Quarterly Report - Implementation Plan for Millennium Collaborative Care

Year and Quarter: DY2, Q3

Quarterly Report Status:  Adjudicated

Status By Section

Section	Description	Status
Section 01	Budget	 Completed
Section 02	Governance	 Completed
Section 03	Financial Stability	 Completed
Section 04	Cultural Competency & Health Literacy	 Completed
Section 05	IT Systems and Processes	 Completed
Section 06	Performance Reporting	 Completed
Section 07	Practitioner Engagement	 Completed
Section 08	Population Health Management	 Completed
Section 09	Clinical Integration	 Completed
Section 10	General Project Reporting	 Completed
Section 11	Workforce	 Completed

Status By Project

Project ID	Project Title	Status
2.a.i	Create Integrated Delivery Systems that are focused on Evidence-Based Medicine / Population Health Management	 Completed
2.b.iii	ED care triage for at-risk populations	 Completed
2.b.vii	Implementing the INTERACT project (inpatient transfer avoidance program for SNF)	 Completed
2.b.viii	Hospital-Home Care Collaboration Solutions	 Completed
2.d.i	Implementation of Patient Activation Activities to Engage, Educate and Integrate the uninsured and low/non-utilizing Medicaid populations into Community Based Care	 Completed
3.a.i	Integration of primary care and behavioral health services	 Completed
3.a.ii	Behavioral health community crisis stabilization services	 Completed
3.b.i	Evidence-based strategies for disease management in high risk/affected populations (adult only)	 Completed
3.f.i	Increase support programs for maternal & child health (including high risk pregnancies) (Example: Nurse-Family Partnership)	 Completed
4.a.i	Promote mental, emotional and behavioral (MEB) well-being in communities	 Completed
4.d.i	Reduce premature births	 Completed

✅ IPQR Module 1.5 - Prescribed Milestones

Instructions :

Please provide updates to baseline target dates and work breakdown tasks with target dates for required milestones. For milestones that are due within the reporting period, documentation is required to provide evidence of milestone achievement. Any explanations regarding altered or missed target commitments must be included within the textbox, not as narrative within uploaded documentation.

Milestone/Task Name	Status	Description	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter	AV
Milestone #1 Complete funds flow budget and distribution plan and communicate with network	Completed	Funds Flow Budget and Distribution Plan, signed off by your Finance Committee, including details of your approach to funds flow on a whole-PPS and project-by-project basis; evidence of involvement of provider network in developing funds flow methodology.	07/01/2015	12/31/2015	07/01/2015	12/31/2015	12/31/2015	DY1 Q3	YES
Task 1. Distribute assessment of DSRIP project impacts (prepared in connection with current state financial assessments) to MCC partners along with an explanation of the purpose of the matrix and how it will be used to finalize funds flow in determining expected impacts of DSRIP projects.	Completed	1. Distribute assessment of DSRIP project impacts (prepared in connection with current state financial assessments) to MCC partners along with an explanation of the purpose of the matrix and how it will be used to finalize funds flow in determining expected impacts of DSRIP projects.	10/01/2015	12/31/2015	10/01/2015	12/31/2015	12/31/2015	DY1 Q3	
Task 2. Complete preliminary PPS budget for administration, implementation, revenue loss, and cost of services not covered.	Completed	2. Complete preliminary PPS budget for administration, implementation, revenue loss, and cost of services not covered.	07/01/2015	12/31/2015	07/01/2015	12/31/2015	12/31/2015	DY1 Q3	
Task 3. Review provider-level projections of DSRIP impacts and costs submitted by MCC providers. During provider-specific budget processes, develop preliminary-final provider-level budgets including completion of provider-specific funds flow plans.	Completed	3. Review provider-level projections of DSRIP impacts and costs submitted by MCC providers. During provider-specific budget processes, develop preliminary-final provider-level budgets including completion of provider-specific funds flow plans.	10/01/2015	12/31/2015	10/01/2015	12/31/2015	12/31/2015	DY1 Q3	
Task 4. Review the funds flow approach and distribution plan with drivers and requirements for each of the funds flow budget categories.	Completed	4. Review the funds flow approach and distribution plan with drivers and requirements for each of the funds flow budget categories.	08/15/2015	12/31/2015	08/15/2015	12/31/2015	12/31/2015	DY1 Q3

✔ IPQR Module 2.3 - Major Risks to Implementation & Risk Mitigation Strategies

Instructions :

Please describe the key challenges or risks that you foresee in implementing your governance structure and processes and achieving the milestones described above, as well as potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

Given time constraints of Board of Managers members (many of whom administer healthcare facilities), there is a compelling need to ensure that board meetings are run effectively. Committee reports and reports on process and clinical performance outcomes must be formatted in a manner that will not only allow extensive reporting on all PPS organizational and project components, but also permit board members to readily pinpoint issues that need to be resolved. Use of color-coding, standardized presentation formats, and brief narrative explaining results will grow in importance, particularly as the number of measures to report on increases over time.

A second challenge pertains to maintaining a high level of involvement by board members. One way to meet this objective is to ensure that participation in board and committee meetings results in learning experiences that can be adapted by board members to their own facilities. It will be important to provide continuing education opportunities to board members both inside and outside the context of structured board and committee meetings.

A third risk involves communications. One of the key challenges confronting a PPS is to educate the entire community about DSRIP. As stakeholders and healthcare activists, board members from PPS partner institutions are well suited to continue supporting community-wide communication and education efforts, closely monitoring the extent to which activities and timelines adhere to the overall communication plan, encouraging active involvement of Medicaid beneficiaries in DSRIP proceedings and affairs, and (when applicable) reviewing survey results which measure the community's level of understanding of the wide-sweeping DSRIP initiative.

✔ IPQR Module 2.4 - Major Dependencies on Organizational Workstreams

Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

Effective governance of the PPS is dependent upon the success of all other workstreams:

Workforce development will require innovative approaches for retraining inpatient workers for emerging community-based healthcare careers, for filling primary care gaps, and for integrating physical with behavioral health at service sites throughout WNY. All of these workforce development dependencies (among others) must be aligned to meet DSRIP objectives, and the Board of Managers will be responsible for overseeing this work.

An IT infrastructure is the backbone of all DSRIP projects, providing the platform for recording, reporting, and analyzing all process and

New York State Department Of Health Delivery System Reform Incentive Payment Project

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

performance outcome measures that must be monitored by and responded to by the Board of Managers.

Clinical Integration will serve as the foundation for ensuring that standardized evidence-based procedures are used to conduct multiple projects at multiple sites. Clinical integration will drive performance, and the board's effectiveness will be dependent upon it.

Maximizing Practitioner Engagement through training and education is another important dependency. Active participation by clinicians is not only essential for meeting DSRIP objectives, but it is also a prerequisite for spearheading innovation that is instrumental to meeting the Triple Aims of improving the patient experience of care, improving the health of the population, and reducing the per capita cost of care.

Active patient engagement is perhaps the most critical factor that will determine the success of the governing board and the entire DSRIP project in WNY. The overwhelming majority of Medicaid beneficiaries are challenged by poor housing, lack of nutritious food, lack of transportation, and unsafe neighborhoods. Engaging these patients in healthcare in the face of these issues will be the biggest challenge confronted by the MCC PPS. The Board of Managers—and the entire organization—will need to prioritize cultural competency and health literacy training, push for the overwhelming success of the patient activation project (2.d.i.), ensure that Medicaid beneficiaries themselves play a meaningful role in PPS operations, and see to it that CBOs that serve Medicaid beneficiaries are a vital part of the DSRIP agenda.

Millennium Collaborative Care (PPS ID:48)

✔ IPQR Module 2.5 - Roles and Responsibilities

Instructions :

Please list and elaborate upon the key people/organizations responsible for the development of your governance structure and processes and describe what their responsibilities involve.

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities
Lead entity	Erie County Medical Center Corporation (ECMCC)	Ensure all governance is in place and functioning to support community projects
MCC executive management	Led by Al Hammonds, Jr. CSSBB (Executive Director)	Provide overall leadership for PPS partners and activities; ensure governance strategy is established and followed
MCC Board of Managers	Chair: Anne Constantino	Facilitate key decisions; lead, develop, and audit/monitor projects
Finance Committee	Richard Braun, Mel Dyster, Sheila Kee, Christine Kemp, Chris Koenig, Raj Mehta, Kathrine Panzarella, Mike Sammarco, Juan Santiago, Lou Santiago, Erin Ryan	Oversee PPS budget and funds flow; ensure financial strategy/operations align with DSRIP goals
Clinical Quality Committee	Co-chairs: Michael Cummings MD (UBMD Psychiatry); Joanne Haefner FNP (Neighborhood Health Center)	Provide guidance and oversight for 11 MCC projects; develop clinical metrics and processes to support accountability for project outcomes
Family/caretaker support/representation	Tasha Moore (Community Health Worker and Medicaid beneficiary)	Serve as a voting member of the Board of Managers and "Voice of the Consumer" Sub-Committee; represent Medicaid beneficiaries and their caretakers/families

Millennium Collaborative Care (PPS ID:48)

✔ Module 2.6 - IPQR Module 2.6 - Key Stakeholders

Instructions :

Please identify the key stakeholders involved, both within and outside the PPS with regard to your governance structure and processes.

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
Internal Stakeholders		
CBO Task Force	Advisory	Lead and develop meaningful community engagement
"Voice of the Consumer" Sub-Committee	Advisory	Capture patients' expectations, preferences, and aversions
Workforce Development Work Group	Advisory	Develop and coordinate overall workforce transformation strategy
External Stakeholders		
Attested CBOs	Advisory	Ensure governance supports DSRIP protocols
Health plans, managed care organizations	Value-based payment reform	Develop committee to support payment reform
Legislators	Regulatory waivers	Support regulatory change; remove barriers to collaboration
NYS DOH	Regulatory oversight	Ensure all laws and regulations are adhered to
NYS Office of Mental Health	Regulatory oversight	Ensure behavioral health regulations are followed; adhere to necessary mandates
OASAS	Regulatory oversight	Ensure all substance abuse laws are adhered to
OPWDD	Regulatory oversight	Ensure patients with developmental and intellectual disabilities are represented
Office of Children and Family Services (OCFS)	Regulatory oversight	Ensure children- and family-related laws are maintained

New York State Department Of Health Delivery System Reform Incentive Payment Project

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

✔ IPQR Module 2.7 - IT Expectations

Instructions :

Please clearly describe how the development of shared IT infrastructure across the PPS will support this particular workstream and your ability to achieve the milestones described above.

Committees will communicate utilizing a communication forum developed by IT. Each committee will have dashboards and reporting requirements. A portal on the MCC website will be created for governance, and governance documents will be uploaded as they are approved. The portal will also be used to communicate with the community about the organization of the PPS, and to publish committee meeting schedules and agendas, minutes, and membership rosters as appropriate. A two-way communication system will also be set up for resolving grievances.

We plan to use a cloud-based suite of applications to support communication with, and collaboration among, members of the PPS. This solution includes conferencing and group messaging across the organization. Additional CRM and project management components are currently being evaluated as adjuncts to the existing infrastructure. A cloud-based solution offers the scalability, extensibility, and functionality required for an agile, efficient organization.

✔ IPQR Module 2.8 - Progress Reporting

Instructions :

Please describe how you will measure the success of this organizational workstream.

The Governance Committee will regularly report to the Board of Managers on progress in achieving governance milestones. The progress will be measured against the timetable adopted by the Board. Success will be measured initially by finalizing Board of Manager appointments and staffing the committees and sub-committees. For each committee, charters will be drafted, reviewed, and adopted, and reporting and monitoring processes will be defined.

Quarterly reports will describe (but not be limited to):

Changes or updates to committee rosters/charters/by-laws, organizational structure, and policies

Partnership agreements/contracts with CBOs

Agency coordination plan for engaging public sector agencies

The progress/success of these efforts geared towards community engagement and public sector outreach and education will be measured in terms of:

Engagement with the community

Evidence of implementation of the community engagement plan

Community engagement events

✔ IPQR Module 3.3 - Major Risks to Implementation & Risk Mitigation Strategies

Instructions :

Please describe the key challenges or risks that you foresee in implementing these cross-cutting organizational strategies, including potential impacts on specific projects and, crucially, any risks that will undermine your ability to achieve outcome measure targets.

Reduction in hospitalizations (overall goal of DSRIP projects) will result in revenue losses for hospitals due to decreased utilization. Skilled nursing facilities will also experience a drop in revenue. The shift to VBP will be important for the long-term sustainability of these facilities in spite of reduced utilization. MCC will implement bundled payments, shared savings models, and other VBP approaches to ensure providers can continue to operate beyond the five years of the Waiver.

Difficulty in engaging the payers. The Medicaid MCOs seem reluctant to engage with the PPS and are taking a "wait and see" approach since they will reap the benefits of the DSRIP delivery model whether they actively participate or not. Many of the enhanced services described in the projects (e.g., care coordination, peer navigation, crisis stabilization) are not consistently billed, coded, or reimbursed under current models. Without involvement and investment from the major payers and Medicaid MCOs, providers won't be able to afford to offer enhanced and expanded services. This will make it impossible to earn achievement values for implementation and engagement. Request support from NYS DOH urging payers to participate in DSRIP initiatives. Collaborate with payers on VBP structures, reporting practices, and metrics. The Finance Committee will constantly communicate with the Medicaid MCOs as an attempt to actively engage them in the process. The PPS may require assistance or intervention from NYS DOH with some payers. Several DSRIP projects provide case/care management services to many kinds of patients (e.g., chronic diseases, pregnant women); these services will augment the payers' existing programs, allowing them to benefit from healthier members without adding to their care management staff.

Insufficient DSRIP revenue stream. Lack of revenues could impact project performance and lead to disinterest by providers. Educate providers that VBP is a long-term solution for achieving financial sustainability that is not dependent on DSRIP revenues.

Partners' inability to provide data or reluctance to share data. Inability to access data or validate analytics. Constant communication with the partners who are unable or unwilling to provide data. Communications will explain the rationale and necessity for data sharing to meet project goals and metrics, and will ultimately impact or inhibit the flow of funds to PPS partners who are most in need. Appropriate security and privacy policies will be established and enforced across the PPS. Partners will be involved in the establishment of these policies, to encourage widespread buy-in.

PPS providers are not compliant with PPS provider agreements and reporting requirements. Reporting requirements are overwhelming or unclear to providers. If providers do not fulfill their reporting requirements, performance levels across the PPS will suffer. Provide timely and clear communication with and among PPS stakeholders. Offer simple, easy-to-follow instructions and training sessions. Conduct test runs of reporting and data functions to meet quarterly and semi-annual reporting.

Reports are confusing, and PPS participants don't look at them. To create a reporting culture throughout MCC, all stakeholders will need an easy, clear means for understanding whether targets are being met or not. Simplify this process for partners.

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

✅ IPQR Module 3.4 - Major Dependencies on Organizational Workstreams

Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

Finance Committee members will be actively engaged with all PPS committees and project leaders. The finance function will need to understand the requirements and participation level for all projects, project performance measurement and reporting, and project costs and impacts. Finance team members will also actively participate in clinical discussions related to PPS projects.

The IT Systems & Processes workstream is dependent on Financial Sustainability: Once providers have adopted the technologies required under DSRIP, the costs do not go away. It will be important that providers are able to meet the continuing costs of additional and updated IT assets. As security and privacy regulations grow in complexity and scope, the costs of maintaining a secure system that shares data and meets regulatory/confidentiality requirements will only increase. Finance will also support access to data regarding project performance, platform integration, and Rapid Cycle Evaluation.

Governance: Well-defined roles and responsibilities for the PPS lead, partners, and in particular for finance, compliance, and audit, will need to be established. Financial sustainability will be necessary to maintain a governance structure for continued improvements and common goals with the Medicaid populations in the future post-DSRIP transformation.

Workforce: The finance team will need to understand the workforce strategy and plans, as well as related transition costs. Finance will support the tracking of costs and impact on full-time equivalents, compare actual to projected, and define how workforce spending will be tracked/reported to PPS and DOH.

Performance Reporting: The analytics software used for DSRIP needs to be available and maintained by the lead entity. It needs to have software upgrades and be available for continued use by the practices for continued performance reporting and quality needs.

Provider Engagement: Ongoing community-wide provider engagement for the Medicaid population is critical. Financial Sustainability needs to be linked to improvement in outcomes ongoing. Financial sustainability will be affected by continuation of a community-wide forum. With new alliances being formed, the hope is they will continue to expand and flourish with a new sense of purpose.

Population Health Management: Population health management and stratification of registries is not possible without robust clinical analytic software. The financial sustainability of this is tied with performance reporting and ongoing management of the software.

Millennium Collaborative Care (PPS ID:48)

✔ IPQR Module 3.5 - Roles and Responsibilities

Instructions :

Please list and elaborate upon the key people/organizations responsible for this organizational workstream and describe what their responsibilities involve.

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities
Project managers for each project	Priti Bangia, Sandy McDougal, Saralin Tiedeman, Andrea Wanat, Kim Backey, Janet Stoeckl, Annie Deaver	Develop implementation and operational budgets necessary for project success
MCC Director of Finance	Kathrine Panzarella	Manage finance functions of the PPS; oversee receipt, distribution, and safekeeping of DSRIP funds; hold responsibility for reporting, both externally to NYS DOH and other regulatory bodies, and internally to the governing committee and work groups
Accounting Manager	Tronconi Segarra & Associates	Develop infrastructure for finance office including general ledger, accounts payable, and payroll functions
Accounts Payable	Tronconi Segarra & Associates	Day-to-day accounts payable function, including obtaining approval of invoices, processing for payment, check printing, and reporting
Payroll	PPC Strategic Services LLC; Grider Support Services LLC	Payroll processing function, including timekeeping, obtaining approval for payment, processing payroll, check distribution, and reporting
MCC Compliance Officer	Laura Fleming	Oversee compliance programs of PPS activities, including adherence to the compliance requirements of the lead entity
Audit	McGladrey, LLP	Perform audits according to standard accounting principles
Value-Based Payment (VBP) subject matter expertise	VBP Sub-Committee (Kristen Davis, Mel Dyster, Sheila Kee, Mike Sammarco)	Develop VBP Transition Plan; oversee implementation of the plan
Health plans	Blue Cross Blue Shield; Independent Health; YourCare; Fidelis Care	Establish VBP partnership with MCC; submit claims accounting for payment reconciliation

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

✓ IPQR Module 3.6 - Key Stakeholders

Instructions :

Please identify the key stakeholders involved, both within and outside the PPS.

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
Internal Stakeholders		
Tronconi Segarra & Associates	Accounting firm contracted by MCC	Financial management and auditing
Finance Committee (Richard Braun, Mel Dyster, Sheila Kee, Christine Kemp, Chris Koenig, Raj Mehta, Kathrine Panzarella, Mike Sammarco, Juan Santiago, Lou Santiago, Erin Ryan)	Oversight and direction	Review/approve MCO Strategy for VBP Transition and VBP Transition Plan; ensure VBP initiatives are aligned to DSRIP goals; review, approve and monitor implementation of financial stability plan, distressed provider plan, project impact matrix, and financially fragile watch list
Board of Managers (chair: Anne Constantino)	Oversight	Review/approve VBP Transition Plan; monitor and audit fiscal operations; resolve conflicts; adopt Finance Committee charter; adopt financial stability plan; adopt distressed provider plan; review and approve project impact matrix; approve financially fragile watch list; adopt MCO Strategy for VBP Transition
MCC Finance Director (Kathrine Panzarella)	Lead implementation	Management and distribution of project funds; oversee all financial operations of PPS; oversee implementation of financial stability plan, and distressed provider plan; continually update financial status of providers; monitor financially fragile watch list; ensure sound financial reporting
Executive leadership and board members of provider partners (Andrew Boser, Timothy Finan, Clare Haar, Mary Hoffman, Sheila Kee, Norma Kerling, Kristin Kight, Cheryl Klass, Joseph Ruffolo, Thomas Quatroche, Michael Whyte, Christopher Lane, Allegra Jaros, Richard Braun)	Oversight and participation in decision-making	Stay involved in financial activities of MCC PPS; actively participate in development of VBP Plan; as appropriate, report on financial status of their institutions and on efforts to improve financial performance
External Stakeholders		
McGladrey, LLP	External audit	Perform audit of PPS financial operation including internal controls and financial reporting
Jennifer Mane and Henry Rosen (PCG)	Liaison	Serve as liaison between NYS DOH and PPS; provide updates on NYS DOH expectations and deliverables
Community representatives: Susan Barlow, Ellen Breslin, Kerri Brown, Lucy Candelario, Mindy	Provider partners and representatives	Regular, timely, effective communication with community groups and organizations

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
Cervoni, William Covington, Mary Craig, Charlotte Crawford, Robert DeBereaux, Ricardo Herrera, Diann Holt, Traci Hopkins, Anna Ireland, Dee Johnson, George Kennedy, Pattie Kepner, Robyn Krueger, Keith Lindsay, Robert Lowery, Francesca Messiah, Jack Norton, Kinzer Pointer, Marcia Restivo, Ezra Scott, Suzanne Shears, Grace Tate, Lesley Thompson-Farrell, Charles Walker II, Ava White, Carrie Whitwood, etc.		
Health foundations/grant coalitions: Health Foundation for Western and Central New York (Ann Monroe); Oshei Foundation (Robert Goia); Towers Foundation (Tracy Sawicki)	Bridge funding	Fund MCC initiatives via coalition grants
Blue Cross Blue Shield; Independent Health; YourCare; Fidelis Care	VBP transformation	Establish VBP partnerships with MCC providers; share essential data with MCC to facilitate development of VBP strategies

New York State Department Of Health Delivery System Reform Incentive Payment Project

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

✔ IPQR Module 3.7 - IT Expectations

Instructions :

Please clearly describe how the development of shared IT infrastructure across the PPS will support this particular workstream.

The finance workstream will require a suite of standard accounting applications as well as the ability to pull in data from providers across the PPS. MCC will use existing hardware and software, where possible, for basic financial reporting. It will be critical to be able to bring in progress indicators from other workstreams/projects to convey to finance; this may be done manually at first (similar to the initial financial health assessment), but ultimately we envision a central, integrated repository MCC can use to monitor PPS financial stability. It may be necessary to establish a "reporting portal" for partner organizations to submit financial performance information easily on an ongoing basis. The financial performance of MCC will also be reliant upon IT innovations that support population health and care coordination performance and drive financial results for the MCC PPS.

✔ IPQR Module 3.8 - Progress Reporting

Instructions :

Please describe how you will measure the success of this organizational workstream.

Progress reporting will be aligned with a phased approach to implementing the overall financial sustainability strategy. Success will be measured initially by finalizing appointments, staffing the Finance Committee, completing a financial health current state assessment of providers, adopting distressed provider plans, establishing a financially fragile watch list, and developing an MCO Strategy for VBP Transition as well as VBP Transition Plan. These efforts will culminate into a financial sustainability strategy, which will be used to report quarterly project- and unit-level progress.

The progress of MCC's financial sustainability efforts will be measured by:

Finalized finance structure, including reporting structure approved by the Board of Managers

Finalized Compliance Plan consistent with NYS Social Services Law 363-d approved by the Finance Committee and Board of Managers

Development of a VBP Sub-Committee charter to be approved by the Finance Committee and Board of Managers

Development of a set of principles to guide development of multi-year strategic plan to transition to a system that has 90% of Medicaid payment under a VBP system to be approved by the Finance Committee and Board of Managers

Development of a systematic approach to designing and conducting annual provider financial health evaluation policies and procedures approved by the Finance Committee and Board of Managers

New York State Department Of Health Delivery System Reform Incentive Payment Project

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

A network financial health current state assessment

Provider willingness and readiness assessments within the network to engage in various levels of VBP contracting

Development of communication and education plans explaining NYS DOH's VBP agenda and goals

Quarterly project- and unit- level reports to mark progress towards financial sustainability will include but are not limited to:

- Finance Committee charter, meeting schedule, and minutes
- Finance structure/organizational chart and reporting flowchart
- Number of financial policies and procedures developed
- Number and type of changes and updates to charters, schedules, organizational or reporting structure, policies, and procedures
- Number/percent of providers in network that are financially fragile

Progress towards the implementation of a finalized compliance plan for NYS Social Services Law 363-d

Progress towards implementation of a finalized MCO strategy for VBP transition and the VBP transition plan

Percent of care costs going through VBPs (Level 1 and Level 2)

Status of the PPS's financially fragile providers (as defined by specific financial indicators including but not limited to days cash on hand, debt ratio, operating margin, and current ratio); how their financial status affects performance; identification of additional financial fragile partners; actions taken to improve these providers' financial status

All progress reports relating to the Finance workstream will be forwarded to the Finance Committee and the MCC Board of Managers.

MCC will utilize a central data warehouse and document archive to manage and track project and workstream requirements across the organization, including internal and external milestones, policies and procedures, and other key documents. This central repository will form the basis of our overall project tracking and reporting infrastructure and will allow users to access information appropriate to their role within the organization. Such a system will support project and program management by being a source for regularly scheduled reports and searchable information as dictated by project and program management requirements. This data source will be maintained as part of the PPS's critical operational infrastructure and will enable auditing, version control, and other project tracking functions across the organization.

Section 04 – Cultural Competency & Health Literacy

✅ IPQR Module 4.1 - Prescribed Milestones

Instructions :

Please enter and update target dates, as well as breakdown tasks with target dates for prescribed milestones. For milestones that are due within the reporting period, documentation is required to provide evidence of milestone achievement. Any explanations regarding altered or missed target commitments must be included within the textbox, not as narrative within uploaded documentation. Note some milestones include minimum expected completion dates.

Milestone/Task Name	Status	Description	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter	AV
Milestone #1 Finalize cultural competency / health literacy strategy.	Completed	This milestone must be completed by 12/31/2015. Cultural competency / health literacy strategy signed off by PPS Board. The strategy should: -- Identify priority groups experiencing health disparities (based on your CNA and other analyses); -- Identify key factors to improve access to quality primary, behavioral health, and preventive health care -- Define plans for two-way communication with the population and community groups through specific community forums -- Identify assessments and tools to assist patients with self-management of conditions (considering cultural, linguistic and literacy factors); and -- Identify community-based interventions to reduce health disparities and improve outcomes.	05/30/2015	12/31/2015	05/30/2015	12/31/2015	12/31/2015	DY1 Q3	YES
Task 1. Using the Community Needs Assessment (CNA) as a foundation, MCC will work to uncover health disparities among different cultural, socioeconomic, and linguistic groups by extracting profiles of Medicaid enrollees attributed to MCC by race, ethnicity, primary language, and rural/urban status. ✓ IPQR Module 4.3 - Major Risks to Implementation & Risk Mitigation Strategies

Instructions :

Please describe the key challenges or risks that you foresee in implementing your cultural competency / health literacy strategy and addressing the specific health disparities you are targeting (based on your CNA), and achieving the milestones described above - including potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

PPS provider receives revenue from MCC without Cultural Competency/Health Literacy training. Provide classes with continuing education credits and celebrate all providers who complete training in PPS publications and on social media.

CBOs are not compensated or recognized for their participation in training. Include training compensation and recognition. Create an accreditation (e.g., CBOs of Health Excellence) including University of Albany Online Advancing Cultural Competence Certificate Program.

Training is considered unnecessary or a waste of time. The training design is to teach and entertain in order to create memorable moments. We will use the Program to Enhance Relational and Communication Skills (PERCS) model of realistic enactments with professional actors, collaborative learning, reflection, and feedback. MCC has engaged Erie Niagara AHEC (Area Health Education Centers) as the consultant contractor for cultural competency and health literacy in its PPS geographic 8 county area of WNY. A detailed Cultural Competency and Health Literacy Training Plan has been developed, socialized, vetted, and approved by MCC's Board of Managers. The Plan uses a step by step approach to developing cultural competence and health literacy considering five key framing principles: 1) Meet participants where they are; 2) Clarify specific outcomes of the program; 3) Create an appropriate learning environment, including web-based; 4) Evaluate and assess the program and the learning outcomes; and 5) Create a flawlessly organized experience.

Many CBOs are small, with a small staff who are already multi-tasking, and insecure funding. This project requires stable, experienced CBOs so clients have confidence in them being there when they need them. We also need to know that the trainers we invest in are going to be able to attend "train the trainer" sessions and consistently serve as lead trainers. Include an organizational profile which includes financials and staffing as part of the RFP process for selecting CBOs who will serve as lead trainers. Also consider the number of clients they serve and whether or not they have multiple sites. Identifying these organizations as primary training sites would increase our opportunity to reach the underserved/uninsured population we are seeking.

An individual's literacy level is a highly personal and sensitive area that requires building trust with a nonjudgmental approach. In addition to the CBOs, we also need to provide in-community health literacy collaborations which include public libraries and faith-based sites to make health literacy a community initiative. The objective will be to reach community members in the diverse environments where they are already comfortable, to maximize consumer engagement.

Overlapping PPSs in WNY. Work with Community Partners of WNY and Finger Lakes PPS to coordinate efforts. MCC has met with the other PPSs and with the Population Health Improvement Program grantee in WNY (P2 Collaborative of WNY) to identify potential areas of collaboration including conducting focus groups; designing training programs; partnering on cancer screening programs; and collecting quality metrics related to race, ethnicity, and language.

Changes are made "in a vacuum" and do not meet actual patient/caregiver needs. Community participants play vital roles in the cultural competency and health literacy training development and its successful implementation. Their participation and feedback in assessments, through

New York State Department Of Health
Delivery System Reform Incentive Payment Project

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

focus groups, on social media, and in face-to-face meetings including the cultural competency and health literacy workgroup will instruct us on what will work, what does not, and how we should change things in order to make this healthcare transformation meet the need.

✓ IPQR Module 4.4 - Major Dependencies on Organizational Workstreams

Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

There are several interdependencies between the cultural competency and health literacy workstream and other workstreams and project initiatives:

Cultural competency and health literacy training will be a key element of clinical integration activities. The aim is to give providers the training they need to be sensitive and responsive to the cultural needs of their patients, a key element for promoting ongoing patient engagement with the healthcare system.

The cultural competency and health literacy program will buttress the project 2.d.i. (Patient Activation). All patient activation coaches will be required to complete cultural competency and health literacy training as a means for improving their effectiveness in motivating patients and making sure they understand medication and plan of care instructions.

The effectiveness of the cultural competency and health literacy program will be dependent upon a supportive governing body that elevates the importance of this work.

The cultural competency and health literacy effort will be dependent upon the strength of CBOs. The training process will begin with several CBOs whose representatives will serve as cultural competency and health literacy trainers, and the CBO community will be tapped to promote participation in this essential training.

The effectiveness of the PPS's communication strategies will be dependent upon the use of health literate educational materials and other communications that can be readily understood by diverse cultural and ethnic communities across WNY.

Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

✔ IPQR Module 4.5 - Roles and Responsibilities

Instructions :

Please list and elaborate upon the key people/organizations responsible for this workstream and describe what their responsibilities involve.

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities
Workforce vendor selected via RFP process	Rural AHEC (Valerie Putney)	Implement PPS workforce development and training strategies, incorporating cultural competency and health literacy topics
MCC Administrative Director	Juan Santiago	Manage RFP/procurement process
Cultural competency and health literacy vendors selected via RFP process	Erie Niagara AHEC (Area Health Education Centers)	Conduct "train the trainer" classes; coordinate and deliver cultural competency/health literacy activities to community members at their respective sites
Minority business relations	Janique Curry	Facilitate inclusion of Minority- and Women-Owned Business Enterprises (MBE/WBEs); support organizations seeking MBE/WBE certification

Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

✓ IPQR Module 4.6 - Key Stakeholders

Instructions :

Please identify the key stakeholders involved, both within and outside the PPS.

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
Internal Stakeholders		
Providers	Patient care	Ensure office practices are sensitive to cultural diversity and health concerns of their population; deliver culturally sensitive care
MCC Continuing Education Manager	Training oversight	Ensure all training is conducted with cultural sensitivity; develop training necessary for raising awareness on cultural diversity and health literacy; consider a dissemination plan for education developed
Staff	Consumer and patient administrative support	Ensure staff conducts business with astuteness for cultural diversity and various health literacy levels; deliver culturally sensitive care
"Voice of the Consumer" Sub-Committee	Community participation	Encourage awareness of cultural norms; support diversity; provide feedback on gaps in services; training and other materials designed for population-wide use
CBO Task Force	Services	Encourage awareness of cultural norms; support diversity; provide feedback on training and other materials
CBO staff trained to serve as trainers	Services	Provide culturally aware and health literacy-appropriate services; coordinate with MCC physicians to ensure care addresses barriers to care
External Stakeholders		
Patients, families, caregivers	Care seekers	Remove barriers to effective care due to cultural sensitivities; strive towards personal success goals
211 resource directory	Consumer resource information	Provide links to and information about culturally aware and health literacy-appropriate services
Literacy Volunteers of Buffalo	Educational resource	Include topic of health and cultural diversity in literacy education
Centers for Disease Control and Prevention	Resource for patients and caregivers	Provide free educational materials for varied cultural ethnicities and languages
Safety net primary care practices (e.g., Jericho Road)	PCP/FQHC	Provide medical care in a transcultural, diverse, and culturally sensitive medical home especially for refugees and low-income community members
Various organizations: International Institute; Journey's End; Jewish Family Services; Hispanics	Support, outreach, advocacy	Provide support and outreach services tailored to specific populations and groups; ensure services are offered in culturally

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
United of Buffalo (HUB); Native American Community Services; area Indian reservations; Olmsted Center for the Blind; Deaf Access Services; St. Mary's School for the Deaf; Gay/Lesbian Youth Services (GLYS); Pride Center of WNY; Autism Services Inc. of WNY; etc.		sensitive and linguistically appropriate formats; promote community awareness and understanding of specific populations/groups
UB Educational Opportunity Center	Literacy and workforce development	Literacy for adults; culturally sensitive workforce development services
Local school districts, BOCES	Education resources	Literacy for adults and children
Community-based organizations (e.g., Catholic Charities)	Social determinant of health support services, i.e., counseling, housing, etc.	Offer supportive guidance services with cultural diversity and literacy sensitivity
Community health workers	Care coordination	Provide care coordination/navigation services in culturally and linguistically appropriate formats/settings
Behavioral health providers (e.g., Lakeshore Behavioral Health)	Behavioral health services	Work with refugee population
Retired Peace Corps Volunteer Group	Speakers for community forums	Assist with cultural awareness discussions, forums, and roundtables
Local government units	Education resources	Offer publicly available culturally sensitive educational materials and services (if applicable)

Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

✔ IPQR Module 4.7 - IT Expectations

Instructions :

Please clearly describe how the development of shared IT infrastructure across the PPS will support the development and implementation of your cultural competency / health literacy strategy and the achievement of the milestones described above.

A shared IT infrastructure will be used to store and disseminate standardized health education and sample conversation scripts that will be used by providers throughout the PPS. This information will be pre-authorized with respect to meeting cultural competency and health literacy standards. A shared IT structure will also be used to track and monitor partner engagement in cultural competency and health literacy training.

A phased approach to project rollout, IT development, reporting, and rapid cycle evaluation creates a resilient system which can adapt quickly to change. Our early reliance on free, open source solution for data collection and analysis provides us with a "fallback" option for maintaining continuity of operations in the event gaps in IT begin to affect the organization. Additionally, we are working to mitigate this risk through close partnerships with our core stakeholders in IT and partners at ECMC.

Moving from an IT infrastructure wholly hosted by ECMC to one that we control directly has enabled us to grow our internal capacities and help direct the development of IT resources across the region. Our strategy allows for systems to fail gracefully by creating a scaffolding of solutions that can meet immediate or interim goals and then building continuously toward integrated, regional solutions for interconnectivity.

✔ IPQR Module 4.8 - Progress Reporting

Instructions :

Please describe how you will measure the success of this organizational workstream.

Progress reporting will be aligned with the phased approach to implementing the overall cultural competency strategy. Establishment of project- and unit-level reporting frequency will be based on the internal and external reporting requirements to ensure the success of the PPS-wide cultural competency strategy which will be consistent with cultural and linguistic needs of the population.

The progress of MCC's cultural competency and health literacy efforts will be measured by:

- Finalizing the makeup of various committees/groups (CBO Task Force, etc.)
- Designing and administering stakeholder and health literacy assessments
- Aggregating and analyzing responses to identify gaps and areas of focus
- Communicating the results
- Developing a comprehensive training strategy to address drivers of health disparities to be approved by the Board of Managers, e.g., Cultural Competency and Health Literacy Training Plan

Progress towards these overall goals will be reported quarterly based on several indicators, such as:

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

Percentage of assessments completed
Health disparities relating to access to care among uninsured and low/non-utilizing Medicaid patients
The percentage of uninsured and low/non-utilizing Medicaid patients who completed a patient activation screen and are connected to care

The progress of the MCC cultural competency training plans will be analyzed and reports will be developed to assess the following:
Number of training programs delivered each quarter
Geographical locations of trainings
Number of CBOs serving as cultural competency/health literacy trainers
Number of CBO staff trained to serve as trainers
Percentage of total PPS partners who participated in cultural competency/health literacy training
Percentage of partner staff who completed training
Training outcomes (use pre- and post-training assessments to determine effectiveness)
Cultural competency and health literacy training activity (tracked via MCC CCHL Trainer Rationale and Assignment document)
Training satisfaction rate

Monthly and quarterly reports will track development of materials/programs/publications and the status of efforts to test these materials in pilots or focus groups.

MCC will utilize a central data warehouse and document archive to manage and track project and workstream requirements across the organization, including internal and external milestones, policies and procedures, and other key documents. This central repository will form the basis of our overall project tracking and reporting infrastructure and will allow users to access information appropriate to their role within the organization. Such a system will support project and program management by being a source for regularly scheduled reports and searchable information as dictated by project and program management requirements. This data source will be maintained as part of the PPS's critical operational infrastructure and will enable auditing, version control, and other project tracking functions across the organization.

IPQR Module 4.9 - IA Monitoring

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

Prescribed Milestones Narrative Text

Milestone Name	Narrative Text
Perform current state assessment of IT capabilities across network, identifying any critical gaps, including readiness for data sharing and the implementation of interoperable IT platform(s).	There are no updates to the IT assessment. A list of IT governance meetings that occurred in the last quarter is attached.
Develop an IT Change Management Strategy.	
Develop roadmap to achieving clinical data sharing and interoperable systems across PPS network	
Develop a specific plan for engaging attributed members in Qualifying Entities	
Develop a data security and confidentiality plan.	There were no changes to the data security and confidentiality plan or personnel in the past quarter. There were no security incidents in the past quarter. A list of HIPAA trainings is attached.

Milestone Review Status

Milestone #	Review Status	IA Formal Comments
Milestone #1	Pass & Complete	
Milestone #2	Pass & Complete	
Milestone #3	Pass (with Exception) & Complete	The PPS has developed a roadmap to achieve clinical data sharing & interoperable systems across the PPS network. The IA notes, however, that the PPS does not specifically reference project 3.f.i in the supporting documentation. The PPS does reference all other proejcts.
Milestone #4	Pass & Ongoing	
Milestone #5	Pass & Ongoing

Millennium Collaborative Care (PPS ID:48)

✅ IPQR Module 5.3 - Major Risks to Implementation & Risk Mitigation Strategies

Instructions :

Please describe the key challenges or risks that you foresee in creating and implementing your IT governance structure, your plans for data sharing across your network, your approach to data security and confidentiality, and the achievement of the milestones described above, including the potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

The inability to share our attributed Medicaid member and claims files with downstream providers until security controls documentation is provided and approved threatens the planned go-live and implementation deadlines for our population health management platform (Cerner HealthIntent). This is also complicated by restrictions imposed by the State on sharing our Medicaid roster with HEALTHeLINK. MCC is expediting work with downstream partners to complete the required workbooks and execute affidavits based on their attested controls.

Lack of sufficient detailed documentation about data presented in MAPP, Salient, and member and claims files makes it difficult to use the data appropriately for analysis and reporting. It is our sincere hope that DOH can provide this documentation in the very near future.

The inability to submit corrections to data quality issues challenges the usefulness and accuracy of the data DOH has made available and uses to measure PPS and provider performance. MCC will provide the necessary inputs to correct erroneous data when allowed by DOH.

The current unresolved regulatory issues with sharing CFR 42 Part 2 data with integrated care teams undermine our ability to integrate care across behavioral health and medical service providers. MCC cannot fully and effectively implement coordinated care without this regulatory relief. In the meantime, behavioral health practices are submitting data to HeL in a segmented and secure environment. We will begin using this data when regulatory relief is found.

Consistent with the State data strategy, we are relying on HeL to capture patient data and feed it to our population health management solution. The current data available lacks consistency and completeness. The success of our shared data strategy relies on our ability to remediate data quality issues at the source. Some cases require vendor mobilization to change screens and data capture fields. HeL and MCC are committed to proactively working with our data providers to remediate source data anomalies that directly impact our ability to analyze and report performance.

To acquire data for DSRIP reporting, we are relying on the ability of our PPS service providers to send CCDs from Meaningful Use stage 2-compliant EMR systems. Most providers have compliant EMRs, but only a few currently send CCDs to HeL. This will require vendors to build interfaces from the EMR to HeL. This is costly and represents a significant obstacle. MCC will use year two Master Participation Agreements to incentivize active support in providing CCDS that support our data and reporting strategy.

The lack of capital funding to pay for our population health management platform required MCC to divert monies from operating funds. This diminishes our ability to incent providers to make necessary IT investments to implement our data sharing strategy. MCC continues to pursue opportunities with the State to secure capital funding and restore operational funding that can be flowed to our PPS network in support of our transformation strategy.

Effective care collaboration requires technology to enable documentation, communication, and follow-up among community health workers, physician practices, and members. Population health solutions have not yet developed these CRM capabilities. The exclusive use of portals for this is not acceptable for our Medicaid population who often don't have a computer or smart phone with a data plan. MCC continues to look for

New York State Department Of Health Delivery System Reform Incentive Payment Project

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

market-ready solutions to fill this gap.

Getting physician practices to use our population health management solution will require changes to workflow and potentially personnel roles. The business case for change needs to be well thought-out and must demonstrate value to care providers. This needs to be accompanied by a detailed training and change management plan.

IPQR Module 5.4 - Major Dependencies on Organizational Workstreams

Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

All workstreams are impacted by IT. Performance reporting and population health management in particular are nearly impossible without the technology in place to support them. In addition, all projects require participating providers to track patients using electronic systems. Many of the projects also require providers to not only have an EHR system in place, but to achieve MU and/or Patient-Centered Medical Home (PCMH) status. This will require extensive support and infrastructure from the central PPS IT organization.

Workforce: While technology can enable change, it is essential that the workforce strategy is defined and in place to support PPS membership through the required change. In addition, the clinical advisory committee will provide oversight and guidance in the design and development of the IDS, HIE, and data analytics systems and programs. This is to verify the IT solutions will be able to assist providers, partners, and organizations deliver on their desired outcomes and goals.

Clinical integration: Providers will need help in their offices to make this transformation, as well as receive ongoing support to sustain changes and deliver results.

Governance: The MCC leadership and governance structure has to be in place before IT processes and security/privacy policies can be finalized and approved.

Financial sustainability: Following initial implementation, it will be imperative that the PPS become financially sustainable so that the continuing costs of additional and updated IT assets can be met.

Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

✓ IPQR Module 5.5 - Roles and Responsibilities

Instructions :

Please list and elaborate upon the key people/organizations responsible for this organizational workstream and describe what their responsibilities involve.

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities
MCC Administrative Director, MCC Director of HIT	Juan Santiago, Jon Phillips	Set current and future MCC IT strategy; oversee MCC IT operations; deliver on a day-to-day basis; remediate identified IT risks and elevate to IT Data Committee and MCC governance where appropriate
MCC Compliance Officer	Laura Fleming	Implement compliance controls and compliance program; oversee MCC privacy/security and IT change management platform
MCC IT personnel	Aaron Thorne	Architect and design data exchange and interface topologies and strategies within MCC partners and members and with external entities; develop database architecture and environment for MCC; provide operational support, integration, and interoperability with MCC partners and external data sources; manage infrastructure teams; support IT architecture and systems
MCC IT privacy/security staff	New hire	Implement privacy/security controls and standards; monitor security controls including data security and confidentiality plans and strategy; monitor security controls; manage IT change management program; report to MCC Compliance Officer
Clinical Quality Committee	Co-chairs: Michael Cummings MD (UBMD Psychiatry); Joanne Haefner FNP (Neighborhood Health Center)	Provide input and guidance to IT strategy and development and design of IDS, HIE, and data analytics systems
IT Data Committee	Various individuals, facilitated by Jon Phillips	Oversee IT program including approval of IT strategy and verification of appropriateness of vendor relationships; develop and adopt IT strategies; monitor progress and delivery to IT systems project deadlines; provide assistance if deadline or timelines are in jeopardy; remediate identified IT risks and elevate where appropriate; oversee IT Change Management Strategy
MCC Chief Integration Officer	Michele Mercer RN	Establish business and functional direction of integrated delivery model

Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

✓ IPQR Module 5.6 - Key Stakeholders

Instructions :

Please identify the key stakeholders involved, both within and outside the PPS.

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
Internal Stakeholders		
Board of Managers (chair: Anne Constantino, Horizon Health)	Executive governance	Address risks identified by IT Data Committee
"Voice of the Consumer" Sub-Committee	Community participation	Encourage awareness of cultural norms; support diversity; provide feedback on training and other materials
All participating organizations	Full participation	Connect to other MCC providers in order to coordinate care across the region, support ongoing interconnectivity enhancements
PPS partner IT security representatives	Varies by organization	Verify and approve security controls and data exchange requirements
Data analysis tool vendors/staff (e.g., patient activation, HEDIS, population health, 3M, Coordination of Care, etc.)	Data analytics	Support use of data analysis tools at the central PPS level as well as at individual practices (as appropriate), ensure software is tested and meets MCC needs
External Stakeholders		
RHIOs (HEALTHeLINK, Rochester, etc.)	Data sharing, connectivity	Provide community-wide exchange of patient data, facilitate patient consent, provide connectivity to the SHIN-NY; assigned as guests to IT Data Committee; assist Clinical Integration Officer in an advisory capacity
Specialized software user groups (e.g., EHRs)	Support	User support
External consulting groups	Technical support	Provide technical expertise, staff, and services as needed to assist in meeting MCC objectives
NYS Health Commerce System/MAPP	Reporting	Provide consistent reporting capabilities
Patients, families, caregivers	Care seekers, data owners	Consent to share data across MCC providers/partners; utilize patient portals as available to engage in two-way communication with providers
SHIN-NY	Connectivity	Provide secure network for exchange of information across the state
WNY Rural Broadband Network	Telemedicine	Ensure rural communities are able to connect to broadband to facilitate telemedicine needs
Payers: Blue Cross Blue Shield; Independent Health; YourCare; Fidelis Care	Data communication	Share claims and provider data with MCC to assist in meeting and measuring project objectives

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
Network connectivity providers	Connectivity	Ensure all members are able to connect to broadband to facilitate telemedicine needs
NY e-Health Collaborative	Strategic direction, IT tools	Provide continued support for IT initiatives (e.g., patient portal, statewide provider directory), establish statewide technical standards/policies that enable secure exchange of patient data
External databases (e.g., health homes, MAPP)	Data	Advance their systems to ensure appropriate connectivity to MCC activity and dashboards
Salient	Data	Provide clean, consistent Medicaid provider data
Departments of health and mental health from each MCC PPS county (Allegany, Cattaraugus, Chautauqua, Erie, Genesee, Niagara, Orleans, Wyoming)	Region-specific support and services	Communication to constituents of IT capabilities of DSRIP; provide access to social determinant data
NYS DOH, OMH, OASAS	State and federal support services	Review and determine regulatory waiver requests; provide IT data, security, and consent leadership

New York State Department Of Health
Delivery System Reform Incentive Payment Project

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

✓ IPQR Module 5.7 - Progress Reporting

Instructions :

Please describe how you will measure the success of this organizational workstream.

Progress reporting will be aligned with the phased approach to implementing the overall IT systems and processes strategy. Success will be measured initially by finalizing appointments, staffing the IT Data Committee, and completing an IT current state assessment. These efforts will culminate into an EHR/IDS strategy; an implementation plan; an engagement strategy/plan; a data security and confidentiality plan; and an IT infrastructure development plan for interoperability, clinical integration, and population health management which will be used to report quarterly project- and unit-level progress.

The progress of MCC's IT system and processes efforts will be measured by:

- Determining the current state assessment approach
- Performing risk analysis and current state assessment of IT capabilities across MCC network
- Aggregated, analyzed results of the assessment identifying gaps and areas of focus in the strategic plan
- Establishing an IT governance structure representative of the entities in MCC, including reporting structure
- Development of data security, confidentiality, IT strategy, IT implementation, and data governance plans
- Development of a change management strategy and culture
- A roadmap for achieving clinical data sharing and interoperable systems
- Execution of legal requirements/documents for data sharing agreements
- A comprehensive training plan to support implementation of new platforms
- IT requirements and specifications for key data sharing across the IDS during transitions
- Establishing reporting mechanisms to IT Data Committee and Board of Managers

Quarterly project- and unit-level reports will mark progress towards IT systems and processes strategy. These reports will include but are not limited to:

- Reporting structure document
- Regular audits of the change management process
- MCC IT gap analysis results
- Approved implementation plan
- Approved change management strategy
- Finalized/approved engagement strategy and plan
- Approved MCC data governance plan
- Data sharing policies and procedures document
- Clinical interoperability system is in place for all participating providers
- Approve roadmap with overarching rules of the road for interoperability and clinical data sharing
- Approved plans for establishing data exchange agreements between all providers within the PPS
- Equipment specifications (meeting certified standards for interoperability and communications) and rationale documented
- Number of signed/executed DEAAs

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

MCC will utilize a central data warehouse and document archive to manage and track project and workstream requirements across the organization, including internal and external milestones, policies and procedures, and other key documents. This central repository will form the basis of our overall project tracking and reporting infrastructure and will allow users to access information appropriate to their role within the organization. Such a system will support project and program management by being a source for regularly scheduled reports and searchable information as dictated by project and program management requirements. This data source will be maintained as part of the PPS's critical operational infrastructure and will enable auditing, version control, and other project tracking functions across the organization.

✔ IPQR Module 6.3 - Major Risks to Implementation & Risk Mitigation Strategies

Instructions :

Please describe the key challenges or risks that you foresee in implementing performance reporting structures and processes and effective performance management within your network, including potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

Performance data cannot be obtained from partner organizations because of technical (IT) roadblocks. If partner organizations lack the technical and human resources to accurately collect and transmit the required performance data in a timely manner, blind spots will form where we cannot measure our RCE metrics with confidence. This is mitigated at the earliest stages by identifying the data collection and sharing capabilities of PPS members. Once identified and a gap analysis is performed, we can begin our implementation with partners already sharing or prepared to share data. Concurrently, we will work with the overall Clinical Integration strategy to prioritize their inclusion in implementation plans.

Performance data cannot be obtained and normalized in a timely manner due to the implementation timeline and, therefore, reports cannot be submitted to the DOH on time. Early and aggressive efforts to enlist partners who can be champions for this effort. Also, the Physician Steering Committee and Physician Performance Sub-Committee will play key roles in establishing the need for timely reporting. Lastly, remediation strategies consistent with PPS bylaws will be implemented.

Performance data is obtained but is incorrect, incomplete, or corrupted. If data is delivered in non-standardized formats, the effort needed to acquire relevant data could surpass existing human and IT resources and lead to data with significant gaps and quality concerns. This may require additional resources for data extraction, transformation, and loading. Data reporting standards and practices must be defined in the policies and procedures and addressed in any project participation agreements with providers. A comprehensive data specification that aligns with data normalization and integration processes identified in the IT infrastructure strategy will be developed. Lastly, best practices for data extraction, transmission, and loading will be included in training and information materials developed to enrich a culture of performance monitoring.

Culture is resistant to change. A culture resistant to change or inundated with training requirements is less likely to deliver quality data, take the time to process findings from analyses, and implement continuous quality improvement projects. We will coordinate with the Workforce Development Work Group to streamline or better integrate performance improvement training into other education efforts, particularly those aimed at new staff. We will solicit input from provider organizations and project leads on how to better integrate performance reporting processes into existing workflows. Our communication and provider outreach teams will continuously reinforce the relationship between performance monitoring, funds flow, patient outcomes, and process improvement.

✔ IPQR Module 6.4 - Major Dependencies on Organizational Workstreams

Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

IT systems & processes: IT will serve as the backbone for data collection and reporting. IT systems must be designed to accommodate

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

performance reporting.

Clinical integration: Clinical integration facilitates the coordination of patient care across the PPS and drives improved outcomes that must be collected, analyzed, and reported through an effective performance reporting system.

Population health management: Performance reporting will provide for monitoring and assessment of population health performance, using outcomes to guide population health improvement activities.

Governance: The Board of Managers will be the ultimate entity responsible for ensuring that outcome data is used to determine incentive rewards.

Patient activation: Performance outcomes that will be reported from project 2.d.i. (Patient Activation) will determine the extent to which patient activation and motivation techniques leads to primary care connections for the uninsured and low and non-utilizing Medicaid beneficiaries.

Finance: The flow of funds provides immediate and irrefutable evidence of one key benefit of continuous quality measurement and improvement: the ability to see real dollar amounts attached to specific outcomes and goals. Funds flow also plays a significant role in dictating the speed and scale of project implementation, the ability to hire and retrain staff required to monitor and report on quality data, and the PPS's ability to meet the overall DSRIP goals.

Clinical quality: Performance reporting is closely linked with clinical quality in terms of both its goals and processes. Evidence-based medicine will guide the establishment, evaluation, and analyses of key performance metrics. These metrics will be established and approved through close coordination with the Chief Medical Officer, Physician Performance Sub-Committee, project leads, and other subject matter experts.

Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

✓ IPQR Module 6.5 - Roles and Responsibilities

Instructions :

Please list and elaborate upon the key people/organizations responsible for this organizational workstream and describe what their responsibilities involve.

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities
MCC Chief Reporting Officer	John J. Bono	Oversee development and operation of an effective system for reporting and responding to process and performance outcomes; oversee and coordinate all reporting functions including data acquisition, report collection, specifications identification, and continuous quality improvement
MCC Administrative Director, MCC Director of HIT, data analysts, IT resources	Juan Santiago, Jon Phillips, and various individuals	Implement reporting and communication technologies; provide hardware, software, networking, and security support for performance reporting, data collection, and analytics
Gatekeeper/IT Security Officer (ECMCC)	Robert Vail	Ensure compliance with all statutes and regulations for data handling, security, destruction, and access; coordinate HCS access with ECMCC
MCC Compliance Officer	Laura Fleming	Audit and monitor network to ensure objectives are being met
MCC Clinical Integration Officer	Michele Mercer RN	Establish performance goals; integrate population health and data tools into performance metrics
MCC Chief Medical Officer	Anthony Billittier MD	Define clinical metrics, liaise between medical community and MCC leadership
MCC Population Health Manager	Priti Bangia MSc MBA	Assist with development of population health metrics; monitor data and statistics necessary to prove outcomes
Physician Steering Committee	Chair: Frances Ilozue MD	Advise Board of Managers on clinical and quality issues; ensure physician community is represented and reports accurately reflect physicians and practices
Physician Performance Sub-Committee	Members of the Physician Steering Committee	Review provider metrics, determine remediation approach for under-performing providers
Rapid Cycle Evaluation (RCE) support team	Various individuals	Establish the goals and objectives of the RCE program
Performance monitoring champions	Various individuals	Coordinate with CRO, Physician Steering Committee, Clinical/Quality Committee, external stakeholders, and PMO to identify metrics, goals, and means to facilitate PPS-wide culture of performance monitoring and continuous quality improvement
Millennium Collaborative Care Community Engagement Team	Various individuals	Ensure community network has adequate access to computer systems to support reporting of results
Clinical Quality Committee	Co-chairs: Michael Cummings MD (UBMD Psychiatry); Joanne	Provide subject matter expertise on measure identification and

Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

✓ IPQR Module 6.6 - Key Stakeholders

Instructions :

Please identify the key stakeholders involved, both within and outside the PPS.

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
Internal Stakeholders		
MCC Executive Director, Al Hammonds	Oversight	Ensure all reporting and measurement is meeting DSRIP objectives; ensure timely submission of all reporting
Physician Steering Committee Chair (Frances Ilozue MD)	Physician engagement	Ensure physician community is represented and reports accurately reflect physicians and practices
Finance Committee (Finance Committee (Richard Braun, Mel Dyster, Sheila Kee, Christine Kemp, Chris Koenig, Raj Mehta, Kathrine Panzarella, Mike Sammarco, Juan Santiago, Lou Santiago, Erin Ryan)	Finance reporting	Coordinate all reporting related to financial sustainability, budget, and funds flow
Governance Committee	Oversight	Approve proposed goals and objectives of MCC RCE program
IT Data Committee	IT coordination and data standards	Ensure performance monitoring and reporting meet industry standards; enable coordination of IT and data resources across PPS
All MCC practitioners	Engagement, reporting, acting on reports	Provide feedback on the effectiveness of training and reports; provide input on reporting needs relevant to their particular area of practice; participate in data collection activities and change management, including remediation
Workforce Development Work Group	Workforce reporting	Coordinate all reporting and data collection for hiring, training, reassignment, and other personnel-related initiatives; coordinate deployment of training in performance reporting and quality improvement
External Stakeholders		
Patients, families, caregivers	Data owners	Consent to exchange of data to facilitate accurate reporting across PPS
Local government agencies	Regulatory oversight	Support PPS reporting by considering regulatory waivers where needed
Local chapters of national professional societies and associations	Subject matter expertise	Provide input on reporting needs relevant to their particular area of practice
Medicaid MCOs: Blue Cross Blue Shield; Independent Health; YourCare; Fidelis Care	Data, expertise	Provide data on attributed recipients; advise on population health best practices; supply baselines for their population

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
HEALTHeLINK	RHIO/QE	Coordinate and collaborate on collection of EHR, CCD, and ADT data across the PPS and region; provide connectivity to SHIN-NY
New York State DOH	Regulatory body	Provide data required to identify attributed recipients; collect claims-based measures; report on all measures identified in Reporting Measures and Specifications Manual as DOH reporting responsibility

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

✔ IPQR Module 6.7 - IT Expectations

Instructions :

Please clearly describe how the development of shared IT infrastructure across the PPS will support your approach to performance reporting.

It is expected that the shared IT infrastructure will form the backbone of the performance reporting effort. As the central conduit for data flow both from and to the providers, it is essential that IT projects be coordinated with requirements for collecting performance data.

IT will be required for:

Data collection and transmission: Electronic health record, claims, and other data will have to be communicated securely and in a timely manner in adherence to the PPS data governance plan. Leveraging the RHIO to facilitate the exchange and delivery of encounter information will be crucial.

Data warehousing: Data, once collected, will have to be aggregated in a central location for analysis. This will require hardware, software, and technical expertise.

Data normalization and acquisition: Data acquisition across types and sources are all dependent on the IT infrastructure. Collaboration and coordination with other area PPSs as well as the local RHIO will further enhance performance improvement, regionally.

Communications infrastructure for transmitting reports to providers, the DOH, and key stakeholders: This includes the ability to host dynamic dashboards and, eventually, real-time streaming analytics. This will require resources such as web hosting, platform selection and acquisition, technical expertise from web services, or other development efforts.

Extract, transform, and load (ETL) processes and data integration: Effectively leverage data sources provided by NYS DOH via Salient Interactive Miner and the MAPP. Define ETL processes for making best use of that data and integrating it into internal PPS analytics, reports, and dashboards.

✔ IPQR Module 6.8 - Progress Reporting

Instructions :

Please describe how you will measure the success of this organizational workstream.

Progress reporting will be aligned with the phased approach to implementing the overall performance reporting strategy. Establishment of project- and unit-level reporting frequency will be based on the internal and external reporting requirements to ensure the success of MCC-wide performance reporting strategy. Success will be measured initially by finalizing appointments, staffing the Clinical/Quality Committee, and completing a comprehensive network assessment. The progress of MCC's performance reporting and communications efforts will be measured by

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

a performance reporting and communications strategy approved by the Board of Managers.

The strategy will at minimum include the following:

Roles and responsibilities

Creation of clinical and quality dashboards

Defined RCE approach

Creation of RCE support team

Policies and procedures for continuous and systematic data collection and rapid feedback including remediation strategies approved by Board of Managers

A reporting schedule aligned with finance, governance, and cultural competency/health literacy

A comprehensive training program

Overall project- and unit-level reports to mark progress towards performance reporting and communication will include but are not limited to:

RCE support team meeting schedule and minutes

RCE goals

Gap assessment results

Data collection policies and procedures

Reporting guidebook

Sample scorecard and report templates; examples of deliverables presented to partners

Training curriculum including materials

Participant/attendance record

Training outcomes

MCC will utilize a central data warehouse and document archive to manage and track project and workstream requirements across the organization, including internal and external milestones, policies and procedures, and other key documents. This central repository will form the basis of our overall project tracking and reporting infrastructure and will allow users to access information appropriate to their role within the organization. Such a system will support project and program management by being a source for regularly scheduled reports and searchable information as dictated by project and program management requirements. This data source will be maintained as part of the PPS's critical operational infrastructure and will enable auditing, version control, and other project tracking functions across the organization.

IPQR Module 6.9 - IA Monitoring

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

✓ IPQR Module 7.3 - Major Risks to Implementation & Risk Mitigation Strategies

Instructions :

Please describe the current level of engagement of your physician community in the DSRIP program and describe the key challenges or risks that you foresee in implementing your plans for physician engagement and achieving the milestones described above. Describe any potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

Practitioners receive continuous and extensive external personal and professional communications from multiple sources; addition of DSRIP communications could further overwhelm these already busy individuals. Uniquely engage, incentivize, and provide value-add to help ensure meaningful and effective engagement. Consider small financial incentives, free Continuing Medical Education (CME) credits, office detailing used by pharmaceutical and medical equipment representatives, dinners, and other innovative methods. Engage other entities similarly trying to engage and influence practitioner behaviors (e.g., payers). Partner/collaborate with like-minded entities to leverage strength in numbers, share costs and resources, and ultimately achieve more effective interaction.

Practitioners may disagree and/or take offense with, and perhaps actively resist DSRIP initiatives (e.g., established standards of care and quality of care reporting) which could be viewed as encroachment in the doctor-patient relationship. Make every effort to ensure inclusivity, transparency, evidence-based justification, and other consensus-building techniques to maximize practitioner buy-in and ownership of DSRIP efforts and the DSRIP program itself.

The MCC network includes a wide range of types of practitioners and participants, and serves a diverse patient population across a large and varied geographical area. There is potential fragmentation among physicians and between community resources and physicians. Providers in other areas feel this is an Erie County initiative and their voices are not being heard. Maintain a physical and virtual presence. Engage geographic councils to ensure the Southern Tier and Niagara/Orleans counties are represented.

MCC practitioners vary greatly in terms of the level of resources available to them. For example, practices that have already achieved Patient-Centered Medical Home (PCMH) certification will be in a much better position to meet DSRIP project requirements (e.g., exchange patient data via EHR) than those practices that are understaffed, and those located in areas without robust community-level resources available. These disadvantaged practices will struggle to implement the same strategies in the time allowed. Allocate resources to fill in gaps. Offer meaningful incentives (cash, workforce, or equipment). Provide IT support, software, hardware, and/or videoconferencing capability. Provide onsite outreach. Engage practitioners virtually via social media, EHR alerts, virtual CME, and videoconferencing. Provide resources through HEALTHeLINK.

There is considerable county overlap with two adjacent PPSs in WNY. Among practices there are varying degrees of clinical standards, especially in outpatient/primary care. The patient experience should be relatively uniform regardless of PPS. Ultimately it would be ideal across the PPS (and the region) to achieve consensus on clinical guidelines/protocols. Minimally we want to ensure uniformity to create a seamless experience for the patient, regardless of where he or she seeks care. PPSs will agree to share registry information, use standardized referral protocols, utilize uniform tracking and reporting systems and procedures, and maintain common messaging to educate/communicate with patients. MCC will work with Finger Lakes PPS and Community Partners of WNY (led by Catholic Medical Partners) to establish common protocols for referrals (inside or outside the PPS).

✓ IPQR Module 7.4 - Major Dependencies on Organizational Workstreams

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

IT Systems & Processes: IT capabilities will be central to the achievement of major practice/workflow transformations related to PCMH. Specific to practitioner engagement, we will need a technical solution (platform) to engage physicians and share PPS-wide and practice-specific information/messaging. This may involve utilizing existing channels (such as social media) and developing new ones that meet the participants' needs. We will establish two-way communication and use a virtual presence to share information about different workstreams within the PPS. We will host regularly scheduled virtual meetings. To communicate and share lessons learned with physicians across the state, we will encourage practitioners to use MIX (or other state-provided venues, as appropriate).

Performance Reporting: It will be critical to implement dashboards for monitoring at a central level as well as self-monitoring at the practice level.

Governance: Make certain physicians are involved in decision-making. Have physicians in different specialties (e.g., pulmonary, cardiology, etc.) review clinical guidelines. These could be ad hoc or limited-time sub-committees, formed as required.

Finance and Flow of Funds: Performance is tied to finance/flow of funds. Reduced funds flow due to lackluster or nonperformance will be passed through from PPS to practitioners, potentially resulting in practitioners not getting paid.

Workforce: Workforce redevelopment strategy involves significant redeployment and retraining.

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

✔ IPQR Module 7.5 - Roles and Responsibilities

Instructions :

Please list and elaborate upon the key people/organizations responsible for this organizational workstream and describe what their responsibilities involve.

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities
MCC Chief Medical Officer	Anthony Billittier MD	Ensure policies affecting physicians are evidence-based guidelines selected with sound medical judgment; serve as provider liaison
Practitioner engagement liaison	Jillian Barone	Implement; direct; manage; monitor; and improve practitioner communication, engagement, empowerment, and ongoing relations
MCC Clinical Integration Officer	Michele Mercer RN	Ensure providers and their support staff are aware of DSRIP policies and clinical workflows
Physician Steering Committee	Chair: Frances Ilozue MD	Ensure MCC physicians are represented and support decisions
MCC Communications Director	Peter Ciotta	Coordinate with practitioner engagement liaison to implement effective outreach strategies specifically targeted at practitioners
Geographic councils	Niagara Orleans Healthcare Organization (led by Sheila Kee, Niagara Falls Memorial Medical Center) and Southern Tier Council (led by Richard Braun, Olean General Hospital)	Implement practitioner engagement strategies in the Northern and Southern Tier counties of the PPS; report progress, challenges, and appropriate solutions to the Physician Steering Committee

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

✓ IPQR Module 7.6 - Key Stakeholders

Instructions :

Please identify the key stakeholders involved, both within and outside the PPS.

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
Internal Stakeholders		
All MCC practitioners	Participants	Engage in MCC projects, deliverables, and action plans
Primary care safety net practices (including SNAPCAP, VAP)	Participants	Engage safety net practices in the MCC projects, deliverables, and action plans
Primary care private practices	Participants	Engage in MCC projects
"Voice of the Consumer" Sub-Committee	Advisory	Ensure patients', families', and caregivers' voices are heard in relation to all MCC activities
Community-Based Organization (CBO) Task Force	Advisory, training	Ensure community action plans are in line with community needs; ensure selected CBO institutions are appropriate for MCC initiatives
Regional Perinatal Center of WNY	Education/training	Education of OB/GYN on use of progesterone etc.
External Stakeholders		
Local chapters of national professional societies and associations (e.g., Buffalo Chapter of National Association of Black Social Workers)	Training, outreach	Education to members regarding MCC initiatives
ASAP and NYS Council for Community Behavioral Healthcare	Regulatory oversight	Regulatory waivers
Rural health networks	Outreach	Ensure rural physicians' communication and action plans are aligned with MCC initiatives
NY Care Coordination Program (Rochester), Departments of Mental Health	Training	Regional training
Nursing organizations	Training	Nursing education
Labor partners	Outreach	Encourage buy-in and engagement from nurses and other practitioners
Patients, families, caregivers (via groups like the Parent Network of WNY)	Advocacy	Help providers understand importance of DSRIP initiatives
Physician groups/clubs (e.g., P2 Collaborative of WNY, HEALTHeLINK Physician Committee)	Outreach	Encourage buy-in and engagement from physicians
HEALTHeLINK	RHIO	Ensure providers in network are gathering consent and information is flowing across network

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

✔ IPQR Module 7.7 - IT Expectations

Instructions :

Please clearly describe how the development of shared IT infrastructure across the PPS will support this particular workstream.

IT capabilities to achieve major practice/workflow transformations related to PCMH

Physician participation in the development of the IT strategy and implementation plan

Technical platform to engage physicians and share PPS-wide and practice-specific information/messaging; this may involve utilizing existing channels (such as social media) and developing new ones that meet PPS needs

Easy-to-use reporting systems for practices to submit quality data; dashboard technology to share/display performance data

Patient and provider portals to facilitate communication and data sharing among providers and between providers and patients

Teleconferencing, videoconferencing, and other technology capabilities to support effective two-way communication with providers dispersed across a broad geographical area, including those with limited access to broadband

Connectivity through HEALTHeLINK, integration with EHR systems to support sharing of data across the region

Technical support and training for practices related to use of PPS-specific tools (e.g., reporting interface), RHIO connectivity/capabilities, data collecting and reporting practices, EHR/Meaningful Use, PCMH certification

✔ IPQR Module 7.8 - Progress Reporting

Instructions :

Please describe how you will measure the success of this organizational workstream.

Progress reporting will be aligned with the phased approach to implementing the overall practitioner engagement strategy. Project success and governance will be measured by the penetration within the provider community.

As the practitioner engagement strategy is developed, quarterly progress reports will include:

Hiring of a practitioner engagement liaison responsible for practitioner communication, engagement, empowerment, and ongoing relations

Development of a comprehensive practitioner network registry

A Practitioner Communication and Engagement Plan to be reviewed and approved by MCC governance

New York State Department Of Health Delivery System Reform Incentive Payment Project

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

A regular meeting schedule; meeting minutes
Comprehensive practitioner training strategy to address MCC quality improvement agenda and continuing DSRIP education

Quarterly reports will track the progress of practitioner network development, implementation, and education against project goals. Reports will include analyses of, but not be limited to, the following:

- Number of practitioners in the network
- Primary care capacity for both safety net and non-safety net organizations
- Number of practitioners by groupings (e.g., cardiovascular, diabetes, behavioral health)

The progress of the practitioner engagement training/education plans will be analyzed and reports will be developed to assess the following:

- Number of training programs delivered each quarter
- Geographical locations of trainings
- Number of participants per training session
- Percentage of practitioners who completed training
- Training satisfaction rate

MCC will utilize a central data warehouse and document archive to manage and track project and workstream requirements across the organization, including internal and external milestones, policies and procedures, and other key documents. This central repository will form the basis of our overall project tracking and reporting infrastructure and will allow users to access information appropriate to their role within the organization. Such a system will support project and program management by being a source for regularly scheduled reports and searchable information as dictated by project and program management requirements. This data source will be maintained as part of the PPS's critical operational infrastructure and will enable auditing, version control, and other project tracking functions across the organization.

IPQR Module 7.9 - IA Monitoring

Millennium Collaborative Care (PPS ID:48)

✓ IPQR Module 8.3 - Major Risks to Implementation & Risk Mitigation Strategies

Instructions :

Please describe the key challenges or risks that you foresee in implementing these cross-cutting organizational strategies, including potential impacts on specific projects and, crucially, any risks that will undermine your ability to achieve outcome measure targets.

Excess bed capacity. Millennium hospitals have an occupancy rate of 71% that translates into 511 beds not in use, and the NYS DOH projected (2016) 499 excess beds for residential healthcare facilities in WNY. Millennium will resolve excess bed capacity in inpatient and skilled nursing facilities by in-depth fact-finding followed by a collective recommendation process and phased-in implementation.

Gaps in electronic health record (EHR) data sharing and regional health information organization (RHIO) interoperability. Enhanced communication and care management data sharing among primary care and specialists, mental health, health homes, and community support agencies does not presently exist, and interoperability among hospitals and pharmacies needs to be enhanced. Millennium's population health management solution (Cerner) is designed to make care management data accessible to all network providers in real time. A continuum of providers including medical, behavioral, and community will use Cerner's population health solution, along with continuity-of-care document data available through the RHIO, to support population health management using a combination of claims and clinical (EHR) data. If attributed patients do not consent to allow sharing of clinical data, it will impede managing health outcomes and providing coordinated care for the community. An effort is underway to emphasize the importance of sharing clinical data and require all patient access points to educate and capture patient consent documents.

PCMH accreditation to Level 3 2014. Millennium practice transformation specialists are working with 32 primary care safety net and high-volume Medicaid practice sites to provide PCMH transformation support.

Challenges with managing complex patients in primary care settings. There are virtually no primary care personnel devoted exclusively to care management of the high-risk complex population associated with avoidable admissions and readmissions. Risk stratification through Cerner's population health management solution will support coordinated care among providers in the network (this effort includes enrolling eligible patients into health homes).

Workforce competency gaps. The roles, responsibilities, skills, and competencies for appropriate care management and transitions (of high-risk patients) are being defined. We will build training into the practice transformation process used by the primary care locations to address these gaps.

Barriers to patient engagement in population self-management. Operationally, we will embed patient education about appropriate self-management into workflows of primary care provider partners in the Millennium network. The scope of activities supporting care coordination between providers is intended to address health outcomes. However, to address social determinants impacting population health, community-based interventions for outreach and engagement include engaging patients in Patient Activation Measure surveys, community health worker-led initiatives, and partnerships with external community-based stakeholders.

Developing standards for engagement. Failure of the multiple PPSs in Western New York to cooperate in using common protocols, standardized reporting requirements, and sharing lessons learned will lead to inconsistent or even contradictory instructions by PPSs that will impede provider

New York State Department Of Health Delivery System Reform Incentive Payment Project

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

performance. Millennium, Community Partners of WNY, and Finger Lakes PPS work together routinely to share information and ideas. Wherever possible, the three PPSs will develop standards and procedures that will guide implementation of the population health roadmap in a unified way.

✅ IPQR Module 8.4 - Major Dependencies on Organizational Workstreams

Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

Population health management that is capable of reducing avoidable admissions and readmissions is highly dependent on all elements of the PPS.

Population health management is dependent upon PPS-wide clinical integration and protocols for defining risk stratification so care management intensity and scope is stepped according to level of patient need. To this end, Millennium has redefined its project teams based on sites of care: acute care, post-acute care, community-based care, and primary care projects. Interoperability across settings for population health is dependent upon massive IT/HIE systems and processes enhancements. The new Millennium Cerner HealthIntent Platform is intended to support registries, patient care coordination among settings, and risk stratification to manage patients at the appropriate level of care.

Population health management of high-risk panels must be high-touch and active across settings using new roles and responsibilities that are not found in encounter-based, office-based care. To be effective, the new high-risk care management and coordination must function outside the primary care office through data sharing across clinical sites. This new out-of-office intensive care management is not currently covered by encounter-based reimbursement, so it is highly dependent upon financial sustainability through value-based payments (VBP). Risk-sharing incentives such as VBP models are being designed to align hospitals, primary care, and post-acute care partners in improving the quality of care and health outcomes. Population health management is dependent upon a trained primary care, behavioral health, and health home workforce and, therefore, must rely on the expertise, planning, and work of the Workforce Development workstream. As a result of decreased (potentially preventable) inpatient admissions, Millennium's hospital partners could experience an impact on inpatient beds due to improved care management and care coordination in outpatient facilities. This impact on beds will also impact the full time equivalents necessary for these unused inpatient beds. There is an effort underway by the Workforce Development workstream to assess current inpatient workforce, determine impact to the hospital-based workforce, and assess needs of retraining staff to improve care coordination at alternative care (outpatient) settings.

Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

✓ IPQR Module 8.5 - Roles and Responsibilities

Instructions :

Please list and elaborate upon the key people/organizations responsible for this organizational work stream and describe what their responsibilities involve.

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities
IT Data Committee	Various individuals, facilitated by Jon Phillips	Identify sources of data
MCC Chief Integration Officer	Michele Mercer RN	Establish performance goals, integrate population health and data tools into performance metrics
Physician Steering Committee	Chair: Frances Ilozue MD	Implement strategy for ensuring physician engagement
Chief Medical Officer	Anthony Billittier MD	Oversee strategy for ensuring physician engagement
Physician Performance Sub-Committee	Members of Physician Steering Committee	Review provider metrics, determine remediation approach for under-performing providers
MCC Administrative Director, MCC Director of HIT, data analysts, IT resources	Juan Santiago, Jon Phillips, and various individuals	Implement reporting and communication technologies, risk stratification, and data sharing across PPS
Governance Committee	Co-chairs: Anne Constantino (Horizon Health); David Smeltzer (Heritage Ministries)	Establish goals and objectives of MCC Rapid Cycle Evaluation (RCE) program with assigned representation from Physician Performance Subcommittee and Clinical/Quality Committee
Clinical/Quality Committee	Co-chairs: Michael Cummings MD (UBMD Psychiatry); Joanne Haefner FNP (Neighborhood Health Center)	Develop clinical metrics and processes to support accountability for population outcomes
MCC Population Health Manager	Priti Bangia MSc MBA	Develop clinical and community metrics for projects, support the community in education and implementation of population health techniques, work closely with clinical integration and IT business owners, monitor/ensure all metrics from the community are uploaded in a clean, secure manner allowing for accurate reporting and data collection
Other MCC staff/population health team	To be designated	Support/educate community providers on conducting and uploading population health data for successful reporting
MCC care transition coordinators	To be designated	Support outreach to patients and complete necessary metrics to measure effectiveness
Population health vendor(s)	Cerner	Supply systems that support population health management, execution, and measurement
Workforce Development Work Group	R-AHEC	Provide guidance and training/retraining as needed in relation to the PPS-wide bed reduction plan

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

✓ IPQR Module 8.6 - Key Stakeholders

Instructions :

Please identify the key stakeholders involved, both within and outside the PPS.

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
Internal Stakeholders		
Primary care practices	Care providers	Reduce avoidable admissions, ensure high-risk patients are monitored according to care plan, prevent patients from entering high-risk populations by deploying prevention and medicine based on evidence-based guidelines
Hospital/emergency department (ED) discharge staff	Care transition	Follow approved policies and procedures, especially when discharging high-risk patients; link all patients to PCPs and secure appointments
ED care coordinators/navigators	Care coordination	Intercept high-risk patients, follow approved protocols to identify and remove barriers to care
Community-Based Organization (CBO) Task Force	Patient outreach	Coordinate medically-appropriate and culturally-sensitive interventions with high-risk patients
MCC Administrative Director (Juan Santiago)	Lead MCC IT strategy; coordinate with lead entity (ECMCC) for IT alignment	Ensure IT solution meets clinical integration and population health business requirements
External Stakeholders		
Urgent care centers	Care access, care coordination	Ensure communication to PCPs, contribute to coordination of care
Health homes (adult and pediatric)	Care coordination	Document interventions and care coordination activities for sharing among health homes to manage populations holistically and enhance reporting
Health plans and Medicaid managed care organizations	Risk management	Risk stratification
CBOs	Patient outreach	Deploy resources to intervene with high-risk patients, follow approved protocols to identify and remove barriers to care
P2 Collaborative of WNY	Education	Educate patients and providers
Rural health networks	Patient outreach, care coordination	Ensure rural populations are supported by MCC and care is rendered
Pharmacies	Education	Educate patients and providers
School-based health services	Care access, care coordination	Provide improved access to care for school-aged population to prevent them from entering high-risk groups, connect students (and families) with primary care

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
All health service providers and community-based services	Community services	Community support of population health
Retail-based medical services ("minute clinics")	Care access	Provide medical services (including vaccinations) especially for uninsured or low utilizing patients in the community
HEALTHeLINK	Connectivity	Provide communication platform for essential clinical data to manage populations
FQHCs	Population health	Support impoverished and uninsured populations to decrease risk and improve health

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

✔ IPQR Module 8.7 - IT Expectations

Instructions :

Please describe the current Population Health Management IT capabilities in place throughout your PPS network and what your plans are at this stage for leveraging these capabilities and/or developing new IT infrastructure.

Maturation of the existing HIE. The HIE (HEALTHeLINK) is well developed in terms of its capability to collect data from hospitals, laboratories, and radiology facilities. Hospital data about admissions, discharges, and transfers is critical for identifying target populations and is available from every hospital in the region. However, population health interventions across an integrated delivery system, especially for high-risk patients, require bi-directional HIE in primary care, long-term care, and home care settings. While many primary care settings have access to read data from HEALTHeLINK, very few have the ability to feed data in so that it can be accessed in other settings. Long-term care settings currently have little connectivity. WNY was one of the first communities in the nation to establish HIE connections with home care but the data shared is limited. If these connections cannot be made in a timely fashion, there is a risk that coordination of care across the system for population health will be impaired. This will limit the ability to reduce hospitalizations. To mitigate this risk, we will encourage and support the use of Direct communication, which provides a means of secure clinical communication among organizations without the use of an HIE and therefore does not depend on the ability to create the bi-directional connections to the RHIO outlined above.

EHR implementation across the system is particularly problematic in long-term settings where EHR adoption has been slower than in other settings.

Integration of primary care and behavioral health: if it is not in place then population health efforts for patients with mental health and chronic disease will be much more difficult.

✔ IPQR Module 8.8 - Progress Reporting

Instructions :

Please describe how you will measure the success of this organizational workstream.

Progress reporting will be aligned with the phased approach to implementing the overall population health management direction. Project success and governance will be measured by the establishment of a population health roadmap which identifies the IT infrastructure necessary to support data analytics for MCC including targeted patient registries and their care management which supports primary care transformation. MCC will track its performance on domain 2 and 3 metrics (for all projects) to measure improvement over DY1 baselines. Scores will be used to determine which aspects of the population's health to focus on and to track improvement of the population health related-metrics over time. The progress of population health management will be presented to the Clinical/Quality Committee on a monthly basis. This will then be reported from the Clinical/Quality Committee to the Board of Managers on a quarterly basis.

Progress towards the development and approval of this roadmap will be reported quarterly (projected timeline versus actual implementation)

New York State Department Of Health Delivery System Reform Incentive Payment Project

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

timeline/percent complete of implementation of the approved roadmap). Quarterly reports will describe progress at the project and unit level including development of the population health management roadmap approved by the Board of Managers.

The roadmap will at minimum include the following items:

Development of physician and patient communication and education plans

RFP process for selection of vendor

Implementation and deployment of population health management data analytics tools

Development of business intelligence and other data analytics reporting at the project and unit levels

Communicating results of population health management to appropriate committees and sub-committees

Population health management project- and unit-level progress reports will measure the status of the following:

Population health roadmap designed to meet PCMH 2014 requirements and reduce avoidable utilization

Risk stratification criteria: definition of priority target population; rubric for risk stratification; pilot test of risk stratification criteria

Patient registries for risk stratification, pushed electronically to physicians

Percent of primary care offices submitting NCQA application for 2014 PCMH recognition

Percent of primary care offices obtaining NCQA 2014 PCMH level 3 recognition

MCC will utilize a central data warehouse and document archive to manage and track project and workstream requirements across the organization, including internal and external milestones, policies and procedures, and other key documents. This central repository will form the basis of our overall project tracking and reporting infrastructure and will allow users to access information appropriate to their role within the organization. Such a system will support project and program management by being a source for regularly scheduled reports and searchable information as dictated by project and program management requirements. This data source will be maintained as part of the PPS's critical operational infrastructure and will enable auditing, version control, and other project tracking functions across the organization.

✓ IPQR Module 9.3 - Major Risks to Implementation & Risk Mitigation Strategies

Instructions :

Please describe the key challenges or risks that you foresee in improving the level of clinical integration throughout your network and achieving the milestones described above. Describe potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

Over-reliance on hospital-employed physicians makes it difficult to achieve full CI across the community; they lack the breadth to serve as a foundation for building the clinically integrated, performance-focused platform. Include/engage a cross-section of both independent community-based and hospital-employed physicians in all programming.

Independent (community-based) physicians have limited availability, staff, and financial resources to implement changes in workflow to accommodate new care coordination processes and other DSRIP requirements. Provide centralized support/resources (e.g., physician assistance, care management, PCMH expertise, IT support) for CI efforts.

Stakeholders (e.g. ancillary providers, community-based organizations (CBOs), faith-based organizations, etc.) are too diffuse for organized performance achievements. Develop organized approach for connecting these stakeholders to hospital-based and independent primary care practices (e.g., by leveraging and automating the 211 resource directory). Promote collaboration among these stakeholders via the CBO Task Force. Review progress reports; identify "problem areas" and low-performing organizations for additional support/intervention.

Failure to engage contracted physician groups. Some physician groups may be resistant to the changes proposed. Include contracted physician groups in all clinical implementation strategies. Implement a comprehensive practitioner engagement strategy. Represent a variety of provider types on the Physician Steering Committee to ensure a wide range of voices are heard.

Technology/data integration is not available/ready for deployment in a timely manner. Develop interim technology and data strategies to communicate data to practitioners. For example, leverage existing hospital admission, discharge, and transfer data and push to primary care offices. Work with IT Data Committee on interim steps to integration.

HEALTHeLINK (RHIO) training staff and PPS practice support staff operate independent of each other. Practices receive multiple, uncoordinated, outreach related to practice workflow transformation, causing confusion or distrust. Active, up-front coordination of activities to embed engagement of HEALTHeLINK services into the broader PPS practice transformation service as practices are engaged.

Data is not consistent across practices and EHR vendors. This affects providers trying to interpret Continuity of Care Document data from another practice and impedes the ability to perform analytics across a population whose data is sourced from many practice settings. Practice clinical transformation staff must include EHR data standards implementation in their practice support services integrated with data upload and aggregation capabilities. Implement a data standardization function to validate CCDs from practices at go-live.

EHR vendors may not support interoperability with the RHIO at a reasonable cost, slowing the pace of implementation of interoperability. Have MCC representatives from the IT Data Committee participate in regional, state, and national conversations on this issue; apply pressure to the industry to actively support the free flow of patient data.

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

Confusion, misinformation, and lack of understanding could cause delays in deployment and integration. MCC will provide detailed education and in-servicing to providers, partners, and their staff about change management, IT security/privacy policies, and other compliance and operational policies and programs.

✅ IPQR Module 9.4 - Major Dependencies on Organizational Workstreams

Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

Practitioner engagement: Successful CI implementation is dependent on active practitioner engagement
Population health strategy: CI is a means to population health
IT systems and processes: Data integration and interoperability are essential components of CI
Performance reporting: CI progress is informed by accurate performance reporting
Financial sustainability: CI transformation depends on financial sustainability for such items as interoperability and practitioner incentives
Workforce strategy: CI resources, such as care coordinators, are essential to successful CI implementation
11 projects: An interdependency exists between CI and the MCC clinical projects

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

✔ IPQR Module 9.5 - Roles and Responsibilities

Instructions :

Please list and elaborate upon the key people/organizations responsible for this organizational workstream and describe what their responsibilities involve.

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities
Clinical Quality Committee	Co-chairs: Michael Cummings MD (UBMD Psychiatry); Joanne Haefner FNP (Neighborhood Health Center)	Oversight and approval of Clinical Integration (CI) Strategy and CI Work Plan
IT Data Committee	Various individuals, facilitated by Jon Phillips	Ensure that the IT infrastructure meets the needs of the clinically integrated network
Community-Based Organization (CBO) Task Force	Coordinated by Millennium's Community Engagement Team	Provide advisory feedback on CI Strategy and CI Work Plan
Geographic councils	Niagara Orleans Healthcare Organization (led by Sheila Kee, Niagara Falls Memorial Medical Center) and Southern Tier Council (led by Richard Braun, Olean General Hospital)	Implement CI strategies in the Northern and Southern sub-regions of the PPS; report on progress, challenges, and appropriate solutions
Clinical integration liaisons	Representatives from primary care, specialties, behavioral health, CBOs, care coordination, hospice/palliative care, and population health	Act as liaisons between their respective disciplines and the CI process

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

✓ IPQR Module 9.6 - Key Stakeholders

Instructions :

Please identify the key stakeholders involved, both within and outside the PPS.

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
Internal Stakeholders		
Chief Integration Officer (Michele Mercer RN)	Lead development and implementation of CI Strategy and Work Plan	Develop CI Strategy and Work Plan; present to oversight committees and work groups for feedback and approval; oversee implementation of work plan; report on progress of implementation
Chief Medical Officer (Anthony Billittier MD)	Medical oversight; input into CI Strategy and Work Plan	Work with Chief Clinical Integration Officer to develop CI Strategy and Work Plan; present to oversight committees and work groups for feedback and approval; oversee implementation of Work Plan; report on progress of implementation
Chief Reporting Officer (John J. Bono)	Development of clinical metrics	Develop and implement mutually agreed-upon CI metrics; provide input into measurement criteria and development of reports to the Clinical Quality/Committee, Board of Managers, and NYS DOH.
Representatives from each partner hospital	Buy-in/support of new pathways, lines of accountability, responsibilities, and communications	Engagement in the process, including consultation and training
FQHCs	Buy-in/support of new pathways, lines of accountability, responsibilities, and communications	Engagement in the process, including consultation and training
Behavioral health providers	Buy-in/support of new pathways, lines of accountability, responsibilities, and communications	Engagement in the process, including consultation and training
Health homes	Buy-in/support of new pathways, lines of accountability, responsibilities, and communications	Engagement in the process, including consultation and training
Post-acute providers	Buy-in/support of new pathways, lines of accountability, responsibilities, and communications	Engagement in the process, including consultation and training
Physician networks	Buy-in/support of new pathways, lines of accountability, responsibilities, and communications	Engagement in the process, including consultation and training
MCC Administrative Director (Juan Santiago), MCC Director of HIT (Jon Phillips)	Lead MCC IT strategy; coordinate with lead entity (ECMCC) for IT alignment	Ensure IT solution meets clinical integration and population health business requirements
External Stakeholders		
Departments of Health from each MCC PPS county	Buy-in/support of new pathways, lines of accountability, responsibilities, and communications	Engagement in the process, including consultation and training
Patients	Beneficiary of care improvements driven by CI	Response to consultation on CI Strategy
Family members	Communication with practitioners, particularly on behalf of children, the elderly, or those without mental capacity	Response to consultation on CI Strategy

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
Hospice/palliative care providers	Buy-in/support of new pathways, lines of accountability, responsibilities, and communications	Engagement in the process, including consultation and training
CBOs	Buy-in and support of CI Work Plan including new pathways, lines of accountability, responsibility, and communication	Engagement in the process, including consultation and training

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

✓ IPQR Module 9.7 - IT Expectations

Instructions :

Please clearly describe how the development of shared IT infrastructure across the PPS will support this particular workstream.

Effective CI will require relevant information to be readily accessible for all providers across the patient care spectrum. For some providers this will mean integration into new or expanded clinical data systems. For other providers in our network, effective CI is likely to rely more heavily on the coordinated use of patient registries and risk stratification. A core element of our CI needs assessment will be identifying where new or expanded data-sharing systems are required and where a different approach is required. The involvement of the IT Data Committee will be important in ensuring that our plans for developing IT infrastructure across the PPS support better CI.

The following areas that will require IT assessment and requirement definition for CI include:

- The architecture of the PPS to support a clinically integrated system
- The data sharing and confidentiality protocols in place for the PPS
- What platforms are being used to support the PPS (EHRs, etc.)
- How will the PPS integrate manual processes
- Data reporting and performance monitoring
- Secure messaging and alerts
- Patient and physician portals

Achieving the buy-in from our large community of downstream providers to the new ways of working that fall under the CI workstream will greatly depend on the providers and the individual practitioners having easily accessible methods of communicating with one another.

✓ IPQR Module 9.8 - Progress Reporting

Instructions :

Please describe how you will measure the success of this organizational workstream.

Progress reporting will be aligned with the phased approach to implementing the overall CI Strategy, including clinical integration progress within the network. This will be measured by increased adoption of evidence-based clinical pathways by participating PCPs. Clinical integration will also be measured by determining the increased adoption of care coordination within PC practices and across the network. Project success and governance will be measured by the completion of a clinical IT needs assessment, current state assessment of the PPS network, and establishment of a best practice data model flow. Quarterly reports at the project level will include a validated CI needs assessment tool approved by the Clinical/Quality Committee and aggregated analyzed results of the responses to identify gaps and CI focus areas.

Results of the CI needs assessment will be utilized in the development of the CI Strategy. The strategy will include, but not be limited to, the following items:

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

Inventory of all data sources
A comprehensive training program
A reporting schedule aligned with finance, governance, cultural competency/health literacy, and performance monitoring

Quarterly project- and unit-level reports will mark progress towards full implementation of the IT infrastructure development plan for interoperability, CI, and population health management.

MCC will utilize a central data warehouse and document archive to manage and track project and workstream requirements across the organization, including internal and external milestones, policies and procedures, and other key documents. This central repository will form the basis of our overall project tracking and reporting infrastructure and will allow users to access information appropriate to their role within the organization. Such a system will support project and program management by being a source for regularly scheduled reports and searchable information as dictated by project and program management requirements. This data source will be maintained as part of the PPS's critical operational infrastructure and will enable auditing, version control, and other project tracking functions across the organization.

IPQR Module 9.9 - IA Monitoring:

Instructions :

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

Section 10 – General Project Reporting

✓ IPQR Module 10.1 - Overall approach to implementation

Instructions :

Please summarize your intended approach to the implementation of your chosen DSRIP projects, including considerations around how this approach will allow for the successful development of concurrently implementing DSRIP projects.

Open, frequent communication is key to successful projects, and MCC is dedicated to a transparent communication process across the PPS. Project activities to improve the healthcare of the targeted population while decreasing overall admission rates will not only affect Medicaid patients attributed to MCC, but the overall health of WNY. As MCC conducts training/education and implements care improvements throughout the community, it will have a secondary effect across all segments of the population. Providers will become more educated in the use of population management metrics and "Plan, Do, Study, Act" (PDSA) cycles, causing a transformation in healthcare. Communication strategies will be critical to all projects, but are particularly important in those that span multiple disciplines or require collaboration among a broad group of stakeholders.

The 11 projects selected by MCC will require major changes—broad, systemic changes at the network level as well as specific alterations in the day-to-day lives of patients and providers. The disruptions caused by these changes, however minute, will be felt throughout the PPS. Eventually, the results (such as improved health outcomes) will stimulate increased patient buy-in and provider involvement. But as these outcomes may take a long time to observe, community-based organizations (CBOs) will be mobilized immediately to help promote the practices and principles of DSRIP. Through community-based organizations the PPS will conduct outreach education, networking, and PCP coordination to ensure patients outside of the PPS will be engaged and linked to a PCP.

The development of a shared IT infrastructure and data sharing ensures the patient information is shared and securely transferred to referring providers and members of the PPS. The ability to share data among care rendering groups will enhance the care coordination and decrease risk for the patient for readmission and enhance positive outcomes. Through the IT infrastructure, notifications of care transitional protocols will be established. Data sharing and notifications will support improved care transitions, which are critical to several projects.

MCC, through the Clinical/Quality Committee, will standardize clinical and operational flows to support Patient-Centered Medical Home (PCMH) and patient-focused models. The activities will drive the foundational steps for moving towards a value-based model through improved outcomes. Through PCMH and NYS Advanced Primary Care Model principles the PPS will set standards for identifying high-risk patients, addressing barriers for compliance, and initiating activities to effect change. These activities will be measured and shared across the PPS. PDSA cycles will be initiated to evaluate improvement activities set forth from the practice to meet the quality measures and quickly revise as necessary to continue positive growth.

MCC will work with neighboring PPSs Community Partners of WNY (led by Catholic Medical Partners) and Finger Lakes PPS to create comprehensive healthcare transformations in the region. Close coordination will be assured by encouraging the use of standardized referral protocols, utilizing uniform tracking and reporting systems, adopting universal alert messaging via the RHIO, maintaining common messaging to patients, and sharing lessons learned.

New York State Department Of Health
Delivery System Reform Incentive Payment Project

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

✔ IPQR Module 10.2 - Major dependencies between work streams and coordination of projects

Instructions :

Please describe how your approach will handle interdependencies between complementary projects, as well as between projects and cross-cutting PPS initiatives - for example, an IT infrastructure upgrade, or the establishment of data sharing protocols.

FINANCIAL

Financial concerns cut across all projects, as practices and facilities are dependent upon financial sustainability. MCC will work with payers to enhance reimbursement strategies to provide sustainability to providers within the PPS. (all projects, Financial Sustainability).

EDUCATION

Education for patients, as well as providers, is key to empowering patients to drive their own healthcare needs as well as instilling confidence in medical staff to utilize new programs/strategies/procedures (2.d.i., Practitioner Engagement, 2.b.iii., 2.b.viii., 3.a.i.)

Gaps in knowledge could hinder outcomes of programs, such as INTERACT (2.b.vii.)

Educating Medicaid beneficiaries on established alternatives to ED will reduce non-emergent ED visits. (2.b.iii., 2.b.vii., 2.b.viii., 3.a.ii.)

Culturally, Linguistically Appropriate Services (CLAS) are very important in patient engagement. (Cultural Competency and Health Literacy, all projects but particularly 2.d.i., 3.b.i., 3.f.i., 4.a.i., 4.d.i.)

STAFFING

This PPS will be seeking highly educated and skilled resources within the PPS area to staff key support roles for all projects and workstreams. (all projects, Workforce Strategy)

The PPS is dependent upon well trained, funded staff availability, and primary physicians trained in areas with current shortages, especially in behavioral health. (2.b.iii., 2.d.i., 3.a.i., 3.b.i., Practitioner Engagement)

PATIENT COORDINATION WITHIN PPS

All providers are highly dependent upon increased levels of communication and coordination for their patients. This is especially challenging due to the current highly fragmented delivery system, the target population's size, and the region's large geographical area. (2.a.i., IT Systems & Processes, Population Health Management)

Connectivity with health home and ACO population management systems will impact ED triage. (2.a.i., 2.b.iii., Population Health Management)

Note: There are no ACOs in WNY participating with MCC.

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

Hospitals must help coordinate safe and successful discharges, while passing along all crucial information when patients return to skilled nursing facilities or other facilities. (2.b.iii., 2.b.vii., 2.b.viii.)

Crisis Stabilization is dependent upon ED triage to identify patients who do not need urgent care. (2.b.iii., 3.a.ii.)

IT INFRASTRUCTURE

Connectivity is the backbone for which all providers will be dependent. The ability to safely and easily access patient records is key to improving patient outcomes. (2.a.i., IT Systems & Processes)

All projects are dependent upon the PPS's ability to define data gaps, and implement data quality and content standards at the practice level. This directly impacts the PPS's practice clinical transformation and EHR utilization activities at the practice level. In particular, defining data rules and standards around Continuity of Care Documents (CCDs) as these tend to have a high rate of variability across practices and EHR vendors. This will directly impact the ability to perform population analytics across many practices. (2.a.i., IT Systems & Processes)

Cardiac project is dependent upon project 2.a.i. (Integrated Delivery System) requirement to establish disease registries. (2.a.i., IT Systems & Processes, 3.b.i.)

Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

✓ IPQR Module 10.3 - Project Roles and Responsibilities

Instructions :

Please outline the key individuals & organizations that play a role in the delivery of your PPS's DSRIP projects, as well as what their responsibilities are regarding governance, implementation, monitoring and reporting on your DSRIP projects.

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities
IT Data Committee	Various individuals, facilitated by Jon Phillips	Technical oversight/direction/coordination [all projects as needed]
MCC Clinical Integration Officer	Michele Mercer RN	Achieve clinical integration through the use of best practices and techniques by healthcare facilities and primary care practices throughout WNY
MCC Community Engagement Team	Various individuals	Cultural competency, health literacy, collaboration with CBOs [especially 2.b.iii. (ED Care Triage), 2.d.i. (Patient Activation), 3.a.ii. (Crisis Stabilization), 3.f.i. (Maternal and Child Health), domain 4 projects]
MCC Workforce Education Vendor	Rural-AHEC	Devise strategies to meet training needs through cooperative arrangements with community partners
Project co-sponsor	Community Partners of WNY	Provide joint funding; collaborate on standardized cross-PPS protocols and policies; participate in open, frequent communication about project status and objectives [4.a.i. (Promote MEB Well-Being), 3.f.i. (Maternal and Child Health)]
All active project participants (e.g., SNFs implementing INTERACT, individuals being trained on PAM, PCPs offering Million Hearts)	Per project	Meet project requirements according to established timeline, follow any protocols agreed to at PPS level, accept performance-based incentives, use electronic systems to track patients as required [all projects]
MCC Chief Reporting Officer	John J. Bono	Develop and implement plan specifying process and performance metrics to be reported, manner in which data will be reported, designating entities which will receive data, systems for analyzing and responding to data and reporting date to committees and governing board.
MCC Clinical Integration Team	Led by Michele Mercer RN	Ensure workstreams and projects are coordinated, meet objectives, and contribute to the overall success of the PPS

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

✓ IPQR Module 10.4 - Overview of key stakeholders and how influenced by your DSRIP projects

Instructions :

In the below table, please set out who the key stakeholders are that play a major role across multiple DSRIP projects. Please give an indication of the role they play and how they impact your approach to delivering your DSRIP projects.

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
Internal Stakeholders		
Home care providers	Participating home health agencies	Provide/promote home healthcare as alternative to hospitalization/SNF admission
CBO Task Force	Coordination of community resources	Coordinate services provided by CBOs to prevent gaps or unnecessary duplication of services
"Voice of the Consumer" Sub-Committee	Patient advocacy and engagement	Obtain direct input from Medicaid recipients
MCC Administrative Director (Juan Santiago)	Reporting oversight	Provide oversight for reporting as it relates to projects
External Stakeholders		
Legislators	Regulatory waivers	Waive regulations that prevent project from achieving objectives
HEALTHeLINK and other RHIOs	HIE	Integration, connectivity, consent [especially project 2.a.i., Integrated Delivery System]
Departments of health from each MCC PPS county (Allegany, Cattaraugus, Chautauqua, Erie, Genesee, Niagara, Orleans, Wyoming)	Region-specific support/services	Assist in implementation of community health improvement strategies, provide region-specific support and services [especially 3.a.i. (Integration of Behavioral Health and Primary Care), 3.a.ii (Crisis Stabilization)]
Health plans and Medicaid managed care organizations	Reimbursement	Provide appropriate reimbursement based on project strategies and objectives, streamline authorization processes to facilitate project success, support value-based payment
Finger Lakes PPS	Coordination	Collaborate on standardized cross-PPS protocols and policies
Community-based and faith-based organizations	Service providers	Provide culturally appropriate services to various populations to support patient engagement/activation and adherence to care plans
Patients, families, caregivers	Care seekers	Care seekers

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

✓ IPQR Module 10.5 - IT Requirements

Instructions :

Information technology will play a crucial role in the development of an effective, integrated performing provider system. It is likely that most projects will require some level of supporting IT infrastructure. Please describe the key elements of IT infrastructure development that will play a role in multiple projects.

MCC is in the process of developing requirements for an Enterprise DSRIP Solution, the technical infrastructure that will support MCC's project and workstream activities. A vendor/partner will be selected via RFP to provide the enabling infrastructure and analytics foundation to pull data and push content and insights across MCC's network.

MCC intends to leverage aggregated patient data available through HEALTHeLINK and augment it with information from other service providers in the PPS such as social service agencies, schools, CBOs, and other providers that do not use electronic patient records. The infrastructure and data foundation provided by HEALTHeLINK will enable the functional capabilities of performance management, decision support, care delivery, care management, population health management, patient engagement, and support services.

The enabling infrastructure which will support implementation of all 11 MCC projects includes the following elements: EMRs, rules engine, network connectivity and security, remote monitoring and mHealth applications, enterprise data warehouse, process automation, reporting tools, portals, advanced analytic tools, and geospatial analysis tools.

A comprehensive service provider network will be created and maintained. The network will be accessible and responsive to identified member needs. This includes use of geospatial mapping to identify "hot spots" and network coverage issues. A provider/network directory will offer a streamlined, electronic means for primary care practices to connect patients to community-based services in their own neighborhoods and communities. This will enable PPS partners to coordinate medical, mental health, and non-medical care efforts (e.g., temporary housing).

A patient registry will be developed which includes patient name, address, CIN number, sex, race, top diagnoses codes, primary care provider of record, payer, risk score, and projects in which they have been engaged. Patient-level clinical data should include additional elements such as BMI, smoking status, cholesterol level, blood sugar level, PAM survey date and score, pregnancy status, most recent encounters, most recent discharge diagnosis, and date of discharge. Registry data will be used to identify care gaps for treatment of identified chronic or acute conditions and for preventative and wellness services.

A Member portal is also envisioned that will enable beneficiaries to look up their own information online and make service requests from their portals. Since most Medicaid members may not have smart phones or computers, MCC seeks to explore the use of secure text messaging to remind members of upcoming appointments or to call their care team for other information or follow up.

Community health workers (CHWs) will perform vital services in connection to several projects (e.g., 3.f.i., Support for Maternal and Child Health). MCC intends to equip CHWs with laptops, tablets, smart phones, or other mobile devices to capture data and share content with Medicaid members. This technology will facilitate easy documentation of home/remote visits, improve communication across the care continuum, provide educational material for members, and keep CHWs in the field connected to the PPS as needed. This will be facilitated through access to a Service Provider portal. MCC will engage with the CBOs to design structured documentation templates that can be accessed in their portal. As the

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

CHWs open their template they will query MCC's EMPI solution using name, address and CIN number if known to determine whether the member has an existing EMPI number. The form will automatically be populated with EMPI or a new identifier if the patient is not known. This capability is foundational to creating a 360-degree view of each member.

✅ IPQR Module 10.6 - Performance Monitoring

Instructions :

Please explain how your DSRIP projects will fit into your development of a quality performance reporting system and culture.

A workgroup composed of members of the Physician Performance Sub-Committee, IT Data Committee, Clinical/Quality Committee, and Finance Committee, with input from the Chief Reporting Officer, Chief Integration Officer, and Finance Director, will develop a performance measurement program, including incentive payment provisions. The workgroup will direct the IT Data Committee in implementation of project-specific performance dashboards. These dashboards will be populated with internal and external data, including the domain 1–4 measures identified in the DSRIP Measure Specification and Reporting Manual and subsequent guidance. The workgroup will develop additional measures and milestones to measure project implementation, quality, and integration and milestones/measures that will be tied to financial incentives.

MCC will establish and identify quality standards using NYS DOH metrics as a starting point. The PPS may add metrics that it deems necessary to successfully meet provider adoption and patient engagement targets for all projects.

New York State Department Of Health Delivery System Reform Incentive Payment Project

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

✅ IPQR Module 10.7 - Community Engagement

Instructions :

Please describe your PPS's planned approach for driving community involvement in the DSRIP projects, how you will contract with CBOs for these projects, how community engagement will contribute to the success of the projects, and any risks associated with this.

The importance of member involvement in self-care is well documented. MCC will play a vital role in improving health literacy and motivating Medicaid members to improve their overall health and wellness. This includes sharing of appropriate content about their conditions that need to be managed, information about where non-emergent care can be accessed that is closest to them, and how they can be contacted.

MCC will reach out to the public directly by hosting informative events (for example, a wellness expo was hosted in September), appearing regularly in the media (e.g., weekly radio show on WUFO, appearances on television talk shows), implementing publicity/media campaigns, establishing a "Voice of the Consumer" Sub-Committee made up of Medicaid beneficiaries, and appointing a member of this sub-committee as a voting member of the Board of Managers. MCC will use these channels to engage the community and to explain DSRIP initiatives to WNY residents.

MCC will also leverage community-based organizations (CBOs) as an indispensable resource for reaching the community at large and specific targeted populations (e.g., refugees). MCC's strategy is to build a broad CBO network that is representative of all of WNY, that will play a vital role in engaging the Medicaid population in the delivery and implementation of DRSIP goals. During the first quarter of 2015, MCC conducted a major outreach campaign to urge CBOs to join the network. MCC directly contacted organizations by telephone and email and encouraged CBO involvement through its website. A total of 280 CBOs were added to the MCC PPS as a result of these outreach efforts. MCC will determine the adequacy of its CBO network as part of the additional community needs assessment work it will conduct to identify health disparities and factors causing poor health outcomes. The plan is to identify additional CBOs which currently exist or which are emerging, particularly in immigrant neighborhoods. As additional CBOs are identified, MCC will enroll them as partners and seek to involve them in PPS work.

In addition to building a broad network of CBOs, MCC will also execute contracts with individual CBOs to provide services related to the projects. Each DSRIP project team is being charged with the responsibility of identifying key CBOs that will assist with project work. A determination will be made as to the number of such CBOs required and the specific services they will perform. MCC will utilize the RFP process as the mechanism for evaluating the capacity of CBOs to provide services. Selection criteria will include experience, references, leadership/administrative capacity, financial viability, cultural and linguistic capabilities, and other characteristics as appropriate.

MCC used this process to select four CBOs to provide patient activation services in connection with the 11th project (2.d.i., Patient Activation). These CBOs, in turn, subcontracted with several additional organizations to reach the patient engagement targets for this project. Dozens of community health workers have been deployed to administer PAM surveys and help connect members with needed services.

MCC is in the process of selecting CBOs to provide services related to Cultural Competency and Health Literacy. CBOs will also be relied upon for projects 3.f.i. (Support for Maternal and Child Health), and 4.d.i. (Reduce Premature Births).

CBOs also provide advice and counsel to MCC's Board of Managers and committees via the CBO Task Force. Over 35 CBO representatives have been appointed to the Task Force, which has been meeting monthly since July. Among other things, the Task Force is responsible for tracking and

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

monitoring CBO involvement in project work and pinpointing new and evolving opportunities for CBO engagement.

IPQR Module 10.8 - IA Monitoring

Section 11 – Workforce

IPQR Module 11.1 - Workforce Strategy Spending (Baseline)

Instructions :

Please include details on expected workforce spending on a semi-annual basis. Funds may be shifted from one funding type category to another within the workforce strategy spending table, as long as the PPS adheres to their overall spend commitments. However, the PPS may apply a 25% discount factor to the DY1 Workforce Strategy Spend target. If the PPS applies this discount in DY1, the PPS will be expected to reallocate those funds appropriately in DY2-4 to fully meet their DY1-4 total commitment.

Funding Type	Year/Quarter										Total Spending(\$)
	DY1(Q1/Q2)(\$)	DY1(Q3/Q4)(\$)	DY2(Q1/Q2)(\$)	DY2(Q3/Q4)(\$)	DY3(Q1/Q2)(\$)	DY3(Q3/Q4)(\$)	DY4(Q1/Q2)(\$)	DY4(Q3/Q4)(\$)	DY5(Q1/Q2)(\$)	DY5(Q3/Q4)(\$)	
Retraining	285,000.00	285,000.00	142,500.00	142,500.00	71,250.00	71,250.00	42,750.00	42,750.00	28,500.00	28,500.00	1,140,000.00

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

✓ IPQR Module 11.4 - Major Risks to Implementation & Risk Mitigation Strategies

Instructions :

Please describe the key challenges and risks that you foresee in achieving the milestones set out above, including potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

MCC may have difficulty recruiting sufficient numbers of staff needed. This will be an issue with lower-paying community-based positions (e.g., CHWs) and positions where a high level of education/certification/licensure is required (e.g. Licensed Clinical Social Worker). This is especially problematic since two other PPSs in WNY will be competing for the same resources. Determine appropriate incentives and promote career ladder pathways. Work with local colleges, universities, and other educational resources to build a pipeline of qualified workers. Establish retraining programs to facilitate redeployment. Consider retention bonuses for lower-paying positions. Work with other PPSs to host joint job fairs and training/retraining sessions.

Resistance to change: staff, labor representatives, workforce, and key stakeholders will resist the workforce changes needed for success. Engage all participants throughout the process through assessment, communication, and training. These efforts will promote openness and transparency and involve affected members in the decision-making process.

Managing the differences in HR policies between facilities could become a barrier to inter-PPS movement. Employees moved between organizations, even affiliated organizations, could have different in-house HR services available to support the changes. The Workforce Development Work Group, with support from the workforce vendor and in close collaboration with facility HR departments, will provide clear and consistent protocols to support the changes and address challenges across the PPS. The Work Group will facilitate the establishment of protocols for implementing and monitoring the workforce transition process.

Lack of compatible technological infrastructure for data sharing, reporting, and communication, as well as a lack of appropriately trained staff. MCC will use a phased approach to project rollout, IT development, and reporting. Early reliance on free, open source solutions for data collection and analysis provides a "fallback" option for maintaining continuity of operations. MCC will grow our internal capacities and help direct the development of IT resources across the region. Appropriate training will be offered to staff members.

Negative ramifications for employees who refuse retraining/redeployment. A segment of the employee population will find the changes untenable. In facilities that are unionized, employees may seek to avoid the changes through grievances and refusal to cooperate. The PPS will refer employees to their HR department and/or union pursuant to existing agreements. The PPS will also engage the workforce vendor to provide input into the process of addressing staffing gaps and addressing retraining/redeployment refusals. Disciplinary action will be considered only as a last resort.

Funding received is insufficient to achieve the PPS' stated achievement goals. All projects will utilize flexible, phased project plans that can be adjusted as needed. MCC will engage no-cost training provided by community experts and will share project resources when applicable (e.g., INTERACT coaches for both 2bvii and 2bviii). MCC will also work towards value-based payment reform in order to control costs and ensure sustainability.

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

✓ IPQR Module 11.5 - Major Dependencies on Organizational Workstreams

Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

The workforce implementation plan is interrelated with every workstream and every DSRIP project. As a general overarching reality, without an effective, comprehensive workforce strategy, no workstream can be successful.

The IT Systems and Processes workstream is dependent upon an effective workforce strategy to recruit staff to build and manage systems, and to train IT staff on effective use of varied software.

Cultural Competency and Health Literacy need to be integrated into each aspect of the workforce strategy. Whether staff are retained, hired, retrained, or redeployed, it will be necessary for the workforce to be culturally competent.

Financial Sustainability: Adequate resources are key to successful transformation. Funds need to be available to support all aspects of the recruitment, training, and redeployment processes. In addition, financial delays could be detrimental to small partners attempting to participate in workforce transformation if resources are unavailable to provide needed training programs and develop required career and academic pathways.

Governance and Performance Reporting are also critical to the success of the transformation. Each participating partner needs to fully understand and participate in the process. Success is dependent upon active participation and engagement, including responding to required data needs for reporting.

Clinical Integration is dependent upon a successful transformation of the workforce. Training programs and new operational procedures will have a significant impact on successful integration into the care process.

In addition, Practitioner Engagement, through effective integration of communication processes as outlined in the Practitioner Communication and Engagement Plan, is critical for success. Continued transformation of the workforce and the care process requires active participation.

Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

✓ IPQR Module 11.6 - Roles and Responsibilities

Instructions :

Please list and elaborate upon the key people/organizations responsible for this organizational workstream and describe what their responsibilities involve.

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities
MCC Workforce Development Director	Jan Brown	Oversee, develop, and implement workforce transformation plans; oversee development of job descriptions, workflow procedures, and recruitment; provide information and assure continuous communication among employees, labor reps, community-based organizations (CBOs), and MCC
Workforce vendor	Western New York Rural Area Health Education Center (R-AHEC)	Sub-contract with MCC for a variety of services including, but not limited to, co-chairing the Workforce Work Group, identifying local and regional training providers, assessing and delivering various trainings, assessing current healthcare workforce needs, providing job coaching and case management for workforce program participants, and acting as a data warehouse for training information and workforce survey information
Workforce Development Work Group	Various individuals, facilitated by Jan Brown	Facilitate employee data collection; monitor and report to Board of Managers; assist in development of job descriptions, workflow procedures, and recruitment; promote and manage communication among employees, labor reps, CBOs, and MCC
Practitioner Engagement Coordinator	Jillian Barone	Help coordinate training for providers; identify appropriate training offerings and incentives; collaborate on communication to providers
Training Strategy Sub-Committee	Nichole Meehan (R-AHEC); Siobhain Kemblowski (199 Training Fund); Jan Brown (MCC); Valerie Putney (R-AHEC); Laura Donahue (Kaleida); Honor Martin (Aspire); Christine Kemp (SNAPCAP)	Develop PPS training strategy. Established May 2016; still adding members.

Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

✓ IPQR Module 11.7 - Key Stakeholders

Instructions :

Please identify the key stakeholders involved in your workforce transformation plans, both within and outside the PPS.

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
Internal Stakeholders		
Training departments/programs within PPS partner organizations	Training providers/partners	Coordinate to deliver needed training to partner staff
MCC project managers	Project managers	Identify training needs specific to projects and workstreams; coordinate with Workforce Development Director to ensure training fills these needs
Chief Medical Officer	Supervision/oversight	Coordinate with other practitioner engagement and communication activities
External Stakeholders		
Buffalo Niagara HR Associates	Professional association	Support HR activities and leadership
Training agencies	Training provider	Offer variety of training programs
1199 SEIU, NYSNA, AFSCME, CSEA, CWA, and others as identified	Labor representatives	Provide communication among employees and workforce team; provide expertise and insight into effective processes
PX 21 Coalition, Buffalo	Coalition of substance abuse/mental health agencies	Provide training (via training committee)
Community Health Workers of Buffalo, Jessica Bauer Walker, Executive Director	Training	Provide CHW training with emphasis on health education and promotion, community building, and advocacy; offer CHW certificate in partnership with Canisius
R-AHEC, Cathy Huff, CEO	Training	Provide training in rural areas
Staff education departments; nursing in-service education departments	Education	Provide clinical/nursing education; educate staff for DSRIP protocols
Colleges and universities with certificate/education programs (e.g., D'Youville, Daemen, UB, NU, Medaille, ECC, NCCC, Trocaire, BOCES, Harkness)	Education	Provide workforce education for DSRIP protocols
UB School of Social Work; Office of Continuing Education	Training and certification/credentialing support	Support DSRIP policy and procedures
Millard Fillmore College	Adult education on practice transformation	Offer certificate program (practice transformation based on AHRQ curriculum)
Empire State College; Jewish Community Center of Greater Buffalo	Adult education	Offer adult education classes

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
Infant community programs (e.g., Healthy Babies, Maternal and Infant Community Health Collaborative---MICHC)	Program-specific training programs	Provide training/orientation related to specific programs
Vocational and Educational Services for Individuals with Disabilities (VESID)	Training	Provide education opportunities to disabled individuals
Other PPSs	Networking; collaboration	Collaborate with other PPSs in developing ideas, sharing, networking, and learning across the state

New York State Department Of Health Delivery System Reform Incentive Payment Project

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

✔ IPQR Module 11.8 - IT Expectations

Instructions :

Please describe how the development of shared IT infrastructure across the PPS will support your plans for workforce transformation.

Data around workforce transformation will be collected, analyzed, and reported upon in order to determine the success and progress of the workforce development efforts. Appropriate data controls, collection, and analytical platforms will be needed to support these efforts. Dashboard or report card capabilities will help PPS partners understand current status/progress and highlight issues that need attention. IT support is also required to facilitate required data collection/reporting/export. It will also be important to track staff movement and changes across the PPS. A learning management system may be required to coordinate and record training/educational efforts.

✔ IPQR Module 11.9 - Progress Reporting

Instructions :

Please describe how you will measure the success of this organizational workstream.

Progress reporting will be aligned with the phased approach to implementing the overall Workforce Strategy. As the Workforce Strategy is developed and refined, quarterly project and unit level progress reports will include:

A list of Workforce Development Work Group members and key stakeholders

A regular meeting schedule and meeting minutes

A documented assessment of project workforce needs and Target Workforce State

A Workforce Transition Roadmap, submitted to and approved by the Board of Managers

A documented Compensation and Benefit Analysis Report

Comprehensive Training Strategy

A reporting schedule aligned with finance, governance, cultural competency/health literacy, and performance monitoring

Quarterly reports help partners to gain meaningful status on their own progress towards goals. Overall project and workstream success will be reported to partners and NYS DOH. Reports will include analyses of, but not be limited to, the following:

New York State Department Of Health Delivery System Reform Incentive Payment Project

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

Number of people retrained, redeployed, and hired

Training programs/sessions conducted

Breakdown of full (95–100% of previous compensation) vs. partial (less than 95%) placement

Breakdown of new hires by staff type

Summary of compensation/benefit impacts

Specifically, we will report progress of the workforce strategy on three levels. First, working collaboratively with partnering facilities who will identify employees affected by the DSRIP project, we will be able to ensure that the proper people receive the proper training and that both employee and facility profit from the educational endeavor. For example, the INTERACT program will be rolled out to care staff at participating SNFs. A trained staff will reduce the number of acute care transfers; therefore benefiting facility, employee, and patient.

Secondly, we will evaluate progress on the percentage of workforce need that has been met. We will do that by surveying partnering facilities and reevaluating what positions have been filled and where the greatest demand/vacancies lie. After which we will change our approach to recruitment and training if needed.

Finally, we will conduct a quantitative evaluation assessing the success of each project based on collected numbers of consumers reached and reduction of ED visits.

MCC will utilize a central data warehouse and document archive to manage and track project and workstream requirements across the organization, including internal and external milestones, policies and procedures, and other key documents. This central repository will form the basis of our overall project tracking and reporting infrastructure and will allow users to access information appropriate to their role within the organization. Such a system will support project and program management by being a source for regularly scheduled reports and searchable information as dictated by project and program management requirements. This data source will be maintained as part of the PPS's critical operational infrastructure and will enable auditing, version control, and other project tracking functions across the organization.

✔ IPQR Module 11.11 - Workforce Strategy Spending (Quarterly):

Instructions :

Please include details on workforce spending for DY2. The workforce spending actuals should reflect only what was spent during the relevant quarters and is not cumulative across semi-annual periods. The PPS can shift funding across categories; e.g., from Retraining to New Hires. Please note that the "Cumulative Percent of Commitments Expended through Current DSRIP Year (DY2)" section is calculated based on the total yearly commitments.

Benchmarks	
Year	Amount(\$)
Total Cumulative Spending Commitment through Current DSRIP Year(DY2)	10,128,000.00

Funding Type	Workforce Spending Actuals		Cumulative Spending to Date (DY1-DY5)(\$)	Cumulative Percent of Commitments Expended through Current DSRIP Year (DY2)
	DY2(Q1/Q2)(\$)	DY2(Q3/Q4)(\$)		
Retraining	402,511.00	0.00	2,260,857.00	264.43%
Redeployment	797,970.00	0.00	2,846,492.00	340.82%
New Hires	951,561.00	0.00	3,318,517.00	169.50%
Other	725,169.00	0.00	2,827,967.00	43.64%
Total Expenditures	2,877,211.00	0.00	11,253,833.00	111.12%

IPQR Module 11.12 - IA Monitoring:

Instructions :

New York State Department Of Health Delivery System Reform Incentive Payment Project

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

Project 2.a.i – Create Integrated Delivery Systems that are focused on Evidence-Based Medicine / Population Health Management

✓ IPQR Module 2.a.i.1 - Major Risks to Implementation and Mitigation Strategies

Instructions :

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

Data is not consistent across practices and EHR vendors. This affects providers trying to interpret Continuity of Care Document (CCD) data from another practice and impedes the ability to perform analytics across a population whose data is sourced from many practice settings. Practice clinical transformation staff must include EHR data standards implementation in their practice support services integrated with data upload and aggregation capabilities. Implement a data standardization function to validate CCDs from practices at go-live (this could be done at the RHIO level). Feedback to practice clinical transformation staff for intervention.

EHR vendors may not support interoperability with the RHIO at a reasonable cost, slowing the pace of implementation of interoperability. Have MCC representatives from the IT Data Committee participate in regional, state, and national conversations on this issue; apply pressure to the industry to actively support the free flow of patient data.

HEALTHeLINK (RHIO) training staff and PPS practice support staff operate independent of each other. Practices receive multiple, uncoordinated, outreach related to practice workflow transformation, causing confusion or distrust. Active, up-front coordination of activities to embed engagement of HEALTHeLINK services into the broader PPS practice transformation service as practices are engaged. Include HEALTHeLINK as part of the broader PPS activities.

Current fragmentation of services delivered in the market and wide geographic distribution of the PPS pose a risk to successful and timely development of an IDS. Clearly define goals and requirements up front, have a strong Program Management Office (PMO) and a timely and clearly defined communication plan to address at-risk activities.

The PPS's extensive and diverse membership cannot agree to appropriate IT security controls required for data exchange. A lack of confidence in the MCC PPS could cause providers and organizations to exit the PPS or not become fully committed. Establish openness, direct engagement, and strong communications between MCC and its partners' representatives. Initiate Active Monitoring of systems and make reports available to all PPS members.

Enterprise DSRIP solution cannot be completed until gap analysis concerning data capabilities and connectivity requirements is completed. Likewise, required security controls cannot be designed until the state of security is assessed via the gap analysis. Any delay will cause a cascade effect. Develop a strong PMO; clearly define goals and requirements; provide regular reports to MCC governance.

Delivery System Reform Incentive Payment Project
DSRIP Implementation Plan Project**

Millennium Collaborative Care (PPS ID:48)

✅ IPQR Module 2.a.i.2 - Prescribed Milestones

Instructions :

Please provide updates to baseline reporting on status, target dates, and work breakdown tasks for prescribed milestones. For milestones that are due and completed within the reporting period, documentation is required to provide evidence of project requirement achievement. Any explanations regarding altered or missed provider commitments should be included within the narrative box, not as text within uploaded documentation.

Project Requirements (Milestone/Task Name)	Prescribed Due Date	Reporting Level	Provider Type	Status	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
Milestone #1 All PPS providers must be included in the Integrated Delivery System. The IDS should include all medical, behavioral, post-acute, long-term care, and community-based service providers within the PPS network; additionally, the IDS structure must include payers and social service organizations, as necessary to support its strategy.	DY4 Q4	Project	N/A	In Progress	04/01/2015	03/31/2017	04/01/2015	03/31/2019	03/31/2019	DY4 Q4
Task PPS includes continuum of providers in IDS, including medical, behavioral health, post-acute, long-term care, and community-based providers.		Project		In Progress	04/01/2015	03/31/2017	04/01/2015	03/31/2019	03/31/2019	DY4 Q4
Task 1. Create list of participating providers across the network.		Project		Completed	04/01/2015	09/30/2015	04/01/2015	09/30/2015	09/30/2015	DY1 Q2
Task 2. Perform initial gap assessment to identify any gaps in the PPS network, particularly among community-based organizations (CBOs), pharmacists, dentists, behavioral health providers, and key primary care providers (PCPs). Utilize the Community Needs Assessment to identify key areas of focus.		Project		Completed	04/01/2015	09/30/2015	04/01/2015	09/30/2015	09/30/2015	DY1 Q2
Task 3. Identify additional gaps by gathering information and recommendations from existing partners/members, the CBO Task Force, the "Voice of the Consumer" Sub-Committee, and geographic councils.		Project		Completed	04/01/2015	09/30/2015	04/01/2015	09/30/2015	09/30/2015	DY1 Q2
Task 4. Issue requests for proposals (RFPs) for services to be performed by CBOs, including (but not limited to) cultural competency and health literacy training, Patient Activation coaching, and other services in connection with specific DSRIP projects (see Governance milestone #6).		Project		Completed	04/01/2015	10/03/2015	04/01/2015	10/03/2015	12/31/2015	DY1 Q3
Task 5. Implement a strategy to maximize participation of all PPS partners in MCC projects and activities, provide frequent communication and education through a variety of channels		Project		Completed	04/01/2015	12/31/2015	04/01/2015	12/31/2015	12/31/2015	DY1 Q3

including (but not limited to) biweekly newsletters emailed directly to participating providers and regular updates to the website. Conduct quarterly touchpoints to connect partners to projects and educate them on techniques for referring patients to other MCC partners.										
Task 6. As part of governance structure, establish a process to conduct periodic (quarterly) assessments of provider network in geographic areas throughout WNY to ensure that Medicaid beneficiaries have access to service providers.		Project		Completed	04/01/2015	12/31/2015	04/01/2015	12/31/2015	12/31/2015	DY1 Q3
Task 7. Perform gap analysis of PPS providers' capabilities for EHR and data exchange (possess full EHR system, possess some EHR capabilities, or no EHR capabilities).		Project		Completed	04/01/2015	09/30/2016	04/01/2015	09/30/2016	09/30/2016	DY2 Q2
Task 8. Develop comprehensive PPS partner database to house all data for readiness, implementation, and ongoing reporting. Partner database will have the capability to produce the provider network list and demonstrate changes to the network list.		Project		Completed	04/01/2015	12/31/2016	04/01/2015	12/31/2016	12/31/2016	DY2 Q3
Task 9. Develop ongoing review procedures to ensure that network partners have completed the necessary privacy and participation agreements to serve as a provider in the MCC network. Establish contractual agreements with partners.		Project		Completed	08/01/2015	12/31/2016	08/01/2015	12/31/2016	12/31/2016	DY2 Q3
Task 10. Use these gaps, along with results of the Clinical Integration Needs Assessment, to develop a high-level roadmap for inclusion and integration of all partner organizations in the integrated delivery system (IDS).		Project		In Progress	10/01/2015	12/31/2016	10/01/2015	03/31/2019	03/31/2019	DY4 Q4
Task 11. Engage with local RHIO to develop increased EMR capacity.		Project		Completed	04/01/2015	06/30/2016	04/01/2015	06/30/2016	06/30/2016	DY2 Q1
Task 12. Work with HEALTHeLINK to deploy data exchange alerts and messaging environment.		Project		In Progress	04/01/2015	12/31/2016	04/01/2015	12/31/2017	12/31/2017	DY3 Q3
Task 13. Establish and maintain working relationships with payers to engage them to support IDS strategy.		Project		In Progress	04/01/2015	03/31/2017	04/01/2015	03/31/2018	03/31/2018	DY3 Q4
Task 14. Identify payers and ancillary social service organization connectivity requirements; build data interfaces for these entities (if applicable).		Project		In Progress	04/01/2015	03/31/2017	04/01/2015	03/31/2019	03/31/2019	DY4 Q4

demonstrating IDS processes. Leverage Community Health Workers (defined in detail in projects 2.b.iii. ED Care Triage, 2.b.vii. INTERACT, and 2.b.viii. Hospital/Home Care).										
Task 3. Work with project directors, Workforce Development Work Group, and others to determine the knowledge, competencies, and licensures required for care management to effectively work with patients to ensure they receive appropriate healthcare and community support.		Project		Completed	07/01/2015	09/30/2016	07/01/2015	09/30/2016	09/30/2016	DY2 Q2
Task 4. Using CNA and other inputs, finalize inventory of WNY agencies providing care management services, including HHs, WNY Care Management Coalition, etc. Identify PPS partners and hospitals that must be linked for effective transitions of care.		Project		Completed	01/01/2016	12/31/2016	01/01/2016	12/31/2016	12/31/2016	DY2 Q3
Task 5. Define care management continuum. For each role along the care continuum, describe criteria for patient referral, workflows, care planning process, responsibilities associated with transitions of care, policies and procedures, outcome measure reporting techniques, etc.		Project		In Progress	07/27/2015	12/31/2016	07/27/2015	03/31/2017	03/31/2017	DY2 Q4
Task 6. Identify cultural and language issues that must be addressed in care management, linkages with medical home care management services, and system for informing PPS partners of availability of chronic disease self-management services.		Project		In Progress	07/27/2015	12/31/2016	07/27/2015	03/31/2017	03/31/2017	DY2 Q4
Task 7. Convene three sub-regional meetings of individuals with knowledge of hospital-to-home transitions, hospital-to-nursing home transitions, and nursing home-to-skilled nursing facility (SNF) transitions to assess current practices, identify data needs, review root cause analyses, and develop standards for maximizing effectiveness of transitions of care across the PPS. Maintain records including meeting schedules, agendas, minutes, and lists of attendees.		Project		In Progress	07/01/2015	12/30/2016	07/01/2015	03/31/2017	03/31/2017	DY2 Q4
Task 8. Finalize protocols for warm hand-offs of patients from intensive 30-day post-discharge care planning to HH care management services.		Project		Completed	07/27/2015	12/31/2016	07/27/2015	12/31/2016	12/31/2016	DY2 Q3
Task 9. Engage trainers to provide introductory and ongoing care management training on policies and procedures to care		Project		In Progress	07/27/2015	12/31/2016	07/27/2015	03/31/2017	03/31/2017	DY2 Q4

managers. Provide written training materials, list of training dates, and number of staff trained.										
Task 10. Develop standards for utilizing existing EHR systems to capture key data and process measures related to DSRIP goals for reporting on care management.		Project		Completed	07/01/2015	09/30/2016	07/01/2015	09/30/2016	09/30/2016	DY2 Q2
Task 11. Implement process for tracking care outside of hospital to ensure that all critical follow-up services and appointment reminders are followed. Process will include contract, report, periodic reporting of discharge plans uploaded into EHR, and other means of demonstrating implementation of the system.		Project		In Progress	07/27/2015	03/31/2017	07/27/2015	03/31/2017	03/31/2017	DY2 Q4
Task 12. In concert with IT, develop short- and mid-term IT platforms to use for tracking, monitoring, and reporting on care coordination transition processes and outcomes to ensure interoperability for all participating providers. Leverage existing PPS data exchange capabilities; reduce data redundancies.		Project		Completed	07/27/2015	03/31/2017	07/27/2015	12/31/2016	12/31/2016	DY2 Q3
Task 13. Work with payers and others to clarify and develop care coordination and transition management billing processes; provide such information to providers.		Project		In Progress	07/27/2015	03/31/2017	07/27/2015	03/31/2017	03/31/2017	DY2 Q4
Task 14. Using evidence-based models, develop a plan to establish a chronic disease self-management program for use by providers throughout the PPS. Include catalog of existing chronic disease self-management providers. Collaborate with existing chronic disease self-management providers (CDSMP) to identify program offerings.		Project		In Progress	07/27/2015	03/31/2017	07/27/2015	03/31/2017	03/31/2017	DY2 Q4
Task 15. Clinical/Quality Committee, PSC, and Physician Performance Sub-Committee will monitor reports and dashboards to identify trends and make recommendations for improved data access, exchange, integration, and use.		Project		In Progress	07/01/2015	03/31/2017	07/01/2015	03/31/2017	03/31/2017	DY2 Q4
Milestone #4 Ensure that all PPS safety net providers are actively sharing EHR systems with local health information exchange/RHIO/SHIN-NY and sharing health information among clinical partners, including directed exchange (secure messaging), alerts and patient record look up, by the end of Demonstration Year (DY) 3.	DY3 Q4	Project	N/A	In Progress	04/01/2015	03/31/2018	04/01/2015	03/31/2018	03/31/2018	DY3 Q4

care, and community-based service providers within the PPS network; additionally, the IDS structure must include payers and social service organizations, as necessary to support its strategy.	
Utilize partnering HH and ACO population health management systems and capabilities to implement the PPS' strategy towards evolving into an IDS.	
Ensure patients receive appropriate health care and community support, including medical and behavioral health, post-acute care, long term care and public health services.	
Ensure that all PPS safety net providers are actively sharing EHR systems with local health information exchange/RHIO/SHIN-NY and sharing health information among clinical partners, including directed exchange (secure messaging), alerts and patient record look up, by the end of Demonstration Year (DY) 3.	
Ensure that EHR systems used by participating safety net providers meet Meaningful Use and PCMH Level 3 standards and/or APCM by the end of Demonstration Year 3.	
Perform population health management by actively using EHRs and other IT platforms, including use of targeted patient registries, for all participating safety net providers.	End date adjusted to allow increased time for milestone completion.
Achieve 2014 Level 3 PCMH primary care certification and/or meet state-determined criteria for Advanced Primary Care Models for all eligible participating PCPs, expand access to primary care providers, and meet EHR Meaningful Use standards by the end of DY 3.	
Establish monthly meetings with Medicaid MCOs to discuss utilization trends, performance issues, and payment reform.	
Re-enforce the transition towards value-based payment reform by aligning provider compensation to patient outcomes.	End dates of tasks adjusted to allow increased time for milestone completion.
Engage patients in the integrated delivery system through outreach and navigation activities, leveraging community health workers, peers, and culturally competent community-based organizations, as appropriate.

✓ IPQR Module 2.b.iii.1 - Major Risks to Implementation and Mitigation Strategies

Instructions :

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

Financial distributions from the NYS DOH may be impacted if quarterly goals are not attained. Resistance to change and IT system limitations may impact ability to attain project goals.

Site-specific challenges may interfere with the successful implementation and integration of this project at each site and the ability of the initiative to achieve project milestones. MCC will develop the project in a way that allows flexibility and accommodates variability across sites, while ensuring each site follows uniform procedures and reports on standardized metrics.

Limited availability of primary care appointments within 30 days of an ED visit for high-risk ED patients will negatively impact the project's ability to meet performance deliverables. Broader DSRIP initiatives will address availability of primary care in the region.

Insurance will not pay unless the patient sees their identified PCP. If an appointment with the patient's identified PCP is not available within 30 days, he or she must contact the insurance company, change PCPs, then schedule the appointment. Communication with insurance companies to streamline processes or adjust policies is needed.

Lack of open access primary care scheduling systems will affect the project's ability to schedule PCP appointments for patients and communicate this information to patients at the time of their ED visit. Work with hospital sites for open access to scheduling systems, starting with safety net providers.

As the patient navigator will be a new role for most EDs, there is risk of confusion, duplication of services, and lack of support. Role of the patient navigator must be well defined and shared with all ED personnel.

Lack of availability (or awareness) of community resources to address patient barriers will affect the patient's ability to get to the scheduled PCP appointments. Develop partnerships with community-based organizations and work with health literacy experts to publicize available resources.

Inadequate communication between EDs and PCPs creates disjointed care, causes potential duplication of tests, and affects timely treatment of patient's condition at the appropriate setting. Transmit patient ED visit information to PCPs directly following patient's ED visit. Patients will receive discharge summary/instructions to take to PCP along with appointment reminder and PCP contact information.

Failure to provide consistent messaging for patients regarding appropriate use of healthcare services at all levels of care will negatively impact the ability of MCC to change patient healthcare utilization behavior. Coordinate with other PPSs in WNY to develop standardized messaging.

High-risk ED patients are often difficult to engage and contact for follow-up. Patient navigators should partner with other agencies who may be serving the patient population to reconnect them to care.

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

Patient navigators and ED staff are not properly trained to engage patients, identify barriers to care, refer patients to needed services, and motivate patients to utilize PCP services. Patient navigators will receive training to prepare them and educate them on processes and procedures. Patient navigators can then help train other ED staff as necessary.

Lack of communication or inadequate processes could lead to patients "falling through the cracks" or duplication of services. Each site will facilitate a monthly or bimonthly meeting to discuss processes for identifying patients, roles, missed patients, referrals, challenges, and corrective action plans.

A new application is built on a Salesforce.com platform to support patient encounter tracking, and the project is transitioning to the automated tool. It has been implemented at the four ED hospital sites and as patient navigators identify platform issues, we attempt to make necessary updates/corrections.

✔ IPQR Module 2.b.iii.2 - Patient Engagement Speed

Instructions :

Enter the number of patients actively engaged through the current quarter. The number entered into the "Quarterly Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for Q4 should include patients previously reported in Q3 plus new patients engaged in Q4. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

Benchmarks	
Actively Engaged Speed	Actively Engaged Scale
DY4,Q4	10,725

	Year,Quarter	DY2,Q1	DY2,Q2	DY2,Q3	DY2,Q4
PPS Reported	Baseline Commitment	825	1,650	2,550	3,375

✓ IPQR Module 2.b.iii.3 - Prescribed Milestones

Instructions :

Please provide updates to baseline reporting on status, target dates, and work breakdown tasks for prescribed milestones. For milestones that are due and completed within the reporting period, documentation is required to provide evidence of project requirement achievement. Any explanations regarding altered or missed provider commitments should be included within the narrative box, not as text within uploaded documentation.

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

Prescribed Milestones Narrative Text

Milestone Name	Narrative Text
Establish ED care triage program for at-risk populations	
Participating EDs will establish partnerships to community primary care providers with an emphasis on those that are PCMHs and have open access scheduling. a. Achieve NCQA 2014 Level 3 Medical Home standards or NYS Advanced Primary Care Model standards by the end of DSRIP Year 3. b. Develop process and procedures to establish connectivity between the emergency department and community primary care providers. c. Ensure real time notification to a Health Home care manager as applicable	
For patients presenting with minor illnesses who do not have a primary care provider: a. Patient navigators will assist the presenting patient to receive an immediate appointment with a primary care provider, after required medical screening examination, to validate a non-emergency need. b. Patient navigator will assist the patient with identifying and accessing needed community support resources. c. Patient navigator will assist the member in receiving a timely appointment with that provider's office (for patients with a primary care provider).	
Established protocols allowing ED and first responders - under supervision of the ED practitioners - to transport patients with non-acute disorders to alternate care sites including the PCMH to receive more appropriate level of care. (This requirement is optional.)	
Use EHRs and other technical platforms to track all patients engaged in the project.

Project 2.b.vii – Implementing the INTERACT project (inpatient transfer avoidance program for SNF)

✓ IPQR Module 2.b.vii.1 - Major Risks to Implementation and Mitigation Strategies

Instructions :

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

INTERACT relies on care coordination of patients across varying levels of care which is currently not always effective. Coordination is often impeded by lack of care coordination technology, varied EHR capabilities, and difficulties relaying data to a centralized system. Ensure protocols for care transition are clearly defined. Invest in care coordination technology and train staff to coordinate patient transitions among various levels of care; tie care coordination technology into EHR systems and the RHIO to improve current connectivity standards. Ensure that information transfer includes patient EHR data which is shared among all stakeholders.

Lack of viable discharge locations for severely ill community-dwelling individuals due to lack of resources and support. Engage CBOs in project. Work through the CBO Task Force to connect patients to community health workers who can get the patients set up for appropriate care outside the SNF/hospital.

Lack of payer reimbursement for activation of INTERACT; potential for a decrease in reimbursement to SNF facilities as a result of not activating skilled services which is currently required; increased SNF costs due to higher levels of acuity among SNF residents. Continue to engage third-party payers to activate a higher level of reimbursement for treating in place vs. sending a patient to the hospital. Evaluate shared savings and bundled payment value-based performance models.

NYS DOH survey exposure related to not sending patients to ED; increase in SNF liability due to higher levels of SNF resident acuity. MCC has submitted appropriate regulatory waivers to help mitigate some of this risk. Staff from the Nursing Home Division of the Western Regional Office of the NYS DOH will be engaged to review potential impact on survey process and impact on resident-related care that could result.

Lack of buy-in from medical directorships and resident families. Some providers may resist INTERACT protocols. Inconsistent adoption will impact MCC's ability to provide effective care, negatively impacting DSRIP metrics. Encourage physicians to participate in policy planning. Offer INTERACT educational seminars to physicians and families to make them more comfortable with the process. Work with MCC Practitioner Engagement team to provide additional support for providers who are particularly resistant. Provide opportunities for providers to engage in discussion about the implementation of INTERACT at their facilities.

There is considerable county overlap with two adjacent PPSs in WNY, so hand-offs from one provider to another may cross PPS "lines." Provide a relatively uniform experience for patients regardless of where they receive care. Patient choice and patient satisfaction must remain a high priority. If a patient is handed off to a provider outside the PPS, ideally the patient would not even need to be aware of this crossover. To create a seamless transition for patients, PPSs will agree to share registry information, use standardized referral protocols, utilize uniform tracking and reporting systems, and maintain common messaging to educate patients.

INTERACT project consumes a disproportionate amount of limited staff resources which are not reimbursed by payers. PPS formulating plan to provide incentive payments to INTERACT participants to offset costs of program implementation. Organize periodic ongoing in-service training for

✔ IPQR Module 2.b.vii.2 - Patient Engagement Speed

Instructions :

Enter the number of patients actively engaged through the current quarter. The number entered into the "Quarterly Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for Q4 should include patients previously reported in Q3 plus new patients engaged in Q4. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

Implement INTERACT at each participating SNF, demonstrated by active use of the INTERACT 3.0 toolkit and other resources available at http://interact2.net .	
Identify a facility champion who will engage other staff and serve as a coach and leader of INTERACT program.	
Implement care pathways and other clinical tools for monitoring chronically ill patients, with the goal of early identification of potential instability and intervention to avoid hospital transfer.	
Educate all staff on care pathways and INTERACT principles.	
Implement Advance Care Planning tools to assist residents and families in expressing and documenting their wishes for near end of life and end of life care.	
Create coaching program to facilitate and support implementation.	
Educate patient and family/caretakers, to facilitate participation in planning of care.	
Establish enhanced communication with acute care hospitals, preferably with EHR and HIE connectivity.	
Measure outcomes (including quality assessment/root cause analysis of transfer) in order to identify additional interventions.	
Use EHRs and other technical platforms to track all patients engaged in the project.

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

Project 2.b.viii – Hospital-Home Care Collaboration Solutions

✔ IPQR Module 2.b.viii.1 - Major Risks to Implementation and Mitigation Strategies

Instructions :

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

In order for a patient who presents to an emergency department (ED) to safely transition back into the community and avoid a hospital admission, a physician-ordered plan of care needs to be established. ED/hospital physicians may be reluctant to sign orders to initiate the community-based plan of care for patients without a PCP. Link patients to a PCP who will assume responsibility of managing patient collaboratively with community-based resources. Educate ED/hospital physicians regarding their temporary role of initiating orders and care management until patient is linked with a PCP. Identify need for PCP linkage at ED intake.

Changing the ED utilization culture will be challenging. ED physicians do not feel confident that redirecting patient to a community-based plan of care will be safe or effective. Conduct outreach and advertising in the community to educate on the alternatives to ED visits. Educate ED/hospital physicians and staff on capabilities of community providers. Communicate expected timeliness to initiate treatment. Describe expectations for follow-up and ongoing communication between the provider and the physician.

Lack of community hospital admission avoidance process. Develop a rapid response team that initiates the hospital diversion process and implements a plan of care to safely address needs in the home to avoid an unnecessary hospitalization.

Insurance considerations become an operational challenge due to the time-of-day and urgency of delivering skilled services; insurances may not be readily accessible to grant prior authorization for the ordered services, which could lead to financial liability for the patient and providers. Work with payers to develop reimbursement authorization procedures and drug coverage protocols that will ensure the best possible outcomes for stakeholders.

Medications and medical equipment may not be dispensed soon enough to accommodate a change in treatment plan for the home care patient. Establish procedures that address "first-dose" accommodations at the facility where the patient presents. This will allow for adequate preparation of complex services that will be subsequently provided in the patient's home. Work with payers to develop protocols for medication/DME authorization.

Patients in rural areas have difficulty accessing their PCPs; due to lack of periodic monitoring and medical intervention of chronic conditions, rural patients may be prone to utilize the ED. Utilize tele-monitoring programs to remotely allow for patient/provider interaction. Establish regional triage satellites.

Willingness of PCP to maintain a patient in the home setting through use of home care during a change in condition is largest barrier to home care intervention opportunity. Many PCPs do not have the risk tolerance or ability to communicate effectively with home care agencies to change treatment protocol and monitor patients to prevent ED visit or hospitalization. Without PCP buy-in, home care agencies are unable to effectively maintain patients in the community.

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

Grand scale implementation of this project can lead to failure and a loss of confidence in the home care/hospital collaboration process. Maintain consistent performance throughout the project to gain buy-in and communicate that the initiatives are safe, efficient, and patient-centric. Roll out the project in well-defined steps. Evaluate the processes' effectiveness regularly. Encourage participation from multiple providers.

Millennium Collaborative Care (PPS ID:48)

✔ IPQR Module 2.b.viii.2 - Patient Engagement Speed

Instructions :

Enter the number of patients actively engaged through the current quarter. The number entered into the "Quarterly Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for Q4 should include patients previously reported in Q3 plus new patients engaged in Q4. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

Benchmarks

medicine and chronic care management.	
Develop care pathways and other clinical tools for monitoring chronically ill patients, with the goal of early identification of potential instability and intervention to avoid hospital transfer.	
Educate all staff on care pathways and INTERACT-like principles.	
Develop Advance Care Planning tools to assist residents and families in expressing and documenting their wishes for near end of life and end of life care.	
Create coaching program to facilitate and support implementation.	
Educate patient and family/caretakers, to facilitate participation in planning of care.	
Integrate primary care, behavioral health, pharmacy, and other services into the model in order to enhance coordination of care and medication management.	
Utilize telehealth/telemedicine to enhance hospital-home care collaborations.	
Utilize interoperable EHR to enhance communication and avoid medication errors and/or duplicative services.	
Measure outcomes (including quality assessment/root cause analysis of transfer) in order to identify additional interventions.	
Use EHRs and other technical platforms to track all patients engaged in the project.

Project 2.d.i – Implementation of Patient Activation Activities to Engage, Educate and Integrate the uninsured and low/non-utilizing Medicaid populations into Community Based Care

✓ IPQR Module 2.d.i.1 - Major Risks to Implementation and Mitigation Strategies

Instructions :

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

Patient activation efforts do not account for cultural and linguistic diversity and health literacy needs of the region. Beneficiary may not be willing to provide baseline information or participate in reassessments. Create cross-cultural, multilingual training team to provide IT support and training where CBOs and their teams are located. Provide cultural competency and health literacy training to CBOs, utilize "train the trainer" techniques, and include key staff. Design communication materials that are effective for their intended audiences. Equip CBOs and community health workers (CHWs) with culturally sensitive engagement tools, including understandable health education materials to encourage participation in the PAM survey. CHWs must create a trusting, working relationship to facilitate and encourage reassessment at prescribed intervals.

There is considerable county overlap with two adjacent PPSs in WNY. It will be important to provide a relatively uniform/transparent experience for patients regardless of where they seek care. MCC will work with area PPSs to coordinate logistics including registry information, standardized referral protocols, uniform tracking and reporting systems, universal alert messaging via the RHIO, and common messaging to educate patients about patient activation. Facilitate relationship between CBOs contracted to provide PAM in counties that overlap with an adjacent PPS to streamline efforts.

Medicaid managed care organizations (MMCOs) may be reluctant to disclose data about non-utilizing (NU) beneficiaries. Develop memoranda of understanding with MMCOs addressing privacy, security, and consent related to acquiring NU member data. Facilitate relationship between MMCOs and CBOs contracted to provide PAM so MMCOs and CBOs can enter into BAAs to acquire NU member data.

Lack of up-to-date patient information coupled with transient nature of NU population makes it difficult to locate and reconnect this population to PCPs. Engage efforts with community partners in navigation while creating useful tools that provide community-oriented lists of PCPs with capacity to take new patients. Help cross-reference MMCO data against a variety of databases to obtain current contact information.

NUs remain dissatisfied with their current PCP or MMCO, which accounts for disengagement. Provide training how beneficiaries can appropriately change their provider.

Complaints and grievances about project and other service components of the PPS, when not addressed and resolved, lead to consumer dissatisfaction. Create process to handle complaints quickly and effectively. Convene "Voice of the Consumer" Sub-Committee as patient advocacy team and to ensure representation from a broad range of culturally diverse patients.

Lack of common EHR and IT system to manage and track patients and provide assessment and feedback to PCPs and MMCOs. Develop common EHR and IT system for sharing of data, communication, and feedback. Organize user groups to discuss issues and share lessons learned. Periodically assess tools to determine consistency and effectiveness; provide follow-up training as needed.

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

A reduction of the number of uninsured (UI), resulting from efforts by the NYSDOH to provide insurance for residents of NYS, reduces the number of UI lives attributed to MCC. Increase our efforts to reach NU and low-utilizing (LU) members through collaborating with social services, prison systems, and CBOs located or focused in hotspots.

There is a skewing of PAM levels as a result of PAM implementation, which may result in lack of improvement in scores. Implement retraining in person and electronically, create super users (experts) through intensive training provided by Insignia, and monitor activities of coaches and CBOs using Flourish system to identify patterns and create individualized remedies based on site investigations.

Millennium Collaborative Care (PPS ID:48)

✔ IPQR Module 2.d.i.2 - Patient Engagement Speed

Instructions :

Enter the number of patients actively engaged through the current quarter. The number entered into the "Quarterly Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for Q4 should include patients previously reported in Q3 plus new patients engaged in Q4. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

Benchmarks	
Actively Engaged Speed	Actively Engaged Scale
DY4,Q4	81,000

	Year,Quarter	DY2,Q1	DY2,Q2	DY2,Q3	DY2,Q4
PPS Reported	Baseline Commitment	4,000	8,000	18,000	28,500
	Quarterly Update	6,913	12,757	12,757	0
	Percent(%) of Commitment	172.82%	159.46%	70.87%	0.00%

✔ IPQR Module 2.d.i.3 - Prescribed Milestones

Instructions :

Please provide updates to baseline reporting on status, target dates, and work breakdown tasks for prescribed milestones. For milestones that are due and completed within the reporting period, documentation is required to provide evidence of project requirement achievement. Any explanations regarding altered or missed provider commitments should be included within the narrative box, not as text within uploaded documentation.

Project Requirements (Milestone/Task Name)	Prescribed Due Date	Reporting Level	Provider Type	Status	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
Milestone #1 Contract or partner with community-based organizations (CBOs) to engage target populations using PAM(R) and other patient activation techniques. The PPS must provide oversight and ensure that engagement is sufficient and appropriate.	DY2 Q4	Project	N/A	In Progress	05/28/2015	03/31/2017	05/28/2015	03/31/2017	03/31/2017	DY2 Q4
Task Partnerships with CBOs to assist in patient "hot-spotting" and engagement efforts as evidenced by MOUs, contracts, letters of agreement or other partnership documentation.		Project		In Progress	05/28/2015	03/31/2017	05/28/2015	03/31/2017	03/31/2017	DY2 Q4
Task 1. Launch community awareness and communication regarding DSRIP. Identify key areas in the north, south, and central areas to hold community forums to bring awareness to DSRIP. Hold community forums throughout the eight counties to provide community education regarding DSRIP.		Project		Completed	05/28/2015	08/31/2015	05/28/2015	08/31/2015	09/30/2015	DY1 Q2
Task 2. Work with CBO Task Force to provide outreach and education regarding DSRIP.		Project		Completed	05/28/2015	08/31/2015	05/28/2015	08/31/2015	09/30/2015	DY1 Q2
Task 3. Create CBO Implementation Plan.		Project		Completed	07/13/2015	08/31/2015	07/13/2015	08/31/2015	09/30/2015	DY1 Q2
Task 4. Select CBOs to serve as PAM vendor(s) via RFQ/RFP process.		Project		Completed	05/28/2015	08/31/2015	05/28/2015	08/31/2015	09/30/2015	DY1 Q2
Task 5. Develop materials to support PAM vendors including patient-level reporting tool; train vendors on use of materials/tools.		Project		Completed	07/20/2015	08/31/2015	07/20/2015	08/31/2015	09/30/2015	DY1 Q2
Task 6. Host first quarterly meeting with "Voice of the Consumer" Sub-Committee and MCC/PPS team.		Project		Completed	05/28/2015	06/30/2015	05/28/2015	06/30/2015	06/30/2015	DY1 Q1
Task 7. Develop and execute contracts with CBOs.		Project		Completed	07/15/2015	10/30/2015	07/15/2015	10/30/2015	12/31/2015	DY1 Q3
Task 8. Develop reporting requirements and metrics for each CBO. Continue to monitor metrics throughout project.		Project		Completed	08/14/2015	09/30/2015	08/14/2015	09/30/2015	09/30/2015	DY1 Q2

Milestone Name	Narrative Text
Contract or partner with community-based organizations (CBOs) to engage target populations using PAM(R) and other patient activation techniques. The PPS must provide oversight and ensure that engagement is sufficient and appropriate.	
Establish a PPS-wide training team, comprised of members with training in PAM(R) and expertise in patient activation and engagement.	
Identify UI, NU, and LU "hot spot" areas (e.g., emergency rooms). Contract or partner with CBOs to perform outreach within the identified "hot spot" areas.	
Survey the targeted population about healthcare needs in the PPS' region.	
Train providers located within "hot spots" on patient activation techniques, such as shared decision-making, measurements of health literacy, and cultural competency.	
Obtain list of PCPs assigned to NU and LU enrollees from MCOs. Along with the member's MCO and assigned PCP, reconnect beneficiaries to his/her designated PCP (see outcome measurements in #10). • This patient activation project should not be used as a mechanism to inappropriately move members to different health plans and PCPs, but

Milestone Name	Narrative Text
Increase the volume of non-emergent (primary, behavioral, dental) care provided to UI, NU, and LU persons.	
Contract or partner with CBOs to develop a group of community navigators who are trained in connectivity to healthcare coverage, community healthcare resources (including for primary and preventive services) and patient education.	
Develop a process for Medicaid recipients and project participants to report complaints and receive customer service.	
Train community navigators in patient activation and education, including how to appropriately assist project beneficiaries using the PAM(R).	
Ensure direct hand-offs to navigators who are prominently placed at "hot spots," partnered CBOs, emergency departments, or community events, so as to facilitate education regarding health insurance coverage, age-appropriate primary and preventive healthcare services and resources.	
Inform and educate navigators about insurance options and healthcare resources available to UI, NU, and LU populations.	
Ensure appropriate and timely access for navigators when attempting to establish primary and preventive services for a community member.	
Perform population health management by actively using EHRs and other IT platforms, including use of targeted patient registries, to track all patients engaged in the project.

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

Project 3.a.i – Integration of primary care and behavioral health services

✔ IPQR Module 3.a.i.1 - Major Risks to Implementation and Mitigation Strategies

Instructions :

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

One primary challenge to embedding BH specialists into safety net PC practices and PC into BH sites is financial. MCC will help ease this financial burden in primary care offices (Model 1) by assisting with obtaining PCMH Level 3, 2014 status. MCC hired an outside vendor to complete PCMH assessments and develop remediation plans for our PC partner sites. MCC then hired practice transformation specialists who will engage partners and assist with achieving PCMH Level 3 2014 status, which includes BH integration, through training and support.

MCC transformation specialists will also provide instruction on how to properly bill for services while ensuring adequate funding is in place to support outcomes. If necessary, the PPS will explore satellite MH/CD clinics embedded in PC practices so both Medicaid and commercial insurance can be billed, or an enhanced rapid access referral process from PMC to BH clinics will be implemented. Through its value-based payment (VBP) transition plan, MCC will prioritize planning/execution of agreements to ensure that integration of PC and BH services does not simply become co-location.

Staff turnover and shortages are common concerns, especially among psychiatrists and licensed therapists/social workers. MCC will provide technical assistance and training, and explore the use of telemedicine to stretch available resources. Failure to build bridges with area colleges could result in longer-term gaps in availability of BH professionals. MCC's workforce development plan will incorporate short- and long-term strategies to fill gaps.

Limited access to psychiatric services in our region hinder the ability of providers to acquire consultations/medication recommendations for patients in need of services. BH organizations, private practice psychiatry, and PC practices will meet to discuss telemedicine services to fulfill this need. If telemedicine is not feasible, agreements for phone consultations, rapid access referrals, and exchange of information through EMR and the RHIO will be established.

Regulatory barriers may restrict or prohibit provision of PC services within BH settings and vice versa. MCC will review basic requirements and identify regulations that need to be changed so services can be offered in a shared setting and remain reimbursable.

BH clients not connected to PC may be reluctant, therefore MCC will offer trainings in motivational interviewing, patient activation measures, and person-centered approach to ensure client engagement.

Exchange of information across physical and mental health disciplines is lacking. MCC will work with partners to incorporate a multidisciplinary approach to case conferences sessions, warm hand-offs, and other strategies. This coordinated approach is necessary to address the high-risk BH population, and will help provide a uniform experience for patients regardless of where they receive care. Close coordination with bordering PPSs will include standardized referral protocols, uniform tracking/reporting systems, universal alert messaging via HEALTHeLINK, common messaging, and sharing of lessons learned.

Protocols for integrated service delivery/reporting may differ from one PPS to another. Millennium will work with bordering PPSs to institute policies

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

for identifying PCPs participating in more than one PPS and standardize protocols for consistent reporting. True service integration depends on integration of client records so providers take a holistic approach to client care. MCC's IT program will develop interim plans to achieve this standard.

Laboratory collection services may not be available onsite at PC offices, requiring clients to be referred for testing. MCC will explore opportunities for incorporating lab testing and educational materials at participating sites.

Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

✔ IPQR Module 3.a.i.2 - Patient Engagement Speed

Instructions :

Enter the number of patients actively engaged through the current quarter. The number entered into the "Quarterly Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for Q4 should include patients previously reported in Q3 plus new patients engaged in Q4. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

Benchmarks

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

Project 3.a.ii – Behavioral health community crisis stabilization services

✔ IPQR Module 3.a.ii.1 - Major Risks to Implementation and Mitigation Strategies

Instructions :

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

Resistance to change or failure to adopt consistent clinical guidelines will negatively impact DSRIP shared outcome metrics. A clinical readiness needs assessment for each participating provider will be completed. Joint efforts to ensure inclusivity, transparency, evidence-based justification, and other consensus-building techniques to maximize practitioner buy-in and ownership. Provider performance and compliance with standards will be monitored by the Physician Performance Sub-Committee (as described in project 2.a.i.), and the PPS will work with providers with low performance scores to address the gaps.

Crisis intervention resources are inconsistent and poorly understood across WNY. Additionally, first responders typically respond to behavioral health calls by transporting individuals to the ED, often resulting in an unnecessary ED visit and/or admission. MCC will lead a cross-organizational work group to assess and evaluate efforts aimed at consistent goals and outcomes. Collaborative efforts and leveraging of services towards modeling a crisis intervention team approach will assist law enforcement and providers to direct the care needed. Consideration for outreach capabilities to consult with psychiatrists/medical provider prior to taking action and sending a patient to the hospital.

Lack of established central triage system/model that will serve all eight WNY counties. One mitigation strategy would be to identify one provider as the central triage service for this model. Another possibility is for all crisis centers for designated counties to collaboratively develop a central triage tool that will be implemented to provide consistent response to crisis stabilization. Once developed, all behavioral health providers in the respective counties will be trained on the behavioral health triage system to utilize crisis/emergency services effectively. Create triage tool for project use.

The lack of respite services and emergency housing in WNY could impede the effectiveness of the crisis stabilization project. Utilization of these services are a key component to avoiding unnecessary and costly hospital services. Partner with existing housing and care agencies to expand services to help establish options.

Crisis stabilization services require a high level of service and are not consistently reimbursed by Medicaid managed care organizations. Collaborate with payers on payment structures, reporting practices, and metrics. Evaluate billing options based on regulations. Assist in translation to providers to assure clarity in procedures.

There is a shortage of behavioral health specialists and services in WNY. Work with area colleges and universities to determine how many students are in the pipeline, review curriculum options, discuss expanding clinical training opportunities, and encourage behavioral health-related internships. Assist in placement students/interns/fellows enhancing the pool of available and qualified personnel. With an expanded pool of providers much needed services can also be expanded.

Due to compatibility and regulatory issues, EHR systems may be difficult to use. Map existing EHR options and points in the crisis stabilization model where information sharing fails. Evaluate options to help eliminate the gap and/or develop compliant options for proper hand-off of information. Establish consistent mechanism for communication and guidance tools.

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

It will be important to provide a relatively uniform/transparent experience for patients regardless of where they seek care. MCC will work with Finger Lake PPS and Community Partners of WNY (led by Catholic Medical Partners) to share registry information, use standardized referral protocols, utilize uniform tracking and reporting systems, adopt universal alert messaging via the RHIO, and maintain common messaging to educate patients about crisis stabilization servi

✔ IPQR Module 3.a.ii.2 - Patient Engagement Speed

Instructions :

Enter the number of patients actively engaged through the current quarter. The number entered into the "Quarterly Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for Q4 should include patients previously reported in Q3 plus new patients engaged in Q4. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

Benchmarks

Milestone Name	Narrative Text
Implement a crisis intervention program that, at a minimum, includes outreach, mobile crisis, and intensive crisis services.	
Establish clear linkages with Health Homes, ER and hospital services to develop and implement protocols for diversion of patients from emergency room and inpatient services.	
Establish agreements with the Medicaid Managed Care organizations serving the affected population to provide coverage for the service array under this project.	
Develop written treatment protocols with consensus from participating providers and facilities.	
Include at least one hospital with specialty psychiatric services and crisis-oriented psychiatric services; expansion of access to specialty psychiatric and crisis-oriented services.	
Expand access to observation unit within hospital outpatient or at an off campus crisis residence for stabilization monitoring services (up to 48 hours).	
Deploy mobile crisis team(s) to provide crisis stabilization services using evidence-based protocols developed by medical staff.	Additional time is required to complete this milestone.
Ensure that all PPS safety net providers have actively connected EHR systems with local health information exchange/RHIO/SHIN-NY and share health information among clinical partners, including direct exchange (secure messaging), alerts and patient record look up by the end of Demonstration Year (DY) 3.	
Establish central triage service with agreements among participating psychiatrists, mental health, behavioral health, and substance abuse providers.

IPQR Module 3.a.ii.5 - IA Monitoring

Instructions :

New York State Department Of Health Delivery System Reform Incentive Payment Project

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

Project 3.b.i – Evidence-based strategies for disease management in high risk/affected populations (adult only)

✔ IPQR Module 3.b.i.1 - Major Risks to Implementation and Mitigation Strategies

Instructions :

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

Practice transformation requires embedding and reinforcing Million Hearts (MH) Program deliverables, trainings, workflows, protocols, and patient engagement reporting in primary care sites. Millennium is using a team of practice engagement specialists for academic detailing and to implement project deliverables. This will be discussed by practice engagement specialists when meeting our primary care sites.

Existing and new guidelines with differing recommendations has led to confusion among practitioners. Best practice recommendations, based on national guidelines and standards of care to manage chronic conditions, will be reviewed and vetted in collaboration with the CVD Best Practice Sub-committee. These best practices will also be shared with the Physician Steering Committee and communicated to providers at meetings and educational sessions on the website. Training is a core part of the care team reorientation.

A comprehensive training initiative will be required within primary care sites. Collaborative learning models and content will be communicated through meetings and written documents, and embedded in the medical decision support systems of regional EHRs. Longer-term, participation will improve provider reimbursement rates via specific programs such as Meaningful Use of EHR and PCMH. A functional database of network partners is being developed to track PCMH accreditation and Meaningful Use certification. To meet program deliverables related to patient engagement, participating primary care sites use electronic health registries and a secure file transfer process to record, analyze, and report on clinical data on a quarterly basis.

Sharing data and improving transitions of care between settings will be key to reducing avoidable hospitalizations and ED visits. Clinical integration of multiple data sources (e.g., labs) will be critical to managing "ABCs" metrics for blood pressure and cholesterol control. Through project 2.a.i, the PPS is collaborating with HEALTHeLINK to lead connectivity, enhanced communication, and care management data-sharing among primary care and cardiovascular specialists, mental health, health homes, and community support agencies.

It may be difficult for some providers to accept and use blood pressure data generated at home. Policies around home blood pressure monitoring will be included for monitoring care outside the clinical setting, per Medicaid regulations.

Sustained progress in cardiovascular health requires a campaign to change deeply ingrained beliefs and behaviors in providers and patients. Millennium is working closely with practices to develop referral tools and access to health and wellness workshops, critical to addressing lifestyle behaviors (e.g., smoking, physical activity, and nutrition). Social determinants of health play a major role in determining one's risk for developing CVD and are very prevalent in WNY. There are efforts underway to address health disparities through the community-based MH screening program.

Close coordination with bordering PPS Community Partners of WNY (CPWNY) will be necessary to address CVD in the Medicaid target population. To avoid conflicting or inconsistent messages regarding CVD and risk factor management, PPSs will use materials developed by and made available through the MH Program. Following MH protocols will further ensure that patients encounter a comparable experience regardless

Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

of where they seek care. The PPS will also work closely with the DOH's medical record review partners to collect medical records for performance measure reporting. Some data collection sites may occur outside of the PPS provider network based on patient attribution. Representatives from MCC will meet regularly with CPWNY to coordinate timing of messaging, address issues, and share lessons learned.

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

✔ IPQR Module 3.b.i.2 - Patient Engagement Speed

Instructions :

Enter the number of patients actively engaged through the current quarter. The number entered into the "Quarterly Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for Q4 should include patients previously reported in Q3 plus new patients engaged in Q4. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

✓ IPQR Module 3.b.i.3 - Prescribed Milestones

Instructions :

Please provide updates to baseline reporting on status, target dates, and work breakdown tasks for prescribed milestones. For milestones that are due and completed within the reporting period, documentation is required to provide evidence of project requirement achievement. Any explanations regarding altered or missed provider commitments should be included within the narrative box, not as text within uploaded documentation.

Project Requirements (Milestone/Task Name)	Prescribed Due Date	Reporting Level	Provider Type	Status	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
Milestone #1 Implement program to improve management of cardiovascular disease using evidence-based strategies in the ambulatory and community care setting.	DY3 Q4	Project	N/A	In Progress	08/03/2015	09/30/2017	08/03/2015	09/30/2017	09/30/2017	DY3 Q2
Task PPS has implemented program to improve management of cardiovascular disease using evidence-based strategies in the ambulatory and community care setting.		Project		In Progress	08/03/2015	09/30/2017	08/03/2015	09/30/2017	09/30/2017	DY3 Q2
Task 1. Develop comprehensive MCC partner database for MCC partners included in the management of CVD. Partner database will categorize partners by provider type (including ambulatory care or community care partner) and demonstrate changes to the network list.		Project		Completed	08/03/2015	09/30/2016	08/03/2015	09/30/2016	09/30/2016	DY2 Q2
Task 2. Collect appropriate clinical tools necessary for the different goals of the Million Hearts Program (MHP): blood pressure guidelines, cholesterol management guidelines, and the tools for smoking cessation.		Project		In Progress	08/03/2015	03/31/2017	08/03/2015	03/31/2017	03/31/2017	DY2 Q4
Task 3. Disseminate written evidence-based treatment protocols for managing CVD using the techniques and resources provided on the Million Hearts Campaign program website.		Project		In Progress	01/01/2016	03/31/2017	01/01/2016	03/31/2017	03/31/2017	DY2 Q4
Task 4. Define priority target population, and develop a framework for patient database to include risk stratified registries and blood pressure measurements.		Project		In Progress	09/02/2015	03/31/2017	09/02/2015	03/31/2017	03/31/2017	DY2 Q4
Task 5. Identify pilot PCP sites to implement MHP.		Project		Completed	09/01/2015	12/31/2015	09/01/2015	12/31/2015	12/31/2015	DY1 Q3
Task 6. Meet with each practice site on identified list.		Project		In Progress	01/01/2016	12/31/2016	01/01/2016	03/31/2017	03/31/2017	DY2 Q4
Task 7. List all PCP sites that plan on using Million Hearts registries and work on process flows at each PCP site to manage CVD		Project		In Progress	01/01/2016	12/31/2016	01/01/2016	03/31/2017	03/31/2017	DY2 Q4

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

Project Requirements (Milestone/Task Name)	Prescribed Due Date	Reporting Level	Provider Type	Status	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
population using Million Hearts criteria.										
Task 8. Develop process and identify vendor for patient registry/database development. Vendor to interface with data points available through the regional RHIO (HEALTHeLINK) to integrate information from disparate EHRs from primary care offices.		Project		Completed	04/01/2016	06/30/2016	04/01/2016	06/30/2016	06/30/2016	DY2 Q1
Task 9. Pilot test patient database to integrate EHR data points from a variety of Primary Care offices relevant to risk stratification, blood pressure, and cardiovascular medications.		Project		In Progress	10/01/2016	03/31/2017	10/01/2016	03/31/2017	03/31/2017	DY2 Q4
Task 10. Track and monitor patient engagement at each PCP practice site and build quarterly performance metrics related to the four program areas in Million Hearts to verify continuous improvement.		Project		In Progress	10/01/2016	03/31/2017	10/01/2016	03/31/2017	03/31/2017	DY2 Q4
Task 11. Begin reporting on implementation of project requirements quarterly according to project milestone reporting requirements.		Project		In Progress	01/01/2016	09/30/2017	01/01/2016	09/30/2017	09/30/2017	DY3 Q2
Milestone #2 Ensure that all PPS safety net providers are actively connected to EHR systems with local health information exchange/RHIO/SHIN-NY and share health information among clinical partners, including direct exchange (secure messaging), alerts and patient record look up, by the end of DY 3.	DY3 Q4	Project	N/A	In Progress	08/03/2015	03/31/2018	08/03/2015	03/31/2018	03/31/2018	DY3 Q4
Task EHR meets connectivity to RHIO's HIE and SHIN-NY requirements.		Provider	Safety Net Practitioner - Primary Care Provider (PCP)	In Progress	08/03/2015	03/31/2018	08/03/2015	03/31/2018	03/31/2018	DY3 Q4
Task EHR meets connectivity to RHIO's HIE and SHIN-NY requirements.		Provider	Safety Net Practitioner - Non-Primary Care Provider (PCP)	In Progress	08/03/2015	03/31/2018	08/03/2015	03/31/2018	03/31/2018	DY3 Q4
Task EHR meets connectivity to RHIO's HIE and SHIN-NY requirements.		Provider	Safety Net Mental Health	In Progress	08/03/2015	03/31/2018	08/03/2015	03/31/2018	03/31/2018	DY3 Q4
Task PPS uses alerts and secure messaging functionality.		Project		In Progress	08/03/2015	03/31/2018	08/03/2015	03/31/2018	03/31/2018	DY3 Q4
Task 1. Conduct gap analysis to determine which providers have already completed PCMH/MU or other connectivity readiness assessment. Include the following questions: Is the practice/providers/patients currently connected to the HIE?		Project		Completed	08/03/2015	12/31/2016	08/03/2015	12/31/2016	12/31/2016	DY2 Q3

Project Requirements (Milestone/Task Name)	Prescribed Due Date	Reporting Level	Provider Type	Status	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
If not, is an agreement in place? If so, what is the scope of the connectivity (% of providers; % of patients)? Does EHR meet connectivity requirements of RHIO/SHIN-NY? Name of EHR, version, and electronic functionalities in use										
Task 2. Develop strategy for low-cost data connectivity between ISPs (e.g., WNY R-AHEC) and local practice plans to determine minimum hardware and software requirements.		Project		In Progress	09/07/2015	12/31/2016	09/07/2015	03/31/2017	03/31/2017	DY2 Q4
Task 3. Gather results from readiness assessments already conducted.		Project		Completed	09/07/2015	09/30/2016	09/07/2015	09/30/2016	09/30/2016	DY2 Q2
Task 4. Issue request for applications (RFA) or other action step for readiness assessment and transformation support services.		Project		In Progress	10/05/2015	12/30/2016	10/05/2015	03/31/2017	03/31/2017	DY2 Q4
Task 5. Select vendor or implement other structure for readiness assessment and transformation support services.		Project		Completed	07/01/2016	09/30/2016	07/01/2016	09/30/2016	09/30/2016	DY2 Q2
Task 6. Identify funding model and/or PPS provider incentive model for EHR with the Finance Committee.		Project		In Progress	07/01/2016	03/31/2017	07/01/2016	03/31/2017	03/31/2017	DY2 Q4
Task 7. Connect PPS providers to MCC enterprise DSRIP solution.		Project		Not Started	10/03/2016	06/30/2017	01/02/2017	06/30/2017	06/30/2017	DY3 Q1
Task 8. Implement enterprise DSRIP solution and start data exchange.		Project		Not Started	01/01/2017	06/30/2017	01/01/2017	06/30/2017	06/30/2017	DY3 Q1
Task 9. Implement PPS providers in waves grouped by the partner's ability to connect and integrate into the solution; start with the most able to connect; add others as they establish their capabilities.		Project		Not Started	01/01/2017	06/30/2017	01/01/2017	06/30/2017	06/30/2017	DY3 Q1
Task 10. Systematically contact PPS providers to provide the recommended enterprise DSRIP solution.		Project		Not Started	01/02/2017	06/30/2017	01/02/2017	06/30/2017	06/30/2017	DY3 Q1
Task 11. Facilitate QE participation agreements with MCC providers.		Project		In Progress	04/01/2016	09/30/2017	04/01/2016	09/30/2017	09/30/2017	DY3 Q2
Task 12. Implement and deploy patient record look-up training.		Project		Not Started	09/04/2017	12/31/2017	09/04/2017	12/31/2017	12/31/2017	DY3 Q3
Task 13. Implement and deploy MCC DSRIP dashboard reporting capabilities. Provide EHR vendor documentation, screenshots, and/or samples of transactions to public health registries.		Project		Not Started	09/04/2017	12/31/2017	09/04/2017	12/31/2017	12/31/2017	DY3 Q3

Millennium Collaborative Care (PPS ID:48)

Project Requirements (Milestone/Task Name)	Prescribed Due Date	Reporting Level	Provider Type	Status	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
Designate experts at each PCP site for ongoing support.										
Task 14. Implement and deploy alerts. Provide EHR vendor documentation, screenshots, and/or evidence of use of alerts.		Project		Not Started	10/02/2017	12/31/2017	10/02/2017	12/31/2017	12/31/2017	DY3 Q3
Task 15. Implement and deploy secure Direct messaging. Provide EHR vendor documentation, screenshots, and/or evidence of use of secure Direct messaging.		Project		Not Started	10/02/2017	12/31/2017	10/02/2017	12/31/2017	12/31/2017	DY3 Q3
Task 16. Continuously add MCC providers when their EHR and data exchange capabilities reach the minimal level required to connect to the MCC EHR and data exchange/HIE.		Project		In Progress	01/01/2016	09/30/2017	01/01/2016	09/30/2017	09/30/2017	DY3 Q2
Task 17. Maintain list of all PPS safety net providers with secure Direct messaging capabilities who completed training. Report to Physician Performance Sub-Committee.		Project		On Hold	04/01/2015	03/31/2020	04/01/2015	03/31/2020	03/31/2020	DY5 Q4
Task 18. MCC providers who are not actively exchanging systems will be reviewed by the Physician Performance Sub-Committee. Corrective actions will be implemented for those members found noncompliant.		Project		Not Started	01/01/2017	09/30/2017	01/01/2017	09/30/2017	09/30/2017	DY3 Q2
Milestone #3 Ensure that EHR systems used by participating safety net providers meet Meaningful Use and PCMH Level 3 standards and/or APCM by the end of Demonstration Year 3.	DY3 Q4	Project	N/A	In Progress	08/03/2015	03/31/2018	08/03/2015	03/31/2018	03/31/2018	DY3 Q4
Task EHR meets Meaningful Use Stage 2 CMS requirements (Note: any/all MU requirements adjusted by CMS will be incorporated into the assessment criteria).		Project		In Progress	08/03/2015	03/31/2018	08/03/2015	03/31/2018	03/31/2018	DY3 Q4
Task PPS has achieved NCQA 2014 Level 3 PCMH standards and/or APCM.		Provider	Practitioner - Primary Care Provider (PCP)	In Progress	08/03/2015	03/31/2018	08/03/2015	03/31/2018	03/31/2018	DY3 Q4
Task 1. Conduct Safety Net MU stage 2 CMS/PCMH level 3 readiness assessment: (a) identify site-specific IT/care management leadership, (b) determine current EHR PCMH/MU certification status, and (c) identify site-specific barriers and risks to implementing a MU/PCMH Level 3 certified EHR system.		Project		Completed	10/01/2015	09/30/2016	10/01/2015	09/30/2016	09/30/2016	DY2 Q2
Task 2. Facilitate engagement with MU/PCMH-certified EHR vendors as needed.		Project		In Progress	07/01/2016	03/31/2017	07/01/2016	03/31/2017	03/31/2017	DY2 Q4

Millennium Collaborative Care (PPS ID:48)

Project Requirements (Milestone/Task Name)	Prescribed Due Date	Reporting Level	Provider Type	Status	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
4. Select pilot test sites for Million Hearts implementation of patient engagement registries.										
Task 5. Review Million Hearts program goals and work with PCMH coordinator to get buy-in to implement as a QI program for PCMH accreditation.		Project		Completed	01/01/2016	12/31/2016	01/01/2016	12/31/2016	12/31/2016	DY2 Q3
Task 6. Identify criteria required to develop registry and create patient registries.		Project		In Progress	01/01/2016	03/31/2017	01/01/2016	03/31/2017	03/31/2017	DY2 Q4
Task 7. Work with identified practices on Million Hearts focused clinical criteria on monitoring registries at PCP offices for care coordination outreach (PCMH Standard 4 requirement) and verify engagement.		Project		In Progress	01/01/2016	03/31/2017	01/01/2016	03/31/2017	03/31/2017	DY2 Q4
Task 8. Report on patient engagement and engaged safety net practices according to project milestone reporting requirements.		Project		In Progress	01/01/2016	03/31/2017	01/01/2016	03/31/2017	03/31/2017	DY2 Q4
Task 9. Assess continuous improvement by monitoring clinical quality measures (PCMH Standard 6).		Project		In Progress	01/01/2016	03/31/2017	01/01/2016	03/31/2017	03/31/2017	DY2 Q4
Milestone #5 Use the EHR to prompt providers to complete the 5 A's of tobacco control (Ask, Assess, Advise, Assist, and Arrange).	DY2 Q4	Project	N/A	In Progress	09/01/2015	03/31/2017	09/01/2015	03/31/2017	03/31/2017	DY2 Q4
Task PPS has implemented an automated scheduling system to facilitate tobacco control protocols.		Project		In Progress	09/01/2015	03/31/2017	09/01/2015	03/31/2017	03/31/2017	DY2 Q4
Task PPS provides periodic training to staff to incorporate the use of EHR to prompt the use of 5 A's of tobacco control.		Project		In Progress	09/01/2015	03/31/2017	09/01/2015	03/31/2017	03/31/2017	DY2 Q4
Task 1. Engage NYS Quitline to ensure that resources are available and referral information can be shared with primary care practice staff for referral of patients to community-based smoking cessation resources.		Project		Completed	09/01/2015	12/31/2015	09/01/2015	12/31/2015	12/31/2015	DY1 Q3
Task 2. Develop written training materials, resources, list training dates.		Project		Completed	03/31/2016	12/31/2016	03/31/2016	12/31/2016	12/31/2016	DY2 Q3
Task 3. Work with Quitline team to offer primary care practice staff trainings on available Quitline resources.		Project		Completed	04/01/2016	12/31/2016	04/01/2016	12/31/2016	12/31/2016	DY2 Q3
Task		Project		Completed	04/01/2016	12/31/2016	04/01/2016	12/31/2016	12/31/2016	DY2 Q3

**New York State Department Of Health

DSRIP Implementation Plan Project**

Millennium Collaborative Care (PPS ID:48)

Project Requirements (Milestone/Task Name)	Prescribed Due Date	Reporting Level	Provider Type	Status	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
4. Work with Quitline team to develop training modules for practices (on available patient engagement resources, telephonic motivational coaching, web-based peer coaching, personalized text messaging, and screening for NRT eligibility).										
Task 5. Promote Opt to Quit™ opt-out policy at practices. Promote integration of Tobacco Use screening workflows (including EHR prompt within practice EHRs to automate completion of 5As of Tobacco control).		Project		In Progress	04/01/2016	12/30/2016	04/01/2016	03/31/2017	03/31/2017	DY2 Q4
Task 6. Use EHR to build automated referral processes to facilitate coordination of care and transition through Quitline referrals.		Project		In Progress	04/01/2016	03/31/2017	04/01/2016	03/31/2017	03/31/2017	DY2 Q4
Task 7. Integrate tobacco cessation counseling in PCMH 2014 Level 3 accreditation workflow for managing CVD including assessment and monitoring of tobacco use (PCMH Std 3 includes recording comprehensive health assessment, using data in EB decision support).		Project		In Progress	04/01/2016	03/31/2017	04/01/2016	03/31/2017	03/31/2017	DY2 Q4
Milestone #6 Adopt and follow standardized treatment protocols for hypertension and elevated cholesterol.	DY2 Q4	Project	N/A	In Progress	09/30/2015	03/31/2017	09/30/2015	03/31/2017	03/31/2017	DY2 Q4
Task Practice has adopted treatment protocols aligned with national guidelines, such as the National Cholesterol Education Program (NCEP) or US Preventive Services Task Force (USPSTF).		Project		In Progress	09/30/2015	03/31/2017	09/30/2015	03/31/2017	03/31/2017	DY2 Q4
Task 1. Request an American Heart Association (AHA) Spotlight Series Speaker offering CME/CE and grand rounds presentation on topics related to cardiovascular disease in a hospital setting in collaboration with partner PPS organizations (FLPPS and CPWNY).		Project		On Hold	04/01/2015	03/31/2020	04/01/2015	03/31/2020	03/31/2020	DY5 Q4
Task 2. Define the need to adhere to clinical algorithms in master services agreement (MSA) for all PCPs participating in Domain 3 projects.		Project		Completed	09/30/2015	12/31/2015	09/30/2015	12/31/2015	12/31/2015	DY1 Q3
Task 3. Support MCC PCP partners who have signed MSA by educational detailing to make practices aware of the Million Hearts website resources (patient education web, video tools and printed materials, practice management tools, lifestyle management website resources).		Project		In Progress	01/01/2016	12/30/2016	01/01/2016	03/31/2017	03/31/2017	DY2 Q4

Milestone Name	Narrative Text
Implement program to improve management of cardiovascular disease using evidence-based strategies in the ambulatory and community care setting.	
Ensure that all PPS safety net providers are actively connected to EHR systems with local health information exchange/RHIO/SHIN-NY and share health information among clinical partners, including direct exchange (secure messaging), alerts and patient record look up, by the end of DY 3.	
Ensure that EHR systems used by participating safety net providers meet Meaningful Use and PCMH Level 3 standards and/or APCM by the end of Demonstration Year 3.	
Use EHRs or other technical platforms to track all patients engaged in this project.	
Use the EHR to prompt providers to complete the 5 A's of tobacco control

(Ask, Assess, Advise, Assist, and Arrange).	
Adopt and follow standardized treatment protocols for hypertension and elevated cholesterol.	
Develop care coordination teams including use of nursing staff, pharmacists, dieticians and community health workers to address lifestyle changes, medication adherence, health literacy issues, and patient self-efficacy and confidence in self-management.	
Provide opportunities for follow-up blood pressure checks without a copayment or advanced appointment.	
Ensure that all staff involved in measuring and recording blood pressure are using correct measurement techniques and equipment.	
Identify patients who have repeated elevated blood pressure readings in the medical record but do not have a diagnosis of hypertension and schedule them for a hypertension visit.	
Prescribe once-daily regimens or fixed-dose combination pills when appropriate.	
Document patient driven self-management goals in the medical record and review with patients at each visit.	
Follow up with referrals to community based programs to document participation and behavioral and health status changes.	
Develop and implement protocols for home blood pressure monitoring with follow up support.	
Generate lists of patients with hypertension who have not had a recent visit and schedule a follow up visit.	
Facilitate referrals to NYS Smoker's Quitline.	
Perform additional actions including "hot spotting" strategies in high risk neighborhoods, linkages to Health Homes for the highest risk population, group visits, and implementation of the Stanford Model for chronic diseases.	
Adopt strategies from the Million Hearts Campaign.	
Form agreements with the Medicaid Managed Care organizations serving the affected population to coordinate services under this project.	
Engage a majority (at least 80%) of primary care providers in this project.

Instructions :

New York State Department Of Health Delivery System Reform Incentive Payment Project

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

Project 3.f.i – Increase support programs for maternal & child health (including high risk pregnancies) (Example: Nurse-Family Partnership)

✓ IPQR Module 3.f.i.1 - Major Risks to Implementation and Mitigation Strategies

Instructions :

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

Patient hand-off not always consistent or effective between varying levels of care. Establish clearly defined care transition with training available. Ensure information transfer includes the timely exchange of patient data among all stakeholders.

The lack of centralized information on the status of clients could lead to service duplication or gaps. The MCC IT program will provide for the use of standardized care coordination software to be utilized across DSRIP projects. Selection criteria for this software include ease of use (so as to minimize the amount of time it takes to train a cross-section of workers) and interoperability (improving its applicability to practices). Project timeliness will require a short-term electronic solution that will be developed to track and report on the status of clients. An interim solution is essential since it will pave the way for the use of standard workflows that will be a crucial part of utilizing the software. Participation in the Maternal and Child Health (MCH) project by community-based organizations and other entities will be predicated on their willingness to utilize the prescribed software.

Failure to consistently deploy evidence based techniques associated with MCH (e.g., Healthy Families) will lead to poor outcomes that fall short of targeted metrics. Project team will reach out to regional MCH experts to seek their input on the use of a set of evidence-based techniques that will guide operation of the project both administratively and in the field. Project team members will receive training on evidence-based standards initially and throughout the duration of the project.

Insufficient pool of community health workers (CHWs) to support MCH programs due to large geographical and culturally diverse regions of WNY. Implement strategies identified in MCC's Workforce Strategy Roadmap to recruit CHWs from urban and rural communities throughout WNY that comprise diverse racial and ethnic compositions. Tap the expertise of existing agencies that have a proven track record for training and retaining CHWs in target key geographical areas, including the ability to host training at locations throughout WNY.

State funding for current programs proposed will be pooled in "maternal and infant health block grants" in 2015 NYS budget. Continue to lobby the state to maintain current funding methodologies for MCH programs.

Failure to provide third-party payer reimbursement for MCH CHW services will not sustain the program after the waiver period. Rank value-based payments (VBP) for MCH project as a priority in MCC's VBP Transition plan. As part of this plan, work with local payers to create reimbursement methodologies to support the outreach services provided by CHWs.

MCC and Community Partners of WNY (led by Catholic Medical Partners) will both implement project 3.f.i., utilizing different models (CHW vs. nurse/family partnership). Cooperation in the form of mutual referrals will be necessary to provide comprehensive support across the whole region and ensure patients are matched up with the most appropriate services. If providers are reluctant to refer patients out of network, the effectiveness of the programs could be reduced. To create a seamless transition for patients, MCC will work with our partnering PPSs to standardize processes, tracking mechanisms, and reporting tools while maintaining common messaging to educate/communicate with patients. MCC will work

✔ IPQR Module 3.f.i.2 - Patient Engagement Speed

Instructions :

Enter the number of patients actively engaged through the current quarter. The number entered into the "Quarterly Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for Q4 should include patients previously reported in Q3 plus new patients engaged in Q4. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

Benchmarks	
Actively Engaged Speed	Actively Engaged Scale
DY2,Q4	750

	Year,Quarter	DY2,Q1	DY2,Q2	DY2,Q3	DY2,Q4
PPS Reported	Baseline Commitment	225	563	638	750

Implement an evidence-based home visitation model, such as the Nurse Family Partnership, for pregnant high- risk mothers including high-risk first time mothers.	
Develop a referral system for early identification of women who are or may be at high-risk.	
Establish a quality oversight committee of OB/GYN and primary care providers to monitor quality outcomes and implement new or change activities as appropriate.	
Use EHRs or other IT platforms to track all patients engaged in this project.	
Identify and engage a regional medical center with expertise in management of high-risk pregnancies and infants (must have Level 3 NICU services or Regional Perinatal Center).	
Develop a multidisciplinary team of experts with clinical and social support expertise who will co-manage care of the high-risk mother and infant with local community obstetricians and pediatric providers.	
Develop service MOUs between multidisciplinary team and OB/GYN providers.	
Utilize best evidence care guidelines for management of high risk pregnancies and newborns and implement uniform clinical protocols based upon evidence-based guidelines.	
Ensure that all PPS safety net providers are actively sharing EHR systems or other IT platforms with local health information exchange/RHIO/SHIN-NY and sharing health information among clinical

partners, including direct exchange (secure messaging), alerts and patient record look up, by the end of DY 3.	
Ensure that EHR systems or other IT platforms used by participating safety net providers meet Meaningful Use and PCMH Level 3 standards and/or APCM by the end of Demonstration Year 3.	
Use EHRs or other IT platforms to track all patients engaged in this project.	
Develop a Community Health Worker (CHW) program on the model of the Maternal and Infant Community Health Collaboratives (MICHC) program; access NYSDOH-funded CHW training program.	
Employ a Community Health Worker Coordinator responsible for supervision of 4 - 6 community health workers. Duties and qualifications are per NYS DOH criteria.	
Employ qualified candidates for Community Health Workers who meet criteria such as cultural competence, communication, and appropriate experience and training.	
Establish protocols for deployment of CHW.	
Coordinate with the Medicaid Managed Care organizations serving the target population.	
Use EHRs or other IT platforms to track all patients engaged in this project.

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

Project 4.a.i – Promote mental, emotional and behavioral (MEB) well-being in communities

✓ IPQR Module 4.a.i.1 - Major Risks to Implementation and Mitigation Strategies

Instructions :

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

Mental, emotional, and behavioral (MEB) well-being media campaign fails to attain awareness levels among target audiences. Provide evidence-based (Substance Abuse and Mental Health Services Administration-approved) programs at targeted locations. Work with health literacy subject matter experts to develop programs that reflect cultural health literacy issues of target audiences. Test/pilot campaigns with focus groups to ensure effectiveness and appropriateness across various cultures, languages, socioeconomic, and geographic subgroups. Align with experts in public relations and marketing fields. Collaborate with established social science evaluators and website analytics experts to gather baseline data. Assess effectiveness of media campaign quarterly.

Programs are not age and/or culturally appropriate. Test/pilot programs with focus groups to gauge appropriateness. Provide cultural diversity and health literacy training to staff involved with the MEB well-being project. Leverage training and other activities that are part of project 2.d.i. (Patient Activation). Develop/facilitate initial training and provide ongoing training opportunities to staff at least quarterly. MEB well-being project leaders will meet routinely with members of the "Voice of the Consumer" Sub-Committee and CBO Task Force to obtain insights on what services will best meet the needs of those in specific community settings.

School-based MEB disorder prevention programs do not meet the projected level of engagement of clients and provide fewer than anticipated levels of referrals due to scheduling or engagement conflicts. Phase in programs over multiple years to lessen the risks of not reaching target audiences in educational settings. If school-based program schedules do not allow for engagement, target nearby community-based locations for programming, including after-school programs, YMCA recreational activities, sports programs, community centers, etc.

MEB health programs and services are duplicated by other agencies. Meet with Mental Health Association, ECCPASA, health plans, and other organizations to present details of the MEB well-being strategy, share information on targeted audiences, and explain messaging. The aim of sharing information on programs and targeted audiences will be to devise a comprehensive program that eliminates the possibility of service duplication and maximizes the benefits of a coordinated effort. This will be in coordination with the DOH Population Health Improvement Program which covers the same eight counties in the MCC PPS. The exchange of information on program activities and results among the MEB well-being program, health plans, and other groups will occur at least twice annually throughout this five-year project.

Stigma about accessing mental health or addiction treatment services prevents patients from taking advantage of these services. Lessen stigma via appropriate evidence-based messaging that is incorporated into wellness programs and media campaigns. Adapt programs to reflect demographic/cultural considerations; offer incentives to encourage participation. Test effectiveness of stigma-related messaging using focus groups, and partner with agencies experienced with multicultural populations to obtain continuous feedback. Support and empower MEB champions across the network to encourage participation among their peers. In the event that focus group results and outcome data show that existing stigma-related messaging is not effective, be prepared to examine shortfalls in existing strategy and make necessary revisions to messaging and program approaches.

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

Project 4.d.i – Reduce premature births

✓ IPQR Module 4.d.i.1 - Major Risks to Implementation and Mitigation Strategies

Instructions :

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

Some at-risk pregnant women may not comply with prenatal care standards. Sufficient resources must be allocated to provide management and support of at-risk pregnant women. Community health workers (CHWs) will be utilized to decrease barriers including referral to services and system navigation as well as to reinforce health education and preventive strategies. CHWs will be trained in and utilize Patient Activation Measures software to assess client motivation levels and guide appropriate interventions.

Without a central repository where project-specific outcome data is stored and analyzed, prenatal agencies serving the community are unable to measure how their work is contributing to overall metrics reported on by the NYS DOH. This project will establish data collection and reporting requirements and provide instruction to participating agency personnel on data analysis techniques so analytical functions can be integrated in their daily work and improvement strategies.

CHW is a lower-paid position which may experience high turnover rates; this can disrupt program operations, particularly when pregnant women lose their assigned workers. The project will require CHWs to complete training and certification. Certification will increase the status of workers, elevate their self-esteem, and curb turnover. Working in concert with the Workforce Development Work Group, CHWs will be encouraged to continue their education as pathways for advancement to supervisory positions or other related careers.

CHWs will not be able to adequately communicate with clients about risks that could endanger their or their baby's health if the training approach is over-generalized—not geared to the special needs of the population. It will be critical to develop and include specific modules in the training curriculum.

Third-party payer reimbursement for CHW services provided to pregnant women is imperative to the survival of the program at the end of the five-year waiver period. With its adherence to evidence-based protocols and heavy reliance on outcomes data, the project will routinely report outcomes to payers so they become well-educated on the effectiveness of the CHW approach to reducing premature births.

Project outcomes can be negatively impacted by reluctance among third-party payers to pay for at-home nursing care for pregnant women and to approve authorizations for prescription treatments that help maintain pregnancy to full-term. The project will prepare and submit information to health plans on the value of at-home nursing care and treatments for pregnant women and how this is an important component of a standardized, evidence-based protocol for avoiding premature births. Additionally, to increase accessibility to home nursing services and appropriate treatments, the project will work with health plans on streamlining the prior approval process for these services.

A lack of cooperation among WNY PPSs regarding the use of standardized protocols and policies related to this project could cause confusion among providers, prevent referrals, negatively impact reporting of data, and generally result in poor outcomes. The project is designed to serve all Medicaid-funded pregnant women regardless of what PPS they or their providers are affiliated with. To create a seamless transition for patients, MCC will work with partnering PPSs to utilize standardized referral protocols, use uniform tracking and reporting systems and procedures, and

PPS Defined Milestones Narrative Text

Milestone Name	Narrative Text
[4di_01] Ask all pregnant women about tobacco use and provide augmented, pregnancy-tailored counseling for smokers.	
[4di_02] Provide timely, continuous and comprehensive prenatal care services to pregnant women in accordance with NYS Medicaid prenatal care standards and other professional guidelines.	
[4di_03] Work with paraprofessionals, including peer counselors, lay health advisors, and community health workers to reinforce health education and health care service utilization and enhance social support to high-risk pregnant women.	
[4di_04] Implement innovative models of care that demonstrated to improve preterm birth rates, and other adverse pregnancy outcomes (prenatally, post-partum, family planning).	
[4di_05] Provide clinical management of preterm labor in accordance with current clinical guidelines.	
[4di_06] Implement practices to expedite enrollment of low-income women in Medicaid, including presumptive eligibility for prenatal care and family planning coverage.	
[4di_07] Utilize health information technology to facilitate more robust intake/enrollment, screening/risk assessment, referral, follow up and care coordination practices across health and human service providers.	
[4di_08] Refer high-risk pregnant women to home visiting services in the community.	
[4di_09] Mid-Point Assessment

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

Attestation

The Lead Representative has been designated by the Primary Lead PPS Provider (PPS Lead Entity) as the signing officiate for the DSRIP Quarterly Report. The Lead Representative has the authority to complete this attestation on behalf of the PPS network. The Lead Representative and PPS Lead Entity are responsible for the authenticity and accuracy of the material submitted in this report.

The Lead Representative of the Performing Provider System (PPS) must complete this attestation form in order for the project application to be accepted by the NYS Department of Health. Once the attestation is complete, the Quarterly Report will be locked down from any further editing. Do not complete this section until the entire Quarterly Report is complete.

If the Quarterly Report becomes locked in error and additional changes are necessary, please use the contact information on the Home Page to request that the Quarterly Report be unlocked.

To electronically sign this Quarterly Report, please enter the required information and check the box below:

I here by attest, as the Lead Representative of the 'Millennium Collaborative Care ', that all information provided on this Quarterly report is true and accurate to the best of my knowledge, and that, following initial submission in the current quarterly reporting period as defined by NY DOH, changes made to this report were pursuant only to documented instructions or documented approval of changes from DOH or DSRIP Independent Assessor.

Primary Lead PPS Provider:	ERIE COUNTY MEDICAL CTR
Secondary Lead PPS Provider:	
Lead Representative:	Juan Santiago

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

Project ID	Module Name / Milestone #	Review Status	
2.a.i	Module 2.a.i.2 - Prescribed Milestones		
	Milestone #1 All PPS providers must be included in the Integrated Delivery System. The IDS should include all medical, behavioral, post-acute, long-term care, and community-based service providers within the PPS network; additionally, the IDS structure must include payers and social service organizations, as necessary to support its strategy.	Pass & Ongoing	
	Milestone #2 Utilize partnering HH and ACO population health management systems and capabilities to implement the PPS' strategy towards evolving into an IDS.	Pass & Ongoing	
	Milestone #3 Ensure patients receive appropriate health care and community support, including medical and behavioral health, post-acute care, long term care and public health services.	Pass & Ongoing	
	Milestone #4 Ensure that all PPS safety net providers are actively sharing EHR systems with local health information exchange/RHIO/SHIN-NY and sharing health information among clinical partners, including directed exchange (secure messaging), alerts and patient record look up, by the end of Demonstration Year (DY) 3.	Pass & Ongoing	
	Milestone #5 Ensure that EHR systems used by participating safety net providers meet Meaningful Use and PCMH Level 3 standards and/or APCM by the end of Demonstration Year 3.	Pass & Ongoing	
	Milestone #6 Perform population health management by actively using EHRs and other IT platforms, including use of targeted patient registries, for all participating safety net providers.	Pass & Ongoing	
	Milestone #7 Achieve 2014 Level 3 PCMH primary care certification and/or meet state-determined criteria for Advanced Primary Care Models for all eligible participating PCPs, expand access to primary care providers, and meet EHR Meaningful Use standards by the end of DY 3.	Pass & Ongoing	
	Milestone #9 Establish monthly meetings with Medicaid MCOs to discuss utilization trends, performance issues, and payment reform.	Pass & Ongoing	
	Milestone #10 Re-enforce the transition towards value-based payment reform by aligning provider compensation to patient outcomes.	Pass & Ongoing	
	Milestone #11 Engage patients in the integrated delivery system through outreach and navigation activities, leveraging community health workers, peers, and culturally competent community-based organizations, as appropriate.	Pass & Ongoing	
2.b.iii	Module 2.b.iii.2 - Patient Engagement Speed	Pass & Ongoing	
	Module 2.b.iii.3 - Prescribed Milestones		
	Milestone #1 Establish ED care triage program for at-risk populations	Pass & Ongoing	
	Milestone #2 Participating EDs will establish partnerships to community primary care providers with an emphasis on those that are PCMHs and have open access scheduling. a. Achieve NCQA 2014 Level 3 Medical Home standards or NYS Advanced Primary Care Model standards by the end of DSRIP Year 3. b. Develop process and procedures to establish connectivity between the emergency department and community primary care providers. c. Ensure real time notification to a Health Home care manager as applicable	Pass & Ongoing	

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

Project ID	Module Name / Milestone #	Review Status	
	Milestone #3 For patients presenting with minor illnesses who do not have a primary care provider: a. Patient navigators will assist the presenting patient to receive an immediate appointment with a primary care provider, after required medical screening examination, to validate a non-emergency need. b. Patient navigator will assist the patient with identifying and accessing needed community support resources. c. Patient navigator will assist the member in receiving a timely appointment with that provider's office (for patients with a primary care provider).	Pass & Ongoing	
	Milestone #4 Established protocols allowing ED and first responders - under supervision of the ED practitioners - to transport patients with non-acute disorders to alternate care sites including the PCMH to receive more appropriate level of care. (This requirement is optional.)	Pass & Ongoing	
	Milestone #5 Use EHRs and other technical platforms to track all patients engaged in the project.	Pass & Ongoing	
2.b.vii	Module 2.b.vii.2 - Patient Engagement Speed	Pass & Ongoing	
	Module 2.b.vii.3 - Prescribed Milestones		
	Milestone #1 Implement INTERACT at each participating SNF, demonstrated by active use of the INTERACT 3.0 toolkit and other resources available at http://interact2.net .	Pass & Ongoing	
	Milestone #2 Identify a facility champion who will engage other staff and serve as a coach and leader of INTERACT program.	Pass & Complete	
	Milestone #3 Implement care pathways and other clinical tools for monitoring chronically ill patients, with the goal of early identification of potential instability and intervention to avoid hospital transfer.	Pass & Complete	
	Milestone #4 Educate all staff on care pathways and INTERACT principles.	Pass & Complete	
	Milestone #5 Implement Advance Care Planning tools to assist residents and families in expressing and documenting their wishes for near end of life and end of life care.	Pass & Complete	
	Milestone #6 Create coaching program to facilitate and support implementation.	Pass & Complete	
	Milestone #7 Educate patient and family/caretakers, to facilitate participation in planning of care.	Pass & Complete	
	Milestone #8 Establish enhanced communication with acute care hospitals, preferably with EHR and HIE connectivity.	Pass & Complete	
	Milestone #9 Measure outcomes (including quality assessment/root cause analysis of transfer) in order to identify additional interventions.	Pass & Complete	
Milestone #10 Use EHRs and other technical platforms to track all patients engaged in the project.	Pass & Complete		
2.b.viii	Module 2.b.viii.2 - Patient Engagement Speed	Pass & Ongoing	
	Module 2.b.viii.3 - Prescribed Milestones		
	Milestone #1 Assemble Rapid Response Teams (hospital/home care) to facilitate patient discharge to home and assure needed home care services are in place, including, if appropriate, hospice.	Pass & Complete	
	Milestone #2 Ensure home care staff have knowledge and skills to identify and respond to patient risks for readmission, as well as to support evidence-based medicine and chronic care management.	Pass & Complete	
	Milestone #3 Develop care pathways and other clinical tools for monitoring chronically ill patients, with the goal of early	Pass & Complete

Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

Project ID	Module Name / Milestone #	Review Status	
	identification of potential instability and intervention to avoid hospital transfer.		
	Milestone #4 Educate all staff on care pathways and INTERACT-like principles.	Pass & Complete	
	Milestone #5 Develop Advance Care Planning tools to assist residents and families in expressing and documenting their wishes for near end of life and end of life care.	Pass & Complete	
	Milestone #6 Create coaching program to facilitate and support implementation.	Pass & Complete	
	Milestone #7 Educate patient and family/caretakers, to facilitate participation in planning of care.	Pass & Complete	
	Milestone #8 Integrate primary care, behavioral health, pharmacy, and other services into the model in order to enhance coordination of care and medication management.	Pass & Complete	
	Milestone #9 Utilize telehealth/telemedicine to enhance hospital-home care collaborations.	Pass & Complete	
	Milestone #10 Utilize interoperable EHR to enhance communication and avoid medication errors and/or duplicative services.	Pass & Complete	
	Milestone #11 Measure outcomes (including quality assessment/root cause analysis of transfer) in order to identify additional interventions.	Pass & Complete	
	Milestone #12 Use EHRs and other technical platforms to track all patients engaged in the project.	Pass & Complete	
	Module 2.d.i.2 - Patient Engagement Speed	Pass & Ongoing	
	Module 2.d.i.3 - Prescribed Milestones		
	Milestone #1 Contract or partner with community-based organizations (CBOs) to engage target populations using PAM(R) and other patient activation techniques. The PPS must provide oversight and ensure that engagement is sufficient and appropriate.	Pass & Ongoing	
	Milestone #2 Establish a PPS-wide training team, comprised of members with training in PAM(R) and expertise in patient activation and engagement.	Pass & Ongoing	
	Milestone #3 Identify UI, NU, and LU "hot spot" areas (e.g., emergency rooms). Contract or partner with CBOs to perform outreach within the identified "hot spot" areas.	Pass & Ongoing	
	Milestone #4 Survey the targeted population about healthcare needs in the PPS' region.	Pass & Complete	
2.d.i	Milestone #5 Train providers located within "hot spots" on patient activation techniques, such as shared decision-making, measurements of health literacy, and cultural competency.	Pass & Ongoing	
	Milestone #6 Obtain list of PCPs assigned to NU and LU enrollees from MCOs. Along with the member's MCO and assigned PCP, reconnect beneficiaries to his/her designated PCP (see outcome measurements in #10). <ul style="list-style-type: none"> • This patient activation project should not be used as a mechanism to inappropriately move members to different health plans and PCPs, but rather, shall focus on establishing connectivity to resources already available to the member. • Work with respective MCOs and PCPs to ensure proactive outreach to beneficiaries. Sufficient information must be provided regarding insurance coverage, language resources, and availability of primary and preventive care services. The state must review and approve any educational materials, which must comply with state marketing guidelines and federal regulations as outlined in 42 CFR §438.104. 	Pass & Ongoing	
	Milestone #7 Baseline each beneficiary cohort (per method developed by state) to appropriately identify cohorts using PAM(R)	Pass & Ongoing	

**New York State Department Of Health
 Delivery System Reform Incentive Payment Project
 DSRIP Implementation Plan Project**

Millennium Collaborative Care (PPS ID:48)

Project ID	Module Name / Milestone #	Review Status	
	during the first year of the project and again, at set intervals. Baselines, as well as intervals towards improvement, must be set for each cohort at the beginning of each performance period.		
	Milestone #8 Include beneficiaries in development team to promote preventive care.	Pass & Ongoing	
	Milestone #9 Measure PAM(R) components, including: <ul style="list-style-type: none"> • Screen patient status (UI, NU and LU) and collect contact information when he/she visits the PPS designated facility or "hot spot" area for health service. • If the beneficiary is UI, does not have a registered PCP, or is attributed to a PCP in the PPS' network, assess patient using PAM(R) survey and designate a PAM(R) score. • Individual member's score must be averaged to calculate a baseline measure for that year's cohort. • The cohort must be followed for the entirety of the DSRIP program. • On an annual basis, assess individual members' and each cohort's level of engagement, with the goal of moving beneficiaries to a higher level of activation. <ul style="list-style-type: none"> • If the beneficiary is deemed to be LU & NU but has a designated PCP who is not part of the PPS' network, counsel the beneficiary on better utilizing his/her existing healthcare benefits, while also encouraging the beneficiary to reconnect with his/her designated PCP. • The PPS will NOT be responsible for assessing the patient via PAM(R) survey. • PPS will be responsible for providing the most current contact information to the beneficiary's MCO for outreach purposes. • Provide member engagement lists to relevant insurance companies (for NU & LU populations) on a monthly basis, as well as to DOH on a quarterly basis. 	Pass & Ongoing	
	Milestone #10 Increase the volume of non-emergent (primary, behavioral, dental) care provided to UI, NU, and LU persons.	Pass & Ongoing	
	Milestone #11 Contract or partner with CBOs to develop a group of community navigators who are trained in connectivity to healthcare coverage, community healthcare resources (including for primary and preventive services) and patient education.	Pass & Ongoing	
	Milestone #12 Develop a process for Medicaid recipients and project participants to report complaints and receive customer service.	Pass & Ongoing	
	Milestone #13 Train community navigators in patient activation and education, including how to appropriately assist project beneficiaries using the PAM(R).	Pass & Ongoing	
	Milestone #14 Ensure direct hand-offs to navigators who are prominently placed at "hot spots," partnered CBOs, emergency departments, or community events, so as to facilitate education regarding health insurance coverage, age-appropriate primary and preventive healthcare services and resources.	Pass (with Exception) & Ongoing	 
	Milestone #15 Inform and educate navigators about insurance options and healthcare resources available to UI, NU, and LU populations.	Pass & Ongoing	
	Milestone #16 Ensure appropriate and timely access for navigators when attempting to establish primary and preventive services for a community member.	Pass & Ongoing	
	Milestone #17 Perform population health management by actively using EHRs and other IT platforms, including use of targeted patient registries, to track all patients engaged in the project.	Pass & Ongoing

	Milestone #1 Co-locate behavioral health services at primary care practice sites. All participating eligible primary care practices must meet 2014 NCQA level 3 PCMH or Advance Primary Care Model standards by DY 3.	Pass & Ongoing	
	Milestone #2 Develop collaborative evidence-based standards of care including medication management and care engagement process.	Pass & Ongoing	
	Milestone #3 Conduct preventive care screenings, including behavioral health screenings (PHQ-2 or 9 for those screening positive, SBIRT) implemented for all patients to identify unmet needs.	Pass & Ongoing	
	Milestone #4 Use EHRs or other technical platforms to track all patients engaged in this project.	Pass & Ongoing	
	Milestone #5 Co-locate primary care services at behavioral health sites.	Pass & Ongoing	
	Milestone #6 Develop collaborative evidence-based standards of care including medication management and care engagement process.	Pass & Ongoing	
	Milestone #7 Conduct preventive care screenings, including physical and behavioral health screenings.	Pass & Ongoing	
	Milestone #8 Use EHRs or other technical platforms to track all patients engaged in this project.	Pass & Ongoing	
	Milestone #9 Implement IMPACT Model at Primary Care Sites.	Pass & Ongoing	
	Milestone #10 Utilize IMPACT Model collaborative care standards, including developing coordinated evidence-based care standards and policies and procedures for care engagement.	Pass & Ongoing	
	Milestone #11 Employ a trained Depression Care Manager meeting requirements of the IMPACT model.	Pass & Ongoing	
	Milestone #12 Designate a Psychiatrist meeting requirements of the IMPACT Model.	Pass & Ongoing	
	Milestone #13 Measure outcomes as required in the IMPACT Model.	Pass & Ongoing	
	Milestone #14 Provide "stepped care" as required by the IMPACT Model.	Pass & Ongoing	
Milestone #15 Use EHRs or other technical platforms to track all patients engaged in this project.	Pass & Ongoing		
3.a.ii	Module 3.a.ii.2 - Patient Engagement Speed	Pass & Ongoing	
	Module 3.a.ii.3 - Prescribed Milestones		
	Milestone #1 Implement a crisis intervention program that, at a minimum, includes outreach, mobile crisis, and intensive crisis services.	Pass & Ongoing	
	Milestone #2 Establish clear linkages with Health Homes, ER and hospital services to develop and implement protocols for diversion of patients from emergency room and inpatient services.	Pass & Ongoing	
	Milestone #3 Establish agreements with the Medicaid Managed Care organizations serving the affected population to provide coverage for the service array under this project.	Pass & Ongoing	
	Milestone #4 Develop written treatment protocols with consensus from participating providers and facilities.	Pass & Ongoing	
Milestone #5 Include at least one hospital with specialty psychiatric services and crisis-oriented psychiatric services; expansion of access to specialty psychiatric and crisis-oriented services.	Pass & Ongoing

Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

Project ID	Module Name / Milestone #	Review Status	
	Milestone #6 Expand access to observation unit within hospital outpatient or at an off campus crisis residence for stabilization monitoring services (up to 48 hours).	Pass & Ongoing	
	Milestone #7 Deploy mobile crisis team(s) to provide crisis stabilization services using evidence-based protocols developed by medical staff.	Pass & Ongoing	
	Milestone #8 Ensure that all PPS safety net providers have actively connected EHR systems with local health information exchange/RHIO/SHIN-NY and share health information among clinical partners, including direct exchange (secure messaging), alerts and patient record look up by the end of Demonstration Year (DY) 3.	Pass & Ongoing	
	Milestone #9 Establish central triage service with agreements among participating psychiatrists, mental health, behavioral health, and substance abuse providers.	Pass & Ongoing	
	Milestone #10 Ensure quality committee is established for oversight and surveillance of compliance with protocols and quality of care.	Pass & Ongoing	
	Milestone #11 Use EHRs or other technical platforms to track all patients engaged in this project.	Pass & Ongoing	
3.b.i	Module 3.b.i.2 - Patient Engagement Speed	Pass & Ongoing	
	Module 3.b.i.3 - Prescribed Milestones		
	Milestone #1 Implement program to improve management of cardiovascular disease using evidence-based strategies in the ambulatory and community care setting.	Pass & Ongoing	
	Milestone #2 Ensure that all PPS safety net providers are actively connected to EHR systems with local health information exchange/RHIO/SHIN-NY and share health information among clinical partners, including direct exchange (secure messaging), alerts and patient record look up, by the end of DY 3.	Pass & Ongoing	
	Milestone #3 Ensure that EHR systems used by participating safety net providers meet Meaningful Use and PCMH Level 3 standards and/or APCM by the end of Demonstration Year 3.	Pass & Ongoing	
	Milestone #4 Use EHRs or other technical platforms to track all patients engaged in this project.	Pass & Ongoing	
	Milestone #5 Use the EHR to prompt providers to complete the 5 A's of tobacco control (Ask, Assess, Advise, Assist, and Arrange).	Pass & Ongoing	
	Milestone #6 Adopt and follow standardized treatment protocols for hypertension and elevated cholesterol.	Pass & Ongoing	
	Milestone #7 Develop care coordination teams including use of nursing staff, pharmacists, dieticians and community health workers to address lifestyle changes, medication adherence, health literacy issues, and patient self-efficacy and confidence in self-management.	Pass & Ongoing	
	Milestone #8 Provide opportunities for follow-up blood pressure checks without a copayment or advanced appointment.	Pass & Ongoing	
	Milestone #9 Ensure that all staff involved in measuring and recording blood pressure are using correct measurement techniques and equipment.	Pass & Ongoing	
Milestone #10 Identify patients who have repeated elevated blood pressure readings in the medical record but do not have a diagnosis of hypertension and schedule them for a hypertension visit.	Pass & Ongoing		
Milestone #11 Prescribe once-daily regimens or fixed-dose combination pills when appropriate.	Pass & Ongoing		

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Millennium Collaborative Care (PPS ID:48)

Project ID	Module Name / Milestone #	Review Status	
	Milestone #12 Document patient driven self-management goals in the medical record and review with patients at each visit.	Pass & Ongoing	
	Milestone #13 Follow up with referrals to community based programs to document participation and behavioral and health status changes.	Pass & Ongoing	
	Milestone #14 Develop and implement protocols for home blood pressure monitoring with follow up support.	Pass & Ongoing	
	Milestone #15 Generate lists of patients with hypertension who have not had a recent visit and schedule a follow up visit.	Pass & Ongoing	
	Milestone #16 Facilitate referrals to NYS Smoker's Quitline.	Pass & Ongoing	
	Milestone #17 Perform additional actions including "hot spotting" strategies in high risk neighborhoods, linkages to Health Homes for the highest risk population, group visits, and implementation of the Stanford Model for chronic diseases.	Pass & Ongoing	
	Milestone #18 Adopt strategies from the Million Hearts Campaign.	Pass & Ongoing	
	Milestone #19 Form agreements with the Medicaid Managed Care organizations serving the affected population to coordinate services under this project.	Pass & Ongoing	
	Milestone #20 Engage a majority (at least 80%) of primary care providers in this project.	Pass & Ongoing	
3.f.i	Module 3.f.i.2 - Patient Engagement Speed	Pass & Ongoing	
	Module 3.f.i.3 - Prescribed Milestones		
	Milestone #1 Implement an evidence-based home visitation model, such as the Nurse Family Partnership, for pregnant high-risk mothers including high-risk first time mothers.	Pass & Ongoing	
	Milestone #2 Develop a referral system for early identification of women who are or may be at high-risk.	Pass & Ongoing	
	Milestone #3 Establish a quality oversight committee of OB/GYN and primary care providers to monitor quality outcomes and implement new or change activities as appropriate.	Pass & Ongoing	
	Milestone #4 Use EHRs or other IT platforms to track all patients engaged in this project.	Pass & Ongoing	
	Milestone #5 Identify and engage a regional medical center with expertise in management of high-risk pregnancies and infants (must have Level 3 NICU services or Regional Perinatal Center).	Pass & Ongoing	
	Milestone #6 Develop a multidisciplinary team of experts with clinical and social support expertise who will co-manage care of the high-risk mother and infant with local community obstetricians and pediatric providers.	Pass & Ongoing	
	Milestone #7 Develop service MOUs between multidisciplinary team and OB/GYN providers.	Pass & Ongoing	
	Milestone #8 Utilize best evidence care guidelines for management of high risk pregnancies and newborns and implement uniform clinical protocols based upon evidence-based guidelines.	Pass & Ongoing	
	Milestone #9 Ensure that all PPS safety net providers are actively sharing EHR systems or other IT platforms with local health information exchange/RHIO/SHIN-NY and sharing health information among clinical partners, including direct exchange (secure messaging), alerts and patient record look up, by the end of DY 3.	Pass & Ongoing	
	Milestone #10 Ensure that EHR systems or other IT platforms used by participating safety net providers meet Meaningful Use and PCMH Level 3 standards and/or APCM by the end of Demonstration Year 3.	Pass & Ongoing	
Milestone #11 Use EHRs or other IT platforms to track all patients engaged in this project.	Pass & Ongoing

Additional Project Scale Commitments

Instructions:

Please indicate the scale of the categories below that meet all of the project requirements committed to in the Project Plan Application. Documentation must be submitted in Excel format in the quarter when the PPS provider speed commitments for a particular project are due. This documentation should include the target category(e.g. Medical Villages, Emergency Departments with Care Triage, Community-based navigators, etc.), the project ID(e.g. 2.a.iv,2.a.v,3.a.ii, etc.), and the name of the providers/entities/individuals associated with this project, if applicable.

Project Scale Category	Project	Selected	Committed
Emergency Departments with Care Triage	2.b.iii	0	8
Home Care Facilities	2.b.viii	21	21
PAM(R) Providers	2.d.i	0	21
Expected Number of Crisis Intervention Programs Established	3.a.ii	0	8
Number of programs	3.f.i	0	15
