Narrative Text :

"The budget below does not vary in total from the application submission. We have provided further breakdown by providing additional subcategories in the 06012015 submission. We have included a line titled ""hold back for timing of funds flow"" to reflect the actual cash flow timing. As the PPS develops detailed project plans as outlined in this implementation plan, we anticipate that there will be modifications to the timing of the budget costs across the 5 year period and also modifications the budget costs category amounts.

The MAPP tool did not allow entry of negative values - the value in DY5 row labeled "other" in the amount of 2,242,947 is a negative amount.

IPQR Module 2.3 - Major Risks to Implementation & Risk Mitigation Strategies

Instructions :

Please describe the key challenges or risks that you foresee in implementing your governance structure and processes and achieving the milestones described above, as well as potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

I	With more than 100 partners, AHI faces challenges with developing an effective governance structure that ensures excellence in stewardship, oversight, and representation.
	The three risks to governance are:
	• Loss of participation of safety net leaders in governing the PPS network due to increased demands on them to lead their own organizations in addition to the region's ACO, Medical Home Initiative, and Health Home.
	• Active participation of key stakeholders including hospital, physician, behavioral health, long-term/home health and community benefit leadership.
	Trust by key stakeholders.
	 These risks will be mitigated by: Working collaboratively with leadership of the Adirondack ACO, Adirondack Medical Home, and other stakeholders to develop a governance structure that meets the needs of AHI's Health Home and Population Health Improvement Program that aligns with the ACO, Medical Home, and PPS initiative. Compensating clinical leaders' time.
	Ensuring meetings are warranted and time is used efficiently.
ļ	Development and execution of a network communication strategy to include open forums, the MIX platform, and website.

IPQR Module 2.4 - Major Dependencies on Organizational Workstreams

Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

The Governance Workstream is perhaps the most dependent on other Workstreams, each of which supports the overarching responsibility of the Governance to lead the PPS. The PPS will be successful to the extent that governing bodies can rely on high quality data and analytics made available through a well-designed IT infrastructure. This infrastructure will produce information necessary to perform cost/benefit analyses and estimates of ROI, which the Board can rely on to make important decisions on the allocation of resources and strategic direction of the PPS. The Finance Workstream supports Governance through effective and credible funds flow management. This Workstream is key to partner engagement in the PPS, as the commitment funds serves both as an incentive and a tool to ameliorate negative impacts of healthcare transformation on some types of provider organizations. Workforce development is also central: no plan or model can succeed without strong relationships with unions and workers, and a workforce that has the skills and capacity to meet the needs of the changing healthcare delivery system. Finally, provider/partner

NYS Confidentiality – High

Page 45 of 424 Run Date : 03/30/2018

DSRIP Implementation Plan Project

Adirondack Health Institute (PPS ID:23)

engagement is vital, as the leadership resources that partners bring to the table will be the driving forces in the development of and compliance with evidence-based protocols. Without provider leadership, the PPS will be hampered in efforts to achieve the high levels of coordination and clinical integration that are necessary for the system to operate under new models of care and achieve quality goals.

DSRIP Implementation Plan Project

Adirondack Health Institute (PPS ID:23)

☑ IPQR Module 2.5 - Roles and Responsibilities

Instructions :

Please list and elaborate upon the key people/organizations responsible for the development of your governance structure and processes and describe what their responsibilities involve.

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities
PPS Lead Applicant/Entity	AHI, Eric Burton, Interum CEO	Fiduciary responsibility; provide funding and staff resources; develop governance structure, bylaws, and policies; establish the project management office (staff, tools, processes)
Population Health Management Partner	ADK ACO, Karen Ashline	Board & Committee members. Partner with the PPS in Governance and IT Development; partner to align Clinical Governance & Quality with related initiatives (Medical Home, Health Home, MSSP, etc.); partner in development of regional PHM capabilities
Major hospital partners	Glens Falls Hospital, Adirondack Health, Champlain Valley Physician Hospital, St Lawrence Health System, Nathan Littauer Hospital (CEOs and Senior Administrators, Clinical Leaders, take part in a variety of forums)	Board and Committee members, project implementations, EBM protocol development, clinical leadership
Physician organizations and large practices	Hudson Headwaters Health Network, Plattsburgh Physician Group, North Country Physicians Organization (CEOs and Senior Administrators, Clinical Leaders, take part in a variety of forums)	Board and Committee members, project implementations, EBM protocol development, physician leadership
County Mental Health Departments	Rob York, DCS Warren-Washington County; Peter Trout, DCS Clinton County; Steve Valley, DCS Essex County, are the most active, all 9 County DCS are involved to varying degrees.	Board and Committee members, project implementations, EBM protocol development, behavioral health leadership

DSRIP Implementation Plan Project

Adirondack Health Institute (PPS ID:23)

Module 2.6 - IPQR Module 2.6 - Key Stakeholders

Instructions :

Please identify the key stakeholders involved, both within and outside the PPS with regard to your governance structure and processes.

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
Internal Stakeholders	l	
Health Home Care Management Agencies (AHI is Lead Health Home; care management agencies listed are downstream providers of Health Home services)	Alliance for Positive Health Berkshire Farm Center Behavioral Health Services North University of Vermont Health Network CVPH Citizen Advocates/Northstar Behavioral Health Services Children's Health Network Children's Health Network Children's Home of Jefferson County Community Maternity Services Essex County Mental Health Services Families First in Essex County Glens Falls Hospital Hamilton County Community Services HCR Care Management LLC Mental Health Association in Essex County Capital District Psychiatric Center St. Anne Institute St. Lawrence Psychiatric Center Transitional Services Association United Helpers Mosaic United Helpers ACT Team Warren-Washington Association for Mental Health Hudson Headwaters Health Network	Care Management Protocols and Procedures, Project Implementations
Community-Based Organizations	Includes prevention councils, food pantries, disability services, community action agencies, family services providers, homeless shelters, community centers, senior services, and home health providers. For complete list of AHI PPS CBO partners, please refer to AHI PPS CBO Template submitted in DY2 Q4.	Align projects with county plans and initiatives; participate in some project implementations
Public Health & Community Services	County Offices for the Aging, public health departments, community services boards, departments of social services, and mental health services; housing authorities. For a complete list of AHI PPS Public Agency Community Services partners, please	Align projects with county plans and initiatives; participate in some project implementations

DSRIP Implementation Plan Project

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
	refer to AHI PPS Public Agency Template submitted in DY2 Q4.	
External Stakeholders		
Key advisors, counselors, attorneys, consultants	Manatt, Phelps & Phillips, LLP, The Advisory Group, CohnReznick	Drafts governance documents, provider agreements, policies and procedures, contracts, etc.

DSRIP Implementation Plan Project

Adirondack Health Institute (PPS ID:23)

IPQR Module 2.7 - IT Expectations

Instructions :

Please clearly describe how the development of shared IT infrastructure across the PPS will support this particular workstream and your ability to achieve the milestones described above.

The AHI PPS is putting in place the shared IT infrastructure that will support communication and decision-making across the PPS Board and subcommittees. The Governance will rely on a secure electronic platform for sharing of meeting agendas and minutes, with the appropriate role-based access to such documents. Additionally, all PPS partners will have ready access to a tool for sharing information on project progress. This IT infrastructure will enable the PPS to readily produce progress reports and make visible the PPS' progress against milestones, thus allowing the PPS to achieve a level of transparency with key stakeholders that is necessary for on-going trust and support of the providers and communities served. Overall, the expectation is that IT will support the necessary two-way communication across committees, partners, and teams.

IPQR Module 2.8 - Progress Reporting

Instructions :

Please describe how you will measure the success of this organizational workstream.

The success of Governance Workstream is measured by progress against a set of required milestones, including the timely creation of the structures (BOD and Committees), populating such structures with the appropriate members, the formal adoption of bylaws, policies and procedures for all key committees and sub-committees, and the development, negotiation and execution of all required provider agreements to allow the PPS to begin operation. Progress is also measured by the successful implementation of project management and performance monitoring systems (including data collection, analyses and reporting) to support decision-making.

IPQR Module 2.9 - IA Monitoring

Adirondack Health Institute (PPS ID:23)

IPQR Module 3.3 - Major Risks to Implementation & Risk Mitigation Strategies

Instructions :

Please describe the key challenges or risks that you foresee in implementing these cross-cutting organizational strategies, including potential impacts on specific projects and, crucially, any risks that will undermine your ability to achieve outcome measure targets.

AHI PPS has completed many of the milestones for the financial sustainability work stream including finalizing the finance and reporting structure, completing the network financial health assessment and sustainability strategy, and developing a compliance plan, but there remain challenges for AHI PPSs to assess and monitor the financial health of the PPS providers and to establish the role of AHI PPS in leading the transition to value based payment. These challenges include the following:

• Obtaining partner participation buy-in as AHI PPS moves from engagement to implementation phase of the project plans;

· Finding appropriate resources to analyze and validate data related to project performance;

• Determining whether AHI PPS is properly positioned to fully support financially fragile providers who are critical to the success of the PPS;

• Transitioning to value base payment is not accepted by the PPS partners at the pace required to meet DSRIP timelines;

• Resource limitations of PPS Partners, especially smaller entities, may prevent the entities from investing required resources needed to participate in the PPS and provide timely/adequate information;

• Developing a single plan that meets the needs of a wide range of partners, covering a large geographic area, where significant differences can exist from region to region within the service area; and

• Expertise on components of the DSRIP strategy, in particular VBP methods, not readily available or attainable to meet DSRIP timeline.

The challenges listed above will be mitigated in the following ways:

• AHI PPS will leverage the systems that will be used to measure and monitor DSRIP project performance and incorporate financial metrics in agreements with providers to monitor the financial health of the PPS providers.

• AHI PPS is developing tools that will be used to disseminate information, collaborate with participants, collect data, provide transparency, and timely quarterly reporting on the DSRIP projects internally to PPS and to NYSDOH.

• AHI PPS is developing a communications strategy to provide timely and clear information flow to PPS providers to garner support and active participation in meeting DSRIP project requirements and earning the full DSRIP payment.

• The AHI PPS funds distribution plan will be transparent to the providers and ensure that all plan requirements and related processes and payment schedules are clearly understood and communicated regularly.

• Through educational campaigns, AHI PPS will address the objectives of value based payment models, as well as the possible implications of engaging in value based payment arrangements, so providers can make informed decisions.

• AHI PPS will engage partners to develop a flexible, multi-phased approach to contracting on a VBP basis that also allows for AHI PPS providers with longstanding relationships to contract directly with the regions MCOs.

• AHI PPS will examine opportunities to facilitate and support contract negotiations between AHI PPS providers and MCOs to the greatest extent.

• AHI PPS will leverage existing relationship with Adirondack ACO and the Medical Home Pilot to further support contract negotiations between AHI

DSRIP Implementation Plan Project

Adirondack Health Institute (PPS ID:23)

PPS providers and MCOs.

IPQR Module 3.4 - Major Dependencies on Organizational Workstreams

Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

The financial stability workstream is dependent on the progress of several related workstreams in order to achieve successes. Those workstreams that share interdependencies in key areas with financial stability are outlined below.

• Governance – A fully supportive governance process is essential to establishing the role of the AHI PPS as the PPS Lead. In addition, fully established roles within the governance structure for Finance, Compliance and Audit will inform and drive the finance committee charter, its oversight of the finance function and approach to funds flow. There will be specific situations that will require board communications and/or approvals when significant risk is involved. We anticipate that our PPS governance may need to be modified based on the results of VBP planning activities.

DSRIP Network Capabilities and Project Implementation - The successful implementation of the AHI PPS value based reform strategy, and execution of value based contracts, will require a developed and functioning integrated delivery network and buy-in of the network partners to the value based payment strategy. Transparency and strong communication strategies will be important at all phases on the DSRIP program.
Reporting Requirements – The DSRIP process has extensive reporting requirements linked to DSRIP payments – such as quarterly reports from network partners is a dependency for processing and receiving timely payments to partners. This reporting is dependent upon input and submission of reports and data from the individual network providers as well as other sources of data that will require the PPSs IT function to access.

• DSRIP Projects – The AHI PPS finance function must have an understanding of projects selected and participation level of providers for each (Provider Participation Matrix) in order to develop a meaningful funds plan for the PPS. In addition, the PPS and the providers must understand project costs, impacts and other needs as part of their process of evaluating financial stability and impact going forward.

• HIT – This workstream will be essential to providing technology to access data, including a financial reporting system, as well as the technology for reporting project level performance data that is closely linked to the payments received for DSRIP projects. The extent of the role of IT for the PPS Lead and the PPS itself is expected to evolve throughout the DSRIP period which will require adaptive strategies throughout the work streams, including the finance areas of funds flow, budgeting and value based payment initiatives.

• Workforce – The relationship between the finance and workforce workstreams is crucial to direct funds to providers for training/retraining, recruitment, and redeployment. Finance works closely with the workforce workstream to process payments to providers that have been approved by the workforce workgroups and committee. Finance will also communicate all spending related to workforce to ensure that the appropriate data related to the workforce strategy and impact is being gathered and reported to meet the DSRIP requirements.

DSRIP Implementation Plan Project

Adirondack Health Institute (PPS ID:23)

IPQR Module 3.5 - Roles and Responsibilities

Instructions :

Please list and elaborate upon the key people/organizations responsible for this organizational workstream and describe what their responsibilities involve.

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities
Chief Financial Officer	Eric Burton	Responsible for development and management of the Finance Office and its specific functions. The individual will provide guidance and oversight around the Funds Flow Plan, the Financial Stability Plan, and other relevant processes. The responsibilities include ensuring that funds are managed and distributed according to the approved plan, that reporting requirements are met and that communication regarding the Finance related functions is timely and accurate.
Finance Manager	Peter Oldytowski	Responsible for the daily operation of the Finance Office, including programmatic development of the infrastructure tools critical to the Funds Flow Plan and the related banking, accounts payable and general ledger functions.
Financial Analyst	Kaeleen Bowe	Responsible for assisting in the continuity of operations of the data aspects of the Finance Office and providing assistance to the Finance Office as it relates to data analysis, acquisition and reporting. This position will be responsible for developing and distributing the defined report data set(s) to the designated stakeholders as well as supporting the processing of funds flow to partners.
Accounts Payable Staff	AHI Staff	Responsible for the day-to-day operations of the Accounts Payable function, including updating policies and procedures, monitoring the accounts payable system, and developing protocols around reporting and AP check write related to the DSRIP funds distribution.
Contracts Manager	Justine Mosher	This position will be responsible for working with the CFO to coordinate the contracting process between the PPS and the network providers.
Accounts Receivable Staff	AHI Staff	Responsible for the day-to-day operations of the Banking function, including the processing of the DSRIP funds received from DOH and reporting of the status of funds expected and received as well as reconciliation of bank related statements.

DSRIP Implementation Plan Project

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities
Chief Compliance Officer	Jeff Hiscox	Will oversee the development and implementation of the compliance plan of the PPS Lead and related compliance requirements of the PPS as they are defined. Scope would include the PPS Lead compliance plan related to DSRIP. The compliance role should report to the Executive Body.
Audit	Cohn Reznick	External auditors reporting to the Finance Committee. The firm will perform the audit of the PPS and PPS Lead related to DSRIP services according to the audit plan approved by the Finance Committee and Executive Body

DSRIP Implementation Plan Project

Adirondack Health Institute (PPS ID:23)

IPQR Module 3.6 - Key Stakeholders

Instructions :

Please identify the key stakeholders involved, both within and outside the PPS.

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
Internal Stakeholders		
Kate Clark	Chief Administrative Officer	The Chief Administrative Officer has overarching responsibility for oversight of operational and programmatic aspects of the DSRIP initiative for the PPS.
Kate Clark	Project Management Office	PMO oversight and leadership for finance related projects, VBP strategy, and for the overall implementation plan deliverables that affect finance function reporting
Project Champions	DSRIP Project Leads	Collaboration with finance re: PPS Project Implementation, status of project, reporting required to meet DOH requirements,
Jeff Hiscox	PPS Compliance Committee PPS Compliance Officer	Oversight of PPS Compliance Plan and related training, education, and reporting requirements of the plan
Finance Committee Chair	PPS Finance Committee	Board level oversight and responsibility for the PPS Finance function; Review and approval of finance related policies and procedures; oversight of PPS Lead role, responsibilities and deliverables; oversight of audit and compliance related processes
Jennette Hubinger - HR Manager Margaret Vosburgh - CEO Pinnacle Human Resources, LLC	PPS Human Resources	HR related functions of PPS for its employees and guidance related to the PPS workforce strategies. HR Manager and contracted HR support reports directly to AHI PPS CEO.
StoredTech PPS IT Consultants		Information Technology related requirements for the finance function; access to data for the finance function reporting requirements
CEOs of PPS Network Partners	Network Finance Partners	PPS Network Provider partners' CEOs are responsible for their organization's' execution of their DSRIP responsibilities, they will contribute to the success of the finance function and finance related strategies
CFO/Finance Team of PPS Network Partner	Network Finance Partners	Primary contact for the PPS Lead finance function for conducting DSRIP related business and responsible for their organization's execution of their DSRIP related finance responsibilities and participation in finance related strategies
Boards of Directors for PPS	Governance	PPS Network Provider partners' BOD have overall responsibility for their organizations' execution of their DSRIP responsibilities, they

Page 74 of 424 Run Date : 03/30/2018

DSRIP Implementation Plan Project

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
		will contribute to the success of the finance function and finance related strategies
Bob Cawley	Chief Information Officer	Directs, plans, organizes and controls all activities of the PPS Information Services Department to ensure the effective and efficient operation of all systems, applications, reporting and analytic processes.
Dwane Sterling	PPS Technology Director	Data security and confidentiality plan, Data exchange plan.
Pam Wilkes	PPS VBP Consultant	Provide expertise and leadership in the transition to a Value Based Payment structure throughout the Integrated Delivery System including assisting in developing new clinical models to integrate care and reduce costs, evaluate network committee, and educates independent physician groups in risk contracting.
External Stakeholders		
Stephen Schwartz, CohnReznick External Audit Function	External Audit Function	External Audit Function
MCOs and other payers	MCOs and other payers identified by PPS for pursuit of PPS Value based reform strategies	The PPS Lead and PPS will have responsibilities related to implementing the PPSs value based strategy, the contracting process, and implementation / administration of executed value based agreements.
NY DOH	NY DOH defines the DSRIP requirements	The PPS Lead and PPS finance function has responsibility for the overall administration of DSRIP reporting to DOH and the funds flow process
Community Representatives	Community Representatives	Community needs and interests are significant influencers of DSRIP projects and will contribute to the adoption and buy-in across the network. Communication regarding DSRIP status, results, and future strategies will be important to maintain their contribution and influence.
Government Agencies / Regulators	Government Agencies / Regulators	County and State agencies and regulatory bodies will have oversight and influence in a number of DSRIP related areas - including the importance of waivers or regulatory relief, construction / renovation projects, and other items related to DSRIP. Communication with them regarding DSRIP status, results, future strategies and their role in DSRIP success will be important.
Medicaid Managed care Plans	Responsible for contracting with AHI PPS and individual providers on a VBP basis.	These will be determined pursuant to the development of AHI PPS' s Baseline Assessment and VBP Adoption Plan.
HIV Special Needs Plans	Responsible for contracting with AHI PPS and individual providers on a VBP basis for the HIV population specialty chronic population.	These will be determined pursuant to the development of AHI PPS' s Baseline Assessment and VBP Adoption Plan.

DSRIP Implementation Plan Project

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities

DSRIP Implementation Plan Project

Adirondack Health Institute (PPS ID:23)

IPQR Module 3.7 - IT Expectations

Instructions :

Please clearly describe how the development of shared IT infrastructure across the PPS will support this particular workstream.

The development of shared IT infrastructure and data communications strategy across AHI PPS PPS will support the AHI PPS Finance Office and our work on the financial sustainability of the network by providing the network partners with capability for sharing and submitting reports and data pertaining to project performance and other DSRIP related business in a secure and compliant manner. We intend to link to the performance reporting mechanisms that will be utilized across the PPS to provide our finance team with current data that may be utilized to track project performance levels and expected DSRIP payments.

Other shared IT infrastructure and functionality across the PPS that will support or contribute to the success of the AHI PPS Finance Office includes:

• Population Health systems or technology that will support the need to access and report on data related to clinical services and outcomes – for DSRIP required metrics and to meet the needs under value based payment arrangements.

- Care Coordination technology and systems that supports broad network integration of services and health management capabilities.
- · Communications platform to disseminate and accumulate information with our partners
- · Leveraging existing medical home infrastructures
- · Reporting and project management tool to collaborate and maintain transparency with our network partner

As DSRIP PPS plans develop, certain components of the IT infrastructure will be developed to be centralized with the PPS lead, some with will decentralized across providers or groups of providers and some may be centralized with the DOH and other third parties. The outcome of these decisions will impact significantly several facets of the AHI PPS DSRIP implementation plans.

The NYS CRFP initiated in conjunction with DSRIP will impact the IT infrastructure for the various work streams as funding for IT capital was requested by multiple AHI PPS providers and the AHI PPS. A population health management platform, EHR systems, tele health and other health data management software are among the capital requests. The results of the CRFP awards will impact the related DSRIP projects in terms of both funding and planning.

IPQR Module 3.8 - Progress Reporting

Instructions :

Please describe how you will measure the success of this organizational workstream.

We will align our PPS financial management and sustainability progress reporting with the reporting and oversight structures in place for the DSRIP projects, through the AHI PPS PMO. The PMO will be responsible for monitoring progress against project requirements and process measures at a provider level, and the preparation of status reports for the quarterly reporting process for DOH. We will leverage this process and integrate where

NYS Confidentiality – High

DSRIP Implementation Plan Project

Adirondack Health Institute (PPS ID:23)

feasible, the financial reporting that we require in order to be able to monitor and manage the financial health of the network over the course of the DSRIP program.

The AHI PPS Finance Office will be responsible for consolidating all of the specific financial elements of this project reporting into specific financial dashboards for the AHI PPS Board and for the tracking of the specific financial indicators we are required to report on as part of the financial sustainability assessments and the ongoing monitoring of the financial impacts of DSRIP on the providers. Through ongoing reporting, if a partner trends negatively or if the financial impacts are not in line with expectations, the AHI PPS Finance Office will work with the provider in question to understand the financial impact and develop plans for corrective action.

The AHI PPS Finance Office will provide regular reporting to the Finance Committee, Executive Body and network partners as applicable regarding the financial health of the FHPP and updates regarding the Financially Fragile Watch List and the Distressed Provider Plans currently in place.

Section 04 – Cultural Competency & Health Literacy

IPQR Module 4.1 - Prescribed Milestones

Instructions :

Please enter and update target dates, as well as breakdown tasks with target dates for prescribed milestones. For milestones that are due within the reporting period, documentation is required to provide evidence of milestone achievement. Any explanations regarding altered or missed target commitments must be included within the textbox, not as narrative within uploaded documentation. Note some milestones include minimum expected completion dates.

Milestone/Task Name	Status	Description	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter	AV
Milestone #1 Finalize cultural competency / health literacy strategy.	Completed	This milestone must be completed by 12/31/2015. Cultural competency / health literacy strategy signed off by PPS Board. The strategy should: Identify priority groups experiencing health disparities (based on your CNA and other analyses); Identify key factors to improve access to quality primary, behavioral health, and preventive health care Define plans for two-way communication with the population and community groups through specific community forums Identify assessments and tools to assist patients with self- management of conditions (considering cultural, linguistic and literacy factors); and Identify community-based interventions to reduce health disparities and improve outcomes.	09/01/2015	12/21/2015	09/01/2015	12/21/2015	12/31/2015	DY1 Q3	YES
Task Develop metrics to evaluate and monitor ongoing impact of cultural competency / health literacy initiatives. Progress against these metrics will be evaluated on a semi-annual basis and results will be published.	Completed	Evaluate	09/01/2015	12/21/2015	09/01/2015	12/21/2015	12/31/2015	DY1 Q3

representation from a diverse group of stakeholders (providers, CBO, behavior health, education, local organizations) overseeing cultural competency and health literacy strategy.									
Task Building on the Community Needs Assessment, conduct analysis to confirm key priorities for the AHI PPS in terms of health disparities between different cultural, socioeconomic and age groups. This will include an analysis of the driving factors behind these poorer outcomes, and the drivers of inappropriate or under-use of services by specific populations. The focus groups and survey conducted with beneficiaries in the 2. d. i. project will be shared to inform cultural differences across the region and health literacy needs of the Medicaid population to be served.	Completed	Conduct Analysis	09/30/2015	12/21/2015	09/30/2015	12/21/2015	12/31/2015	DY1 Q3	
Task Building on the initial assessment carried out for the DSRIP application, assess cultural competency needs at the provider level. This gap analysis will compare the priority patient groups and health disparities with the facilities and services available at a provider / site level, as well as the linguistic capabilities of individuals at those providers. The analysis will also consider the role of CBOs and the capabilities available through our CBO partners. This analysis will be used to identify key targets (i.e. providers and/or geographic areas where the cultural competency of providers is in need of additional supports and resources). The assessment will cover: the patient environment; the simplicity / accessibility of services; and the extent to which existing community groups are actively promoting and/or providing services.	Completed	Assess Cultural	09/30/2015	12/21/2015	09/30/2015	12/21/2015	12/31/2015	DY1 Q3	
Task	Completed	Determine Standards	11/01/2015	12/21/2015	11/01/2015	12/21/2015	12/31/2015	DY1 Q3

IPQR Module 4.3 - Major Risks to Implementation & Risk Mitigation Strategies

Instructions :

Please describe the key challenges or risks that you foresee in implementing your cultural competency / health literacy strategy and addressing the specific health disparities you are targeting (based on your CNA), and achieving the milestones described above - including potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

A component of success of many of the work streams is dependent upon effective communication and active engagement by the participants.
The risks associated with Cultural Competency and Health Literacy are: Communication:
 Ineffective communication by providers and lack of comprehension by the patient, coupled in some cases by cultural barriers, can create
miscommunication and have a negative impact on health outcomes.
Partner/Practioner Engagement:
Large geographic region makes in-person training and education prohibitive.
Limited provider and staff time availability for training to carry out the Cultural Competency and Health Literacy Initiatives.
Sustaining active participation in health literacy and cultural competency trainings
• As the PPSs health disparities are socioeconomic, age related, and disabilities, there can be a lack of understanding by providers about "cultural differences or buy in that there is a need for training.
These risks will be mitigated by:
• Dissemination of gap assessment results to the Regional Health Improvement Team Leaders, the project Team Leaders, and to the AHI PPS Steering Committee, along with general media public service announcements, will heighten awareness about the importance of clear understanding and
communication between providers and patients and the potential impact on outcomes. The AHI PPS will undertake a comprehensive training program for providers through identifying and developing champions and trainers in their own organizations to increase their knowledge and efficacy related to Cultural
Competency and Health Literacy. Resources, literature and materials will be made available to providers to ensure accurate, timely health literate, culturally sensitive information is provided to patients.
• Using on-demand web based learning platforms and other methods that bring training to the provider will make it easier for providers to access training at their convenience in their offices or at home eliminating travel time and expense.
• Creating a regional, systemic approach for small practices with frequent staff turnover for ongoing training support to ensure health literacy and cultural competency principles are incorporated in the practice.
• The AHI PPS is developing a comprehensive training strategy that provides education at all levels in all PPS partner organizations –
administrative, provider and front line staff – to introduce these concepts and link them with patient outcomes. AHI PPS conducted a survey of all PPS partners to better understand existing CC&HL activities and training. AHI PPS will capitalize on partner organizations that have already established strong CC&HL programs by incentivizing them through the contracting process as Champions to help bring these concepts to others in more of a peer to peer model.

DSRIP Implementation Plan Project

Page 86 of 424 Run Date : 03/30/2018

Adirondack Health Institute (PPS ID:23)

IPQR Module 4.4 - Major Dependencies on Organizational Workstreams

Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

Cultural Competency and Health Literacy is woven throughout several workstreams. As the core of this initiative is training, thereby requiring efficient planning and implementation with the Workforce workstream as well as the Practitioner Engagement workstream.

This initiative is also interdependent with Project 2.d.i - Patient Activation. As patients become informed, activated and engaged in their health, their confidence and efficacy in communicating their needs to their providers will increase. The PPS will prepare providers with skills and techniques through training and education, along with resources and materials to meet the needs of their patients. Patients will be completing PAM [Patient Activation Measure] tools and will receive referral to providers and CBOs for services.

There is also an interdependency with the development of the Population Health Management system. Demographic and community health data will drive the direction for trainings to be sure that providers and CBOs can be effective and serve patient need.

DSRIP Implementation Plan Project

Adirondack Health Institute (PPS ID:23)

☑ IPQR Module 4.5 - Roles and Responsibilities

Instructions :

Please list and elaborate upon the key people/organizations responsible for this workstream and describe what their responsibilities involve.

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities
AHI PPS Community and Beneficiary Engagement Committee Chair/ Project 2.d.i (Patient Activation) Champion	Crystal Carter, Clinton County Office for the Aging	Responsible for review and approval of strategy and deliverables
Workforce Committee Chair	Diane Wildey, SUNY Adirondack	Responsible for review and approval of strategy and deliverables
Community and Beneficiary Engagement Committee	Tess Barker President & Chief Executive Officer Planned Parenthood of the North Country New York; Jocelyn Blanchard,Director of Navigator Services Southern ADK Independent Living; Sr. Charla Commins,Executive Director Catholic Charities of Saratoga, Warren & Washington counties; Kim Cook,Director Open Door Mission; Michael Countryman,Executive Director The Family Counseling Center of Fulton County; Janet Mann, Care Mgt Support Coordinator Northern ADK Medical Home, Adirondacks ACO; Claire Murphy, Executive Director, Washington County EOC; Cynthia Nassivera-Reynolds, VP Transformation and Clinical Quality, Hudson Headwaters Health Network, Adirondacks ACO	Includes representatives from community based organizations, public agencies, and clinical provider organizations, as well as community members/project beneficiaries who guide the development and implementation of the PPS CCHL strategies, PPS Community Engagement plan, Project 2.d.i: Patient Activation activities, and other activities intended to engage community members in PPS initiatives
Workforce Committee	Includes 17 Individuals including: Chair, Diane Wildey (Dean of Special Academic Services, SUNY Adirondack Health), Linda Beers (Essex County Public Health), Jill Borgos (Empire State College), Kyle Brock (Glens Falls Hospital), Debbie Couture (Behavioral Health Services North), Becky Leahy (North Country Home Services), Mark Lukens, Behavioral Health Services North), Elizabeth Parsons (Fort Hudson Health System), Sadie Spada (The Adirondack Arc), Kathy Tucker (1199 SEIU), Thomas Gosrich (CVPH).	Includes representatives from human resources, finance, administration from , educational institutions, , health care organizations representing primary care, acute care, home care, long term care services, public health departments as well as union representatives and AHI staff who will define how and by whom any decisions around resource availability, allocation, training, redeployment and hiring will be made and signed off on.
Training and Resources Workgroup	Workgroup Leader: Diane Wildey (Dean Special Academic Services, SUNY ADK), and includes other interested parties related to training needs and strategies	Responsible for a comprehensive set of strategies for successful implementation of the workforce transformation agenda related to training needs, including informing and guiding development and implementation of the CCHL Training Strategy. Identify training gaps and key training resources available to achieve success in

		implementation plan activities.
AHI Executive Director-Community Engagement and Workforce Initiatives	Jennifer Regan, AHI	Provide oversight and input in to the development of CCHL initiatives.
AHI Workforce Manger	Kelly Owens, AHI	Responsible for incorporating Cultural Competency and Health Literacy into Workforce initiatives
AHI Community Engagement Manager	Jessica Chanese, AHI	Responsible for 2.d.i implementation and assuring that Cultural Competency and Health Literacy principles are integrated into the project implementation
Workforce Coordinators	Chelsea Truehart and Jessica Maguire	Assist with implementation of workforce deliverables and managing workforce workgroup initiatives, including those related to the CCHL workstream.
Community Engagement Coordinator & Facilitators	Melissa Davey, Amber Guyette, Victoria Knierim	Assist with implementation of Project 2.d.i: Patient Activation and CCHL deliverables, as well as other community engagement initiatives

DSRIP Implementation Plan Project

Adirondack Health Institute (PPS ID:23)

IPQR Module 4.6 - Key Stakeholders

Instructions :

Please identify the key stakeholders involved, both within and outside the PPS.

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
Internal Stakeholders		
Eric Burton	Interim CEO, AHI	Oversight in overall PPS activities
Sarah Wright	Interim CFO, AHI	Oversight in overall PPS activities
AHI Cultural Competency and Health Literacy Task Force (Phil Kahn, Communications Coordinator; Megan Thompson,Donna Gallup, EASE Coordinator; Melissa Davey, Community Engagement Coordinator, JP Quintal;Performance Delivery Specialist)	Model implementation of CCHL strategies internally	Recommend and guide activities to align AHI internal practices with DSRIP CCHL workstream principles
PPS Community Based Organizations: Including but not limited to North Country Healthy Heart Network, Adirondacks ACO, Open Door Mission, Prevention Councils for all counties, Glens Falls, Plattsburgh, Malone, Essex, and Saratoga housing authorities, Moreau Community Center, and Catholic Charities	Help develop and execute workstream; recipients of educational programs	Subject matter expert, patient liaison; commit to and continually improve cultural competency initiative
PPS Clinical Providers and staff, including but not limited to those at Glens Falls Hospital, Adirondack Health, UVHN: Alice Hyde, CVPH, Elizabethtown Community Hospital) ; HHHN; BHSN; Citizen Advocates	Help develop and execute workstream; recipients of educational programs	Subject matter expert, patient liaison; commit to and continually improve cultural competency initiative
PPS public sector Agencies at state and local levels: Including but not limited to Clinton County: OFA, DSS, CSB, Mental Health; Essex County CSB, Mental Health, Public Health; Franklin County CSB, Public Health, OFA; Hamilton County CSB, Mental Health, Public Health; Fulton County Public Health, Mental Health; Saratoga County Mental Health; Warren County CSB, Mental Health; Washington County CSB, Mental Health, Public Health	Help develop and execute workstream; recipients of educational programs	Subject matter expert, patient liaison; commit to and continually improve cultural competency initiative
External Stakeholders		

DSRIP Implementation Plan Project

Page 90 of 424 Run Date : 03/30/2018

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
Wilma Alvarado-Little, AlvaradoLittle Consulting,	Consultant for CCHL strategy and CCHL training strategy	Provides guidance and content to inform development of both the
LLC	development	AHI PPS CCHL Strategy and AHI PPS CCHL Training Strategy
Clinical providers, community based organizations, and public agencies not associated with the PPS	Recipients of information, community/patient liaisons source of feedback	Participate in community forums, surveys, focus groups or other opportunities to contribute feedback
Patients and caregivers; other community	Recipient of information/improved services, participate in focus	Participate in community forums, surveys, focus groups or other
members	groups and other contributions to design initiative	opportunities to contribute feedback
		Assist with coordination, development, and delivery of training
Training Vendors (TBD)	Training Vendor	activities as guided by the PPS training strategy and Training and
		Resources Workgroup with project manager input.

DSRIP Implementation Plan Project

Adirondack Health Institute (PPS ID:23)

IPQR Module 4.7 - IT Expectations

Instructions :

Please clearly describe how the development of shared IT infrastructure across the PPS will support the development and implementation of your cultural competency / health literacy strategy and the achievement of the milestones described above.

Interoperable IT infrastructure will support the Cultural Competency and Health Literacy initiative. The PPS will be able to monitor, review and analyze the demographics for the people that are being served to be sure that appropriate interventions are being developed. If demographics shift, the Project Team and Workforce Committee will be able to develop appropriate training and education materials to address the changes. The interoperable systems will enable collecting utilization data and tracking outcomes for our target population.

IPQR Module 4.8 - Progress Reporting

Instructions :

Please describe how you will measure the success of this organizational workstream.

The AHI PPS will update the demographic information for the PPS region annually, including specific health disparities identified in the CNA and the gap analysis, to track any potential changes in the population over time.

The Community and Beneficiary Engagement Committee and Workforce Committee will develop metrics to track the effectiveness of the initiatives. These will include patient outcomes, evaluation results from trainings, and results from the focus groups and surveys as well as patient satisfaction results.

IPQR Module 4.9 - IA Monitoring

Instructions :

DSRIP Implementation Plan Project

Adirondack Health Institute (PPS ID:23)

IPQR Module 5.3 - Major Risks to Implementation & Risk Mitigation Strategies

Instructions :

Please describe the key challenges or risks that you foresee in creating and implementing your IT governance structure, your plans for data sharing across your network, your approach to data security and confidentiality, and the achievement of the milestones described above, including the potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

IT systems risks and challenges that impact most, if not all, of the AHI PPS projects, specifically 2.a.i, 2.a.ii, 2.a.iv, 2.d.i, 3.a.i and 4.b.ii IT risks and challenges include:
Variation in data collection, sharing and security capabilities among partner organizations.
 Inconsistent implementation of data sharing standards by EHR vendors.
DOH restrictions on the use of Medicaid claims data critical to the success of the AHI PPS.
Competing initiatives among AHI PPS partners that have individualized metrics and requirements.
Limited RHIO resources available to implement connectivity
 Competing obligations, priorities and time constraints to the AHI PPS and partners' employers.
AHI PPS partners engaged with multiple RHIOs.
The IT & DS Governance Committee working with the PMO, Quality Committee and others, as needed, will be responsible for finalizing and implementing mitigation plans. The AHI PPS strategies for mitigating the risks and challenges listed above include:
• Assisting partners with researching and obtaining the appropriate technology – messaging capability, eHR-lite or fully functioning eHR.
 Assisting practices with Transition Coaches to incorporate technology into their workflow.
• Working with eHR vendors, provider practices, and Hixny to develop standardization in the data elements included in CCD-A and other
transactions.
 Contracting with Hixny for dedicated resources to support AHI PPS partners.
• Collaborating with other PPSs and HANYS to work with DOH to find an appropriate compromise that will protect beneficiaries while allowing all PPSs to use the data to achieve DSRIP goals.
• Utilization of the MAPP and Salient tools even with the inherent risk of siloing data that will make practice transformation and achievement of AHI PPS goals more difficult.
• Align metrics and processes where possible with other initiatives and deploy PHM and performance reporting solutions that support multiple metric sets using the same practice based sources to reduce impact on PPS partners.
• Transition coaches, data analysts, and human capital from larger PPS partners to assist smaller PPS organizations with implementation of appropriate technology and processes to support goals and deliverables.
Continuing to bring in IT resources to help ensure AHI PPS can support PHM, analytics and reporting needs.
AHI PPS will provide staff support to PPS committees, work groups, and project teams through PMO and other resources.
Advocating for AHI PPS members to join a single RHIO and reliance on SHIN-NY development to provide adequate data sharing between RHIOs.

DSRIP Implementation Plan Project

Adirondack Health Institute (PPS ID:23)

IPQR Module 5.4 - Major Dependencies on Organizational Workstreams

Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

As is described throughout this implementation plan, the development of new and / or improved IT infrastructure is a crucial factor underpinning many other workstreams including, in particular, clinical integration, population health management and performance reporting. However, without the right business and financial support, the AHI PPS IT & DS Committee will not be able to drive the technological infrastructure development program to ensure the success of these workstreams. The interaction between the IT & DS and the PPS's clinical governance structure (especially the Practitioner Champions) will be vital to ensure that the IT infrastructure that we develop meets the needs of individual practitioners, providers and – particularly when it comes to population health management – the whole PPS network. During our development of the IT future state, we will work closely with the AHI PPS Finance Team to review available capital and DSRIP funding resources. Adding new technologies, interfaces, reporting and monitoring solutions, and other engagement channels within our PPS will also require additional IT staffing, which will depend heavily on the AHI PPS Workforce Strategy team. We will look to gain additional resources for IT call centers, support, analysis, and reporting. We will also look to other alternate means of staffing. Along with the need for new IT staff and systems, training the workforce to use new and expanded systems effectively will be crucial. To facilitate appropriate cooperation and communication, we recommend that members of the IT & DS Committee be embedded in the other relevant AHI PPS governance committees. The IT & DS Committee should also receive regualr updates from the PMO, Regional Health Innovation Teams (RHIT) and Project Champions or teams.

Page 101 of 424 Run Date : 03/30/2018

DSRIP Implementation Plan Project

Adirondack Health Institute (PPS ID:23)

IPQR Module 5.5 - Roles and Responsibilities

Instructions :

Please list and elaborate upon the key people/organizations responsible for this organizational workstream and describe what their responsibilities involve.

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities
Data, Infrastructure, and Security Lead	AHI Technology Director, Dwane Sterling	Data security and confidentiality plan, Data Exchange Plan
Project Management Lead	AHI Technology Director, Dwane Sterling	Project Portfolio, Risk Register, Vendor Contracts, Progress Reports
Analytics and Reporting Lead	Director of Analytics, Linda Dahlman	Business Analytics, Metrics Implementation and Reporting
Application Lead	AHI Technology Director, Dwane Sterling	Application Strategy and Data Architecture

DSRIP Implementation Plan Project

Adirondack Health Institute (PPS ID:23)

IPQR Module 5.6 - Key Stakeholders

Instructions :

Please identify the key stakeholders involved, both within and outside the PPS.

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities		
Internal Stakeholders	· ·			
Practitioner Champions	Interface between IT Transformation Group and front-line end users	Input into system design / testing and training strategy		
Regional Health Innovation Teams (RHITs)	Interface between IT Transformation Group and front-line end users	Input into system design / testing and training strategy/integrati of IT & DS priorities into projects		
PMO Manager	Responsible for designing and managing EHR interfaces, and interoperability	Patient Engagement Plan		
Chief Compliance Officer	Approver	Data Security Plan		
External Stakeholders				
Hixny	RHIO Platform Lead	Roadmap for delivering new capabilities		
Consumers & Families	Recipients of care delivered by PPS partners, Partners in developing processes and systems	Roadmap for delivering new capabilities		
Registries	Providers and Consumers of PPS data	Roadmap for delivering new capabilities		
Public Health Departments	Providers and Consumers of PPS data, Partners in developing Community Health Needs Assessments and Plans	Roadmap for delivering new capabilities		
eHR Vendors	Developing PPS Participant Data Collection and Sharing Capabilities	Roadmap for delivering new capabilities		

DSRIP Implementation Plan Project

Adirondack Health Institute (PPS ID:23)

IPQR Module 5.7 - Progress Reporting

Instructions :

Please describe how you will measure the success of this organizational workstream.

Our IT & Data Sharing Governance Committee will establish expectations with all partners to supply key artifacts and monthly reports on key performance metrics. We will monitor the development and acquisition of key data sharing capabilities across the network and perform ongoing use and performance reports. These will be necessary to ensure continuing progress against our IT change management strategy. Follow-up specific IT questionnaires and surveys will be used periodically to identify any additional gaps, under/non-utilization, or the need for re-training. Our AHI PPS IT Transformation Group will be responsible for engaging attributed members in QEs and will report on this to the AHI PPS PMO. The FITG will also report to the Clinical Quality Committee on the level of engagement of providers in new / expanded IT systems and processes, including data sharing and the use of shared IT platforms. In addition, the FITG will use the following ongoing performance reports to measure continuous performance of all partners: 1. Annual Gap Assessment Report - Partner adoption of IT infrastructure, enablement of clinical workflows, and application of population analytics 2. Annual refresh of IT Strategic Plan 3. Annual Data Security Audit Findings and Mitigation Plan 4. Monthly workforce training compliance report 5. Monthly Project Portfolio 'Earned Value' report for all IT related projects within DSRIP project portfolio 6. Monthly HIE usage report depicting turnaround time for various data elements 7. Weekly shared services performance report 8. Weekly Performance report on vendor agreed SLAs AHI PPS IT Transformation Group will also conduct a quarterly survey of IT stakeholders (in particular the users of new infrastructure / systems) to derive qualitative assessments of user satisfaction.

Task A 2. The Leaders identified in task #1 are convened, receive information on their role and engage in dialogue to contribute to the development of the role, and needs for training / professional development are identified. Any needs identified are communicated to Workforce	In Progress	Leaders Convene	04/01/2016	12/31/2017	04/01/2016	12/31/2017	12/31/2017	DY3 Q3	

DSRIP Implementation Plan Project

Milestone/Task Name	Status	Description	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter	AV
Committee(s).									
Task3. Establish a process for communicating performance related data (including, at minimum, the data provided to the PPS by NYS DOH) to leaders, teams, and providers, as needed for their specific role. Establish interim mechanism/tools for reporting (utilizing existing templates, dashboards, etc.), while building the PPS-wide Performance Measurement system.	Completed	Process for communicating	11/12/2015	06/30/2016	11/12/2015	06/30/2016	06/30/2016	DY2 Q1	
 Task A 4. Perform a current state assessment of existing reporting processes across the PPS and define target state outcomes. Assessment will include focus on Behavioral Health and other provider types that may not have eHRs or similar systems with readily available reporting capability. A. Identify work arounds for practices that do not possess advanced data collection and reporting capabilities. B. Develop Remediation Plans for practices that do not reporting capabilities. 	In Progress	Assessment	07/01/2015	12/31/2017	07/01/2015	12/31/2017	12/31/2017	DY3 Q3	
Task5. Develop initial PPS-wide PerformanceMeasurement system for medical record-basedoutcome measures, as well as for those processmeasures that our project development groupsare identifying as driving the outcomes we aim torealize. The initial system will likely consist of aset of manual reports that will need to beaggregated by AHI PPS, combined with reportsfrom the MAPP tool until a more robust reportingprocess can be put in place. The final statesolution will be dependent on establishing robust,consistent connectivity with all of the practicesand implementation of a robust PHM solution.This will be defined in the Target State	Completed	Develop system	11/12/2015	09/30/2016	11/12/2015	09/30/2016	09/30/2016	DY2 Q2	

DSRIP Implementation Plan Project

Milestone/Task Name	Status	Description	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter	AV
Outcomes.									
Task 6. Reach agreement with at least one MCO to exchange key information (including additional quality metrics). AHI PPS will leverage the payor relationships developed through the Adirondack Medical Home Initiative (AMHI), an all payor Medical Home program in operation since 2010, as well as AHI's Health Home program which has been in operation since 2012.	Completed	MCO agreement	11/12/2015	09/30/2016	11/12/2015	09/30/2016	09/30/2016	DY2 Q2	
Task A 7. In consultation with the Finance Committee, the Clinical Quality Committee will establish PPS-wide standardized care practices. These standards will be monitored and updated on a regular basis.	In Progress	Standardized care practice	11/12/2015	12/31/2017	11/12/2015	12/31/2017	12/31/2017	DY3 Q3	
Task 8. Establish regular two-way reporting structure to govern the monitoring of performance based on both claims-based, non-hospital CAHPS DSRIP metrics and DSRIP population health metrics (using AHI PPS' MAPP PPS-specific Performance Measurement Portal).	Completed	Two-way reporting	07/01/2015	09/30/2017	07/01/2015	09/30/2017	09/30/2017	DY3 Q2	
Task 9. Finalize layered PPS-wide reporting structure: from the individual providers, through their associated projects' metrics and the Project Leadership Teams, up to the AHI PPS PMO. Performance and improvement information made available by the state (MAPP but also the further evolving Salient SIM tool) will be appropriately integrated into this reporting structure. This reporting structure will define how providers are to be held accountable for their performance against PPS-wide, statewide and national benchmarks.	Completed	Finalize reporting structure	07/01/2015	09/30/2016	07/01/2015	09/30/2016	09/30/2016	DY2 Q2	
Task 10. Develop performance reports for PMO,	Completed	Roadmap	07/01/2015	09/30/2017	07/01/2015	09/30/2017	09/30/2017	DY3 Q2	

DSRIP Implementation Plan Project

Milestone/Task Name	Status	Description	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter	AV
Clinical Quaity, Finance and other Governing Committees as appropriate. Establish roadmap for development of reporting dashboards, with different levels of detail for reports depending on the audience. Once developed, the monthly Executive Body dashboard reports will show on one (digital) page the overall performance of the PPS. The various dashboards will be linked and will have drill-down capabilities.									
Milestone #2 A Develop training program for organizations and individuals throughout the network, focused on clinical quality and performance reporting.	In Progress	Finalized performance reporting training program.	07/01/2017	12/31/2017	07/01/2017	12/31/2017	12/31/2017	DY3 Q3	NO
Task1. After performing current state analyses and designing workflows, the AHI PPS WorkforceStrategy Team will create a dedicated training team to integrate new reporting processes and clinical metric monitoring workflows into retraining curriculum. This curriculum will be coordinated with NCQA recognition efforts as much as possible.	Completed	Form training team	07/01/2016	09/30/2016	07/01/2016	09/30/2016	09/30/2016	DY2 Q2	
Task2. This dedicated training team will develop a framework for a performance reporting/ rapid cycle evaluation training regime. Initially, this regime will be dependent on availability of local reporting from the practice her. Ultimately, the PHM a performance Management system will be utilized.	Completed	Develop framework	07/01/2016	09/30/2016	07/01/2016	09/30/2016	09/30/2016	DY2 Q2	
Task3. Deliver training module to practitionerchampions and AHI PPS' Regional HealthInnovation Teams (RHITs); use their feedback torefine training program for practitionersthroughout the network, including specificprogram for new hiresA. Identify potential training needs that are	Completed	Send model to be refined	07/01/2016	09/30/2016	07/01/2016	09/30/2016	09/30/2016	DY2 Q2

Adirondack Health Institute (PPS ID:23)

IPQR Module 6.3 - Major Risks to Implementation & Risk Mitigation Strategies

Instructions :

Please describe the key challenges or risks that you foresee in implementing performance reporting structures and processes and effective performance management within your network, including potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

Designing and implementing a standard reporting workflow that will functionally work for the entire PPS will be a significant challenge due to:

• the geographic spread of the AHI PPS network - nine counties over 11,000 square miles;

• relatively small median practice size diminishes confidence in metrics at an operational level

• the diversity of the AHI provider network; and,

• long-standing professional independence with differing reporting cultures and workflows.

Performance management is at risk since AHI will rely on eHRs for initial clinical quality performance reporting. AHI PPS practice coaches and analysts will support the practices by leveraging experience and tools from practices with similar systems and characteristics. To achieve performance excellence, AHI will employ the following strategies to achieve performance excellence.

• Practice Champions will be engaged to assist the wide range of PPS participants with reaching consensus on the adoption of appropriate practices and standards across the PPS. Since many of the practices are engaged in other programs with their own set of goals, metrics, and standards, Practice Champions will also work with the participants to achieve appropriate alignment and consensus on the DSRIP standards.

• The board, quality committee, and practitioner champions will form a structure that requires adherence to performance reporting processes, and clearly identified accountability for specific outcomes, either on a project basis or across the whole PPS. Accountability will be designed to ensure front-line practitioners have the autonomy to determine the performance measures requiring greater emphasis. Reporting of performance measures will inform PPS leadership to the extent of improvement and areas of opportunity in patient care delivery.

In addition to improved quality of care, AHI Practitioner Champions will be responsible for encouraging practitioners throughout the network to participate in the PPS performance reporting systems. These professional incentives (improving quality of care) will be coupled with financial incentives, such as financial / personnel support for small practices to help them streamline their operations to support the increased reporting burden.

IPQR Module 6.4 - Major Dependencies on Organizational Workstreams

Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

Our success with Performance Reporting has significant dependence on our Governance workstream. Without effective leadership and a clearly defined organizational structure, with clear responsibilities and lines of accountability, our ability to create a common culture and to embed performance reporting structures and processes will be severely hampered. The Workforce Strategy workstream is also an important factor in our efforts to developing a consistent performance reporting culture and to

DSRIP Implementation Plan Project

Adirondack Health Institute (PPS ID:23)

embed the performance reporting framework we will establish. Training on the use of these systems – as well as the vision of Forestland PPS as an organization where practitioners don't accept less than excellent quality – will need to be a central part of our broader training strategy for all the staff who are impacted by our workforce transformation.

The success of performance reporting relies on quick and accurate transfers of vital performance information. If providers cannot gather the right information, or an oversight committee fails to gather and distribute the aggregated data in a timely manner, the data will not be reported in such a way that it can be acted upon to improve clinical outcomes and ultimately improve performance throughout the network. A crucial dependency for our successful implementation of a performance reporting culture and processes is the work of the AHI PPS IT & DS Committee to customize existing systems and implement the new IT systems that will be required to support our reporting on patient outcome metrics.

Practitioner Engagement and Clinical Integration will both be absolutely crucial to the success of our efforts to create a common performance culture throughout the PPS network, and to embed the new performance reporting practices within business-as-usual clinical practice.

DSRIP Implementation Plan Project

Adirondack Health Institute (PPS ID:23)

☑ IPQR Module 6.5 - Roles and Responsibilities

Instructions :

Please list and elaborate upon the key people/organizations responsible for this organizational workstream and describe what their responsibilities involve.

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities
Project Leadership Teams	AHI PPS PMO, Practice Champions, RHITs	Responsible for project management of the 11 DSRIP projects, including their role in the performance reporting structures and processes in place across the PPS
Project-specific Finance / Clinical Performance Monitoring Leads	Triad Leaders of the Population Health Networks (PHNs)	Members of Project Leadership Teams Ultimately accountable for quality of patient care and financial outcomes per project Accountable for the realization and continuous improvement of the multi-disciplinary care pathways underlying their respective projects
Practitioner Champions	Adirondack Medical Home Physician Leaders and new Champions to be recruited.	Responsible for spreading and embedding common culture of continuous performance monitoring and improvement throughout Practitioner Professional Peer Groups Responsible to Clinical Quality Committee for practitioners' involvement in performance monitoring processes
AHI PPS IT & DS Committee	Please see Committee Member template.	Responsible for ensuring the implementation, support, and updating of all IT and reporting systems to support performance monitoring framework. Also responsible for ensuring that the systems used provide valuable, accurate, and actionable measurement for providers and staff.

DSRIP Implementation Plan Project

Adirondack Health Institute (PPS ID:23)

IPQR Module 6.6 - Key Stakeholders

Instructions :

Please identify the key stakeholders involved, both within and outside the PPS.

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
Internal Stakeholders		
IT Staff within individual provider organizations	Reporting and IT System maintenance	Monitor, tech support, upgrade of IT and reporting systems.
Providers	Organizations immediately responsible for delivering on the performance monitoring processes established across the PPS.	Promote culture of excellence Employ standardized care practices to improve patient care outcomes.
AHI PPS Steering Committee	Ultimately responsible for AHI PPS meeting or exceeding our targets	 Prioritizing and improving patient care and financial outcomes for the entire AHI PPS. Act as a high-profile, organization-wide champion for a common culture, standardized reporting processes, care guidelines, and operating procedures. Hold monthly executive meetings with patient outcomes as the main agenda item and will review patient outcome reports prepared by the sub-Committees.
Forestland PPS Finance Committee	Responsible for collecting, analyzing, and handling financial outcomes from performance management system	Will elect key decision makers to champion the performance management cause within the DSRIP projects, and to interface with the Clinical Quality Committee.
AHI PPS Clinical Quality Committee	Ultimately responsible for all clinical quality improvement across the whole network	Monthly Executive Report for the Steering Committee which includes patient care metrics updates. Will elect several key decision makers to champion the performance management cause within the DSRIP projects, and will interface with the Finance Committee.
External Stakeholders		•
Managed care organizations	Will provide key information to the Forestland PPS. Will also be necessary for arranging shared shavings agreements with the PPS in the later stages of DSRIP.	Provide data to PPS Shared savings
Patient representative organizations	Provide patient feedback to support performance monitoring and performance improvement	Input into performance monitoring and continuous performance improvement processes

DSRIP Implementation Plan Project

Adirondack Health Institute (PPS ID:23)

IPQR Module 6.7 - IT Expectations

Instructions :

Please clearly describe how the development of shared IT infrastructure across the PPS will support your approach to performance reporting.

Our PPS will be using a number of IT solutions to accurately measure, monitor, and report on DSRIP and non-DSRIP metrics. To this end, our IT & DS Committee will be responsible for interfacing with the clinical and finance leads of the DSRIP projects to ensure that dashboards, reports, and metrics-gathering software are accurate and have no usability issues.

Initially, existing performance reporting structures within the larger provider organizations in the PPS will be leveraged to provide the staff and IT infrastructure needed to build up the evolving PPS-wide Performance Measurement system as planned. In the interim, a system of Excel files transferred from the state's MAPP tool and Salient's SIM tool, to the leading workstream committee, through the project leads, and down to the individual providers will serve as a bridge before the robust final system is fully ready for deployment. We are currently considering several options for the procurement of PPS-wide performance reporting systems, including a collaborative buying solution with the region's ACO or our neighboring PPS, NCI. The final system will have to have the capabilities to aggregate information on projects & care processes from the providers to the workstream lead, and from the state to the providers, in a way that is accessible, while also sufficiently secure to protect patient information.

IPQR Module 6.8 - Progress Reporting

Instructions :

Please describe how you will measure the success of this organizational workstream.

This workstream's success will be measured by how our providers' understanding of their performance is improved by our implementation of performance measurement. We will continually measure the level of engagement and involvement of providers in the performance reporting systems and processes, we will define metrics to measure providers' involvement in the PPS performance reporting structure (e.g. active users of performance reporting IT systems, involvement in feedback discussions with Clinical Quality Committee about performance dashboards). We will also set targets for performance against these metrics. The Practitioner Champions and the Project-specific Performance Monitoring Leads will be held accountable for driving up these levels of involvement.

Our front-lines will measure the outcomes that matter most to patients, and use our reporting and IT systems to monitor, evaluate, and identify the contributing processes and intermediate outcomes. They will be surveyed and interviewed to determine the level at which they find that the performance reporting system provides them with the right information, and the level at which they find that the information is clear and – most importantly – actionable.

Performance reports will be compiled into the Executive Report, which will be the top item during the monthly Executive Body meetings. The quarterly reports will show the variation in patient care outcomes between quarters, which will be easily accomplished using our monthly model. Tracking change in the metrics included on these dashboards over time will be the primary tool we use to evaluate the impact of our performance

NYS Confidentiality – High

DSRIP Implementation Plan Project

Adirondack Health Institute (PPS ID:23)

IPQR Module 7.3 - Major Risks to Implementation & Risk Mitigation Strategies

Instructions :

Please describe the current level of engagement of your physician community in the DSRIP program and describe the key challenges or risks that you foresee in implementing your plans for physician engagement and achieving the milestones described above. Describe any potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

The success of any collaborative effort requires effective communication and active engagement by all participants. Practitioner communication and engagement for AHI will be challenged due to:
The large rural geographic spread of the AHI PPS provider network.
• The degree and extent of demands on providers by numerous initiatives currently underway in the region including, MSSP ACO, Adirondack Medical Home, payer specific programs, NCQA recognition, as well as adapting to the change to value-based payment models (including the proposed MACRA legislation)
 Loss of institutional knowledge due to staff turnover during the duration of the DSRIP program.
Clinical resistance to change and shift in organizational culture.
These challenges will be mitigated by:
Adirondack Pods and the Regional Healthcare Innovation Teams (RHITs) will be a catalyst for training for smaller provider organizations.
 Practitioner Champions will play a central role in the group training and education sessions for smaller provider organizations.
• Transformation coaches will provide assistance via remote and on-site consulting; data and reporting analysts will coordinate deployment of IT
and data reporting infrastructure with the partners to minimize duplication and impact on the practices and partner organizations.
 Exploring innovative approaches to implementing organizational change throughout the PPS.
• Train the trainer program to include electronic and printed training materials to promote easily accessible and convenient in-service opportunities
to engage practitioners during onboarding and at any point during the partner-provider relationship.
 Practitioner Champions will be the voice for evidence-based change which will be reinforced in all DSRIP communications.
 Utilization of the LinkedIn platform to identify examples of best practice that will be shared with PPS partners.

IPQR Module 7.4 - Major Dependencies on Organizational Workstreams

Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

Our plans for practitioner engagement depend on effective, rapid and easy-to-access communications tools. We intend to continue to use a combination of communication tools, inclusive of our Vertical Response Emails, Website Blog, Go To Meetings and Webinars, and we intend to utilize the LinkedIn platform to facilitate communication and best practice sharing between practitioners working in different provider organizations.

Transformation Coaches are available throughout the PPS to provide on-site and remote consulting to practices in their transformation efforts.

NYS Confidentiality – High

DSRIP Implementation Plan Project

Adirondack Health Institute (PPS ID:23)

The role of the Practitioner Champions is central to our plans for practitioner engagement. It is important that they are able to play the role we intend them to play in the governance structure – advocating to the AHI PPS Steering Committee on behalf of the practitioners they represent and communicating information back down to those practitioners effectively.

To this end, our practitioner engagement is dependent on an effective governance structure and processes. Additionally, the Clinical Integration, Population Health Management (PHM), Performance Reporting, and Financial Sustainability work streams are integral to practitioner engagement. Making sure the practitioners have a good understanding of these work stream relationships and how these will drive payment within a valuebased payment model is integral to the financial sustainability of the PPS.

DSRIP Implementation Plan Project

Adirondack Health Institute (PPS ID:23)

☑ IPQR Module 7.5 - Roles and Responsibilities

Instructions :

Please list and elaborate upon the key people/organizations responsible for this organizational workstream and describe what their responsibilities involve.

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities				
AHI PPS Director of Communications	AHI Communications Coordinator, Phil Kahn	Oversee the development and implementation of the				
		communication aspects of the practitioner engagement strategy				
AHI PPS Workforce Manager	Kelly Owens	Oversee the development and implementation of the practitioner				
		training program				
		Participate in development of the communication and engagement

IPQR Module 7.6 - Key Stakeholders

Instructions :

Please identify the key stakeholders involved, both within and outside the PPS.

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities			
Internal Stakeholders	· ·				
Practitioners throughout the network	Target of engagement activities	Attend training sessions; report to relevant Practitioner Champions			
AHI PPS Workforce Transformation Group	Oversight of all training strategies, including practitioner education / training described above	Input into practitioner education / training plan			
Clinical Quality Committee	Governance committee on which practitioner Champions sit	Monitor levels of practitioner engagement; forum for decision making about any changes to the practitioner engagement plan			
External Stakeholders					
Chambers, local businesses, social and civic organizations	Education to members about the AHI PPS initiatives	Outreach			
Rural Health Network	Ensure rural physicians' communication plans support the AHI PPS initiatives	Advocacy/outreach			
Patient and Families	Recipients of improved health care services can support PPS advocacy efforts	Advocacy/Outreach			
Community Benefit Organizations	Content experts and patient liaison	Provide assistance in the development and execution of the work stream			

DSRIP Implementation Plan Project

Adirondack Health Institute (PPS ID:23)

IPQR Module 7.7 - IT Expectations

Instructions :

Please clearly describe how the development of shared IT infrastructure across the PPS will support this particular workstream.

The development of a shared IT infrastructure across the AHI PPS will enable the PMO to better execute our practitioner engagement plan. The IT infrastructure requirements include the support of communication between practitioners, which will be important for engaging practitioners in DSRIP and for the sharing of best practice(s). This is true both within the AHI PPS and between PPSs throughout the state. We are currently using LinkedIn, several project teams have user groups, and additional ones will be formed.

The AHI PPS is also planning to utilize Performance Logic's DSRIP Tracker for managing the DSRIP projects selected and will utilize the functionality within this tool as part of the engagement plan. This web-based project management tool will enable transparency and collaboration among participating partners within each project.

The ability for providers to share clinical information easily will also be important, not just for the improvements in clinical integration but also for the ongoing buy-in of individual practitioners. Hence, this infrastructure will include the input of Practitioner Champions and will be critical to the delivery of our practitioner engagement education and training materials.

IPQR Module 7.8 - Progress Reporting

Instructions :

Please describe how you will measure the success of this organizational workstream.

Measuring the success of the PPS practitioner engagement plan will begin with identification of Practitioner Champions. Input from these champions will contribute toward the progress reporting that will include the attendance levels at the practitioner engagement training events.

Additionally, questionnaires pre- and post-training will be designed to assess the impact of the DSRIP program training sessions. These will be designed in collaboration with our workforce transformation team. The results of these surveys will serve as an ongoing indicator of the success and required improvements to be made to our practitioner engagement plan.

We anticipate setting a target of delivering in-person education & training to a majority of practitioners in our network. We will use this metric to monitor the progress of this work stream. In addition, we will monitor the attendance at practitioner training events. The design of these training events will involve specific targets being set for the number of attendees per training.

Our Practitioner Champions will be responsible for generating interest and involvement in these training programs and will be held accountable against the participation targets set in the programs' design phase.

The use of our practitioner discussion forums on the MIX platform will be another indicator of the level of engagement of practitioners in the DSRIP program. It will also allow us to identify specific groups of practitioners that are less engaged.

NYS Confidentiality – High

DSRIP Implementation Plan Project

Adirondack Health Institute (PPS ID:23)

The Practitioner and Regional Champions will report regularly to the PMO and Clinical Quality Committee on the levels of engagement (and coordination and integration) they see amongst the group they represent.

Section 08 – Population Health Management

IPQR Module 8.1 - Prescribed Milestones

Instructions :

Please enter and update target dates, as well as breakdown tasks with target dates for prescribed milestones. For milestones that are due within the reporting period, documentation is required to provide evidence of milestone achievement.

Any explanations regarding altered or missed target commitments must be included within the textbox, not as narrative within uploaded documentation.

Milestone/Task Name	Status	Description	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter	AV
Milestone #1 Develop population health management roadmap.	In Progress	 Population health roadmap, signed off by PPS Board, including: The IT infrastructure required to support a population health management approach Your overarching plans for achieving PCMH 2014 Level 3 certification in relevant provider organizations Defined priority target populations and define plans for addressing their health disparities. 	04/01/2015	12/31/2017	04/01/2015	12/31/2017	12/31/2017	DY3 Q3	NO
Task 1. The AHI PPS will work closely with the Adirondacks ACO, Adirondack Medical Home Initiative, AHI Health Home, Adirondack Rural Health Network (ARHN) and Population Health Improvement Program (PHIP) to develop the overall population health management approach and roadmap. This collaboration will continue beyond the planning phase and may include conducting an inventory of available data sets with individual demographic, health, and community status information, to supplement data available through the MAPP tool and/or other platforms.	Completed	Collaborate with other initiatives to develop the overall population health management approach and roadmap.	07/01/2015	09/30/2015	07/01/2015	09/30/2015	09/30/2015	DY1 Q2	
Task2. The AHI PPS will utilize consulting services toassist in developing a proposed IT infrastructurethat will be required to support the populationhealth management needs of the PPS. The	Completed	Utilize consulting services to develop IT infrastructure	07/01/2015	09/30/2015	07/01/2015	09/30/2015	09/30/2015	DY1 Q2

Milestone/Task Name	Status	Description	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter	AV
participating partners to finalize the PPS-wide roadmap for achieving NCQA 2014 PCMH Level 3 recognition. The scope of work for this project manager will be to assess current state with regard to PCMH 2014 Level 3 recognition, identifying key gaps and developing an overarching plan to achieve Level 3 recognition for all relevant providers.									
Task A8. Refine priority clinical issues from the Community Needs Assessment (at a whole-PPS level and also specific priorities for specific geographic areas) to ensure alignment between undertaken projects and clinical priorities, with particular focus on targeted population. Solicit participating provider feedback before finalization.	In Progress	refine priority clinical issues form CNA at a whole PPS level	10/01/2015	12/31/2017	10/01/2015	12/31/2017	12/31/2017	DY3 Q3	
Task A9. Develop care guidelines for providers on priority clinical issues; establish metrics for each clinical area to monitor progress in managing population health.	In Progress	Develop Care guidelines for providers on priority clinical issues	10/01/2015	12/31/2017	10/01/2015	12/31/2017	12/31/2017	DY3 Q3	
Task 10. AHI PPS Practice Transformation Team (Project 2aii) to finalize PPS-wide roadmap for achieving NCQA 2014 PCMH Level 3 recognition for all relevant provider sites. The project management resource dedicated to project 2.a.ii will work with the participating partners to finalize the PPS-wide roadmap for achieving NCQA 2014 PCMH Level 3 recognition for all relevant providers.	Completed	Practice Transformation Team to finalize roadmap for achieving NCQA 2014 PCMH Level 3 recognition	10/01/2015	12/31/2015	10/01/2015	12/31/2015	12/31/2015	DY1 Q3	
Task 11. Deploy staff support at provider level (as part of practitioner engagement training plan) to train providers to use and apply information learned from the registries; how to implement established care guidelines; develop disease pathways etc.	Completed	Deploy staff support	10/01/2015	06/30/2016	10/01/2015	06/30/2016	06/30/2016	DY2 Q1	

DSRIP Implementation Plan Project

Milestone/Task Name	Status	s Description		Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter	AV
Task12. The AHI PPS Clinical Quality Committee toreview and finalize the population healthmanagement roadmap for approval by the PPSSteering Committee.	Completed	Clinical Quality Committee to review and finalize PHM o		09/30/2016	01/01/2016	09/30/2016	09/30/2016	DY2 Q2	
Milestone #2 Finalize PPS-wide bed reduction plan.	In Progress	PPS Bed Reduction plan, signed off by PPS Board. This should set out your plan for bed reductions across your network, including behavioral health units/facilities, in line with planned reductions in avoidable admissions and the shift of activity from inpatient to outpatient settings.	10/01/2015	12/31/2017	10/01/2015	12/31/2017	12/31/2017	DY3 Q3	NO
Task A 1. The AHI PPS will establish a process for monitoring service utilization, as needed. In doing so, the AHI PPS will leverage one of their committee's (i.e. Network Committee or Quality Committee) in performing this function. This committee will report into the Program Management Office (PMO) and will be responsible for monitoring and reporting on reductions in avoidable hospital use, as well as modeling the impact of all DSRIP projects on inpatient activity.	In Progress	Establish a process for monitoring service utilization	10/01/2015	12/31/2017	10/01/2015	12/31/2017	12/31/2017	DY3 Q3	
Task 2. The AHI PPS will draft a model that forecasts the impact of all DSRIP projects on avoidable hospital use and utilization – both in terms of the impact on hospital services and in terms of the demand for community-based services (model will be established by DY1, Q4 and updated regularly with activity / utilization data to provide 'live' and 'forecast' pictures).	Completed	Draft a model to forecast the impact of DSRIP projects	10/01/2015	06/30/2016	10/01/2015	06/30/2016	06/30/2016	DY2 Q1	
Task 3. Based on this modeling and in consultation with provider network, the AHI PPS will establish high-level forecasts of the following (this forecast capacity model will be updated on a regular basis throughout the 5 years). a. Reduced avoidable hospital use over time	Completed	High level forecasts	01/01/2016	09/30/2017	01/01/2016	09/30/2017	09/30/2017	DY3 Q2	

DSRIP Implementation Plan Project

Milestone/Task Name	Status	Description	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter	AV
 b. Changes in required inpatient capacity; and c. Resulting changes in required community / outpatient capacity 									
Task4. The AHI PPS will work with providersimpacted by the forecast capacity change todetermine their own 'first draft' capacity changeplan.	Completed	Forecast capacity change	06/01/2016	09/30/2017	06/01/2016	09/30/2017	09/30/2017	DY3 Q2	
 Task 5. The AHI PPS PMO to lead consultation on first draft capacity change plan. Consultation will include Hospitals, Nursing Homes and local county Directors of Community Services (DCSs), as well as the AHI PPS Quality and/or Network Committee. A. Distribute Draft Plan to key stakeholders and impacted providers. B. Collect feedback through various means including in-person and web-enabled work sessions. C. Document Feedback and proposed changes. 	Completed	First draft capacity change plan	06/01/2016	09/30/2017	06/01/2016	09/30/2017	09/30/2017	DY3 Q2	
 Task A 6. The AHI PPS to finalize and publish final capacity change / bed reduction plan and schedule of annual updates on capacity changes across the network A. Obtain consensus on modifications to draft plan. B. Incorporate approved modifications into final plan. C. Gain approval from AHI PPS Quality and/or Finance Committees. D. Publish Final Plan using various means, including AHI website. 	In Progress	Finalize and publish capacity change/bed reduction plan	06/01/2016	12/31/2017	06/01/2016	12/31/2017	12/31/2017	DY3 Q3

IPQR Module 8.3 - Major Risks to Implementation & Risk Mitigation Strategies

Instructions :

Please describe the key challenges or risks that you foresee in implementing these cross-cutting organizational strategies, including potential impacts on specific projects and, crucially, any risks that will undermine your ability to achieve outcome measure targets.

The AHI PPS faces challenges to achieving a cohesive, integrated, and comprehensive approach to health care delivery that focuses on preventative care. The barriers to success are:

• Disconnect between population health management issues identified at the system level and care delivery at the practice/provider level. For example, insufficient access to cardiology providers in a geographic location where cardiovascular disease is a priority.

• Prolonged focus on analysis of a given population's health needs at the expense of responding quickly to developing new services or interventions.

• The risk that a population health management approach, described in provider training and education, will become reactive over time resulting in patient-facing care managers filling clinical care gaps for individual patients immediately which is inefficient and leads to provider fatigue.

AHI will mitigate the risks to achieving integrated health care in the following ways:

• Clinical integration and practitioner engagement will focus on integrating care management through the development of cross-disciplinary teams for multi-morbid patient groups.

• Care managers will assume an active role in the continuous management of patient pathways and have consistent engagement with the care management team.

• Utilize value stream mapping to identify clinical priorities with the greatest opportunity for eliminating waste and where the implementation of new, efficient support systems are likely to have the greatest effect at generating momentum amongst PPS partners.

· Reinforcement of the difference between population management-based care delivery and patient complaint-based delivery.

• AHI PPS will work through our committee structure, especially the IT & DS as well as CG & Quality, to deploy technology to complement existing capabilities while providing a consistent platform throughout the region.

IPQR Module 8.4 - Major Dependencies on Organizational Workstreams

Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

The development of effective population health management across the AHI PPS is highly dependent on the successful implementation of the following other work streams.

Practitioner Engagement: The PPS needs a strong and well-executed practitioner engagement plan that is focused on getting all of the practitioners on board with achieving our collective DSRIP goals. AHI's approach to decision support is partnering AHI Practice Transformation

NYS Confidentiality – High

DSRIP Implementation Plan Project

Adirondack Health Institute (PPS ID:23)

resources with practices to leverage the PHM data available to enable meaningful changes to how health care is provided. We are committed to ensuring that primary care physicians in our network are armed with the tools to deliver the value that they are uniquely suited to provide to their patients and the health care system.

Clinical Integration: Population Health Management is dependent on effective clinical integration across the full continuum of care. This requires a significant investment in Healthcare IT that allows for rapid communication and meaningful data sharing. A robust and functional set of data gathering and monitoring tools is required within a population health management solution in order to be successful. Our IT Systems and Processes work stream will utilize existing investments within our region and identify the additional IT needs that will provide the population-level health metrics required to monitor the impact and success of our population health management work stream within the AHI PPS.

IT Systems and Processes: Data analysis is an integral part of PHM. Reports including mortality, health status, disease prevalence and patient experience must be available to providers, care managers and practice administrators to enable practices to measure cost and patient experience on a population-wide basis.

DSRIP Implementation Plan Project

Adirondack Health Institute (PPS ID:23)

☑ IPQR Module 8.5 - Roles and Responsibilities

Instructions :

Please list and elaborate upon the key people/organizations responsible for this organizational work stream and describe what their responsibilities involve.

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities
Population Health Management Work stream Lead	AHI CIO, Bob Cawley	Oversee the implementation of the population health management strategy Report its progress to the PPS executive body
Program Management Office: Service Utilization Monitoring Team	AHI Director, Reporting & Analytics, Linda Dahlmann, and Partner- based resources	Monitor the impacts of DSRIP projects in terms of inpatient & community capacity; oversee the modeling and implementation of capacity change (including bed reductions) linked to improvements in population health management and the resulting reduction in the need for hospital-based services
AHI PPS Practice Transformation Project Team (Project 2aii)	AHI CIO, (Bob Cawley), AHI Transformation Resources (Jolene Munger) and Partner-based resources (Some PPS partners have internal supports for practice transformation, and/or established contracts for this service)	Lead the development and implementation of a PPS-wide work plan for all relevant provider sites to achieve PCMH 2014 Level 3 Recognition. Work in coordination with the PPS's central IT team to ensure population health management IT needs are procured and developed.

DSRIP Implementation Plan Project

Adirondack Health Institute (PPS ID:23)

IPQR Module 8.6 - Key Stakeholders

Instructions :

Please identify the key stakeholders involved, both within and outside the PPS.

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities		
Internal Stakeholders				
AHI PPS PMO	Oversight of DSRIP projects	Jointly responsible for Bed Reduction Plan		
Hospitals represented on the AHI PPS Bed Reduction Working Group	Stakeholder to bed reduction plan	Represented on the Bed Reduction Working Group; will sign off on any bed reduction goals set at an individual provider level		
Nursing homes represented on the AHI PPS Bed Reduction Working Group	Stakeholder to bed reduction plan	Represented on the Bed Reduction Working Group; will sign off on any bed reduction goals set at an individual provider level		
Professional Peer Groups	Key role in the adoption of population health management practices amongst their members	Active engagement in the development of training & education materials		
CBOs, including organizations focused on crime reduction, housing, and transportation	Vital component of ensuring the success of the population health management strategy	Work with care management teams in adapting care to better serve target populations		
External Stakeholders	•			
MCOs	Key partner in payment reform	Collaborate in PPS payment reforms (VBP) in line with VBP roadmap; provide insight into population health management approach to be implemented across the AHI PPS		

DSRIP Implementation Plan Project

Adirondack Health Institute (PPS ID:23)

IPQR Module 8.7 - IT Expectations

Instructions :

Please describe the current Population Health Management IT capabilities in place throughout your PPS network and what your plans are at this stage for leveraging these capabilities and/or developing new IT infrastructure.

One of the key principles of our approach to population health management is that all care will become 'data-driven'. Our IT & Data Sharing Committee and team will be responsible for ensuring that practitioners have access to the data and tools required to allow them to develop interventions and services that will address the wider determinants of population health for their local population. This effort will be facilitated by the adoption of an AHI PPS Population Health Management solution that will help our team monitor performance of both clinical and claims-based metrics and DSRIP population health metrics.

The analysis of population-level outcome data will also be the basis for our assessment of the impact of population health management on the priority groups and clinical areas identified in our population health management roadmap (see above).

The AHI PPS IT & Data Sharing Committee will also select appropriate RHIO(s), and leadership will require all partners to connect with the selected RHIO(s) to service our attributed population. This effort will be conducted in tandem with the EHR platforms, care management, and population health management systems that we have already implemented, or are currently implementing.

IPQR Module 8.8 - Progress Reporting

Instructions :

Please describe how you will measure the success of this organizational workstream.

As described above, we will monitor the impact of our population health management work stream through a combination of the DSRIP outcome measures and our own specific population health metrics.

These AHI PPS-specific metrics will be identified in the population health roadmap and will be monitored by the AHI PPS PMO and reported to the Clinical Quality Committee. For example, we believe we can augment the DSRIP outcome metrics for Domain 4.A. with additional metrics that will allow us to monitor the substance abuse issue in the AHI PPS.

Our goal will be to isolate metrics that are not wholly represented by the available DSRIP outcome measures, and to focus upon elements that our front-lines deem important, which is in line with our approach to Performance Management.

We will build continuous quality improvement into the population health road map, establishing time frames to re-evaluate the data sets, functionality of registries, and of our priority issues for population health management.

Our group of Practitioner Champions will also play a role in identifying groups of providers that have been particularly successful in tackling the

NYS Confidentiality – High

DSRIP Implementation Plan Project

Adirondack Health Institute (PPS ID:23)

broader determinants of health and having a measurable impact on population health. These groups of providers will then become case studies to spread best practice(s) across the PPS network.

IPQR Module 8.9 - IA Monitoring

DSRIP Implementation Plan Project

Milestone/Task Name	Status	Description	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter	AV
Task Utilize the results of the assessment to perform a gap analysis of the provider network involved in each project. Utilize the resources of the Target Operating Model Toolkit as appropriate, to prepare an illustration of provider / regional gaps in the elements necessary to support integration.	Completed	Gap Analysis	07/01/2016	12/31/2016	07/01/2016	12/31/2016	12/31/2016	DY2 Q3	
Milestone #2 Develop a Clinical Integration strategy.	Completed	Clinical Integration Strategy, signed off by Clinical Quality Committee, including: Clinical and other info for sharing Data sharing systems and interoperability A specific Care Transitions Strategy, including: hospital admission and discharge coordination; and care transitions and coordination and communication among primary care, mental health and substance use providers Training for providers across settings (inc. ED, inpatient, outpatient) regarding clinical integration, tools and communication for coordination Training for operations staff on care coordination and communication tools	04/01/2017	09/30/2017	04/01/2017	09/30/2017	09/30/2017	DY3 Q2	NO
Task Convene PPS Project Team 2ai. Team members include administrators, clinicians, and community-based organizations. Cross-pollinate Teams and PPS Committee membership as relevant (Finance, IT & Data Sharing, Clinical Governance & Quality, Workforce, etc.) Each Team identifies a Clinical Champion and Operational Lead.	Completed	Convene	04/01/2015	09/30/2015	04/01/2015	09/30/2015	09/30/2015	DY1 Q2	
Task PPS Project Team 2ai (Create an IDS) members participate in a facilitated workgroup to define the desired "target state". The target state includes a description of the people, processes, technology, and data, necessary to support a clinically integrated model of care.	Completed	Define Target State	10/01/2015	06/30/2016	10/01/2015	06/30/2016	06/30/2016	DY2 Q1	
Task Create the workplan (steps, dates, person / org	Completed	Workplan	10/01/2015	09/30/2016	10/01/2015	09/30/2016	09/30/2016	DY2 Q2

Adirondack Health Institute (PPS ID:23)

IPQR Module 9.3 - Major Risks to Implementation & Risk Mitigation Strategies

Instructions :

Please describe the key challenges or risks that you foresee in improving the level of clinical integration throughout your network and achieving the milestones described above. Describe potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

Successful clinical integration requires health information technology to support adherence to new clinical pathways and the ability to operate collaboratively across settings of care.
The major risks to AHI are:

Health information technology readiness; and,
Standardized care pathways across disparate organizations.

Information technology initiatives take time and resources to implement. An AHI survey revealed that most behavioral health and long-term care settings rely on paper documentation and are not connected to the RHIO.
In consideration of the current state of HIT readiness and clinical integration, AHI will mitigate the risk by:

Developing a multi-phased approach that will be limited to the extent the technology is in place to support the integrated model.
Identifying high priority HIT capabilities and devoting significant resources to establishing them early in the implementation period.
Establishing technology requirements for participation in the PPS as determined by the IT and Data Sharing Committee and Network Committee.
Relying on the Clinical Governance and Quality Committee to establish standardization of care pathways that involve providers from multiple settings.

Putting a strategic communications plan in place to encourage buy-in from key change agents, including clinicians, operations, and administration.

IPQR Module 9.4 - Major Dependencies on Organizational Workstreams

Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

The Clinical Integration Workstream relies extensively on IT Systems and Processes. The dependency on technology is significant, as discussed under Risks & Mitigation. The PPS will include clinicians and other end-users of technology in IT planning processes, to ensure systems and processes are developed with the needs of real-world users at the forefront.

Another major dependency is with Practitioner Engagement. The Clinical Governance & Quality Committee, which will set standards, needs the trust and support of practitioners throughout the network in order to be effective.

An additional dependency is with Workforce. Some providers will need training and/or professional development to acquire skills in team-based care models.

NYS Confidentiality – High

DSRIP Implementation Plan Project

Adirondack Health Institute (PPS ID:23)

☑ IPQR Module 9.5 - Roles and Responsibilities

Instructions :

Please list and elaborate upon the key people/organizations responsible for this organizational workstream and describe what their responsibilities involve.

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities
Clinical Governance & Quality Committee	Dr. John Morley, Chief Physician Executive and Mary McLaughlin, Executive Director Medical Integration	Oversees review of evidenced based guidelines and protocols, as well as quality measures. This group also focuses on workflows required to hardwire evidenced based practice changes and population health improvements. The committee shares some membership with the ACO population health committee to assure synergies whenever possible.
PHN triad leaders	We have established a Triad Leadership structure for each PHN, comprised of a physician, hospital executive and community-based organization representative with formalized roles and responsibilities outlined in a Triad Leader Support Agreement. Each Leadership Triad is supported by an AHI Executive Director who serves as a liaison for coordinating project management support. The Triad Leaders, well-known and respected in their respective regions, are uniquely qualified to serve as project leads because of their relationships and in-depth familiarity with the needs and available resources in their communities. We have established an optimized PPS Operating Model based on LEAN continuous rapid cycle improvement principles.	The triad leads have the following responsibilities: • Set Priorities for the PHN workgroups and P4P focus areas • Engage partners to assure the IDS functions efficiently and effectively • Communicate within the PHN to partners • Select and monitor innovation grants • Serve on steering committee to assure continuity across the PPS

DSRIP Implementation Plan Project

Adirondack Health Institute (PPS ID:23)

IPQR Module 9.6 - Key Stakeholders

Instructions :

Please identify the key stakeholders involved, both within and outside the PPS.

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
Internal Stakeholders		
Non-clinical service providers	Their buy-in and support of new pathways, lines of accountability, responsibility and communication will be central to the success of this workstream.	Engage in the process, including: - The consultation process; and - The training
Clinical staff	Their buy-in and support of new pathways, lines of accountability, responsibility and communication will be central to the success of this workstream	Engage in the process, including: - The consultation process; and - The training
Care Coordinators Their buy-in and support is critical for care transitions. They are part of many organizations such as MCOs, PCP, care coordination agencies, hospitals.		They participate in creating and implementing the model for care transition across the PPS.
External Stakeholders		
Patients	Care improved upon by the clinical integration of the PPS	Response to consultation on clinical integration strategy
Family members / Caregivers Communication with practitioners, particularly on behalf of children, the elderly, or those without mental capacity		Response to consultation on clinical integration strategy
Qualified Entities	HIXNY and HealthEconnects for our region. They are key to our IDS plan and data sharing.	Respond to requests for connection to the QE.
Community Based Organizations (CBOs)	Supporting the development and implementation of the clinical integration strategy	Response to consultation on clinical integration strategy

DSRIP Implementation Plan Project

Page 150 of 424 Run Date : 03/30/2018

Adirondack Health Institute (PPS ID:23)

IPQR Module 9.7 - IT Expectations

Instructions :

Please clearly describe how the development of shared IT infrastructure across the PPS will support this particular workstream.

IT is needed to ensure the availability of the right information, to the right person/provider, at the right time. Each segment of the care continuum, and the clinics/sites within that segment, will be supported by a tailored IT plan, built on their current state of readiness, and designed to move them to a level that supports their effectiveness in clinically integrated care models.

The PPS has begun to establish a technology roadmap. An IT & Data Sharing Committee has been established. The Committee will work closely with the Clinical Governance and Quality Committee. The two Committees will work together to finalize the technology roadmap.

AHI PPS is participating in a Target Operating Model (TOM) pilot and will leverage this experience, and the toolkit, to support the Clinical Integration Workstream.

IPQR Module 9.8 - Progress Reporting

Instructions :

Please describe how you will measure the success of this organizational workstream.

Progress on the Clinical Integration Workstream will be measures against two prescribed milestones: completion of a clinical integration needs assessment, and the clinical integration strategy. Additionally, the Domain 3 quality measures are key indicators of the success of the clinical integration activities.

Progress will be monitored through surveys and/or focus groups of patients and providers that are designed to identify the specific links in patient pathways where information sharing and collaboration could be improved. Several items on the patient experience survey are relevant. AHI hosts a Summit each year, which provides an opportunity for focus groups.

IPQR Module 9.9 - IA Monitoring:

Instructions :

DSRIP Implementation Plan Project

Adirondack Health Institute (PPS ID:23)

Section 10 – General Project Reporting

IPQR Module 10.1 - Overall approach to implementation

Instructions :

Please summarize your intended approach to the implementation of your chosen DSRIP projects, including considerations around how this approach will allow for the successful development of concurrently implementing DSRIP projects.

The Department of Health System Transformation includes the Project Management Office (PMO), overseen by a PMO Director, who together have responsibility for implementation plan deliverables. A project team comprised of clinical and operational leads from PPS Partner organizations has been assembled to spearhead the activity necessary to accomplish implementation plan deliverables. The projects are grouped by behavioral health, primary care, and prevention, and assigned to a Project Manager (PM). The AHI PPS is currently recruiting for a PM to support 3ai - Integrating Behavioral Health into Primary Care, and 4aiii - Strengthening MEB Infrastructure. The PM assigned to the project is responsible for supporting the Team by coordinating meetings, setting meeting agendas, researching information and resources, and producing progress and performance reports. The PMO uses the Performance Logic DSRIP Tracker Tool for project management. At this point in the DSRIP implementation plan, the Team has been very project focused with a heavy emphasis on timeline and reporting for tasks milestone completion. The PPS is on track to disseminate Project 2aii - PCMH and Project 2di - Community Engagement at the end of the summer which will pave the way for Partners to become actively involved in DSRIP Project activity. With contracts defining roles and responsibilities of AHI PPS and Partners, and the shift in focus to performance, the PPS has retained an advanced degree clinician and professor to support project managers by: developing work plans that foster community engagement and drive successful project outcomes; developing systems and processes to implement transformative strategies that the meet the triple aim; monitoring DSRIP milestones and timelines; and, · developing and implementing strategies to meet the goals.

With the contractor for clinical effectiveness working with the PMO, we expect emphasis will be placed on common patient care pathways, and care coordination and management that are common to multiple projects.

IPQR Module 10.2 - Major dependencies between work streams and coordination of projects

Instructions :

Please describe how your approach will handle interdependencies between complementary projects, as well as between projects and cross-cutting PPS initiatives - for example, an IT infrastructure upgrade, or the establishment of data sharing protocols.

DSRIP Implementation Plan Project

Page 152 of 424 Run Date : 03/30/2018

Adirondack Health Institute (PPS ID:23)

The AHI PPS has 11 projects and is continuing to establish the PPS infrastructure. Project requirements, strategies, staff and budgets, are interrelated across projects and infrastructure work streams. As such, the functions of the PMO, the Project Teams, and the PPS Governance (including Finance, IT, Clinical Quality, etc.) will need to be integrated. Several strategies will be used to achieve this including interdisciplinary committees and workgroups, careful development of agendas to include the necessary status reports from related work streams, and communications platforms that allow for easy sharing of information across initiatives. The PPS is leveraging The MIX for discussion groups, and will also utilize the DSRIP Tracker Project Management platform, to manage the integrated functions.

The AHI PPS is currently taking steps to ensure the PMO is adequately resourced to manage the complexity described above. Four Project Managers have been recruited, two more are anticipated, and additional Project Management capacity is available via a contracted resource. The team will manage the overlapping project requirements, and will rely on the "Conceptualizing PPS Project Requirements" resource provided by the DSRIP Support Team.

Page 153 of 424 Run Date : 03/30/2018

DSRIP Implementation Plan Project

Adirondack Health Institute (PPS ID:23)

☑ IPQR Module 10.3 - Project Roles and Responsibilities

Instructions :

Please outline the key individuals & organizations that play a role in the delivery of your PPS's DSRIP projects, as well as what their responsibilities are regarding governance, implementation, monitoring and reporting on your DSRIP projects.

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities
AHI PPS PMO	Project Managers: Betsey Towne, Jessica Chanese, Louann Villani, Jolene Munger, Karen Rappleyea, Eric Planck, Rebecca Evansky	The PMO monitors progress and produces reports for PPS partners, Project Teams and Governing bodies, as well as the NYS DOH. The PMO is the central link between the Project Teams and the Workstreams (Finance, Workforce, IT, etc.). The PMO monitors progress and identifies risks for all Projects and Workstreams, and engages PPS leadership/Governance as needed.
Clinical Governance & Quality Committee	Oversees clinical quality for all projects	The PPS Clinical Governance & Quality Committee will establish a structure for managing Clinical Quality of all projects (sub- committees or workgroups will be established that cover 1 or more related projects).
Project Team Leaders	At this time, there are over 50 individuals leading projects in their regions. Given the large geography of the AHI PPS, we have organized into sub-regions, each area has leadership in place for their Project Teams.	Project co-leads (clinical & operational) drive the Project Implementation, supported by a Project Manager

DSRIP Implementation Plan Project

Page 154 of 424 Run Date : 03/30/2018

Adirondack Health Institute (PPS ID:23)

■ IPQR Module 10.4 - Overview of key stakeholders and how influenced by your DSRIP projects

Instructions :

In the below table, please set out who the key stakeholders are that play a major role across multiple DSRIP projects. Please give an indication of the role they play and how they impact your approach to delivering your DSRIP projects.

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities			
Internal Stakeholders					
AHI PPS Finance Committee	Financial Impact Monitoring	The Finance Committee will monitor the impact of the DSRIP Projects on the financial health of the network and providers. The Finance Committee will include AHI's CFO, who will work closely with the AHI PMO.			
AHI PPS Workforce Committee & Workforce Manager	Manage the delivery of the workforce strategy through the project teams.	Manager will work closely with the Project Teams, to identify and develop the Workforce Strategies, and to coordinate efforts across projects to achieve efficiencies. The Workforce Manager will be reponsible for the quarterly reporting of Workforce numbers (supplied by the Project Teams)			
AHI PPS IT & Data Sharing Committee	Identify and establish a plan for, the IT needs of the Projects.	The AHI PPS IT & Data Sharing Committee will be staffed by an AHI Senior Manager, who is the liaison between this Committee and the AHI PPS PMO The Committee will have the overall responsibility for management of the IT and Data Sharing initiatives.			
Compliance Committee	Establish and Monitor the PPS Compliance Plan	Review PPS conduct in terms of adherence to the applicable guidelines, laws, and regulations.			
Community & Beneficiary Engagement Committee	Manages PPS relationships with patients, consumers, and CBOs	Coordinat patient and community outreach and engagement activities.			
External Stakeholders					
Patient Advisory Councils	Patient Group	Some PPS partners have established Patient Advisory Councils, these groups will be engaged in the PPS to provide feedback, views, opinions, that can inform the development of the Projects.			
Ellis Medicine PPS	Collaborating on Domain 4 Project Implementation	Collaborate on Domain 4 implementation, given overlapping service areas and providers; coordinate to avoid redundancy/overlap in project implementation			
North Country Initiative PPS	Collaborating on Domain 4 Project Implementation	Collaborate on Domain 4 implementation, given overlapping service areas and providers; coordinate to avoid redundancy/overlap in project implementation			
Albany Med PPS	Collaborating on Domain 4 Project Implementation	Collaborate on Domain 4 implementation, given overlapping service areas and providers; coordinate to avoid redundancy/overlap in project implementation			

DSRIP Implementation Plan Project

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
Labor Representatives (union, staff of non- unionized employers)	Labor Representation	PPS Partners have identified labor representatives (the union rep, or a staff member for non-unionized employers) that are taking part in the Workforce Committee and providing input in the development of the Workforce Strategy.
Directors of Community Services / Commmunity Services Boards/ Local Governmental Units	Project Planning and Implementation Support	PPS has engaged with LGUs for project planning support including the development and incorporation of projects into county service plans as appropriate
OMH, OPWDD, OASAS	Project Implementation Support	Provide insight into best practices with respect to the implementation of all projects - particularly 2.a.i. and 3.a.i.
Office for the Aging	Project Implementation Support	Provide insight into best practices with respect to the implementation of all projects - particularly 2.b.viii and 3.g.i.

Page 156 of 424 Run Date : 03/30/2018

DSRIP Implementation Plan Project

Adirondack Health Institute (PPS ID:23)

IPQR Module 10.5 - IT Requirements

Instructions :

Information technology will play a crucial role in the development of an effective, integrated performing provider system. It is likely that most projects will require some level of supporting IT infrastructure. Please describe the key elements of IT infrastructure development that will play a role in multiple projects.

The Project Implementations will be supported by regional IT infrastructure. The HIT Workgroup is currently developing the PPS Technology Roadmap, which will include a timeline that reflects PPS-wide priorities. There are specific IT capabilities and data sharing protocols that will support multiple projects, and multiple project requirements. These high priority elements will be undertaken early in the IT implementation plan.

The AHI PPS conducted a high-level current state assessment that identified significant variation in the network in terms of providers access to, and use of, electronic patient information. The HIT Workgroup will transition to an IT & Data Sharing Committee, which will drive greater use of interoperable health IT platforms. The PMO will be responsible for ensuring that each of the DSRIP projects is tied into the IT planning and implementation in the appropriate fashion. The overarching multi-project IT initiative of the AHI PPS will be the Population Health Management System. The PHM functionality will be central to multiple projects.

IPQR Module 10.6 - Performance Monitoring

Instructions :

Please explain how your DSRIP projects will fit into your development of a quality performance reporting system and culture.

The DSRIP projects are central to the development of a quality performance reporting system and culture. It is through each project team that the PPS promotes a culture of quality improvement and accountability. The Project Teams and PMO processes and tools provide the PPS with the opportunity to optimize and standardize processes that are necessary to realize the desired outcomes.

For each individual project, the project co-leads will oversee the creation and continuous improvement of the multi-disciplinary care pathways that support the delivery of the project. The leads will communicate performance, in relation to goals, to Project Teams and partner organizations. Project Leads will have a key role in the data & analytics work stream; they will contribute to the development of performance dashboards and other reporting tools. The leads will identify resources needed for Project success, including clinical specialists, CBOs, training, or other resources.

The AHI PPS PMO will be responsible for consolidating all performance reporting metrics and measures – including the project-specific performance dashboards described above, and the DSRIP outcome measures – and reporting the most critical or high-risk metrics up to the Clinical Governance & Quality Committee and the PPS steering committee.

DSRIP Implementation Plan Project

Adirondack Health Institute (PPS ID:23)

IPQR Module 10.7 - Community Engagement

Instructions :

Please describe your PPS's planned approach for driving community involvement in the DSRIP projects, how you will contract with CBOs for these projects, how community engagement will contribute to the success of the projects, and any risks associated with this.

The AHI PPS has a multi-pronged approach to engaging the community in the PPS projects. The governance includes a Community & Beneficiary Engagement Committee. This group provides community representatives with a direct line of communication to the PPS Steering Committee. The PPS will also work closely with the Population Health Improvement Program Staff (AHI is the PHIP contractor in this region) and the area's Rural Health Networks to leverage existing community groups & forums to provide insight and guidance to the PPS with regards to the projects, and to assist the PPS in identifying opportunities for collaboration.

The role of any given community based organization varies by project. We expect extensive CBO engagement and contracting under project 2.d.i and many CBOs have already signed master participation agreements.

IPQR Module 10.8 - IA Monitoring

Instructions :

DSRIP Implementation Plan Project

Page 158 of 424 Run Date : 03/30/2018

Adirondack Health Institute (PPS ID:23)

Section 11 – Workforce

IPQR Module 11.1 - Workforce Strategy Spending (Baseline)

Instructions :

Please include details on expected workforce spending on a semi-annual basis. Funds may be shifted from one funding type category to another within the workforce strategy spending table, as long as the PPS adheres to their overall spend commitments. However, the PPS may apply a 25% discount factor to the DY1 Workforce Strategy Spend target. If the PPS applies this discount in DY1, the PPS will be expected to reallocate those funds appropriately in DY2-4 to fully meet their DY1-4 total commitment.

						Year/Quarter					
Funding Type	DY1(Q1/Q2)(\$)	DY1(Q3/Q4)(\$)	DY2(Q1/Q2)(\$)	DY2(Q3/Q4)(\$)	DY3(Q1/Q2)(\$)	DY3(Q3/Q4)(\$)	DY4(Q1/Q2)(\$)	DY4(Q3/Q4)(\$)	DY5(Q1/Q2)(\$)	DY5(Q3/Q4(\$)	Total Spending (\$)

Adirondack Health Institute (PPS ID:23)

IPQR Module 11.2 - Prescribed Milestones

Instructions :

Please enter and update target dates, as well as breakdown tasks with target dates for prescribed milestones. For milestones that are due within the reporting period, documentation is required to provide evidence of milestone achievement. Any explanations regarding altered or missed target commitments must be included within the textbox, not as narrative within uploaded documentation. Please note some milestones include minimum expected completion dates.

Milestone/Task Name	Status	Description	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter	AV
Milestone #1 Define target workforce state (in line with DSRIP program's goals).	Completed	Finalized PPS target workforce state, signed off by PPS workforce governance body.	07/01/2015	09/30/2016	07/01/2015	09/30/2016	09/30/2016	DY2 Q2	NO

IPQR Module 11.4 - Major Risks to Implementation & Risk Mitigation Strategies

Instructions :

Please describe the key challenges and risks that you foresee in achieving the milestones set out above, including potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

The key risks we have identified that could impact our ability to meet our baseline process measures in the future are:

1. Competition from the overlapping PPSs in the adjacent regions to AHI over high-demand positions. We will collaborate with neighboring PPSs in our region and strive for equitable access among PPSs for hiring high-demand staff. Regular meetings and discussions with key workforce staff in neighboring PPS will take place with the goal of ensuring the future state workforce needs of all PPSs are met and to identify opportunities for collaboration.

2. Difficulty recruiting for providers in the AHI PPS network (particularly for relatively low-paid roles), with the challenges in a rural area compared to other PPSs in the State that will also be recruiting for the same positions.

To mitigate this risk, the Recruitment and Retention Workgroup has been developed which is investigating strategies to building a pipeline of health care staff and a coalition of health care professionals who will speak to the need for these key positions in high schools, BOCES programs (including New Visions), and community colleges. The Recruitment and Retention Workgroup is also creating a marketing campaign regionally and beyond to help identify our region as an employment destination. In addition, a Recruitment and Retention Fund has been developed to assist partners with recruitment and retention efforts for key positions which will expand services for DSRIP related projects.

3. Many requirements and projects, including 2a i, depend on the successful implementation of an electronic health records system, as well as the necessary training and change management and engagement support to ensure that impacted staff are ready, willing, and able to succeed with the new system.

In order to execute the activities to support these endeavors in a timely and effective manner, AHI PPS continues to maintain discussions with consultants to provide technical assistance. Necessary training will be incorporated in to a training plan. Strict project management and reporting protocols will be instituted to ensure the PPS remains on track and on schedule with regard to getting our people, processes, and technology ready for success in the DSRIP future.

4. AHI PPS may have difficulty obtaining buy-in and support from frontline workers and key stakeholders, which in turn could impact DSRIP project success.

To mitigate this risk, the PPS has approved the Workforce Communication and Engagement Strategy to provide information and updates to share with partners to then be shared with their employees. This strategy included a survey to partners to identify the mechanisms used to communicate with their employees and its effectiveness. Tools to communicate with all employees will be developed from this information and shared for use, incorporated in to a tool that they have identified works best for their organization. All workforce groups (Workforce Committee, Workforce Advisory Council and four workgroups) have membership which includes union representation as a mechanism for communication and to gain support from employees.

5. Partners not completing necessary survey/assessment documentation for analysis of the PPS workforce.

To mitigate this, the PPS will carefully plan important information gathering tools to ensure the best response. The PPS will work with professional survey organizations to ensure the questions are clear and concise. Partners will be given adequate time to fill out the surveys as accurately as possible, frequent reminders will be sent out, and extensions will be given as needed to complete assessments. When possible and appropriate, the PPS will group surveys together to reduce the numbers of surveys for Partners.

DSRIP Implementation Plan Project

Adirondack Health Institute (PPS ID:23)

IPQR Module 11.5 - Major Dependencies on Organizational Workstreams

Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

Given the importance of the workforce spending milestone and the importance of directing funds to providers in our network to support the training/retraining, recruitment and redeployment needs, the connection between workforce transformation and finance is crucial. Finance (both AHI finance and PPS finance) will be kept updated with workforce funding requests as initiated through the workforce workgroups and committee. Feedback from finance will be solicited to enhance the process. Finance and workforce will remain in frequent contact on the status of workforce spending to ensure that the PPS will meet the requirements of the workforce spending achievement value.

Additionally, there is a strong relationship between the training components of workforce transformation strategy and the cultural competency workstream. Training linked to cultural competency and health literacy will be needed for all levels of the workforce, including physicians, nurses care coordinators, etc., to ensure that all are able to communicate effectively with our entire patient population. The Training and Resources Workgroup and Workforce Committee will play an integral role the Cultural Competency and Health Literacy Training Strategy implemented throughout the PPS.

Lastly, workforce is closely tied to clinical integration as training/retraining and the addition of new staff will focus on creating more integrated multidisciplinary teams that cross organizations boundaries. Redeployments may be necessary to ensure that the right staff are placed in the right location to support better clinical integration and success of DSRIP projects.

Adirondack Health Institute (PPS ID:23)

IPQR Module 11.6 - Roles and Responsibilities

Instructions :

Please list and elaborate upon the key people/organizations responsible for this organizational workstream and describe what their responsibilities involve.

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities	
Executive Director - Community Engagement and Workforce Initiatives	Jennifer Reagan	Provide oversight and input into the development of workforce initiatives	
Workforce Manager	Kelly Owens/AHI	Dedicated Workforce Manager accountable for development of IP and execution of all workforce-related activities	
Workforce Committee Chair	Diane Wildey/SUNY Adirondack	Diane is the Dean of special academic services at SUNY Adirondack. Leading educational initiatives throughout our region. She will provide leadership to the Workforce Committee and assist AHI Workforce staff in the successful implementation of workforce activities.	
Training and Resources Work Group	Workgroup Leader: Diane Wildey (Dean Special Academic Services, SUNY ADK), and includes other interested parties related to training needs and strategies.	Responsible for a comprehensive set of strategies for successful implementation of the workforce transformation agenda related to training needs. Identify training gaps and key training resources available to achieve success in implementation plan activities.	
Compensation and Benefits Work Group	Workgroup Leader: Sadie Spada (CEO, The Adirondack Arc), and includes other interested individuals with an interest/expertise related to compensation and benefit information.	Responsible for a comprehensive set of strategies related to compensation and benefit in order to fully understand the impact of DSRIP Implementation upon the workforce and achieve prescribed milestones.	
Employee Engagement Work Group	Workgroup Leaders: Thomas Gosrich (VP Human Resources, UVM-CVPH) and includes other interested individuals related to engaging the workforce in DSRIP related information	Responsible for a comprehensive set of strategies for successful implementation of the workforce transformation agenda related to communication and working with impacted employees. Develop a communication plan with all levels of the workforce related to DSRIP and strategy to work with impacted employees due to project implementation.	
WF Vendor	Blue Fox Fire	Assist AHI PPS in the development and implementation of tracking and reporting efforts related to the semi-annual impact analysis data.	
WF Learning Management System (Training) Vendor	HealthStream Learning Management System	Training vendor with extensive experience in education of health care professionals in acute care setting with on-line training that can provide training to support training and retraining needs along with the ability to track training across the PPS.	
Labor Representation	1199 SEIU - United Health Workers East	Labor organization that, through participation on the Workforce Committee and each of its work groups, can provide insights and expertise into likely workforce impacts, staffing models, and key job

Search 11.7 - Key Stakeholders

Instructions :

Please identify the key stakeholders involved in your workforce transformation plans, both within and outside the PPS.

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities		
Internal Stakeholders				
Eric Burton	Interim CEO, AHI	Oversight in all PPS activities		
Sarah Wright	Interim CFO, AHI	Financial oversight		
Phil Kahn	Assist with execution of employ			
External Stakeholders				
Workforce Advisory Council	Workforce advisory group	Subject matter experts and interested parties who will share information and recommendations related to implementation efforts including analyses of current and future state, transition roadmap, compensation and benefits analysis, and training strategy		
1199 SEIU - UHWE	Labor/Union Representation	Expertise and input around job impacts resulting from DSRIP projects. Participation on Workforce Committee, workgroups and Workforce Advisory Council.		
New York State Nurses Association (NYSNA)	Labor/Union Representation	Expertise and input around job impact resulting from DSRIP projects. Participation in workgroups and Workforce Advisory Council.		
Center for Health Workforce Studies	Workforce Vendor	Coordination and execution of workforce activities and analysis		
Albany Medical Center PPS	Neighboring PPS	Neighboring PPS with shared counties. Collaboration on agreed upon efforts to avoid duplication and streamline resources.		
Alliance For Better Health Care PPS	Neighboring PPS	Neighboring PPS with shared counties. Collaboration on agreed upon efforts to avoid duplication and streamline resources.		
Samaritan Medical Center PPS	Neighboring PPS	Neighboring PPS with shared counties. Collaboration on agreed upon efforts to avoid duplication and streamline resources.		
HealthStream Learning Management System	On-Line Training Vendor	Vendor providing on-line training and tracking ability related to training initiatives. Allows the PPS to deploy training in a cost effective and far reaching manner.

DSRIP Implementation Plan Project

Adirondack Health Institute (PPS ID:23)

IPQR Module 11.8 - IT Expectations

Instructions :

Please describe how the development of shared IT infrastructure across the PPS will support your plans for workforce transformation.

The relationship between IT and Workforce is an important one, and alignment between these two workstreams at AHI PPS will be critical to DSRIP success. First, once our training strategy and plan are implemented, we will rely on IT platforms significantly to track training progress (e.g. tracking who's been trained, the subject matter of the training, when the training took place, certification levels, etc.). This will require a cross-member organization learning management system (LMS) capability. Second, as AHI PPS begins to execute the workforce transition roadmap, we will rely on IT capabilities to track staff movement and changes across the PPS (e.g. redeployed staff, net new hires). AHI PPS will utilize a data collection system to track workforce changes in a timely fashion.

IPQR Module 11.9 - Progress Reporting

Instructions :

Please describe how you will measure the success of this organizational workstream.

The headline measures of the success of our workforce transformation program will be the targets of redeployed, retrained, and hired staff and the workforce budget, as articulated in the gap analysis and transition roadmap provided later in DY2. AHI PPS will work with a data consultant and data collection system to obtain and report this data every six months as required. Trends will be shared with the respective workgroups and committee and variances will be discussed.

DSRIP project managers will provide reports to the Workforce Manager to share with the AHI PPS Workforce Committee and Workgroups (Compensation and Benefits, Employee Engagement, Recruitment and Retention, and Training and Resources), in order to ensure the workforce committee and workgroups (particularly the Training & Resources Workgroup and Recruitment & Retention Workgroup) have a real-time view of how the recruitment, redeployment and retraining efforts are affecting the individual projects. This will allow us to manage any risks as they arise.

The Workforce Committee, with guidance and assistance from the Workforce Workgroups and dedicated AHI PPS Workforce Staff, will develop a process to manage the data collection and ratification for the quarterly progress reports, and will communicate this with all organizations in the PPS Network.

IPQR Module 11.11 - Workforce Strategy Spending (Quarterly):

Instructions :

Please include details on workforce spending. The workforce spending actuals should reflect only what was spent during the relevant quarters and is not cumulative across semi-annual periods. The PPS can shift funding across categories; e.g., from Retraining to New Hires. Please note that the "Cumulative Percent of Commitments Expended through Current DSRIP Year" section is calculated based on the total yearly commitments.

Benchmarks		
Year	Amount(\$)	
Total Cumulative Spending Commitment through Current DSRIP Year(DY3)	5,000,000.00	

	Workforce Spending Actuals		Cumulative Spending to Date	Cumulative Percent of Commitments
Funding Type	DY3(Q1/Q2)(\$)	DY3(Q3/Q4)(\$)	(DY1-DY5)(\$)	Expended through Current DSRIP Year (DY3)
Retraining	251,893.90	0.00	1,288,617.56	57.59%
Redeployment	0.00	0.00	0.00	0.00%
New Hires	321,708.34	0.00	1,847,094.02	106.31%
Other	117,267.85	0.00	616,083.32	70.41%
Total Expenditures	690,870.09	0.00	3,751,794.90	75.04%

Project 2.a.i – Create Integrated Delivery Systems that are focused on Evidence-Based Medicine / Population Health Management

Search 12 IPQR Module 2.a.i.1 - Major Risks to Implementation and Mitigation Strategies

Instructions :

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

Challenge: Operational challenges in implementing and executing the project's milestones and tasks within the quarter for completion. Project Milestones 1 and 2 have resulted in some changed due dates Additionally, AHI PPS has experienced changing leadership, which has impacted the project significantly.. Efforts are underway to create the infrastructure to operate in an IDS fashion.

Mitigation: AHI PPS continues to engage our partners in the development of an IDS. This includes additional training opportunities to help develop broader understanding of IDS concepts and goals. AHI PPS has successfully recruited a new CEO that is leading efforts to review the PPS Lead organizational structure and composition of the governance committees to ensure that we have sufficient resources that are effectively deployed.

Challenge: Secure contracting agreements (Master Participation Agreement and Project Schedule A2s) with PPS Partners.

Mitigation: PPS Governance has agreed upon a second round of Engagement Funds to be distributed to PPS Partners. AHI PPS has distributed a Master Participation Agreement to all partners with 57 having been returned, as of 6/30/2016. Project specific schedules for most projects have been reviewed by the PPS Finance Committee which has recommended several to the PPS Steering Committee and has several more queued up for approval.

Challenge: Performance management and engagement across the AHI PPS network.

Mitigation: Reorganize and, if necessary, Increase AHI PPS resources to provide more focus on vital provider/partner engagement activities.

IPQR Module 2.a.i.2 - Prescribed Milestones

Instructions :

Please provide updates to baseline reporting on status, target dates, and work breakdown tasks for prescribed milestones. For milestones that are due and completed within the reporting period, documentation is required to provide evidence of project requirement achievement. Any explanations regarding altered or missed provider commitments should be included within the narrative box, not as text within uploaded documentation.

Project Requirements (Milestone/Task Name)	Prescribed Due Date	Reporting Level	Provider Type	Status	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
Milestone #1 All PPS providers must be included in the Integrated Delivery System. The IDS should include all medical, behavioral, post- acute, long-term care, and community-based service providers within the PPS network; additionally, the IDS structure must include payers and social service organizations, as necessary to support its strategy.	DY3 Q4	Project	N/A	In Progress	07/01/2016	03/31/2018	07/01/2016	03/31/2018	03/31/2018	DY3 Q4
Task PPS includes continuum of providers in IDS, including medical, behavioral health, post-acute, long-term care, and community- based providers.		Project		Completed	07/01/2016	09/30/2016	07/01/2016	09/30/2016	09/30/2016	DY2 Q2
Task Utilize Network Committee (to be established under Governance) to develop work plan.		Project		Completed	07/01/2016	09/30/2016	07/01/2016	09/30/2016	09/30/2016	DY2 Q2
Task Define PPS administrative staffing plan, including identifying Network Management resources dedicated to managing and building an appropriate network.		Project		Completed	04/01/2015	03/31/2016	04/01/2015	03/31/2016	03/31/2016	DY1 Q4
Task Analyze current state of network adequacy, taking into consideration the geographic distribution of Medicaid and uninsured populations, and their health needs, in relation to the set of providers that have signed a commitment letter to participate in the PPS.		Project		Completed	07/01/2016	09/30/2016	07/01/2016	09/30/2016	09/30/2016	DY2 Q2
Task Establish a network development strategy (short & long-term) focusing on adding new providers and/or expanding capacity in underserved areas.		Project		Completed	07/01/2016	09/30/2016	07/01/2016	09/30/2016	09/30/2016	DY2 Q2
Task Provide the Workforce Committee (to be established under Governance) with information on the Network Development. strategy, as it may be informative for the Workforce Development plans.		Project		Completed	07/01/2016	09/30/2016	07/01/2016	09/30/2016	09/30/2016	DY2 Q2
Task		Project		Completed	04/01/2015	03/31/2016	04/01/2015	03/31/2016	03/31/2016	DY1 Q4

Prescribed Milestones Narrative Text

Milestone Name	Narrative Text
All PPS providers must be included in the Integrated Delivery System.	
The IDS should include all medical, behavioral, post-acute, long-term	
care, and community-based service providers within the PPS network;	
additionally, the IDS structure must include payers and social service	
organizations, as necessary to support its strategy.	
Utilize partnering HH and ACO population health management systems	
and capabilities to implement the PPS' strategy towards evolving into an	
IDS.	
Ensure patients receive appropriate health care and community support,	
including medical and behavioral health, post-acute care, long term care	
and public health services.	
Ensure that all PPS safety net providers are actively sharing EHR	
systems with local health information exchange/RHIO/SHIN-NY and	
sharing health information among clinical partners, including directed	
exchange (secure messaging), alerts and patient record look up, by the	
end of Demonstration Year (DY) 3.	
Ensure that EHR systems used by participating safety net providers meet	
Meaningful Use and PCMH Level 3 standards and/or APCM by the end of	
Demonstration Year 3.	
Perform population health management by actively using EHRs and other	
IT platforms, including use of targeted patient registries, for all	
participating safety net providers.	
Achieve 2014 Level 3 PCMH primary care certification and/or meet state-	
determined criteria for Advanced Primary Care Models for all eligible	
participating PCPs, expand access to primary care providers, and meet	
EHR Meaningful Use standards by the end of DY 3.	
Establish monthly meetings with Medicaid MCOs to discuss utilization	
trends, performance issues, and payment reform.	
Re-enforce the transition towards value-based payment reform by	
aligning provider compensation to patient outcomes.	
Engage patients in the integrated delivery system through outreach and	
navigation activities, leveraging community health workers, peers, and	
culturally competent community-based organizations, as appropriate.

IPQR Module 2.a.i.4 - IA Monitoring

Instructions :

DSRIP Implementation Plan Project

Page 195 of 424 Run Date : 03/30/2018

Adirondack Health Institute (PPS ID:23)

Project 2.a.ii – Increase certification of primary care practitioners with PCMH certification and/or Advanced Primary Care Models (as developed under the NYS Health Innovation Plan (SHIP))

IPQR Module 2.a.ii.1 - Major Risks to Implementation and Mitigation Strategies

Instructions :

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

One risk to the AHI PPS is provider fatigue. Specifically:

• A number of health care providers are having increased demands on their time because of engagement in multiple ongoing primary care initiatives that are available in the region such as Medical Home, Adirondacks ACO, payer specific programs, NCQA recognition, as well as adapting to the change to value-based payment models (including the proposed MACRA legislation). To mitigate this risks, the PPS will: • AHI Transformation resources will identify the collective challenges and collaborate with partners to leverage shared resources across the network and alleviate concurrent pressures on providers. Another risk is the AHI PPS is still working on finalizing contracting with our participants, including some large primary care practices. These efforts were delayed for the AHI PPS in part because of the time it took to confirm Safety Net status for AHI. • Until that status was confirmed, we were unable to finalize our governance which has impacted budgeting and contracting. To mitigate this risk, the PPS has: Retained consultants and held frequent meetings of our Finance and Steering Committees in order to make up ground. Another risk is the AHI PPS will be unable to meet the patient engagement speed and scale targets set for this project. The AHI PPS was very aggressive in our speed and scale targets. · Several providers have indicated they feel the requirement of annual screening for each Medicaid beneficiary, regardless of age, gender or health status is not supported by evidence and are concerned they may not have the capacity to meet the requirement. To mitigate this risk, the PPS is: · Working with the providers to resolve these concerns, and Are undertaking a rapid cycle quality improvement project (PDSA) around patient engagement for this project.

DSRIP Implementation Plan Project

Adirondack Health Institute (PPS ID:23)

IPQR Module 2.a.ii.2 - Patient Engagement Speed

Instructions :

Enter the number of patients actively engaged through the current quarter. The number entered into the "Quarterly Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for Q4 should include patients previously reported in Q3 plus new patients engaged in Q4. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

Benchr	narks
Actively Engaged Speed	Actively Engaged Scale

DSRIP Implementation Plan Project

Adirondack Health Institute (PPS ID:23)

IPQR Module 2.a.ii.3 - Prescribed Milestones

Instructions :

Please provide updates to baseline reporting on status, target dates, and work breakdown tasks for prescribed milestones. For milestones that are due and completed within the reporting period, documentation is required to provide evidence of project requirement achievement. Any explanations regarding altered or missed provider commitments should be included within the narrative box, not as text within uploaded documentation.

Project Requirements (Milestone/Task Name)	Prescribed Due Date	Reporting Level	Provider Type	Status	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
Milestone #1 Ensure that all eligible participating PCPs in the PPS meet NCQA 2014 Level 3 PCMH accreditation and/or meet state-determined criteria for Advanced Primary Care Models by the end of DSRIP Year 3.	DY3 Q4	Project	N/A	In Progress	04/01/2015	03/31/2018	04/01/2015	03/31/2018	03/31/2018	DY3 Q4
Task All eligible practices meet NCQA 2014 Level 3 PCMH and/or APCM standards.		Provider	Practitioner - Primary Care Provider (PCP)	In Progress	04/01/2015	03/31/2018	04/01/2015	03/31/2018	03/31/2018	DY3 Q4
Task Secure local subject matter experts (NCQA Certification / Meaningful Use / Practice Transformation) to provide services to support the PPS with this project, particularly with the next 6 tasks.		Project		Completed	04/01/2015	03/31/2016	04/01/2015	03/31/2016	03/31/2016	DY1 Q4
Task Gain commitments from each participating practice, including a signed contract and/or MOU, and the identification of a Physician Champion.		Project		Completed	09/01/2015	03/31/2017	09/01/2015	03/31/2017	03/31/2017	DY2 Q4
Task Establish a PPS-wide detailed work plan and timeline that culminates with all participating PCPs meeting all requirements by the end of DY3, Q4.		Project		Completed	09/01/2015	03/31/2016	09/01/2015	03/31/2016	03/31/2016	DY1 Q4
Task Identify and engage existing resources to provide services to support practices in meeting project requirements. (This will include contracting with PMO/PCMH/MU Consultants.)		Project		Completed	07/01/2015	01/04/2016	07/01/2015	01/04/2016	03/31/2016	DY1 Q4
TaskHire experienced Practice Transformation Coach(es) and ProjectManager to support the project.		Project		Completed	07/01/2015	03/31/2016	07/01/2015	03/31/2016	03/31/2016	DY1 Q4
TaskEstablish and execute a communications plan to supportCertification goals: key messages, audiences, methods ofcommunication, timeline. Ensure resource are in place to executeCommunications plan - coordinate with Communications & PMO.These activities will be provided on an on-going basis through the		Project		Completed	01/01/2016	06/30/2016	01/01/2016	06/30/2016	06/30/2016	DY2 Q1

DSRIP Implementation Plan Project

Project Requirements (Milestone/Task Name)	Prescribed Due Date	Reporting Level	Provider Type	Status	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
end of the Target Completion Date.										
Task Create individual work plans, tailored to the needs of each participating practice. Present plans to practices; gain buy-in. Plan includes the required steps and level of effort on behalf of the practices to achieve the PCMH and MU certifications.		Project		Completed	09/01/2015	03/31/2016	09/01/2015	03/31/2016	03/31/2016	DY1 Q4
TaskGain buy-in from practice staff to be assigned ownership of taskswithin the implementation plan and to contribute toward theproject goals.		Project		Completed	01/04/2016	03/31/2016	01/04/2016	03/31/2016	03/31/2016	DY1 Q4
Task Conduct initial practice assessments of all required participating practices; document the "current state" - include workflow, resources, etc		Project		Completed	01/04/2016	03/31/2016	01/04/2016	03/31/2016	03/31/2016	DY1 Q4
Task Conduct EHR readiness assessment. (Refer to tasks outlined under Milestone #5.)		Project		Completed	01/04/2016	06/30/2016	01/04/2016	06/30/2016	06/30/2016	DY2 Q1
Task Validate the "current state" document with each practice; schedule meetings, review Policies & Procedures, gain more information to be confident that the current state assessment is accurate.		Project		Completed	10/01/2015	03/31/2016	10/01/2015	03/31/2016	03/31/2016	DY1 Q4
TaskPerform a gap analysis assessment for participating practicesbetween current state of each practice and requirements toachieve 2014 Level 3 PCMH recognition and to meet MUstandards.		Project		Completed	10/01/2015	03/31/2016	10/01/2015	03/31/2016	03/31/2016	DY1 Q4
Task Allocate, and mobilize resources to each practice to fill gaps noted in the task above. Includes AHI PPS internal resources & contracted services.		Project		Completed	10/01/2015	03/31/2016	10/01/2015	03/31/2016	03/31/2016	DY1 Q4
Task Deliver Training and Education to practice staff to address needs/gaps. Identify and share best practices with PCP's. These activities will be provided on an on-going basis through the end of the Target Completion Date.		Project		Completed	10/01/2015	03/31/2016	10/01/2015	03/31/2016	03/31/2016	DY1 Q4
Task Include EHR Vendor in the practice transformation plan where needed; provide overall project management support for the practice to help them manage the vendor to achieve any vendor steps in the plan, such as required upgrades.		Project		Completed	10/01/2015	06/30/2016	10/01/2015	06/30/2016	06/30/2016	DY2 Q1

Page 199 of 424 Run Date : 03/30/2018

DSRIP Implementation Plan Project

Project Requirements (Milestone/Task Name)	Prescribed Due Date	Reporting Level	Provider Type	Status	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
Task A Conduct chart reviews and create NCQA documentation necessary for the application. Provide feedback, remediation, as needed.		Project		In Progress	04/01/2016	12/31/2017	04/01/2016	12/31/2017	12/31/2017	DY3 Q3
Task Complete and submit Meaningful Use Attestation with practice staff / providers.		Project		In Progress	04/01/2016	03/31/2018	04/01/2016	03/31/2018	03/31/2018	DY3 Q4
Task Complete and submit NCQA Applications.		Project		In Progress	01/04/2016	12/31/2017	01/04/2016	12/31/2017	12/31/2017	DY3 Q3
Task Obtain copies of the Meaningful Use Certification and of the NCQA 2014 Level 3 Certification to document completion of the requirement.		Project		In Progress	01/04/2016	03/31/2018	01/04/2016	03/31/2018	03/31/2018	DY3 Q4
Milestone #2 Identify a physician champion with knowledge of PCMH/APCM implementation for each primary care practice included in the project.	DY2 Q4	Project	N/A	Completed	07/01/2015	06/30/2016	07/01/2015	06/30/2016	06/30/2016	DY2 Q1
Task PPS has identified physician champion with experience implementing PCMHs/ACPMs.		Project		Completed	07/01/2015	06/30/2016	07/01/2015	06/30/2016	06/30/2016	DY2 Q1
Task As part of a PPS-wide collaborative planning process, the PPS will schedule and/or coordinate activities with all participating practices to meet this requirement. (This may coincide with the scheduling of the practice assessment.)		Project		Completed	07/01/2015	03/31/2016	07/01/2015	03/31/2016	03/31/2016	DY1 Q4
Task In the event that a practice does not have a physician with the knowledge of PCMH/APCM, the PPS will develop a plan for these practices that includes the review of the PCMH 2014 Level 3 standards and requirements.		Project		Completed	01/01/2016	03/31/2016	01/01/2016	03/31/2016	03/31/2016	DY1 Q4
Task Draft a physician champion contact list and/or formally announce the list of physician champions throughout the PPS. These physician champions will have the knowledge of PCMH/APCM implementation and represent their respective participating primary care practices within the PPS. (This responsibility may be shared or transferred among multiple physicians within a practice.)		Project		Completed	01/01/2016	06/30/2016	01/01/2016	06/30/2016	06/30/2016	DY2 Q1
Milestone #3 Identify care coordinators at each primary care site who are responsible for care connectivity, internally, as well as	DY2 Q4	Project	N/A	Completed	10/01/2015	03/31/2017	10/01/2015	03/31/2017	03/31/2017	DY2 Q4

DSRIP Implementation Plan Project

Project Requirements (Milestone/Task Name)	Prescribed Due Date	Reporting Level	Provider Type	Status	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
connectivity to care managers at other primary care practices.										
Task Care coordinators are identified for each primary care site.		Project		Completed	01/01/2016	03/31/2016	01/01/2016	03/31/2016	03/31/2016	DY1 Q4
TaskCare coordinator identified, site-specific role established as wellas inter-location coordination responsibilities.		Project		Completed	10/01/2015	09/30/2016	10/01/2015	09/30/2016	09/30/2016	DY2 Q2
TaskClinical Interoperability System in place for all participatingproviders and document usage by the identified carecoordinators.		Project		Completed	01/01/2016	03/31/2016	01/01/2016	03/31/2016	03/31/2016	DY1 Q4
Task As part of a PPS-wide collaborative planning process, the PPS will begin to coordinate activities with all participating practices that will include the identification of care coordinators at each of the participating primary care practices within the PPS. (This may also coincide with the practice assessment as we examine the workflows within each practice.)		Project		Completed	01/01/2016	03/31/2016	01/01/2016	03/31/2016	03/31/2016	DY1 Q4
Task Begin to outline a plan to address the issue of when a practice does not have the staff or resources internally to meet this requirement. As part of this plan, the PPS will explore opportunities for collaboration with other PPS participating organizations to provide onsite care coordination services for a practice. (There are PPS participants that are also members of the AHI Health Home. These organizations may be able to provide care management and/or coordination services onsite at primary care practices.)		Project		Completed	01/01/2016	03/31/2016	01/01/2016	03/31/2016	03/31/2016	DY1 Q4
Task Draft an initial PPS Care Coordinator contact list that includes care coordinators assigned to each participating practice in the PPS. (This responsibility may be shared or transferred among multiple care coordinators within a practice.)		Project		Completed	01/01/2016	03/31/2016	01/01/2016	03/31/2016	03/31/2016	DY1 Q4
Task Validate that the responsibilities of these care coordinators include care connectivity, internally, as well as connectivity to care managers at other primary care practices. (These care coordination activities will be provided on an on-going basis through the end of the Target Completion Date, and perhaps beyond for sustainability purposes.)		Project		Completed	04/01/2016	03/31/2017	04/01/2016	03/31/2017	03/31/2017	DY2 Q4
Milestone #4 Ensure all PPS safety net providers are actively sharing EHR	DY3 Q4	Project	N/A	Completed	04/01/2015	06/30/2016	04/01/2015	06/30/2016	06/30/2016	DY2 Q1

DSRIP Implementation Plan Project

Project Requirements (Milestone/Task Name)	Prescribed Due Date	Reporting Level	Provider Type	Status	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter		
systems with local health information exchange/RHIO/SHIN-NY and sharing health information among clinical partners, including direct exchange (secure messaging), alerts and patient record look up by the end of Demonstration Year (DY) 3.												
Task EHR meets connectivity to RHIO's HIE and SHIN-NY requirements.		Provider	Safety Net Practitioner - Primary Care Provider (PCP)	Completed	04/01/2015	06/30/2016	04/01/2015	06/30/2016	06/30/2016	DY2 Q1		
Providers Associated with Completion: Adams Robin E; Beguin David P Md; Beiras Darci; Benardot Emile Leon Md; Ching Anthony L Md; Colt-Connaway Shannon J; Curtis Danita; Dodds George Matthew Md; Fotidar Akhilesh Md; Hanafi Walid; Horowitz Lawrence M Do; Meyer Melissa L Md; O'Brien Richard Lee Do; Patnode Roger E Md; Richards Craig Warren Do; Shnaidman Clare; Solby Richard Adam Md; Spicer Scott Michael; Sunkara Maruthi M Md; Williams Andrew F Md												
PPS uses alerts and secure messaging functionality. Task Identify EHR vendor systems being used by participating safety net providers within the PPS.		Project Project		Completed Completed	04/01/2015	03/31/2016	04/01/2015	03/31/2016	03/31/2016	DY1 Q4 DY1 Q4		
Task Confirm that each of the EHR vendor systems being used by participating safety net providers within the PPS includes DIRECT Exchange (secure messaging), alerts and patient record look up. (Overlap with PCMH and MU requirements and plan addressed in Milestones #5 and #7 below.)		Project		Completed	07/01/2015	03/31/2016	07/01/2015	03/31/2016	03/31/2016	DY1 Q4		
Task For those EHR vendor systems that do not meet these requirements, develop a plan to address this issue with the participating provider.		Project		Completed	07/01/2015	03/31/2016	07/01/2015	03/31/2016	03/31/2016	DY1 Q4		
Task Develop an implementation plan that includes setting up the sharing of health information via HIE and amongst clinical partners participating within the PPS.		Project		Completed	01/01/2016	03/31/2016	01/01/2016	03/31/2016	03/31/2016	DY1 Q4		
Task Validate that all participating PPS safety net providers are actively sharing health information via HIE and amongst clinical partners participating within the PPS.		Project		Completed	01/01/2016	03/31/2016	01/01/2016	03/31/2016	03/31/2016	DY1 Q4		
Milestone #5 Ensure that EHR systems used by participating safety net providers meet Meaningful Use and PCMH Level 3 standards and/or APCM by the end of Demonstration Year 3.	DY3 Q4	Project	N/A	In Progress	04/01/2015	03/31/2018	04/01/2015	03/31/2018	03/31/2018	DY3 Q4		
TaskEHR meets Meaningful Use Stage 2 CMS requirements (Note: any/all MU requirements adjusted by CMS will be incorporated		Project		Completed	04/01/2015	06/30/2016	04/01/2015	06/30/2016	06/30/2016	DY2 Q1

Project Requirements (Milestone/Task Name)	Prescribed Due Date	Reporting Level	Provider Type	Status	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
into the assessment criteria).										
Task PPS has achieved NCQA 2014 Level 3 PCMH standards and/or APCM.		Provider	Safety Net Practitioner - Primary Care Provider (PCP)	In Progress	04/01/2015	03/31/2018	04/01/2015	03/31/2018	03/31/2018	DY3 Q4
TaskIdentify all of the EHR systems being used by participating safetynet providers within the PPS.		Project		Completed	04/01/2015	03/31/2016	04/01/2015	03/31/2016	03/31/2016	DY1 Q4
TaskDevelop an implementation plan that ensures that all EHRsystems being used by safety net providers within the PPS meetMU and PCMH Level 3 standards by the end of DemonstrationYear 3. (Overlaps with PCMH and MU steps that are outlined inmore detail in Milestone #7 below.)		Project		Completed	07/01/2015	06/30/2016	07/01/2015	06/30/2016	06/30/2016	DY2 Q1
TaskValidate that all EHR systems being used by safety net providerswithin the PPS meet MU and PCMH Level 3 standards by theend of Demonstration Year 3.		Project		Completed	04/01/2016	06/30/2016	04/01/2016	06/30/2016	06/30/2016	DY2 Q1
Milestone #6 Perform population health management by actively using EHRs and other IT platforms, including use of targeted patient registries, for all participating safety net providers.	DY3 Q4	Project	N/A	In Progress	04/01/2015	03/31/2018	04/01/2015	03/31/2018	03/31/2018	DY3 Q4
Task PPS identifies targeted patients through patient registries and is able to track actively engaged patients for project milestone reporting.		Project		In Progress	04/01/2015	03/31/2018	04/01/2015	03/31/2018	03/31/2018	DY3 Q4
Task Identify participating safety net providers that are actively using EHRs and other IT platforms.		Project		Completed	04/01/2015	03/31/2016	04/01/2015	03/31/2016	03/31/2016	DY1 Q4
Task Examine the population health management (PHM) functionality being used by any of our PPS partners. Some of the PPS partners may be performing their own population health management (PHM) with the data within their own EHRs.		Project		Completed	04/01/2015	06/30/2016	04/01/2015	06/30/2016	06/30/2016	DY2 Q1
TaskGather and document DSRIP and PPS population healthmanagement requirements.These should also include inputfrom participating safety net providers.		Project		Completed	04/01/2015	06/30/2016	04/01/2015	06/30/2016	06/30/2016	DY2 Q1
Task Perform a PHM vendor scan to identify available functionality of population health management tools/solutions that could contribute toward satisfying this PPS requirement.		Project		Completed	04/01/2015	09/30/2015	04/01/2015	09/30/2015	09/30/2015	DY1 Q2

Page 203 of 424 Run Date : 03/30/2018

DSRIP Implementation Plan Project

Project Requirements (Milestone/Task Name)	Prescribed Due Date	Reporting Level	Provider Type	Status	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
Task Outline the plan and/or mechanism by which the PPS will utilize the data from the EHRs to perform population health management for all participating safety net providers. (Inclusive of functionality being developed by the state via the MAPP and Salient platforms.)		Project		Completed	07/01/2015	09/30/2016	07/01/2015	09/30/2016	09/30/2016	DY2 Q2
TaskAlign the above mentioned steps within the PPS's populationhealth management road map that is being developed.Refer tothe Population Health Management work stream section.		Project		Completed	01/01/2016	09/30/2016	01/01/2016	09/30/2016	09/30/2016	DY2 Q2
TaskBegin to follow this PHM roadmap as part of the over-archingimplementation plan of the PPS to achieve this projectrequirement.		Project		Completed	01/01/2016	09/30/2016	01/01/2016	09/30/2016	09/30/2016	DY2 Q2
Task Validate that the PPS is performing population health management by actively using EHRs and/or other IT platform, including use of targeted patient registries, for all participating safety net providers		Project		In Progress	04/01/2016	03/31/2018	04/01/2016	03/31/2018	03/31/2018	DY3 Q4
Milestone #7 Ensure that all staff are trained on PCMH or Advanced Primary Care models, including evidence-based preventive and chronic disease management.	DY3 Q4	Project	N/A	In Progress	09/01/2015	12/31/2017	09/01/2015	12/31/2017	12/31/2017	DY3 Q3
Task A Practice has adopted preventive and chronic care protocols aligned with national guidelines.		Project		In Progress	10/01/2015	12/31/2017	10/01/2015	12/31/2017	12/31/2017	DY3 Q3
Task A Project staff are trained on policies and procedures specific to evidence-based preventive and chronic disease management.		Project		In Progress	10/01/2015	12/31/2017	10/01/2015	12/31/2017	12/31/2017	DY3 Q3
Task Begin to coordinate efforts with each practice to identify training needs of all staff that are specific to PCMH or Advanced Primary Care models, including evidence-based preventive and chronic disease management. (This task will begin and coincide with the practice assessments.)		Project		Completed	10/01/2015	06/30/2016	10/01/2015	06/30/2016	06/30/2016	DY2 Q1
TaskDevelop a plan and proposed timeline in which training may beoffered. Practices may register their staff to receive training.(This training may be done regionally and/or conducted onsite at a practice.)		Project		Completed	10/01/2015	06/30/2016	10/01/2015	06/30/2016	06/30/2016	
Task 🔺		Project		In Progress	09/01/2015	12/31/2017	09/01/2015	12/31/2017	12/31/2017	DY3 Q3

DSRIP Implementation Plan Project

Adirondack Health Institute (PPS ID:23)

Project Requirements (Milestone/Task Name)	Prescribed Due Date	Reporting Level	Provider Type	Status	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
Identify resources and Subject Matter Experts (SMEs) to develop the training curriculum, prepare the materials and conduct the required training.										
TaskReview and compile existing training materials on PCMH,evidence-based preventive and chronic disease managementfrom the Adirondack Medical Home program. Leverage lessonslearned from this program.		Project		Completed	01/01/2016	06/30/2016	01/01/2016	06/30/2016	06/30/2016	DY2 Q1
Task A Deliver Training and Education to practice staff to address needs/gaps.		Project		In Progress	10/01/2015	12/31/2017	10/01/2015	12/31/2017	12/31/2017	DY3 Q3
Task A Develop method to evaluate the quality of the Training and Education provided to practice staff. Continue to identify needs/gaps, and share best practices with PCP's. These activities will be provided on an on-going basis through the end of the Targeted Completion Date.		Project		In Progress	01/01/2016	12/31/2017	01/01/2016	12/31/2017	12/31/2017	DY3 Q3
Milestone #8 Implement preventive care screening protocols including behavioral health screenings (PHQ-2 or 9 for those screening positive, SBIRT) for all patients to identify unmet needs. A process is developed for assuring referral to appropriate care in a timely manner.	DY2 Q4	Project	N/A	Completed	10/01/2015	03/31/2017	10/01/2015	03/31/2017	03/31/2017	DY2 Q4
Task Preventive care screenings implemented among participating PCPs, including behavioral health screenings (PHQ-2 or 9, SBIRT).		Provider	Practitioner - Primary Care Provider (PCP)	Completed	07/01/2016	03/31/2017	07/01/2016	03/31/2017	03/31/2017	DY2 Q4

Prescribed Milestones Narrative Text

Milestone Name	Narrative Text
Ensure that all eligible participating PCPs in the PPS meet NCQA 2014	
Level 3 PCMH accreditation and/or meet state-determined criteria for	
Advanced Primary Care Models by the end of DSRIP Year 3.	
Identify a physician champion with knowledge of PCMH/APCM	
implementation for each primary care practice included in the project.	
Identify care coordinators at each primary care site who are responsible	
for care connectivity, internally, as well as connectivity to care managers	
at other primary care practices.	
Ensure all PPS safety net providers are actively sharing EHR systems	
with local health information exchange/RHIO/SHIN-NY and sharing health	
information among clinical partners, including direct exchange (secure	
messaging), alerts and patient record look up by the end of	
Demonstration Year (DY) 3.	
Ensure that EHR systems used by participating safety net providers meet	
Meaningful Use and PCMH Level 3 standards and/or APCM by the end of	
Demonstration Year 3.	
Perform population health management by actively using EHRs and other	
IT platforms, including use of targeted patient registries, for all	
participating safety net providers.	
Ensure that all staff are trained on PCMH or Advanced Primary Care

models, including evidence-based preventive and chronic disease	
management.	
Implement preventive care screening protocols including behavioral	
health screenings (PHQ-2 or 9 for those screening positive, SBIRT) for all	
patients to identify unmet needs. A process is developed for assuring	
referral to appropriate care in a timely manner.	
Implement open access scheduling in all eligible primary care practices.

Instructions :

DSRIP Implementation Plan Project

Adirondack Health Institute (PPS ID:23)

Project 2.a.iv – Create a medical village using existing hospital infrastructure

IPQR Module 2.a.iv.1 - Major Risks to Implementation and Mitigation Strategies

Instructions :

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

 Four hospitals planned MVs; 1 did not receive Capital. The remaining 3 will likely meet the DY4Q2 date for Project Implementation Speed and Scale. Due to 1 partner not receiving CRFP awards, the patient engagement speed and scale commitment may suffer to reach the total amount of targeted actively engaged patients of 4,472 in DY4Q4. First Actively Engaged Reporting is due September 2017.
 Mitigation- The organization who did not receive capital funding has the opportunity to apply to the AHI PPS Innovation Fund RFP, or choose to sign-on with AHI and receive funds through the disbursements on the Project Schedule A2.
 Secure contracting agreements (Master Participation Agreement and Schedule A2s) with Medical Village Partners.
 Mitigation - PPS Finance Committee has determined a methodology for Engagement Funds II Distribution to PPS Partners. AHI PPS will determine a Contracting timeline to prioritize Master Participation Agreements, and Project Specific Schedule A2s.

3. Recruiting, hiring, and training staff in new service at medical village.

. Mitigation: Engage workforce committees to assist with staffing needs. Medical Village Teams are to develop a strategic plan which entails documenting a recruitment, retention and training needs for the medical village project.

DSRIP Implementation Plan Project

Adirondack Health Institute (PPS ID:23)

☑ IPQR Module 2.a.iv.2 - Patient Engagement Speed

Instructions :

Enter the number of patients actively engaged through the current quarter. The number entered into the "Quarterly Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for Q4 should include patients previously reported in Q3 plus new patients engaged in Q4. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

IPQR Module 2.a.iv.3 - Prescribed Milestones

Instructions :

Please provide updates to baseline reporting on status, target dates, and work breakdown tasks for prescribed milestones. For milestones that are due and completed within the reporting period, documentation is required to provide evidence of project requirement achievement. Any explanations regarding altered or missed provider commitments should be included within the narrative box, not as text within uploaded documentation.

Project Requirements (Milestone/Task Name)	Prescribed Due Date	Reporting Level	Provider Type	Status	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
Milestone #1 Convert outdated or unneeded hospital capacity into an outpatient services center, stand-alone emergency department/urgent care center or other healthcare-related purpose.	DY4 Q2	Project	N/A	Completed	04/01/2015	09/30/2016	04/01/2015	09/30/2016	09/30/2016	DY2 Q2
TaskA strategic plan is in place which includes, at a minimum:- Definition of services to be provided in medical village andjustification based on CNA- Plan for transition of inpatient capacity- Description of process to engage community stakeholders- Description of any required capital improvements and physicallocation of the medical village- Plan for marketing and promotion of the medical village andconsumer education regarding access to medical village services		Project		Completed	07/01/2015	12/31/2015	07/01/2015	12/31/2015	12/31/2015	DY1 Q3
Task Project must reflect community involvement in the development and the specific activities that will be undertaken during the project term.		Project		Completed	01/01/2016	09/30/2016	01/01/2016	09/30/2016	09/30/2016	DY2 Q2
Task Establish Medical Village Project Team, including leaders of each Medical Village project and assign project management support from PMO; ensure PPS leadership is involved in Team meetings when needed (e.g., CFO, CIO, etc.)		Project		Completed	04/01/2015	06/30/2015	04/01/2015	06/30/2015	06/30/2015	DY1 Q1
Task Medical Village partners receive notice of CRFP awards. If awards are not sufficient, MV Project Leads explore all possible avenues for mitigation (including changes to scope/scale, other funding sources). Leads evaluate the feasibility of continuation, and make presentations to the PPS Governing bodies if needed.		Project		Completed	10/01/2015	03/31/2016	10/01/2015	03/31/2016	03/31/2016	DY1 Q4
Task MV plan for each Medical Village is finalized, PMO provides Medical Village Project Leads with resources needed to complete plan.		Project		Completed	01/01/2016	09/30/2016	01/01/2016	09/30/2016	09/30/2016	DY2 Q2

Prescribed Milestones Narrative Text

Milestone Name	Narrative Text
Convert outdated or unneeded hospital capacity into an outpatient	
services center, stand-alone emergency department/urgent care center or	
other healthcare-related purpose.	
Provide a detailed timeline documenting the specifics of bed reduction	
and rationale. Specified bed reduction proposed in the project must	
include active or "staffed" beds.	
Ensure that all eligible participating PCPs meet NCQA 2014 Level 3	
PCMH accreditation and/or meet state-determined criteria for Advanced	
Primary Care Models by the end of DSRIP Year 3.	
Ensure that all safety net providers participating in Medical Villages are	
actively sharing EHR systems with local health information	
exchange/RHIO/SHIN-NY and sharing health information among clinical	
partners, including direct exchange (secure messaging), alerts and	
patient record look up.	
Use EHRs and other technical platforms to track all patients engaged in	
the project.	
Ensure that EHR systems used in Medical Villages meet Meaningful Use	
Stage 2	
Ensure that services which migrate to a different setting or location (clinic,	
hospitals, etc.) are supported by the comprehensive community needs	
assessment.

Instructions :

DSRIP Implementation Plan Project

Page 221 of 424 Run Date : 03/30/2018

Adirondack Health Institute (PPS ID:23)

Project 2.b.viii – Hospital-Home Care Collaboration Solutions

IPQR Module 2.b.viii.1 - Major Risks to Implementation and Mitigation Strategies

Instructions :

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

Risk: Coordinating and managing the various initiatives, programs, and resources that are available to patients. Potential impact to the timeline: If patients and providers are overwhelmed and ill equipped to quickly identify the correct resources needed this could delay servicing additional patients and slow down the implementation. Mitigation strategy: Create a resource guide and train staff on content. Staff can then educate/inform patients of available options; this will allow for expedited decision making.
Risk: Data acquired can be difficult to utilize due to disparate reporting requirements. Potential impact to the timeline: Dissimilar data can make quality reporting and utilization for universal improvements difficult and thus slow down the improvement process. Mitigation strategy: Use of common PHM platforms and standardized EHRs will make collecting, reporting, and utilizing data more efficient.
Risk: Inability to share/acquire health information in real time. Potential impact to the timeline: Lack of immediate communication leads to prolonged wait for medical intervention and illness progression. Mitigation strategy: Mobile technologies will be utilized to facilitate timely and accurate documentation and information sharing.
Risk: Provider shortages. Potential impact to the timeline: Already overwhelmed providers may resist implementing change due to time and workload restraints. Mitigation strategy: Implement strategies to address workforce and workflow in regard to provider/patient ratios.
Risk: The lack of a common identification/stratification methodology across the region. Potential impact to the timeline: Lack of common methodology means having to train staff on multiple models and this is inefficient and reduces productive work time. Mitigation strategy: Having a regional group meet to address common methodologies will address this risk.
Risk: Partners have not entered into contractual agreements with the AHI PPS. Potential impact to the timeline: Contracts not being in place generates a lack of incentive for partner participation and also impacts timing for milestone completion (i.e., Milestone 8 – Integrate primary care, behavioral health, pharmacy, and other services into the model in order to enhance coordination of care and medication management.) Mitigation strategy: Determine a contracting timeline to prioritize Master Participation Agreements and project specific Schedule A2's. This will allow for expedited partner engagement and flow of funds.

DSRIP Implementation Plan Project

Adirondack Health Institute (PPS ID:23)

IPQR Module 2.b.viii.2 - Patient Engagement Speed

Instructions :

Enter the number of patients actively engaged through the current quarter. The number entered into the "Quarterly Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for Q4 should include patients previously reported in Q3 plus new patients engaged in Q4. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

Benchr	narks
Actively Engaged Speed	Actively Engaged Scale
DY4,Q4	7,158

	Year,Quarter	DY3,Q1	DY3,Q2	DY3,Q3	DY3,Q4
	Baseline Commitment	1,243	2,485	3,729	4,971
PPS Reported	Quarterly Update	0	771	0	0
	Percent(%) of Commitment	0.00%	31.03%	0.00%	0.00%
IA Approved	Quarterly Update	0	762	0	0
IA Approved	Percent(%) of Commitment	0.00%	30.66%	0.00%	0.00%

Warning: PPS Reported - Please note that your patients engaged to date (0) does not meet your committed amount (3,729) for 'DY3,Q3'

Prescribed Milestones Narrative Text

Milestone Name	Narrative Text
Assemble Rapid Response Teams (hospital/home care) to facilitate	
patient discharge to home and assure needed home care services are in	
place, including, if appropriate, hospice.	
Ensure home care staff have knowledge and skills to identify and respond	
to patient risks for readmission, as well as to support evidence-based	
medicine and chronic care management.	
Develop care pathways and other clinical tools for monitoring chronically	
ill patients, with the goal of early identification of potential instability and	
intervention to avoid hospital transfer.	
Educate all staff on care pathways and INTERACT-like principles.	
Develop Advance Care Planning tools to assist residents and families in	
expressing and documenting their wishes for near end of life and end of	
life care.	
Create coaching program to facilitate and support implementation.	
Educate patient and family/caretakers, to facilitate participation in	
planning of care.	
Integrate primary care, behavioral health, pharmacy, and other services	
into the model in order to enhance coordination of care and medication	
management.	
Utilize telehealth/telemedicine to enhance hospital-home care	
collaborations.	
Utilize interoperable EHR to enhance communication and avoid	
medication errors and/or duplicative services.	
Measure outcomes (including quality assessment/root cause analysis of	
transfer) in order to identify additional interventions.	
Use EHRs and other technical platforms to track all patients engaged in	
the project.

Instructions :

DSRIP Implementation Plan Project

Page 236 of 424 Run Date : 03/30/2018

Adirondack Health Institute (PPS ID:23)

Project 2.d.i – Implementation of Patient Activation Activities to Engage, Educate and Integrate the uninsured and low/non-utilizing Medicaid populations into Community Based Care

IPQR Module 2.d.i.1 - Major Risks to Implementation and Mitigation Strategies

Instructions :

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

Risk: Resource constraints limiting partner participation may adversely impact meeting speed and scale targets. Mitigation: The PPS will contract with CBOs and providers with established relationships with the target population to act as the face of this initiative. A standard performancebased contract will be used to compensate partners for implementation costs if patient activation metrics are met. Prior to finalizing contracting, partners' project related activities are supported by distribution of engagement funds and assistance from AHI Community Engagement (CE) staff. Community Engagement (CE) Facilitators are working with partners on embedding project activities into their current workflow. Risk: AHI PPS region is large geographically with many low populated areas; "hot spots" may have small numbers of people. Mitigation: Data is being used to target efforts. AHI PPS will leverage its engagement of partners across diverse sectors and their relationships with other organizations that need to be recruited into the network. A hybrid model of contracting with partners and utilizing AHI CE Facilitators to implement project activities will optimize connection to the target population. Community based partners have ongoing relationships/contact with project beneficiaries, making implementation most effective when they drive it. If this isn't possible due to resource constraints, CE Facilitators can administer the PAM® survey at partner sites. CE Facilitators also administer the PAM® survey at community events and non-partner sites that have been anecdotally identified as hot spots.

Risk: Variable success of untested initiatives to connect with the target population may negatively impact meeting speed and scale targets. Mitigation: Developing evaluation strategies to quickly understand if outreach methods are working, need to be adjusted, or if new strategies need to be implemented. The AHI PPS has researched evidence-based strategies and will coach partners on best practices.

Risk: Projected number of targeted individuals may not be reached and activated, reducing the overall PPS payment. Mitigation: A pilot group of partner organizations from varied service sectors and geographic locations was established, who spearheaded implementation of the PAM® survey and other 2.d.i project activities as a means to learn and vet best practices for optimizing patient engagement. Feedback is sought from pilot group members and other stakeholders, such as the Community and Beneficiary Engagement (CBE) Committee, to get strategies and ideas for reaching as many eligible individuals as possible. CE staff have also partnered with AHI DSRIP Workforce team to train providers and CBO staff as PAM®/CFA® trainers and Bridges Out of Poverty® trainers, to maximize the PPS' capacity to implement activation/engagement strategies across a vast region.

Risk: Implementing an effective system to capture data; collecting and accurately reporting data is crucial to achieving optimal PPS payment. Mitigation: AHI CE staff and staff from 2.d.i partner organizations were trained to use the Flourish® web platform for reporting. Protocols will be developed for use of new HIT systems as they are implemented, and the PPS will ensure all users are adequately trained. Risk: It may be expensive and time consuming to implement EHRs, Population Health Management tools, targeted patient registries, and other IT platforms to track actively engaged. Numerous EHR systems/the complexity of implementing a regional system could delay project completion. Mitigation: CE staff, the CBE Committee, and the IT Committee will determine a strategy for enabling important data points to be accessed by the right users at the right time, although lack of control over EHR vendors' ability to add needed functionality may extend the timeline.

DSRIP Implementation Plan Project

Adirondack Health Institute (PPS ID:23)

IPQR Module 2.d.i.2 - Patient Engagement Speed

Instructions :

Enter the number of patients actively engaged through the current quarter. The number entered into the "Quarterly Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for Q4 should include patients previously reported in Q3 plus new patients engaged in Q4. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

Benchr	narks
Actively Engaged Speed	Actively Engaged Scale
DY4,Q4	66,226

	Year,Quarter	DY3,Q1	DY3,Q2	DY3,Q3	DY3,Q4
	Baseline Commitment	12,000	48,000	49,600	56,000
PPS Reported	PPS Reported Quarterly Update Percent(%) of Commitment Percent(%)		3,271	0	0
			6.81%	0.00%	0.00%
	Quarterly Update	0	3,241	0	0

DSRIP Implementation Plan Project

Adirondack Health Institute (PPS ID:23)

IPQR Module 2.d.i.3 - Prescribed Milestones

Instructions :

Please provide updates to baseline reporting on status, target dates, and work breakdown tasks for prescribed milestones. For milestones that are due and completed within the reporting period, documentation is required to provide evidence of project requirement achievement. Any explanations regarding altered or missed provider commitments should be included within the narrative box, not as text within uploaded documentation.

Project Requirements (Milestone/Task Name)	Prescribed Due Date	Reporting Level	Provider Type	Status	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
Milestone #1 Contract or partner with community-based organizations (CBOs) to engage target populations using PAM(R) and other patient activation techniques. The PPS must provide oversight and ensure that engagement is sufficient and appropriate.	DY2 Q4	Project	N/A	Completed	07/01/2016	03/31/2017	07/01/2016	03/31/2017	03/31/2017	DY2 Q4
Task Partnerships with CBOs to assist in patient "hot-spotting" and engagement efforts as evidenced by MOUs, contracts, letters of agreement or other partnership documentation.		Project		Completed	07/01/2016	03/31/2017	07/01/2016	03/31/2017	03/31/2017	DY2 Q4
Task With input from PPS members and affiliates, generate list of CBOs w/ high levels of interaction w/ target populations.		Project		Completed	04/01/2015	06/30/2015	04/01/2015	06/30/2015	06/30/2015	DY1 Q1
Task Conduct informational webinars targeting CBO representatives to identify organizations potentially interested in collaboration.		Project		Completed	06/01/2015	07/15/2015	06/01/2015	07/15/2015	09/30/2015	DY1 Q2
Task Determine CBOs desired participation level		Project		Completed	09/01/2015	12/21/2015	09/01/2015	12/21/2015	12/31/2015	DY1 Q3
Task Draft and negotiate partnership agreements		Project		Completed	07/01/2016	03/31/2017	07/01/2016	03/31/2017	03/31/2017	DY2 Q4
Task Meet with CBO leadership/designees to develop a strategy and timeline for conducting outreach efforts		Project		Completed	01/01/2016	06/30/2016	01/01/2016	06/30/2016	06/30/2016	DY2 Q1
Task Begin facilitating outreach efforts through identified methods and channels.		Project		Completed	07/01/2016	08/30/2016	07/01/2016	08/30/2016	09/30/2016	DY2 Q2
Task Sign Partnership Agreements		Project		Completed	07/01/2016	02/17/2017	07/01/2016	02/17/2017	03/31/2017	DY2 Q4
Milestone #2 Establish a PPS-wide training team, comprised of members with training in PAM(R) and expertise in patient activation and engagement.	DY2 Q4	Project	N/A	Completed	06/01/2015	07/30/2015	06/01/2015	07/30/2015	09/30/2015	DY1 Q2
Task Patient Activation Measure(R) (PAM(R)) training team established.		Project		Completed	06/15/2015	07/30/2015	06/15/2015	07/30/2015	09/30/2015	DY1 Q2

DSRIP Implementation Plan Project

Project Requirements (Milestone/Task Name)	Prescribed Due Date	Reporting Level	Provider Type	Status	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
Task Contact leadership of identified CBOs; invite them to introductory webinar		Project		Completed	06/15/2015	07/05/2015	06/15/2015	07/05/2015	09/30/2015	DY1 Q2
Task Conduct webinar to provide potential partner organizations with overview of 2.d.i, PAM, and expectations of participating organizations and individuals.		Project		Completed	07/01/2015	07/15/2015	07/01/2015	07/15/2015	09/30/2015	DY1 Q2
TaskCollectively with AMC and AFBHC PPS, hold PAM Train theTrainer sessions facilitated by Insignia Health representatives.		Project		Completed	07/15/2015	07/30/2015	07/15/2015	07/30/2015	09/30/2015	DY1 Q2
Milestone #3 Identify UI, NU, and LU "hot spot" areas (e.g., emergency rooms). Contract or partner with CBOs to perform outreach within the identified "hot spot" areas.	DY2 Q4	Project	N/A	Completed	08/15/2015	08/30/2016	08/15/2015	08/30/2016	09/30/2016	DY2 Q2
Task Analysis to identify "hot spot" areas completed and CBOs performing outreach engaged.		Project		Completed	12/01/2015	08/30/2016	12/01/2015	08/30/2016	09/30/2016	DY2 Q2
Task Determine available data sources and develop criteria for hot spots		Project		Completed	08/15/2015	12/22/2015	08/15/2015	12/22/2015	12/31/2015	DY1 Q3
Task Work with pilot group of trainees to develop plan to increase activation in hot spots including identifying additional organizations and providers to engage		Project		Completed	01/01/2016	08/30/2016	01/01/2016	08/30/2016	09/30/2016	DY2 Q2
Task Repeat analysis at set intervals		Project		On Hold	04/01/2015	03/31/2020	04/01/2015	03/31/2020	03/31/2020	DY5 Q4
Task Conduct initial analysis		Project		Completed	01/01/2016	08/30/2016	01/01/2016	08/30/2016	09/30/2016	DY2 Q2
Milestone #4 Survey the targeted population about healthcare needs in the PPS' region.	DY2 Q4	Project	N/A	Completed	01/13/2016	08/30/2016	01/13/2016	08/30/2016	09/30/2016	DY2 Q2
TaskCommunity engagement forums and other information-gatheringmechanisms established and performed.		Project		Completed	01/13/2016	07/21/2016	01/13/2016	07/21/2016	09/30/2016	DY2 Q2
Task Work with pilot group of PAM trainees to identify most effective method of soliciting feedback about healthcare needs in the PPS region - survey, focus group, and/or community forum/community engagement forums.		Project		Completed	01/13/2016	08/30/2016	01/13/2016	08/30/2016	09/30/2016

DSRIP Implementation Plan Project

Project Requirements (Milestone/Task Name)	Prescribed Due Date	Reporting Level	Provider Type	Status	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
 Milestone #6 Obtain list of PCPs assigned to NU and LU enrollees from MCOs. Along with the member's MCO and assigned PCP, reconnect beneficiaries to his/her designated PCP (see outcome measurements in #10). This patient activation project should not be used as a mechanism to inappropriately move members to different health plans and PCPs, but rather, shall focus on establishing connectivity to resources already available to the member. Work with respective MCOs and PCPs to ensure proactive outreach to beneficiaries. Sufficient information must be provided regarding insurance coverage, language resources, and availability of primary and preventive care services. The state must review and approve any educational materials, which must comply with state marketing guidelines and federal regulations as outlined in 42 CFR §438.104. 	DY2 Q4	Project	N/A	Completed	08/01/2016	03/30/2017	08/01/2016	03/30/2017	03/31/2017	DY2 Q4
Task Procedures and protocols established to allow the PPS to work with the member's MCO and assigned PCP to help reconnect that beneficiary to his/her designated PCP.		Project		Completed	08/01/2016	03/30/2017	08/01/2016	03/30/2017	03/31/2017	DY2 Q4
Task AHI and MCOs implement outreach plan		Project		Completed	01/01/2017	03/30/2017	01/01/2017	03/30/2017	03/31/2017	DY2 Q4
Task Work with MCOs to determine what information on enrollees will be shared and the format		Project		Completed	08/01/2016	03/30/2017	08/01/2016	03/30/2017	03/31/2017	DY2 Q4
Task AHI and MCOs create proactive outreach plan		Project		Completed	10/01/2016	03/30/2017	10/01/2016	03/30/2017	03/31/2017	DY2 Q4
Milestone #7 Baseline each beneficiary cohort (per method developed by state) to appropriately identify cohorts using PAM(R) during the first year of the project and again, at set intervals. Baselines, as well as intervals towards improvement, must be set for each cohort at the beginning of each performance period.	DY2 Q4	Project	N/A	Completed	02/01/2017	03/30/2017	02/01/2017	03/30/2017	03/31/2017	DY2 Q4
Task For each PAM(R) activation level, baseline and set intervals toward improvement determined at the beginning of each performance period (defined by the state).		Project		Completed	02/01/2017	03/30/2017	02/01/2017	03/30/2017	03/31/2017	DY2 Q4
Task Work with DOH and other PPS to reset baselines at the beginning of each performance period		Project		Completed	02/01/2017	03/30/2017	02/01/2017	03/30/2017	03/31/2017	DY2 Q4
Task		Project		Completed	02/01/2017	02/17/2017	02/01/2017	02/17/2017	03/31/2017	DY2 Q4

Task Outreach to beneficiaries to recruit them to development team		Project		Completed	10/15/2015	12/01/2015	10/15/2015	12/01/2015	12/31/2015	DY1 Q3
Task With input from team, determine frequency and duration of meetings and begin convening group.		Project		Completed	10/15/2015	12/01/2015	10/15/2015	12/01/2015	12/31/2015	DY1 Q3
Task Develop strategy for identifying benficiaries		Project		Completed	08/15/2015	09/30/2015	08/15/2015	09/30/2015	09/30/2015	DY1 Q2
 Milestone #9 Measure PAM(R) components, including: Screen patient status (UI, NU and LU) and collect contact information when he/she visits the PPS designated facility or "hot spot" area for health service. If the beneficiary is UI, does not have a registered PCP, or is attributed to a PCP in the PPS' network, assess patient using PAM(R) survey and designate a PAM(R) score. Individual member's score must be averaged to calculate a baseline measure for that year's cohort. The cohort must be followed for the entirety of the DSRIP program. On an annual basis, assess individual members' and each cohort's level of engagement, with the goal of moving beneficiaries to a higher level of activation. If the beneficiary is deemed to be LU & NU but has a designated PCP who is not part of the PPS' network, counsel the beneficiary on better utilizing his/her existing healthcare benefits, while also encouraging the beneficiary to reconnect with his/her designated PCP. 	DY2 Q4	Project	N/A	Completed	11/01/2015	03/31/2017	11/01/2015	03/31/2017	03/31/2017	DY2 Q4

Project Requirements (Milestone/Task Name)	Prescribed Due Date	Reporting Level	Provider Type	Status	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
Continuously look at hot spot data to determine additional potential partnerships										
Task Using hot spot data, identify potential community based organizations serving target population in identified locations		Project		Completed	03/31/2016	09/29/2016	03/31/2016	09/29/2016	09/30/2016	DY2 Q2
Task Work with identified CBOs to determine willingness to partner		Project		Completed	03/31/2016	08/30/2016	03/31/2016	08/30/2016	09/30/2016	DY2 Q2
Milestone #12 Develop a process for Medicaid recipients and project participants to report complaints and receive customer service.	DY2 Q4	Project	N/A	Completed	08/01/2015	06/30/2016	08/01/2015	06/30/2016	06/30/2016	DY2 Q1
Task Policies and procedures for customer service complaints and appeals developed.		Project		Completed	08/01/2015	10/30/2015	08/01/2015	10/30/2015	12/31/2015	DY1 Q3
Task Ensure all staff members interfacing with PAM participants are aware of the process for lodging a complaint or seeking customer support and understand their obligation to provide all survey recipients with the associated policy & procedures		Project		Completed	11/01/2015	06/30/2016	11/01/2015	06/30/2016	06/30/2016	DY2 Q1
Task Collaborate with AHI's Enrollment Assistance Services and Enrollment (EASE) (navigators for the NY State of Health) and Health Home programs to develop a complaint process/customer service channel for beneficiaries, building on infrastructure already established within their programs.		Project		Completed	08/01/2015	10/30/2015	08/01/2015	10/30/2015	12/31/2015	DY1 Q3
Task Determine strategy to ensure non-EASE and Health Home participants have access to complaint process/customer service assistance.		Project		Completed	11/01/2015	11/30/2015	11/01/2015	11/30/2015	12/31/2015	DY1 Q3
Task Disseminate complaint procedure and customer service access information to participants through written materials distributed by EASE and Health Home staff, PAM Navigators, and representatives from provider offices/CBOs, as well as via mail and/or e-mail when necessary.		Project		Completed	11/01/2015	06/30/2016	11/01/2015	06/30/2016	06/30/2016	DY2 Q1
Milestone #13 Train community navigators in patient activation and education, including how to appropriately assist project beneficiaries using the PAM(R).	DY2 Q4	Project	N/A	Completed	07/15/2015	03/31/2017	07/15/2015	03/31/2017	03/31/2017	DY2 Q4
Task List of community navigators formally trained in the PAM(R).		Provider	PAM(R) Providers	Completed	07/15/2015	03/31/2017	07/15/2015	03/31/2017	03/31/2017	DY2 Q4

Contract or partner with community-based organizations (CBOs) to	
engage target populations using PAM(R) and other patient activation	

DSRIP Implementation Plan Project

Adirondack Health Institute (PPS ID:23)

Prescribed Milestones Narrative Text

Milestone Name Narrative Text techniques. The PPS must provide oversight and ensure that engagement is sufficient and appropriate. Establish a PPS-wide training team, comprised of members with training in PAM(R) and expertise in patient activation and engagement. Identify UI, NU, and LU "hot spot" areas (e.g., emergency rooms). Contract or partner with CBOs to perform outreach within the identified "hot spot" areas. Survey the targeted population about healthcare needs in the PPS' region. Train providers located within "hot spots" on patient activation techniques, such as shared decision-making, measurements of health literacy, and cultural competency. Obtain list of PCPs assigned to NU and LU enrollees from MCOs. Along with the member's MCO and assigned PCP, reconnect beneficiaries to his/her designated PCP (see outcome measurements in #10). · This patient activation project should not be used as a mechanism to inappropriately move members to different health plans and PCPs, but rather, shall focus on establishing connectivity to resources already available to the member. • Work with respective MCOs and PCPs to ensure proactive outreach to beneficiaries. Sufficient information must be provided regarding insurance coverage, language resources, and availability of primary and preventive care services. The state must review and approve any educational materials, which must comply with state marketing guidelines and federal regulations as outlined in 42 CFR §438.104. Baseline each beneficiary cohort (per method developed by state) to appropriately identify cohorts using PAM(R) during the first year of the project and again, at set intervals. Baselines, as well as intervals towards improvement, must be set for each cohort at the beginning of each performance period. Include beneficiaries in development team to promote preventive care. Measure PAM(R) components, including: · Screen patient status (UI, NU and LU) and collect contact information when he/she visits the PPS designated facility or "hot spot" area for health service. • If the beneficiary is UI, does not have a registered PCP, or is attributed to a PCP in the PPS' network, assess patient using PAM(R) survey and designate a PAM(R) score.

Prescribed Milestones Narrative Text

Prescribed Milestones Narrative Text		
Milestone Name	Narrative Text	
Individual member's score must be averaged to calculate a baseline		
measure for that year's cohort.		
• The cohort must be followed for the entirety of the DSRIP program.		
• On an annual basis, assess individual members' and each cohort's level		
of engagement, with the goal of moving beneficiaries to a higher level of		
activation. • If the beneficiary is deemed to be LU & NU but has a		
designated PCP who is not part of the PPS' network, counsel the		
beneficiary on better utilizing his/her existing healthcare benefits, while		
also encouraging the beneficiary to reconnect with his/her designated		
PCP.		
• The PPS will NOT be responsible for assessing the patient via PAM(R)		
survey.		
PPS will be responsible for providing the most current contact		
information to the beneficiary's MCO for outreach purposes.		
Provide member engagement lists to relevant insurance companies (for		
NU & LU populations) on a monthly basis, as well as to DOH on a		
quarterly basis.		
Increase the volume of non-emergent (primary, behavioral, dental) care		
provided to UI, NU, and LU persons.		
Contract or partner with CBOs to develop a group of community		
navigators who are trained in connectivity to healthcare coverage,		
community healthcare resources (including for primary and preventive		
services) and patient education.		
Develop a process for Medicaid recipients and project participants to		
report complaints and receive customer service.		
Train community navigators in patient activation and education, including how to appropriately assist project beneficiaries using the PAM(R).		
Ensure direct hand-offs to navigators who are prominently placed at "hot		
spots," partnered CBOs, emergency departments, or community events,		
so as to facilitate education regarding health insurance coverage, age-		
appropriate primary and preventive healthcare services and resources.		
Inform and educate navigators about insurance options and healthcare		
resources available to UI, NU, and LU populations.		
Ensure appropriate and timely access for navigators when attempting to		
establish primary and preventive services for a community member.		
Perform population health management by actively using EHRs and other		
IT platforms, including use of targeted patient registries, to track all		
patients engaged in the project.

Project 3.a.i – Integration of primary care and behavioral health services

IPQR Module 3.a.i.1 - Major Risks to Implementation and Mitigation Strategies

Instructions :

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

Acquisition, implementation, & training on new/upgraded EHRs. Recruitment, training, & retention of qualified staff. Developing & implementing new policy & procedures. Integration of PC & BH when a patient has existing non-integrated providers. Having time to perform screenings at PC visit. Meeting NCQA 2014 Level 3 certification. Medication Management SBIRT Access to specialty BH services. I Changing models of care causing increased patient case load for psychiatrists. heline Impact: Getting all providers/practices on-board with EHRs can be time consuming. Being in a provider shortage area staffing could delay implementations at sites if providers cannot find enough qualified staff. Time to write P&P along with time to train staff on new P&P could delay the start of the project. The potential delay: a patient either changing providers to achieve integration or having the patient in with care coordinator to ensure non- terment on the time romage.

The potential delay: a patient either changing providers to achieve integration or having the patient in with care coordinator to ensure non-
aroted ears is still being properly exercised
egrated care is still being properly coordinated.
If providers feel there is not enough time under the current reimbursement model then the lack of provider compliance to perform the screening
uld delay commitment goals.
The time it takes to get a practice certified at this standard could delay implementing other parts of this project.
Delay if right tech solution not in place.
Confusion over SBIRT & the OASAS requirements for training on this could delay its use.
The access to timely appointment for those who are Severely Mentally III (SMI) could mean overflow of that population being treated in an
ppropriate setting, thus using resources that were meant to add capacity & service persons that need BH services for less chronic issues. The
erflow could delay the timeline by not getting enough new patients access to care.
If psychiatrists choose to leave an organization this would impact the timeline because there would be a decrease in the amount of patients an
anization could see.
igation:
Assist with funding of EHRs & assist those with interoperability needs for multiple EHRs. Assist providers in making realistic time commitments
sed on current EHR status/needs level.
Looking at family medicine residency programs to gain new physicians. Looking at salary support for LMSW's, allowing support for the 3 years
get clinical supervision; the goal is to get LMSW's set to be LCSW's & thus billable providers.

DSRIP Implementation Plan Project

Adirondack Health Institute (PPS ID:23)

3) Leverage providers who have some experience with integrated care & encourage sharing of P&P between organizations.
 4) Using Health Home care coordinators will assist with those patients who choose to have non-integrated services. The preference would be to utilize embedded care coordinators. For patients who choose to move into integrated care the PPS & partners will need to continue to assess capacity for service delivery.
 5) Work with partners to have screenings embedded in EHRs so providers will have quick & easy access to the tools; training other staff, such as nurses/medical assistants, to execute the screening will increase the use of the tools & allow time for the provider to follow up on positive screens.
 6) Work with project 2aii to ensure that practices have the resources needed to execute & achieve this requirement.
 7) Work with providers & HIXNY to find most effect solution.
 8) Many partners are looking at the PHQ-2 or PHQ-9 to avoid the confusion. Hold SBIRT trainings.
 9) The specialty BH providers are examining their current caseloads as well as scheduling structure & capacity to figure out how to reduce waitlists & increase speedier access to care for those who are SMI.
 10) Organizations that currently have low caseloads for psychiatrists will need to have buy in from the psychiatrists to move toward a different model of care. Getting this buy in as well as making the transition gradual will mitigate this risk

IPQR Module 3.a.i.2 - Patient Engagement Speed

Instructions :

Enter the number of patients actively engaged through the current quarter. The number entered into the "Quarterly Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for Q4 should include patients previously reported in Q3 plus new patients engaged in Q4. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

Benchr	narks
Actively Engaged Speed	Actively Engaged Scale
DY4,Q4	35,972

	Year,Quarter	DY3,Q1	DY3,Q2	DY3,Q3	DY3,Q4
	Baseline Commitment	6,295	12,590	18,000	25,180
PPS Reported	Quarterly Update	0	19,716	0	0
	Percent(%) of Commitment	0.00%	156.60%	0.00%	0.00%
	Quarterly Update	0	19,642	0	0
IA Approved	Percent(%) of Commitment	0.00%	156.01%	0.00%	0.00%

Warning: PPS Reported - Please note that your patients engaged to date (0) does not meet your committed amount (18,000) for 'DY3,Q3'

Prescribed Milestones Narrative Text

Milestone Name Narrative Text implemented for all patients to identify unmet needs. Use EHRs or other technical platforms to track all patients engaged in this project. Co-locate primary care services at behavioral health sites. Develop collaborative evidence-based standards of care including medication management and care engagement process. Conduct preventive care screenings, including physical and behavioral health screenings. Use EHRs or other technical platforms to track all patients engaged in this project. Implement IMPACT Model at Primary Care Sites. Utilize IMPACT Model collaborative care standards, including developing coordinated evidence-based care standards and policies and procedures for care engagement. Employ a trained Depression Care Manager meeting requirements of the IMPACT model. Designate a Psychiatrist meeting requirements of the IMPACT Model. Measure outcomes as required in the IMPACT Model. Provide "stepped care" as required by the IMPACT Model. Use EHRs or other technical platforms to track all patients engaged in this project.

IPQR Module 3.a.i.5 - IA Monitoring

Instructions :

DSRIP Implementation Plan Project

Page 272 of 424 Run Date : 03/30/2018

Adirondack Health Institute (PPS ID:23)

Project 3.a.ii – Behavioral health community crisis stabilization services

IPQR Module 3.a.ii.1 - Major Risks to Implementation and Mitigation Strategies

Instructions :

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

Risk 1-BH organizations having access to EHR systems with secure messaging. This could potentially impact the completion of Milestones and submitting Actively Engaged data to the PPS. Mitigation 1-For agencies applying for HCBS services, providers must be able to: Input data into EHRs, Access data from EHRs, Share health information among providers, sustain financial viability, and reduce health care costs via reduction in ED/Inpatient services so they can align with DSRIP, PPS, HH, RHIO and SHIN-NY Risk 2-Transportation access for patients in Crisis. If a Mobile Crisis Unit is not available a person in Crisis may not have transportation to the appropriate services which may lead to an Ambulance ride to the ED and a decrease in Actively Engaged numbers if Crisis Services are underutilized. Mitigation 2-Utilizing telehealth when possible in remote areas. Making sure patients are connected to a Care Manager which can refer to Medicaid transportation Risk 3- Being aware of new community and law enforcement Crisis Services so patients won't be referred to the ED. This could impact the number of Actively engaged patients until more Crisis Outreach education is received Mitigation 3 -CIT training for law enforcement and the community-CIT International primary purpose is to facilitate understanding, development and implementation of Crisis Intervention Team CIT training programs throughout the U.S. in order to promote and support collaborative efforts to create and sustain more effective interactions among law enforcement, mental health care providers, individuals with mental illness, their families and communities and to reduce the stigma of mental illness. A central triage will also help refer these patients to the correct services Risk 4-Staffing shortages for Crisis Programs-LMSWs and Psychiatric staff are difficult to find prior to adding new services to organizations. This could delay implementation of some of the milestones Mitigation 4-Workforce Manager and groups will help with recruitment and retention of staff. Risk 5-Tracking and reporting Actively Engaged-HARPs will be starting to enroll participants in July and HCBS will take effect in October. Some of the main partners in this project are not billing Medicaid for their current crisis services. AHI will be working with organizations to capture current services and how to track engaged patients with an attestation form. CRFP monies were delayed for GFH's Crisis Care Center, CAI's combined Crisis Stabilization and Ambulatory Detox and program and CVFC's Ambulatory Detox Program. BHSN and MHA of Essex didn't receive CRFP. Plan B will be developed which may take time to find locations and if renovations are needed. All of the reasons above will affect AHI reaching Actively Engaged milestones Mitigation 5- Working to get attestation forms for partners until HARPs and HCBS services are in place. They will need these forms for reporting. For the purposes of tracking and reporting Actively Engaged, PPS' are required to capture and report the CIN, consistent with the guidance for all projects. However, if the nature of the engagement is anonymous, the PPS would only need to track and report the number of anonymous engagements completed by network partners. Risk 6- Contracting agreements among providers in the IDS Mitigation 6- PPS Finance Committee determined a methodology for Engagement Funds II Distribution to Partners. AHI will determine a Contracting timeline to prioritize Master Participation Agreements, and Schedule A2s Risk 7- Operational Challenges: AHI Leadership and DSRIP staffing resources for Clinical Governance and Quality Committee for oversight and NYS Confidentiality – High

DSRIP Implementation Plan Project

Adirondack Health Institute (PPS ID:23)

surveillance of compliance with protocols and quality of care. Mitigation 7-AHI will leverage the shared governance model to allocate resources to achieve the vision and goals of the PPS in a balanced manner

DSRIP Implementation Plan Project

Adirondack Health Institute (PPS ID:23)

IPQR Module 3.a.ii.2 - Patient Engagement Speed

Instructions :

Enter the number of patients actively engaged through the current quarter. The number entered into the "Quarterly Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for Q4 should include patients previously reported in Q3 plus new patients engaged in Q4. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

Benchr	narks

IPQR Module 3.a.ii.3 - Prescribed Milestones

Instructions :

Please provide updates to baseline reporting on status, target dates, and work breakdown tasks for prescribed milestones. For milestones that are due and completed within the reporting period, documentation is required to provide evidence of project requirement achievement. Any explanations regarding altered or missed provider commitments should be included within the narrative box, not as text within uploaded documentation.

Project Requirements (Milestone/Task Name)	Prescribed Due Date	Reporting Level	Provider Type	Status	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
Milestone #1 Implement a crisis intervention program that, at a minimum, includes outreach, mobile crisis, and intensive crisis services.	DY3 Q4	Project	N/A	In Progress	07/01/2015	03/31/2018	07/01/2015	03/31/2018	03/31/2018	DY3 Q4
Task PPS has established a crisis intervention program that includes outreach, mobile crisis, and intensive crisis services.		Project		In Progress	01/01/2016	03/31/2018	01/01/2016	03/31/2018	03/31/2018	DY3 Q4
Task 1. Identify and list organization(s) that will perform crisis outreach.		Project		Completed	09/30/2015	06/30/2016	09/30/2015	06/30/2016	06/30/2016	DY2 Q1
Task 2. Identify and list organization(s) that will execute mobile crisis services.		Project		Completed	09/30/2015	06/30/2016	09/30/2015	06/30/2016	06/30/2016	DY2 Q1
Task 3. Identify and list organization(s) that will provide intensive crisis services.		Project		Completed	09/30/2015	06/30/2016	09/30/2015	06/30/2016	06/30/2016	DY2 Q1
Task4. Hold kick off meetings where project teams meet and reviewplans for implementation of a crisis intervention program.		Project		Completed	09/30/2015	12/31/2015	09/30/2015	12/31/2015	12/31/2015	DY1 Q3
Task5. Ensure staff is licensed or designated by OMH/OASAS toprovide specific crisis services described in the NYS Medicaidstate plan.		Project		Completed	01/01/2016	06/30/2016	01/01/2016	06/30/2016	06/30/2016	DY2 Q1
Task6. Establish a marketing and promotion plan to market new crisisintervention program to the community, social service providersand health centers.		Project		In Progress	01/01/2016	03/31/2018	01/01/2016	03/31/2018	03/31/2018	DY3 Q4
Milestone #2 Establish clear linkages with Health Homes, ER and hospital services to develop and implement protocols for diversion of patients from emergency room and inpatient services.	DY3 Q4	Project	N/A	In Progress	01/01/2016	03/31/2018	01/01/2016	03/31/2018	03/31/2018	DY3 Q4
TaskPPS has implemented diversion management protocol with PPSHospitals (specifically Emergency Departments).		Project		In Progress	03/01/2016	03/31/2018	03/01/2016	03/31/2018	03/31/2018	DY3 Q4

Prescribed Milestones Narrative Text

Milestone Name	Narrative Text
Implement a crisis intervention program that, at a minimum, includes	
outreach, mobile crisis, and intensive crisis services.	
Establish clear linkages with Health Homes, ER and hospital services to	
develop and implement protocols for diversion of patients from	
emergency room and inpatient services.	
Establish agreements with the Medicaid Managed Care organizations	
serving the affected population to provide coverage for the service array	
under this project.	
Develop written treatment protocols with consensus from participating	
providers and facilities.	

DSRIP Implementation Plan Project

Adirondack Health Institute (PPS ID:23)

Prescribed Milestones Narrative Text

Milestone Name Narrative Text Include at least one hospital with specialty psychiatric services and crisisoriented psychiatric services; expansion of access to specialty psychiatric and crisis-oriented services. Expand access to observation unit within hospital outpatient or at an off campus crisis residence for stabilization monitoring services (up to 48 hours). Deploy mobile crisis team(s) to provide crisis stabilization services using evidence-based protocols developed by medical staff. Ensure that all PPS safety net providers have actively connected EHR systems with local health information exchange/RHIO/SHIN-NY and share health information among clinical partners, including direct exchange (secure messaging), alerts and patient record look up by the end of Demonstration Year (DY) 3. Establish central triage service with agreements among participating psychiatrists, mental health, behavioral health, and substance abuse providers. Ensure quality committee is established for oversight and surveillance of compliance with protocols and quality of care. Use EHRs or other technical platforms to track all patients engaged in this project.

IPQR Module 3.a.ii.5 - IA Monitoring

DSRIP Implementation Plan Project

Page 288 of 424 Run Date : 03/30/2018

Adirondack Health Institute (PPS ID:23)

Project 3.a.iv – Development of Withdrawal Management (e.g., ambulatory detoxification, ancillary withdrawal services) capabilities and appropriate enhanced abstinence services within community-based addiction treatment programs

IPQR Module 3.a.iv.1 - Major Risks to Implementation and Mitigation Strategies

Instructions :

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

Risk 1-Ambulatory Detox are new services for CVFC and Citizen Advocates so this may impact Actively Engaged Reporting for September 30th with needing 140 participants. CVFC is looking at early 2017 before up and running and Citizen Advocates, Inc. has a timeline of October 2016. Mitigation 1-Both projects received capital funding to move forward but renovations have to happen as well as getting certification for Withdrawal Management services from OASAS. This may take some time and will affect Actively engaged. CVFC will be looking at an 820 certification and CAI an 816 certification.

Risk 2-In Plattsburgh finding a board certified addiction medicine Dr. This has potential to slow down the start of the Detox Services in Plattsburgh. Lack of appropriate medical staffing for the detox services.

Mitigation 2-Working with the Workforce Manager and OASAS to recruit a board certified addiction medicine Dr. and other licensed staff such as RNs and LPNs.

Recovery Coaches will be used when appropriate and the training can be brought to the PPS to increase the recovery coach pool. Work with CVFC and CAI and the workforce manager to develop more Credentialed Alcoholism and Substance Abuse Counselors (CASAC) in the region.

Risk 3-Access to transportation for patients needing medically supervised detox services. If a patient does not have transportation to the appropriate services this could lead to a decrease in Actively Engaged numbers if Detox services are underutilized. The Plattsburgh site will be 12 miles from town.

Mitigation 3-Making sure patients are connected to a Care Manager which can refer to Medicaid transportation and ensure patient has appropriate resources.

Risk 4-Contracting agreements (Master Participation Agreement and Schedule A2s) among providers in the IDS Mitigation 4-PPS Finance Committee has determined a methodology for Engagement Funds II Distribution to PPS Partners. AHI PPS will determine a Contracting timeline to prioritize Master Participation Agreements, and Project Specific Schedule A2s.

Risk 5-Operational Challenges: AHI PPS Leadership and DSRIP staffing resources for Clinical Governance and Quality Committee for oversight and surveillance of compliance with protocols and quality of care.

Mitigation 5-AHI will leverage the shared governance model to allocate resources in a manner that best achieves the vision and goals of the PPS in a balanced manner

DSRIP Implementation Plan Project

Adirondack Health Institute (PPS ID:23)

☑ IPQR Module 3.a.iv.2 - Patient Engagement Speed

Instructions :

Enter the number of patients actively engaged through the current quarter. The number entered into the "Quarterly Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for Q4 should include patients previously reported in Q3 plus new patients engaged in Q4. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

Benchmarks Actively Engaged Speed Actively Engaged Scale DY4 04 939			
Actively Engaged Speed	Actively Engaged Scale		
DY4,Q4	939

IPQR Module 3.a.iv.5 - IA Monitoring

Instructions :

DSRIP Implementation Plan Project

Adirondack Health Institute (PPS ID:23)

Project 3.g.i – Integration of palliative care into the PCMH Model

IPQR Module 3.g.i.1 - Major Risks to Implementation and Mitigation Strategies

Instructions :

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

•	ialed professionals with palliative care knowledge and expertise.
-	Lack of providers means an inability to execute new and additional services in the palliative care arena.
Mitigation strategy: Lack of prov	viders means an inability to execute new and additional services in the palliative care arena.
Risk 2: Historically palliative can the positive effects.	re services have not been utilized, are utilized infrequently, or not utilized as early on in a patient's case to increase
-	Lack of knowledge around palliative care in general could slow down referrals and delay the timeline.
-	ovider, patient, and community knowledge base around palliative care services.
-	Ensuring MCO's will pay for services may take negotiation of reimbursements and slow down getting patients into
Mitigation strategy: Work with e effectiveness of care.	valuators to develop a statistical model for demonstrating outcomes of palliative care projects and prove cost
Risk 4: Smaller practices lack p	atient volume and resources to hire dedicated staff to support palliative care.
Potential impact to the timeline:	Under-resourced providers will be reluctant to provide palliative care as it will put additional strain on the practice, ients able to benefit from this service.
Mitigation strategy: Potentially I	naving central palliative care staff that can support multiple small practices would reduce the cost and burden. ad into contractual agreements with the AHI PPS.
	Contracts not being in place generates a lack of incentive for partner participation and may also impact timing for
•	contracting timeline to prioritize Master Participation Agreements and project specific Schedule A2's. This will agement and flow of funds.
	vely engaged (AE) targets set forth by DOH (per the Patient Engagement Discount Report, March 2016) by way of
Potential impact to the timeline:	Aggressive timeline for implementation of the POS and lack of education on how to use the tool will be a short-
term risk for the first reporting pe	
Mitigation Strategy: Provide train	ning for members of the PCP team on the POS assessment tool in order to meet AE targets beginning the second

reporting period.

DSRIP Implementation Plan Project

Adirondack Health Institute (PPS ID:23)

IPQR Module 3.g.i.2 - Patient Engagement Speed

Instructions :

Enter the number of patients actively engaged through the current quarter. The number entered into the "Quarterly Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for Q4 should include patients previously reported in Q3 plus new patients engaged in Q4. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

Benchmarks					
Actively Engaged Speed	Actively Engaged Scale				
DY4,Q4	4,052				

	Year,Quarter	DY3,Q1	DY3,Q2	DY3,Q3	DY3,Q4
	Baseline Commitment	808	1,624	2,432	3,247
PPS Reported	Quarterly Update	0	1,827	0	0
	Percent(%) of Commitment	0.00%	112.50%	0.00%	0.00%
IA Approved	Quarterly Update	0	1,827	0	0
	Percent(%) of Commitment	0.00%	112.50%	0.00%	0.00%

A Warning: PPS Reported - Please note that your patients engaged to date (0) does not meet your committed amount (2,432) for 'DY3,Q3'

IPQR Module 3.g.i.3 - Prescribed Milestones

Instructions :

Please provide updates to baseline reporting on status, target dates, and work breakdown tasks for prescribed milestones. For milestones that are due and completed within the reporting period, documentation is required to provide evidence of project requirement achievement. Any explanations regarding altered or missed provider commitments should be included within the narrative box, not as text within uploaded documentation.

Project Requirements (Milestone/Task Name)	Prescribed Due Date	Reporting Level	Provider Type	Status	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
Milestone #1 Integrate Palliative Care into appropriate participating PCPs that have, or will have, achieved NCQA PCMH and/or APCM certification.	DY4 Q2	Project	N/A	Completed	07/01/2015	03/31/2016	07/01/2015	03/31/2016	03/31/2016	DY1 Q4
Task PPS has identified primary care providers integrating palliative care services into their practice model. Primary care practices using PCMH and/or APCM have been included. The PPS has received agreement from those eligible PCPs not PCMH and/or APCM certified to become certified to at least Level 1 of the 2014 NCQA PCMH and/or APCM by Demonstration Year 3.		Provider	Practitioner - Primary Care Provider (PCP)	Completed	07/01/2015	03/31/2016	07/01/2015	03/31/2016	03/31/2016	DY1 Q4

IPQR Module 3.g.i.5 - IA Monitoring

Instructions :

DSRIP Implementation Plan Project

Adirondack Health Institute (PPS ID:23)

Project 4.a.iii – Strengthen Mental Health and Substance Abuse Infrastructure across Systems

IPQR Module 4.a.iii.1 - Major Risks to Implementation and Mitigation Strategies

Instructions :

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

The ability to strengthen the mental health and substance abuse system will require collaborative efforts with traditional and non-traditional providers to promote mental, emotional, and behavioral wellbeing. The AHI PPS faces a number of challenges with building an effective infrastructure. The challenges include: • The AHI PPS covers a wide geography of nine counties and 11,000 square miles. A wide service area makes it difficult to provide trainings, especially if people have to travel multiple hours to attend a training session, which could reduce the number of individuals getting trained. • Stereotypes, stigmas, and labels created by society and often the subject and/or story line of television drama often create feelings of embarrassment, unfair judgement, and whether real or perceived, unfair treatment. The result of a person with this type of response is the less active engagement in the care system. • The time involved to develop and employ an appropriate method for handling data could prevent the PPS from meeting project deliverables according to plan. The time involved in developing training curriculum could have an impact on the speed at which trainers begin reach into the community. Attracting busy professionals already stretched by multiple priorities could prevent the PPS from implementing and executing the goals of the project. AHI will mitigate the above challenges by: • Strategically placing trainers throughout the PPS so more training can be offered in the areas the people needing to be trained live and work. · Providing a safe training environment and practice use examples for how using informed approaches can improve a provider's work with patients this risk should be reduced. Accessing a data analyst and an evaluation manager to assist in creating the most effective model and process for collecting and distributing data. Using existing trainings and consultation with subject matter experts for curriculum design should provide a more streamlined approach and assist in getting trainers prepped and into the community sooner. Staggering the offerings of trainings will also allow for one curriculum to be delivered while another is being developed.

• Using DSRIP funding to incentivize or offset cost to the agency sending staff to training.

Instructions :

DSRIP Implementation Plan Project

Page 317 of 424 Run Date : 03/30/2018

Adirondack Health Institute (PPS ID:23)

Project 4.b.ii – Increase Access to High Quality Chronic Disease Preventive Care and Management in Both Clinical and Community Settings (Note: This project targets chronic diseases that are not included in domain 3, such as cancer

☑ IPQR Module 4.b.ii.1 - Major Risks to Implementation and Mitigation Strategies

Instructions :

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

Training primary care physicians on the guidelines that are developed and adopted. Physicians' time is at a premium and challenges to find time to attend trainings.
Training of mid-level staff on spirometry and an action plan for COPD.
Mitigation 1
Gaining organizational support by medical leadership to deliver trainings to physicians on adopting and implementing the guidelines
Working with workforce manager and regional teams to train staff and find a trainer.
Risk 2
Management of COPD patients in rural areas with telehealth to keep readmission rates lower. Getting patients set up with telehealth (monitoring of
COPD symptoms) in rural areas can be costly and exhausting of smaller home care agencies who do not have the infrastructure.
Mitigation 2
Using telehealth program and larger home agencies to purchase appropriate equipment and/or to sub-contract appropriate telehealth/monitoring
services
Risk 3
Getting physicians, home care agencies and skilled nursing facilities to be engaged in the project. Regionally, COPD rates exceed state rates and
it will be important to get providers to support this project with a plan for sustainability.
Mitigation 3
Recruiting a physician champion who is utilizing the GOLD standards and has success proven success with lowered COPD readmission rates will
be important for this project.
Working with providers in the PCMH project
• • • • • • •
Risk 4
Contracting agreements (Master Participation Agreement and Schedule A2s) among providers in the IDS.
Mitigation 4
PPS Finance Committee has determined a methodology for Engagement Funds II Distribution to PPS Partners. AHI PPS will determine a
Contracting timeline to prioritize Master Participation Agreements, and Project Specific Schedule A2s.

IPQR Module 4.b.ii.2 - PPS Defined Milestones

Instructions :

Please provide updates to baseline reporting on status, target dates, and work breakdown tasks for PPS-defined milestones.

Milestone/Task Name	Status	Description	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
Milestone A 1. Print media campaign is finalized to build public awareness about COPD prevention and programs	In Progress	finalize print media campaign	04/01/2016	12/31/2017	04/01/2016	12/31/2017	12/31/2017	DY3 Q3
Task1. Coordinate with partners about messaging A.Ads to target persons with, or at risk for COPD, aswell as their family members, providers andcaregivers. B. Ads to promote COPD resources.	Completed	Coordinate with partners to target at risk populations and promote resources	04/01/2016	03/31/2017	04/01/2016	03/31/2017	03/31/2017	DY2 Q4
Task 2. Contract with an advertising firm to create ads	Completed	create ads	01/01/2017	03/31/2017	01/01/2017	03/31/2017	03/31/2017	DY2 Q4
Task (A) 3. Place ads in local media outlets throughout PPS region.	In Progress	place ads	07/01/2017	12/31/2017	07/01/2017	12/31/2017	12/31/2017	DY3 Q3
Task A 4. Re-evaluate media campaign to decide if different messaging or target population needs to be reached	In Progress	re-evaluate media campaign	01/01/2017	12/31/2017	01/01/2017	12/31/2017	12/31/2017	DY3 Q3
Milestone 2. Care teams are fully staffed/trained and have the necessary patient education tools/materials in place	Completed	care teams fully staffed/trained	04/01/2016	03/31/2017	04/01/2016	03/31/2017	03/31/2017	DY2 Q4
Task1. Develop a training program for care managersthat includes evidence based guidelines,management of COPD and preventativemeasures.	Completed	develop training program	04/01/2016	03/31/2017	04/01/2016	03/31/2017	03/31/2017	DY2 Q4
Task2. Develop a guide for COPD resources thatincludes referrals to educational programs, NYSSmokers Quitline information, as well as the localtobacco cessation programs, and pulmonary	Completed	develop resource guide for COPD	04/01/2016	03/31/2017	04/01/2016	03/31/2017	03/31/2017	DY2 Q4

DSRIP Implementation Plan Project

Milestone/Task Name	Status	Description	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
fitness programs.								
Task3. Care managers are hired where needed inPrimary Care settings to address COPD patientsand needs in the community, utilizing Health HomeCare Managers when appropriate.	Completed	care managers available at PCP sites	04/01/2016	03/31/2017	04/01/2016	03/31/2017	03/31/2017	DY2 Q4
Milestone 3. Home monitoring equipment is acquired and fully deployed	In Progress	acquire and deploy home monitoring equipment	04/01/2016	12/31/2017	04/01/2016	12/31/2017	12/31/2017	DY3 Q3
Task (A) 1. Purchase appropriate home monitoring equipment for COPD patients.	In Progress	purchase appropriate equipment	07/01/2017	12/31/2017	07/01/2017	12/31/2017	12/31/2017	DY3 Q3
Task (A) 2. Train care managers and providers on home monitoring equipment.	In Progress	train care managers and providers	07/01/2017	12/31/2017	07/01/2017	12/31/2017	12/31/2017	DY3 Q3
 Task A 3. Patient education on monitoring equipment and signed usage agreements in place. 	In Progress	train patients and get agreements for use	07/01/2017	12/31/2017	07/01/2017	12/31/2017	12/31/2017	DY3 Q3
Task A 4. Tracking system for home monitoring equipment	In Progress	equipment tracking system	07/01/2017	12/31/2017	07/01/2017	12/31/2017	12/31/2017	DY3 Q3
Milestone 4. Adoption of Primary care evidence-based diagnosis and treatment guidelines for COPD	Completed	diagnosis and treatment guidelines	10/01/2015	03/31/2017	10/01/2015	03/31/2017	03/31/2017	DY2 Q4
Task1. Develop a COPD best practice provider groupthrough the Medical Home Initiatives in PPS.	Completed	develop a best practice provider group	10/01/2015	12/31/2015	10/01/2015	12/31/2015	12/31/2015	DY1 Q3
Task2. Hold meetings to discuss COPD evidence- based guidelines	Completed	meetings to discuss evidence based guidelines	10/28/2015	03/31/2016	10/28/2015	03/31/2016	03/31/2016	DY1 Q4
Task3. Adoption of regional guidelines to include earlydiagnosis and use of prevention for COPD	Completed	adopt regional guidelines	04/01/2016	03/31/2017	04/01/2016	03/31/2017	03/31/2017	DY2 Q4
Task4. Implementation of evidence-based diagnosisand treatment guidelines in primary care settings.	Completed	Implement diagnosis and treatment guidelines	04/01/2016	03/31/2017	04/01/2016	03/31/2017	03/31/2017	DY2 Q4
Milestone 5. Embedded clinical decision supports for evidence-based care are in place in EHR's/or population health management tools as applicable, all practices	Completed	clinical decision supports in place	01/01/2016	03/31/2017	01/01/2016	03/31/2017	03/31/2017	DY2 Q4

Attestation

The Lead Representative has been designated by the Primary Lead PPS Provider (PPS Lead Entity) as the signing officiate for the DSRIP Quarterly Report. The Lead Representative has the authority to complete this attestation on behalf of the PPS network. The Lead Representative and PPS Lead Entity are responsible for the authenticity and accuracy of the material submitted in this report.

The Lead Representative of the Performing Provider System (PPS) must complete this attestation form in order for the project application to be accepted by the NYS Department of Health. Once the attestation is complete, the Quarterly Report will be locked down from any further editing. Do not complete this section until the entire Quarterly Report is complete.

If the Quarterly Report becomes locked in error and additional changes are necessary, please use the contact information on the Home Page to request that the Quarterly Report be unlocked.

To electronically sign this Quarterly Report, please enter the required information and check the box below:

I here by attest, as the Lead Representative of the 'Adirondack Health Institute', that all information provided on this Quarterly report is true and accurate to the best of my knowledge, and that, following initial submission in the current quarterly reporting period as defined by NY DOH, changes made to this report were pursuant only to documented instructions or documented approval of changes from DOH or DSRIP Independent Assessor.

DSRIP Implementation Plan Project

Project ID	Module Name / Milestone #	Review Statu	IS
	Module 2.a.i.2 - Prescribed Milestones		
	Milestone #1 All PPS providers must be included in the Integrated Delivery System. The IDS should include all medical, behavioral, post-acute, long-term care, and community-based service providers within the PPS network; additionally, the IDS structure must include payers and social service organizations, as necessary to support its strategy.	Pass & Ongoing	
	Milestone #2 Utilize partnering HH and ACO population health management systems and capabilities to implement the PPS' strategy towards evolving into an IDS.	Pass & Complete	
	Milestone #3 Ensure patients receive appropriate health care and community support, including medical and behavioral health, post-acute care, long term care and public health services.	Pass & Complete	
	Milestone #4 Ensure that all PPS safety net providers are actively sharing EHR systems with local health information exchange/RHIO/SHIN-NY and sharing health information among clinical partners, including directed exchange (secure messaging), alerts and patient record look up, by the end of Demonstration Year (DY) 3.	Pass & Ongoing	
2.a.i	Milestone #5 Ensure that EHR systems used by participating safety net providers meet Meaningful Use and PCMH Level 3 standards and/or APCM by the end of Demonstration Year 3.	Pass & Ongoing	
	Milestone #6 Perform population health management by actively using EHRs and other IT platforms, including use of targeted patient registries, for all participating safety net providers.	Pass & Ongoing	
	Milestone #7 Achieve 2014 Level 3 PCMH primary care certification and/or meet state-determined criteria for Advanced Primary Care Models for all eligible participating PCPs, expand access to primary care providers, and meet EHR Meaningful Use standards by the end of DY 3.	Pass & Ongoing	
	Milestone #9 Establish monthly meetings with Medicaid MCOs to discuss utilization trends, performance issues, and payment reform.	Fail	IA
	Milestone #10 Re-enforce the transition towards value-based payment reform by aligning provider compensation to patient outcomes.	Pass & Ongoing	
	Milestone #11 Engage patients in the integrated delivery system through outreach and navigation activities, leveraging community health workers, peers, and culturally competent community-based organizations, as appropriate.	Pass & Complete	
	Module 2.a.ii.2 - Patient Engagement Speed	Pass & Ongoing	
	Module 2.a.ii.3 - Prescribed Milestones		
	Milestone #1 Ensure that all eligible participating PCPs in the PPS meet NCQA 2014 Level 3 PCMH accreditation and/or meet state-determined criteria for Advanced Primary Care Models by the end of DSRIP Year 3.	Pass & Ongoing	
2.a.ii	Milestone #2 Identify a physician champion with knowledge of PCMH/APCM implementation for each primary care practice included in the project.	Pass & Complete	
	Milestone #3 Identify care coordinators at each primary care site who are responsible for care connectivity, internally, as well as connectivity to care managers at other primary care practices.	Pass & Complete	
	Milestone #4 Ensure all PPS safety net providers are actively sharing EHR systems with local health information exchange/RHIO/SHIN-NY and sharing health information among clinical partners, including direct exchange (secure messaging),	Pass & Complete	

Page 338 of 424 Run Date : 03/30/2018

DSRIP Implementation Plan Project

Project ID	Module Name / Milestone #	Review Status	5
	alerts and patient record look up by the end of Demonstration Year (DY) 3.		
	Milestone #5 Ensure that EHR systems used by participating safety net providers meet Meaningful Use and PCMH Level 3 standards and/or APCM by the end of Demonstration Year 3.	Pass & Ongoing	
	Milestone #6 Perform population health management by actively using EHRs and other IT platforms, including use of targeted patient registries, for all participating safety net providers.	Pass & Ongoing	
	Milestone #7 Ensure that all staff are trained on PCMH or Advanced Primary Care models, including evidence-based preventive and chronic disease management.	Pass & Ongoing	
	Milestone #8 Implement preventive care screening protocols including behavioral health screenings (PHQ-2 or 9 for those screening positive, SBIRT) for all patients to identify unmet needs. A process is developed for assuring referral to appropriate care in a timely manner.	Pass & Complete	
	Milestone #9 Implement open access scheduling in all eligible primary care practices.	Pass & Ongoing	
	Module 2.a.iv.2 - Patient Engagement Speed	Pass & Ongoing	
	Module 2.a.iv.3 - Prescribed Milestones		
	Milestone #1 Convert outdated or unneeded hospital capacity into an outpatient services center, stand-alone emergency department/urgent care center or other healthcare-related purpose.	Pass & Complete	
	Milestone #2 Provide a detailed timeline documenting the specifics of bed reduction and rationale. Specified bed reduction proposed in the project must include active or "staffed" beds.	Pass & Complete	
2.a.iv	Milestone #3 Ensure that all eligible participating PCPs meet NCQA 2014 Level 3 PCMH accreditation and/or meet state- determined criteria for Advanced Primary Care Models by the end of DSRIP Year 3.	Pass & Ongoing	
	Milestone #4 Ensure that all safety net providers participating in Medical Villages are actively sharing EHR systems with local health information exchange/RHIO/SHIN-NY and sharing health information among clinical partners, including direct exchange (secure messaging), alerts and patient record look up.	Pass & Ongoing	
	Milestone #5 Use EHRs and other technical platforms to track all patients engaged in the project.	Pass & Complete	
	Milestone #6 Ensure that EHR systems used in Medical Villages meet Meaningful Use Stage 2	Pass & Ongoing	
	Milestone #7 Ensure that services which migrate to a different setting or location (clinic, hospitals, etc.) are supported by the comprehensive community needs assessment.	Pass & Complete	
	Module 2.b.viii.2 - Patient Engagement Speed	Pass & Ongoing	
	Module 2.b.viii.3 - Prescribed Milestones		
2.b.viii	Milestone #1 Assemble Rapid Response Teams (hospital/home care) to facilitate patient discharge to home and assure needed home care services are in place, including, if appropriate, hospice.	Pass & Complete	
	Milestone #2 Ensure home care staff have knowledge and skills to identify and respond to patient risks for readmission, as well as to support evidence-based medicine and chronic care management.	Fail	А
	Milestone #3 Develop care pathways and other clinical tools for monitoring chronically ill patients, with the goal of early identification of potential instability and intervention to avoid hospital transfer.	Fail	IA

Page 339 of 424 Run Date : 03/30/2018

DSRIP Implementation Plan Project

Project ID	Module Name / Milestone #	Review Status					
	Milestone #4 Educate all staff on care pathways and INTERACT-like principles.	Fail	А				
	Milestone #5 Develop Advance Care Planning tools to assist residents and families in expressing and documenting their wishes for near end of life and end of life care.	Pass & Complete					
	Milestone #6 Create coaching program to facilitate and support implementation.	Fail	IA				
	Milestone #7 Educate patient and family/caretakers, to facilitate participation in planning of care.	Pass & Complete					
	Milestone #8 Integrate primary care, behavioral health, pharmacy, and other services into the model in order to enhance coordination of care and medication management.	Pass & Complete					
	Milestone #9 Utilize telehealth/telemedicine to enhance hospital-home care collaborations.	Pass & Complete					
	Milestone #10 Utilize interoperable EHR to enhance communication and avoid medication errors and/or duplicative services.	Pass & Complete					
	Milestone #11 Measure outcomes (including quality assessment/root cause analysis of transfer) in order to identify additional interventions.	Pass & Complete					
	Milestone #12 Use EHRs and other technical platforms to track all patients engaged in the project.	Pass & Complete					
	Module 2.d.i.2 - Patient Engagement Speed	Pass & Ongoing					
	Module 2.d.i.3 - Prescribed Milestones						
	Milestone #1 Contract or partner with community-based organizations (CBOs) to engage target populations using PAM(R) and other patient activation techniques. The PPS must provide oversight and ensure that engagement is sufficient and appropriate.	Pass & Complete					
	Milestone #2 Establish a PPS-wide training team, comprised of members with training in PAM(R) and expertise in patient activation and engagement.	Pass & Complete					
	Milestone #3 Identify UI, NU, and LU "hot spot" areas (e.g., emergency rooms). Contract or partner with CBOs to perform outreach within the identified "hot spot" areas.	Pass & Complete					
	Milestone #4 Survey the targeted population about healthcare needs in the PPS' region.	Pass & Complete					
2.d.i	Milestone #5 Train providers located within "hot spots" on patient activation techniques, such as shared decision-making, measurements of health literacy, and cultural competency.	Pass & Complete					
	Milestone #6 Obtain list of PCPs assigned to NU and LU enrollees from MCOs. Along with the member's MCO and assigned PCP, reconnect beneficiaries to his/her designated PCP (see outcome measurements in #10).						
	 This patient activation project should not be used as a mechanism to inappropriately move members to different health plans and PCPs, but rather, shall focus on establishing connectivity to resources already available to the member. Work with respective MCOs and PCPs to ensure proactive outreach to beneficiaries. Sufficient information must be provided regarding insurance coverage, language resources, and availability of primary and preventive care services. The state must review and approve any educational materials, which must comply with state marketing guidelines and federal regulations as outlined in 42 CFR §438.104. 	Fail					
	Milestone #7 Baseline each beneficiary cohort (per method developed by state) to appropriately identify cohorts using PAM(R) during the first year of the project and again, at set intervals. Baselines, as well as intervals towards improvement, must be set for each cohort at the beginning of each performance period.	Pass & Complete					

DSRIP Implementation Plan Project

Project ID	Module Name / Milestone #	Review Statu	S
	Milestone #8 Include beneficiaries in development team to promote preventive care.	Pass & Complete	
	 Milestone #9 Measure PAM(R) components, including: Screen patient status (UI, NU and LU) and collect contact information when he/she visits the PPS designated facility or "hot spot" area for health service. If the beneficiary is UI, does not have a registered PCP, or is attributed to a PCP in the PPS' network, assess patient using PAM (R) survey and designate a PAM(R) score. Individual member's score must be averaged to calculate a baseline measure for that year's cohort. The cohort must be followed for the entirety of the DSRIP program. On an annual basis, assess individual members' and each cohort's level of engagement, with the goal of moving beneficiaries to a higher level of activation. If the beneficiary is deemed to be LU & NU but has a designated PCP who is not part of the PPS' network, counsel the beneficiary on better utilizing his/her existing healthcare benefits, while also encouraging the beneficiary to reconnect with his/her designated PCP. The PPS will NOT be responsible for assessing the patient via PAM(R) survey. PPS will be responsible for providing the most current contact information to the beneficiary's MCO for outreach purposes. Provide member engagement lists to relevant insurance companies (for NU & LU populations) on a monthly basis, as well as to 	Pass & Complete	
	DOH on a quarterly basis. Milestone #10 Increase the volume of non-emergent (primary, behavioral, dental) care provided to UI, NU, and LU persons.	Pass & Complete	
	Milestone #11 Contract or partner with CBOs to develop a group of community navigators who are trained in connectivity to healthcare coverage, community healthcare resources (including for primary and preventive services) and patient education.	Pass & Complete	IA
	Milestone #12 Develop a process for Medicaid recipients and project participants to report complaints and receive customer service.	Pass & Complete	_
	Milestone #13 Train community navigators in patient activation and education, including how to appropriately assist project beneficiaries using the PAM(R).	Pass & Complete	
	Milestone #14 Ensure direct hand-offs to navigators who are prominently placed at "hot spots," partnered CBOs, emergency departments, or community events, so as to facilitate education regarding health insurance coverage, age-appropriate primary and preventive healthcare services and resources.	Pass & Complete	
	Milestone #15 Inform and educate navigators about insurance options and healthcare resources available to UI, NU, and LU populations.	Pass & Complete	
	Milestone #16 Ensure appropriate and timely access for navigators when attempting to establish primary and preventive services for a community member.	Pass & Complete	А
	Milestone #17 Perform population health management by actively using EHRs and other IT platforms, including use of targeted patient registries, to track all patients engaged in the project.	Pass & Complete	
	Module 3.a.i.2 - Patient Engagement Speed	Pass & Ongoing	
3.a.i	Module 3.a.i.3 - Prescribed Milestones		
	Milestone #1 Co-locate behavioral health services at primary care practice sites. All participating eligible primary care practices	Pass & Ongoing	

Page 341 of 424 Run Date : 03/30/2018

	Milestone #7 Deploy mobile crisis team(s) to provide crisis stabilization services using evidence-based protocols developed by medical staff.	Pass & Ongoing
	Milestone #8 Ensure that all PPS safety net providers have actively connected EHR systems with local health information exchange/RHIO/SHIN-NY and share health information among clinical partners, including direct exchange (secure messaging), alerts and patient record look up by the end of Demonstration Year (DY) 3.	Pass & Ongoing
	Milestone #9 Establish central triage service with agreements among participating psychiatrists, mental health, behavioral health, and substance abuse providers.	Pass & Ongoing
	Milestone #10 Ensure quality committee is established for oversight and surveillance of compliance with protocols and quality of care.	Pass & Complete
	Milestone #11 Use EHRs or other technical platforms to track all patients engaged in this project.	Pass & Complete
	Module 3.a.iv.2 - Patient Engagement Speed	Pass & Ongoing
	Module 3.a.iv.3 - Prescribed Milestones	
	Milestone #1 Develop community-based addiction treatment programs that include outpatient SUD sites with PCP integrated teams, and stabilization services including social services.	Pass & Ongoing
	Milestone #2 Establish referral relationships between community treatment programs and inpatient detoxification services with development of referral protocols.	Pass & Ongoing
	Milestone #3 Include a project medical director, board certified in addiction medicine, with training and privileges for use of buprenorphine and buprenorphine/naltrexone as well as familiarity with other withdrawal management agents.	Pass & Complete
3.a.iv	Milestone #4 Identify and link to providers approved for outpatient medication management of opioid addiction who agree to provide continued maintenance therapy and collaborate with the treatment program and care manager. These may include practices with collocated behavioral health services, opioid treatment programs or outpatient SUD clinics.	Pass & Ongoing
	Milestone #5 Develop community-based withdrawal management (ambulatory detoxification) protocols based upon evidence based best practices and staff training.	Pass & Complete
	Milestone #6 Develop care management services within the SUD treatment program.	Pass & Ongoing
	Milestone #7 Form agreements with the Medicaid Managed Care organizations serving the affected population to provide coverage for the service array under this project.	Pass & Ongoing
	Milestone #8 Use EHRs or other technical platforms to track all patients engaged in this project.	Pass & Complete
	Module 3.g.i.2 - Patient Engagement Speed	Pass & Ongoing
	Module 3.g.i.3 - Prescribed Milestones	
3.g.i	Milestone #1 Integrate Palliative Care into appropriate participating PCPs that have, or will have, achieved NCQA PCMH and/or APCM certification.	Pass & Complete
	Milestone #2 Develop partnerships with community and provider resources including Hospice to bring the palliative care supports and services into the practice.	Pass & Complete
	Milestone #3 Develop and adopt clinical guidelines agreed to by all partners including services and eligibility.	Pass & Complete

DSRIP Implementation Plan Project

Project ID	Module Name / Milestone #	Review Status
	Milestone #4 Engage staff in trainings to increase role-appropriate competence in palliative care skills and protocols developed by the PPS.	Pass & Complete
	Milestone #5 Engage with Medicaid Managed Care to address coverage of services.	Pass & Ongoing
	Milestone #6 Use EHRs or other IT platforms to track all patients engaged in this project.	Pass & Complete
4.a.iii	Module 4.a.iii.2 - PPS Defined Milestones	Pass & Ongoing
4.b.ii	Module 4.b.ii.2 - PPS Defined Milestones	Pass & Ongoing

Additional Project Scale Commitments

Instructions:

Please indicate the scale of the categories below that meet all of the project requirements committed to in the Project Plan Application. Documentation must be submitted in Excel format in the quarter when the PPS provider speed commitments for a particular project are due. This documentation should include the target category(e.g. Medical Villages, Emergency Departments with Care Triage, Community-based navigators, etc.), the project ID(e.g. 2.a.iv,2.a.v,3.a.ii, etc.), and the name of the providers/entities/individuals associated with this project, if applicable.

Project Scale Category	Project	Selected	Committed
Expected Number of Crisis Intervention Programs Established	3.a.ii	4	4
Expected Number of Medical Villages Established	2.a.iv	3	4
Home Care Facilities	2.b.viii	12	15
PAM(R) Providers	2.d.i	160	75
