, Ph.D., University of Rochester Medicine Academic Medical Center/Hospital	The Bylaws and decision making process for the Board of Directors follow those of a typical non-profit health corporation with corporate members, with some decisions reserved for members, others decided through a super-majority and others requiring a simple majority of the Board of Directors. As the governing body for FLPPS, they hold the ultimate decision-making authority, are responsible for strategy, and must approve all significant ventures of the organization.
PPS Governing Board - Vice-Chair	Bridgette Wiefeling, MD, Rochester Regional Health Regional Health System	The Bylaws and decision making process for the Board of Directors follow those of a typical non-profit health corporation with corporate members, with some decisions reserved for members, others decided through a super-majority and others requiring a simple majority of the Board of Directors. As the governing body for FLPPS, they hold the ultimate decision-making authority, are responsible for strategy, and must approve all significant ventures of the organization.
PPS Governing Board - Treasurer	Thomas Crilly, Rochester Regional Health Regional Health System	The Bylaws and decision making process for the Board of Directors follow those of a typical non-profit health corporation with corporate members, with some decisions reserved for members, others decided through a super-majority and others requiring a simple majority of the Board of Directors. As the governing body for FLPPS, they hold the ultimate decision-making authority, are responsible for strategy, and must approve all significant ventures of the organization.
PPS Governing Board - Secretary	Mary Zelazny, Finger Lakes Community Health Community Health Centers	The Bylaws and decision making process for the Board of Directors follow those of a typical non-profit health corporation with corporate

**✔ Module 2.6 - IPQR Module 2.6 - Key Stakeholders**

**Instructions :**

Please identify the key stakeholders involved, both within and outside the PPS with regard to your governance structure and processes.

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
<b>Internal Stakeholders</b>		
UR Medicine	One of the largest health systems in the FLPPS region and a corporate sponsor of FLPPS Inc.	Provide key governing members to the board and other committees and workgroups
Rochester Regional Health System	One of the largest health systems in the FLPPS region and a corporate sponsor of FLPPS Inc.	Provide key governing members to the board and other committees and workgroups
Arnot Health	Third largest health system in the FLPPS region	Provide key governing members to the board and other committees and workgroups
PPS Partners	Participate in Committees, PAC and project implementation	Participate in review and execution of committee and board deliverables as active members of those groups
<b>External Stakeholders</b>		
Community stakeholders	Inform PPS governance structure and community engagement	Review, provide comments and recommendations to the PPS By-laws, membership and other community-based activities
Local Government Stakeholders	Collaboration partners to the PPS (e.g., public agencies, OMH, OASAS, OPWDD)	Collaborate with FLPPS leadership to ensure that the FLPPS governance model and vision are aligned with Local Governments
Neighboring PPSs	leadership of neighboring PPS lead organizations	Collaborate with FLPPS leadership to ensure that governance models and vision for overlapping counties are aligned
DOH	Guiding body	Provides roadmaps to success in governance structure to ensure it is in line with DSRIP goals

**New York State Department Of Health**  
**Delivery System Reform Incentive Payment Project**  
**DSRIP Implementation Plan Project**

**Finger Lakes Performing Provider Systems, Inc. (PPS ID:9)**

**✓ IPQR Module 2.7 - IT Expectations**

**Instructions :**

Please clearly describe how the development of shared IT infrastructure across the PPS will support this particular workstream and your ability to achieve the milestones described above.

Effective governance of FLPPS requires a robust IT infrastructure. At the highest level of governance, the Board of Directors and committees will require dashboards to monitor multiple dimensions of program performance and gauge progress against milestones for governance so that they can appropriately allocate financial and operational resources and identify and address risks. Our business intelligence tools including the Participant Data Management System will enable tracking of individual participant organizations, their level of engagement, their ability to meet governance milestones such as posting of minutes, agendas and other such documents into a provider portal , and their associated outcomes, in addition to overall PPS performance.

The Board and committees will have the ability to query key performance indicators for the PPS, by partner type, project and key metrics, both defined within DSRIP and those defined as critical to performance management by each committee. The performance management capability will enable committee members to define key indicators, thresholds (goal charts) and frequency of data collection to elicit through manual submission or automated data pulls key information to monitor partner performance and stability. With relation to DSRIP performance, the FLPPS Rapid Cycle Evaluation (RCE) process will be driven by the data collected and informed by input from the committees and project leads, to ensure timely process improvement initiatives can be put into place to address potential areas of risk. While performance reporting we be largely informed by claims data, real time, or near real-time, data will be accessed and utilized for RCE activities and utilization management to enable timely feedback loops and course corrections so that improvements aren't limited to quarterly data feeds or otherwise historical data.

Likewise, Clinical Quality committees for each DSRIP project ("project workgroup" will be fully informed by reports showing performance on relevant clinical process and outcome measures. These reports will be made possible by multiple components of our data infrastructure, from data-supplying EHRs throughout the PPS, to our RHIO partner, to the FLPPS data warehouse and population health analytics platform. Reports that are appropriate to share publicly will be provided to public agencies in our region, including to local Public Health Officers increasingly interested in population health information to inform targeted public health initiatives.

CBO engagement and contracting will also benefit from the FLPPS IT infrastructure. In collaboration with the RHIO and/or independently, FLPPS will implement a data normalization service to consume non-standard data produced by existing CBO systems. FLPPS will also provide technical assistance and group purchasing to CBOs interested in adopting certified EHRs that can supply data in a standardized manner. In either case, CBOs will be provided with Direct accounts to enable care coordination and referrals management between them and partnering organizations, as well as access to other IT services through the FLPPS user portal. The FLPPS IT infrastructure will also support efficient and data-driven outreach to CBOs and other community partners including non-provider organizations.

Finally, the policy process elements of the IT work stream overlap with the work of the Governance work stream. Successful execution of IT policy and process tasks will inform the development of a comprehensive governance framework for the PPS that includes robust data governance components such as data access, data security, and other IT-related policy elements.

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project  
DSRIP Implementation Plan Project**

**Finger Lakes Performing Provider Systems, Inc. (PPS ID:9)**

**✓ IPQR Module 2.8 - Progress Reporting**

**Instructions :**

Please describe how you will measure the success of this organizational workstream.

The success of FLPPS governance will be measured on the basis of the success of the work and commitment of FLPPS providers.

Meeting minutes and outcomes will be regularly communicated to the PPS partnership and historical records of this data will be maintained and revisited during the governance evolution process. A running log of PPS-wide risks has been developed and will be managed by FLPPS PMO lead. With a formal risk elevation process underway the mitigation steps taken per risk will be revisited at weekly committee and monthly board meetings to discuss updates and make decisions on next steps. This risk log will be transferred to a cloud-based dashboard for easy access and usability. Updated committee charters and membership will be published on FLPPS website quarterly to allow for public comment and discussion. Comments will be brought to the appropriate committees for discussion and next steps. FLPPS committees/workgroups and the Board of Directors will review progress towards goals on a monthly basis at a minimum to identify areas of risk.

<b>Milestone #2</b> Perform network financial health current state assessment and develop financial sustainability strategy to address key issues.	Completed	This milestone must be completed by 3/31/2016. Network financial health current state assessment (to be performed at least annually). The PPS must: - identify those providers in their network that are financially fragile, including those that have qualified as IAAF providers; -- define their approach for monitoring those financially fragile providers, which must include an analysis of provider performance on the following financial indicators: days cash on hand, debt ratio, operating margin and current ratio; -- include any additional financial indicators that they deem necessary for monitoring the financial sustainability of their network providers	07/01/2015	03/31/2016	07/01/2015	03/31/2016	03/31/2016	DY1 Q4	YES
<b>Task</b> Develop criteria for assessing financial health of PPS partners.	Completed	Finance committee working to identify essential information required from partners to include in assessment	07/01/2015	08/20/2015	07/01/2015	08/20/2015	09/30/2015	DY1 Q2	
<b>Task</b> Develop standardized tools and/or information request forms for quarterly financial data	Completed	To be developed when information requirements are identified	10/01/2015	03/31/2016	10/01/2015	03/31/2016	03/31/2016	DY1 Q4

**✓ IPQR Module 3.3 - Major Risks to Implementation & Risk Mitigation Strategies**

**Instructions :**

Please describe the key challenges or risks that you foresee in implementing these cross-cutting organizational strategies, including potential impacts on specific projects and, crucially, any risks that will undermine your ability to achieve outcome measure targets.

- 1) Risk/challenge: Being able to reliably receive quarterly results from providers to monitor for financial health within a month after closing of reporting period. Will be a large volume of materials coming in to review and FLPPS will need to create a standardized submission and review process.
  - a. Mitigation: Will develop an online quarterly survey tool focused on collecting financial ratios from providers that will be compared to Finance Committee established benchmarks to make initial screen as efficient as possible so more in-depth work can be done on those not meeting pre-set screening ratios
- 2) Risk/challenge: If a provider is experiencing revenue loss due to DSRIP project implementation, there exists a challenge in evaluating loss due to DSRIP quantified vs. loss due to other reasons and the level of due diligence necessary by FLPPS in evaluating requests for funding to cover Revenue Loss.
  - a. Mitigation: Process must include conversations with providers to understand why financials may be trending one way or another. There may be unique seasonality at a provider or changes to financial statements may be due to something other than DSRIP.
- 3) Risk/Challenge: There's a need to establish confident estimates of future awards when making financial decisions such as adding PMO staff and setting annual budgets.
  - a. Mitigation: Work closely with FLPPS IT/BI and PMO to continually assess progress against goals for estimating potential awards and progress.
- 4) Risk/Challenge: Ability to contract with MCOs and get 80-90% of payments under value-based payment methodologies
  - a. Mitigation: Work in close collaboration with the State in incentivizing MCOs to negotiate and work with FLPPS. Engage FLPPS providers to obtain buy-in for supporting VBP transition efforts.
- 5) Risk/Challenge: Performance is hard to define or isn't available initially so payments are based on missing or inaccurate data. In addition, accurate data is required for project attribution for initial valuation of provider commitments.

Mitigation: Evaluation mechanism to ensure speed and scale commitments are realistic and achievable and work with FLPPS IT/BI to make sure commitments are measurable and performance data accurate, including provider attribution, so that performance can be measured efficiently and fairly.
- 6) Risk/Challenge: Inability for PPS to set up appropriate IT platform and support to collect and analyze financial trends data early in DY1.

Mitigation: establish clear communication strategy with performing providers and carry out a simplified reporting procedure until all essential reporting functions are established.
- 7) Risk/Challenge: Ability to establish a timely funds-flow mechanism by PPS may result in delays in incentive payments to providers in supporting their efforts in meeting PPS milestones and metrics for the following period.

New York State Department Of Health  
Delivery System Reform Incentive Payment Project  
DSRIP Implementation Plan Project

**Finger Lakes Performing Provider Systems, Inc. (PPS ID:9)**

Mitigation: PPS has built a contingency pool that can be potentially used for financially fragile providers unable to make the upfront investment in implementing the appropriate projects. While the terms and conditions of tapping into this funding pool are still in development, it may serve to temporarily support certain partners.

**✓ IPQR Module 3.4 - Major Dependencies on Organizational Workstreams**

**Instructions :**

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

IT Systems: As part of developing data reporting mechanism to manage the provider database and performance and process reporting, the finance team would need to ensure the appropriate measures are captured as part of the reporting process and appropriate analytics are built in over time to allow for real-time dashboard reporting. FLPPS Finance and Clinical work streams are heavily dependent on the capital request. FLPPS will need to work with State to reevaluate the options and deliverables if IT funds are not awarded through the capital project.

Workforce: As part of the workforce strategy budget, the finance work stream would need to consider the impact on the PPS and potential mitigation strategies (i.e. tapping into reserve funds to ensure this work stream is successful).

Governance: Finance Committee is part of the formal governance structure. A number of elements requiring integration are CBO contracting and an evolving governance model.

Cultural Competency and Health Literacy: As part of the training or change management programs that the PPS sets out to achieve, integration around cost of those services and monitoring of them brings an essential collaborative opportunity between the two work streams.

Performance reporting: Financial health reporting protocols will need to be standardized across the PPS in order for the lead organization to be able to make accurate assessment of the overall PPS health with consideration that partners are at different levels of reporting capabilities. The development of strategies to establish the appropriate reporting structure that supports partners in training and technical assistance and costs associated with those services will be approved by the Finance Committee before being finalized.

Population Health Management: As part of performing provider contracts, outcome measures will drive the majority of the incentive payments earned in the last years of DSRIP. The strategy for population health management and roadmap development must align with the performance contracting process and principles.

Practitioner engagement: as part of performing provider contracts, provider engagement early in the contracting process and throughout DSRIP period is key to ensure the contractual obligations are met.

**Finger Lakes Performing Provider Systems, Inc. (PPS ID:9)**

**✓ IPQR Module 3.5 - Roles and Responsibilities**

**Instructions :**

Please list and elaborate upon the key people/organizations responsible for this organizational workstream and describe what their responsibilities involve.

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities
FLPPS Treasurer	Tom Crilly, RRH	Financial oversight of the PPS
Finance Committee Co-Chairs	Adam Anolik, URMC & Tom Crilly, RRH	Chair the Finance Committee; approval of meeting agendas and minutes as well as Finance Committee work plan
Finance Committee Members	See FLPPS.org	Attend monthly finance committee meetings, review materials between meetings as necessary, assist in development of CFAFs and recommendations for at risk providers and provide input and approval of key financial reports as outlined in the Financial Sustainability implementation plan
Director of Finance	John Pennell, FLPPS	Establishes and runs finance functions of FLPPS; Prepares quarterly reports for Finance Committee including "health of the PPS" and budget vs. actual expenditures. Provides oversight to PPS funds flow process. Reviews and updates PPS budget for operational management of FLPPS corporation and project budgets for the PPS
PPS Compliance Officer	Maria Magans, FLPPS	Establish and run PPS compliance program
Contracting Manager	Shawn Barkley	Responsible for developing, executing and tracking PPS Performance-based contracts. This individual will ensure the funds flow align with the contractual requirements and reporting requirements are met.
Director of IT	Jose Rosario, FLPPS	This position will carry the functions of baseline assessments, ongoing data collection and analysis for PPS financial health and VBP
External Auditor	Dejoy Knauf & Blood LLP	Auditors will be involved in multiple areas of the organizational work stream both to ensure funds are allocated appropriately and compliance requirements are met.

**✓ IPQR Module 3.6 - Key Stakeholders**

**Instructions :**

Please identify the key stakeholders involved, both within and outside the PPS.

<b>Key stakeholders</b>	<b>Role in relation to this organizational workstream</b>	<b>Key deliverables / responsibilities</b>
<b>Internal Stakeholders</b>		
Janet King	PPS PMO	Responsible to ensure all functions within FLPPS PMO are carried out
PPS Project Managers (multiple)	PPS PMO	Leads working with the FLPPS PMO who manage the project implementation and the relationships with PPS Partnership for their respective projects.
Collene Burns	FLPPS HR Lead	Responsible for recruiting, interviewing and hiring qualified staff for key positions.
Board of Directors	Governing board of the non-profit corporation formed for the PPS	Approve and inform progress of certain milestones and deliverables of the PPS
PPS Project teams	Management of project-specific requirements pertaining to areas of focus in MCO engagement strategy and operational/ clinical design of projects	Inform the financial sustainability strategy
PPS Partners	Provide the necessary information for the PPS to meet its operational milestones related to finance	Respond to surveys, sign contracts, inform PPS implementation plan and milestones required to succeed in this organizational work stream
<b>External Stakeholders</b>		
Community	Inform DSRIP Project implementation	Review, provide comments and recommendations to the implementation plan. It is essential to engage community representatives throughout the DSRIP program to ensure buy-in.
County Services	Support and inform DSRIP Project implementation	Inform construction/renovation of capital to repurpose facilities to align with DSRIP project implementation needs
Outreach Centers	Support community and other stakeholder engagement efforts	Work directly with FLPPS Inc. to connect with appropriate stakeholders in the community
MCOs	Engagement with PPS to inform the transformation to value-based payments	Participate in meetings and VBP contract negotiations with PPS and PPS partners
DOH	Guidance in meeting the financial sustainability milestones	Provide Roadmaps, templates and other tools for PPSs to utilize in carrying out the financial sustainability strategy

Delivery System Reform Incentive Payment Project  
DSRIP Implementation Plan Project**

**Finger Lakes Performing Provider Systems, Inc. (PPS ID:9)**

**✓ IPQR Module 3.7 - IT Expectations**

**Instructions :**

Please clearly describe how the development of shared IT infrastructure across the PPS will support this particular workstream.

The FLPPS IT infrastructure will support long-term financial sustainability through two parallel tracks, one indirect (enabler) and one direct (functional/operational). The infrastructure in and of itself will enable management of PPS and DSRIP project performance across the entire PPS and the multiple work streams. Work from the Executive Director and finance team will be completed along multiple dimensions relevant to financial operations, value-based payments, and PPS sustainability, through PPS-wide data sharing platforms such as the provider portal and Customer Relationship Management tools. The IT infrastructure will allow tracking of performance metrics across all DSRIP metrics and milestones to help inform the Financial sustainability work stream as they strategize how best to incentivize behaviors among PPS members. This work will lead to achievement of quality care, patient satisfaction, and shared financial goals. The Executive Director and finance team will utilize this capability to develop specific reports that will provide insight into the performance of the PPS from a financial sustainability perspective to drive strategy, as well as compute appropriate payments to PPS members based on the findings from these reports. They will also be able to monitor dashboards to identify high-cost centers within the PPS and to assess financial risks to the organization. In addition, member organizations will submit reports and data relating to DSRIP business and financial operations electronically to the PPS finance team. These reports and data will enable PPS leadership and appropriate committees the ability to understand how DSRIP projects are impacting overall utilization, associated Medicaid payments and organizational costs; allowing for the identification of appropriate business strategies, utilization management initiatives or other efforts to mitigate any unintended consequences. While it is expected that some providers will experience decreased volume, the intent is to achieve this in an incremental and controlled manner, which will allow providers to adapt over time during DSRIP and adjust to new volumes, financial incentives and re-align operating models. Additionally, through the development and use of an integrated IT platform that is geared to monitoring performance and improving outcomes, the PPS will be well suited to continue its growth and long-term strategy to sustain a value based payment and practice system.

FLPPS is working to establish a customer relations management tool and project management software to track all reporting functions of the PPS and all contracts. This may include the reporting of financial metrics on a quarterly basis. The data will be self-reported through an easy-to use portal system. The PPS data warehouse containing information from RHIO, providers and payers will serve an essential purpose in evaluating value-based payment options as the PPS matures. The PPS will also be able to share reports and performance measures along all dimension, both financial and non-financial, across the PPS through provider portals, the PPS website, CRM, and care management platforms to help drive the entire network towards improving performance and long-term financial sustainability.

Through the direct, operational impacts, the IT infrastructure will provide analytic and decision support tools to streamline patient care and access, standardize referral guidelines and specialty guidelines, reduce variation and avoidable utilization, as well as better tie financial incentives to quality, outcomes and value. Through these methods, the PPS will provide the tangible tools and information necessary to PPS partners that they can utilize in their organizations to better manage patient care and ultimately reduce total costs of care by delivery more coordinated, cost-effective care.

**✅ IPQR Module 3.8 - Progress Reporting**

**Instructions :**

Please describe how you will measure the success of this organizational workstream.

Once the implementation plan is complete, the plan and progress against its milestones will be reviewed by Finance Committee monthly during the first demonstration year when the majority of the milestones are set to be completed. Moving forward, starting DY2, the review schedule will be altered to every other month or every quarter. Success will be measured by tracking results of each commitment in the plan. The success of Financial Sustainability Plan will be achieved through a number of key elements:

- Evolving Financial Governance structure and Finance Committee membership representative of key stakeholders from the PPS service area
- FLPPS Finance Department to ensure each partner's financial well-being is monitored as it relates to DSRIP project implementation
- Regular review of the committed implementation plan milestones and progress towards meeting the requirements by the FLPPS finance team with a report out to the committee on identified areas of risk and potential mitigation strategies to address them.
- Strong PMO structure to facilitate integration with other work streams such as IT to ensure financial data is appropriately gathered and reported in real time and accurately.

✓ IPQR Module 4.3 - Major Risks to Implementation & Risk Mitigation Strategies

Instructions :

Please describe the key challenges or risks that you foresee in implementing your cultural competency / health literacy strategy and addressing the specific health disparities you are targeting (based on your CNA), and achieving the milestones described above - including potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

Risk - Financial: Organizations may be hesitant to implement needed activities and protocols around meeting CC & HL standards due to financial constraints and limited resources

Mitigation Strategy: FLPPS will coordinate strategically with organizations to ascertain their level of readiness, feasibility of implementation given current resources, conservative approaches to implementation as needed and providing as much support for successful implementation of CC & HL activities including financially supporting centrally coordinated cultural competency training.  
FLPPS will also develop standardized tools and processes that can be easily modified for use with providers

Risk - Provider Collaboration with Community based organizations: Primary care providers, physicians and clinicians often are not aware of the value of community based care or may even devalue the importance of collaborations with community based organizations, including partnerships with faith based organizations, and programs / services available through local departments of health and human services as necessary for transforming the current health care to a more culturally competent one.

Mitigation Strategy:

- i. Educating providers about the importance of cultural activation and cultural assessments of patients.
- ii. Robust cultural competence training and implementation support for providers
- iii. FLPPS will coordinate and work with the identified Work Groups to establish guidelines, MOUs and similar type of agreement documents to provide support to providers as to how best to establish needed partnerships.
- iv. FLPPS will host learning/engagement sessions

Risk - Patient Culture and behavior: The FLPPS region contains minority groups with established history of distrust for health care entities and may be resistant to becoming engaged and going to referred providers even with improvements in CC and HL standards of care

Mitigation Strategies

- i. Working with community based organizations with established trust in the community to identify cultural brokers and gatekeepers that can be leveraged to conduct needed outreach and education
- ii. Hosting "town hall" sessions in communities where access has been an identified concern
- iii. Encouraging providers to build the practice that will be welcoming, respectful and engaging to patients

Risk: Provider Culture and Behavior:

- i. Providers are typically in charge and often assume they know what's best for the patient.
- ii. Provider stigma surrounding Medicaid and Medicaid patients.
- iii. Providers not making training a priority due to lack of awareness or competing demands on their time.

Mitigation Strategies

- i. Educating providers about the importance of cultural activation of patient.
- ii. Robust cultural competence training for providers including topics such as the dynamics of power and privilege and its impact on the patient's

New York State Department Of Health  
Delivery System Reform Incentive Payment Project

DSRIP Implementation Plan Project

Finger Lakes Performing Provider Systems, Inc. (PPS ID:9)

- health outcomes particularly health disparities as well demystifying negative perceptions of Medicaid beneficiaries.
- iii. Creating processes that incentivize providers to train staff and FLPPS hiring and designating culturally knowledgeable staff to enforce provider training
  - iv. Requiring that providers select 2 disparities from their data; come up with strategies for intervention; track the outcome of disparities if increasing or decreasing over time and present this information at the quarterly forums to be hosted by FLPPS.

Risk: Challenges experienced with past cultural competence activities in the community and opportunities for training

Mitigation Strategies

- i. Including recipients of care representative of patient population in PPS region in developmental strategies of CC and HL design and implementation
- ii. Have focus groups with various provider types
- iii. Having patients as members of the cultural competence training team.

IPQR Module 4.4 - Major Dependencies on Organizational Workstreams

Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

Cultural Competence and Health Literacy should not be a stand-alone process or outcome but should be integrated into all levels of the organization. There will be varying levels of interdependencies among the different projects.

IT Systems and Processes - IT will be one of the key drivers. A fundamental step in identifying which populations are most at risk is to collect, analyze and report out data on race, ethnicity, English-language proficiency and SES. This guarantees subsequent actions in terms of analysis of quality of care data to identify health care needs and actions to reduce health care disparities that are found. Standardization of data across the network, its availability, how and in what format it is disseminated and the timeliness will be critical to success.

Workforce - efforts should be made to hire a workforce that is reflective of and has experience working with marginalized populations. Paying particular attention to job requirements to ensure that the applicant pool is very diverse and that individuals from cultural groups are not subconsciously blocked from getting into the workforce, for example, look for individuals who have experience working with the population but do not have academic qualifications that are not necessary in treating the patient.

Practitioner engagement – CC and HL division of FLPPS will work closely with the Provider/ Practitioner engagement branch of FLPPS to ensure that cultural competency education and training of providers is performed and evaluated periodically. Activities that serve to build the relationship between providers and FLPPS as initiated by Director of Provider Relations will be reviewed through the cultural lens of the cultural competence committee for recommendations, while the FLPPS Manager of CC and HL operations will ensure that activities are adhering to established FLPPS governing CC and HL policies and procedures under the guidance of the director of this division.

Population Health Management – The identification of key priority groups experiencing disparities as initiated through the CC and HL division will form a core component of high risk groups targeted for the domain 4 population health management projects. In addition, CC and HL will overlap

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Finger Lakes Performing Provider Systems, Inc. (PPS ID:9)**

with strategies and interventions implemented that provider patients and the wider community with greater access and education of linguistic and culturally appropriate self-management and wellness tools, and primary and preventative care services with staff that have undergone FLPPS approved cultural competency training and verified health literacy measures.

Clinical Integration – The CC and HL division will also work with the clinical oversight branch of FLPPS to inform clinical protocols particularly in the areas of care coordination and discharge procedures that take into consideration the cultural nuances of patients in PPS region to a reasonable extent, for e.g. the inclusion of connection of patients to an identified faith based leader or group to receive care and support upon discharge.

Patient Engagement and Activation (Project 2di)- Given the importance of CC to patient engagement and activation, the CC and HL branch of FLPPS will work closely with the project manager and associated patient advisory groups to conduct coordinated patient and wider community education around the importance of ownership of health care, health insurance and knowledge about local primary and preventative care resources

Communication - Both outward and inward facing communication documents, materials and correspondences should adhere to CC and HL policies and procedures. Public communication forums, broadcasts and materials as initiated through FLPPS division will be influenced by recommendations from the CC and HL committee.

Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Finger Lakes Performing Provider Systems, Inc. (PPS ID:9)**

**✓ IPQR Module 4.5 - Roles and Responsibilities**

**Instructions :**

Please list and elaborate upon the key people/organizations responsible for this workstream and describe what their responsibilities involve.

<b>Role</b>	<b>Name of person / organization (if known at this stage)</b>	<b>Key deliverables / responsibilities</b>
Executive Director and Head of Cultural Competence and Health Literacy Workgroup	Carol Tegas, FLPPS and Identified Vendor Consultant - In process of being selected	Providing leadership and guidance to ensure that FLPPS cultural competence and health literacy milestones are met. To oversee the operationalization of implementation plan and to ensure desirable integration CC and HL outcomes Works with quality assurance and quality improvement FLPPS division to ensure incorporation of CC and HL policies and procedures in FLPPS clinical efforts and outcomes.
Manager of Cultural Competency and Health Literacy Operations	Juanita Lyde (Interim), FLPPS	To coordinate the efforts in engaging the project managers and administration around the operationalization of the implementation plan. Interprets and implements the CC and HL policies and procedures at the administration level. Oversees process for CC and HL milestone reporting Internal CC and HL champion/ advocate between FLPPS and providers, serving as a liaison with the executive director and CC and HL committee and working groups Has authority to make decisions that impact CC and HL integration into project delivery including the management of CC and HL budget.
Manager of training and education	To be hired, FLPPS	Lead the development of and facilitate the implementation of the PPS's cultural competency training and education programs for providers, patients and community at large
Data Analyst	Twylla Dillion, FLPPS	Supports the data analysis components of strategic plan and work with expertise in CC and HL to identify patterns of success in provider data and areas needed for improvement.
IT Director	Jose Rosario, FLPPS	Identify or Designs and develops needed IT platform needed to facilitate bidirectional information between PPS, providers and community. Oversees data collection and facilitates its acquisition from providers.
Head of Literacy Workgroup (subcommittee of CC / HL workgroup)	Juanita Lyde (Interim), FLPPS and CCSI (Vendor Consultant)	Lead the development of the PPS's health literacy campaign and facilitate the implementation of centrally coordinated health literacy initiatives

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Finger Lakes Performing Provider Systems, Inc. (PPS ID:9)**

<b>Role</b>	<b>Name of person / organization (if known at this stage)</b>	<b>Key deliverables / responsibilities</b>
Chair of Cultural Competence and Health Literacy Committee	Colin Garwood , Starbridge Community Based Organization	Liaison between the executive body and the Cultural Competence and Health Literacy committee
Cultural Competence and Health Literacy Committee (Free-standing with its own mission and membership)	Providers and Patients representative of the PPS region	Meets regularly to contribute personal and professional experience and expertise to the initiative; Speak up for and faithfully represent community, professional, and constituency perspectives; Provide the cultural and health literacy lens to FLPPS Dedicated to addressing culture-related issues integrated within the organization, reviews services, programs with respect to CC and HL issues; works with Quality Assurance/Quality Improvement; participates in planning; directly transmits recommendations to the executive level via the Chair of committee.
Cultural Competency and Health Literacy Patient Advisory Group	Representative consumers/ patients being served by PPS Network	Meets regularly to provide sustained and regular guidance on all CC and HL strategic plan development and implementation activities as the voice of the consumer and to ensure that activities are culturally relevant and appropriate, patient centered and representative of the cultural and linguistic profile of those in FLPPS region.
Provider Relations Associate	Juanita Lyde, FLPPS	Facilitates operationalization of CC and HL by directly engaging providers in PPS network - collecting data, monitoring submission of provider performance data and educating providers around FLPPS driven CC and HL activities that are relevant to their patient outcomes data

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Finger Lakes Performing Provider Systems, Inc. (PPS ID:9)**

**✓ IPQR Module 4.6 - Key Stakeholders**

**Instructions :**

Please identify the key stakeholders involved, both within and outside the PPS.

<b>Key stakeholders</b>	<b>Role in relation to this organizational workstream</b>	<b>Key deliverables / responsibilities</b>
<b>Internal Stakeholders</b>		
Downstream providers in network	Recipients of education and training programs Participate in organizational cultural competence and health literacy assessments and data reporting. Participate and execute individualized cultural competence strategic plans.	Commit to and undertake cultural competency transformation
Local Departments of health and human services	Helps to inform and facilitate education and training programs for PPS providers Participate in organizational cultural competence and health literacy assessments and data reporting	Support and commit to PPS cultural competency transformation processes
Naturally Occurring Care Network workgroups	Provide regional support to providers in the implementation of the CC and HL strategic plan	Support PPS cultural competency transformation processes
<b>External Stakeholders</b>		
Contracted CBOs	Provide assistance in the development and execution of CC and HL work stream including entre into communities with high rates of disparity and serving as cultural brokers	Subject matter expert & patient liaison
Office of Mental Health and Community based Mental Health and Substance Abuse Providers	Provide assistance in the development and execution of CC and HL work stream including entire into communities with high rates of disparity and serving as cultural brokers, Helps to inform and facilitate education and training programs for PPS providers, Ensures integration of mental and behaviorial components/ considerations in development and implementation of CC and HL plan	Support PPS cultural competency transformation processes
Patients & Families	Recipient of improved services; contributor to design of cultural competency / health literacy initiatives through consultation	Feedback on consultations
Community at large	Recipient of improved services; contributor to design of cultural competency / health literacy initiatives through consultation	Feedback on consultations

New York State Department Of Health  
Delivery System Reform Incentive Payment Project

DSRIP Implementation Plan Project

Finger Lakes Performing Provider Systems, Inc. (PPS ID:9)

✓ IPQR Module 4.7 - IT Expectations

Instructions :

Please clearly describe how the development of shared IT infrastructure across the PPS will support the development and implementation of your cultural competency / health literacy strategy and the achievement of the milestones described above.

The development of a shared IT infrastructure will enable the following processes that are critical to Cultural Competence and Health Literacy strategy:

- Define granular data elements to be collected on a FLPPS wide capacity, including CC and HL metrics as well as data on healthcare disparities.
- Standardize data collection across the network.
- Development of IT solutions or platforms that facilitate bidirectional communication between PPS providers, FLPPS PMO, community health care centers/ entities and wider community.
- Create the data repository and accompanying data reporting tools needed to share this information among various FLPPS partners and stakeholders.
- Create dashboard that effectively tracks progress toward the elimination of disparities in key areas of focus.
- Provide technical assistance to providers who do not have the infrastructure to collect and analyze and use the data

✓ IPQR Module 4.8 - Progress Reporting

Instructions :

Please describe how you will measure the success of this organizational workstream.

The success of our Cultural Competency / Health Literacy strategy will be measured by the following:

- a. Completion of individualized provider organizational Cultural Competence and Health Literacy assessments and ensuing organizational CC and HL strategic plans
- b. Improvements in the Health Literacy and Cultural Competency of our attributed population will support our achievement of targets for reductions in avoidable emergency visits/ admissions through more effective use of the health system: Specifically the process by which we will monitor the success of our work will entail
  - i. Examining regional, sub-regional, and individualized provider performance on key metrics such as:
    1. avoidable ED use;
    2. inpatient utilization;
    3. timely connection to outpatient care, housing, and other needed services following inpatient treatment
    4. engagement in outpatient care
    5. access to care
  6. Performance in these areas will be tracked for priority cultural and socio-demographic groups
- ii. Completion of provider staff trainings by target completion date including reports by number and type of staff trained; and

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Finger Lakes Performing Provider Systems, Inc. (PPS ID:9)**

- iii. Patient involvement in specific community engagement initiatives
- c. Annual refresh of the Community Needs Assessment, that is the FLPPS performance score card, will allow the FLPPS PMO to make an annual assessment of any change in the health disparities between sub-populations identified in the CNA and assess the extent to which this change is as a result of the implemented CC and HL strategy
- d. Identify culturally informed programs that increase access to care for patients and reduce healthcare disparities in the PPS region
- e. Examining trends in workforce diversity

**Prescribed Milestones Narrative Text**

Milestone Name	Narrative Text
Perform current state assessment of IT capabilities across network, identifying any critical gaps, including readiness for data sharing and the implementation of interoperable IT platform(s).	DY2Q1 S5 Milestone 1 Narrative: Please see the attached "DY2Q1 S5 M1 Supporting Document 160801.pdf" file and the "DY2Q1 S5 M1 FLPPS IT Readiness Survey 160801.xlsx" spreadsheet, showing achievement of the Milestone.
Develop an IT Change Management Strategy.	DY2Q1 S5 Milestone 2 Remediation Narrative: Please see the attached "DY2Q1 S5 M2 FLPPS IT Change Management Strategy - Remediation.pdf". The resubmitted document addresses the following IA Remediation Request: The documentation provided does not clearly identify the PPS CIO, and the roles responsible for formulating IT Change Management Strategy.  DY2Q1 S5 Milestone 2 Narrative: Please see the attached "DY2Q1 S5 M2 Supporting Document 160801.pdf" file and the "DY2Q1 S5 M2 FLPPS IDS Gap Connectivity Plan Status.pdf" file, showing achievement of the Milestone.
Develop roadmap to achieving clinical data sharing and interoperable systems across PPS network	
Develop a specific plan for engaging attributed members in Qualifying Entities	
Develop a data security and confidentiality plan.	DY2Q1 S5 Milestone 5 Remediation Narrative: Please see the attached resubmitted Workbook files. The attachments address the following IA Remediation Request: Across all workbooks: Response defers to Microsoft Azure as being responsible for these controls. They provided a Microsoft written control overview document however, no Finger Lakes documentation (such as Policies, Procedures, Standards, example forms, network diagrams, or indicators of training provided to critical team members on when/how BC is performed, who is responsible for what, procedures followed, etc...) have been provided to confirm the existence and effectiveness of these control requirements. While Microsoft Azure many be responsible in delivery of the control services, Finger Lakes is still responsible to ensure the control(s) are being provided, tightly integrated & monitored with their internal systems and staff. All of the responses are identical (copy and pasted answers).

## DSRIP Implementation Plan Project

### Finger Lakes Performing Provider Systems, Inc. (PPS ID:9)

#### ✓ IPQR Module 5.3 - Major Risks to Implementation & Risk Mitigation Strategies

##### Instructions :

Please describe the key challenges or risks that you foresee in creating and implementing your IT governance structure, your plans for data sharing across your network, your approach to data security and confidentiality, and the achievement of the milestones described above, including the potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

Risk: This is a tight timeframe to meet FLPPS and DSRIP timelines.

Mitigation Strategy: Effective program management.

Risk: Dependencies on governance and workforce could impact this work stream.

Mitigation Strategy: Effective program management and communication across work streams.

Risk: Multi-stakeholder policy development is always a challenging and time-consuming process.

Mitigation Strategy: Engage stakeholders early and often to develop an environment of trust and a vested interest in FLPPS success. Leverage FLPPS sub-regional infrastructure (NOCNs) to engage participants at the local level.

Risk: It can be challenging to develop consensus on policies to handle specific classes of sensitive patient data such as data governed by 42.CFR.2.

Mitigation Strategy: Ensure the FLPPS team has access to experts in the field to provide guidance.

Risk: It may be challenging for the RHIO to scale up its operations to meet FLPPS needs and timelines for bi-directional connectivity with participating organizations. Related risk in managing RHIO relationship.

Mitigation Strategy: Overlap in stakeholders on Boards of both organizations will promote alignment over the course of this project. FLPPS will support outreach and onboarding efforts to the RHIO.

Risk: PPS participants use a variety of IT systems that are not currently connected.

Mitigation Strategy: The FLPPS centralized IT infrastructure leverages the RHIO to enable data mobility from source systems to the PPS, while developing advanced data normalization services to enable connectivity with non-traditional partners such as CBOs.

Risk: 2.a.i requires a broad spectrum of clinical and non-clinical providers (CBOs) to engage in various forms of IT adoption, care coordination and information sharing, which poses a significant financial and operational burden (change) on these providers they may not perceive the value of this effort.

Mitigation Strategy: Engage in early partner education and change management; consider deploying centralized technical assistance, hands-on support and meaningful financial incentives for incremental change and planning engagement.

Risk: Lack of compliance with PPS data security policies and procedures.

Mitigation Strategy: FLPPS will develop guidelines and educational content on data security policies and procedures, that will be thoroughly presented to participant staff as part of their onboarding and go-live processes. FLPPS will also conduct data security audits on a quarterly basis with a random set of participating organizations.

# New York State Department Of Health Delivery System Reform Incentive Payment Project

## DSRIP Implementation Plan Project

### Finger Lakes Performing Provider Systems, Inc. (PPS ID:9)

#### IPQR Module 5.4 - Major Dependencies on Organizational Workstreams

##### Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

The IT work stream is specifically dependent on the Workforce and Clinical Strategy work stream and co-dependent with the Governance work stream and Finance committee. The Workforce Strategy will dictate the availability of the specific engineers and IT subject-matter experts who will be responsible for executing the IT Systems and Processes work stream, while the Clinical committee will inform project requirements, functional needs and priorities for workflow improvements; as well as data elements for capture, reporting and sharing. The policy process elements of the IT work stream overlap with the work of the Governance work stream. A successful governance model and process will allow data access, data security, and other policy elements to be developed in a time-effective manner, and with a wide degree of stakeholder buy-in across partners and RHIO(s). Similarly, successful execution and completion of the IT policy and process tasks under the purview of this work stream will impact the capability of the Governance work stream to provide a comprehensive governance framework for the PPS as a whole that includes robust data governance components. Most other work streams are highly dependent on the success of this work stream as it will lay the IT infrastructure upon which the others will operate, particularly the Performance Reporting, Population Health Management, and Clinical Integration work streams. The Finance committee will provide the contractual support and incentive for the IT strategy as an "enforcer" to align partners around standard, clear performance expectations, resource requirements and available funding. The funds flow work stream will directly impact availability of funds for IT, both in terms of timing and overall amount, which will require that the IT committee, in partnership with appropriate stakeholders appropriately vet priorities for investment. Limitations or delays in funds may significantly impact the IT strategy, which necessitates that the IT committee have fallback plans and work-arounds to achieve critical functionality and core solutions to address scale and speed requirements.

Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Finger Lakes Performing Provider Systems, Inc. (PPS ID:9)**

**✓ IPQR Module 5.5 - Roles and Responsibilities**

**Instructions :**

Please list and elaborate upon the key people/organizations responsible for this organizational workstream and describe what their responsibilities involve.

<b>Role</b>	<b>Name of person / organization (if known at this stage)</b>	<b>Key deliverables / responsibilities</b>
Oversight and accountability for delivery of performance reporting capability	FLPPS CIO (or Director of IT, Jose Rosario - FLPPS)	Performance reporting infrastructure (design, planning and implementation) Coordination with NYDOH, PPS partners and other sources for data collection Development of dashboards to enable performance management and rapid cycle evaluation Management and oversight of performance reporting and data collection staff and project leads, including engagement of committees and governance leads to inform process
Responsible for informing development of performance tools, monitoring performance of partners and PPS, informing process improvement and corrective action	FLPPS Executive Director, Carol Tegas	Inform identification of key indicators and operational, clinical, financial, quality and other performance metrics Responsible for informing development of dashboards, performance thresholds, reviewing data/reports and making recommendations to Governing Board on necessary actions
Responsible for determining appropriate actions to ensure PPS performance based on available information	FLPPS Governing Board	Responsible for reviewing dashboards and performance recommendations from leadership and committees and making decisions for PPS to ensure necessary process improvements, corrective actions, etc.
Operational leadership and Performance management oversight	FLPPS Director of IT, Jose Rosario	Development of performance management and reporting tools Development of dashboards as needed by PPS leadership, committees and providers IT implementation plan management; daily oversight of project teams and vendors Lead development of technical assistance and resources with vendors, project teams, etc.

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Finger Lakes Performing Provider Systems, Inc. (PPS ID:9)**

**✓ IPQR Module 5.6 - Key Stakeholders**

**Instructions :**

Please identify the key stakeholders involved, both within and outside the PPS.

<b>Key stakeholders</b>	<b>Role in relation to this organizational workstream</b>	<b>Key deliverables / responsibilities</b>
<b>Internal Stakeholders</b>		
Reporting Manager	Collect submitted data to track measure and visualize performance (month over month)	Author reports and dashboards for Project Manager and Leadership to monitor the performance of provider outcomes being reported
Data Analyst	Conduct detailed analysis on provider reporting, claims and clinical data	Author reports that provide insightful visualizations, interpretations, segmentation and correlations on data collected from multiple sources.
PPS Partners	Submit data and review dashboards	Based on reports and data, adapt DSRIP performance, strategies and initiatives to achieve metrics/milestones and/or bridge gaps to goal measures; provide timely reporting and submission of data in specified manner/format
<b>External Stakeholders</b>		
NYDOH	Provision of statewide/PPS dashboards and performance data	Provide data, including claims data, consolidated reports and web-based dashboards for PPSs for performance management; provide templates for DSRIP performance reporting; provide common operational definitions for metrics and milestones and reporting requirements; provide guidance on performance improvement opportunities and evidence-based guidance and PPS benchmark data
Patients, Advocates and Caregivers (consumers)	Member Satisfaction and loyalty	Provide direct and indirect feedback to FLPPS. Direct feedback through patient satisfaction surveys, HCAHPS, CAHPS, etc. as well as indirect feedback through utilization patterns - preferred providers will have higher demand. Planning process will include engagement of consumer input in design of services, user engagement/activation tools and marketing, outreach and education
MCOs	Provision of benchmark data and support in development of population health analytic tools	Coordinate with PPS in provision of benchmark data to support performance management; potential for contract negotiation based on improved total cost management

# New York State Department Of Health Delivery System Reform Incentive Payment Project

## DSRIP Implementation Plan Project

### Finger Lakes Performing Provider Systems, Inc. (PPS ID:9)

#### ✅ IPQR Module 5.7 - Progress Reporting

##### Instructions :

Please describe how you will measure the success of this organizational workstream.

The IT work stream leadership will develop a comprehensive implementation plan, supplemented by a GANTT chart outlining quarterly milestones based on performance requirements (DSRIP) and implementation milestones for the PPS IT strategy. The implementation plan will provide a measurable guide for progress that will be regularly shared with Leadership and collaborating committees to ensure provision of deliverables, services and functionality in line with PPS scale and speed, and overall PPS IT requirements. In addition to IT implementation progress tracking and management, the committee will engage in PPS partner feedback requests through surveys and discussion forums to ensure solutions and services continually meet partner needs, expectations and deliver value. Progress reporting will encompass the tracking of partner progress toward key milestones, including status of MU, PCMH level-III, HIE Connectivity, bidirectional data sharing and ability to engage in alerts/messaging. This information will be tracked within the FLPPS CRM tool, which will capture such metrics and tie directly to State reporting tools and performance management systems within FLPPS. As more advanced reporting capabilities are established, the IT committee will define the minimum necessary, most basic means to enable interim reporting for the first 6-12 months of DSRIP to enable data collection and tracking of key activities and metrics while the long term progress reporting solutions are developed. These tools will tie directly to the responsibilities defined within contractual agreements and status updates will be provided to leadership as a means of providing PPS-wide progress updates, risk mitigation and process improvement for DSRIP implementation.

DSRIP Implementation Plan Project

Finger Lakes Performing Provider Systems, Inc. (PPS ID:9)

IPQR Module 6.3 - Major Risks to Implementation & Risk Mitigation Strategies

**Instructions :**

Please describe the key challenges or risks that you foresee in implementing performance reporting structures and processes and effective performance management within your network, including potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

R: There is currently lack of definition on the performance monitoring and reporting infrastructure that will be provided by NYSDOH relative to what will be provided by the PPS and/or providers themselves.  
M: Close collaboration and transparency with NYSDOH.

R: Defining performance metrics in multi-stakeholder environments often takes significant time and effort.  
M: Develop initial set of measures with input from NYSDOH and experts in the field, with stakeholder input throughout the process.

R: Some FLPPS members may not want their performance outcomes to be evaluated or compared with their competitors' performance.  
M: Develop a communications strategy to address these concerns.

R: Uncertainty of access to CRFP funding for capital investments targeted for population health management infrastructure.  
M: Seek out alternative solutions to meeting the population health requirements, which include leveraging less than ideal options in our community. This could have a significant impact in our ability to deliver a solution the meets DSRIP objectives around 2.a.i.

IPQR Module 6.4 - Major Dependencies on Organizational Workstreams

**Instructions :**

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

Performance reporting will require close coordination with other FLPPS committees, leadership, Board and Executive committee to ensure all key metrics and indicators are effectively tracked, captured, reported and maintained in a central data repository. Each respective committee, e.g. workforce, finance, IT, etc. will define key indicators, thresholds for performance (e.g. max and min) for performance monitoring. Monitoring and reporting will support PPS governance, rapid cycle evaluation and partner funds flow distribution in alignment with performance-based contract requirements and expectations. Careful coordination will be required with project leads and committees to determine these indicators and the best, most efficient means for standardized, consistent data collection and reporting. Successful PPS reporting will require the development of a CRM tool that will enable easy tracking of partner performance and deployment of PPS governance and provider dashboards. In addition, the Performance reporting will coordinate with NYDOH to ensure alignment and fulfillment of reporting requirements.

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Finger Lakes Performing Provider Systems, Inc. (PPS ID:9)**

**✓ IPQR Module 6.5 - Roles and Responsibilities**

**Instructions :**

Please list and elaborate upon the key people/organizations responsible for this organizational workstream and describe what their responsibilities involve.

<b>Role</b>	<b>Name of person / organization (if known at this stage)</b>	<b>Key deliverables / responsibilities</b>
FLPPS Director of IT	Jose Rosario, FLPPS	Oversight and accountability for delivery of performance reporting capability; Performance reporting infrastructure (design, planning and implementation) Coordination with NYDOH, PPS partners and other sources for data collection Development of dashboards to enable performance management and rapid cycle evaluation Management and oversight of performance reporting and data collection staff and project leads, including engagement of committees and governance leads to inform process.
FLPPS Executive Director	Carol Tegas, FLPPS	Responsible for informing development of performance tools, monitoring performance of partners and PPS, informing process improvement and corrective action; Inform identification of key indicators and operational, clinical, financial, quality and other performance metrics. Responsible for informing development of dashboards, performance thresholds, reviewing data/reports and making recommendations to Governing Board on necessary actions.
FLPPS Board of Directors (Governing board)	See FLPPS.org for current membership of BoD representing organizations across the PPS	Responsible for determining appropriate actions to ensure PPS performance based on available information; Responsible for reviewing dashboards and performance recommendations from leadership and committees and making decisions for PPS to ensure necessary process improvements, corrective actions, etc.
FLPPS Director of IT	Jose Rosario, FLPPS	Operational leadership and Performance management oversight; Development of performance management and reporting tools Development of dashboards as needed by PPS leadership, committees and providers; IT implementation plan management; daily oversight of project teams and vendors; Lead development of technical assistance and resources with vendors, project teams, etc.
FLPPS Reporting Manager	Oswaldo Salazar, FLPPS	Monitors the changes and development of the NY DSRIP reporting

		<p>requirements on-going. Oversees the establishment and maintenance of all organizational and project documentation including all files, records and reports according to DSRIP reporting requirements. Leads and manage the quarterly reporting review/audit of supporting documentation and reporting written materials for quality, compliance, accuracy and completeness in accordance with FLPPS and NYSDOH defined requirements. Oversees development of key content and analyzes the completion of quarterly reporting and other required DSRIP filings and disclosures. Reviews all areas, providing submissions to DOH for consistency, accuracy, and support for outcomes.</p>

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Finger Lakes Performing Provider Systems, Inc. (PPS ID:9)**

**✓ IPQR Module 6.6 - Key Stakeholders**

**Instructions :**

Please identify the key stakeholders involved, both within and outside the PPS.

<b>Key stakeholders</b>	<b>Role in relation to this organizational workstream</b>	<b>Key deliverables / responsibilities</b>
<b>Internal Stakeholders</b>		
Reporting Manager, FLPPS	Collect submitted data to track, measure and visualize performance (month over month), including but not limited to Patient Engagement, Domain 2-4 outcomes in real time.	Author reports and dashboards for Project Managers and Leadership to monitor the performance of provider outcomes being reported, including but not limited to Patient Engagement, Domain 2-4 outcomes in real time; manage reporting process internally within FLPPS PMO and externally with PPS partners.
Data Analyst, FLPPS	Conduct detailed analysis on provider reporting, claims and clinical data.	Author reports that provide insightful visualizations, interpretations, segmentation and correlations on data collected from multiple sources.
PPS Partners	Submit data and review dashboards, make improvements in clinical outcome areas, engage patients for performance requirements of DSRIP.	Based on reports and data, adapt DSRIP performance, strategies and initiatives to achieve metrics/milestones and/or bridge gaps to goal measures; provide timely reporting and submission of data in specified manner/format.
Data Coordinator, FLPPS	Collect, organize and format data, from multiple sources (internal/external) needed for reporting.	Gather desperate reporting information that is necessary for reporting, and prepare for analysis and final documentation. This includes organizing, sorting, and normalizing prior to processing.
<b>External Stakeholders</b>		
NYDOH	Provision of statewide/PPS dashboards and performance data for Domains 2-4.	Provide data, including claims data, consolidated reports and web-based dashboards for PPSs for performance management; provide templates for DSRIP performance reporting; provide common operational definitions for metrics and milestones and reporting requirements; provide guidance on performance improvement opportunities and evidence-based guidance and PPS benchmark data.
Patients, Advocates and Caregivers (consumers)	Member Satisfaction and loyalty.	Provide direct and indirect feedback to FLPPS. Direct feedback through patient satisfaction surveys, HCAHPS, CAHPS, etc. as well as indirect feedback through utilization patterns - preferred providers will have higher demand. Planning process will include engagement of consumer input in design of services, user engagement/activation tools and marketing, outreach and education.

**Finger Lakes Performing Provider Systems, Inc. (PPS ID:9)**

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
MCOs	Provision of claims data, benchmark data and support in development of population health analytic tools.	Coordinate with PPS in provision of claims data and benchmark data to support performance management; potential for contract negotiation based on improved total cost management.

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Finger Lakes Performing Provider Systems, Inc. (PPS ID:9)**

**✔ IPQR Module 6.7 - IT Expectations**

**Instructions :**

Please clearly describe how the development of shared IT infrastructure across the PPS will support your approach to performance reporting.

A shared IT infrastructure will enable consistent and standardized reporting across the PPS, by provider type; enabling the governing body, committees, partner organizations and individual providers to understand performance goals and current performance with relation to peers and other PPSs. Performance reporting will include web-based dashboards with aggregate public data for performance management. PPS partners will be provided with reporting templates and ultimately web-based portal and/or HIE connectivity for data extraction/collection for performance reporting that will leverage current reporting systems and processes for State and Federal reporting as appropriate.

**✔ IPQR Module 6.8 - Progress Reporting**

**Instructions :**

Please describe how you will measure the success of this organizational workstream.

Success will be measured by the progress in planning, design and deployment of the performance reporting processes, tools and centralized dashboard with user access. Performance reporting will begin as a more manual process, with increasing automation, queries, user features and data points over time. The IT Committee, in coordination with PPS governance and committee leadership will define the requirements and milestones for performance reporting capabilities and timeline, in line with State provided reporting tools, data and timelines.

DSRIP Implementation Plan Project

Finger Lakes Performing Provider Systems, Inc. (PPS ID:9)

IPQR Module 7.3 - Major Risks to Implementation & Risk Mitigation Strategies

Instructions :

Please describe the current level of engagement of your physician community in the DSRIP program and describe the key challenges or risks that you foresee in implementing your plans for physician engagement and achieving the milestones described above. Describe any potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

FLPPS covers one of the largest geographic footprints of any PPSs across NYS, with over 600 partners representing 13 counties. FLPPS partnership also covers not only a significant number of lives, but also sheer number of partners, which creates a communication challenge as we have to rely upon mass communication strategy, which can appear impersonal; it is also difficult to find locations and times that are convenient for all partners to participate. As a result, at the time of submittal, while there have been significant opportunities for FLPPS Partners to engage with FLPPS central, through in-person meetings, webinars, governance, and surveys - FLPPS partners participate in these activities at a rate of approximately 25 - 50% across all previously listed opportunities for engagement. This number needs to increase in order to ensure complete integration across our vast geographic footprint.

All attested providers do not fully understand the terms of their attestation and role in participating in our network. With further education, some providers may not decide there is significant value in participating in the FLPPS network. Given the knowledge of the 0 or 1 achievement value score in quarterly reporting, individual providers may determine there is too much risk in participating in a network that may not be able to meet every stated provider outcome. There is a very slim likelihood that all providers will have the resources, and desire to achieve PCMH to participate in the network. Given that one provider's choice to not pursue PCMH, has the potential to undermine the success of the other partners, could prove to be too great of a risk. FLPPS also recognizes that it is extremely difficult to engage with clinicians already hampered with incredibly demanding clinical schedules, and competing work-life priorities. For employed physicians, who do not see the ultimate financial gain, they will have to understand how the network resources will assist them to better care for their more complex patients. Across the remainder of DY0 and Q2DY1 the practitioner engagement team and communications team will make it a priority to focus on individualized meetings with clinicians, in their offices, to ensure adequate face to face time, education and deeper levels of engagement for clinicians.

In order for FLPPS to be successful around practitioner engagement, the team is heavily reliant upon the success of FLPPS central - partner contracting, a centralized, highly complicated IT infrastructure to ensure clinical integration (Capital dependent) and the funds flow from the State down to the PPS level. There are many skeptics among the partner base, as they don't yet understand if the funds and centralized services needed to be successful under DSRIP will be made available to them in a timely manner, which makes the next phase of DSRIP (implementation) intimidating.

Lastly, the success of provider engagement relies heavily upon the relationships built by the staff, which could be jeopardized by staff turnover; staff satisfaction and retention is critically important, as well as the establishment of a robust training process, so we can train new staff quickly and effectively.

IPQR Module 7.4 - Major Dependencies on Organizational Workstreams

Instructions :

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Finger Lakes Performing Provider Systems, Inc. (PPS ID:9)**

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

The value proposition for PPS partners is anticipated to be one of three: financial incentive, support in health care delivery, and/or benefits gained through economies of scale and centralized services. To achieve this value, we will need to rely upon timely funds flow, beneficial contracting and support from large health system/safety net employers. If funds do not flow in a timely manner, few organizations will be able to justify the extra effort and time invested in the start-up. Without defined funds flow we will also be limited in our contract execution with providers as organizations will not commit to terms that are not clearly defined. And finally, for employed clinicians who are not directly affected by the funds flow, they will need encouragement and support from the systems they are employed by, in addition to a clear promise of clinical success. Given this, we could experience dependencies on the following work streams: Governance, Contracting, Population Health Management, Cultural Competency & Health Literacy, Clinical Integration, IT Integration, Budget/Funds Flow/Financing, Workforce, and individual Projects.

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Finger Lakes Performing Provider Systems, Inc. (PPS ID:9)**

**✓ IPQR Module 7.5 - Roles and Responsibilities**

**Instructions :**

Please list and elaborate upon the key people/organizations responsible for this organizational workstream and describe what their responsibilities involve.

<b>Role</b>	<b>Name of person / organization (if known at this stage)</b>	<b>Key deliverables / responsibilities</b>
FLPPS Director, Provider Engagement	Erin Barry, Director of Provider Relations (FLPPS)	Engagement Strategy/Network Development/Provider Relations & Oversight
FLPPS Communication Director	Meredith Rutherford, Director of Communications (FLPPS)	Communications Strategy & Oversight
FLPPS Central - Support Staff - Provider Relations & Communications	John Paul Perez, Provider Relations Associate (FLPPS) Yisette Rivas, Provider Relations Associate (FLPPS) Tricia Williams, Provider Relations Associate (FLPPS) Heather Garbarino, Provider Relations Associate (FLPPS) Juanita Lyde, Provider Relations Associate (FLPPS)	Support NOCN workgroups, assist in provider engagement, support services and communication planning
FLPPS Project Management Office	FLPPS Project Managers (Darlene Walker, Peter Bauman, Teresa Bales, Joshua Jinks, Doug Hurlbut, Nathan Franus, Tammy Butler, Collene Burns, Joshua Jinks, Jennifer Dunivent).	Management of 11 projects, partner support in implementation and reporting
FLPPS Governance Model	FLPPS Board of Directors, NOCN Workgroups, Operations Committees, Clinical Quality Sub-Committees.	Oversight of centralized decision making; monitoring and encouragement of practitioner involvement in all levels of decision making; outreach to practitioners to ensure seamless communication at all levels; support for practitioner engagement activities
IT Committee	Committee members, led by co-chairs Gary Scialdone (URMC) and Michael Larche (Rochester Regional Health)	Information Sharing; IT Integration across PPS
Clinical Committee	Committee members, led by co-chairs Dr. Marc Berliant (URMC) and Dr. Michael Nazar (Rochester Regional Health)	Clinical quality oversight
Workforce Committee	Committee members, led by co-chairs Dan Ornt (Rochester Institute of Technology) and Kathy Rideout (URMC)	Support of all partners in workforce development, planning & training
Cultural Competency & Health Literacy Workgroup	Committee members, led by interim chair Colin Garwood.	Support around education, training and implementation or work plans with a focus on CC&HL
Transportation Committee	Committee members, led by co-chairs William McDonald (Medical Motors) at Patrick Rogers (Institute for Human Services)	Support around transportation mitigation strategy relative to projects, support of partners struggling with transportation related issues
FLPPS PCMH Support Team	Deb Blanchard, Project Director Nancy Herman, Project Manager	PCMH Support; Operations Support for Clinicians in provider network

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Finger Lakes Performing Provider Systems, Inc. (PPS ID:9)**

**✓ IPQR Module 7.6 - Key Stakeholders**

**Instructions :**

Please identify the key stakeholders involved, both within and outside the PPS.

<b>Key stakeholders</b>	<b>Role in relation to this organizational workstream</b>	<b>Key deliverables / responsibilities</b>
<b>Internal Stakeholders</b>		
FLPPS Project Management Office	Management of 11 projects, partner support in implementation and reporting	Guide development and outcomes for 11 projects, partner support in implementation and reporting
FLPPS Governance Model	Oversight of centralized decision making; monitoring and encouragement of practitioner involvement in all levels of decision making; outreach to practitioners to ensure seamless communication at all levels; support for practitioner engagement activities	Centralized decision making; Ensure practitioner involvement in all levels of decision making; ensure seamless communication at all levels; support practitioner engagement activities
IT Committee	Advise and inform the creation of Information Sharing; IT Integration across PPS	Information Sharing; IT Integration across PPS
Clinical Committee	Clinical quality oversight	Clinical quality across all projects
Workforce Committee	Support of all partners in workforce development, planning & training	Workforce development plan & training
Cultural Competency & Health Literacy Workgroup	CC&HL focused support around education, training and implementation of work plans	Ensure CC&HL are incorporated in all education, training and implementation or work plans
Transportation Committee	Support project-level transportation mitigation strategies and individual partners struggling with transportation related issues	Development of project-level transportation mitigation strategy
FLPPS PCMH & Workflow Design Support Team	PCMH Support; Operations Support for Clinicians in provider network	PCMH Support provided to PCP attested providers
Directors of Public and Community Services	Participate in organizational committees and NOCN workgroups, to advise public sector influence and potential impact to 11 DSRIP projects	Provide information on public resources available in each county and identify key participants to contribute to transformation activities.
<b>External Stakeholders</b>		
All FLPPS Partners	Partners in developing IDS collaboration with PMO and other FLPPS partners	Regional collaboration to develop IDS
Medicaid Community Members/Patients	Serve as a key guiding member in the FLPPS governance structure and offer the patient perspective in developing the IDS	Meeting attendance and participation
Monroe County Medical Society	Ensure collaboration and inclusion of physicians	Regular DSRIP related communications with physician community

# New York State Department Of Health Delivery System Reform Incentive Payment Project

## DSRIP Implementation Plan Project

### Finger Lakes Performing Provider Systems, Inc. (PPS ID:9)

#### ✅ IPQR Module 7.7 - IT Expectations

##### Instructions :

Please clearly describe how the development of shared IT infrastructure across the PPS will support this particular workstream.

The goal of the proposed IT strategy is centered around data sharing and coordination across the PPS network, particularly the practitioner through the provider portal, care coordination and analytics platform, and EHR-RHIO connectivity. These platforms will connect practitioners, which will be crucial to the providers operating in rural communities, allowing them access to critical functionality such as dashboards, performance reporting, patient alerts, secure messaging, and care management tools across the 13 counties, which will engage and help them efficiently coordinate care, across the network. The ability of the PPSs interoperability strategy will delivery efficient, high value-added solutions that will facilitate practitioner engagement through to tools that support better time management and improve overall provider satisfaction.

#### ✅ IPQR Module 7.8 - Progress Reporting

##### Instructions :

Please describe how you will measure the success of this organizational workstream.

FLPPS will be employing a partner management/customer relationship management (CRM) system (Salesforce) to help track all touches and interactions with partners. The purpose of the Provider Relations Team, in concert with the FLPPS Project Management Team is to support partners in achieving their success. Success will be measured in contract fulfillment, engagement in network activities, achievement of network and partner speed and scale; and ultimately the success of the entire partnership (PPS) in reporting and performance as a network.

#### IPQR Module 7.9 - IA Monitoring

##### Instructions :

# New York State Department Of Health Delivery System Reform Incentive Payment Project

## DSRIP Implementation Plan Project

### Finger Lakes Performing Provider Systems, Inc. (PPS ID:9)

#### IPQR Module 8.3 - Major Risks to Implementation & Risk Mitigation Strategies

##### Instructions :

Please describe the key challenges or risks that you foresee in implementing these cross-cutting organizational strategies, including potential impacts on specific projects and, crucially, any risks that will undermine your ability to achieve outcome measure targets.

The largest current challenge for this project is the need to assure integration with other activities taking place under New York State's Prevention Agenda, including required updates of Public Health Community Health Improvement Plans and Hospital Community Service Plans, which are taking place over the next several months. In response, FLPPS has delayed the naming of a target population while these activities take place and has arranged formal interviews and focus groups with those completing these activities. This should ensure that the FLPPS population health road map accounts for the region's existing population health infrastructure, filling gaps and creating better integration as necessary.

#### IPQR Module 8.4 - Major Dependencies on Organizational Workstreams

##### Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

As population health is a core deliverable of health system transformation, there are interdependencies across all PPS-selected processes and all PPS work streams. This includes the following:

Clinical Integration work stream for the completion of the Clinical Integration Needs Assessment

IT Systems & Processes - completion of the Current IT Assessment and development of IT infrastructure required to implement population health management.

Workforce - completion of Workforce Assessment and support for increasing staff used to perform population health management throughout partner providers (including community based organizations)

Provider Engagement - ensure providers understand and support population health management strategies of target populations

Cultural Competency - it will be crucial to incorporate cultural competency into the population health management strategy to successfully engage patients to better manage chronic diseases and feel empowered to do so

Performance Reporting - this work stream will be essential to properly track outcomes that can be used to identify value add interventions to the PPS target population(s).

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Finger Lakes Performing Provider Systems, Inc. (PPS ID:9)**

**☑ IPQR Module 8.5 - Roles and Responsibilities**

**Instructions :**

Please list and elaborate upon the key people/organizations responsible for this organizational work stream and describe what their responsibilities involve.

<b>Role</b>	<b>Name of person / organization (if known at this stage)</b>	<b>Key deliverables / responsibilities</b>
FLPPS 2.a.i IDS Project Manager	Jennifer Dunivent, FLPPS	Ensure Population health management activities are carried out and achieved through project management oversight of population health management, engage key internal and external leadership and PPS partners to develop and implement population health and bed reduction strategies
FLPPS IT Director	Jose Rosario, FLPPS	IT Strategy & Implementation of IT infrastructure, understand and implement IT requirements of population health strategy for PPS
FLPPS 4.b.ii Domain 4 Project Manager & Associated Project Workgroup	Jennifer Dunivent, FLPPS; Project Workgroup represented by partners across the PPS	Development of comprehensive assessment for population health strategy, communicate strategy and help implement within home organizations across the PPS, Conduct gap analysis required to successfully create population health roadmap
FLPPS 2.a.i IDS Project Manager & PPS PCMH Support	Jennifer Dunivent, FLPPS & Deb Blanchard, FLPPS	Engage PCPs across the PPS to implement 2014 NCQA Level 3 PCMH and implementation of pop-health strategy and any necessary support for bed-reduction strategy

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Finger Lakes Performing Provider Systems, Inc. (PPS ID:9)**

**✓ IPQR Module 8.6 - Key Stakeholders**

**Instructions :**

Please identify the key stakeholders involved, both within and outside the PPS.

<b>Key stakeholders</b>	<b>Role in relation to this organizational workstream</b>	<b>Key deliverables / responsibilities</b>
<b>Internal Stakeholders</b>		
FLPPS Naturally Occurring Care Network Committees	Supporting Committee in PPS governance structure, should ensure communication and support of PPS Population Health and Bed Reduction Strategies	Participate in regional analysis and support implementation of Population Health Management Strategies
FLPPS Clinical Quality Committee	Supporting Committee in PPS governance structure, should ensure communication and support of PPS Population Health and Bed Reduction Strategies	Review and provide feedback on Population Health Roadmap and Bed Reduction Strategy before review/approval by Board
FLPPS Provider Engagement Team	This team will continue to engage providers and serve as another channel to send and receive information. Maintaining an engaged network will support the PPS goal of clinical integration	Maintaining provider engagement through training and implementation
<b>External Stakeholders</b>		
FLPPS Providers	PPS Partner Organizations responsible for adopting and implementing strategies outlined in work stream	Participate in data collection activities, implement necessary activities to achieve goals in work stream
County Health Departments	Supporting Organizations of PPS activities	Participate in Prevention Agenda analysis and offer insights toward population health management strategy
RHIOs	Supporting Organizations of PPS activities	Partnering with FLPPS to develop infrastructure as needed to support goals of DSRIP, specifically around population health management

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Finger Lakes Performing Provider Systems, Inc. (PPS ID:9)**

**✓ IPQR Module 8.7 - IT Expectations**

**Instructions :**

Please describe the current Population Health Management IT capabilities in place throughout your PPS network and what your plans are at this stage for leveraging these capabilities and/or developing new IT infrastructure.

The current state of population health management IT capabilities is fragmented and inconsistent throughout the PPS. Providers who have participated in Meaningful Use or Patient Centered Medical Home programs are more likely to have EHR required to support local, practice based population health management but not all PCP or Non-PCP specialists have implemented such an EHR. A thorough IT Current State assessment will be conducted to understand the complete current state, supporting the development of an EHR and interoperability strategy that will lay the foundation of PPS population health management. Central to the PPS a care management platform will be deployed that will enable care coordination and management at the population level (further supported by a yet to be identified specific population health management IT solution that includes the ability to measure and improve the population health status through the use of analytics, reporting and registries). The infrastructure created to support population health will certainly benefit other projects as well as providers participating in other projects would be able to leverage the IT systems to achieve the requirements of those projects.

**✓ IPQR Module 8.8 - Progress Reporting**

**Instructions :**

Please describe how you will measure the success of this organizational workstream.

Success in Population Health Management will be measured against the successful achievement of the Domain 1 metrics for project 2.a.i and the achievement of the project milestones of the two Domain 4 projects. As the IT infrastructure is established and population health management is engaged through the work of project 2.a.i (DY2, Q4, per the project Domain 1 Requirement 6) ongoing success will be evaluated against the Population Health Status metrics per the Prevention Agenda as well as the PPS' achievement of DSRIP performance payments related to Domains 2 and 3.

Delivery System Reform Incentive Payment Project

DSRIP Implementation Plan Project

Finger Lakes Performing Provider Systems, Inc. (PPS ID:9)

IPQR Module 9.3 - Major Risks to Implementation & Risk Mitigation Strategies

Instructions :

Please describe the key challenges or risks that you foresee in improving the level of clinical integration throughout your network and achieving the milestones described above. Describe potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

There are several risks to improving the level of clinical integration throughout the network:

Information Technology - Improving clinical integration relies on the successful implementation of interoperable EHR by partners of the PPS. Not only does the EHR come with a cost but the interfaces are expensive to implement. This high cost creates a risk that not all partners in the PPS will be able to achieve the required level of interoperability. To mitigate this risk the PPS applied for capital funding through the CFRP process and received it to cover the costs of the interfaces required to achieve the IT interoperability, and has plans to support volume based purchasing of EHR throughout the PPS to reduce the high purchase cost of the PPS providers. The PPS will also engage in early partner education and change management, as well as consider deploying centralized technical assistance, hands-on support and meaningful financial incentives for incremental change and planning engagement.

PPS Organization Engagement - The introduction of additional protocols and outcome data introduces complexity to an already complex industry and may serve to disengage providers from the DSRIP projects. To mitigate this risk FLPPS will work with project teams, regional leadership, and oversight committees to ensure that new protocols/information is able to be worked into existing workflows as seamlessly as possible. Further a provider engagement team will serve to meter the satisfaction of PPS providers and ensure that partners remain engaged over the full 5 years.

IPQR Module 9.4 - Major Dependencies on Organizational Workstreams

Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

There are several interdependencies with other work streams, including IT Systems, Workforce, and Provider Engagement.

IT Systems - The clinical integration strategy will rely on input from the IT committee that includes the data sharing and interoperable systems roadmap document.

Workforce - Clinical integration relies on the workforce strategy to train/retrain staff on care coordination, transition, and communication tools developed by the PPS.

Clinical Quality Sub-committees (Project Teams) - Clinical integration processes and tools to support care transitions and coordination will be initially informed by the CQsC's for specific modalities of care. These will be collected, reviewed and adopted across the PPS to achieve full clinical integration, which will be collected and reviewed by the clinical quality committee and adopted across the PPS.

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Finger Lakes Performing Provider Systems, Inc. (PPS ID:9)**

Finance - The clinical integration strategy will rely on input from the Finance oversight committee that includes the value based payment plan document.

Provider/practitioner Engagement - Clinical integration relies on workflows to implement clinical protocols and utilize IT tools. To this end the Clinical Integration Strategy will need to be informed by the FLPPS provider relations team to determine how best to communicate throughout the PPS and ensure provider engagement.

Cultural competency/health literacy - The PPS' ability to be perceived as trustworthy in the community will be important to the success. The Integration Strategy will consider approaching various populations of providers differently based on the populations they serve and the needs of those patient populations.

Population Health - The Clinical Integration of the PPS will require a close partnership with the Population Health work stream to ensure alignment of evidence based protocols and understanding of the population health management roadmap.

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Finger Lakes Performing Provider Systems, Inc. (PPS ID:9)**

**✓ IPQR Module 9.5 - Roles and Responsibilities**

**Instructions :**

Please list and elaborate upon the key people/organizations responsible for this organizational workstream and describe what their responsibilities involve.

<b>Role</b>	<b>Name of person / organization (if known at this stage)</b>	<b>Key deliverables / responsibilities</b>
FLPPS 2.a.i IDS Project Manager	Jennifer Dunivent, FLPPS	Managing Completion of Clinical Integration Needs Assessment and Clinical Integration within established timeline
FLPPS IT Director	Jose Rosario, FLPPS	Operationalizing vision of central PPS IT services; facilitating interoperability among partner providers
Medical Director (or equivalent)	Dr. Sahar Elezabi	Managing Clinical processes within the projects as well as ensuring Clinical Integration within the IDS. In addition, she will monitor clinical outcomes within the PPS and report up to the Clinical Quality Committee.
Project Managers, multiple	See FLPPS.org for current staff and project assignments	Identify & communicate clinical integration elements and concerns from work with Project Teams and PPS Partners
FLPPS Clinical Quality Committee	See FLPPS.org for current committee membership	Attend regular meetings; understand all projects including IDS vision; review and approve clinical integration needs assessment and strategy as outlined in Clinical Integration implementation plan, help ensure clinical integration occurs across the PPS

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Finger Lakes Performing Provider Systems, Inc. (PPS ID:9)**

**✓ IPQR Module 9.6 - Key Stakeholders**

**Instructions :**

Please identify the key stakeholders involved, both within and outside the PPS.

<b>Key stakeholders</b>	<b>Role in relation to this organizational workstream</b>	<b>Key deliverables / responsibilities</b>
<b>Internal Stakeholders</b>		
Attested Providers et. Al	Network provider organizations that include all provider types within the PPS.	Inform Clinical Integration strategy; Train and implement care transition/coordination processes and tools; complete organizational assessments as needed; implement projects and work towards achieving clinical integration with other PPS partners
Provider Engagement Team	This team will continue to engage providers and serve as another channel to send and receive information. Maintaining an engaged network will support the PPS goal of clinical integration	Maintaining provider engagement through training and implementation
Naturally Occurring Care Network Committees	Made up of local providers who already have established relationships with providers in the community, these regional committees will support the PPS goal of clinical integration.	Inform protocols, processes and tools, as well as support training throughout region
<b>External Stakeholders</b>		
NYS DOH	DSRIP oversight	Provide guidance to FLPPS as needed regarding clinical integration
Medicaid Managed Care Organizations	Payers	Participate as necessary to develop incentive structure to promote clinical integration
Accountable Care Organizations	Supporting Organization	Inform clinical integration strategy
RHIOs	Supporting Organization	Partnering with FLPPS to develop infrastructure as needed to support goals of DSRIP

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Finger Lakes Performing Provider Systems, Inc. (PPS ID:9)**

**✓ IPQR Module 9.7 - IT Expectations**

**Instructions :**

Please clearly describe how the development of shared IT infrastructure across the PPS will support this particular workstream.

The development of shared IT infrastructure will allow FLPPS' goal of facilitating the exchange of pertinent patient information across the PPS network, for authorized purposes, to improve the quality, coordination and efficiency of patient care. This will be accomplished through several facets of IT including the adoption and implementation of EHR by clinical partners, actively sharing information with and accessing information from the RHIOs to form a single longitudinal record of the patient within a central FLPPS data warehouse. Additionally the use of Direct messaging will facilitate secure and timely communication between providers throughout the PPS. Finally, the PPS plans on having the ability to normalize data via PPS normalization tools that will allow the incorporation of non-clinical and manually tracked data as appropriate. To further drive clinical integration, providers will be able to access real-time performance via a provider portal dashboard that displays an organization's scores with benchmarks.

**✓ IPQR Module 9.8 - Progress Reporting**

**Instructions :**

Please describe how you will measure the success of this organizational workstream.

Successful clinical integration will be measured primarily via patient outcomes and utilization metrics as identified within the Attachment J and project specific Domain 1 metrics. Within the system transformation and clinical improvement metrics will be key areas such as patient satisfaction and patient reported availability of care, potentially avoidable services, implementation of care coordination and transitional care programs. Progress of the Domain 1 requirements of the Integrated Delivery System (IDS) project will be monitored and serve as an indicator for the progress of other projects as the IDS serves to tie all other projects together and complete the clinical integration of the PPS network. This will include tracking the progress of PCMH implementation, interoperable EHR adoption and development/adoption of PPS wide protocols.

**IPQR Module 9.9 - IA Monitoring:**

**Instructions :**

New York State Department Of Health  
Delivery System Reform Incentive Payment Project

DSRIP Implementation Plan Project

Finger Lakes Performing Provider Systems, Inc. (PPS ID:9)

Section 10 – General Project Reporting

IPQR Module 10.1 - Overall approach to implementation

Instructions :

Please summarize your intended approach to the implementation of your chosen DSRIP projects, including considerations around how this approach will allow for the successful development of concurrently implementing DSRIP projects.

The FLPPS Project Management office is currently structured with a Director of Project Management (formerly PMO) and a Project Manager assigned to each project. There are 4 Senior Project Managers managing several projects and staff such as for the four Behavioral Health projects. Each project manager has formed project teams with Subject Matter experts and representation from the PPS. The project teams were involved in the development of the DSRIP application and now implementation planning. The project teams have now become the Clinical quality subcommittees for each project. Through NOCN (Naturally Occurring Care Networks) planning days, the PAC summit and provider surveys, input was obtained to supplement the Project Team planning for each project. Consistent templates were developed to capture risks and mitigation strategies with feedback from the partners. Reviews by the Clinical, Finance, Workforce, Cultural Competency and Health Literacy, and IT committees provided input for successful development of these projects. The PM Director holds weekly huddles with all project managers and other FLPPS staff to coordinate work between projects as well as specific sessions to do cross-walks of risks/mitigation strategies, etc. Webinars were held in 2015 to educate the PPS, mainly targeted to those providers that have not been highly engaged. On April, 2015 an all-day session by the PMO was held to flow-chart the desired state of the projects based on the Domain 1 requirements and design input from the project teams. This enabled an integration exercise capturing project commonalities, health home integration, patient engagement/ PAM outreach opportunities. FLPPS central services is providing PCMH support, as needed to support the PPS. Contracting in DY1 included reporting by providers to begin to achieve milestone completion. This aggregated data is given to the Project Managers. An assessment of the Provider's capability will help prioritize the outreach and support by FLPPS. A pilot group was formed to begin early project implementation to attain the patient engagement commitments made by FLPPS. This group is comprised of the major hospitals and FQHC's. This helped the development of Reporting requirements for PHI, etc. Work began in November 2015 on swim lane flow charts that outline the work for the projects per provider category. These are reviewed at the Clinical quality subcommittee. Eight of these have been reviewed by the Clinical Quality Committee as of 3/31/2016. The swim-lane flow charts contain the high level process steps per the domain 1 requirements and indicate the work necessary by provider type. They also include the patient engagement requirements and the outcome measures that each project is driving. These have been the basis for a deeper understanding of the project interdependencies that will allow successful development of concurrently implementing DSRP projects. The June 2016 all PPS summit, which included all contracted partners, covered the project work extensively. Project 3.f.i, Maternal Child Health, was highlighted taking all partners through the Flowcharts to facilitate standardized project implementation. The flowcharts were just distributed to the partners via the Provider Portal. Phase 2 contracting and reporting requirements will be built from this knowledge.

IPQR Module 10.2 - Major dependencies between work streams and coordination of projects

Instructions :

Please describe how your approach will handle interdependencies between complementary projects, as well as between projects and cross-cutting PPS initiatives - for example, an IT infrastructure upgrade, or the

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Finger Lakes Performing Provider Systems, Inc. (PPS ID:9)**

establishment of data sharing protocols.

As stated above, the Director of Project Management reorganized staff to facilitate the interdependencies between complementary projects. The Project managers have weekly huddles and weekly workgroup sessions to facilitate cross-project communication, as well as communication with the Provider Relations Staff. The Project managers performed cross-walks of the projects to facilitate development of an integrated delivery system. FLPPS has an executive steering committee with NOCN representation and Committee representation from Finance, IT, Clinical, Workforce, Housing, Transportation and Cultural Competency and Health Literacy to discuss interdependencies between work streams. The Clinical committee has a sub-committee of Behavioral Health. The weekly PM huddle includes the Senior IT Director, Senior Director of finance and Medical Director to ensure we have included the interdependencies between the cross cutting initiatives as well. The Senior IT director will use this knowledge to develop an IT infrastructure that supports an Integrated Delivery system, which includes Population Health. The PM team just finished a cross walk of Value based payment and Workforce to improve integration and plans to do cross walk of cultural competency and community engagement. As work plans have matured and new staff have been added over the year, this has been a useful exercise to improve understanding and effectively deal with interdependencies.

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Finger Lakes Performing Provider Systems, Inc. (PPS ID:9)**

**✔ IPQR Module 10.3 - Project Roles and Responsibilities**

**Instructions :**

Please outline the key individuals & organizations that play a role in the delivery of your PPS's DSRIP projects, as well as what their responsibilities are regarding governance, implementation, monitoring and reporting on your DSRIP projects.

<b>Role</b>	<b>Name of person / organization (if known at this stage)</b>	<b>Key deliverables / responsibilities</b>
Project Manager 2.a.i	Jen Dunivent, FLPPS	Responsibilities: Lead Clinical quality subcommittee for the project. Drive development of implementation plans, protocol development and provider readiness assessments. Manage and elevate risk and mitigation strategies. Provide input to contracting to align payment with DSRIP work.
Project Manager 2.b.iii	Peter Bauman, FLPPS	Responsibilities: Lead Clinical quality subcommittee for the project. Drive development of implementation plans, protocol development and provider readiness assessments. Manage and elevate risk and mitigation strategies. Provide input to contracting to align payment with DSRIP work.
Project Manager 2.b.iv	Peter Bauman, FLPPS	Responsibilities: Lead Clinical quality subcommittee for the project. Drive development of implementation plans, protocol development and provider readiness assessments. Manage and elevate risk and mitigation strategies. Provide input to contracting to align payment with DSRIP work.
Project Manager 2.b.vi	Theresa Bales, FLPPS	Responsibilities: Lead Clinical quality subcommittee for the project. Drive development of implementation plans, protocol development and provider readiness assessments. Manage and elevate risk and mitigation strategies. Provide input to contracting to align payment with DSRIP work.
Project Manager 3.a.i	Doug Hurlbut, FLPPS	Responsibilities: Lead Clinical quality subcommittee for the project. Drive development of implementation plans, protocol development and provider readiness assessments. Manage and elevate risk and mitigation strategies. Provide input to contracting to align payment with DSRIP work.
Project Manager 3.a.ii	Doug Hurlbut FLPPS	Responsibilities: Lead Clinical quality subcommittee for the project. Drive development of implementation plans, protocol development and provider readiness assessments. Manage and elevate risk and mitigation strategies. Provide input to contracting to align payment with DSRIP work.
Project Manager 3.a.v	Nathan Franus, FLPPS	Responsibilities: Lead Clinical quality subcommittee for the project.

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Finger Lakes Performing Provider Systems, Inc. (PPS ID:9)**

<b>Role</b>	<b>Name of person / organization (if known at this stage)</b>	<b>Key deliverables / responsibilities</b>
		Drive development of implementation plans, protocol development and provider readiness assessments. Manage and elevate risk and mitigation strategies. Provide input to contracting to align payment with DSRIP work.
Project Manager 3.f.i	Darlene Walker, FLPPS	Responsibilities: Lead Clinical quality subcommittee for the project. Drive development of implementation plans, protocol development and provider readiness assessments. Manage and elevate risk and mitigation strategies. Provide input to contracting to align payment with DSRIP work.
Project Manager 4.a.iii	Nathan Franus, FLPPS	Responsibilities: Lead Clinical quality subcommittee for the project. Drive development of implementation plans, protocol development and provider readiness assessments. Manage and elevate risk and mitigation strategies. Provide input to contracting to align payment with DSRIP work.
Project Manager 4.b.ii	Jen Dunivent, FLPPS	Responsibilities: Lead Clinical quality subcommittee for the project. Drive development of implementation plans, protocol development and provider readiness assessments. Manage and elevate risk and mitigation strategies. Provide input to contracting to align payment with DSRIP work.
Project Manager 2.d.i	Josh Jinks, FLPPS	Responsibilities: Lead Clinical quality subcommittee for the project. Drive development of implementation plans, protocol development and provider readiness assessments. Manage and elevate risk and mitigation strategies. Provide input to contracting to align payment with DSRIP work.
Project Management Leadership	Janet King, FLPPS	Review and manage project implementation plans for consistency and coordination.
FLPPS Leadership	John Pennell, FLPPS	Oversee project implementation plans for achieving overarching goals of DSRIP, review for consistency and coordination. Ensure provider engagement aligns with project implementation and contracting supports initiatives.
FLPPS Medical Director	Dr. Sahar Elezabi, FLPPS	Oversee project implementation plans for achieving overarching goals of DSRIP, review for quality and clinical outcomes.
FLPPS Executive Director	Carol Tegas, FLPPS	Oversee achievement, implementation, and engagement with partners and other key stakeholders as leader of PPS

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Finger Lakes Performing Provider Systems, Inc. (PPS ID:9)**

**✔ IPQR Module 10.4 - Overview of key stakeholders and how influenced by your DSRIP projects**

**Instructions :**

In the below table, please set out who the key stakeholders are that play a major role across multiple DSRIP projects. Please give an indication of the role they play and how they impact your approach to delivering your DSRIP projects.

<b>Key stakeholders</b>	<b>Role in relation to this organizational workstream</b>	<b>Key deliverables / responsibilities</b>
<b>Internal Stakeholders</b>		
Patients	Customer	Responsibilities: Receive services and engage in care
FLPPS PM leadership	Review/ Oversight	Responsibilities: Review Project implementation plans and speed and scale, including co-ordination between projects. Further develop strategies that lead to an IDS.
FLPPS operational committees; Finance, IT, Cultural Competency and Workforce	Oversight & coordination of PPS activities	Responsibilities: Provide information into project implementation and ensure coordination across projects
FLPPS Board of Directors	Governance	Responsibilities: Oversight
FQHC's	Partner	Responsibilities: Input into project plans
County Mental Health Depts.	Partner	Responsibilities: Input into project plans
County Public Health Depts.	Partner	Responsibilities: Input into project plans
Transportation Providers	Work stream support	Transportation solutions to facilitate projects
UR Medicine	One of the largest health systems in the FLPPS region and a corporate sponsor of FLPPS	Provide key members to the project teams and operational committees for input into project plans
Rochester Regional Health System	One of the largest health systems in the FLPPS region and a corporate sponsor of FLPPS	Provide key members to the project teams and operational committees for input into project plans
PPS Partners	Operational committees members, NOCN representation and project team members	Provide key members to the project teams and operational committees for input into project plans
NOCN workgroups	Governance/Reviewer/Input	Review Project plans and give input to participating providers to ensure coordination at a regional level
<b>External Stakeholders</b>		
NYSDOH	Oversight of DSRIP program	Regulations of DSRIP Program, reporting requirements, clarity on project requirements
Neighboring PPSs	Collaboration	Share updates on PPS implementation, best practices, etc.

# New York State Department Of Health Delivery System Reform Incentive Payment Project

## DSRIP Implementation Plan Project

### Finger Lakes Performing Provider Systems, Inc. (PPS ID:9)

#### IPQR Module 10.5 - IT Requirements

##### Instructions :

Information technology will play a crucial role in the development of an effective, integrated performing provider system. It is likely that most projects will require some level of supporting IT infrastructure. Please describe the key elements of IT infrastructure development that will play a role in multiple projects.

As FLPPS implements the 11 projects across 13 counties, the IT infrastructure plays a vital role in increasing preventative care across the patient's lifespan; Project 3fi (maternal and child health), 3ai (integration of BH into Primary care) and 3av (SNF). FLPPS IT strategy has 3 core pillars: Care management and coordination, Patient engagement and Population health analytics.

Care management and coordination teams rely on predictive analytics and intelligence incorporated directly into their workflow to ensure the highest levels of efficiency and effectiveness, including patient reminders, proactive alerting for gaps in care, disease deterioration and preventable readmissions. This functionality must overlay and effectively interoperate with a provider's EHR. Patient engagement will be facilitated with tools to actively engage patients in their wellness and illness management to reduce avoidable hospitalization. Analytics will be the backbone to population health and value based care delivery enablement.

The core analytic and technical capabilities of the IT infrastructure that will improve the effectiveness of the 11 projects are 1) Receiving and Exchanging structured clinical data into a patient's record through effective use of the RHIO, 2) Closed loop patient referral to increase the effectiveness of the Patient Centered Medical Home and facilitate CBO programs such as CHW for maternal child health, 3) Readmission tracking to support project 3aiv----30 day tracking, 4) Notification receipt for due or overdue tests and appointments, 4) Creation, sharing and maintenance of Care Plans, 5) Enterprise data warehouse to aggregate information for providers to understand the complete health picture of the patient as a certified level 3 PCMH. 6) Advanced analytics and performance dashboards to measure performance scores and analyze clinical outcomes to help enhance quality, cost and efficiency of care delivered at both an individual and population level.

The Clinical Quality Committee will review the dashboards to monitor the effectiveness of the projects and their clinical outcomes throughout the 13 county region as well as identify new DSRIP transformational work that might be required due to gaps identified as a result of monitoring of the dashboards.

#### IPQR Module 10.6 - Performance Monitoring

##### Instructions :

Please explain how your DSRIP projects will fit into your development of a quality performance reporting system and culture.

The FLPPS Clinical Quality project sub-committees will be responsible for performance monitoring of the 11 projects, reporting up to the Clinical Quality Committee. The senior medical director will facilitate this via performance dashboards that will be developed. These will include the implementation of the domain 1 metrics for 9 of the 11 projects (excluding 4aiii and 4bii) as well as the domain 2 (system transformation) and domain 3 (clinical outcomes). The FLPPS team did a crosswalk of the 11 projects and their associated domain 2 and 3 metrics to inform the clinical committee of the anticipated transformational work that will need to be accomplished to achieve the metrics. Opportunities were identified

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Finger Lakes Performing Provider Systems, Inc. (PPS ID:9)**

from other project work (FLPPS projects as well as community resources) to drive these outcomes. Potential gaps are being identified that might require additional project work. The Clinical quality committee will monitor the quality outcomes across the 13 county region to inform the Executive Steering Committee as well as report these outcomes to the Board of Directors. This quality performance system will be the backbone of FLPPS to drive our quality culture. The 5 NOCN's (regions) within FLPPS will be a part of this quality performance reporting system and culture as the IDS is developed throughout the FLPPS region. Contracting with providers has begun, focused mostly on engagement. Phase 2 (DY2) contracting will be based on work accomplished in the projects, thereby supporting a quality performance culture.

**DSRIP Implementation Plan Project**

**Finger Lakes Performing Provider Systems, Inc. (PPS ID:9)**

**✔ IPQR Module 10.7 - Community Engagement**

**Instructions :**

Please describe your PPS's planned approach for driving community involvement in the DSRIP projects, how you will contract with CBOs for these projects, how community engagement will contribute to the success of the projects, and any risks associated with this.

To ensure that the FLPPS network has adequate and appropriate representation of CBOs to support the goals of DSRIP throughout the projects, FLPPS will evaluate the services provided by each CBO attested to the PPS. FLPPS will actively recruit CBOs to fill any gaps discovered during the evaluation process. In DY1 FLPPS contracted with CBO's, both safety net and non-safety net. In DY2, CBOs providing services that support the objective of the projects will have the potential for contracting with FLPPS directly or through an RFP process or by subcontracting with other partners in the FLPPS network. FLPPS will establish a directory of partners that list the services provided to promote subcontracting relationships. To drive community involvement in the DSRIP projects FLPPS established a CBO Workgroup that is comprised of CBO leaders in the FLPPS network and FLPPS staff. The CBO Workgroup is tasked with developing strategies that promote CBO engagement within the PPS and FLPPS/DSRIP community involvement. FLPPS will also highlight CBOs and other partners and their services via the FLPPS weekly newsletter and FLPPS website. The newsletter and website editorials will feature partnerships between CBOs and healthcare organizations and demonstrate how these partnerships support the DSRIP project objectives and how the services provided support the community and the DSRIP target population. FLPPS staff will also visit CBOs and other partner sites to learn more about the services offered and the population served. This community engagement activity will allow FLPPS staff to develop additional strategies around community involvement and patient engagement as well as enhance the cultural competency skills of the FLPPS staff. Risks associated with CBO engagement are related to contracting; establishing terms and payment that are agreeable to both the CBOs and FLPPS, as well as the 5% limitation on funds to non-safety net providers. Other risks; ensuring that attested CBOs and the services offered are appropriate for the projects and maintaining effective communication between CBOs, the FLPPS staff and other partners in the FLPPS network that reiterate the importance of CBOs to the success of DSRIP.

**Section 11 – Workforce**

**✓ IPQR Module 11.1 - Workforce Strategy Spending (Baseline)**

**Instructions :**

Please include details on expected workforce spending on a semi-annual basis. Funds may be shifted from one funding type category to another within the workforce strategy spending table, as long as the PPS adheres to their overall spend commitments. However, the PPS may apply a 25% discount factor to the DY1 Workforce Strategy Spend target. If the PPS applies this discount in DY1, the PPS will be expected to reallocate those funds appropriately in DY2-4 to fully meet their DY1-4 total commitment.

**Prescribed Milestones Narrative Text**

Milestone Name	Narrative Text
Define target workforce state (in line with DSRIP program's goals).	DY2Q1 S11 Milestone 1 Narrative: Per DOH explanation of Prescribed Milestones published December 2015, DY2Q1 is a suggested date and not an actual due date. The Milestone End Date is now 09/30/16.
Create a workforce transition roadmap for achieving defined target workforce state.	
Perform detailed gap analysis between current state assessment of workforce and projected future state.	
Produce a compensation and benefit analysis, covering impacts on both retrained and redeployed staff, as well as new hires, particularly focusing on full and partial placements.	DY2Q1 S11 Milestone 4 Narrative: Please see the attached "DY2Q1 S11 M4 Supporting Document 160804.pdf" file showing achievement of the Milestone. Using the state guidance from December 2015, FLPPS will create a compensation and benefits analysis using NYS DOH standard design elements and publicly available information to provide the state with a point in time overview of PPS compensation and benefits by DSRIP facility and DSRIP job title. As a result of this, task one underneath this Milestone evolved to "Produce a Compensation and Benefits Analysis using NYS DOH standard data elements that captures a point-in-time overview of regional compensation and benefits by DSRIP facility type and DSRIP job title". Consequently, task 2 evolved to "Gain FLLPS Board approval for Compensation and Benefits Analysis methodology." For task three, as explained above, FLPPS did not choose to survey everyone, but per the NYS December 2015 given guidance, choose to do as follows:

DSRIP Implementation Plan Project

Finger Lakes Performing Provider Systems, Inc. (PPS ID:9)

IPQR Module 11.4 - Major Risks to Implementation & Risk Mitigation Strategies

Instructions :

Please describe the key challenges and risks that you foresee in achieving the milestones set out above, including potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

Risk: Achieving Workforce expansion goals will be a challenge, particularly for professional positions such as primary care physicians.  
Mitigation Strategy: Multiple recruitment strategies developed with FLPPS partnership to meet hiring needs. Financial incentives will be used to recruit new primary care physicians into the FLPPS region along with training of additional advanced practice providers: nurse practitioners, physician assistants, and certified nurse midwives. Expanding PCMH-which includes team-based care- also ensures as many providers as possible are practicing at the top of license.

Risk: Ability to hire needed providers and staff could potentially impact all FLPPS DSRIP projects, but those related to behavioral health are especially at risk. Successful integration of primary and behavioral health care will require the addition of behavioral health positions that are historically difficult to fill, including psychiatrists.  
Mitigation Strategy: Strategies to address behavioral health hiring needs to include: recruiting and training psychiatric-mental health nurse practitioners, training advanced practice providers-including nurse practitioners-to specialize in behavioral health through post-Masters certificates or other certificate programs along with the training, utilization, and position expansion of LCSWs and other Masters-prepared MH counselors. Telepsychiatry will be expanded to maximize resources by reducing travel time, especially in rural regions (waiver may be needed).

Risk: Recruitment and new staffing: hiring of providers/staff members from one FLPPS partner organization by another partner organization. While this is not inherently problematic for any individual organization depending on staffing needs at the time, it does not advance the DSRIP goal of expanding workforce capacity to meet the needs of DSRIP projects, nor address the significant number of new hires needed across many staffing categories.  
Mitigation Strategy: FLPPS will maintain a centralized job board and encourage partner organizations to search the board when looking to fill available positions. Regional recruitment strategies will draw new providers and staff to the area and increase the overall prospective workforce pool.

Risk: Unanticipated needs for additional staff or major retraining or redeployment represent a challenge to the success of the FLPPS Workforce Strategy. Unanticipated needs could affect and present a risk to the workforce budget.  
Mitigation Strategy: Conduct comprehensive current/future state and gap analyses to reduce the risk of unanticipated needs from the end of DY1 until the end of the DSRIP demonstration period.

Risk: Insufficient/ineffective frontline worker engagement. The transformational goals of retraining or redeploying a significant percentage of the regional workforce risk meeting with resistance that could threaten the success of DSRIP projects.  
Mitigation Strategy: Developing standardized messaging about the purpose of DSRIP, tailoring messages about the relevance of DSRIP to different job types, engaging frontline staff in the rollout of FLPPS projects to enhance buy-in, providing regular updates so staff can understand and feel like participants in a progressive process, and inviting frontline staff to participate in best-practice sharing and learning collaboratives. An effective Cultural Competency strategy will address recruiting and training to improve staff's ability to relate to our patient's needs.

## DSRIP Implementation Plan Project

### Finger Lakes Performing Provider Systems, Inc. (PPS ID:9)

Risk: Assuring sufficient IT infrastructure in all partner organizations to enable partners to provide timely and accurate reporting through the system wide provider portal, interface with the FLPPS central job board, and access centralized training, informational materials, and best-practice sharing.

Mitigation Strategy: FLPPS partnership-wide IT infrastructure and support plan.

#### IPQR Module 11.5 - Major Dependencies on Organizational Workstreams

##### Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

**Financial Sustainability:** The sustainability of financially fragile partner organizations will have a profound impact on those organizations' workforces, which may have a ripple effect throughout the FLPPS Workforce Strategy work stream. The interdependency of FLPPS partner organizations means that contraction of one partner organization's workforce may affect another by making available existing, trained staff, while also driving the financially fragile organization to retrain or redeploy existing staff where possible. Parallel to the movement of staff within FLPPS, the expansion of the workforce overall to meet DSRIP project needs has significant interdependency with the financial sustainability of the network and the ability to retain an expanded workforce in the future.

**Cultural Competency and Health Literacy:** Cultural competency requires significant training of the FLPPS workforce. As existing staff are retrained and redeployed, and new staff are hired, they will need to be trained on the cultural competency and health literacy considerations of their new or reformulated roles, utilizing the training standards and concepts developed through the cultural competency and health literacy work stream.

**IT Systems and Processes:** The ability of partner organizations to report workforce-related data to the FLPPS is highly dependent on the successful development and rollout of FLPPS central IT services, including a system wide platform for data reporting.

**Performance Reporting:** The Workforce Strategy work stream includes performance measures related to the hiring of new staff and retraining and redeployment of existing staff. As such, workforce is highly interdependent with the Performance Reporting work stream. In conjunction with the IT Systems and Processes work stream, there is a need to develop a system wide platform that partner organizations can use to report workforce data based on uniform standards and definitions to allow the FLPPS to provide accurate quarterly performance reports.

**Practitioner Engagement:** Messaging that keeps staff at all levels informed and engaged is key to the success of DSRIP. The Workforce Strategy work stream is primarily focused on engagement with frontline staff, but there is a need for consistent messaging across partner organizations and across staffing levels within each organization. This underscores the critical interdependency of the Workforce Strategy and Practitioner Engagement work streams.

**Population Health Management:** Workforce Strategy and Population Health Management are interdependent in multiple areas. Achieving PCMH 2014 Level 3 recognition requires an analysis of existing staffing levels needed to provide effective team-based care. The bed reduction strategy outlined in the Population Health Management work stream may have major implications for the retraining and deployment of staff in organizations that reduce or repurpose existing inpatient beds as FLPPS shifts health care provision from the inpatient to the outpatient setting.

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Finger Lakes Performing Provider Systems, Inc. (PPS ID:9)**

Clinical Integration: The improved care management and care transitions that are key to the success of the Clinical Integration work stream are also critical parts of the Workforce Strategy. Case managers are the subset of the PPS workforce projected as the largest number of new hires needed across FLPPS during the five program years in the initial assessment conducted for the project plan application and will play a central role in the implementation of the Clinical Integration and Workforce Strategy work streams.

**✓ IPQR Module 11.6 - Roles and Responsibilities**

**Instructions :**

Please list and elaborate upon the key people/organizations responsible for this organizational workstream and describe what their responsibilities involve.

<b>Role</b>	<b>Name of person / organization (if known at this stage)</b>	<b>Key deliverables / responsibilities</b>
Workforce Workgroup Co-Chair	Daniel Ornt / Rochester Institute of Technology	Responsibilities: maintain high-level workforce strategy; lead regular Workforce Workgroup meetings; inform final decision on vendors
Workforce Workgroup Co-Chair	Kathy Rideout / University of Rochester School of Nursing	Responsibilities: maintain high-level workforce strategy; lead regular Workforce Workgroup meetings; inform final decision on vendors
Lead of Primary Care Subgroup of Workforce Workgroup	Thomas Campbell / University of Rochester Medical Center	Responsibilities: lead subgroup developing strategy to assure sufficient supply of primary care providers to achieve FLPPS DSRIP goals
Lead of Data and Reporting Subgroup of Workforce Workgroup	Barbara Wale / ARC of Monroe	Responsibilities: lead subgroup developing structure of workforce-related data collection and quarterly reporting strategy
Lead of External Initiatives Subgroup of Workforce Workgroup	Jim Kennedy / Finger Lakes Community Health	Responsibilities: lead subgroup developing strategy to identify and engage initiatives outside of DSRIP that can inform and support DSRIP-related workforce needs
Lead of DSRIP Projects Subgroup of Workforce Workgroup	George Roets / Yates County	Responsibilities: lead subgroup developing strategy to assure sufficient supply of support staff and engagement with frontline workers
Workforce Vendor	Deloitte	Responsibilities: conduct gap analysis between current workforce state and project future state, including training needs
FLPPS Workforce Senior Project Manager	Collene Burns / FLPPS	Responsibilities: lead the Workforce workstream for the FLPPS Project Management team, including workgroup and subgroup meeting scheduling and facilitation; manage overall implementation progress; manage FLPPS central job board; vet RFAs for vendor selection

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Finger Lakes Performing Provider Systems, Inc. (PPS ID:9)**

**IPQR Module 11.7 - Key Stakeholders**

**Instructions :**

Please identify the key stakeholders involved in your workforce transformation plans, both within and outside the PPS.

<b>Key stakeholders</b>	<b>Role in relation to this organizational workstream</b>	<b>Key deliverables / responsibilities</b>
<b>Internal Stakeholders</b>		
FLPPS Project Management leadership	Review	Responsibilities: review FLPPS Workforce Strategy implementation plan and centralized workforce services, including training and informational materials
FLPPS operational committees and workgroups	Review	Responsibilities: review material that addresses interdependencies between FLPPS Workforce Strategy and work stream related to given committee's/workgroup's focus area
NOCN workgroups	Review	Responsibilities: provide geographically-specific input on FLPPS Workforce Strategy material, including training and informational materials
<b>External Stakeholders</b>		
Labor unions	Collaborator	Responsibilities: provide input on mitigating negative effects of DSRIP on current workforce when union-represented employees are affected
Workforce Vendor	Workforce and training vendor	Responsibilities: conduct gap analysis between current workforce state and project future state, including training needs
NYS DOH	Facilitator	Responsibilities: inform PPS collaboratives and centralized training programs

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project  
DSRIP Implementation Plan Project**

**Finger Lakes Performing Provider Systems, Inc. (PPS ID:9)**

**✓ IPQR Module 11.8 - IT Expectations**

**Instructions :**

Please describe how the development of shared IT infrastructure across the PPS will support your plans for workforce transformation.

Shared IT infrastructure is integral to the goals of the FLPPS Workforce strategy. FLPPS will employ a centralized software tool that will allow partner organizations to report on their Workforce transformation progress through a provider portal. The use of a system wide tool allows FLPPS to clearly define data fields and ensure that all organizations are using the same metrics, a key factor in assuring accurate quarterly reporting. This capacity is particularly important for the ability to report net workforce changes at the FLPPS network level. Rather than simply receiving and repackaging partner organizations' data, the shared IT infrastructure and tool will allow FLPPS to develop the capacity to identify within-network workforce movement. Shared IT infrastructure also provides a platform for system wide initiatives such as the FLPPS job board to best match organizational needs and regional workforce capacity. A portal will also be used by partner organizations to access FLPPS-wide training and informational materials, including standardized messaging for staff engagement, when appropriate for dissemination in this format. Online trainings can then be tracked through a centralized tool and serve as a mechanism for tracking and documentation of training attendance, progress, and certification. These software tools and shared infrastructure will allow for the development of dissemination of common workforce, cultural competency and health literacy training, and other pertinent modules, assessment tools, and standards for the network around these critical areas of focus.

**✓ IPQR Module 11.9 - Progress Reporting**

**Instructions :**

Please describe how you will measure the success of this organizational workstream.

All partner organizations will be required to submit regular reports to the FLPPS to document changes in their Workforce Strategy Domain 1 metrics, including new hires, and retraining and redeployment of existing staff. FLPPS will retain baseline data and preceding reports for all partner organizations to facilitate the process of updating workforce data on a regular basis and to enhance the accuracy and consistency of each organization's reporting across quarters. FLPPS will develop a mechanism to account for the net changes across the workforce. The Workgroup will track and report updates on the workforce-related budget as outlined in the Workforce Strategy Domain 1 requirements, including amounts specific to retraining, redeployment, new hires, and other budget considerations. In addition to reporting this data regularly, the progress reporting process will monitor and track progress compared to planned budgeting and projected workforce change via retraining, redeployment, and new hiring. The Workforce Operation Workgroup has designated a subgroup to focus on data management and reporting. This group will work in conjunction with the team driving the IT Systems and Processes work stream to ensure optimization of shared IT infrastructure for Workforce purposes. This subgroup is also responsible for creating clearly defined data fields and writing uniform reporting standards to allow the FLPPS to provide consistent and accurate performance reports.

**IPQR Module 11.11 - Workforce Strategy Spending (Quarterly):**

**Instructions :**

Please include details on workforce spending for DY2. The workforce spending actuals should reflect only what was spent during the relevant quarters and is not cumulative across semi-annual periods. The PPS can shift funding across categories; e.g., from Retraining to New Hires. Please note that the "Cumulative Percent of Commitments Expended through Current DSRIP Year (DY2)" section is calculated based on the total yearly commitments.

Benchmarks	
Year	Amount(\$)
Total Cumulative Spending Commitment through Current DSRIP Year(DY2)	7,622,336.00

Funding Type	Workforce Spending Actuals		Cumulative Spending to Date (DY1-DY5)(\$)	Cumulative Percent of Commitments Expended through Current DSRIP Year (DY2)
	DY1(Q1/Q2)(\$)	DY1(Q3/Q4)(\$)		
Retraining	0.00	0.00	1,120,084.00	29.85%
Redeployment	0.00	0.00	0.00	0.00%
New Hires	0.00	0.00	272,647.70	17.44%
Other	0.00	0.00	2,393,429.43	250.11%
<b>Total Expenditures</b>	<b>0.00</b>	<b>0.00</b>	<b>3,786,161.13</b>	<b>49.67%</b>

**DSRIP Implementation Plan Project**

**Finger Lakes Performing Provider Systems, Inc. (PPS ID:9)**

**Project 2.a.i – Create Integrated Delivery Systems that are focused on Evidence-Based Medicine / Population Health Management**

**✓ IPQR Module 2.a.i.1 - Major Risks to Implementation and Mitigation Strategies**

**Instructions :**

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

Financial Mitigation: The PPS will work to understand each provider's current financial viability and identify those providers at highest risk for being unable to survive through the transition period or under a capitated model and develop action plans to support those that are vital to the Medicaid lives in the region. FLPPS will establish centralized services to leverage economies of scale to mitigate risk of insufficient capital funding from NYSDOH, which will more efficiently use the capital the PPS is given without sacrificing value to partner organizations.

R: Workforce: Shortages, skills.

M: The region suffers from PCP and BH provider shortages; these shortages exist throughout the country, making recruitment efforts more difficult. To this end FLPPS has created a dedicated Workforce committee.

R: Transportation: The large geographic region of FLPPS results in large distances between where a patient may live and receive care. This results in patients delaying needed care until it becomes emergent or not following up with treatment plans.

M: To mitigate this FLPPS has created a dedicated Transportation committee as part of the governance structure that is tasked with defining the challenges by county and identifying solutions that can be implemented in those counties, with input and endorsement of regional committees that are also part of the FLPPS governance structure.

R: Patient Culture & behavior.

M: To mitigate the risk that patients will continue to utilize high cost services despite the increase of access and removal of barriers to care, FLPPS will develop and implement a patient outreach campaign that aims to educate patients on care and service offerings. Further, FLPPS will utilize a call center to serve as a resource for patients to learn more about care and services in their given area.

R: PCMH: There is a risk that all PPS Primary Care Providers will not achieve NCQA 2014 PCMH Level 3 Standards by DY3.

M: To mitigate this risk, FLPPS will implement a PCMH support team as part of centralized services, led by a Certified Content Expert. This team will support provider organizations to understand PCMH standards and complete the application documentation required by NCQA. Additionally FLPPS will support the use of physician champions in all practices to serve as a local support for the success of the program.

R: CC & HL: Broad/ varied population.

M: To mitigate the risk of not leveraging Community Based Organizations specific skills and service offerings to the full potential, FLPPS will work with supporting partner organizations to develop asset mapping by services and region to integrate organizations appropriate for the best outcomes.

R: HH Care Management services are varied across HH and Care Management Agencies.

M: FLPPS will work closely with Health Homes in the network to develop internal and external protocols that will strengthen the relationship

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Finger Lakes Performing Provider Systems, Inc. (PPS ID:9)**

between HH and other organizations in the network. FLPPS will also support the education about HH service offerings to partner organizations who may not otherwise be aware.

R: Interoperable Electronic Health Record.

M: To mitigate the high cost of interoperability between partner organizations and local RHIOs, FLPPS will continue working toward funding the interfaces using the NYS capital funding award. In the event that the award is insufficient to meet the needs of the PPS, FLPPS will work to establish volume based pricing for partner organizations. FLPPS will identify 1 or 2 EMR vendors for volume based pricing that can be offered to partner organizations. As a centralized service FLPPS will implement an IT architecture that includes a care management platform with referral management offered to partner organizations who may otherwise be unable to fund the high capital investment required to obtain EHR.

**IPQR Module 2.a.i.2 - Prescribed Milestones**

**Instructions :**

Please provide updates to baseline reporting on status, target dates, and work breakdown tasks for prescribed milestones. For milestones that are due and completed within the reporting period, documentation is required to provide evidence of project requirement achievement. Any explanations regarding altered or missed provider commitments should be included within the narrative box, not as text within uploaded documentation.

Project Requirements (Milestone/Task Name)	Prescribed Due Date	Reporting Level	Provider Type	Status	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
<b>Milestone #1</b> All PPS providers must be included in the Integrated Delivery System. The IDS should include all medical, behavioral, post-acute, long-term care, and community-based service providers within the PPS network; additionally, the IDS structure must include payers and social service organizations, as necessary to support its strategy.	DY3 Q4	Project	N/A	In Progress	04/01/2015	03/31/2018	04/01/2015	03/31/2018	03/31/2018	DY3 Q4
<b>Task</b> PPS includes continuum of providers in IDS, including medical, behavioral health, post-acute, long-term care, and community-based providers.		Project		In Progress	04/01/2015	03/31/2018	04/01/2015	03/31/2018	03/31/2018	DY3 Q4

All PPS providers must be included in the Integrated Delivery System. The IDS should include all medical, behavioral, post-acute, long-term care, and community-based service providers within the PPS network; additionally, the IDS structure must include payers and social service organizations, as necessary to support its strategy.	
Utilize partnering HH and ACO population health management systems and capabilities to implement the PPS' strategy towards evolving into an IDS.	DY2Q1 2ai Milestone 2 Narrative: This milestone is moved to coincide with the prescribed time period for speed and scale commitments for "Project System Changes". We have met with Health Home and ACO leadership individually and have made significant progress on a current state assessment. Based on our initial meetings, it became clear that the degree of differentiation would require more time to develop standard collaborative care protocols. This also aligns with the work that is being completed to improve connectivity across our partnership which will support this collaboration.
Ensure patients receive appropriate health care and community support, including medical and behavioral health, post-acute care, long term care

and public health services.	
Ensure that all PPS safety net providers are actively sharing EHR systems with local health information exchange/RHIO/SHIN-NY and sharing health information among clinical partners, including directed exchange (secure messaging), alerts and patient record look up, by the end of Demonstration Year (DY) 3.	
Ensure that EHR systems used by participating safety net providers meet Meaningful Use and PCMH Level 3 standards and/or APCM by the end of Demonstration Year 3.	
Perform population health management by actively using EHRs and other IT platforms, including use of targeted patient registries, for all participating safety net providers.	
Achieve 2014 Level 3 PCMH primary care certification and/or meet state-determined criteria for Advanced Primary Care Models for all participating PCPs, expand access to primary care providers, and meet EHR Meaningful Use standards by the end of DY 3.	
Contract with Medicaid Managed Care Organizations and other payers, as appropriate, as an integrated system and establish value-based payment arrangements.	
Establish monthly meetings with Medicaid MCOs to discuss utilization trends, performance issues, and payment reform.	
Re-enforce the transition towards value-based payment reform by aligning provider compensation to patient outcomes.	
Engage patients in the integrated delivery system through outreach and navigation activities, leveraging community health workers, peers, and culturally competent community-based organizations, as appropriate.

**Project 2.b.iii – ED care triage for at-risk populations**

**✓ IPQR Module 2.b.iii.1 - Major Risks to Implementation and Mitigation Strategies**

**Instructions :**

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

- R: 1. Internal processes and structure to support long term patient engagement and partner reporting.  
M: PPS will develop strategy to utilize existing platforms to address reporting requirements. Creating a partner portal to consolidate reporting on patient engagement
- R:2. Physician Capacity and work flow. The primary care offices within the network may not have the capacity to take new patients. Also, physician practices may need to adapt strategies to manage patients that have a high no show rate and may not have the resources to accommodate.  
M: PPS will be assessing current capacity and identify long term strategies to address. PPS and the project team will outreach to physician/medical practices on potential work flow impacts and offer implementation support. Also, we will utilize health home case managers to assist with patient navigation.
- R: 3. Technology - Interoperable Electronic Health Records across the PPS needed for the success of the project(s). There are many varying EMR systems amongst hospitals and PCP offices requiring connectivity. Health Home information is not readily available to providers. Referral to Health Homes is cumbersome.  
M: Will leverage PPS level resources including the established IT committee, and RHIO, to build functionality for information sharing across the PPS. PPS to assess the version (s) of EMR's used by hospitals and PCPs participating in this project. PPS IT Committee and implementation plan will assist in developing work flow for all EMR users to achieve connection with the RHIO for bidirectional communication required between ED's and PCMH providers.
- R: 4. Patient Engagement  
M: Ensure that materials are written within patients' literacy and language ranges, following review by Cultural Competency and Health Literacy Committee. Also, Cultural Competency committee will provide guidance on protocols and development of the patient navigator training.
- R: 5 The Lack of adequate transportation is a barrier for patients accessing medical care.  
M: Utilize traditional and nontraditional solutions as developed by PPS transportation committee, including inventory and directory of regional transportation options. PPS Transportation Committee collaborate with transportation vendors to improve transportation needs in PPS region.
- R: 6 PPS Workforce - Challenge of hiring staff to fill and provide adequate training of patient navigator.  
M: PPS and the project team can assist hospitals with an implementation strategy by identifying the roles and responsibilities (protocols) of the patient navigator. This information can guide hospitals with decisions regarding redeployment vs creating or utilizing community based providers to fulfill this role.

**IPQR Module 2.b.iii.2 - Patient Engagement Speed**

**Instructions :**

Enter the number of patients actively engaged through the current quarter. The number entered into the "Quarterly Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for Q4 should include patients previously reported in Q3 plus new patients engaged in Q4. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

Benchmarks	
Actively Engaged Speed	Actively Engaged Scale

Establish ED care triage program for at-risk populations	
Participating EDs will establish partnerships to community primary care providers with an emphasis on those that are PCMHs and have open access scheduling. a. Achieve NCQA 2014 Level 3 Medical Home standards or NYS Advanced Primary Care Model standards by the end of DSRIP Year 3. b. Develop process and procedures to establish connectivity between the emergency department and community primary care providers. c. Ensure real time notification to a Health Home care manager as applicable	
For patients presenting with minor illnesses who do not have a primary care provider: a. Patient navigators will assist the presenting patient to receive an immediate appointment with a primary care provider, after required medical screening examination, to validate a non-emergency need. b. Patient navigator will assist the patient with identifying and accessing needed community support resources. c. Patient navigator will assist the member in receiving a timely appointment with that provider's office (for patients with a primary care provider).	
Established protocols allowing ED and first responders - under supervision of the ED practitioners - to transport patients with non-acute disorders to alternate care sites including the PCMH to receive more appropriate level of care. (This requirement is optional.)	
Use EHRs and other technical platforms to track all patients engaged in the project.

**Project 2.b.iv – Care transitions intervention model to reduce 30 day readmissions for chronic health conditions**

**✓ IPQR Module 2.b.iv.1 - Major Risks to Implementation and Mitigation Strategies**

**Instructions :**

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

R: 1. Technology - Interoperable Electronic Health Records across the PPS needed for the success of the project(s). There are many varying EMR systems amongst hospitals and PCP offices requiring connectivity. Health Home information is not readily available to providers. Referral to Health Homes is cumbersome.

M: Will leverage PPS level resources including the established IT committee, and RHIO, to build functionality for information sharing across the PPS. PPS to assess the version (s) of EMR's used by hospitals and PCPs participating in this project. PPS IT Committee and implementation plan will assist in developing work flow for all EMR users to achieve connection with the RHIO for bidirectional communication required between ED's and PCMH providers.

R: 2. Provider Engagement.

M: The PPS will provide education on the project and the importance for patients to have access to a PCP and health home case management services (if applicable). Utilizing NOCN leads, involve physician representatives on project team, developing protocols, work flows, and plans for implementation.

R: 3. Payment mechanism for long term sustainability.

M: PPS will work with MCOs to ensure consistent reimbursement for care transition services, using existing precedents for reimbursement and data from successful Medicare demonstration projects for support in negotiations for coverage.

R: 4 Internal processes and structure to support long term patient engagement and partner reporting.

M: PPS will develop strategy to utilize existing platforms to address reporting requirements. Creating a partner portal to consolidate reporting on patient engagement:

R: 5 Patient Engagement.

M: Ensure that materials are written within patients' literacy and language ranges, following review by Cultural Competency and Health Literacy Committee. Also, Cultural Competency committee will provide guidance on protocols and development of protocol.

R: 6. Cultural Competency.

M: Ensure discharge plans and other materials are written within patients' literacy and language ranges, reviewed by Cultural Competency and Health Literacy Committee. Convene patient advisory panels to advise FLPPS on protocols and engagement strategies.

R: 7. Need to develop a training strategy to fully implement the program.

M: Will provide PPS wide training and develop standard protocols for patient identification, assessment, and linkage, to ensure that there is fidelity to core components of the model; Also, project team will identify quality review processes to monitor protocol and adherence to best practices.

**IPQR Module 2.b.iv.2 - Patient Engagement Speed**

**Instructions :**

Enter the number of patients actively engaged through the current quarter. The number entered into the "Quarterly Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for Q4 should include patients previously reported in Q3 plus new patients engaged in Q4. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

Milestone Name	Narrative Text
Develop standardized protocols for a Care Transitions Intervention Model with all participating hospitals, partnering with a home care service or other appropriate community agency.	
Engage with the Medicaid Managed Care Organizations and Health Homes to develop transition of care protocols that will ensure appropriate post-discharge protocols are followed.	DY2Q1 2biv Milestone 2 Narrative: This milestone is moved to coincide and align with the other clinical projects at FLPPS. A number of tasks/requirements have been achieved that will assist with milestone completion. We have met with the HH leadership and at the MCO. The objective of these meetings were to review project milestones and tasks. Based on this, review dates were adjusted to coincide with the 2di project outcomes. Over the next 2 quarters we will continue to meet with lead HH's and MCO representatives to determine best strategies for collaboration and identify IT solutions to support the collaborative process.
Ensure required social services participate in the project.	DY2Q1 2biv Milestone 3 Narrative: This milestone has been moved to ensure that the regions within the PPS have an opportunity to review and identify resources within their community that will effect clinical outcomes. Current progress on this milestone include: 1. The project team has identified where in the care transition work flow an assessment of resources will occur; 2. It was requested that each hospital system submit a community resource guide they are currently utilizing or submit a plan to develop a community resource tool. We are reviewing this information and identifying potential gaps. Once this analysis is completed the NOCN regional teams will provide input and recommendations. Also, we will need to identify providers that administer medically tailored food services.
Transition of care protocols will include early notification of planned discharges and the ability of the transition care manager to visit the patient in the hospital to develop the transition of care services.	
Protocols will include care record transitions with timely updates provided to the members' providers, particularly primary care provider.	
Ensure that a 30-day transition of care period is established.	
Use EHRs and other technical platforms to track all patients engaged in the project.

**Project 2.b.vi – Transitional supportive housing services**

**✓ IPQR Module 2.b.vi.1 - Major Risks to Implementation and Mitigation Strategies**

**Instructions :**

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

R: Financial - Capital: New sites for transitional supportive housing are highly capital dependent, significant delays in CRFP directly impacts patient engagement scale. Two proposals awarded, but face 12 month development timeline and represent only 25% of new site needs. Partners in the region have not been successful in acquiring MRT funds for permanent supportive housing. FLPPS is pursuing some of this directly.

M: Support partners to develop successful CRFP awards; Pursue MRT supportive housing funds directly; Support partners to leverage complimentary funding streams to convert existing emergency and transitional housing sites.

R: Workforce - Limited understanding among community based service providers of opportunities to use Medicaid funding for housing navigation and supportive services. This may be undermining effective use of available non-DSRIP capital and operational funding for both transitional and permanent supportive housing. Emergency housing providers best positioned to offer medical respite option but wary of getting involved in Medicaid billing when the financial returns are unclear. Potential to support them with DSRIP funds limited to 5% cap for non-safety net providers.

M: Training and capacity building for larger CBOs; need to explore innovative models for CBO consortiums to cost-share the resource and capacity burden of billing Medicaid for home and community based services. Utilize small scale pilot sites to limit risk and generate evidence for model efficacy and inform negotiation with MCOs for reimbursement; Examine lessons learned from success with some MLTCs reimbursing transitional housing services; Examine potential for HARP to expand coverage of residential operations and supportive services for complex BH patients; Utilize DSS funding streams, PPS funds to cover operational costs for in interim; Try to incentivize safety net partners to sub-contract with non-safety net.

R: Technology: Developing interoperable connectivity will have limited utility for population health management if partners continue collecting and storing data on social determinants of health in a way that is not reportable, analyzable or actionable (as is the case today among both health and CBO providers). CBO partners are least connected and least incentivized to make IT investments with unclear promise of returns on those investments. This project requires several different provider types to coordinate and data share to successfully complete the 90 day active patient engagement process. The technological and legal barriers (HIPAA) to doing this as part of existing workflows will limit provider willingness to participate in this project and also puts long term sustainability at risk.

M: Care Management Platform may offer alternative for partners who don't really need EMR; PPS centralized services or admin funds to offer alternatives or further subsidize partner connectivity or expand benefits beyond DSRIP - e.g. select solutions that meet other reporting needs they may have from other systems/gov agencies (e.g. DSS, ODTA, HUD, etc).

R: Workforce: Health homes are young and lack useable trend data on process and performance. Anecdotal evidence suggests case loads of HH Care Managers too high, undermines intensity of services; Insufficient Medicaid-accepting home care workers at varying certification levels. Inconsistent skills set due to varying education and experience. Difficulty getting nursing services into emergency/transitional housing settings.

M: Define base set of education and qualifications for HH Care Management; Improve streamlined access to broad range of community resources to complement this base skills set depending on the specific needs of the patient; Use DSRIP funds to (examine HARP); Improve HH Eligibility screening to ascertain patient needs and assign them a care manager/provider.

**IPQR Module 2.b.vi.2 - Patient Engagement Speed**

**Instructions :**

Enter the number of patients actively engaged through the current quarter. The number entered into the "Quarterly Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for Q4 should include patients previously reported in Q3 plus new patients engaged in Q4. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

Benchmarks	
Actively Engaged Speed	Actively Engaged Scale
DY4,Q4	643

	Year,Quarter	DY2,Q1	DY2,Q2	DY2,Q3	DY2,Q4
PPS Reported	Baseline Commitment	105	235	304	494
	Quarterly Update	81	0	0	0
	Percent(%) of Commitment	77.14%	0.00%	0.00%	0.00%
IA Approved	Quarterly Update	0	0	0	0
	Percent(%) of Commitment	0.00%	0.00%	0.00%	0.00%

Warning: PPS Reported - Please note that your patients engaged to date (81) does not meet your committed amount (105) for 'DY2,Q1'

Partner with community housing providers and home care service organizations to develop transitional supportive housing for high-risk patients.	
Develop protocols to identify chronically ill super-utilizers who qualify for this service. Once identified, this targeted population will be monitored using a priority listing for access to transitional supportive housing.	
Establish MOUs and other service agreements between participating hospitals and community housing providers to allow the supportive housing and home care services staff to meet with patients in the hospital and coordinate the transition.	
Establish coordination of care strategies with Medicaid Managed Care Organizations to ensure needed services at discharge are covered and in place at the transitional supportive housing site.	
Develop transition of care protocols to ensure all chronically ill super-utilizers receive appropriate health care and community support including medical, behavioral health, post-acute care, long-term care and public health services.	
Ensure medical records and post-discharge care plans are transmitted in a timely manner to the patient's primary care provider and frequently used specialists.	
Establish procedures to connect the patient to their Health Home (if a HH member) care manager in the development of the transitional housing

**Project 2.d.i – Implementation of Patient Activation Activities to Engage, Educate and Integrate the uninsured and low/non-utilizing Medicaid populations into Community Based Care**

**✓ IPQR Module 2.d.i.1 - Major Risks to Implementation and Mitigation Strategies**

**Instructions :**

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

R: Provider Engagement: PAM administration is a new tool and providers may be resistant to its implementation due to: a) disruption in previously established work flows and time added to existing workforce schedules and appointment times; b) Additional oversight needed to ensure that PAM is integrated appropriately and data reporting.

M: Execute engagement activities to incentives engagement and/or participation between FLPPS, Health Care Providers, and CBOs. Activities planned include- Monthly NOCN participation, Bi-annual Summits, 1:1 meetings, provider type webinar assistance, and PM and PRA teaming. Additional incentives such as, assistance with IT integration and workforce dilemmas. FLPPS may also consider providing IPADs with the Flourish Application installed to providers experiencing limitations with data input resources.

R: Financial - CBOs & organizations may be hesitant to implement this project due to financial constraints (staff, IT) and performance based funding risk involved in DSRIP funds flow.

M: FLPPS will coordinate strategically with partner organizations to ascertain their level of readiness, feasibility of implementation given current resources, and provide as much project support as needed for successful implementation.

R: Provider Collaboration for project implementation: Primary care providers, physicians and clinicians often are not aware of the value of community based care or may even devalue the importance of collaborations with CBOs.

M: i) Educating providers about the importance of patient and cultural activation of recipient of care; ii) Robust cultural competence training for providers; iii) FLPPS will coordinate through CC & HL committee to establish guidelines, MOUs and similar type of agreement documents to provide support to Providers as to how best to establish needed partnerships.

R: Provider Culture and Behavior: a) Providers are typically in charge and often assume they know what's best for the patient. Activated patients taking due ownership of health care and being knowledgeable about their conditions can pose threats to established status quo and cultural power norms during service visits; b) Provider stigma surrounding Medicaid and Medicaid patients, where assumptions can lead to providers delivering subpar levels of service to these patients.

M: i) Educating providers about the importance of patient and cultural activation of recipient of care; ii) Robust cultural competence training for providers including topics such as the dynamics of power and privilege and its impact on the patient's health outcomes, in addition to encouraging a culture of support and openness towards socially and economically vulnerable groups.

R: Lack of ability to re-administer the PAM Tool by secondary groups in Flourish. Thus, opportunity to track PAM score is restricted.

M: i) Escalate concerns and limitations caused by inability to re-administer the PAM across groups to both Insignia and NYSDOH; ii) Work with partners to coordinate re-administer PAM strategy and/or create "work-a-round" techniques, such as report paper copies to FLPPS and have FLPPS input data.

 Delivery System Reform Incentive Payment Project  
 DSRIP Implementation Plan Project**

**Finger Lakes Performing Provider Systems, Inc. (PPS ID:9)**

**IPQR Module 2.d.i.2 - Patient Engagement Speed**

**Instructions :**

Enter the number of patients actively engaged through the current quarter. The number entered into the "Quarterly Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for Q4 should include patients previously reported in Q3 plus new patients engaged in Q4. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

Benchmarks	
Actively Engaged Speed	Actively Engaged Scale
DY4,Q4	56,253

	Year,Quarter	DY2,Q1	DY2,Q2	DY2,Q3	DY2,Q4
PPS Reported	Baseline Commitment	5,225	12,963	22,641	32,321
	Quarterly Update	3,175	0	0	0
	Percent(%) of Commitment	60.77%	0.00%	0.00%	0.00%

**Instructions :**

Please provide updates to baseline reporting on status, target dates, and work breakdown tasks for prescribed milestones. For milestones that are due and completed within the reporting period, documentation is required to provide evidence of project requirement achievement. Any explanations regarding altered or missed provider commitments should be included within the narrative box, not as text within uploaded documentation.

Project Requirements (Milestone/Task Name)	Prescribed Due Date	Reporting Level	Provider Type	Status	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
<b>Milestone #1</b> Contract or partner with community-based organizations (CBOs) to engage target populations using PAM(R) and other patient activation techniques. The PPS must provide oversight and ensure that engagement is sufficient and appropriate.	DY3 Q4	Project	N/A	In Progress	04/01/2015	12/31/2016	04/01/2015	03/31/2018	03/31/2018	DY3 Q4
<b>Task</b> Partnerships with CBOs to assist in patient "hot-spotting" and engagement efforts as evidenced by MOUs, contracts, letters of agreement or other partnership documentation.		Project		In Progress	04/01/2015	12/31/2016	04/01/2015	03/31/2018	03/31/2018	DY3 Q4
<b>Task</b> Identify CBO partners from FLPPS pre-contracting data assessment.		Project		Completed	07/01/2015	06/30/2016	07/01/2015	06/30/2016	06/30/2016	DY2 Q1
<b>Task</b> Identify CBOs that are within target population hot spots and develop a process to contract with CBOs to engage in coordinated patient activation activities and PAM administration ensuring partnering with mental health and substance abuse providers and faith communities.		Project		In Progress	04/01/2015	12/31/2016	04/01/2015	12/31/2016	12/31/2016	DY2 Q3
<b>Task</b> Conduct gap-analysis in services and resources (e.g. community health worker capacity) provided by project partners within identified hot spots, and use as guide to drive meaningful collaborations.		Project		In Progress	08/01/2015	12/31/2016	08/01/2015	06/30/2017	06/30/2017	DY3 Q1
<b>Task</b> Finalize contracts, memorandums of understanding, with CBOs		Project		In Progress	10/01/2015	12/31/2016	10/01/2015	12/31/2017	12/31/2017	DY3 Q3
<b>Task</b> Develop a quality assurance process to review partnership agreements and outcomes of engagement efforts		Project		In Progress	01/01/2016	09/30/2016	01/01/2016	12/31/2017	12/31/2017	DY3 Q3
<b>Milestone #2</b> Establish a PPS-wide training team, comprised of members with training in PAM(R) and expertise in patient activation and engagement.	DY2 Q4	Project	N/A	In Progress	06/01/2015	03/31/2017	06/01/2015	03/31/2017	03/31/2017	DY2 Q4
<b>Task</b> Patient Activation Measure(R) (PAM(R)) training team		Project		In Progress	06/01/2015	03/31/2017	06/01/2015	03/31/2017	03/31/2017	DY2 Q4

Milestone Name	Narrative Text
Contract or partner with community-based organizations (CBOs) to engage target populations using PAM(R) and other patient activation techniques. The PPS must provide oversight and ensure that engagement is sufficient and appropriate.	DY2Q1 2di Milestone 1 Narrative: FLPPS is moving this milestone's completion date to 3/31/18, to align with other project deliverables. There has been coordinated efforts with FLPPS's stakeholders (both CBO and Non CBO) to better define collaboration roles and strategies to define engagement criteria. In DY2, FLPPS will be utilizing an RFP process to engage CBO providers in PAM administration.
Establish a PPS-wide training team, comprised of members with training in PAM(R) and expertise in patient activation and engagement.	
Identify UI, NU, and LU "hot spot" areas (e.g., emergency rooms). Contract or partner with CBOs to perform outreach within the identified "hot spot" areas.	
Survey the targeted population about healthcare needs in the PPS' region.	
Train providers located within "hot spots" on patient activation techniques, such as shared decision-making, measurements of health literacy, and	DY2Q1 2di Milestone 5 Narrative: FLPPS is moving this milestone's completion date to 3/31/18, to align with other project deliverables. Two task are currently in progress: A comprehensive CC&HL training

Milestone Name	Narrative Text
cultural competency.	strategy and the hot spot mapping activity, which will assist in training and identifying hot spots. Both of these task are key for the completion of this milestone.
<p>Obtain list of PCPs assigned to NU and LU enrollees from MCOs. Along with the member's MCO and assigned PCP, reconnect beneficiaries to his/her designated PCP (see outcome measurements in #10).</p> <ul style="list-style-type: none"> <li>• This patient activation project should not be used as a mechanism to inappropriately move members to different health plans and PCPs, but rather, shall focus on establishing connectivity to resources already available to the member.</li> <li>• Work with respective MCOs and PCPs to ensure proactive outreach to beneficiaries. Sufficient information must be provided regarding insurance coverage, language resources, and availability of primary and preventive care services. The state must review and approve any educational materials, which must comply with state marketing guidelines and federal regulations as outlined in 42 CFR §438.104.</li> </ul>	
Baseline each beneficiary cohort (per method developed by state) to appropriately identify cohorts using PAM(R) during the first year of the project and again, at set intervals. Baselines, as well as intervals towards improvement, must be set for each cohort at the beginning of each performance period.	<p>DY2Q1 2di Milestone 7 Narrative:</p> <p>FLPPS is moving this milestone's completion date to 3/31/18, to align with other project deliverables. FLPPS has coordinated efforts with FLPPS stakeholders to ensure PAM data from DY1 is capable of identifying PAM cohorts. FLPPS will begin refining the re-administration of PAM processes discussed in DY1 and monitoring quality of cohort data as we wait for NYS to provide the measurements that the PPS is to use (score or level) and intervals towards improvement.</p>
Include beneficiaries in development team to promote preventive care.	
<p>Measure PAM(R) components, including:</p> <ul style="list-style-type: none"> <li>• Screen patient status (UI, NU and LU) and collect contact information when he/she visits the PPS designated facility or "hot spot" area for health service.</li> <li>• If the beneficiary is UI, does not have a registered PCP, or is attributed to a PCP in the PPS' network, assess patient using PAM(R) survey and designate a PAM(R) score.</li> <li>• Individual member's score must be averaged to calculate a baseline measure for that year's cohort.</li> <li>• The cohort must be followed for the entirety of the DSRIP program.</li> <li>• On an annual basis, assess individual members' and each cohort's level of engagement, with the goal of moving beneficiaries to a higher level of activation.               <ul style="list-style-type: none"> <li>• If the beneficiary is deemed to be LU &amp; NU but has a designated PCP who is not part of the PPS' network, counsel the beneficiary on better utilizing his/her existing healthcare benefits, while also encouraging the beneficiary to reconnect with his/her designated PCP.</li> </ul> </li> </ul>

Delivery System Reform Incentive Payment Project  
DSRIP Implementation Plan Project**

**Finger Lakes Performing Provider Systems, Inc. (PPS ID:9)**

**Prescribed Milestones Narrative Text**

Milestone Name	Narrative Text
<ul style="list-style-type: none"> <li>• The PPS will NOT be responsible for assessing the patient via PAM(R) survey.</li> <li>• PPS will be responsible for providing the most current contact information to the beneficiary's MCO for outreach purposes.</li> <li>• Provide member engagement lists to relevant insurance companies (for NU &amp; LU populations) on a monthly basis, as well as to DOH on a quarterly basis.</li> </ul>	
Increase the volume of non-emergent (primary, behavioral, dental) care provided to UI, NU, and LU persons.	
Contract or partner with CBOs to develop a group of community navigators who are trained in connectivity to healthcare coverage, community healthcare resources (including for primary and preventive services) and patient education.	
Develop a process for Medicaid recipients and project participants to report complaints and receive customer service.	FLPPS is moving this milestone's completion date to 3/31/17, to make certain the complaint line is in alignment with FLPPS's CC & HL strategy, and the qualitative data yet to be released from February's Community Forums. In the meantime, FLPPS has developed an internal process to isolate complaint/information calls or emails to a single point person who will then document and triage the consumers appropriately. Milestone 12 falls under the DSRIP timeframe category of Project System Change, which states under Attachment I, NY DSRIP Program Funding Mechanics Protocol, no more than the first two years will be utilized to implement major system changes related to the project. Thus, the requested extension date for Milestone 12 falls within the maximum completion date of 3/31/17.
Train community navigators in patient activation and education, including how to appropriately assist project beneficiaries using the PAM(R).	
Ensure direct hand-offs to navigators who are prominently placed at "hot spots," partnered CBOs, emergency departments, or community events, so as to facilitate education regarding health insurance coverage, age-appropriate primary and preventive healthcare services and resources.	
Inform and educate navigators about insurance options and healthcare resources available to UI, NU, and LU populations.	
Ensure appropriate and timely access for navigators when attempting to establish primary and preventive services for a community member.	
Perform population health management by actively using EHRs and other IT platforms, including use of targeted patient registries, to track all patients engaged in the project.

**Project 3.a.i – Integration of primary care and behavioral health services**

**✓ IPQR Module 3.a.i.1 - Major Risks to Implementation and Mitigation Strategies**

**Instructions :**

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

R: Financial –partners are concerned about billing multiple visits in one day and/or reimbursement reductions for doing so–  
M: Partners with financially stable models already in place to share best practices with project partners; applying for waivers to address regulations that impact on billing; researching FQHC options

R: Technology/multiple EMRs with lack of interoperability –  
M: Will leverage PPS level resources including the established IT committee, and the RHIO, to build functionality for timeliness and ease of information exchange

R: Workforce –Shortages in key areas–need to have adequate licensed staff particularly behavioral health clinicians  
M: Multipronged approach to include support from the PPS level in conjunction with Workforce and Clinical committees and through IDS and workforce PPS wide strategies including using staff to top of license, partnering with institutes of higher ed for expansion of psychiatric training (both in psychiatric specialties and general med training) and increased internship opportunities, PPS centralized recruitment for psychiatric providers to highlight opportunities particularly in HPSA areas, use private practice therapists per diem in primary care, explore opportunities for increased telepsychiatry as well as increased psychiatrist to PCP formal collaboration

R: Transportation –inadequate transportation was cited as impacting on ability to engage with/attend appointments with primary care  
M: Utilize traditional and nontraditional solutions as developed by PPS transportation committee, including inventory and directory of regional transportation options

R: Provider engagement and Provider collaboration for implementation –Success of project relies on collaborative approach to meeting behavioral health and physical health needs of patients; will not be successful without provider buy in to collaborative treatment approaches and comfort in treating patients with behavioral health issues-  
M: Provide education on the project and integration benefits utilizing physician champions with experience in integration; Involve physician representatives on project team that is developing protocols, workflows, and plans for implementation; provide education and work in conjunction with MEB project to address issues of stigma related to behavioral health

R: PCMH –Practices may struggle to meet all PCMH requirements within the set time frame-  
M: PPS to provide centralized expertise, support and education on meeting PCMH requirements

R: Waivers –Waivers not being issued could have negative impact on speed of implementation;  
M: Barring waivers the traditional processes for obtaining satellite licensure will be utilized if waivers are not approved; PPS will provide centralized support in applying for all applicable waivers

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Finger Lakes Performing Provider Systems, Inc. (PPS ID:9)**

R: Waivers - Non-allowance of co-location of multiple entities will impact the ability of providers in our PPS to partner to provide co-located services.

M: Work with providers on arrangements or other models that are within regulatory limits to co-locate services. Continue to advocate on multiple levels for relief from this rule.

**IPQR Module 3.a.i.2 - Patient Engagement Speed**

**Instructions :**

Enter the number of patients actively engaged through the current quarter. The number entered into the "Quarterly Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for Q4 should include patients previously reported in Q3 plus new patients engaged in Q4. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

Benchmarks	
Actively Engaged Speed	Actively Engaged Scale

**✓ IPQR Module 3.a.i.3 - Prescribed Milestones**

**Instructions :**

Please provide updates to baseline reporting on status, target dates, and work breakdown tasks for prescribed milestones. For milestones that are due and completed within the reporting period, documentation is required to provide evidence of project requirement achievement. Any explanations regarding altered or missed provider commitments should be included within the narrative box, not as text within uploaded documentation.

Project Requirements (Milestone/Task Name)	Prescribed Due Date	Project Model Name	Reporting Level	Provider Type	Status	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
<b>Milestone #1</b> Co-locate behavioral health services at primary care practice sites. All participating primary care practices must meet 2014 NCQA level 3 PCMH or Advance Primary Care Model standards by DY 3.	DY3 Q4	Model 1	Project	N/A	In Progress	07/01/2015	03/31/2018	07/01/2015	03/31/2018	03/31/2018	DY3 Q4
<b>Task</b> All practices meet NCQA 2014 Level 3 PCMH and/or APCM standards by the end of DY3.			Provider	Practitioner - Primary Care Provider (PCP)	In Progress	07/01/2015	03/31/2018	07/01/2015	03/31/2018	03/31/2018	DY3 Q4
<b>Task</b> Behavioral health services are co-located within PCMH/APC practices and are available.			Provider	Mental Health	In Progress	07/01/2015	03/31/2018	07/01/2015	03/31/2018	03/31/2018	DY3 Q4
<b>Task</b> Establish Project team with representation from, but not limited to, providers, representatives of local governmental units, subject matter experts, PPS team members, other partners identified across the PPS as important to the project's success.			Project		Completed	07/01/2015	03/31/2016	07/01/2015	03/31/2016	03/31/2016	DY1 Q4
<b>Task</b> Identify the specific sites, locations implementing model 1 of this project. Services at co-located sites could include behavioral health, and substance use disorder screening, referral, and treatment services. The populations to be served by this model include all patients at each participating site within the established PPS.			Project		Completed	07/01/2015	06/30/2016	07/01/2015	06/30/2016	06/30/2016	DY2 Q1
<b>Task</b> Create survey for providers and use survey results to complete current state assessment of integration for project participants.			Project		In Progress	09/01/2015	06/30/2016	09/01/2015	09/30/2016	09/30/2016	DY2 Q2
<b>Task</b> Determine projected future state of integration for sites involved in the project considering projected volume of			Project		In Progress	07/01/2015	09/30/2016	07/01/2015	09/30/2016	09/30/2016	DY2 Q2

**Instructions :**

New York State Department Of Health  
Delivery System Reform Incentive Payment Project  
DSRIP Implementation Plan Project

Finger Lakes Performing Provider Systems, Inc. (PPS ID:9)

Project 3.a.ii – Behavioral health community crisis stabilization services

IPQR Module 3.a.ii.1 - Major Risks to Implementation and Mitigation Strategies

Instructions :

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

R: Workforce - The Recruitment & retention of psychiatric providers is a challenge for us and many areas across our region are HPSAs as a result.

Mi: a. Use existing providers more efficiently, e.g., share resources across "hubs" b. Use Telepsych so existing providers c. Allow Mobile Teams to transport to where Psych Providers are d. Coordinate resources with NYS initiatives providing similar services e. Facilitate behavioral health certification for non-psych NPs/PAs f. Facilitate path to Mid-Level training for RNs, et al. by working with area colleges. g. Leverage FLPPS Workforce committee/training

R: Workforce - Possible insufficient care management capacity and competency, high volume of patients with BH needs in this region requires a more specialized approach, need for adequate staff who are also culturally competent.

M: a. Work closely with Health Homes to identify need, resources. b. Provide specialized training for Care Managers who will be associated with Community Crisis Stabilization Services, e.g., training in early identification of behavioral health crises and availability of resources.

R: Communication for Coordination across the PPS (IT interoperability & Central Triage) - a. Multiple Crisis Lines & Sensitivity regarding a "Central Line" for the region. Identify functionality of present systems and current gaps. b. IT interface with multiple EMRS PLUS those without IT infrastructure c. Constraint due to 42 C.F.R., which does not allow specific sharing of information for those being treated for Substance Use Disorders, HIPPA issues need to be addressed d. Multiple State & Community Initiatives

M: a. Continue with using successful local call-lines and explore connecting them seamlessly to a "central call center" via IT advances. a. Provide support/oversight to existing regional call line ("211") to improve capability. b. Utilize and leverage FLPPS infrastructure to assist with interoperability & the collection of data for Domain 3 Metric measurement b. Until HIT is up and running, standardized manual tracking by agency as needed. c. Coordinate with 2.a.i efforts. c. Coordinate efforts with other NYS PPS's who are likely working through this same risk. c. Work with OASAS, DOH & OMH for solutions. d. Explore the use SPOA-type Service to assure coordination/collaboration across initiatives d. Work with County Directors to assist with communicating the synergies of the initiatives underway.

R: Transportation is a challenge in both our urban and rural communities with cost, limitations on the use of healthcare dollars for non-medical although health-related destinations, distance from BH services and our many lakes making travel longer for care.

M: a. Assure all Hubs are aware of/connected to various transportation services already in place b. Share & initiate "best practices" re: transportation from other rural areas/communities c. Provide "Regional Transportation Directory" via FLPPS Call Center or "repository" organized by locality, to include scheduling parameters, etc. d. Provide support for co-located services to decrease the amount of travel for health care. e. Use of Telehealth, MCT, home visits (home care)

R: Capital Funding- ambiguity regarding funding awards to develop crisis services where there are gaps. Delays our ability to definitively locate some of our "Hubs"

M: a. Begin establishing those hubs that are not capital-dependent and leverage those locations for piloting/completing Domain 1 metrics. b.

**Finger Lakes Performing Provider Systems, Inc. (PPS ID:9)**

**IPQR Module 3.a.ii.2 - Patient Engagement Speed**

**Instructions :**

Enter the number of patients actively engaged through the current quarter. The number entered into the "Quarterly Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for Q4 should include patients previously reported in Q3 plus new patients engaged in Q4. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

Benchmarks	
Actively Engaged Speed	Actively Engaged Scale
DY4,Q4	12,240

	Year,Quarter	DY2,Q1	DY2,Q2	DY2,Q3	DY2,Q4
PPS Reported	Baseline Commitment	900	1,800	3,825	5,850
	Quarterly Update	744	0	0	0
	Percent(%) of Commitment	82.67%	0.00%	0.00%	0.00%
IA Approved	Quarterly Update	0	0	0	0
	Percent(%) of Commitment	0.00%	0.00%	0.00%	0.00%

Warning: PPS Reported - Please note that your patients engaged to date (744) does not meet your committed amount (900) for 'DY2,Q1'

Milestone Name	Narrative Text
Implement a crisis intervention program that, at a minimum, includes outreach, mobile crisis, and intensive crisis services.	
Establish clear linkages with Health Homes, ER and hospital services to develop and implement protocols for diversion of patients from emergency room and inpatient services.	
Establish agreements with the Medicaid Managed Care organizations serving the affected population to provide coverage for the service array under this project.	
Develop written treatment protocols with consensus from participating providers and facilities.	
Include at least one hospital with specialty psychiatric services and crisis-oriented psychiatric services; expansion of access to specialty psychiatric and crisis-oriented services.	
Expand access to observation unit within hospital outpatient or at an off campus crisis residence for stabilization monitoring services (up to 48 hours).	
Deploy mobile crisis team(s) to provide crisis stabilization services using evidence-based protocols developed by medical staff.	
Ensure that all PPS safety net providers have actively connected EHR systems with local health information exchange/RHIO/SHIN-NY and share health information among clinical partners, including direct exchange (secure messaging), alerts and patient record look up by the end of Demonstration Year (DY) 3.	
Establish central triage service with agreements among participating psychiatrists, mental health, behavioral health, and substance abuse providers.	
Ensure quality committee is established for oversight and surveillance of compliance with protocols and quality of care.	
Use EHRs or other technical platforms to track all patients engaged in this project.

**Project 3.a.v – Behavioral Interventions Paradigm (BIP) in Nursing Homes**

**✓ IPQR Module 3.a.v.1 - Major Risks to Implementation and Mitigation Strategies**

**Instructions :**

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

R: Recruit/Retain Psychiatric Providers. Shortfall of psychiatric providers (HPSA status) & recruitment/retention has been difficult for SNFs. This jeopardizes ability to meet all project requirements by DY2Q4 (in particular, #4).  
M: Use existing NPs/providers efficiently, share resources across SNFs; Use Telepsychiatry so existing providers can cover more of region; Institute Project ECHO as data showing improvement in staff satisfaction & retention; Facilitate BH certification for SW, RN, CNA staff & non-psych NPs/Pas; Facilitate path to Mid-Level training for RNs, et al.; Initiate in-house trainings to improve skill-sets & competencies.

R: Capital Funding. Lack of successful capital applications for Telementoring/telepsychiatry infrastructure & for the creation of additional BH/neurobehavioral units at SNF level.  
M: We will use FLPPS Central services to leverage economy of scale, e.g., Project ECHO costs will be minimal if funded via GRHF; Alternate funds flow will be identified; Assistance w/ additional grant-seeking opportunities.

R: Communication for coordination across PPS. Transitioning from being separate entities to IDS across regional SNFs & do not have established communication processes yet in place. This is essential to coordinating the successful roll out of project & to measure/monitor outcomes.  
M: Partnering SNFs have differing resources to meet project requirements, surveying them for baseline data re: their abilities to meet requirements & to understand what assistance they may need. FLPPS will be a resource for assisting with challenges in project implementation via: direct consultation, through webinars, through Project Team meetings & sharing of best practices; Collection of data across SNFs– Assistance will be offered, as needed, to standardize the collection of data for Domain 1 & Domain 3 metrics. FLPPS IT committee is providing support & assistance with this & will create a web-based system if needed to assist with data collection.

R: IT interface with multiple EMRS PLUS those without IT infrastructure. We are coordinating the IT needs with our FLPPS IT committee & through Project 2.a.i.  
R: Legal & policy barriers to sharing BH data (such as 42 CFR 2) at the Federal, State, & Local level, including individual organizations' policies & procedures that may be overly restrictive of data sharing.  
M: Engage in early policy discussions utilizing an inclusive policy committee dedicated to solving issues associated with behavioral health data sharing; Engage with NYSDOH, SHIN-NY, & RHIO resources to learn from past BH data integration pilots or projects to inform a model for sharing these data among FLPPS members.

R: Mistrust of the process & of collaboration. Several factors contribute to this risk: This is a new collaborative effort; funds flow is still in development; project implementation will require work flow changes at each SNF; resistance may occur that can impede our timeline commitment. This has particularly been an issue with the proprietary facilities.  
M: Identify SNF Project Champions at each participating SNF who will liaison with the FLPPS; Voice concerns openly so necessary dialogue & assurances can occur; Continue to be transparent with all processes; Include "members", in all applicable decision-making forums.

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Finger Lakes Performing Provider Systems, Inc. (PPS ID:9)**

R: Implementation & sustainability. Organizations tend to drift back to "business as usual" if changes are not fully acculturated.  
M: Identifying SNF Champions at leadership level in each SNF & establish a "learning collaborative" among them to keep the project objective & P4P as active motivator.

**IPQR Module 3.a.v.2 - Patient Engagement Speed**

**Instructions :**

Enter the number of patients actively engaged through the current quarter. The number entered into the "Quarterly Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for Q4 should include patients previously reported in Q3 plus new patients engaged in Q4. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

Provide holistic psychological Interventions.										
<b>Task</b> The PPS has defined the types of behavioral health services that are provided, factors that will make the services holistic, and plan to hire or train staff to provide holistic interventions.		Project		In Progress	07/01/2015	03/31/2017	07/01/2015	03/31/2017	03/31/2017	DY2 Q4
<b>Task</b> 1. Develop categories of holistic interventions and characteristics of interventions that meet criteria.		Project		In Progress	07/01/2015	06/30/2016	07/01/2015	12/31/2016	12/31/2016	DY2 Q3
<b>Task</b> 2. Assess the current types of behavioral services provided in SNFs and whether they can be considered as holistic		Project		In Progress	07/01/2015	06/30/2016	07/01/2015	12/31/2016	12/31/2016	DY2 Q3
<b>Task</b> 3. Share current services and tools via project team meetings and/or local webinars.		Project		In Progress	10/01/2015	06/30/2016	10/01/2015	03/31/2017	03/31/2017	DY2 Q4
<b>Task</b> 4. Identify and develop training protocols for staff providing holistic interventions.		Project		In Progress	01/01/2016	06/30/2016	01/01/2016	12/31/2016	12/31/2016	DY2 Q3
<b>Task</b> 5. Training protocols are reviewed by subject matter experts and clinical quality committee.		Project		Not Started	04/01/2016	09/30/2016	09/01/2016	12/31/2016	12/31/2016	DY2 Q3
<b>Task</b> 6. Assess how these interventions would be staffed and sustained over time.		Project		Not Started	04/01/2016	03/31/2017	09/01/2016	03/31/2017	03/31/2017	DY2 Q4
<b>Task</b> 7. PPS oversees the training strategy implementation.		Project		Not Started	04/01/2016	03/31/2017	01/01/2017	03/31/2017	03/31/2017	DY2 Q4
<b>Task</b> 8. Develop training and tracking logs for reporting.		Project		In Progress	01/01/2016	03/31/2017	01/01/2016	03/31/2017	03/31/2017	DY2 Q4
<b>Milestone #9</b> Provide enhanced recreational services.	DY2 Q4	Project	N/A	In Progress	07/01/2015	03/31/2017	07/01/2015	03/31/2017	03/31/2017	DY2 Q4
<b>Task</b> PPS has increased availability of recreational services.		Project		In Progress	07/01/2015	03/31/2017	07/01/2015	03/31/2017	03/31/2017	DY2 Q4
<b>Task</b> 1. Define recreational services and query project team partners on current state of recreational services offered in SNFs.		Project		In Progress	07/01/2015	06/30/2016	07/01/2015	09/30/2016	09/30/2016	DY2 Q2
<b>Task</b> 2. Identify areas of recreational services that could be enhanced.		Project		In Progress	10/01/2015	06/30/2016	10/01/2015	09/30/2016	09/30/2016	DY2 Q2
<b>Task</b> 3. Provider implements additional, enhanced recreational services as appropriate.		Project		In Progress	01/01/2016	03/31/2017	01/01/2016	03/31/2017	03/31/2017	DY2 Q4
<b>Task</b> 4. Develop training and tracking logs for reporting of staff and patients engaged in these services.		Project		In Progress	01/01/2016	06/30/2016	01/01/2016	03/31/2017	03/31/2017	DY2 Q4

Milestone Name	Narrative Text
Implement BIP Model in Nursing Homes model using SNF skilled nurse practitioners (NP) and psychiatric social workers to provide early assessment, reassessment, intervention, and care coordination for at risk residents to reduce the risk of crisis requiring transfer to higher level of care.	
Augment skills of the clinical professionals in managing behavioral health issues.	
Enable the non-clinical staff to effectively interact with a behavioral population	
Assign a NP with Behavioral Health Training as a coordinator of care.	
Implement a Behavior Management Interdisciplinary Team Approach to care.	
Implement a medication reduction and reconciliation program.	
Increase the availability of psychiatric and psychological services via telehealth and urgently available providers.

Provide holistic psychological Interventions.	
Provide enhanced recreational services.	
Develop crisis intervention strategies via development of an algorithm for staff intervention and utilization of sitter services.	
Improve documentation and communication re: patient status.	
Modify the facility environment.	
Formal agreements with the Medicaid Managed Care organizations (including MLTC and FIDA plans) serving the affected population to provide coverage for the service array under this project.	
Use EHRs or other technical platforms to track all patients engaged in this project.

**Project 3.f.i – Increase support programs for maternal & child health (including high risk pregnancies) (Example: Nurse-Family Partnership)**

**✓ IPQR Module 3.f.i.1 - Major Risks to Implementation and Mitigation Strategies**

**Instructions :**

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

R: IT capability for electronic referral system and care management program.  
M: The PPS IT department will assist in the development of interoperability for care management, patient tracking, referral system and standardized method of manual tracking which will be required until all electronic systems are in place across the PPS. The PPS will determine the vendor to be used for the referral system, care management and patient data tracking. The PPS will provide technical assistance to users. PPS will work with organizations who have moved forward to have the ability to electronically make referrals, track data and documented case management of pregnant women. Working in collaboration with University of Rochester and Rochester Regional Health System who are working collaboratively to implement CHW program.

R: Workforce - Recruitment of BSN/ LC SW may be a challenge in the rural areas creating limited workforce of appropriate level.. Hiring time frame has limited time frame for completion.  
M: Workforce Manager hired and is working with project manager to determine gaps in workforce in rural areas.

R: Cultural Competency & HL: Within the PPS there is a large diversity of patient population.  
M: PPS to assess the cultural needs of the population served and provide education and outreach to community through patient activation project. PPS CC/HL vendor will assist in all aspects of education and training.

R: Inability for partners to report and PPS to track patient data.  
M: IT to establish time frame for completion.

**IPQR Module 3.f.i.2 - Patient Engagement Speed**

**Instructions :**

Enter the number of patients actively engaged through the current quarter. The number entered into the "Quarterly Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for Q4 should include patients previously reported in Q3 plus new patients engaged in Q4. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

<b>Task</b> Develop job description based on NYSDOH MICHC criteria 1.) Develop PPS wide standard for job description elements 2.) Identify requirement for job description and its purpose for CHW program 3.) Identify team who will draft job descriptions in conjunction with FLPPS PM and Clinical SME based on DSRIP need 4.) Develop job description elements 5.) Review other PPS job descriptions and ensure alignment– edit protocols if needed to ensure alignment with other PPS protocols 6.) Review and obtain approval of job description from internal project team 7.) Once project team provides approval, present and seek approval of job description through PPS full clinical quality committee and 8.) Once approved by clinical quality committee, cascade job description to CHW providers through multi-faceted communication, training, and education channels 9.) Hold PPS wide educational webinars on job description 10.) Develop PPS wide compliance monitoring processes to ensure CHW Coordinator's are using protocols correctly			Project		Completed	07/01/2015	06/30/2016	07/01/2015	06/30/2016	06/30/2016	DY2 Q1

Implement an evidence-based home visitation model, such as the Nurse Family Partnership, for pregnant high- risk mothers including high-risk first time mothers.	
Develop a referral system for early identification of women who are or may be at high-risk.	
Establish a quality oversight committee of OB/GYN and primary care providers to monitor quality outcomes and implement new or change activities as appropriate.	
Use EHRs or other IT platforms to track all patients engaged in this project.	
Identify and engage a regional medical center with expertise in management of high-risk pregnancies and infants (must have Level 3 NICU services or Regional Perinatal Center).	
Develop a multidisciplinary team of experts with clinical and social support expertise who will co-manage care of the high-risk mother and infant with local community obstetricians and pediatric providers.	
Develop service MOUs between multidisciplinary team and OB/GYN providers.	
Utilize best evidence care guidelines for management of high risk pregnancies and newborns and implement uniform clinical protocols based upon evidence-based guidelines.	
Ensure that all PPS safety net providers are actively sharing EHR systems or other IT platforms with local health information exchange/RHIO/SHIN-NY and sharing health information among clinical

partners, including direct exchange (secure messaging), alerts and patient record look up, by the end of DY 3.	
Ensure that EHR systems or other IT platforms used by participating safety net providers meet Meaningful Use and PCMH Level 3 standards and/or APCM by the end of Demonstration Year 3.	
Use EHRs or other IT platforms to track all patients engaged in this project.	
Develop a Community Health Worker (CHW) program on the model of the Maternal and Infant Community Health Collaboratives (MICHHC) program; access NYSDOH-funded CHW training program.	
Employ a Community Health Worker Coordinator responsible for supervision of 4 - 6 community health workers. Duties and qualifications are per NYS DOH criteria.	DY2Q1 3fi Milestone 13 (2) Narrative: FLPPS is moving the Milestone to 9/30/16, to ensure implementation or expansion of CHW programs are in place across this PPS region to meet the needs of high risk women and children.
Employ qualified candidates for Community Health Workers who meet criteria such as cultural competence, communication, and appropriate experience and training.	
Establish protocols for deployment of CHW.	DY2Q1 3fi Milestone 15 (4) Narrative: FLPPS is moving this milestone to 9/30/16, in order to ensure the establishment of policies and protocols for deployment of CHW's. This is in process, with anticipated completion by 9/30/16.
Coordinate with the Medicaid Managed Care organizations serving the target population.	
Use EHRs or other IT platforms to track all patients engaged in this project.

**Project 4.a.iii – Strengthen Mental Health and Substance Abuse Infrastructure across Systems**

**✓ IPQR Module 4.a.iii.1 - Major Risks to Implementation and Mitigation Strategies**

**Instructions :**

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

R: Target Population: The most significant risk at the outset of project design is Scope Creep due to lack of a fully defined target population.  
M: Through early brainstorming sessions with the 4.a.iii Project Team, over 100 high-risk individuals, groups and communities were identified as being in need of MEB Health disorder prevention services. Particularly through Q2, it will be necessary for the team to significantly narrow the target population to ensure a defined project scope and associated measurable benefits over time. To this end, the project team, and others, have been engaged in several strategic visioning sessions which will be used to focus the project and help guide the DY1 population-based data collection activities. Once the data collection is complete, the target population will be further refined prior to the implementation of interventions.

R: Stigma: A second major risk is to successful implementation of project 4.a.iii is the stigma associated with individuals diagnosed with MEB Health disorders.  
M: A central focus of the MEB Health Partnership will be to confront this stigma, both through training on cultural competence across the PPS and through other mechanisms, to be determined.

R: Reimbursement: The lack of reimbursement for prevention services, particularly those focused on MEB Health, is a significant risk to program success. Existing fee-for-service reimbursement models do not support the provision of evidence-based prevention programs, particularly in the community setting. Often, community-based programs are grant funded and unsustainable, despite their level of effectiveness. This paradigm represents a root cause for service-related gaps.  
M: The move to value-based reimbursement is an opportunity to increase access to evidence-based prevention programs. However, to be successful, community-based providers must implement infrastructure improvements and demonstrate the value of evidence-based interventions; that they are ultimately able to bill for those programs which highly contribute to the health of population. The PPS will support this evolution by facilitating the implementation of information technology and standardized data collection across targeted community-based prevention programs. This will facilitate evaluation activities that clearly define programmatic value in terms of cost, quality and outcomes. In this way, at the end of the five-year project period, the PPS will have developed a core set of MEB health promotion and prevention-related interventions that are worthy of reimbursement under a value-based system.

R: Information Technology: The PPS will support this evolution by facilitating the implementation of information technology and standardized data collection across targeted community-based prevention programs.  
M: Develop an IT Change Management Strategy .This will facilitate evaluation activities that clearly define programmatic value in terms of cost, quality and outcomes. In this way, at the end of the five-year project period, the PPS will have developed a core set of MEB health promotion and prevention-related interventions that are worthy of reimbursement under a value-based system.

R: Financing: The implementation of programs to support MEB health promotion and disorder prevention requires resources not readily available to project participants.  
M: In recognition of these financial constraints, the PPS will create an "Evidence-Based Practice Implementation Fund" to help green-light adoption

**Project 4.b.ii – Increase Access to High Quality Chronic Disease Preventive Care and Management in Both Clinical and Community Settings (Note: This project targets chronic diseases that are not included in domain 3, such as cancer)**

**✓ IPQR Module 4.b.ii.1 - Major Risks to Implementation and Mitigation Strategies**

**Instructions :**

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

R: Inadequate engagement of CBO's is a significant risk to successful project implementation - to this end, there are a number of outstanding issues, including (1) The state-defined 5% funding limit for non-safety net providers; (2) An underdeveloped infrastructure across CBO entities; (3) An evolving understanding of regional CBO assets; and (4) Limited existing cross-sector collaboration.

M: FLPPS has hired a Provider Relations Associate to solely focus on CBO engagement, including the documentation and mapping of CBO assets by county and Naturally Occurring Care Network (NOCN). Phase II contracting will recognize CBO assets, connect assets to the IDS and facilitate referral and subcontracting relationships, as necessary. FLPPS will provide technical assistance, as needed, to ensure high-value CBOs have the resources necessary to contract/report/track outcomes.

R: The focus of this project is tied to the creation and implementation of a standardized risk assessment. This strategy was identified before New York State fully implemented their process for building the value-based payment methodology, which also includes the use of what will likely become a standardized risk assessment. FLPPS needs to move forward with project implementation while not developing or duplicating tools that will ultimately be dictated and implemented state-wide.

M: In response, FLPPS has undertaken a full analysis of chronic disease prevalence across the region to support the identification of a target population for whom the project can be focused prior to the development and adoption of a PPS-wide risk assessment. This process included the review of all high-cost chronic illness targeted by the advanced primary care model. This work will be reviewed with the project team in November 2015, and will likely result in the selection of a preliminary target population, which can be further refined when the state releases its risk assessment strategy.

R: Ability to contract with MCOs and get 90% of payments under value-based payment methodologies.

M: FLPPS will work in close collaboration with the State in incentivizing MCOs to negotiate and work with FLPPS and engage and educate partners to ensure buy-in for supporting VBP transition efforts.

R: There is currently a significant data gap around the measurement and evaluation of community-based prevention programs. CBOs often track programmatic success using process measures. There aren't clearly defined indicators/measures to track the value of a community based prevention/management intervention, nor the IT infrastructure to capture this data discreetly.

M: Through the work of the Integrated Delivery System project, FLPPS will implement an integrated IT solution that includes community-based prevention programs, to enable population health management based on identified indicators/measures that will have the ability to monitor a patient's health status before, during and after participation. Over time, this type of evaluation will allow the PPS to identify best practices and determine the value of a given intervention in preparation for the inclusion of high quality prevention and disease management programming in a value-based payment.

**Attestation**

The Lead Representative has been designated by the Primary Lead PPS Provider (PPS Lead Entity) as the signing officiate for the DSRIP Quarterly Report. The Lead Representative has the authority to complete this attestation on behalf of the PPS network. The Lead Representative and PPS Lead Entity are responsible for the authenticity and accuracy of the material submitted in this report.

The Lead Representative of the Performing Provider System (PPS) must complete this attestation form in order for the project application to be accepted by the NYS Department of Health. Once the attestation is complete, the Quarterly Report will be locked down from any further editing. Do not complete this section until the entire Quarterly Report is complete.

If the Quarterly Report becomes locked in error and additional changes are necessary, please use the contact information on the Home Page to request that the Quarterly Report be unlocked.

To electronically sign this Quarterly Report, please enter the required information and check the box below:

I here by attest, as the Lead Representative of the 'Finger Lakes Performing Provider Systems, Inc. ', that all information provided on this Quarterly report is true and accurate to the best of my knowledge, and that, following initial submission in the current quarterly reporting period as defined by NY DOH, changes made to this report were pursuant only to documented instructions or documented approval of changes from DOH or DSRIP Independent Assessor.

<b>Primary Lead PPS Provider:</b>	ROCHESTER GENERAL HOSPITAL
<b>Secondary Lead PPS Provider:</b>	UNITY HOSPITAL ROCHESTER

DSRIP Implementation Plan Project**

**Finger Lakes Performing Provider Systems, Inc. (PPS ID:9)**

Project ID	Module Name / Milestone #	Review Status	
2.a.i	Module 2.a.i.2 - Prescribed Milestones		
	Milestone #1 All PPS providers must be included in the Integrated Delivery System. The IDS should include all medical, behavioral, post-acute, long-term care, and community-based service providers within the PPS network; additionally, the IDS structure must include payers and social service organizations, as necessary to support its strategy.	Pass & Ongoing	
	Milestone #2 Utilize partnering HH and ACO population health management systems and capabilities to implement the PPS' strategy towards evolving into an IDS.	Pass & Ongoing	
	Milestone #3 Ensure patients receive appropriate health care and community support, including medical and behavioral health, post-acute care, long term care and public health services.	Pass & Ongoing	
	Milestone #4 Ensure that all PPS safety net providers are actively sharing EHR systems with local health information exchange/RHIO/SHIN-NY and sharing health information among clinical partners, including directed exchange (secure messaging), alerts and patient record look up, by the end of Demonstration Year (DY) 3.	Pass & Ongoing	
	Milestone #5 Ensure that EHR systems used by participating safety net providers meet Meaningful Use and PCMH Level 3 standards and/or APCM by the end of Demonstration Year 3.	Pass & Ongoing	
	Milestone #6 Perform population health management by actively using EHRs and other IT platforms, including use of targeted patient registries, for all participating safety net providers.	Pass & Ongoing	
	Milestone #7 Achieve 2014 Level 3 PCMH primary care certification and/or meet state-determined criteria for Advanced Primary Care Models for all participating PCPs, expand access to primary care providers, and meet EHR Meaningful Use standards by the end of DY 3.	Pass & Ongoing	
	Milestone #8 Contract with Medicaid Managed Care Organizations and other payers, as appropriate, as an integrated system and establish value-based payment arrangements.	Pass & Ongoing	
	Milestone #9 Establish monthly meetings with Medicaid MCOs to discuss utilization trends, performance issues, and payment reform.	Pass & Ongoing	
	Milestone #10 Re-enforce the transition towards value-based payment reform by aligning provider compensation to patient outcomes.	Pass & Ongoing	
Milestone #11 Engage patients in the integrated delivery system through outreach and navigation activities, leveraging community health workers, peers, and culturally competent community-based organizations, as appropriate.	Pass & Ongoing		
2.b.iii	Module 2.b.iii.2 - Patient Engagement Speed	Pass (with Exception) & Ongoing	
	Module 2.b.iii.3 - Prescribed Milestones		
	Milestone #1 Establish ED care triage program for at-risk populations	Pass & Ongoing	
	Milestone #2 Participating EDs will establish partnerships to community primary care providers with an emphasis on those that are PCMHs and have open access scheduling. a. Achieve NCQA 2014 Level 3 Medical Home standards or NYS Advanced Primary Care Model standards by the end of DSRIP Year 3. b. Develop process and procedures to establish connectivity between the emergency department and community primary care	Pass & Ongoing	

**New York State Department Of Health**  
**Delivery System Reform Incentive Payment Project**  
**DSRIP Implementation Plan Project**

**Finger Lakes Performing Provider Systems, Inc. (PPS ID:9)**

Project ID	Module Name / Milestone #	Review Status	
	providers. c. Ensure real time notification to a Health Home care manager as applicable		
	Milestone #3 For patients presenting with minor illnesses who do not have a primary care provider: a. Patient navigators will assist the presenting patient to receive an immediate appointment with a primary care provider, after required medical screening examination, to validate a non-emergency need. b. Patient navigator will assist the patient with identifying and accessing needed community support resources. c. Patient navigator will assist the member in receiving a timely appointment with that provider's office (for patients with a primary care provider).	Pass & Ongoing	
	Milestone #4 Established protocols allowing ED and first responders - under supervision of the ED practitioners - to transport patients with non-acute disorders to alternate care sites including the PCMH to receive more appropriate level of care. (This requirement is optional.)	Pass & Ongoing	
	Milestone #5 Use EHRs and other technical platforms to track all patients engaged in the project.	Pass & Ongoing	
2.b.iv	Module 2.b.iv.2 - Patient Engagement Speed	Pass (with Exception) & Ongoing	 
	Module 2.b.iv.3 - Prescribed Milestones		
	Milestone #1 Develop standardized protocols for a Care Transitions Intervention Model with all participating hospitals, partnering with a home care service or other appropriate community agency.	Pass & Ongoing	
	Milestone #2 Engage with the Medicaid Managed Care Organizations and Health Homes to develop transition of care protocols that will ensure appropriate post-discharge protocols are followed.	Pass & Ongoing	
	Milestone #3 Ensure required social services participate in the project.	Pass & Ongoing	
	Milestone #4 Transition of care protocols will include early notification of planned discharges and the ability of the transition care manager to visit the patient in the hospital to develop the transition of care services.	Pass & Ongoing	
	Milestone #5 Protocols will include care record transitions with timely updates provided to the members' providers, particularly primary care provider.	Pass & Ongoing	
	Milestone #6 Ensure that a 30-day transition of care period is established.	Pass & Ongoing	
	Milestone #7 Use EHRs and other technical platforms to track all patients engaged in the project.	Pass & Ongoing	
2.b.vi	Module 2.b.vi.2 - Patient Engagement Speed	Pass (with Exception) & Ongoing	 
	Module 2.b.vi.3 - Prescribed Milestones		
	Milestone #1 Partner with community housing providers and home care service organizations to develop transitional supportive housing for high-risk patients.	Pass & Ongoing	
	Milestone #2 Develop protocols to identify chronically ill super-utilizers who qualify for this service. Once identified, this targeted population will be monitored using a priority listing for access to transitional supportive housing.	Pass & Ongoing	
	Milestone #3 Establish MOUs and other service agreements between participating hospitals and community housing providers to allow the supportive housing and home care services staff to meet with patients in the hospital and coordinate the transition.	Pass & Ongoing	
	Milestone #4 Establish coordination of care strategies with Medicaid Managed Care Organizations to ensure needed services at	Pass & Ongoing

Project ID	Module Name / Milestone #	Review Status	
	discharge are covered and in place at the transitional supportive housing site.		
	Milestone #5 Develop transition of care protocols to ensure all chronically ill super-utilizers receive appropriate health care and community support including medical, behavioral health, post-acute care, long-term care and public health services.	Pass & Ongoing	
	Milestone #6 Ensure medical records and post-discharge care plans are transmitted in a timely manner to the patient's primary care provider and frequently used specialists.	Pass & Ongoing	
	Milestone #7 Establish procedures to connect the patient to their Health Home (if a HH member) care manager in the development of the transitional housing plan or provide a "warm" referral for assessment and enrollment into a Health Home (with assignment of a care manager).	Pass & Ongoing	
	Milestone #8 Use EHRs and other technical platforms to track all patients engaged in the project.	Pass & Ongoing	
2.d.i	Module 2.d.i.2 - Patient Engagement Speed	Pass (with Exception) & Ongoing	 
	Module 2.d.i.3 - Prescribed Milestones		
	Milestone #1 Contract or partner with community-based organizations (CBOs) to engage target populations using PAM(R) and other patient activation techniques. The PPS must provide oversight and ensure that engagement is sufficient and appropriate.	Pass & Ongoing	
	Milestone #2 Establish a PPS-wide training team, comprised of members with training in PAM(R) and expertise in patient activation and engagement.	Pass & Ongoing	
	Milestone #3 Identify UI, NU, and LU "hot spot" areas (e.g., emergency rooms). Contract or partner with CBOs to perform outreach within the identified "hot spot" areas.	Pass & Ongoing	
	Milestone #4 Survey the targeted population about healthcare needs in the PPS' region.	Pass & Ongoing	
	Milestone #5 Train providers located within "hot spots" on patient activation techniques, such as shared decision-making, measurements of health literacy, and cultural competency.	Pass & Ongoing	
	Milestone #6 Obtain list of PCPs assigned to NU and LU enrollees from MCOs. Along with the member's MCO and assigned PCP, reconnect beneficiaries to his/her designated PCP (see outcome measurements in #10). <ul style="list-style-type: none"> <li>• This patient activation project should not be used as a mechanism to inappropriately move members to different health plans and PCPs, but rather, shall focus on establishing connectivity to resources already available to the member.</li> <li>• Work with respective MCOs and PCPs to ensure proactive outreach to beneficiaries. Sufficient information must be provided regarding insurance coverage, language resources, and availability of primary and preventive care services. The state must review and approve any educational materials, which must comply with state marketing guidelines and federal regulations as outlined in 42 CFR §438.104.</li> </ul>	Pass & Ongoing	
	Milestone #7 Baseline each beneficiary cohort (per method developed by state) to appropriately identify cohorts using PAM(R) during the first year of the project and again, at set intervals. Baselines, as well as intervals towards improvement, must be set for each cohort at the beginning of each performance period.	Pass & Ongoing	
	Milestone #8 Include beneficiaries in development team to promote preventive care.	Pass & Ongoing	
Milestone #9 Measure PAM(R) components, including: <ul style="list-style-type: none"> <li>• Screen patient status (UI, NU and LU) and collect contact information when he/she visits the PPS designated facility or "hot spot" area for health service.</li> </ul>	Pass & Ongoing		

**New York State Department Of Health**  
**Delivery System Reform Incentive Payment Project**  
**DSRIP Implementation Plan Project**

**Finger Lakes Performing Provider Systems, Inc. (PPS ID:9)**

Project ID	Module Name / Milestone #	Review Status	
	<ul style="list-style-type: none"> <li>• If the beneficiary is UI, does not have a registered PCP, or is attributed to a PCP in the PPS' network, assess patient using PAM(R) survey and designate a PAM(R) score.</li> <li>• Individual member's score must be averaged to calculate a baseline measure for that year's cohort.</li> <li>• The cohort must be followed for the entirety of the DSRIP program.</li> <li>• On an annual basis, assess individual members' and each cohort's level of engagement, with the goal of moving beneficiaries to a higher level of activation.               <ul style="list-style-type: none"> <li>• If the beneficiary is deemed to be LU &amp; NU but has a designated PCP who is not part of the PPS' network, counsel the beneficiary on better utilizing his/her existing healthcare benefits, while also encouraging the beneficiary to reconnect with his/her designated PCP.</li> </ul> </li> <li>• The PPS will NOT be responsible for assessing the patient via PAM(R) survey.</li> <li>• PPS will be responsible for providing the most current contact information to the beneficiary's MCO for outreach purposes.</li> <li>• Provide member engagement lists to relevant insurance companies (for NU &amp; LU populations) on a monthly basis, as well as to DOH on a quarterly basis.</li> </ul>		
	Milestone #10 Increase the volume of non-emergent (primary, behavioral, dental) care provided to UI, NU, and LU persons.	Pass & Ongoing	
	Milestone #11 Contract or partner with CBOs to develop a group of community navigators who are trained in connectivity to healthcare coverage, community healthcare resources (including for primary and preventive services) and patient education.	Pass & Ongoing	
	Milestone #12 Develop a process for Medicaid recipients and project participants to report complaints and receive customer service.	Pass & Ongoing	
	Milestone #13 Train community navigators in patient activation and education, including how to appropriately assist project beneficiaries using the PAM(R).	Pass & Ongoing	
	Milestone #14 Ensure direct hand-offs to navigators who are prominently placed at "hot spots," partnered CBOs, emergency departments, or community events, so as to facilitate education regarding health insurance coverage, age-appropriate primary and preventive healthcare services and resources.	Pass & Ongoing	
	Milestone #15 Inform and educate navigators about insurance options and healthcare resources available to UI, NU, and LU populations.	Pass & Ongoing	
	Milestone #16 Ensure appropriate and timely access for navigators when attempting to establish primary and preventive services for a community member.	Pass & Ongoing	
	Milestone #17 Perform population health management by actively using EHRs and other IT platforms, including use of targeted patient registries, to track all patients engaged in the project.	Pass & Ongoing	
3.a.i	Module 3.a.i.2 - Patient Engagement Speed	Pass (with Exception) & Ongoing	
	Module 3.a.i.3 - Prescribed Milestones		
	Milestone #1 Co-locate behavioral health services at primary care practice sites. All participating primary care practices must meet 2014 NCQA level 3 PCMH or Advance Primary Care Model standards by DY 3.	Pass & Ongoing	
	Milestone #2 Develop collaborative evidence-based standards of care including medication management and care engagement process.	Pass & Ongoing	
	Milestone #3 Conduct preventive care screenings, including behavioral health screenings (PHQ-2 or 9 for those screening positive, SBIRT) implemented for all patients to identify unmet needs.	Pass & Ongoing	

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project

	Milestone #8 Use EHRs or other technical platforms to track all patients engaged in this project.	Pass & Ongoing	
	Milestone #9 Implement IMPACT Model at Primary Care Sites.	Pass & Ongoing	
	Milestone #10 Utilize IMPACT Model collaborative care standards, including developing coordinated evidence-based care standards and policies and procedures for care engagement.	Pass & Ongoing	
	Milestone #11 Employ a trained Depression Care Manager meeting requirements of the IMPACT model.	Pass & Ongoing	
	Milestone #12 Designate a Psychiatrist meeting requirements of the IMPACT Model.	Pass & Ongoing	
	Milestone #13 Measure outcomes as required in the IMPACT Model.	Pass & Ongoing	
	Milestone #14 Provide "stepped care" as required by the IMPACT Model.	Pass & Ongoing	
	Milestone #15 Use EHRs or other technical platforms to track all patients engaged in this project.	Pass & Ongoing	
3.a.ii	Module 3.a.ii.2 - Patient Engagement Speed	Pass (with Exception) & Ongoing	 
	Module 3.a.ii.3 - Prescribed Milestones		
	Milestone #1 Implement a crisis intervention program that, at a minimum, includes outreach, mobile crisis, and intensive crisis services.	Pass & Ongoing	
	Milestone #2 Establish clear linkages with Health Homes, ER and hospital services to develop and implement protocols for diversion of patients from emergency room and inpatient services.	Pass & Ongoing	
	Milestone #3 Establish agreements with the Medicaid Managed Care organizations serving the affected population to provide coverage for the service array under this project.	Pass & Ongoing	
	Milestone #4 Develop written treatment protocols with consensus from participating providers and facilities.	Pass & Ongoing	
	Milestone #5 Include at least one hospital with specialty psychiatric services and crisis-oriented psychiatric services; expansion of access to specialty psychiatric and crisis-oriented services.	Pass & Ongoing	
	Milestone #6 Expand access to observation unit within hospital outpatient or at an off campus crisis residence for stabilization monitoring services (up to 48 hours).	Pass & Ongoing	
	Milestone #7 Deploy mobile crisis team(s) to provide crisis stabilization services using evidence-based protocols developed by medical staff.	Pass & Ongoing	
Milestone #8 Ensure that all PPS safety net providers have actively connected EHR systems with local health information exchange/RHIO/SHIN-NY and share health information among clinical partners, including direct exchange (secure messaging), alerts and patient record look up by the end of Demonstration Year (DY) 3.	Pass & Ongoing

Project ID	Module Name / Milestone #	Review Status	
	Milestone #3 Establish a quality oversight committee of OB/GYN and primary care providers to monitor quality outcomes and implement new or change activities as appropriate.	Pass & Ongoing	
	Milestone #4 Use EHRs or other IT platforms to track all patients engaged in this project.	Pass & Ongoing	
	Milestone #5 Identify and engage a regional medical center with expertise in management of high-risk pregnancies and infants (must have Level 3 NICU services or Regional Perinatal Center).	Pass & Ongoing	
	Milestone #6 Develop a multidisciplinary team of experts with clinical and social support expertise who will co-manage care of the high-risk mother and infant with local community obstetricians and pediatric providers.	Pass & Ongoing	
	Milestone #7 Develop service MOUs between multidisciplinary team and OB/GYN providers.	Pass & Ongoing	
	Milestone #8 Utilize best evidence care guidelines for management of high risk pregnancies and newborns and implement uniform clinical protocols based upon evidence-based guidelines.	Pass & Ongoing	
	Milestone #9 Ensure that all PPS safety net providers are actively sharing EHR systems or other IT platforms with local health information exchange/RHIO/SHIN-NY and sharing health information among clinical partners, including direct exchange (secure messaging), alerts and patient record look up, by the end of DY 3.	Pass & Ongoing	
	Milestone #10 Ensure that EHR systems or other IT platforms used by participating safety net providers meet Meaningful Use and PCMH Level 3 standards and/or APCM by the end of Demonstration Year 3.	Pass & Ongoing	
	Milestone #11 Use EHRs or other IT platforms to track all patients engaged in this project.	Pass & Ongoing	
	Milestone #12 Develop a Community Health Worker (CHW) program on the model of the Maternal and Infant Community Health Collaboratives (MICHC) program; access NYSDOH-funded CHW training program.	Pass & Ongoing	
	Milestone #13 Employ a Community Health Worker Coordinator responsible for supervision of 4 - 6 community health workers. Duties and qualifications are per NYS DOH criteria.	Pass & Ongoing	
	Milestone #14 Employ qualified candidates for Community Health Workers who meet criteria such as cultural competence, communication, and appropriate experience and training.	Pass & Ongoing	
	Milestone #15 Establish protocols for deployment of CHW.	Pass & Ongoing	
	Milestone #16 Coordinate with the Medicaid Managed Care organizations serving the target population.	Pass & Ongoing	
	Milestone #17 Use EHRs or other IT platforms to track all patients engaged in this project.	Pass & Ongoing	
4.a.iii	Module 4.a.iii.2 - PPS Defined Milestones	Pass & Ongoing	
4.b.ii	Module 4.b.ii.2 - PPS Defined Milestones	Pass & Ongoing
