Quarterly Report - Implementation Plan for Better Health for Northeast New York

Year and Quarter: DY3, Q3

Quarterly Report Status:  Adjudicated

Status By Section

Section	Description	Status
Section 01	Budget	 Completed
Section 02	Governance	 Completed
Section 03	Financial Stability	 Completed
Section 04	Cultural Competency & Health Literacy	 Completed
Section 05	IT Systems and Processes	 Completed
Section 06	Performance Reporting	 Completed
Section 07	Practitioner Engagement	 Completed
Section 08	Population Health Management	 Completed
Section 09	Clinical Integration	 Completed
Section 10	General Project Reporting	 Completed
Section 11	Workforce	 Completed

Status By Project

Project ID	Project Title	Status
2.a.i	Create Integrated Delivery Systems that are focused on Evidence-Based Medicine / Population Health Management	 Completed
2.a.iii	Health Home At-Risk Intervention Program: Proactive management of higher risk patients not currently eligible for Health Homes through access to high quality primary care and support services	 Completed
2.a.v	Create a medical village/alternative housing using existing nursing home infrastructure	 Completed
2.b.iii	ED care triage for at-risk populations	 Completed
2.d.i	Implementation of Patient Activation Activities to Engage, Educate and Integrate the uninsured and low/non-utilizing Medicaid populations into Community Based Care	 Completed
3.a.i	Integration of primary care and behavioral health services	 Completed
3.a.ii	Behavioral health community crisis stabilization services	 Completed
3.b.i	Evidence-based strategies for disease management in high risk/affected populations (adult only)	 Completed
3.d.iii	Implementation of evidence-based medicine guidelines for asthma management	 Completed
4.b.i	Promote tobacco use cessation, especially among low SES populations and those with poor mental health.	 Completed
4.b.ii	Increase Access to High Quality Chronic Disease Preventive Care and Management in Both Clinical and Community Settings (Note: This project targets chronic diseases that are not included in domain 3, such as cancer)	 Completed

Section 02 – Governance

✅ IPQR Module 2.1 - Prescribed Milestones

Instructions :

Please enter and update target dates, as well as breakdown tasks with target dates for prescribed milestones. For milestones that are due within the reporting period, documentation is required to provide evidence of milestone achievement.

Any explanations regarding altered or missed target commitments must be included within the textbox, not as narrative within uploaded documentation. Note some milestones include minimum expected completion dates.

Milestone/Task Name	Status	Description	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter	AV
Milestone #1 Finalize governance structure and sub-committee structure	Completed	This milestone must be completed by 9/30/2015. Governance and committee structure, signed off by PPS Board.	07/01/2015	09/30/2015	07/01/2015	09/30/2015	09/30/2015	DY1 Q2	YES
Task 1. The AMCH Board of Governors (AMCH Board), as the Board of the PPS Lead, will approve the members of the AMCH Executive Steering Committee (PPS Board), which will report to the AMCH Board. The PPS Board will approve the charters for the standing committees for the AMCH PPS. The PAC Executive Committee will approve the PAC's operating guidelines and principles.	Completed	1. The AMCH Board of Governors (AMCH Board), as the Board of the PPS Lead, will approve the members of the AMCH Executive Steering Committee (PPS Board), which will report to the AMCH Board. The PPS Board will approve the charters for the standing committees for the AMCH PPS. The PAC Executive Committee will approve the PAC's operating guidelines and principles. The Collaborative Contracting model is currently in place where each partner participating in the PPS will have a contract with the AMCH PPS stipulating the roles and responsibilities. As the Lead Entity, AMCH retains ultimate decision making authority and is the contract partner for the State and the partners represented in the PAC. Thus, governance is coordinated and carried out through the joint efforts of AMCH and the PAC through a clearly defined committee structure. The PPS may evolve to a Delegated Model where the partners join together and delegate key responsibilities for PPS Governance to a newly created legal entity (NewCo) where the governing structure of Newco would directly oversee all aspects of Finance, Clinical, IT, and compliance governance with accountability to an Executive Governance Body representative of the partners. (If the PPS evolves to a	07/01/2015	09/30/2015	07/01/2015	09/30/2015	09/30/2015	DY1 Q2

		Delegated Model and there is a later-formed Newco, the governing body of Newco will assume responsibility for implementation of these identified steps outlined by AMCH in this implementation plan.)							
Task 2. AMCH will ensure adequacy of regional and key stakeholder participation.	Completed	2. AMCH will ensure adequacy of regional and key stakeholder participation and will create a list of nominees to serve as elected members of the PAC's Executive Committee.	07/01/2015	09/30/2015	07/01/2015	09/30/2015	09/30/2015	DY1 Q2	
Task 3. Election of members of PAC Executive Committee.	Completed	3. With the approval of the PPS Board and the voting members of the PAC, the PAC will elect members to the PAC Executive Committee in a manner that reflects a balance of the types of providers and geographic regions in the PPS. The PAC Executive Committee will elect its own chair who will provide leadership and help coordinate the activities of the committee.	07/01/2015	09/30/2015	07/01/2015	09/30/2015	09/30/2015	DY1 Q2	
Task 4. Establishment of subcommittees.	Completed	4. The PAC Executive Committee will seek representation of a diverse group of participating providers, with necessary expertise for the AMCH PPS committees that will oversee PPS activities. The following Committees will be established; Clinical and Quality Affairs, Finance, Audit and Compliance, Technology and Data Management, Consumer and Community Affairs, Cultural Competency and Health Literacy and the Workforce Coordinating Council. The Chair of each of the committees also serves on the PAC Executive Committee as a non-voting member. The PPS Board will approve the charters and members for each Committee, based on recommendations of the PAC Executive Committee.	07/01/2015	09/30/2015	07/01/2015	09/30/2015	09/30/2015	DY1 Q2	
Milestone #2 Establish a clinical governance structure, including clinical quality committees for each DSRIP project	Completed	This milestone must be completed by 12/31/2015. Clinical Quality Committee charter and committee structure chart	07/01/2015	12/31/2015	07/01/2015	12/31/2015	12/31/2015	DY1 Q3	YES
Task 2. The Clinical and Quality Affairs Committee may elect to create sub-committees for the projects selected.	Completed	2. The Clinical and Quality Affairs Committee may elect to create sub-committees for the projects selected. Since there are interdependencies between projects, the Committee may elect to manage all of the projects as a single committee with support from AMCH's Project Management Office (PMO). The	07/01/2015	09/30/2015	07/01/2015	09/30/2015	09/30/2015	DY1 Q2

✓ IPQR Module 2.3 - Major Risks to Implementation & Risk Mitigation Strategies

Instructions :

Please describe the key challenges or risks that you foresee in implementing your governance structure and processes and achieving the milestones described above, as well as potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

There will be challenges in governance as we move forward. One challenge will be to determine whether AMCH pursues creating a new legal entity to assume legal authority for the organization, management and operation of the PPS as the Lead Entity. There may be advantages to AMCH in pursuing this strategy. We continue to follow a collaborative contracting model at present. Our PPS is smaller in comparison with others, and there are advantages to having one ultimate organizational decision-maker, AMCH, in charge of the most significant issues. With that said, the PAC's Executive Committee and the PPS Board have clearly delineated roles and responsibilities to achieve shared governance. Second, we continue to be surprised at the lack of knowledge within certain health or health-related organizations and CBOs about DSRIP. Too many remain disengaged because they are not aware of what the project is attempting to do. More work needs to be done by the PPS and the NYSDOH to get the word out about the significance of what we are all trying to do to transform the health care system. The third risk relates to perception. Some of our current participating organizations are not going to be funded by DSRIP monies. They may have a marginal role and may not be involved in any specific project, with the probable exception of 2.a.i. When funding decisions get made and contracts executed, they are likely to become disengaged. We will continue to educate them and the community about their role, even if unfunded, in helping to integrate the care delivery system and transform payment mechanisms to value based arrangements. A fourth risk relates to non-safety net provider payment caps. As we transform and integrate care, more outpatient providers will become involved, who do not meet the safety net definition. We will continue to work to address this so that the 5% cap does not become a barrier to successful governance and community engagement. A fifth risk relates to dispute resolution. To address this and minimize potential conflict, we will lay out a transparent and fair process for dispute resolution. A sixth risk relates to overall adequacy of funding. Our small PPS size works against us in terms of fixed overhead and administrative expense. We still need to fund all of the key activities in the Project Management Office (PMO) required to manage the entire endeavor. However, as a percentage of the total award, our administrative expense is likely to be higher than others, due to their economies of scale. The challenge this creates is that we may not be adequately resourced to either manage the PPS and the 11 projects we are undertaking or we will not have adequate funding to do key things required to successfully implement all project activities. We are working to address this through a conservative approach to staffing, but this creates other risks and challenges if it ends up being under-resourced. We will be prudent in our fiscal stewardship of these taxpayer funds. Finally, we recognize that the success of our governance requires voluntary engagement of individuals and organizations who do not have time to do everything that may be asked of them. This is a particular concern with our PCPs, psychiatrists and other licensed providers. We need their engagement, leadership and input. Gaining the cooperation of providers to invest in developing key capabilities will require a governance process which generates trust through open and active engagement, development of multi-directional communications processes, and opportunities for provider and public comment on major developments and initiatives. We will mitigate our risks through effective communication, community engagement, transparent decision making, targeted approaches to enlist CBOs in the process and a fair process to distribute funds and resolve disputes.

✓ IPQR Module 2.4 - Major Dependencies on Organizational Workstreams

Instructions :

**New York State Department Of Health
Delivery System Reform Incentive Payment Project
DSRIP Implementation Plan Project**

Better Health for Northeast New York (PPS ID:1)

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

The interdependencies of each element and each project in this endeavor are significant. The overall value to the PAC and the transformation of care is both positive and synergistic. The downside, however, is that the interrelationships of each component creates dependencies that require everything succeed and that this success be based on a sequential plan that requires strict adherence to deadlines. The most important initial component relates to staffing. Successful implementation efforts and governance will be extremely dependent on staffing the PMO with motivated, high energy staff committed to the success of the entire project. It will take time to recruit and then train and orient professional staff to manage the complex affairs of the PAC, on behalf of the lead institution, AMCH or a later-formed Newco. It is hard to identify which of several other components are the next priority, since many happen at the same time. At a minimum, effective management and development of a comprehensive fiscal and IT strategy that are integrally linked to the success of the governance structure and model are necessary. Paying individuals and organizations via contract will ensure engagement and participation. Developing the IT strategy requires careful consideration of accurate data collection and reporting capabilities as well as the PMO's capacity to analyze complex data from disparate sources. Populating the 7 committees of the PAC to provide the expertise needed for informed decision making is an essential next step. Each of these areas need to be operating effectively to facilitate effective PPS governance. Open and transparent decision-making will be essential to developing and maintaining the trust and engagement of participating providers, and the community at large. Maintaining strong relationships with workforce stakeholders is important to system transformation. Practitioner engagement and leadership is critical to not only the development of and compliance with clinical care protocols, but with achieving levels of coordination and collaboration required to eliminate avoidable service utilization. The lead institution, the participating providers, the NYSDOH and the community at large all need to trust the governance structure and PPS leadership team to do the right thing. This trust must be earned. We remain committed, by consistent demonstration of our efforts, to earn this trust.

✔ Module 2.6 - IPQR Module 2.6 - Key Stakeholders

Instructions :

Please identify the key stakeholders involved, both within and outside the PPS with regard to your governance structure and processes.

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
Internal Stakeholders		
Albany Medical Center Hospital: Dr. S. Frisch, Dr. D. McKenna, Dr. K. Manjunath, G. Kochem, G. Hickman, F. Spreer-Albert, C. Burke	Lead Applicant and Equity Contributor, Leadership Participant. Under the leadership of AMCH, the PMO will conduct the business of the lead applicant for all deliverables required by organizational milestones and metrics as identified in the work plan. As the largest institutional Medicaid provider, and one of the largest safety-net providers in the PPS, AMCH will also play an active role in terms of project implementation and work stream development across the project period.	Funding, leadership personnel, committee chairs, PAC Executive Committee participant.
Albany Medical College Faculty Physicians Group: Dr. F. Venditti, Dr. R. Blinkhorn, Dr. D. Clark, Dr. C. King, Dr. V. Balkoski, Dr. J. Rosenberger, Dr. P. Sorum, Dr. J. Desemone, J. Quinlan, C. Selke, P. Hildreth, G. Sleeper, A. Gallucci, M. Weygant	Physician Leadership will actively engage in clinical integration, training, protocol development, IT infrastructure, and fiscal planning to further the aims of integration and financial payment reform across the network. As one of the largest Primary Care providers for both adult and pediatric patients, as well as the region's only medical college, the faculty physician's group will play an important role in care integration and PCMH by providing training to students, residents, and fellows in the new model of care.	Funding, leadership personnel, committee chairs, PAC Executive Committee participant.
Albany Medical College - Education and Training: Dr. H Pohl, Dr. I. Allard, Dr. J. Bartfield, Dr. V. Verdile, Dr. E. Higgins, D. Guyett	The College will assist with the development of content, evaluative criteria, and electronic access to learning modules to assist the PMO with workforce development and other activities required by DSRIP implementation. The College will also assist the PPS in obtaining CME credits as an engagement tool as necessary and appropriate.	Leadership personnel, Workforce and Cultural Competency and Health Literacy Committees.
Columbia Memorial: J. Caruthers, W. Van Slyke, Dr. G. Davis, B. Ratfield, B. Mahoney	As a key stakeholder, this hospital will play an important sub-regional role in terms of leadership development, clinical integration, fiscal planning, IT development, practitioner engagement, quality improvement, and workforce. Columbia Memorial will serve as a regional hub for Columbia and Greene counties and will coordinate and integrate service providers within the Southern regional hub.	Leadership personnel, committee members, PAC Executive Committee.
Saratoga Hospital: A. Carbone, Dr. J. LaPlante, J.	As a key stakeholder, this hospital will play an important sub-	Leadership personnel, committee members, PAC Executive

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
Mangona, D. Jones, J. Methven, G. Foster	regional role in terms of leadership development, clinical integration, fiscal planning, IT development, practitioner engagement, quality improvement, and workforce. Saratoga Hospital will serve as a regional hub for Saratoga and Warren counties and will coordinate and integrate service providers within the Northern regional hub.	Committee.
Contracted CBOs	Participating CBOs will be actively engaged in the development of strategies to involve consumers, assistance with community engagement, coordination of outreach efforts, and communication. CBOs may also participate in PAM assessments, treatment plan development and management, and identification of local needs consistent with the terms and conditions of the waiver.	Leadership personnel, Consumer and Community Engagement Committee leadership/membership.
Numerous Primary Care and Behavioral Health Organizations	These participating organizations will be critical stakeholders to engage in integration and transformation at the site level. They will provide feedback and input to the CQAC to ensure provider participation, quality improvement and accuracy and completeness of data reporting.	Leadership personnel, PAC member, Clinical and Quality Affairs membership.
External Stakeholders		
Public Health and Social Services Agencies; Dr. E. Whalen	As public agencies, these participating organizations will assist with public health and community needs assessments, prevention planning, workforce issues, and other strategies consistent with their mission. County-run agencies will also be actively engaged in various projects, as well as helping to communicate across the county the action steps and deliverables required for successful implementation. Those agencies who offer specific services, e.g. mental health counseling, will also participate in CQAC activities and other deliverables as warranted.	Educate the community about DSRIP, the importance of prevention, and how to access care.
Medicaid Beneficiaries	Participate in their own care and provide feedback	Through surveys and other means, provide feedback.
NYSDOH	Provide oversight, direction, and data	Provide ongoing feedback regarding deliverables and data necessary for reporting purposes.

DSRIP Implementation Plan Project

Better Health for Northeast New York (PPS ID:1)

✅ IPQR Module 2.7 - IT Expectations

Instructions :

Please clearly describe how the development of shared IT infrastructure across the PPS will support this particular workstream and your ability to achieve the milestones described above.

It is expected that the Clinical and Quality Affairs Committee will approve and oversee implementation of methods to capture baseline data and support the systematic capturing of data related to metric evaluation and milestone reporting required for each project over the five years of the program. Otherwise, progress reporting for governance initially has limited dependence on having essential IT infrastructure in place. Unlike other components of this implementation plan that cannot move forward or even measure success without IT, governance is different. Our reporting requires documentation of decision-making, approval of plans, governance documents and other related items. It is largely a process driven activity that is not dependent on clinical and other data to demonstrate success or failure, at least in DY1. It is not critical for the effective initial activities of the PAC, the committees or the PPS Board that the IT infrastructure is in place in the first few quarters. In fact, it will not happen that way sequentially. Governing bodies must be fully engaged prior to full implementation of our IT infrastructure. Governance must decide, based on the feedback from the committees, the NYSDOH and others, exactly what investments, from the limited pool of funds available, need to be made to create the IT infrastructure. The PMO will purchase project management software that will assist in required areas of reporting and project management and analysis, but this is only the initial phase of IT infrastructure development and does not have clinical implications.

✅ IPQR Module 2.8 - Progress Reporting

Instructions :

Please describe how you will measure the success of this organizational workstream.

Much of the reporting required for evaluation of the success of our efforts at governance will be documented via written materials, like meeting minutes, approved governance documents, operating policies and procedures and guidelines and all of our various approved plans, like our Consumer and Community Engagement Plan. We will also continue to record our web-based meetings and will provide materials that were presented, lists of registered attendees and action steps, if any, resulting from the question and answer sessions included in each monthly update. To assist the community and to demonstrate our transparency, each of these documents or recorded sessions will be available on our public domain website for review and comment. To the extent possible, we will also provide documented summaries of meetings between our PPS and the overlapping PPSs to demonstrate our efforts to collaborate and cooperate on various initiatives.

✓ IPQR Module 3.3 - Major Risks to Implementation & Risk Mitigation Strategies

Instructions :

Please describe the key challenges or risks that you foresee in implementing these cross-cutting organizational strategies, including potential impacts on specific projects and, crucially, any risks that will undermine your ability to achieve outcome measure targets.

There are many challenges to implementing the organizational strategies required for the financial sustainability work stream that could impact AMCH PPS' efforts to assess and monitor the financial health of the PPS and achieve the outcome measure targets. Implementation of the financial reporting systems needed to monitor the financial stability of the network is key among these risks. Education, communication and eventual buy in from the AMCH PPS providers into the overall goals of DSRIP and the financial structure in place is another key risk factor that will require mitigation. The success of the AMCH PPS in achieving the selected project goals as well as the overall DSRIP Goals is dependent upon current reporting and communication of significant data across the PPS. The IT integration and support needed to collect and analyze the finances and flow of funds is critical to the success of this work stream. The Technology and Data Management Committee is tasked with the development of an integrated IT system to not only support the financial work stream, but the project data and reporting functions needed to reach full integration. There will be a significant need for capital investment that will be critical in the mitigation of this risk. One of the largest risks is the move from a fee for service payment system to a value based payment system in collaboration with the providers and the MCO's. This collaboration will be difficult as both the PPS and the MCO's have a financial interest in the outcomes, and prior to DSRIP, much of that process has been competitive and not collaborative. In addition, providers currently negotiate payments with MCO's individually, but under DSRIP, it is anticipated that negotiations for VBP's with Medicaid MCO's may involve the PPS at some level, although providers in the AMCH PPS will remain free to contract independently with Medicaid MCO's. There will be major hurdles to overcome to effect the change. Also, many of the MCO's currently provide many of the quality improvement functions that the PPS will need to put in place to meet the goals and objectives of DSRIP. To avoid duplication, the PPS will work collaboratively with MCO's for effective resource utilization. These changes will take time and require efficient communication and support from the DOH. To mitigate these risks the PPS will utilize two strategies. First, engagement of PPS providers in the transformation of the payment system through well thought out strategies effectively disseminated. Second, the PPS will develop comprehensive IT integration to facilitate and support payment transformation.

✓ IPQR Module 3.4 - Major Dependencies on Organizational Workstreams

Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

The financial sustainability work stream is dependent on the IT Systems & Processes work stream. For example, financial decisions from readiness to risk assumption are predicated upon accurate and complete financial data from participating institutions. The success of the financial sustainability work stream is intricately linked to the performance reporting and practitioner engagement work streams. It is not sufficient to have financial data, there must also be active engagement from practitioners and organizational leadership. The financial sustainability work stream is dependent upon governance. The transition to VBP payment arrangements will require strong leadership from the governance structures of the

**New York State Department Of Health
Delivery System Reform Incentive Payment Project
DSRIP Implementation Plan Project**

Better Health for Northeast New York (PPS ID:1)

AMCH PPS to lead the transformation of the payment system. The PPS Board and PPS committees, as the guiding bodies of the PPS, must provide an effective, engaged governance process to establish the roles and responsibilities of all committees and participating providers. The financial sustainability work stream is dependent upon a workforce committed to successful transformation to a sustainable business model. All other work streams are dependent upon financial sustainability to ensure their success rather than financial sustainability having major dependencies on those work streams.

**New York State Department Of Health
 Delivery System Reform Incentive Payment Project
 DSRIP Implementation Plan Project**

Better Health for Northeast New York (PPS ID:1)

✅ IPQR Module 3.5 - Roles and Responsibilities

Instructions :

Please list and elaborate upon the key people/organizations responsible for this organizational workstream and describe what their responsibilities involve.

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities
AMCH Board of Directors, PMO Chief Executive Officer	Louis Filhour, PhD	Manage project efforts to transform payment models across the delivery system.
Chair, Finance Committee	Frances Spreer-Albert	Manage the affairs of the finance committee including the development of the financial plan.
AMCH Compliance Officer	Noel Hogan	Certify PPS compliance plan to the Department of Health.
Vice President, Integrated Delivery Systems	Joan Martin	Monthly engagement with MCOs.
PPS Chief Financial Officer	Christine M. Waller	Manage PPS financial operations, planning and analysis, including budget and funds flow development, financial reporting and tracking, and PPS financial performance.
Contracted Behavioral Health Provider Organizations	Capital District Psychiatric Center, The Addictions Care Center of Albany, Inc., Conifer Park, Catholic Charities, Equinox, Northern Rivers, Albany Medical Center Faculty Practice	Behavioral Health Engagement and participation

**New York State Department Of Health
Delivery System Reform Incentive Payment Project
DSRIP Implementation Plan Project**

Better Health for Northeast New York (PPS ID:1)

✓ IPQR Module 3.6 - Key Stakeholders

Instructions :

Please identify the key stakeholders involved, both within and outside the PPS.

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
Internal Stakeholders		
Albany Medical Center Hospital	Active participation	Willing participation in new payment models.
Albany Medical College Faculty Physicians Group	Active participation	Willing participation in new payment models.
Participating PPS Providers	Active participation	Willing participation in new payment models.
Workers	Supportive role	Willing participation in new payment models.
External Stakeholders		
NYSDOH	Payment	Payments will follow waiver requirements, milestone reporting and metrics per executed contracts.
Local agencies serving Medicaid Population	Engagement	Engage consumers in behavioral modification.
CBOs, as necessary	Community engagement	Educate and participate as necessary to ensure financial sustainability.
MCOs	Active participation	Willing participation in new payment models.
Patients	Engagement in care	Responsible use of medical resources.

**New York State Department Of Health
Delivery System Reform Incentive Payment Project
DSRIP Implementation Plan Project**

Better Health for Northeast New York (PPS ID:1)

✓ IPQR Module 3.7 - IT Expectations

Instructions :

Please clearly describe how the development of shared IT infrastructure across the PPS will support this particular workstream.

Financial budgeting and reporting is critical in monitoring and maintaining the financial stability of the PPS and its providers. The development of a shared IT infrastructure across the PPS is a major pillar that needs to be built and supported in order for the PPS to be successful, including the accumulation of financial data. This integration of IT will also allow for the reporting of needed financial and budget information across the PPS in an efficient and expedient manner, allowing the financial sustainability to be monitored as well as the flow of DSRIP funding among budget categories, projects and providers. The IT system will include reports, and audit trail information for the finances of the PPS. This will allow the PPS to meet future audit and reporting requirements by the DOH, CMS, and OMIG.

✓ IPQR Module 3.8 - Progress Reporting

Instructions :

Please describe how you will measure the success of this organizational workstream.

AMCH PPS will align its financial management and sustainability progress reporting with the reporting and oversight structures in place for the DSRIP projects. The PMO will be responsible for monitoring progress against project requirements and process measures at a provider level. This information will be shared with the Finance Committee of the AMCH PPS for review and input, and reports will be generated and shared with the PPS Board for review, approval and guidance to the PPS. The success of the financial work stream will be measured by the timeliness of the reporting as set forth in the plan, the accuracy of these reports both internally and to the DOH, the development and implementation of proactive steps to determine financial sustainability, PPS assistance to promote the financial stability of partners, and the communication of this reporting to the partners and community in a timely fashion.

✔ IPQR Module 4.3 - Major Risks to Implementation & Risk Mitigation Strategies

Instructions :

Please describe the key challenges or risks that you foresee in implementing your cultural competency / health literacy strategy and addressing the specific health disparities you are targeting (based on your CNA), and achieving the milestones described above - including potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

There are both challenges and risks involved in the implementation strategy presented in this section. Staff simply do not have the time to participate in face to face training, even though it is necessary to keep them current and improve the competencies they need to provide high quality and culturally and linguistically appropriate care. A second challenge relates to perception. Many providers mistakenly believe that their patients comprehend complex health information, when research proves this is not true. This leads to poor medication adherence, poor rates of retention in care, increased utilization of services that could be avoided and generally poor health outcomes. A third challenge relates to a failure of some service providers to provide culturally and linguistically appropriate care. In general, this occurs for three related reasons: there are very small percentages of patients at most of the suburban and rural sites who are not English speaking which creates disincentives from a business perspective to invest in appropriate services; there is a lack of licensed providers who are bi-lingual; and there are ingrained prejudices and biases based on incorrect assumptions and stereotypes. This negatively impacts many patients and leads to health disparities based on race, ethnicity, sexual orientation and disability. The final and perhaps biggest challenge relates to difficulties in obtaining buy-in. Without a firm commitment from all participating organizations to agree to the need for change, our implementation strategy may not succeed.

To address the lack of time for face to face training, AMCH PMO will make training available via our web portal. This will give us the ability to track who completes the online modules as well as their pre- and post-test scores, which will assist us with evaluation. On site training will still be readily available, but this alternative addresses the lack of time many providers have. Changing perceptions will not be easy. This will be addressed through the training as well as through communication channels to all participating providers. In terms of a failure to provide culturally and linguistically appropriate services, the primary approach to mitigating this risk will be the cultural competency and health literacy training described above. Finally, in terms of organizational and provider "buy-in" AMCH PMO will utilize three approaches. First, we will include requirements in each performance contract that cultural competency and health literacy required training of all staff must occur and be documented no later than year-end. Second, we will identify "champions" in each participating organization who will play an important role in mitigating this risk by helping providers adopt the guidelines promulgated by the CCHLC. Third, over and above the contractual requirements, we will provide incentives to organizations who complete the training early.

✔ IPQR Module 4.4 - Major Dependencies on Organizational Workstreams

Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

AMC's cultural competency and health literacy strategy is interdependent with all work streams. Most obvious is its relationship to workforce issues, including staff training, development, recruitment and retention. AMCH PMO will clarify this in the workforce section of this plan. It is also directly linked to contractual issues, funds flow, incentivized payments, clinical and quality affairs, provider and community relations and engagement, consumer affairs and IT systems, including data collection, reporting and analysis. AMC's Project Management Office will oversee

New York State Department Of Health Delivery System Reform Incentive Payment Project

DSRIP Implementation Plan Project

Better Health for Northeast New York (PPS ID:1)

the activities and provide direction and support to the CCHLC. The Executive Committee of the PAC will provide additional coordination to help ensure member buy-in and commitments necessary to meet domain one milestones. However, there is an additional interdependency that is important to the collaborative regional approach we are pursuing. AMCH PPS will be collaborating with the Alliance for Better Health Care (AFBHC) PPS and the Adirondack Health Institute (AHI) PPS on many of these strategic issues. AMCH PMO is pursuing a strategy of collaboration with these PPSs to make the most efficient use of our limited resources, provide coordinated training and skills development and make it easier for our shared organizational partners to complete requirements once as opposed to three times. This requires careful planning between the three PPSs, which is something that we are currently actively engaged in. It does not mean that identical strategies to address cultural competency and health literacy issues will be created; however, it does mean that training and skills development will be coordinated to avoid duplication.

Better Health for Northeast New York (PPS ID:1)

✓ IPQR Module 4.5 - Roles and Responsibilities

Instructions :

Please list and elaborate upon the key people/organizations responsible for this workstream and describe what their responsibilities involve.

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities
BHNNY Board	BHNNY Board	Approve health literacy/ cultural competency strategy.
BHNNY Community Engagement, Cultural Responsiveness and Health Literacy Committee	Tandra LaGrone, Executive Director- In Our Own Voices	Manage the direction and output of CCHL and Community Engagement initiatives; oversee implementation of the BHNNY Cultural Competency / Health Literacy Strategy.
AMCH Faculty Physicians Group	David Guyett, Director of Training	Lead the development of the PPS's cultural competency training & education program.
BHNNY Project Management Office	Christine McIntyre	Lead the development and implementation of the PPS's health literacy campaign.
AMCH's Executive Board Sponsor	Ferdinand Venditti, MD, Executive Vice President	Liaison between the Executive body and the CCHLC.

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

Better Health for Northeast New York (PPS ID:1)

✔ IPQR Module 4.6 - Key Stakeholders

Instructions :

Please identify the key stakeholders involved, both within and outside the PPS.

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
Internal Stakeholders		
Participating PPS providers	Recipients of educational programs	Commit to and undertake cultural competency transformation.
Contracted CBOs including faith-based organizations	Provide assistance in the development and execution of the work stream	Subject matter expert & patient liaison.
External Stakeholders		
Patients & Families	Recipient of improved services; contributor to design of cultural competency / health literacy initiatives through consultation	Feedback on consultations.
Adirondack Health Institute and The Alliance for Better Healthcare PPSs	As neighboring PPSs, collaborate regarding identification of training needs as well as the dissemination of materials	Coordination of training deliverables.

New York State Department Of Health Delivery System Reform Incentive Payment Project

DSRIP Implementation Plan Project

Better Health for Northeast New York (PPS ID:1)

✅ IPQR Module 4.7 - IT Expectations

Instructions :

Please clearly describe how the development of shared IT infrastructure across the PPS will support the development and implementation of your cultural competency / health literacy strategy and the achievement of the milestones described above.

For the DY1 implementation, we will not have shared IT infrastructure in place across the PPS. However, we will have a web portal that all providers can connect to for web-based learning and pre- and post-test evaluation purposes. For all on site training, data will be collected manually in terms of attendees, course evaluations etc. Initial surveys of community needs will be sent and submitted electronically using current technology and software. By DY2, these processes will be replaced with interoperable IT systems across our network. This will be necessary for our workforce strategy and will require participating providers to use project management software currently being evaluated. Analyzing Salient data and completing risk stratification will allow us to share demographic information about patients across our provider network. AMCH's PMO will then use this information to track the service usage of our priority patient groups (including avoidable admissions, emergency department visits, primary care access, etc.). As care management protocols are developed and rolled out, we will have additional information available in terms of patients' cultural, religious and personal preferences. Sharing this information between providers will allow them to deliver culturally and linguistically appropriate services, and to understand the wider trends in the members utilizing their services. It will also allow our finance committee and PAC executive committee to shift resources, via incentives and other strategies, to participating providers who need to improve skill sets to address DSRIP goals. Finally, patient surveys and focus groups will provide important information needed for us to assess satisfaction and needs identified in terms of our CCHLC strategies. This information will be entered into databases and will be shared with all participating providers, the DOH and the public.

✅ IPQR Module 4.8 - Progress Reporting

Instructions :

Please describe how you will measure the success of this organizational workstream.

As noted above, DY1 will be a year of transition in terms of progress reporting. We will not have interoperable systems in place for every participating provider by year-end. We will, however, have project management software available as well as software to mine claims data to generate all domain one milestones required for reporting purposes. As we build our IT capabilities and capacity in DY1, we will be increasingly able to assess changes in health disparities between different sub-populations. We will continue to be engaged with AFBHC and AHI in terms of joint efforts to update community needs. We will also continue to collaborate and coordinate with the local SHIP-funded group, Healthy Capital District Initiative, to complete updates to identified community needs and the community plan. Improvements in the health literacy of our attributed population will support our achievement of targets for reductions in avoidable emergency visits/ admissions. Specifically, the metrics we will use to monitor the success of our strategies to improve the health literacy of our target populations will be:
- Avoidable ED and inpatient utilization associated with cultural & socio-demographic groups. This should facilitate our ability to evaluate the impact of our CCHLC strategy on the way these groups are accessing and using healthcare services.

New York State Department Of Health Delivery System Reform Incentive Payment Project

DSRIP Implementation Plan Project

Better Health for Northeast New York (PPS ID:1)

- Uptake of practitioner cultural competency training, as captured by post-test evaluation of completed trainings and provider surveys to assess adequacy and utility of training.

- Patient involvement in community engagement initiatives, including focus groups, community forums and consumer affairs.

Success will also be measured by the completion and documentation of the following items: CCHLC meeting minutes and agendas, a finalized health disparity hot spot list, finalized and approved survey for participating providers to assess current skills and knowledge around cultural competency and health literacy, finalized educational materials, trainings and tools for both patients and providers, and the finalized assessment with pre and post test to be completed by all engaged participating providers, as necessary and appropriate. AMCH PMO and the CCHLC will monitor completion rates for annual assessments among providers, and will identify those who need continued skill development trainings.

Documentation of trainings completed will be available and will be published to the PMO website and shared as a dashboard indicator. Over time, we will be able to track competency skills among participating providers to determine if education provided has achieved the goal of this committee by improved annual scores on their assessments.

DSRIP Implementation Plan Project

Better Health for Northeast New York (PPS ID:1)

✓ IPQR Module 5.3 - Major Risks to Implementation & Risk Mitigation Strategies

Instructions :

Please describe the key challenges or risks that you foresee in creating and implementing your IT governance structure, your plans for data sharing across your network, your approach to data security and confidentiality, and the achievement of the milestones described above, including the potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

There are several risks to implementation within the IT system and process domain. The sheer number of different vendors, systems, EHRs, protocols, and policies already in place that will need to evolve into one interoperable system will be a challenge. Overlapping PPSs and the complex current state of IT infrastructure will add to the difficulties of creating a centralized IT platform utilized by partnering providers. Extraordinary efforts will need to be made to mitigate these risks and integrate the disparate systems to achieve the goals of DSRIP. Mitigation strategies include leadership buy-in, adequate resourcing, and innovative technological solutions. AMCH PPS has ensured that leadership is engaged at the highest levels of the AMCH structure which will provide authoritative insight into the changes, systems and policies that are involved. IT collaboration with AHI and AFBHC through the ongoing efforts of the KPMG led TOM pilot project may mitigate this risk. Capital funds have also been requested to develop comprehensive technological solutions that will address these risks. The failure to fund these capital projects will place these mitigation strategies in jeopardy.

The AMCH PPS is concerned about the integrity of the data that will be provided from the MAPP System and Salient Interactive Miner. A risk exists regarding the sufficiency of the data that will be provided. AMCH will engage participating providers to assist them in making sure that data in all systems they are responsible for is as accurate and complete as possible.

Another risk that exists is the ability of the State to provide sufficient data in a timely manner. Data is the driver that allows organizations to identify the needed interventions. The State's addition of higher levels of security further restricts the PPS ability to use the data effectively to meet the goals of DSRIP. Without this data, PPS organizations will be restricted in their ability to risk stratify patient level data which can negatively impact projects that will depend on this data for implementation. To mitigate this risk, AMCH PPS will continue to pursue alternative IT solutions outside of the realm of NYS DOH provided data, which will facilitate risk stratification and other data analytics as needed for project implementation.

The current structure and capability of HIXNY to provide data in a useful manner across the spectrum of providers is unclear. The unknown ability of the SHIN-NY to provide a working solution complicates this risk. To mitigate this risk AMCH PPS will work with HIXNY to identify capacity limitations and other potential barriers to timely and meaningful sharing of patient level data to actively engaged patients and participating providers.

Data security is always a risk. Our PPS will engage IT experts from across the PPS both internally and externally to develop PPS security safeguards and policies to mitigate the risk to make sure that available data is shared in an appropriate way with the minimum necessary data being moved through the system.

Each project relies on a successful IT strategy. Failure to provide a comprehensive IT structure capable of supporting PCMH development, care plan sharing, and population health management will impact the ability to achieve the outcome measure targets. Leadership buy-in, adequate staffing, equipment, application architecture, and capital funding all provide mitigation strategies.

✓ IPQR Module 5.4 - Major Dependencies on Organizational Workstreams

Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

New York State Department Of Health Delivery System Reform Incentive Payment Project

DSRIP Implementation Plan Project

Better Health for Northeast New York (PPS ID:1)

The IT work stream is dependent on numerous other work streams including; clinical integration, financial sustainability, practitioner engagement, cultural competency and health literacy, workforce, governance, and population health. Clinical integration is the catalyst between the IT work stream and the project implementation activity required at a provider level. This would also include the ways in which practitioners are engaged in providing IT needs and identifying gaps across the PPS. Clinical integration is dependent upon IT for evaluation, connectivity, data exchange, reporting, care coordination, and quality improvement. Another interdependency between IT and clinical integration will be the need for clinicians to be engaged and provide sufficient feedback for IT to develop a system that will be widely adopted by clinicians across a broad spectrum of providers and provider types.

Financial sustainability has a mutual dependency on IT in that future funding relies upon IT solutions for milestone and metric reporting as well. IT is dependent on finance for the resources required to develop integrated system-wide solutions. IT also influences the roadmap to VBP ensuring sustainability for the endeavor. Finally implementation of the data security and confidentiality plan will mitigate risks to PHI exchanged throughout the PPS. IT security will be included in the IT Security Plan generated by the Financial Sustainability work stream.

IT solutions may be customized to meet member needs.

IT is dependent upon the workforce strategy work stream. As new technologies are developed and implemented, the WCC will work closely with our workforce vendor to ensure appropriate and timely training for all provider types utilizing these systems.

IT is dependent upon the Governance work stream. IT depends upon governance for review, approval, and authority to implement its strategic plan.

Population health is dependent upon IT for data gathering, reporting, and analysis at a dashboard level across the PPS. This information will routinely inform the PPS as it transforms the health of the communities it serves.

Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Better Health for Northeast New York (PPS ID:1)

✓ IPQR Module 5.5 - Roles and Responsibilities

Instructions :

Please list and elaborate upon the key people/organizations responsible for this organizational workstream and describe what their responsibilities involve.

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities
BHNNY PMO IT Contact	Christine McIntyre	Liaison between IT Representatives of member organizations.
AMCH Security Officer	Kris Kusche	AMCH gatekeeper and Director of Data Security.
Privacy Officer	Noel Hogan	AMCH Compliance Officer.
AMC EVP CIO & Technology and Data Management Committee Chair	George Hickman	IT Strategic Development.
AMC VP Information Services	Azmat Ahmad	Implementation of PPS IT Strategy.
Director of IS, Columbia Memorial Hospital	Bonnie Ratliff	Oversight of PPS IT Strategy.
BHNNY Chief Medical Officer	Kallanna Manjunath, MD	Clinical integration of IT strategy; HIXNY vice chair board member.
BHNNY Technology & Data Management Committee	Lead IT representation from Albany Medical Center Hospital, Columbia Memorial Hospital, Saratoga Hospital, Center for Disability Services & Center for Excellence in Aging & Community Wellness	Oversight of PPS IT Strategy and implementation.
BHNNY Board and PAC Executive Committee	BHNNY Board and PAC Executives	Review and approve IT change management strategy; PPS plan for engaging members in QEs; and data security and confidentiality plan.

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Better Health for Northeast New York (PPS ID:1)

✔ IPQR Module 5.6 - Key Stakeholders

Instructions :

Please identify the key stakeholders involved, both within and outside the PPS.

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
Internal Stakeholders		
BHNNY	Identify and manage resources	Executable Strategy and IT infrastructure.
Participating PPS Providers	Provide insight regarding IT needs	Organizational buy-in; implement IT strategy and roadmap.
External Stakeholders		
Alliance for Better Health Care PPS	Collaborator	Collaborative efforts; IT TOM Pilot facilitated by KPMG.
Adirondack Health Institute PPS	Collaborator	Collaborative efforts; IT TOM Pilot facilitated by KPMG.
HIXNY	Collaborator & Vendor	Effective, secure health information exchange in support of DSRIP goals.
IT Vendors (TBD)	Vendor	Care management, interoperability, population health & data analytics to support VBP.

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Better Health for Northeast New York (PPS ID:1)

✅ IPQR Module 5.7 - Progress Reporting

Instructions :

Please describe how you will measure the success of this organizational workstream.

AMCH PPS will use project management reporting and communication tools to monitor the progress towards project specific goals. This project reporting may include: tracking of the IT strategic plan including workforce alignment and training; IT change strategy, and IT budget, documentation of process and workflow demonstrating implementation of EHR across all partners; MU and PCMH level 3- tracking; documentation of patient engagement/ communication system; evidence of use of telemedicine or other remote monitoring services; evidence of implementation of specific workflows. This organizational work stream will be considered successful as it reaches the milestones established in the work plan. Further success will be measured as the IT infrastructure grows and rolls out to meet the needs of the PPS. Further milestones and measures of success will be defined as the project evolves.

IPQR Module 5.8 - IA Monitoring

Instructions :

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Better Health for Northeast New York (PPS ID:1)

Section 06 – Performance Reporting

✅ IPQR Module 6.1 - Prescribed Milestones

Instructions :

Please enter and update target dates, as well as breakdown tasks with target dates for prescribed milestones. For milestones that are due within the reporting period, documentation is required to provide evidence of milestone achievement.

Any explanations regarding altered or missed target commitments must be included within the textbox, not as narrative within uploaded documentation.

Milestone/Task Name	Status	Description	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter	AV
Milestone #1 Establish reporting structure for PPS-wide performance reporting and communication.	Completed	Performance reporting and communications strategy, signed off by PPS Board. This should include: -- The identification of individuals responsible for clinical and financial outcomes of specific patient pathways; -- Your plans for the creation and use of clinical quality & performance dashboards -- Your approach to Rapid Cycle Evaluation	04/01/2015	03/31/2016	04/01/2015	03/31/2016	03/31/2016	DY1 Q4	NO

✔ IPQR Module 6.3 - Major Risks to Implementation & Risk Mitigation Strategies

Instructions :

Please describe the key challenges or risks that you foresee in implementing performance reporting structures and processes and effective performance management within your network, including potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

The AMCH PPS has a wide variety of E.H.R. systems as well as a range of HIXNY connectivity. This leads to a unique challenge of implementation to bring all participating organizations up to the same level of readiness to best prepare for performance reporting and training when necessary. Performance report training will need to concurrently run with standardization of clinical protocols. If providers are not fully engaged in the process, they can quickly fall behind and put multiple organizations at risk of not meeting performance goals. Our Clinical and Quality Affairs Committee and PAC Executive Committee will be the critical bodies for overseeing these activities and advancing engagement and on time performance throughout the span of DSRIP. AMCH PPS will also design and rely upon bonus payments based on quality performance and reporting to prompt provider participation, consistent with all regulatory requirements.

An additional risk is related to the lack of data for performance reporting purposes. To mitigate this risk we will provide patient level data to relevant providers. We may also utilize the MAPP tool and other resources to ensure data metrics are available on a quarterly basis. If data is still incomplete or inaccurate due to issues beyond our control, this risks success across the entire PPS network. To mitigate this, we will attempt to create alternative sources of accurate and timely data for performance reporting purposes.

✔ IPQR Module 6.4 - Major Dependencies on Organizational Workstreams

Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

Our success with Performance Reporting has a significant reliance on IT Systems and Processes, the Executive PAC, as well as our Clinical Performance Team. Clinical performance measures and guidelines will be an important factor in streamlining best practices while meeting important reporting milestones. Our IT infrastructure is also critical to success. While leveraging State provided data, we will also need to incorporate our own IT Systems and protocols across the entire PPS for reporting success. Performance reporting will rely on a streamlined reporting process across the PPS and the availability of data at the patient level. AMCH PPS Security and Privacy Officers will disseminate security and privacy policies and procedures and undertake training and awareness efforts to prompt compliance to protect the confidentiality of shared data. Compliance will also be reinforced by provisions in the partner agreement. PPS organizations will be efficiently trained in data reporting, data management, data privacy, as well as clinical guidelines and protocols. The Executive PAC will review and approve monthly dashboard reports and assess outliers in need of further training.

Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Better Health for Northeast New York (PPS ID:1)

✓ IPQR Module 6.5 - Roles and Responsibilities

Instructions :

Please list and elaborate upon the key people/organizations responsible for this organizational workstream and describe what their responsibilities involve.

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities
BHNNY Board	Ferdinand Venditti, MD, Executive Vice President	Oversee performance reporting and performance in PPS projects; approve performance reporting and communications strategies.
BHNNY Project Management Office	Louis Filhour PhD, RN	Responsible for oversight and implementation of all 11 projects. This includes performance reporting structure, training, and implementation.
Clinical and Quality Affairs Committee	Kallanna Manjunath, MD	Develop or review and approve quality dashboards, and review RCE data and analysis.
Clinical Quality Team Lead	James Desemone, MD	Responsible for identifying or developing standardized clinical protocols and working with project committees and partners to implement protocols across the entire PPS.
Technology & Data Management Committee Chair	George Hickman- TDMC Chair	Provide support, expertise and management for TDMC. Facilitate and support IT implementation and steps to advance IT strategy, data reporting and data sharing to achieve DSRIP goals; facilitate and oversee updates to all IT systems and support overall IT infrastructure.
Financial Committee Lead	Finance Committee Chair - Fran Albert Spreer	Oversee development and implementation of processes and standards for financial performance reporting across the PPS as well as analysis of financial performance.
BHNNY Chief Medical Officer	Kallanna Manjunath, MD	Lead process to develop or forge consensus on and implement standardized clinical care practices to align with reporting requirements and measurement objectives.
Data Analytic Team	PMO	Dashboard, quarterly, milestone and progress reporting for PPS network.
AMCH Compliance Officer	Noel Hogan, PhED CPA	Promote compliance with federal and state privacy laws and oversee implementation of PPS privacy policies for PPS projects and data sharing; implement DEAA privacy requirements; oversee training in data management and data privacy.
AMCH Security Officer	Kris Kusche	Promote implementation of PPS security policies across the provider network in relation to data exchange through HIXNY and other IT platforms used or developed for medical information data exchange.

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Better Health for Northeast New York (PPS ID:1)

✓ IPQR Module 6.6 - Key Stakeholders

Instructions :

Please identify the key stakeholders involved, both within and outside the PPS.

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
Internal Stakeholders		
IT Department	Reporting and IT System maintenance	Overall tech support, IT infrastructure maintenance/ troubleshooting, installation and upgrades as necessary.
BHNNY Project Management Office (PMO)	Provide leadership and direction for all performance reporting functions	Generate reports for internal and external purposes as required.
AMC Compliance Department	Development and implementation of the comprehensive compliance plan	Develop standardized contract language and monitor provider performance in relation to requirements of the code of conduct.
Finance Department	Overall reporting and monitoring responsibility for ensuring that funds are disbursed consistent with financial policies	Monthly financial reports, desk audit eligibility expense control, payroll distribution, documentation for audit and AP/AR.
BHNNY Board	Review and approve performance reporting	Approve performance reporting and communication strategies.
Participating PPS Providers	Ensure proper reporting at the provider level	Generate monthly reports and related PHI as required by project implementation, protocols, and metrics, governance oversight, and contract; communicate data as needed within their own organizations for improvement.
AMCH Executive Steering Committee	Set policy, approve performance reporting and communication strategy, provide liaison to AMC BOD, and oversee activities of the PMO	Approve performance reporting and communication strategies.
Executive (Project Advisory Committee) PAC	Policy-making group and decision-making body	Responsibility to accept or request revision of clinical standards of care, reporting structures, as well as recognize best practices within the PPS.
External Stakeholders		
NYSDOH	Ensure Medicaid claims data is reported accurately and in a timely manner consistent with regulatory reporting requirements	Quality data for the PPS to analyze at the patient level in real time.

New York State Department Of Health Delivery System Reform Incentive Payment Project

DSRIP Implementation Plan Project

Better Health for Northeast New York (PPS ID:1)

✅ IPQR Module 6.7 - IT Expectations

Instructions :

Please clearly describe how the development of shared IT infrastructure across the PPS will support your approach to performance reporting.

Initially we will need to utilize existing IT infrastructures within our PPS, including but not limited to, E.H.R. systems, Care Management software, and population health registries, as well as Salient Interactive Miner, DSRIP Dashboards, and the MAPP tool for performance reporting purposes. We will utilize state provided templates to facilitate early DSRIP reporting. Our IT team will work closely with our Clinical and Quality Affairs Committee to help streamline reporting needs and ultimately implement and utilize a robust reporting system across the entire PPS. We will also leverage IT support staff to ensure any technical glitches or vital data errors are addressed in real time to avoid delays in reporting. Ultimately we understand the importance of one comprehensive system in order to streamline reporting across the entire PPS Network. We will work within the MAPP CIO Steering Committee in order to move this process forward and to help create a single point of data across our network. We will establish and maintain an AMCH DSRIP Support IT Team to address any questions from partnering providers once this system is in place. We will also utilize commercially available software for project management activities including the creation of progress reports for internal and external purposes.

✅ IPQR Module 6.8 - Progress Reporting

Instructions :

Please describe how you will measure the success of this organizational workstream.

AMCH's PPS will collect performance data electronically from all participating providers on a quarterly basis to measure provider performance. AMCH will be assisted by project management software for this purpose. Evaluations will be administered prior to project implementation along with definitive project goals, and producing a gap-analysis which will be used to evaluate success of project performance. Additional documentation related to training programs will be provided to demonstrate up-take of training and completion rates. Success of this metric will be measured by the total number of participants that receive training or re-training. Timely reporting, as set forth in the plan, will be used as an achievement indicator in this organization work stream. We will also monitor access and usage of state-provided data by PPS providers and organizations as evidence that the providers are utilizing the data as a baseline for their gap-analysis upon approval of the PPSs data security plan by the NYSDOH. Specific gaps that are identified in the project plans will be monitored on an ongoing basis and reported on at least quarterly. To assist the community and to demonstrate transparency, documents and recorded sessions will be available on our public domain website for review. To the extent possible, we will also provide documented summaries of meetings between our PPS and the overlapping PPSs to demonstrate our efforts to collaborate and cooperate on various initiatives.

DSRIP Implementation Plan Project

Better Health for Northeast New York (PPS ID:1)

✔ IPQR Module 7.3 - Major Risks to Implementation & Risk Mitigation Strategies

Instructions :

Please describe the current level of engagement of your physician community in the DSRIP program and describe the key challenges or risks that you foresee in implementing your plans for physician engagement and achieving the milestones described above. Describe any potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

The primary risk to the implementation of the practitioner engagement strategy is the practitioners' ability to take an active role in the design and development of the strategy. Factors that may hinder their participation include availability of protected time away from direct patient care, lack of needed institutional support for their engagement, unwillingness to change their practice pattern and previous experience with the local healthcare initiatives. To mitigate the risk, we will:

- Engage appropriate key stakeholders from senior clinical and administrative leadership to get their buy-in, commitment and identify interested Practitioner Champions from their organizations to participate in the implementation of the strategy.
- Structure training programs to meet the needs of the practitioners working in small and large practices.
- Work to align financial incentives available to the practices with their ability and willingness to assist the PPS with the implementation of this strategy.
- Provide free continuing education credit for course completion consistent with standards as an incentive to providers.
- Provide support, both technical and financial, to assist with the transition to value based purchasing.
- Serve as a link to facilitate coordination and collaboration between CBOs and providers at the practice and hospital level

The second risk is our partners' ability to develop ongoing trainings within their practices and organizations to orient and train new staff when they are recruited to support the initiatives. Our Workforce Transformation Strategy involves significant redeployment and recruitment of new staff who will need to be trained on their role in the redesigned model of care. The approach will ensure that the core behaviors and practices of our DSRIP program remain embedded within organizations. To mitigate this risk, we will:

- In collaboration with the Workforce Coordinating Council, utilize Practitioner Champions to identify staff who will be involved in a 'train the trainer' approach as part of the training and education program.
- Develop electronic and printed training materials that will continue to engage practitioners and staff in the DSRIP program.

The third risk is the potential for resistance to changes in clinical pathways and new ways of working. Managing this risk is the core role of the 'Practitioner Champions' including key specialists who are part of our PPS. Key elements of our approach to addressing this issue include:

- Evidence-based change – in all of our communications about the overarching DSRIP program, the specific projects and initiatives we are undertaking, we will articulate the evidence base case studies of similar successful initiatives. We believe this will be particularly powerful when the case studies are from New York State, so we intend to use the MRT Innovation exchange (MIX) platform to identify examples of best practice.
- University at Albany School of Public Health will evaluate practitioner engagement strategies to help identify what works best in adopting new ways of working and overcoming cultural resistance.

✔ IPQR Module 7.4 - Major Dependencies on Organizational Workstreams

New York State Department Of Health Delivery System Reform Incentive Payment Project

DSRIP Implementation Plan Project

Better Health for Northeast New York (PPS ID:1)

Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

This work stream is interdependent with nearly every other work stream; however, the biggest interdependency is with clinical integration.

- All affected practitioners must be engaged in the DSRIP process in order for them to value – and support – the clinical integration of our PPS. To ensure coordinated efforts in these two areas, some of the core elements of our approach to practitioner engagement and clinical integration, including the development of professional peer groups and teams, play a central role in the implementation of the practitioner engagement strategy.
- The role of the Practitioner Champions is central to our plans for practitioner engagement. It is important that they are able to play the role we intend them to play in the governance structure – advocating to the Executive Body on behalf of the practitioners they represent and communicating information back down to those practitioners effectively. To this end, our practitioner engagement is dependent on an effective governance structure and processes.
- Our plans for practitioner engagement depend on effective, rapid and easy-to-access communications tools. We intend to use the MIX platform to facilitate communication and best practice sharing between practitioners working in different provider organizations.
- The success of practitioner engagement depends on timely and accurate information and is therefore linked to our strategies in information and data management, which include reports on trainings completed, pre and post test evaluations and the formal adoption of best practice guidelines, etc.
- Practitioner engagement is also linked to appropriate incentives such as freeing up time for training and other purposes by compensating organizations for lost revenue and improved performance.
- In collaboration with neighboring PPSs and with the workforce training and development strategy, practitioner engagement is dependent upon successful training of the workforce.

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

Better Health for Northeast New York (PPS ID:1)

✓ IPQR Module 7.5 - Roles and Responsibilities

Instructions :

Please list and elaborate upon the key people/organizations responsible for this organizational workstream and describe what their responsibilities involve.

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities
Clinical and Quality Affairs Committee	Committee members	Develop clinical communication and practitioner engagement plan.
BHNNY Chief Medical Officer	Kallanna Manjunath, MD	Clinical and Quality plan development: Practitioner engagement, staff training, and care management protocols.
BHNNY Project Management Office (PMO)	Louis Filhour PhD, RN	Responsible for oversight and implementation of all 11 projects. Facilitate the implementation of the operational objectives of the practitioner engagement plan.
Practitioner Steering Committee	Practitioner champions representing participating organizations	Take an active role in practitioner engagement and staff buy-in at participating organizations.
BHNNY Clinical Director	Tara Foster, RN, MS	Facilitate implementation of the clinical objectives of the practitioner engagement plan and act as a liaison between clinical support staff and Clinical and Quality Affairs committee.
BHNNY BH Clinical Director	Brendon Smith, PhD.	Facilitate engagement of PPS Behavioral health practitioners and act as a liaison between BH practitioners and Clinical and Quality Affairs committee.
Behavioral Health Providers	Victoria Balkoski, MD	Facilitate Behavioral Health Provider engagement and integration on behalf of the AMC Faculty Practice and affiliated BH providers across the network.
Workforce Coordinating Council	John Delgrosso	Work in collaboration with workforce vendor to develop and provide training.
PAC Executive Committee and PAC	PAC Executive Committee	Review and approve the clinical communication and engagement plan.

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Better Health for Northeast New York (PPS ID:1)

✓ IPQR Module 7.6 - Key Stakeholders

Instructions :

Please identify the key stakeholders involved, both within and outside the PPS.

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
Internal Stakeholders		
Ferdinand Venditti, MD, Executive Vice President	Executive Steering Committee Leadership	Project oversight and risk remediation.
James Desemone, MD	Director of Quality Improvement	Manage efforts of the quality subcommittee under the direction of the DSRIP Medical Director.
Victoria Balkoski, MD	Leadership within the Department of Psychiatry and across affiliated BH providers	Active engagement of key physician staff in the Department of Psychiatry and affiliated providers.
All BHNNY Practitioners	Participants	Engage in AMCH PPS projects, action plans and deliverables.
Community-Based BHNNY Behavioral Health Providers	Participants	Engage in AMCH PPS projects, action plans and deliverables.
Medical Directors or designees from PPS Member organizations	Site champions for practitioner engagement	Engage providers at their institutions in transformational efforts.
External Stakeholders		
HIXNY	RHIO	Promote and enhance interconnectivity across PPS practitioner organizations.
Professional Organizations (MSSNY, NYSNA, etc.)	Outreach	Promote DSRIP goals and objectives.
Labor Unions	Provide needed input and guidance	Assistance as needed to ensure PPS includes appropriate levels of input from workforce.
Healthy Capital District Initiative (HCDI)	Coordinate training needs with PHIP and SHIP	Coordinated curriculum and training schedule.
Adirondack Health Institute and The Alliance for Better Healthcare PPSs	As neighboring PPSs, collaborate regarding identification of training needs as well as the dissemination of materials	Coordination of training deliverables.
Patients and Families	Recipient of improved services	Feedback on access to clinical services
Workforce training Vendor	Coordinating development of training plan	Provision of training including evaluation of outcomes.

New York State Department Of Health Delivery System Reform Incentive Payment Project

DSRIP Implementation Plan Project

Better Health for Northeast New York (PPS ID:1)

✅ IPQR Module 7.7 - IT Expectations

Instructions :

Please clearly describe how the development of shared IT infrastructure across the PPS will support this particular workstream.

- Easy, accessible communication platforms to support communication between practitioners will be important for engaging them in DSRIP and for the sharing of best practice. This is true both within the AMCH PPS and between PPSs. We intend to develop a specific AMCH PPS portal on the MIX platform, potentially with sub-groups for various professional groups and for practitioners interested in specific projects.
- The ability for providers to share clinical information easily will also be important, not just for the improvements in clinical integration but also for the ongoing buy-in of individual practitioners. Therefore, it is important that the IT infrastructure, developed by the AMCH PPS IT Transformation Group, is in place quickly and developed with the input of Practitioner Champions.
- Improved IT infrastructure will also be important for the delivery of our practitioner engagement education and training materials. Our interactive provider map will give us insight into the provider organizations / sites where this will be a challenge.
- Successful electronic connections between provider groups will support practitioner engagement activities.

✅ IPQR Module 7.8 - Progress Reporting

Instructions :

Please describe how you will measure the success of this organizational workstream.

- The roll-out and attendance at the practitioner engagement programs will be an indicator of the reach of our practitioner engagement plan. We have set the target of delivering education & training face-to-face at 65% of provider organizations in our network and we will use this metric to monitor the progress of this work stream.
- In addition, we will monitor the attendance at practitioner training events. The design of these programs (DY1, Q4) will involve specific targets being set for the number of attendees per training, as well as questionnaires pre and post testing designed to assess impact (designed in collaboration with our Workforce Coordinating Council). Our Practitioner Champions will be responsible for generating interest and involvement in these training programs
- The use of our practitioner discussion forums on the MIX platform will be another indicator of the level of engagement of practitioners in the DSRIP program. The group representatives will report regularly to the Clinical & Quality Affairs Committee on the level of engagement (and coordination and integration) they see amongst the group they represent.
- The PPS will conduct annual surveys of provider satisfaction using standardized survey instruments through the National Research Corporation.
- Finally, practitioner engagement will be reported electronically based on the use of SAKAI which will capture time spent in module completion including pre and post test scores as surrogate measures.

✔ IPQR Module 8.3 - Major Risks to Implementation & Risk Mitigation Strategies

Instructions :

Please describe the key challenges or risks that you foresee in implementing these cross-cutting organizational strategies, including potential impacts on specific projects and, crucially, any risks that will undermine your ability to achieve outcome measure targets.

The first risk to implementation is related to the availability of data. Community needs assessment data is a major source of population health information within the PPS service region. This data is complex and can take time to collect and analyze. To mitigate this risk, we will take a structured approach to data collection and analysis involving appropriate stakeholders. Data will be standardized for presentation to project teams and stakeholders. MAPP tool data as well as other sources may lag and will not be available in real-time. The second risk to implementation is that skilled nursing facilities will not commit to bed decertification and the resulting change in their business model. To mitigate this risk, we will incentivize these providers using DSRIP funds as a transitional tool. Perhaps the most significant risk to implementation of the bed reduction milestone is the lack of capital funding. To mitigate this risk, we will continue to support capital funding requests needed for site renovations.

✔ IPQR Module 8.4 - Major Dependencies on Organizational Workstreams

Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

The population health work stream is dependent upon the following work streams: Financial Sustainability, Governance, IT Systems and Processes, Workforce, Practitioner Engagement, and Cultural Competency & Health Literacy. This work stream is dependent on Financial Sustainability in several ways: Incentive payments to motivate changes in business models, financial support for participation in the PCMH learning collaborative, transformation of the payment model to a Value Based approach. Governance dependencies revolve primarily around approval of final work products. IT Systems and Processes have numerous dependencies because measurement of population health changes are data and system dependent. Redeployment and retraining of nursing home staff due to bed reductions will create a dependency with the Workforce work stream. This work stream is dependent upon actively engaged practitioners and organizations at key locations including nursing homes. The Cultural Competency and Health Literacy work stream will rely on the output of this work stream to guide their efforts in addressing health disparities.

Better Health for Northeast New York (PPS ID:1)

✓ IPQR Module 8.5 - Roles and Responsibilities

Instructions :

Please list and elaborate upon the key people/organizations responsible for this organizational work stream and describe what their responsibilities involve.

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities
Clinical and Quality Affairs Committee	Kallanna Manjunath, MD	Oversee development of population health roadmap and goals; oversee development or identification and implementation of standardized clinical protocols across the entire PPS network.
Nursing Home Administrators	Various	Identification and decertification of beds (2.a.v.) and identification of space for medical village or other alternate use.
AMC VP Information Services	Azmat Ahmad	Coordination of IT integration for population health data collection and reporting.
BHNNY Project Management Office	Louis Filhour, PhD, RN	Oversight and implementation of all 11 projects. This includes performance reporting structure, training, and implementation. Responsible for identifying areas of focus, and directing team efforts.
BHNNY PAC Executive Committee	Elected representatives	Approve clinical protocols, reporting structures, bed reduction plan, and communication to PPS. The Executive PAC committee will review and approve population health dashboard data as appropriate.
BHNNY Board	BHNNY Board	Approve population health roadmap and bed reduction plan.

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Better Health for Northeast New York (PPS ID:1)

✓ IPQR Module 8.6 - Key Stakeholders

Instructions :

Please identify the key stakeholders involved, both within and outside the PPS.

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
Internal Stakeholders		
BHNNY Project Management Office	Project management and oversight on behalf of AMCH	Dashboard reporting, milestone reporting, coordination of incentive payments and leadership activities to complete the Population health roadmap.
AMCH Executive Steering Committee	Commit resources, set policy, direct efforts of the PMO, and provide institutional leadership for internal activities	Approve the roadmap prior to review and approval by the Executive committee of the PAC and the PPS Board.
AMC IT Department	Coordinate IT systems development, reporting systems, and data security. Work with identified vendors to establish population health monitoring IT infrastructure	Integrated systems for monitoring and reporting of population health measures.
Skilled Nursing Facilities	Identify excess bed capacity for decertification and retrofitting	Updated Certificate of Need
External Stakeholders		
Healthy Capital District Initiative (HCDI)	Assist with updating and maintaining the Community Needs Assessment	Updated CNA
MCOs	Provide technical and data analytic assistance in the development of population health strategies.	Population health strategies

New York State Department Of Health Delivery System Reform Incentive Payment Project

DSRIP Implementation Plan Project

Better Health for Northeast New York (PPS ID:1)

✅ IPQR Module 8.7 - IT Expectations

Instructions :

Please describe the current Population Health Management IT capabilities in place throughout your PPS network and what your plans are at this stage for leveraging these capabilities and/or developing new IT infrastructure.

Population Health Management is data driven and highly dependent on IT. We will conduct a detailed survey of participating providers to assess available data sets and registries. This survey will be used to evaluate potential disparities in care, quality indicators, patient demographics, and social determinants of health. Community health indicators, available from state, federal and various foundation sources will be utilized to provide baseline measures and longitudinal monitoring of these indicators over the term of the project. Current IT infrastructure does not support robust population health management, monitoring or reporting. IT systems will need to be developed to support population health management activities, including the creation of dashboards. These dashboards will also include Community Needs Assessment data where relevant. Data will be updated on an ongoing basis and be available across the PPS. This IT infrastructure will be a significant endeavor but will ultimately be necessary for success.

PCMH certification requires use of an E.H.R. All safety net providers will need to implement an E.H.R system within their organization and ensure it meets all Meaningful Use requirements. The PCMH learning collaborative will facilitate this change. AMC's IT staff or the identified vendor will provide support as required.

External IT resources such as HIXNY and SHIN-NY will play a significant role in the development of a sustainable population health IT infrastructure.

✅ IPQR Module 8.8 - Progress Reporting

Instructions :

Please describe how you will measure the success of this organizational workstream.

The two primary work streams associated with population health are the monitoring of the health of the population and the reduction in beds available (specifically nursing home beds for Project 2.a.v). The ability to measure, monitor and report on the health of the population in a consistent, longitudinal way will define success for the first part of this work stream. Positive changes in baseline measures of population health will indicate success in the domain 3 and 4 projects. The PMO will develop population health tools and reports and closely monitor contracting with MCOs. In addition, data provided by the NYSDOH regarding Domain 4 metrics, will be utilized and analyzed longitudinally to determine success of population health initiatives. Further clarification of action steps regarding domain 4 is provided in the project implementation plans for Projects 4.b.i and 4.b.ii.

The second workstream will be measured based on approval of one or more CONs that will result in decertification of SNF beds. The required administrative steps consistent with the CON process will be followed, tracked and reported as indicators of progress during DY2-3. Reporting of these workstream activities will be shared with the PAC and will be available to the public via the PMO's public web portal.

DSRIP Implementation Plan Project

Better Health for Northeast New York (PPS ID:1)

✔ IPQR Module 9.3 - Major Risks to Implementation & Risk Mitigation Strategies

Instructions :

Please describe the key challenges or risks that you foresee in improving the level of clinical integration throughout your network and achieving the milestones described above. Describe potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

A primary risk for clinical integration will be ineffective participation of practitioners and leaders of health care organizations. Currently most practitioners and health systems function as silos and have not changed their systems due to current payment systems, or market share dominance. Without their active participation in our efforts to redesign the delivery system, we will face substantial hurdles in implementing clinical integration strategies effectively. Strong linkages to Level 3 PCMH PCP sites are essential to the success of clinical integration. Inability of the primary care practices to achieve this recognition will create additional hurdles. The current culture among practitioners is a barrier to integration of physical and BH care services. The current lack of integration compromises the care of individuals with mental health and chemical dependency disorders and chronic medical ailments. To mitigate these risks, we will:

- Create teams, led by practicing clinician stakeholders that will be responsible to the CQAC for developing clear lines of accountability and communication between relevant groups, and the development of clinical pathways using evidence-based standards of care and monitoring of clinical performance.
- With a dedicated team of experts, AMCH PPS will coach and support other primary care practitioners through the process of obtaining recognition as a Level 3 PCMH.
- Provide training and encourage a cultural shift across organizational boundaries to create a more collaborative, patient centered approach whereby primary care practitioners are more attentive to behavioral health disorders.
- Assist our partners with the transition towards value based payments and away from traditional payment models.

A second risk to clinical integration is the reliance on new IT and communications infrastructure which is needed to support communication between practitioners and between organizations. The IT and data sharing survey that we carried out prior to our DSRIP application revealed that the partners within our PPS are at differing levels of IT capabilities and are on differing platforms, creating risks to integration. The current lack of infrastructure and reimbursement to support telemedicine prevents implementation as well as readiness of providers to be part of the initiative. Existing IT infrastructure is inadequate to support a region-wide interoperable system, and a comprehensive patient registry. Rolling out new tools for data sharing while trying to establish new lines of communication to coordinate care will be a complex challenge. To mitigate these risks, we will:

- Involve practitioners from our participating partners in the redesign and implementation of clinical IT and data sharing systems.
- Integrate a member of the TDMC into the team to develop our clinical integration strategy.
- Utilize a realistic model of IT expansion to allow all organization types to share in connectivity.
- Develop and implement a system-wide IT solution to facilitate real-time data exchange for effective care management including structured EHR templates.

A third risk is the inability of regional MCOs to reimburse adequately for proposed changes to the delivery system. Their current authorization requirements are not aligned with implementation of clinical pathways and care coordination initiatives. Active engagement in VBP will be difficult to achieve without practitioner engagement and clinical integration. To mitigate these risks, we will:

- Engage MCOs to evolve the payment structure to a value based system as well as provide educational materials to our participating providers.
- Examine clinical pathways and workflows to identify authorizations and procedures required by MCOs and their impact on service delivery.
- Discuss a streamlined process for care bundles with the MCOs to minimize unnecessary authorizations.

New York State Department Of Health Delivery System Reform Incentive Payment Project

DSRIP Implementation Plan Project

Better Health for Northeast New York (PPS ID:1)

✅ IPQR Module 9.4 - Major Dependencies on Organizational Workstreams

Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

Clinical integration is dependent on the following work streams: Governance, Finance, Workforce, IT, and Practitioner Engagement. These work streams are linked together and supportive of each other. This integration creates processes that are sequential across the various work streams, creating management challenges. Clinical integration is dependent on Governance for the review and approval of the clinical integration strategic plan among other elements. Clinical Integration is dependent upon Finance to establish appropriate incentives for engagement (providers/ organizations/ MCOs) and project implementation. Clinical integration is dependent upon workforce in two ways: first, to address training needs workforce will provide the necessary skill development required, and second, the necessary staffing to meet demand across clinical settings. Clinical integration is dependent upon IT for evaluation, connectivity, data exchange, reporting, care coordination, and quality improvement. Clinical integration is dependent upon practitioner engagement without which the work stream cannot succeed. Clinically integrating AMCH PPS's diverse set of practitioners will require the input, insight, and engagement of all involved. All affected practitioners must be engaged in the DSRIP process in order for them to value – and support – the clinical integration of our PPS. To ensure coordinated efforts in these two areas, some of the core elements of our approach to clinical integration and practitioner engagement – including the development of professional peer groups and teams– also play a central role in the delivery of our clinical integration strategy. To support the development of NCQA-certified Level 3 PCMH primary care practices, the Population Health and the Performance Reporting work streams will need to align with the clinical integration and practitioner engagement strategies.

If the transformation towards a clinically integrated system is viewed by practitioners as increasing the administrative burden involved in managing care for their patients, we will not be able to create a sustainable shift in practice. An important factor in facilitating greater clinical integration will, therefore, be freeing up the time required for individual practitioners to engage in multi-disciplinary care planning. Our IT systems and processes will need to be designed and implemented (a) with the goal of reducing administrative processes from their current levels and (b) with the input of clinical end users.

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Better Health for Northeast New York (PPS ID:1)

✔ IPQR Module 9.5 - Roles and Responsibilities

Instructions :

Please list and elaborate upon the key people/organizations responsible for this organizational workstream and describe what their responsibilities involve.

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities
Clinical and Quality Affairs Committee	Committee members	Oversight and approval of CI Strategy and CI work plan.
BHNNY Chief Medical Officer	Kallanna Manjunath, MD	Leadership, member of Sr. Management Team, Chief Medical Officer
Practitioner Steering Committee	Practitioner champions representing participating organizations	Take an active role in practitioner engagement, clinical integration and staff buy-in at participating organizations.
BHNNY Project Management Office	Louis Filhour, PhD, RN	Responsible for oversight and implementation of all 11 projects. Facilitate the implementation of the operational objectives of the CI Strategy
BHNNY Clinical Director	Tara Foster, RN, MS	DSRIP wide assistance with adoption of care management protocols
BHNNY BH Clinical Director	Brendon Smith, PhD	DSRIP wide assistance with behavioral health integration, etc.
BHNNY PMO IT Contact	Susan Kopp	Liaison between IT Representatives of member organizations.
Executive Sponsor	Ferdinand Venditti, MD Executive Vice President	Assistance with work stream integration, PPS relations and clinical engagement.
AHI and The Alliance for Better Healthcare PPSs	As neighboring PPSs, collaborate regarding identification of training needs as well as the dissemination of materials	Coordination of training deliverables.

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Better Health for Northeast New York (PPS ID:1)

✓ IPQR Module 9.6 - Key Stakeholders

Instructions :

Please identify the key stakeholders involved, both within and outside the PPS.

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
Internal Stakeholders		
Kallanna Manjunath, MD	BHNNY Chief Medical Officer and Chair, Clinical and Quality Committee	Leadership and direction of the Clinical and Quality Affairs Committee, assisting with plans, strategies and protocols, as needed
James Desemone, MD	Albany Medical College's Director of Quality, Faculty Physicians Group	Leadership efforts for clinical quality improvement at internal and external sites
Ferdinand Venditti, MD Executive Vice President	President, AMC Faculty Physicians Group	Executive Steering Committee leadership, obtaining PCP "buy-in"
AMC Faculty Practice and Affiliated Partners	Medical Director of multiple organizations	Committee participation, clinical leadership across provider sites
Community-Based AMCH PPS Behavioral Health Providers	Participants	Engage in AMCH PPS projects, action plans and deliverables.
Department of Psychiatry	Behavioral Health Leadership	Active engagement in clinical integration of primary and behavioral health
Providers	Medical Director of multiple organizations	Committee Participation, clinical leadership across provider sites
External Stakeholders		
Accreditation and Certification Agencies	Various	Provide guidelines for accreditation and certification
HIXNY	RHIO	Promote and enhance interconnectivity across PPS practitioner organizations
Professional Organizations (MSSNY, NYSNA, etc.)	Outreach	Promote DSRIP goals and objectives
1199 SEIU, NYSNA, and CSEA	Provide needed input and guidance	Assistance as needed to ensure PPS includes appropriate levels of input from workforce
Healthy Capital District Initiative (HCDI)	Coordinate training needs with PHIP and SHIP	Coordinated curriculum and training schedule
Adirondack Health Institute and The Alliance for Better Healthcare PPSs	As neighboring PPSs, collaborate regarding identification of training needs as well as the dissemination of materials	Coordination of training deliverables.
Workforce training Vendor	Coordinating development of training plan	Provision of training including evaluation of outcomes
External Membership of Clinical and Quality Affairs Committee	Various	Actively engaged in the development of work stream deliverables

New York State Department Of Health Delivery System Reform Incentive Payment Project

DSRIP Implementation Plan Project

Better Health for Northeast New York (PPS ID:1)

✅ IPQR Module 9.7 - IT Expectations

Instructions :

Please clearly describe how the development of shared IT infrastructure across the PPS will support this particular workstream.

Effective clinical integration will require relevant information to be readily accessible for all providers across the patient care spectrum. For some providers this will mean integration into new or expanded clinical data systems. Effective clinical integration will rely heavily on the coordinated use of patient registries and other IT tools. A core element of our clinical integration needs assessment will be identifying whether new, expanded or other data-sharing systems are required. The collaboration between AMCH's PPS Technology and Data Management Committee, the Clinical and Quality Affairs Committee, and the provider stakeholders will be important in ensuring that our plans for developing IT infrastructure across the PPS support better clinical integration. Real time data sharing capability may be the most important thing to ensure in DY1 and DY2, since fully operational IT systems may not be feasible, affordable or able to be built and implemented quickly. Achieving the buy-in of our participating providers for new technologies will depend on AMCH PPS to provide compelling justification for the use of the new technologies. Realizing partners within our PPS are at differing levels of IT capabilities and are on differing platforms will create a challenge to integration. We will utilize a multi-stage model of IT expansion to allow all organization types to share in connectivity at a realistic rate. This includes:

1. Developing manual reporting via excel or other State provided templates for MAPP tool utilization. A PMO purchased project management software tool will ease the burden of this task.
2. EHR adoption by all safety net primary care providers prior to the end of DY3.
3. Adoption of toolkits produced by the Target Operating Model project, led by KPMG, for IT functionality across the PPS.
4. Utilization of claim based analytic resources for risk stratification to deploy resources and develop provider performance metrics.
5. Develop care planning/ care coordination functionality across the broad spectrum of performing providers.

✅ IPQR Module 9.8 - Progress Reporting

Instructions :

Please describe how you will measure the success of this organizational workstream.

The Clinical and Quality Affairs (CQA) committee will receive quarterly progress reports aligned with the phases of implementation of CI Strategy. The first quarterly report will include:

- A validated CI needs assessment tool approved by the CQA committee
- Aggregated results of the CI needs assessment survey
- Progress towards completion of a clinical IT needs assessment
- An approved CI Strategy document

Subsequent quarterly reports may include, but not be limited to:

- Updates on training activities
- Progress towards implementation of CI action plans

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Better Health for Northeast New York (PPS ID:1)

• Progress towards full implementation of the IT infrastructure development for interoperability
• Information obtained from surveys of participating practitioners and patient groups.
The success of clinical integration will be demonstrated by completion of the PMO quarterly progress reports as a surrogate measure. Justification for use of these reports as surrogate measures is based on accurate and timely data provided by participating providers.
AMCH PPS has purchased and will utilize performance logic for overall project tracking and reporting.

IPQR Module 9.9 - IA Monitoring:

Instructions :

New York State Department Of Health Delivery System Reform Incentive Payment Project

DSRIP Implementation Plan Project

Better Health for Northeast New York (PPS ID:1)

Section 10 – General Project Reporting

✅ IPQR Module 10.1 - Overall approach to implementation

Instructions :

Please summarize your intended approach to the implementation of your chosen DSRIP projects, including considerations around how this approach will allow for the successful development of concurrently implementing DSRIP projects.

The successful implementation of AMCH PPS's eleven DSRIP projects will require the following:

- 1) The creation of a collaborative and transparent reporting system across all participating providers.
- 2) Executive management and clinical leadership, which are diverse and representative across the region, will be responsible for the implementation of the projects.
- 3) A plan that engages, incentives, and educates providers and the community through the creation of regional hubs.
- 4) The collaboration of AMCH PPS TDMC and CQA and provider stakeholders to ensure development of a sustainable, affordable and realistic plan for regional connectivity by building upon existing platforms and develop short term solutions that will evolve to long term sustainable technology interfaces. Retrieving accurate and timely data from the DOH will be vital to the success of this project.
- 5) Culturally appropriate training designed to educate individuals and organizations about the goals and strategies of each DSRIP project.
- 6) A financial plan that is fair, transparent and sustainable. Many projects will require significant capital investment. Delays in the CRFP program have hampered the ability of some projects to move forward. Failure to receive funding will jeopardize the success of some projects.

The PMO is responsible for meeting the overall timelines and deliverables and the day to day management of activities associated with the eleven DSRIP projects. AMCH recognizes the importance of shared governance as it relates to the success of the individual projects. To accomplish this, AMCH will focus on transparency, clear communication, and collaboration across the entire PPS. The PMO will share information such as best practices and performance benchmarks to ensure that project goals are achieved.

Another component that will drive the success of the eleven DSRIP projects is the creation of a shared information technology infrastructure as well as data analytics. Interoperability must be created to transfer data among providers.

AMCH PPS has developed a Workforce Coordinating Council to assess the capabilities of the DSRIP workforce and provide training and education where needed. Training will be provided to new hires and current employees to meet the needs of project specific milestones.

Provider and community engagement is a key factor contributing to the success of the DSRIP initiative. Since the AMCH PPS is comprised of a diverse mix of hospitals, providers, and community based organizations, AMCH PPS will ensure that all parties are engaged in the process through the efforts of our committees.

AMCH PPS will operate within a budget and funds flow model that evolves to meet the needs of the PPS in order to achieve the goals and objectives of DSRIP.

✅ IPQR Module 10.2 - Major dependencies between work streams and coordination of projects

Instructions :

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Better Health for Northeast New York (PPS ID:1)

Please describe how your approach will handle interdependencies between complementary projects, as well as between projects and cross-cutting PPS initiatives - for example, an IT infrastructure upgrade, or the establishment of data sharing protocols.

The AMCH PPS goal is to develop strategies that allow projects with similar milestones to work interdependently creating effective and efficient work streams. Several projects require care coordination. It will be efficient to standardize care coordination protocols.

AMCH PPS comprises a five county area that includes; Albany, Columbia, Greene, Saratoga, and Warren Counties. To avoid redundancies and to allow for seamless coordination of care throughout the PPS, the development plan will include three geographic hubs, and within those hubs creating project specific groupings allowing for more focused effort. Recognizing the regional diversity, the three hubs are: Hub 1: Warren and Saratoga Counties, Hub 2: Albany County, and Hub 3: Columbia and Greene Counties. Providers within a hub will work together on each project. Some examples of provider and project groupings by commonality include: Projects 2.a.iii and 2.b.iii. Both projects share interdependences with the development of care coordination and patient navigation. Projects 3.a.i and 3.a.ii may also be grouped together as they both share behavioral health commonalities.

Multiple projects require that participating providers meet the NCQA Level 3 2014 Patient Centered Medical Home standards. It may not be feasible to group all of the projects that require providers to meet this standard; therefore, the PMO will create a learning collaborative to assist all sites in the certification process.

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Better Health for Northeast New York (PPS ID:1)

✓ IPQR Module 10.3 - Project Roles and Responsibilities

Instructions :

Please outline the key individuals & organizations that play a role in the delivery of your PPS's DSRIP projects, as well as what their responsibilities are regarding governance, implementation, monitoring and reporting on your DSRIP projects.

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities
BHNNY PMO	Louis Filhour, PhD, RN	PMO is responsible for meeting project milestones and deliverables and providing project quarterly reports to DOH. PMO will be responsible for driving the implementation of those projects. PMO will monitor the implementation of cross-PPS organizational development initiatives, such as IT infrastructure development and workforce transformation.
BHNNY Clinical and Quality Affairs Committee	Dr. Kallanna Manjunath, BHNNY Chief Medical Officer	CQAC will ensure improvements in clinical outcomes through enhanced clinical integration and practitioner engagement across all eleven DSRIP projects.

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Better Health for Northeast New York (PPS ID:1)

✔ IPQR Module 10.4 - Overview of key stakeholders and how influenced by your DSRIP projects

Instructions :

In the below table, please set out who the key stakeholders are that play a major role across multiple DSRIP projects. Please give an indication of the role they play and how they impact your approach to delivering your DSRIP projects.

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
Internal Stakeholders		
BHNNY PMO	Management and coordination of all eleven DSRIP projects	Responsible for the quarterly reporting of all timelines and deliverables.
BHNNY Audit and Compliance Committee	Ensures compliance across eleven DSRIP projects	Responsible for the development and implementation of the BHNNY Compliance Plan and the development and dissemination of compliance materials for BHNNY.
BHNNY Consumer and Community Affairs Committee	Ensures active consumer and community engagement across all relevant DSRIP projects	Responsible for engaging key CBOs and non-provider organizations in strategic locations to encourage active consumer engagement and participation in the DSRIP projects.
BHNNY Finance Committee	Provide financial oversight for all eleven DSRIP projects	Management of budgeting and financial planning for projects. Create and monitor internal controls and accountability policies.
BHNNY Workforce Coordinating Council	Oversee workforce needs of all eleven DSRIP projects	Assess workforce need and provide training as needed.
BHNNY Technology and Data Management Committee	Manage the IT work stream	Implement IT solutions across the network in support of project development.
BHNNY Cultural Competency and Health Literacy Committee	Establish a system-wide approach to ensure culturally and linguistically appropriate services are made available.	Assess cultural and linguistic training needs across the PPS region. Provide materials where necessary.
All BHNNY Participating Providers	Project implementation	Collaborate on the development and implementation of health system transformation including integration of the delivery system.
External Stakeholders		
Saratoga Hospital	Leadership participant	Participant in select DSRIP projects.
Columbia Memorial Hospital	Leadership participant	Participant in select DSRIP projects.
Labor Unions	Labor representation	Support and implementation of workforce transformations; as these plans are delivered through the implementation of the DSRIP projects BHNNY may engage with them on the specific changes to the workforce.
CBOs	Project implementation support	Participate in implementation of projects as appropriate.
NYSDOH	Project implementation support	Provide metrics and benchmarks for DSRIP projects.
Healthy Capital District Initiative (HCDI)	Project implementation support	Provide support to the WCC and the CCAC as needed as well as provide guidance regarding the prevention agenda and the state health improvement plan.

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Better Health for Northeast New York (PPS ID:1)

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
Workforce Training Vendor	Coordination and development of training programs	Provide training and education to participating partners. Provide training for new hires, redeployed and other workers who need additional guidance and education on certain tasks related to DSRIP projects.
OASAS Office of Substance Abuse	Project implementation support	Provide waivers for OASAS licensed facilities.
Office of Mental Health (OMH)	Project implementation support	Provide waivers for OMH licensed facilities.
Alliance for Better Health Care PPS	Project Collaboration	Collaborate in the implementation of select projects accounting for the overlap in counties and network providers, including the prevention of redundancy and waste of resources.
Adirondack Health Institute PPS	Project collaboration	Collaborate in the implementation of select projects accounting for the overlap in counties and network providers, including the prevention of redundancy and waste of resources.
MCO's and Payers	Financial sustainability and VBP	Collaborate in the development of contractual relationships to further transformation efforts towards VBP.
HIXNY and SHIN-NY	Data exchange	Develop connectivity and data exchange solutions across the provider network.

New York State Department Of Health Delivery System Reform Incentive Payment Project

DSRIP Implementation Plan Project

Better Health for Northeast New York (PPS ID:1)

✅ IPQR Module 10.5 - IT Requirements

Instructions :

Information technology will play a crucial role in the development of an effective, integrated performing provider system. It is likely that most projects will require some level of supporting IT infrastructure. Please describe the key elements of IT infrastructure development that will play a role in multiple projects.

Based on the availability of capital funding, AMCH PPS will develop an IT infrastructure that will be leveraged for the purposes of communication, data sharing and interoperability across all DSRIP projects. The AMCH PPS assessed the IT current state and identified a number of variations between providers in the network. The Technology and Data Management committee (TDMC) will develop an IT roadmap to achieve clinical data sharing and interoperability across the PPS network.

IT implementation objectives that effect multiple DSRIP projects include: achieving active participation and effective usage of the EHR system and patient registries for all providers in the system; meeting Meaningful Use and achieving 2014 Level three PCMH certification for all relevant providers; and connecting to HIXNY to access and share available clinical data across the PPS network. The AMCH PPS TDMC and CQA along with provider stakeholders will collaborate to ensure development of a sustainable, affordable and realistic plan for regional connectivity by building upon existing platforms and develop short term solutions that will evolve to long term sustainable technology interfaces.

The development of an IT infrastructure that allows for secure data sharing and interoperability is critical to the implementation of all DSRIP projects. The AMCH PPS will engage external and internal IT experts to mitigate the risk of shared PHI data.

✅ IPQR Module 10.6 - Performance Monitoring

Instructions :

Please explain how your DSRIP projects will fit into your development of a quality performance reporting system and culture.

AMCH PPS PMO is responsible for collecting and analyzing data and delivering the project's quarterly reports to the independent assessor and DOH, as well as communicating to the PPS board and the performing provider network performance outcomes, milestones and deliverables. AMCH PPS intends to utilize commercially available software to assist the PMO in creation of dashboards, milestone reporting, and preparation and submission of quarterly reports.

New York State Department Of Health Delivery System Reform Incentive Payment Project

DSRIP Implementation Plan Project

Better Health for Northeast New York (PPS ID:1)

✓ IPQR Module 10.7 - Community Engagement

Instructions :

Please describe your PPS's planned approach for driving community involvement in the DSRIP projects, how you will contract with CBOs for these projects, how community engagement will contribute to the success of the projects, and any risks associated with this.

The Consumer and Community Affairs Committee (CCAC) is responsible for engaging key CBOs in strategic locations to encourage active consumer engagement and appropriate CBO participation in the DSRIP projects. The CCAC will develop a plan which will include a schedule of events to engage and stimulate consumer involvement in various population health activities. The CCAC will actively participate in local CORESTAT and other community revitalization efforts to communicate and coordinate ongoing outreach activities.

CBO's involved in DSRIP projects will enter into a contractual agreement with the PMO or other safety-net providers. Contracts for each CBO will vary by project and the amount of the awards will be performance based. Every CBO entering into a contract with the PMO will be required to meet all milestones and deliverables of the specific DSRIP project.

Community engagement is critical to the success of DSRIP for several reasons. First, allowing input from a diverse population will foster creative and innovative ideas, resulting in greater community buy-in. Second, community engagement enhances relationship building, which is an effective way to increase involvement among various stakeholders including Medicaid beneficiaries, community leaders and the uninsured. Third, CBOs are on the frontline of service delivery, know their communities and are trusted by consumers creating engagement opportunities that are important to DSRIP's success.

There are risks associated with the PPS's ability to maintain active community engagement. The success of the community engagement goals require voluntary participation of individuals and organizations. The disengagement of a CBO is a risk to the PPS's ability to maintain effective community integration. Many CBOs lack sophisticated infrastructure including IT capabilities, compliance, regulatory reporting, and financial management that pose a risk in terms of their abilities to effectively manage data, funds, and deliverables. Limitations based on the funding cap for non-safety net providers may limit engagement and interest opportunities for some CBOs. AMCH PPS will mitigate these risks through effective communication, community engagement, transparent decision making, technical assistance and support including financial management and data reporting.

IPQR Module 10.8 - IA Monitoring

Instructions :

DSRIP Implementation Plan Project

Better Health for Northeast New York (PPS ID:1)

Section 11 – Workforce

✅ IPQR Module 11.1 - Workforce Strategy Spending (Baseline)

Instructions :

Please include details on expected workforce spending on a semi-annual basis. Funds may be shifted from one funding type category to another within the workforce strategy spending table, as long as the PPS adheres to their overall spend commitments. However, the PPS may apply a 25% discount factor to the DY1 Workforce Strategy Spend target. If the PPS applies this discount in DY1, the PPS will be expected to reallocate those funds appropriately in DY2-4 to fully meet their DY1-4 total commitment.

Funding Type	Year/Quarter										Total Spending (\$)
	DY1(Q1/Q2)(\$)	DY1(Q3/Q4)(\$)	DY2(Q1/Q2)(\$)	DY2(Q3/Q4)(\$)	DY3(Q1/Q2)(\$)	DY3(Q3/Q4)(\$)	DY4(Q1/Q2)(\$)	DY4(Q3/Q4)(\$)	DY5(Q1/Q2)(\$)	DY5(Q3/Q4)(\$)	
Retraining	0.00	613,996.00	454,111.00	454,111.00	454,111.00	454,111.00	415,475.00	415,475.00	246,373.00	246,373.00	3,754,136.00
Redeployment	0.00	78,793.00	37,884.00	37,884.00	37,884.00	37,884.00	28,225.00	28,225.00	23,772.00	23,772.00	334,323.00

✅ IPQR Module 11.4 - Major Risks to Implementation & Risk Mitigation Strategies

Instructions :

Please describe the key challenges and risks that you foresee in achieving the milestones set out above, including potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

Below is a list of recognized risks and approaches the PPS will undertake to mitigate those risks:

- Shortages in the workforce:
 - o We anticipate that there will be identified shortages of specific types of workers, especially as we undertake to introduce a new type of healthcare worker into the workforce. We hope to be able to mitigate this by training workers in this field prior to the planned deployment into the field. By accelerating the training of new categories of workers we hope to reduce the risk of having open jobs with a lack of qualified candidates.
- Shifting needs of the workforce:
 - o The needs of the workforce cannot be fully understood prior to project implementation. The PPS will undertake training and educational strategies in collaboration with our contracted workforce development vendor to prepare existing workers for the new opportunities that will be created by the DSRIP program.
- Lack of defined roles for new categories of workers:
 - o We will work with our workforce vendor to clearly define the roles of the new categories of workers and to develop appropriate training curriculum for these positions.
- Disparate training expectations of various performing provider organizations with conflicting Human Resources policies:
 - o While the PPS will not establish Human Resources policies for participating organizations, funded providers will have a contractual obligation requiring staff participation in training activities. We will work with unionized employees to enlist union support of training strategies.

✅ IPQR Module 11.5 - Major Dependencies on Organizational Workstreams

Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

The workforce work stream is dependent upon the following other work streams: Governance, Finance, Information Technology, Practitioner Engagement, Clinical Integration, and Cultural Competency and Health Literacy. Recognizing the dependence of all healthcare providers on their most important resource - their staff - everything we propose to do in DSRIP is dependent upon having a motivated, trained, and highly qualified staff engaged in the process. Dependence on Governance is related to decision making approvals for the actions and deliverables of the WCC. Finance impacts the WCC and the workforce work stream both in terms of budget support for deliverables and potential incentives to providers for training accomplishments. Workforce is dependent on Information Technology to provide online training, to conduct electronic assessments, and to collect and report data. Workforce is dependent upon practitioner engagement, clinical integration and cultural competency and health literacy for buy in and a commitment to address staff training needs.

**New York State Department Of Health
Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Better Health for Northeast New York (PPS ID:1)

✔ IPQR Module 11.6 - Roles and Responsibilities

Instructions :

Please list and elaborate upon the key people/organizations responsible for this organizational workstream and describe what their responsibilities involve.

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities
PMO Workforce Contact	John DelGrosso, Project Manager; Simone Brooks, Project Manager	Liaison between WCC and Workforce Training Vendor. Assist the WCC with the implementation of the workforce strategy deliverables and milestones.
WCC Chairperson	Kelly Sweeney	Facilitate workforce meetings, assist with milestones and deliverables, and present recommendations to the PAC Executive Committee for review and approval.
Workforce Vendor(s)	HealthStream, Iroquois Healthcare Association, BDO Consulting, Accenture	Assist the WCC with the training, recruitment, and redeployment of the PPS workforce. Will assist with the current and future workforce state analysis, as well as the gap analysis.
WCC Member	Albany Medical Center	Attend monthly WCC meetings and work towards accomplishing the workforce strategy milestones and deliverables.
WCC Member	Columbia Memorial Hospital	Attend monthly WCC meetings and work towards accomplishing the workforce strategy milestones and deliverables.
WCC Member	Saratoga Hospital	Attend monthly WCC meetings and work towards accomplishing the workforce strategy milestones and deliverables.
WCC Member	1199SEIU	Attend monthly WCC meetings and work towards accomplishing the workforce strategy milestones and deliverables.
WCC Member	Center for Disability Services	Attend monthly WCC meetings and work towards accomplishing the workforce strategy milestones and deliverables.
WCC Member	AHEC	Attend monthly WCC meetings and work towards accomplishing the workforce strategy milestones and deliverables.
WCC Member	HCDI	Attend monthly WCC meetings and work towards accomplishing the workforce strategy milestones and deliverables.
WCC Member	Greene County Public Health	Attend monthly WCC meetings and work towards accomplishing the workforce strategy milestones and deliverables.
WCC Member	Columbia County DOH	Attend monthly WCC meetings and work towards accomplishing the workforce strategy milestones and deliverables.

Delivery System Reform Incentive Payment Project**

DSRIP Implementation Plan Project

Better Health for Northeast New York (PPS ID:1)

✔ IPQR Module 11.7 - Key Stakeholders

Instructions :

Please identify the key stakeholders involved in your workforce transformation plans, both within and outside the PPS.

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
Internal Stakeholders		
Albany Medical Center Hospital	Largest workforce employer in the PPS	Actively participate in assessment, training, coordination and staffing issues
PPS Participating Providers	Workforce representation across the PPS	Actively participate in assessment, training, coordination and staffing issues
Albany Medical Center Faculty Practice	Largest Provider workforce in the PPS	Actively participate in assessment, training, coordination and staffing issues
External Stakeholders		
Labor Unions	Provide needed input and guidance	Assistance as needed to ensure PPS includes appropriate levels of input from workforce
Unrepresented workers	Provide needed input and guidance	Assistance as needed to ensure PPS includes appropriate levels of input from workforce
Healthy Capital District Initiative (HCDI)	Coordinate training needs with PHIP and SHIP	Coordinated Curriculum and training schedule
Workforce training Vendor	Coordinating development of training plan	Provision of training including evaluation of outcomes
Regional PPSs	Collaboration on workforce opportunities	Ongoing assistance in coordination of workforce initiatives

**New York State Department Of Health
Delivery System Reform Incentive Payment Project
DSRIP Implementation Plan Project**

Better Health for Northeast New York (PPS ID:1)

✅ IPQR Module 11.8 - IT Expectations

Instructions :

Please describe how the development of shared IT infrastructure across the PPS will support your plans for workforce transformation.

Alignment between workforce and IT is critical to DSRIP success. Once our training strategy and plan are implemented, we will rely on IT platforms to track training progress (e.g. tracking completed training, when and what was trained and certifications achieved, etc.). This will require a Cross PPS reporting system to facilitate data collection and analysis. The AMCH PPS will execute the workforce transition roadmap by relying on IT capabilities to track staff movement and changes across the PPS (e.g. redeployed staff, net new hires). We will need a central IT system that is both capable of tracking workforce changes and gathering data and information related to these changes in a seamless and timely fashion. This system will also be necessary to report on measures for required quarterly progress reports. Finally, as we undertake this large-scale workforce transformation, a central IT system will enable the AMCH PPS to track open positions and staffing needs across the PPS by creating a jobs database that will allow workers the ability to see employment availability and opportunity across the member organizations.

✅ IPQR Module 11.9 - Progress Reporting

Instructions :

Please describe how you will measure the success of this organizational workstream.

Based on our approved training strategy, AMCH's PPS will collect data electronically from all participating providers on a quarterly basis in regards to the training provided, new hires, staff redeployment, and reassignment as well as un-met needs. AMCH will utilize project management software for this purpose. Training accomplishments including pre and post test training evaluations will be captured either from SAKAI (AMCH's online training portal) or our workforce training vendor. Additional documentation of adopted workforce strategies and operations will be provided from meeting minutes and other sources that demonstrate the PAC Executive Committee review and approval process. Success of the organizational work stream will be measured by the total number of workers that receive training or re-training. Additionally we will monitor employment levels and net-new workers added to the workforce. Specific gaps that are identified in the project plan will be monitored and success will be based on the progress in closing those gaps.

✔ IPQR Module 11.11 - Workforce Strategy Spending (Quarterly):

Instructions :

Please include details on workforce spending. The workforce spending actuals should reflect only what was spent during the relevant quarters and is not cumulative across semi-annual periods. The PPS can shift funding across categories; e.g., from Retraining to New Hires. Please note that the "Cumulative Percent of Commitments Expended through Current DSRIP Year" section is calculated based on the total yearly commitments.

DSRIP Implementation Plan Project**

Better Health for Northeast New York (PPS ID:1)

Project 2.a.i – Create Integrated Delivery Systems that are focused on Evidence-Based Medicine / Population Health Management

✓ IPQR Module 2.a.i.1 - Major Risks to Implementation and Mitigation Strategies

Instructions :

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

The primary risk for clinical integration will be lack of participation from practitioners and leaders of healthcare organizations. Based on the CNA, care is neither integrated nor coordinated among the PPS service area. The absence of EHR Connectivity results in patients with co-morbidities who see several providers who may not routinely coordinate care with one another. Data sharing age restrictions will be a challenge for organizations serving pediatrics. P4P and VBP have not yet had a significant impact on the region, with less than 10% of the current payer contracts requiring risk sharing arrangements. Further challenges include: ineffective patient engagement/behavioral modification, the need for additional payer guidance, non-reimbursable costs of some services, costs of implementation, lack of data from private payers, OPWDD regulatory restrictions, lack of managed care services for the developmentally disabled, and the current shortage of BH providers. Integration of care delivery will require the differences in licensure, billing and compliance issues between article 28 & 31 providers to be minimized. Gaps in infrastructure/technology that prevent communication and care plan development between organizations will be a risk; only 40% of our partners are connected to HIXNY and only 1 in 5 participating PCP practices are NCQA PCMH Level 3 certified. The sheer volume of need for individuals, the workforce licensure, skill-set and the siloed nature of many CBOs will be a challenge to overcome. To mitigate these risks, we will:

- Facilitate ongoing collaboration between the TDMC, CQAC and provider stakeholders to ensure development of a sustainable, affordable and realistic plans for regional connectivity by building upon existing platforms to develop short-term solutions that will evolve to long-term sustainable technology interfaces.
- Provide seamless care for patients by increasing healthcare capacity through partnerships across all provider types, new access points and redeploying existing resources and workforce.
- Employ tele-health options and other emerging technologies to increase access in identified HPSAs.
- Assess VBP readiness of our partners to establish baseline data and ensure partners are prepared to align provider compensation to patient outcomes. AMCH PPS will incorporate risk based arrangements in contracts across the PPS to incentivize providers.
- Assist partners in developing population health strategies through the use of data analytics and risk stratification.
- Utilize current/future partners that have experience to develop risk based arrangements & population health management including care management and coordination.
- Draw on expertise of HH partners to help support integration strategies.
- Conduct monthly meetings with MCOs to discuss utilization issues, performance and payment reform.
- Engage patients through CBOs, peers, health workers, etc. to become partners and modify behavior to improve access and quality of care.
- Assess the PCP partners' readiness to certify as a level 3 PCMH through a team of experts who will coach, support and incentivize the PCPs through the process of obtaining this recognition.
- DSRIP training/education team will provide resources and materials to organizations that will improve understanding, collaboration, IDS and patient engagement. Materials will be developed as needed for patient compliance and distributed after review and approval by the CCHLC. Our workforce training vendor will provide training/resources for the current workforce to ensure there is a level of comfort with any additional

DSRIP Implementation Plan Project

Better Health for Northeast New York (PPS ID:1)

responsibilities.

- Develop, implement, and monitor clinical care guidelines to improve and standardize clinical integration across the network.
- Drive clinical integration through the alignment of incentives for participating providers.

✅ IPQR Module 2.a.i.2 - Prescribed Milestones

Instructions :

Please provide updates to baseline reporting on status, target dates, and work breakdown tasks for prescribed milestones. For milestones that are due and completed within the reporting period, documentation is required to provide evidence of project requirement achievement. Any explanations regarding altered or missed provider commitments should be included within the narrative box, not as text within uploaded documentation.

Project Requirements (Milestone/Task Name)	Prescribed Due Date	Reporting Level	Provider Type	Status	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
Milestone #1 All PPS providers must be included in the Integrated Delivery System. The IDS should include all medical, behavioral, post-acute, long-term care, and community-based service providers within the PPS network; additionally, the IDS structure must include payers and social service organizations, as necessary to support its strategy.	DY2 Q2	Project	N/A	Completed	09/15/2015	09/30/2016	09/15/2015	09/30/2016	09/30/2016	DY2 Q2
Task PPS includes continuum of providers in IDS, including medical, behavioral health, post-acute, long-term care, and community-based providers.		Project		Completed	09/15/2015	12/31/2015	09/15/2015	12/31/2015	12/31/2015	DY1 Q3
Task M1:1. AMCH PMO will analyze the services offered within the PPS provider network to identify medical, behavioral health, post acute, long term care, community based, health home providers and health homes with whom the PPS can collaborate with to ensure a full continuum of care.		Project		Completed	10/12/2015	12/31/2015	10/12/2015	12/31/2015	12/31/2015	DY1 Q3
Task M1:2. AMCH PMO will engage participating providers by conducting regional stakeholder meetings, as needed, to encourage provider buy-in and collaboration for IDS implementation. In addition, the AMCH PMO will seek additional service providers, as needed, to address gaps identified from the analysis conducted in the previous step.		Project		Completed	10/26/2015	12/31/2015	10/26/2015	12/31/2015	12/31/2015	DY1 Q3
Task M1:3. AMCH PMO will meet with participating partners, including health homes, to establish clear expectations regarding: performance indicators, utilization, quality metrics and payment reform, methodologies to incentivize behavior, implementation plan milestones, and allocation/sharing of existing resources within the PPS.		Project		Completed	02/16/2016	06/30/2016	02/16/2016	06/30/2016	06/30/2016	DY2 Q1
Task M1:4. AMCH PMO will meet with payers and social service agencies, as necessary, and enter into working relationships		Project		Completed	02/01/2016	06/30/2016	02/01/2016	06/30/2016	06/30/2016	DY2 Q1

Prescribed Milestones Narrative Text

Milestone Name	Narrative Text
All PPS providers must be included in the Integrated Delivery System. The IDS should include all medical, behavioral, post-acute, long-term care, and community-based service providers within the PPS network; additionally, the IDS structure must include payers and social service organizations, as necessary to support its strategy.	
Utilize partnering HH and ACO population health management systems and capabilities to implement the PPS' strategy towards evolving into an IDS.	
Ensure patients receive appropriate health care and community support, including medical and behavioral health, post-acute care, long term care and public health services.

Prescribed Milestones Narrative Text

Milestone Name	Narrative Text
Ensure that all PPS safety net providers are actively sharing EHR systems with local health information exchange/RHIO/SHIN-NY and sharing health information among clinical partners, including directed exchange (secure messaging), alerts and patient record look up, by the end of Demonstration Year (DY) 3.	
Ensure that EHR systems used by participating safety net providers meet Meaningful Use and PCMH Level 3 standards and/or APCM by the end of Demonstration Year 3.	
Perform population health management by actively using EHRs and other IT platforms, including use of targeted patient registries, for all participating safety net providers.	
Achieve 2014 Level 3 PCMH primary care certification and/or meet state-determined criteria for Advanced Primary Care Models for all eligible participating PCPs, expand access to primary care providers, and meet EHR Meaningful Use standards by the end of DY 3.	
Establish monthly meetings with Medicaid MCOs to discuss utilization trends, performance issues, and payment reform.	
Re-enforce the transition towards value-based payment reform by aligning provider compensation to patient outcomes.	
Engage patients in the integrated delivery system through outreach and navigation activities, leveraging community health workers, peers, and culturally competent community-based organizations, as appropriate.

Project 2.a.iii – Health Home At-Risk Intervention Program: Proactive management of higher risk patients not currently eligible for Health Homes through access to high quality primary care and support services

✓ IPQR Module 2.a.iii.1 - Major Risks to Implementation and Mitigation Strategies

Instructions :

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

A risk associated with the health home at-risk intervention project is a lack of health homes within our PPS network. We intend to mitigate this risk by working collaboratively with the many health home service providers that are part of our network, as well as collaborating closely with neighboring PPSs to meet the needs of our attributed patients.

A more concrete risk to this project is the delays associated with patient identification and risk stratification. Significant data will be needed from the state which remains behind schedule. Additionally, the state is still in the process of conducting the OPT OUT process. This process further delays the ability of our PPS to communicate patient lists generated from state provided data. We will mitigate this by working collaboratively to develop risk stratification and patient identification strategies that do not rely on the data coming from the Department of Health.

Another risk is lack of engagement by practitioners and leaders of the participating providers. Currently most healthcare practitioners and health systems function as silos and have not changed their systems due to current payment systems, or market share dominance. Without their active participation in our efforts to redesign the delivery system, we will face substantial hurdles in implementing project 2.a.iii effectively.

Strong linkages to Level 3 PCMH primary care sites are essential to the success of this project. Inability of the primary care practices to achieve this recognition will create additional hurdles. The current culture among practitioners is a barrier to integration of physical and behavioral health care services. The current lack of integration compromises the care of individuals with comorbid behavioral health and chronic medical conditions. A lack of sufficient care coordination services is also a risk. Failure to create a functional centralized triage system with effective care coordination will put this project at risk.

To mitigate this risk, we will:

- Create teams, led by practicing clinician stakeholders that will develop protocols and clinical pathways using evidence-based standards of care and monitoring of clinical performance.
- With a dedicated team of experts, AMCH PPS will coach and support other primary care practitioners to achieve Level 3 PCMH.
- Provide training and lead a cultural shift across organizational boundaries to create a more collaborative, patient centered approach.
- Assist our partners with the transition towards value-based payments and away from traditional FFS models.
- Create a centralized triage function in connection with our expanded Care Management capabilities. We intend to also expand our PPSs capacity for care management.

Another risk to the successful implementation of this project is the reliance on new IT and communications infrastructure, which is needed to support communication between practitioners and organizations. The IT and data sharing survey that we carried out prior to our DSRIP application revealed that the partners within our PPS are at differing levels of IT capabilities and are on differing platforms, creating risks to integration. Existing IT infrastructure is inadequate to support a region-wide interoperable system, and a comprehensive patient registry. Rolling out new tools for data sharing while trying to establish new lines of communication to coordinate care will be a complex challenge. To mitigate this risk, we will collaborate with HIT vendors as well as participating providers to redesign and implement clinical IT and data sharing systems.

✔ IPQR Module 2.a.iii.2 - Patient Engagement Speed

Instructions :

Enter the number of patients actively engaged through the current quarter. The number entered into the "Quarterly Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for Q4 should include patients previously reported in Q3 plus new patients engaged in Q4. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

Benchmarks	
Actively Engaged Speed	Actively Engaged Scale
DY2,Q4	15,836

	Year,Quarter	DY3,Q1	DY3,Q2	DY3,Q3	DY3,Q4

Milestone Name	Narrative Text
Develop a Health Home At-Risk Intervention Program, utilizing participating HHS as well as PCMH/APC PCPs in care coordination within the program.	
Ensure all eligible primary care providers participating in the project meet NCQA (2011) accredited Patient Centered Medical Home, Level 3 standards and will achieve NCQA 2014 Level 3 PCMH and Advanced Primary Care accreditation by Demonstration Year (DY) 3.	
Ensure that all participating safety net providers are actively sharing EHR systems with local health information exchange/RHIO/SHIN-NY and sharing health information among clinical partners, including direct exchange (secure messaging), alerts and patient record look up.	
Ensure that EHR systems used by participating safety net providers meet Meaningful Use and PCMH Level 3 standards and/or APCM.	
Perform population health management by actively using EHRs and other IT platforms, including use of targeted patient registries, for all participating safety net providers.	
Develop a comprehensive care management plan for each patient to engage him/her in care and to reduce patient risk factors.	
Establish partnerships between primary care providers and the local Health Home for care management services. This plan should clearly delineate roles and responsibilities for both parties.	
Establish partnerships between the primary care providers, in concert with the Health Home, with network resources for needed services. Where necessary, the provider will work with local government units

Project 2.a.v – Create a medical village/alternative housing using existing nursing home infrastructure

✔ IPQR Module 2.a.v.1 - Major Risks to Implementation and Mitigation Strategies

Instructions :

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

<p>Risks</p> <ul style="list-style-type: none">•Lack of capital funding may affect the participating SNFs ability to successfully restructure their current operating model.•Lack of engagement by a sufficient number of providers.•Staffing and corresponding workers may need retraining to accommodate the transformation of the facility. Workforce limitations associated with salaries and training will be a challenge.•Since the AMCH PPS catchment area represents a diverse population, some identified hot spot areas may not align with the needs of this project initiative.•The proper waivers to implement this project may not be approved in time to meet the AMCH PPS speed and scale requirements.•Updated provider type and safety net designation may be unavailable prior to the submission. This may not represent the provider data accurately which will affect the speed and scale deliverables.•Lack of IT infrastructure, EHR utilization, and proper data security protocols within the identified partnering SNFs will impede the success of this project.•Completing and submitting an approved Certificate of Need (CON) to the NYSDOH is a timely process that may cause delays in the overall project implementation. <p>Mitigation Strategies</p> <ul style="list-style-type: none">•AMCH PMO will structure funds flow to encourage organizational/provider buy-in as well as timely submission of all required documentation. (CONs) (1a/b/h).•DSRIP training and education teams in collaboration with our workforce training vendor (TBD) will provide resources, materials, and training to assist the staff to ensure they are comfortable with the potential shift in roles and responsibilities (1c).•AMCH PMO will analyze existing data, as well as identified hot spots in the CNA to determine which partnering facilities may have excess bed capacity and willing to participate in this project (1d).•AMCH PMO will review existing waivers and identify ones that are needed to ensure that the proper applications are in place in order to effectively implement 2av (1e).•AMCH PMO will work closely with KPMG and PCG to ensure that proper categorization of the providers and organizations attributed to the PPS network will be available and updated on a regular basis (1f).•Enhanced EHR capabilities will be important for the success of this project. AMCH PPS will ensure that constant communication and additional data resources will be accessible by all partnering providers engaged in 2av. MAPP Tool functionality, Salient Data and other information provided by the NYSDOH will be imperative (1g).

✔ IPQR Module 2.a.v.2 - Patient Engagement Speed

Instructions :

Enter the number of patients actively engaged through the current quarter. The number entered into the "Quarterly Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for Q4 should include patients previously reported in Q3 plus new patients engaged in Q4. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

Benchmarks	
Actively Engaged Speed	Actively Engaged Scale
DY3,Q4	680

	Year,Quarter	DY3,Q1	DY3,Q2	DY3,Q3	DY3,Q4
PPS Reported	Baseline Commitment	320	450	600	680
	Quarterly Update	0	0	0	0
	Percent(%) of Commitment	0.00%	0.00%	0.00%	0.00%
IA Approved	Quarterly Update	0	0	0	0
	Percent(%) of Commitment	0.00%	0.00%	0.00%	0.00%

⚠ Warning: PPS Reported - Please note that your patients engaged to date (0) does not meet your committed amount (600) for 'DY3,Q3'

partnering SNFs to establish contract deliverables, funding, timeframes, and additional service coordination needs.										
Task M1:6. AMCH PMO will execute implementation plan by working with partnering SNFs to complete CONs to decertify beds and re-use freed up space to create either a medical village construct with interdisciplinary care delivery, or alternative housing depending on the details of the scope of services.		Project		On Hold	04/01/2015	03/31/2020	04/01/2015	03/31/2020	03/31/2020	DY5 Q4
Milestone #2 Provide a clear statement of how the infrastructure transformation program will promote better service and outcomes (service volume, occupancy statistics, etc.) for the community based upon the community needs assessment including, evaluation of specific planning needs for any Naturally Occurring Retirement Community (NORC) occurring within the PPS.	DY2 Q4	Project	N/A	Completed	03/28/2016	03/31/2017	03/28/2016	03/31/2017	03/31/2017	DY2 Q4
Task PPS has completed evaluation of community needs, including planning needs for NORCs, and has developed goals to provide improved access to needed services.		Project		Completed	03/28/2016	03/31/2017	03/28/2016	03/31/2017	03/31/2017	DY2 Q4
Task M1:1. AMCH PMO will analyze the Community Needs Assessment along with each SNFs current operating model, ED utilization patterns, and associated costs in order to address the need and the potential creation of NORC. C.N.A Data: (pg. 45-46, 181, 183,185)		Project		Completed	03/28/2016	06/30/2016	03/28/2016	06/30/2016	06/30/2016	DY2 Q1
Task M1:2. After evaluating the current state of each SNF, AMCH PMO will determine what services can be provided for each Medical Village/Alternative Housing based on needs, availability and willingness of providers, as well as space availability.		Project		Completed	03/28/2016	06/30/2016	03/28/2016	06/30/2016	06/30/2016	DY2 Q1
Task M1:3. Based on the prior steps, AMCH PMO will create and provide an implementation plan to outline an infrastructural transformation program that will promote better service and outcomes for the community.		Project		Completed	01/01/2017	03/31/2017	01/01/2017	03/31/2017	03/31/2017	DY2 Q4
Task M1:4. AMCH PMO will execute implementation plan by working with partnering SNFs to complete infrastructural transformation programs.		Project		On Hold	04/01/2015	03/31/2020	04/01/2015	03/31/2020	03/31/2020	DY5 Q4

Prescribed Milestones Narrative Text

Milestone Name	Narrative Text
Transform outdated (underperforming) nursing home capacity into a stand-alone emergency department/urgent care center or other healthcare-related purpose.	
Provide a clear statement of how the infrastructure transformation program will promote better service and outcomes (service volume, occupancy statistics, etc.) for the community based upon the community needs assessment including, evaluation of specific planning needs for any Naturally Occurring Retirement Community (NORC) occurring within the PPS.	
Provide a clear description of how this re-configured facility will fit into a broader integrated delivery system that is committed to high quality care and willing/able to participate in payment reform.	
Provide clear documentation that demonstrates housing plans are consistent with the Olmstead Decision and any other federal requirements.	
Identify specific community-based services that will be developed in lieu of these beds based upon the community need.	
Use EHRs and other technical platforms to track all patients engaged in the project.	
Ensure that all eligible participating PCPs meet NCQA 2014 Level 3 PCMH accreditation and/or meet state-determined criteria for Advanced Primary Care Models by the end of DSRIP Year 3.	
Ensure that all safety net providers participating in medical villages are actively sharing EHR systems with local health information exchange/RHIO/SHIN-NY and sharing health information among clinical partners, including direct exchange (secure messaging), alerts and

Project 2.b.iii – ED care triage for at-risk populations

✓ IPQR Module 2.b.iii.1 - Major Risks to Implementation and Mitigation Strategies

Instructions :

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

The primary risk for 2.b.iii relates to practitioner engagement. Currently most healthcare practitioners and health systems function as silos due to the current fee-for-service payment system. Without their active participation in our efforts to redesign the delivery of care management services system-wide, we will face substantial hurdles in implementing the steps necessary to achieve this project's milestones. Strong linkages to Level 3 PCMH primary care sites are essential to the success of this project. The inability of primary care practices to achieve this recognition will create additional challenges. Currently, there is a barrier to integration of physical and behavioral health care services which compromises the care of individuals with mental health and chemical dependency disorders and chronic medical conditions. To mitigate this risk, we will:

- The CQAC in collaboration with the PMO will create teams, led by practicing clinician stakeholders, to develop clear lines of accountability and communication between relevant groups, and the development of clinical pathways using evidence-based standards of care and monitoring of clinical performance.
- With a dedicated team of experts, AMCH PMO will coach and support other primary care practitioners through the process of obtaining recognition as a Level 3 PCMH.
- Provide training and encourage a cultural shift across organizational boundaries to create a more collaborative, patient-centered approach whereby primary care practitioners are more attentive to behavioral health disorders.
- Assist our partners with the transition towards value based payments and away from traditional payment models.

A second risk to the successful implementation of this project is the reliance on IT infrastructure that is needed to support communication and data sharing between practitioners and organizations. The IT and data sharing survey conducted in November 2014 revealed that the partners within our PPS are at differing levels of IT capabilities and are on differing platforms, creating risks to integration. The current lack of infrastructure and capital and operating funding to support telemedicine, interoperability, real time connectivity, alerts and secure messaging limits successful implementation. Existing IT infrastructure is inadequate to support a region-wide interoperable system, and a comprehensive patient registry. Rolling out new tools for data sharing while trying to establish new lines of communication to coordinate care will be a complex challenge. To mitigate this risk, we will:

- Involve practitioners from our participating partners in the redesign and implementation of clinical IT and data sharing systems.
- Integrate a member of the AMCH Technology and Data Management Committee into the team to develop our clinical integration strategy.□

✔ IPQR Module 2.b.iii.2 - Patient Engagement Speed

Instructions :

Enter the number of patients actively engaged through the current quarter. The number entered into the "Quarterly Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for Q4 should include patients previously reported in Q3 plus new patients engaged in Q4. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

Benchmarks	
Actively Engaged Speed	Actively Engaged Scale
DY2,Q4	3,534

	Year,Quarter	DY3,Q1	DY3,Q2	DY3,Q3	DY3,Q4
PPS Reported	Baseline Commitment	2,120	2,474	2,652	3,534
	Quarterly Update	0	623	0	0

Prescribed Milestones Narrative Text

Milestone Name	Narrative Text
Establish ED care triage program for at-risk populations	
Participating EDs will establish partnerships to community primary care providers with an emphasis on those that are PCMHs and have open access scheduling. a. Achieve NCQA 2014 Level 3 Medical Home standards or NYS Advanced Primary Care Model standards by the end of DSRIP Year 3. b. Develop process and procedures to establish connectivity between the emergency department and community primary care providers. c. Ensure real time notification to a Health Home care manager as applicable	
For patients presenting with minor illnesses who do not have a primary care provider: a. Patient navigators will assist the presenting patient to receive an immediate appointment with a primary care provider, after required medical screening examination, to validate a non-emergency need. b. Patient navigator will assist the patient with identifying and accessing needed community support resources. c. Patient navigator will assist the member in receiving a timely appointment with that provider's office (for patients with a primary care provider).	
Established protocols allowing ED and first responders - under supervision of the ED practitioners - to transport patients with non-acute disorders to alternate care sites including the PCMH to receive more appropriate level of care. (This requirement is optional.)	
Use EHRs and other technical platforms to track all patients engaged in the project.

Delivery System Reform Incentive Payment Project
DSRIP Implementation Plan Project**

Better Health for Northeast New York (PPS ID:1)

Project 2.d.i – Implementation of Patient Activation Activities to Engage, Educate and Integrate the uninsured and low/non-utilizing Medicaid populations into Community Based Care

✓ IPQR Module 2.d.i.1 - Major Risks to Implementation and Mitigation Strategies

Instructions :

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

The 2.d.i project will face at least four challenges during implementation. The most significant risks focus on: 1) lack of community/patient engagement, 2) relevant real-time claims data 3) shortage of Patient Activation Measure (PAM) trained staff and 4) secure IT data sharing and communication.

Lack of patient engagement will make it difficult for individuals to take an active role in planning their own care. A lack of patient engagement may be due to language barriers, understanding medical conditions, cultural differences, age, gender, sexual orientation and socioeconomic status. This leads to disparities in care and disparate outcomes. Individuals who are not engaged in care may be harder to identify because there are no relevant claims data, or medical records that provide linkages to connect and engage them. In order to effectively track patient activation levels of the LU, NU and UI, relevant real time claims data is a necessity. A third risk when implementing 2.d.i, is a shortage of trained staff to conduct the PAM. The data captured by the PAM will be used for tracking and reporting in order to assist CBO's and others as they engage their clients. Providing training over the five-county area will be an intensive undertaking for the PMO. Another risk we face is this project's reliance on IT Infrastructure which is needed to support communication data collection and reporting. Many CBOs lack IT infrastructure including secure messaging, data storage, interoperability, and RHIO connectivity. This poses a risk in their abilities to manage data, and meet project deliverables.

However, with the aforementioned challenges, and others which are unforeseen, the PMO has established a plan for risk mitigation. To mitigate these risks, the PMO will:

- Collaborate with CBO partners to encourage patient engagement, participation, and use their leverage to community resources to reconnect beneficiaries to designated PCPs through the use of Patient Navigators and Community Navigators.
- Collaborate with CBO partners to identify hot spots for outreach and health navigation activities in key communities especially in underserved locations.
- Strategically place trained navigators at hot spots and ensure they have appropriate resources and materials to facilitate education related to health insurance coverage, age-appropriate primary and preventive healthcare services and resources.
- Collaborate with peer educators and other stakeholders, including consumers, to identify ways to build trust among target populations.
- Work with impacted sites and organizations to assist with training and technical support needed to ensure data is collected, entered and reported correctly.
- Utilize claims data to help identify hot spot areas of the LU, NU, and UI populations.
- Partner with MCOs to discuss data sharing and best practices for reconnecting beneficiaries to designated PCPs.
- Establish a PPS-wide team and train them in PAM. Utilization of the Train-the-Trainer method will allow for representatives from partnering organizations deliver the training and increase the number of PAM Trainers PPS-wide.
- Provide training to all necessary staff in cultural competency, health literacy, data documentation and reporting.
- Assist participating partners with IT infrastructure issues by pursuing step-wise strategies including manual data collection thru RHIO connectivity.

✔ IPQR Module 2.d.i.2 - Patient Engagement Speed

Instructions :

Enter the number of patients actively engaged through the current quarter. The number entered into the "Quarterly Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for Q4 should include patients previously reported in Q3 plus new patients engaged in Q4. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

Benchmarks	
Actively Engaged Speed	Actively Engaged Scale
DY3,Q4	22,667

	Year,Quarter	DY3,Q1	DY3,Q2	DY3,Q3	DY3,Q4

Baseline each beneficiary cohort (per method developed by state) to appropriately identify cohorts using PAM(R) during the first year of the project and again, at set intervals. Baselines, as well as intervals towards improvement, must be set for each cohort at the beginning of each performance period.										
Task For each PAM(R) activation level, baseline and set intervals toward improvement determined at the beginning of each performance period (defined by the state).		Project		In Progress	07/16/2015	03/31/2018	07/16/2015	03/31/2018	03/31/2018	DY3 Q4
Task M1:1. AMCH PMO, in collaboration with the three overlapping PPSs in the region, will provide a "Train-the-Trainer" PAM workshop.		Project		Completed	07/16/2015	12/31/2015	07/16/2015	12/31/2015	12/31/2015	DY1 Q3
Task M1:2. Per the method developed by the state, the AMCH PMO will establish baseline cohort data of PAM activation levels.		Project		In Progress	04/01/2016	03/31/2018	04/01/2016	03/31/2018	03/31/2018	DY3 Q4
Task M1:3. AMCH PMO will utilize data from PAM to develop strategies for patient engagement and re-engagement, utilizing participating CBOs and providers. These strategies will include designated intervals for reassessment, and will facilitate the tracking of improvement for each cohort.		Project		In Progress	04/01/2016	03/31/2018	04/01/2016	03/31/2018	03/31/2018	DY3 Q4
Task M1:4. Data will be shared, at an aggregate level, across the PPS via dashboards and other means to facilitate tracking of patient activation score improvement.		Project		In Progress	04/01/2016	03/31/2018	04/01/2016	03/31/2018	03/31/2018	DY3 Q4
Milestone #8 Include beneficiaries in development team to promote preventive care.	DY2 Q4	Project	N/A	Completed	03/02/2016	03/31/2017	03/02/2016	03/31/2017	03/31/2017	DY2 Q4
Task Beneficiaries are utilized as a resource in program development and awareness efforts of preventive care services.		Project		Completed	03/02/2016	03/31/2017	03/02/2016	03/31/2017	03/31/2017	DY2 Q4
Task M1:1. AMCH PMO will identify eligible beneficiaries to participate in consumer interviews, focus groups, community forums, work groups, committees, and/or engagement activities to ensure sufficient input from consumers in the design of preventive care services across the PPS. These activities will be done in collaboration with the CCAC and the CQAC. Consumer feedback will be used across the PPS to make necessary modifications and other changes to the project implementation plan.		Project		Completed	03/02/2016	03/31/2017	03/02/2016	03/31/2017	03/31/2017	DY2 Q4

Contract or partner with community-based organizations (CBOs) to engage target populations using PAM(R) and other patient activation techniques. The PPS must provide oversight and ensure that engagement is sufficient and appropriate.	
Establish a PPS-wide training team, comprised of members with training in PAM(R) and expertise in patient activation and engagement.	
Identify UI, NU, and LU "hot spot" areas (e.g., emergency rooms). Contract or partner with CBOs to perform outreach within the identified "hot spot" areas.	
Survey the targeted population about healthcare needs in the PPS' region.	
Train providers located within "hot spots" on patient activation techniques, such as shared decision-making, measurements of health literacy, and cultural competency.	
Obtain list of PCPs assigned to NU and LU enrollees from MCOs. Along with the member's MCO and assigned PCP, reconnect beneficiaries to his/her designated PCP (see outcome measurements in #10). <ul style="list-style-type: none"> • This patient activation project should not be used as a mechanism to inappropriately move members to different health plans and PCPs, but rather, shall focus on establishing connectivity to resources already available to the member. • Work with respective MCOs and PCPs to ensure proactive outreach to beneficiaries. Sufficient information must be provided regarding insurance coverage, language resources, and availability of primary and preventive care services. The state must review and approve any educational materials, which must comply with state marketing guidelines and federal regulations as outlined in 42 CFR §438.104. 	
Baseline each beneficiary cohort (per method developed by state) to appropriately identify cohorts using PAM(R) during the first year of the project and again, at set intervals. Baselines, as well as intervals towards improvement, must be set for each cohort at the beginning of each performance period.	
Include beneficiaries in development team to promote preventive care.

DSRIP Implementation Plan Project

Better Health for Northeast New York (PPS ID:1)

Prescribed Milestones Narrative Text

Milestone Name	Narrative Text
Measure PAM(R) components, including: <ul style="list-style-type: none"> • Screen patient status (UI, NU and LU) and collect contact information when he/she visits the PPS designated facility or "hot spot" area for health service. • If the beneficiary is UI, does not have a registered PCP, or is attributed to a PCP in the PPS' network, assess patient using PAM(R) survey and designate a PAM(R) score. • Individual member's score must be averaged to calculate a baseline measure for that year's cohort. • The cohort must be followed for the entirety of the DSRIP program. • On an annual basis, assess individual members' and each cohort's level of engagement, with the goal of moving beneficiaries to a higher level of activation. <ul style="list-style-type: none"> • If the beneficiary is deemed to be LU & NU but has a designated PCP who is not part of the PPS' network, counsel the beneficiary on better utilizing his/her existing healthcare benefits, while also encouraging the beneficiary to reconnect with his/her designated PCP. • The PPS will NOT be responsible for assessing the patient via PAM(R) survey. • PPS will be responsible for providing the most current contact information to the beneficiary's MCO for outreach purposes. • Provide member engagement lists to relevant insurance companies (for NU & LU populations) on a monthly basis, as well as to DOH on a quarterly basis. 	
Increase the volume of non-emergent (primary, behavioral, dental) care provided to UI, NU, and LU persons.	
Contract or partner with CBOs to develop a group of community navigators who are trained in connectivity to healthcare coverage, community healthcare resources (including for primary and preventive services) and patient education.	
Develop a process for Medicaid recipients and project participants to report complaints and receive customer service.	
Train community navigators in patient activation and education, including how to appropriately assist project beneficiaries using the PAM(R).	
Ensure direct hand-offs to navigators who are prominently placed at "hot spots," partnered CBOs, emergency departments, or community events, so as to facilitate education regarding health insurance coverage, age-appropriate primary and preventive healthcare services and resources.

Prescribed Milestones Narrative Text

Milestone Name	Narrative Text
Inform and educate navigators about insurance options and healthcare resources available to UI, NU, and LU populations.	
Ensure appropriate and timely access for navigators when attempting to establish primary and preventive services for a community member.	
Perform population health management by actively using EHRs and other IT platforms, including use of targeted patient registries, to track all patients engaged in the project.

PAM data P4P	
CG-CAHPS Uninsured	BHNNY CG-CAHPS for uninsured patients have been uploaded. Please note, the completion date may indicate the date of data entry and does not indicate the date of survey completion.
CG-CAHPS Uninsured REMEDIATION	<p>BHNNY is resubmitting data for 2.d.i CG CAHPS for the Uninsured for DY3Q3. Concerns were expressed during remediation processes related to missing data. In the initial DY3Q3 submittal, all PPS partner responses were submitted, regardless of any missing data in the partners' CG CAHPS.</p> <p>* The original guidance to PPS partners included the following: report CG-CAHPS surveys completed for Medicaid and uninsured patients who received a primary care or preventative care visit in the organization's office in the past six months. Provide at least three consecutive, complete months of patient experience data between January 2017 to September 2017 to develop baseline. The guidance further explains the required questions for reporting to be: Q6, Q8, Q10, Q11, Q12, Q14, Q15, Q21, Q22, Q18 (page 2)</p> <p>Attached here are the 43 CG CAHPS that had the most complete sets of responses (i.e., the least number of blank survey items).</p>

Project 3.a.i – Integration of primary care and behavioral health services

✓ IPQR Module 3.a.i.1 - Major Risks to Implementation and Mitigation Strategies

Instructions :

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

Risks for this project fall into three categories: logistical, financial/regulatory and organizational. The logistical risk relates to resource availability, including availability of clinical, counseling and office space, equipment, pharmacy resources, staff, IT, and materials. This project is dependent on these logistical resources in ways that others are not. The financial/regulatory risk relates to the need to create contracts with MCO's, to support payment for services, such as SBIRT and BH screenings. Alternative payment models for integrated care must be created allowing for co-located models in a VBP setting. For model 1, relevant staff will complete OASAS approved SBIRT training. Article 28 clinics will secure waivers allowing psychotherapy services by licensed practitioners. For Model 2, Article 31 clinical service providers will be required to secure waivers allowing on-site preventive, evaluation and management services. Model 3's will have to contract with a psychiatrist(s) to reflect consultation services. Article 28 clinics, allow individual and group psychotherapy services by licensed mental health practitioners, including clinical social workers. Lastly, BH staff must meet regulations required to Depression CM's including training on assessment, engagement, psychoeducational, and brief psychotherapeutic modalities as part of IMPACT. The third risk relates to organizational challenges. Changes to EHRs, new relationships and risks are inevitable for all models. Model 1 organizations will execute collaborative agreements with at least one outpatient specialty MH and outpatient SU treatment to extend services beyond on-site scope. Agreements will include access to care standards for referred patients, follow-up report standards, etc. Model 2 organizations will develop a collaborative agreement with specialty providers to address conditions beyond their on-site scope. EHR will expand in decision support and pathways of care; Model 1 will expand to consider positive screenings for BH conditions, Model 2 will expand to include positive screenings for physical health conditions. Also, consulting agreements will be executed between PCMH and a consulting psychiatrist to provide the clinical and supervisory services described in the model. Similar agreements will be made with outpatient specialty mental health providers. To mitigate these risks, the AMCH PMO and PPS will: The Clinical Quality Affairs Committee (CQAC) led by the DSRIP Medical Director will create process and procedures to integrate providers. Workforce training vendors will provide resources for additional or new responsibilities. Working collaboratively with local NP, PA, social work, and psych program schools, behavioral health (BH) intern opportunities will be encouraged with job opportunities. Client-facing staff in all models will complete training on the new basic health challenges. This will include implementation of U.S. Preventative Services Task Force recommended screenings into clinical policy. Model 3 risks are rooted in workflow changes and skill-set expansion. IMPACT combines a Care Manager (CM) and Consulting Psychiatrist to support the PCP, producing unique workflow risks. To prepare, providers will complete training on IMPACT and prescribing standards for basic psychotropic medications. Furthermore, relationships with the consulting psychiatrist will be established with primary care providers (PCP) to consult on complex cases. A similar relationship could be bridged with an Addiction Medicine specialist. Also, CM's and other staff must receive training on MDD symptomology, physiological effects, treatment options, self-management support, and Problem-Solving Treatment in PC. Eventually evidence-based protocols will be disseminated throughout organizations for universal screening of all patients with depression using PHQ-2.

Better Health for Northeast New York (PPS ID:1)

✔ IPQR Module 3.a.i.2 - Patient Engagement Speed

Instructions :

Enter the number of patients actively engaged through the current quarter. The number entered into the "Quarterly Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for Q4 should include patients previously reported in Q3 plus new patients engaged in Q4. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

Benchmarks	
Actively Engaged Speed	Actively Engaged Scale

Project 3.a.ii – Behavioral health community crisis stabilization services

✓ IPQR Module 3.a.ii.1 - Major Risks to Implementation and Mitigation Strategies

Instructions :

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

Lack of capital funding to expand physical capacity to observe patients for up to 48 hours will put this project at risk. Without funding to build, construct, or repurpose licensed beds, it will be a challenge for participating providers to be successful. Additional risks include funding for additional staff to observe patients in crisis for up to 48 hours, as well as the readiness of MCOs to reimburse for services provided. Implementation of a collaboratively developed VBP agreement, as well as a process for funds flow will help to mitigate these risks across the PPS and will ensure that funding will be provided for all crisis intervention program services.

The success of this project will depend largely on participating provider, hospital, first responder and community buy-in. Development of best practice protocols, diversion strategies, and the willingness of community EDs to engage is essential. This same challenge will exist with mobile crisis units, community agencies, and local police units who may feel it would be "safer" to send a patient to the ED. Establishing a behavioral health sub-committee with leadership from each participating agency, as well as providing education and training will help mitigate these risks. The CQAC will work with hospital and crisis programs to develop the protocols for diversion and identify the resources they will need. Communication and education will be available for first responders and community agencies on the benefits of the diversion protocol, as well as how to utilize these services.

Staffing, training and timely resources are crucial. Willingness to participate in shared decision-making among medical professionals and substance abuse treatment providers may also provide challenges. The workforce training vendor will provide appropriate training in an effort to ensure that all staff are comfortable with any additional responsibilities. The CQAC will ensure processes and procedures are in place for system integration among performing providers. This committee will work closely with providers to ensure they are adequately prepared and are aware of resources available to them.

The availability of timely and appropriate community resources for referrals will be imperative to the success of this project. Formal access and responsiveness agreements will be created with community based providers, and tele-health services will be available when immediate community resources are unavailable. AMCH PMO will work collaboratively with two local NP schools, one PA school, one social work school, and two psychiatric program schools, and will encourage their support.

IT challenges exist within this project. Success will be dependent on HIXNY's readiness for behavioral health consents and standardization within HIXNY across our network. Implementation of cross-PPS EHR capabilities, including excel transfer in lieu of MAPP functionality will help to bridge the IT gap in the short term. As the DSRIP year progresses, we will have better access through care coordination, direct messaging, and additional data through the MAPP tool and SHIN-NY. This plan will be largely based on functionality of the MAPP tool and the availability of data through Salient and other data sources provided by the state.

✔ IPQR Module 3.a.ii.2 - Patient Engagement Speed

Instructions :

Enter the number of patients actively engaged through the current quarter. The number entered into the "Quarterly Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for Q4 should include patients previously reported in Q3 plus new patients engaged in Q4. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

Benchmarks	
Actively Engaged Speed	Actively Engaged Scale
DY3,Q4	7,531

	Year,Quarter	DY3,Q1	DY3,Q2	DY3,Q3	DY3,Q4
PPS Reported	Baseline Commitment	4,707	5,648	6,589	7,531
	Quarterly Update	0	2,987	0	0
	Percent(%) of Commitment	0.00%	52.89%	0.00%	0.00%

Instructions :

Please provide updates to baseline reporting on status, target dates, and work breakdown tasks for prescribed milestones. For milestones that are due and completed within the reporting period, documentation is required to provide evidence of project requirement achievement. Any explanations regarding altered or missed provider commitments should be included within the narrative box, not as text within uploaded documentation.

Project Requirements (Milestone/Task Name)	Prescribed Due Date	Reporting Level	Provider Type	Status	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
Milestone #1 Implement a crisis intervention program that, at a minimum, includes outreach, mobile crisis, and intensive crisis services.	DY3 Q2	Project	N/A	Completed	10/05/2015	09/30/2017	10/05/2015	09/30/2017	09/30/2017	DY3 Q2
Task PPS has established a crisis intervention program that includes outreach, mobile crisis, and intensive crisis services.		Project		Completed	10/05/2015	09/30/2017	10/05/2015	09/30/2017	09/30/2017	DY3 Q2
Task M1:1. Establish an ad-hoc Behavioral Health (BH) Community Crisis Stabilization (BHCCS) workgroup under the auspices of BH sub-committee to oversee the development/enhancement of regionally-based behavioral health community crisis stabilization programs that include outreach, mobile crisis, and intensive crisis services.		Project		Completed	10/19/2015	09/30/2017	10/19/2015	09/30/2017	09/30/2017	DY3 Q2
Task M1:2. The ad-hoc workgroup will be the lead author of the community crisis stabilization plan. The plan will be reviewed and approved by the CQAC.		Project		Completed	11/09/2015	09/30/2017	11/09/2015	09/30/2017	09/30/2017	DY3 Q2
Task M1:3. Ensure participation of a broad spectrum of stakeholders in the planning process for crisis services in the community by engaging the CCAC, WCC, and CCHLC.		Project		Completed	10/05/2015	09/30/2017	10/05/2015	09/30/2017	09/30/2017	DY3 Q2
Task M1:4. Utilizing the CNA, assess the adequacy of the current community-based services available across the PPS region, including timely community crisis intervention for consumers in behavioral health crisis.		Project		Completed	11/09/2015	12/31/2015	11/09/2015	12/31/2015	12/31/2015	DY1 Q3
Task M1:5. Establish agreements with at least one hospital with specialty inpatient psychiatric services, one hospital with specialty detoxification services, key PPS hospital emergency departments, key PPS health home providers, key PPS outpatient mental health providers, key PPS outpatient substance use providers, and key PPS ambulatory detox providers (if available), to coordinate and provide services as defined by the		Project		Completed	10/05/2015	09/30/2017	10/05/2015	09/30/2017	09/30/2017	DY3 Q2

Prescribed Milestones Narrative Text

Milestone Name	Narrative Text
Implement a crisis intervention program that, at a minimum, includes outreach, mobile crisis, and intensive crisis services.	
Establish clear linkages with Health Homes, ER and hospital services to develop and implement protocols for diversion of patients from emergency room and inpatient services.	
Establish agreements with the Medicaid Managed Care organizations serving the affected population to provide coverage for the service array under this project.	
Develop written treatment protocols with consensus from participating providers and facilities.	
Include at least one hospital with specialty psychiatric services and crisis-oriented psychiatric services; expansion of access to specialty psychiatric and crisis-oriented services.	
Expand access to observation unit within hospital outpatient or at an off campus crisis residence for stabilization monitoring services (up to 48 hours).	
Deploy mobile crisis team(s) to provide crisis stabilization services using evidence-based protocols developed by medical staff.	
Ensure that all PPS safety net providers have actively connected EHR systems with local health information exchange/RHIO/SHIN-NY and share health information among clinical partners, including direct exchange (secure messaging), alerts and patient record look up by the end of Demonstration Year (DY) 3.	
Establish central triage service with agreements among participating psychiatrists, mental health, behavioral health, and substance abuse providers.	
Ensure quality committee is established for oversight and surveillance of compliance with protocols and quality of care.	
Use EHRs or other technical platforms to track all patients engaged in this project.

DSRIP Implementation Plan Project**

Better Health for Northeast New York (PPS ID:1)

Project 3.b.i – Evidence-based strategies for disease management in high risk/affected populations (adult only)

✓ IPQR Module 3.b.i.1 - Major Risks to Implementation and Mitigation Strategies

Instructions :

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

There are several risks to this project, including the creation of evidence-based guidelines for disease management and obtaining provider buy-in. Changing care protocols will require the identification of physician champions to lead the initiatives and a significant number of providers will be required to adopt the established protocols. Many of these new care protocols will require additional staffing and training, which will be a cost born upon the organization. PCP and CBO participation is essential to make this project successful. It will also be imperative to get organizations to agree to open-access blood pressure measurements. Achieving NCQA 2014 Level 3 PCMH standards within the speed and scale constraints is a risk because of delays in patient attribution, opt-out, and related data issues.

This project also requires patient cooperation, which will be difficult to achieve. Relying on individual patients to actively participate in their care and be personally responsible for blood pressure measurements and self-management goals will be difficult. Finally, the inconsistency in technology from provider-to-provider will have to be reduced. Technology includes home monitoring equipment, which will require a coordinated effort to deploy and utilize.

The identified risks above can be mitigated through incentives, education, engagement, and innovative technology. In order to obtain provider, organization, PCP and CBO buy-in, incentives will be provided for the use of established care protocols. Physician champions will be offered additional stipends as leaders within the PPS. With new care guidelines, unnecessary ER visits could be reduced, thus decreasing the expenses to the participating MCOs. Patients will have to be educated and trained on proper use of equipment including home monitoring equipment. Providers will have to be diligent in their efforts to keep patients engaged. Finally, incentives will be provided to organizations that upgrade/update their technologies to be more in line with their PPS partners. To address PCMH certification timeline requirements, the PMO will expedite the learning collaborative and provide technical assistance to locations needing help and guidance in the certification process.

✔ IPQR Module 3.b.i.2 - Patient Engagement Speed

Instructions :

Enter the number of patients actively engaged through the current quarter. The number entered into the "Quarterly Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for Q4 should include patients previously reported in Q3 plus new patients engaged in Q4. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

✅ IPQR Module 3.b.i.3 - Prescribed Milestones

Instructions :

Please provide updates to baseline reporting on status, target dates, and work breakdown tasks for prescribed milestones. For milestones that are due and completed within the reporting period, documentation is required to provide evidence of project requirement achievement. Any explanations regarding altered or missed provider commitments should be included within the narrative box, not as text within uploaded documentation.

Project Requirements (Milestone/Task Name)	Prescribed Due Date	Reporting Level	Provider Type	Status	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
Milestone #1 Implement program to improve management of cardiovascular disease using evidence-based strategies in the ambulatory and community care setting.	DY2 Q2	Project	N/A	Completed	09/07/2015	09/30/2016	09/07/2015	09/30/2016	09/30/2016	DY2 Q2
Task PPS has implemented program to improve management of cardiovascular disease using evidence-based strategies in the ambulatory and community care setting.		Project		Completed	09/07/2015	09/30/2016	09/07/2015	09/30/2016	09/30/2016	DY2 Q2
Task M1:1. Identify key stakeholders and participating provider organizations critical for successful project implementation.		Project		Completed	09/07/2015	09/30/2016	09/07/2015	09/30/2016	09/30/2016	DY2 Q2
Task M1:2. Create a PPS wide project sub-committee with representation from key stakeholders to oversee the project implementation.		Project		Completed	10/05/2015	09/30/2016	10/05/2015	09/30/2016	09/30/2016	DY2 Q2
Task M1:3. Survey key stakeholders to assess current use and adherence to guideline-concordant care, range of services provided, and referral mechanisms.		Project		Completed	10/05/2015	12/31/2015	10/05/2015	12/31/2015	12/31/2015	DY1 Q3
Task M1:4. Working in collaboration with the project sub-committee and clinical experts across PPS, develop a draft document defining the future state for the management of cardiovascular disease utilizing evidence-based strategies.		Project		Completed	10/05/2015	09/30/2016	10/05/2015	09/30/2016	09/30/2016	DY2 Q2
Task M1:5. Submit the draft future state document to Clinical and Quality Affairs committee for review and approval.		Project		Completed	11/23/2015	09/30/2016	11/23/2015	09/30/2016	09/30/2016	DY2 Q2
Task M1:6. Identify a participating provider organization located in a geographic area with high burden of cardiovascular disease across the PPS region and finalize agreements for piloting the new model.		Project		Completed	07/01/2016	09/30/2016	07/01/2016	09/30/2016	09/30/2016	DY2 Q2
Task M1:7. Complete a gap-analysis utilizing the current state		Project		On Hold	04/01/2015	03/31/2020	04/01/2015	03/31/2020	03/31/2020	DY5 Q4

**New York State Department Of Health

Project Requirements (Milestone/Task Name)	Prescribed Due Date	Reporting Level	Provider Type	Status	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
assessment and defined future state and, working in collaboration with the practice team, develop an action plan for the implementation of the new model.										
Task M1:8. Implement the approved action plan at the pilot participating provider site utilizing the PDSA approach.		Project		On Hold	04/01/2015	03/31/2020	04/01/2015	03/31/2020	03/31/2020	DY5 Q4
Task M1:9. Monitor ongoing performance, analyze clinical and operational outcomes and identify timelines/practice sites for spread of successful tests of change.		Project		Completed	07/01/2016	09/30/2016	07/01/2016	09/30/2016	09/30/2016	DY2 Q2
Task M1:10. Implement PPS-wide CVD management program based on successful PDSA identified in steps 6-9.		Project		Completed	07/01/2016	09/30/2016	07/01/2016	09/30/2016	09/30/2016	DY2 Q2
Milestone #2 Ensure that all PPS safety net providers are actively connected to EHR systems with local health information exchange/RHIO/SHIN-NY and share health information among clinical partners, including direct exchange (secure messaging), alerts and patient record look up, by the end of DY 3.	DY2 Q2	Project	N/A	Completed	06/01/2015	09/30/2016	06/01/2015	09/30/2016	09/30/2016	DY2 Q2
Task EHR meets connectivity to RHIO's HIE and SHIN-NY requirements.		Provider	<u>Safety Net Practitioner - Primary Care Provider (PCP)</u>	Completed	06/01/2015	09/30/2016	06/01/2015	09/30/2016	09/30/2016	DY2 Q2
Providers Associated with Completion: Manjunath Kallanna Md; Sheehan Rebecca; Stein Rhonda Danielle Md; Young Linda										
Task EHR meets connectivity to RHIO's HIE and SHIN-NY requirements.		Provider	<u>Safety Net Practitioner - Non-Primary Care Provider (PCP)</u>	Completed	06/01/2015	09/30/2016	06/01/2015	09/30/2016	09/30/2016	DY2 Q2
Providers Associated with Completion: Cavaliere Rosella Md; Guccione Angela Lee Md; Kang Harriet Md; Martin Mary Anne; Priest Michael Richard; Weinberg Gerard Md										
Task EHR meets connectivity to RHIO's HIE and SHIN-NY requirements.		Provider	<u>Safety Net Mental Health</u>	Completed	06/01/2015	09/30/2016	06/01/2015	09/30/2016	09/30/2016	DY2 Q2
Providers Associated with Completion: Albany Medical Ctr Hospital; Columbia Memorial Hospital; Dodd Jack Edward Jr; Priest Michael Richard; Rehabilitation Supp Svcs C; Scherer Harvey D										
Task PPS uses alerts and secure messaging functionality.		Project		Completed	06/01/2015	09/30/2016	06/01/2015	09/30/2016	09/30/2016	DY2 Q2
Task M1:1. Establish, under the auspices of the AMCH PPS		Project		Completed	10/05/2015	11/30/2015	10/05/2015	11/30/2015	12/31/2015	DY1 Q3

**New York State Department Of Health

Project Requirements (Milestone/Task Name)	Prescribed Due Date	Reporting Level	Provider Type	Status	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
Technology and Data Management Committee (TDMC), an ad-hoc project sub-committee to oversee the development and implementation of the action plan to assure PPS wide EHR connectivity to the SHIN-NY and HIEs. Ensure key representation from identified providers and partners on the project sub-committee.										
Task M1:2. Perform a current state assessment on the participating provider organizations' EHR systems' features and capabilities for connectivity to SHIN-NY and HIXNY.		Project		Completed	10/05/2015	11/30/2015	10/05/2015	11/30/2015	12/31/2015	DY1 Q3
Task M1:3. Work with participating providers, not currently using EHRs, to incentivize EHR adoption for patient care management.		Project		Completed	07/01/2016	09/30/2016	07/01/2016	09/30/2016	09/30/2016	DY2 Q2
Task M1:4. Develop and execute partner agreements and appropriate BAAs with participating providers who will utilize HIXNY and SHIN-NY for HIE connectivity and secure HIPPA compliant information sharing across PPS providers.		Project		Completed	10/05/2015	12/31/2015	10/05/2015	12/31/2015	12/31/2015	DY1 Q3
Task M1:5. Utilizing the IT-TOM pilot experience, design the PPS wide future state connectivity model.		Project		Completed	06/01/2015	03/31/2016	06/01/2015	03/31/2016	03/31/2016	DY1 Q4
Task M1:6. Complete a gap-analysis utilizing the current state assessment and defined future state, creating an implementation plan and a phased roll-out.		Project		Completed	02/12/2016	06/30/2016	02/12/2016	06/30/2016	06/30/2016	DY2 Q1
Task M1:7. Monitor progress on the ability to share health information among clinical partners, including direct exchange (secure messaging), alerts and patient record look-up, and support timely care management decisions.		Project		Completed	10/01/2015	09/30/2016	10/01/2015	09/30/2016	09/30/2016	DY2 Q2
Task M2:1. Perform a current state assessment on the interconnected systems' ability to send, receive and use alerts and secure messages to facilitate timely care coordination and management.		Project		Completed	10/05/2015	11/30/2015	10/05/2015	11/30/2015	12/31/2015	DY1 Q3
Task M2:2. Define the future state and select appropriate vendor for implementation of alerts and secure messaging functionality by clinicians and staff across the Integrated Delivery System for safe and effective care transitions between EDs, Hospitals, specialists and PCMH site.		Project		Completed	12/05/2015	09/30/2016	12/05/2015	09/30/2016	09/30/2016	DY2 Q2
Task		Project		Completed	02/12/2016	09/30/2016	02/12/2016	09/30/2016	09/30/2016	DY2 Q2

Better Health for Northeast New York (PPS ID:1)

Project Requirements (Milestone/Task Name)	Prescribed Due Date	Reporting Level	Provider Type	Status	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
M2:3: Conduct a gap analysis between current state and future state of using alerts and secure messaging functionalities for timely care coordination.										
Task M2:4. Implement training and secure messaging to support the use of alerts across the PPS.		Project		Completed	07/01/2016	09/30/2016	07/01/2016	09/30/2016	09/30/2016	DY2 Q2
Task M2:5. Implement the necessary technical and operational system changes as required by the selected vendor for the use of alerts and secure messaging across the PPS.		Project		On Hold	04/01/2015	03/31/2020	04/01/2015	03/31/2020	03/31/2020	DY5 Q4
Milestone #3 Ensure that EHR systems used by participating safety net providers meet Meaningful Use and PCMH Level 3 standards and/or APCM by the end of Demonstration Year 3.	DY2 Q2	Project	N/A	In Progress	10/05/2015	03/31/2018	10/05/2015	03/31/2018	03/31/2018	DY3 Q4
Task EHR meets Meaningful Use Stage 2 CMS requirements (Note: any/all MU requirements adjusted by CMS will be incorporated into the assessment criteria).		Project		Completed	10/05/2015	09/30/2016	10/05/2015	09/30/2016	09/30/2016	DY2 Q2
Task PPS has achieved NCQA 2014 Level 3 PCMH standards and/or APCM.		Provider	Practitioner - Primary Care Provider (PCP)	In Progress	10/05/2015	03/31/2018	10/05/2015	03/31/2018	03/31/2018	DY3 Q4
Task M1:1. Perform a current state assessment of participating safety-net providers' EHR systems' readiness to meet Meaningful Use (MU) Stage 2 CMS requirements.		Project		Completed	10/05/2015	11/30/2015	10/05/2015	11/30/2015	12/31/2015	DY1 Q3
Task M1:2. Develop practice specific action plan to implement necessary changes to workflows and documentation to improve performance on achieving the MU Stage 2 requirements.		Project		On Hold	04/01/2015	03/31/2020	04/01/2015	03/31/2020	03/31/2020	DY5 Q4
Task M1:3. Ensure clinician and staff training on new processes is conducted.		Project		Completed	06/02/2016	09/30/2016	06/02/2016	09/30/2016	09/30/2016	DY2 Q2
Task M1:4. Require participating safety-net providers to attest that their EHR system meets MU Stage 2 CMS requirements.		Project		Completed	07/01/2016	09/30/2016	07/01/2016	09/30/2016	09/30/2016	DY2 Q2
Task M2:1. Establish a project sub-committee with representation from all participating primary care practitioners to facilitate and assure achievement of 2014 NCQA Level 3 PCMH recognition or APCM by DY 3.		Project		In Progress	10/19/2015	03/31/2018	10/19/2015	03/31/2018	03/31/2018	DY3 Q4
Task		Project		In Progress	06/01/2016	03/31/2018	06/01/2016	03/31/2018	03/31/2018	DY3 Q4

Better Health for Northeast New York (PPS ID:1)

Project Requirements (Milestone/Task Name)	Prescribed Due Date	Reporting Level	Provider Type	Status	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
M2:2. Implement training sessions for senior leaders, clinicians and staff to learn about the benefits of achieving 2014 NCQA Level 3 PCMH recognition or APCM.										
Task M2:3. Utilizing a standardized assessment tool, perform a current state assessment of participating practices relative to their ability to provide patient-centered care consistent with the standards of NCQA Patient-Centered Medical Home as well as current certifications.		Project		Completed	10/05/2015	12/31/2015	10/05/2015	12/31/2015	12/31/2015	DY1 Q3
Task M2:4. Perform a practice-specific gap analysis to determine the needed financial, technical and operational support needed to assure successful recognition by DY3.		Project		In Progress	07/01/2016	03/31/2018	07/01/2016	03/31/2018	03/31/2018	DY3 Q4
Task M2:5. Based on the gap analysis, establish priorities and develop a practice specific action plan to achieve the recognition and transform the care delivery model.		Project		In Progress	05/02/2016	03/31/2018	05/02/2016	03/31/2018	03/31/2018	DY3 Q4
Task M2:6. Create a learning collaborative for participating safety-net providers to assist in the development of necessary workflows and other changes to become NCQA Level 3 certified or APCM.		Project		In Progress	12/07/2015	03/31/2018	12/07/2015	03/31/2018	03/31/2018	DY3 Q4
Task M2:7. Assign specific roles and responsibilities for the participating practice leadership and timelines to implement the action plan effectively and achieve the recognition by DY 3.		Project		On Hold	04/01/2015	03/31/2020	04/01/2015	03/31/2020	03/31/2020	DY5 Q4
Task M2:8. Monitor progress on a monthly basis to evaluate progress and assess needed additional resources to support practice transformation.		Project		On Hold	04/01/2015	03/31/2020	04/01/2015	03/31/2020	03/31/2020	DY5 Q4
Task M2:9. Track site specific certification to assure all participating safety-net providers become Level 3 PCMH certified or APCM.		Project		In Progress	04/01/2016	03/31/2018	04/01/2016	03/31/2018	03/31/2018	DY3 Q4
Milestone #4 Use EHRs or other technical platforms to track all patients engaged in this project.	DY2 Q2	Project	N/A	Completed	10/05/2015	09/30/2016	10/05/2015	09/30/2016	09/30/2016	DY2 Q2
Task PPS identifies targeted patients and is able to track actively engaged patients for project milestone reporting.		Project		Completed	10/05/2015	09/30/2016	10/05/2015	09/30/2016	09/30/2016	DY2 Q2
Task M1:1. Articulate the scope, objectives and requirements of a patient tracking system to support an effective population health		Project		Completed	04/01/2016	09/30/2016	04/01/2016	09/30/2016	09/30/2016	DY2 Q2

management across PPS entities.										
Task M1:2. Assess the current systems' capabilities to track patients effectively and determine the need for additional technical systems.		Project		Completed	10/05/2015	11/30/2015	10/05/2015	11/30/2015	12/31/2015	DY1 Q3
Task M1:3. Implement additional technical and workflow changes required for consistent and accurate tracking of targeted patient groups.		Project		Completed	05/06/2016	09/30/2016	05/06/2016	09/30/2016	09/30/2016	DY2 Q2
Task M1:4. Implement training sessions to educate participating partners on how to utilize the additional technical platforms.		Project		Completed	07/01/2016	09/30/2016	07/01/2016	09/30/2016	09/30/2016	DY2 Q2
Task M1:5. Utilize population health IT vendor to support the needs of the PPS and individual organization/practice to track their population groups for population health management needs.		Project		On Hold	04/01/2015	03/31/2020	04/01/2015	03/31/2020	03/31/2020	DY5 Q4
Task M1:6. Generate required reports on the performance of individual and population health interventions implemented by the practice teams.		Project		Completed	07/01/2016	09/30/2016	07/01/2016	09/30/2016	09/30/2016	DY2 Q2
Milestone #5 Use the EHR to prompt providers to complete the 5 A's of tobacco control (Ask, Assess, Advise, Assist, and Arrange).	DY2 Q2	Project	N/A	Completed	10/05/2015	09/30/2017	10/05/2015	09/30/2017	09/30/2017	DY3 Q2
Task PPS has implemented an automated scheduling system to facilitate tobacco control protocols.		Project		Completed	10/05/2015	09/30/2017	10/05/2015	09/30/2017	09/30/2017	DY3 Q2
Task PPS provides periodic training to staff to incorporate the use of EHR to prompt the use of 5 A's of tobacco control.		Project		Completed	10/05/2015	09/30/2017	10/05/2015	09/30/2017	09/30/2017	DY3 Q2
Task M1:1. Provide support for the development and/or update of Clinical Decision Support Systems (CDSS) in EHR systems across the PPS to prompt providers to complete the 5 A's of tobacco control.		Project		Completed	05/06/2016	09/30/2017	05/06/2016	09/30/2017	09/30/2017	DY3 Q2
Task M1:2. Assure the completion of staff training at the practice level to make effective use of the new CDSS features in EHR.		Project		On Hold	04/01/2015	03/31/2020	04/01/2015	03/31/2020	03/31/2020	DY5 Q4
Task M1:3. Define guidelines for required tobacco control prompts in participating safety-net EHR systems.		Project		Completed	10/05/2015	09/30/2017	10/05/2015	09/30/2017	09/30/2017	DY3 Q2
Task		Project		Completed	05/06/2016	09/30/2017	05/06/2016	09/30/2017	09/30/2017	DY3 Q2

Implement program to improve management of cardiovascular disease using evidence-based strategies in the ambulatory and community care setting.	
Ensure that all PPS safety net providers are actively connected to EHR systems with local health information exchange/RHIO/SHIN-NY and share health information among clinical partners, including direct exchange (secure messaging), alerts and patient record look up, by the end of DY 3.	
Ensure that EHR systems used by participating safety net providers meet Meaningful Use and PCMH Level 3 standards and/or APCM by the end of Demonstration Year 3.	
Use EHRs or other technical platforms to track all patients engaged in this project.	
Use the EHR to prompt providers to complete the 5 A's of tobacco control (Ask, Assess, Advise, Assist, and Arrange).	
Adopt and follow standardized treatment protocols for hypertension and elevated cholesterol.	
Develop care coordination teams including use of nursing staff, pharmacists, dieticians and community health workers to address lifestyle

changes, medication adherence, health literacy issues, and patient self-efficacy and confidence in self-management.	
Provide opportunities for follow-up blood pressure checks without a copayment or advanced appointment.	
Ensure that all staff involved in measuring and recording blood pressure are using correct measurement techniques and equipment.	
Identify patients who have repeated elevated blood pressure readings in the medical record but do not have a diagnosis of hypertension and schedule them for a hypertension visit.	
Prescribe once-daily regimens or fixed-dose combination pills when appropriate.	
Document patient driven self-management goals in the medical record and review with patients at each visit.	
Follow up with referrals to community based programs to document participation and behavioral and health status changes.	
Develop and implement protocols for home blood pressure monitoring with follow up support.	
Generate lists of patients with hypertension who have not had a recent visit and schedule a follow up visit.	
Facilitate referrals to NYS Smoker's Quitline.	
Perform additional actions including "hot spotting" strategies in high risk neighborhoods, linkages to Health Homes for the highest risk population, group visits, and implementation of the Stanford Model for chronic diseases.	
Adopt strategies from the Million Hearts Campaign.	
Form agreements with the Medicaid Managed Care organizations serving the affected population to coordinate services under this project.	
Engage a majority (at least 80%) of primary care providers in this project.

Project 3.d.iii – Implementation of evidence-based medicine guidelines for asthma management

✓ IPQR Module 3.d.iii.1 - Major Risks to Implementation and Mitigation Strategies

Instructions :

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

We have identified several risks of implementing this project, including creating evidence-based guidelines for asthma management. One of the risks is obtaining provider buy-in. Changing care protocols will require the identification of physician champions to lead the initiatives and a significant number of providers will be required to adopt the established protocols. We will also have to obtain significant provider buy-in in order to establish telemedicine services. Providers will have serious concerns about providing care without the patient physically present. Another impediment will be aligning initiatives with neighboring PPSs. With different demographics in the varying counties, designing a care model to meet everyone's needs will be difficult. Since the AMCH PPS does not have any identified Health Homes in our network, we will have to work with the surrounding PPSs on this deliverable as well. Finally, the inconsistency in technology from provider-to-provider will have to be addressed. To mitigate these risks we will, obtain provider and organizational buy-in, incentives will be provided for the use of established care protocols. Physician champions will be offered additional stipends as leaders within the PPS. Guidelines will be created and education will be conducted in order to engage providers using telemedicine technologies. When collaborating with neighboring PPSs and The Capital District Asthma Coalition, the providers will have to outline a mutually beneficial plan that helps achieve all deliverables in all areas, including identifying health home providers in our PPS region. With new care guidelines, unnecessary ER visits could be reduced, thus decreasing the expenses to the participating MCOs. Finally, incentives will be provided to organizations that upgrade/update their technologies to be more in line with their PPS partners.

✔ IPQR Module 3.d.iii.2 - Patient Engagement Speed

Instructions :

Enter the number of patients actively engaged through the current quarter. The number entered into the "Quarterly Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for Q4 should include patients previously reported in Q3 plus new patients engaged in Q4. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

Benchmarks	
Actively Engaged Speed	Actively Engaged Scale
DY2,Q2	4,312

	Year,Quarter	DY3,Q1	DY3,Q2	DY3,Q3	DY3,Q4
PPS Reported	Baseline Commitment	2,803	3,018	3,665	4,312
	Quarterly Update	0	342	0	0
	Percent(%) of Commitment	0.00%	11.33%	0.00%	0.00%
IA Approved	Quarterly Update	0	340	0	0
	Percent(%) of Commitment	0.00%	11.27%	0.00%	0.00%

⚠ Warning: PPS Reported - Please note that your patients engaged to date (0) does not meet your committed amount (3,665) for 'DY3,Q3'

Project Requirements (Milestone/Task Name)	Prescribed Due Date	Reporting Level	Provider Type	Status	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
implementation of asthma guidelines.										
Task M1:8. Identify a participating provider organization located in a geographic area with high burden of asthma across the PPS sub-regions and finalize agreements for piloting the new model.		Project		Completed	04/01/2016	09/30/2016	04/01/2016	09/30/2016	09/30/2016	DY2 Q2
Task M1:9. Complete a gap-analysis utilizing the current state assessment and defined future state and, working in collaboration with the practice team, develop an action plan for the implementation of the new model.		Project		Completed	04/01/2016	09/30/2016	04/01/2016	09/30/2016	09/30/2016	DY2 Q2
Task M1:10. Implement the approved action plan at the pilot participating provider site utilizing the PDSA approach.		Project		On Hold	04/01/2015	03/31/2020	04/01/2015	03/31/2020	03/31/2020	DY5 Q4
Task M1:11. Monitor ongoing performance, analyze clinical and operational outcomes, and identify timelines/practice sites for spread of successful tests of change.		Project		On Hold	04/01/2015	03/31/2020	04/01/2015	03/31/2020	03/31/2020	DY5 Q4
Task M2:1. Establish, under the auspices of the AMCH PPS Technology and Data Management Committee (TDMC), an ad-hoc project sub-committee to oversee the development and implementation of the action plan to assure PPS-wide EHR connectivity to the SHIN-NY and HIEs. Ensure key representation from identified providers and partners on the project sub-committee.		Project		Completed	10/05/2015	11/30/2015	10/05/2015	11/30/2015	12/31/2015	DY1 Q3
Task M2:2. Perform a current state assessment on the participating provider organizations' EHR systems' features and capabilities for connectivity to SHIN-NY and HIXNY.		Project		Completed	10/05/2015	11/30/2015	10/05/2015	11/30/2015	12/31/2015	DY1 Q3
Task M2:3. Work with participating providers, not currently using EHRs, to incentivize EHR adoption for patient care management.		Project		On Hold	04/01/2015	03/31/2020	04/01/2015	03/31/2020	03/31/2020	DY5 Q4
Task M2:4. Develop and execute partner agreements and appropriate BAAs with participating providers who will utilize HIXNY and SHIN-NY for HIE connectivity and secure HIPPA compliant information sharing across PPS providers.		Project		Completed	10/01/2015	12/31/2015	10/01/2015	12/31/2015	12/31/2015	DY1 Q3
Task M2:5. Utilizing the IT-TOM pilot experience, design the PPS-wide future state connectivity model.		Project		Completed	06/01/2015	03/31/2016	06/01/2015	03/31/2016	03/31/2016	DY1 Q4

Implement evidence-based asthma management guidelines between primary care practitioners, specialists, and community-based asthma programs (e.g., NYS Regional Asthma Coalitions) to ensure a regional population based approach to asthma management.	
Establish agreements to adhere to national guidelines for asthma management and protocols for access to asthma specialists, including EHR-HIE connectivity and telemedicine.	
Deliver educational activities addressing asthma management to participating primary care providers.	
Ensure coordination with the Medicaid Managed Care organizations and Health Homes serving the affected population.	
Use EHRs or other technical platforms to track all patients engaged in this project.

DSRIP Implementation Plan Project**

Better Health for Northeast New York (PPS ID:1)

Project 4.b.i – Promote tobacco use cessation, especially among low SES populations and those with poor mental health.

✓ IPQR Module 4.b.i.1 - Major Risks to Implementation and Mitigation Strategies

Instructions :

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

There are many risks to successfully implementing this project especially among low SES populations and those with poor mental health.

Lack of understanding of cessation medications & counseling, and lack of referrals to the NYS Smokers' Quitline are barriers to success. Lack of time spent providing tobacco cessation counseling and education to patients, and the lack of integration between primary care and behavioral health providers are also barriers. A lack of organizational commitment may also hinder cessation efforts. MCOs may need to modify buy into the value of the program and agree to reimburse for tobacco cessation services.

To mitigate these risks AMCH PPS will:

- Form a project subcommittee or ensure relevant tobacco cessation discussions occur in the appropriate subcommittees.
- Identify opportunities to meet multiple project milestones related to tobacco use cessation with cross-cutting requirements in EHR tracking and Behavioral Health.
- Implement cross-PPS EHR capabilities including excel transfer of data in lieu of MAPP functionality.
- Activate WCC to provide resources and materials to organizations and providers for collaboration, coordination, and patient engagement.
- In collaboration with our workforce training vendor, the PMO will provide training and resources for the current workforce to ensure cessation counseling is provided in a culturally and linguistically appropriate way.

DSRIP Implementation Plan Project**

Better Health for Northeast New York (PPS ID:1)

Project 4.b.ii – Increase Access to High Quality Chronic Disease Preventive Care and Management in Both Clinical and Community Settings (Note: This project targets chronic diseases that are not included in domain 3, such as cancer)

✓ IPQR Module 4.b.ii.1 - Major Risks to Implementation and Mitigation Strategies

Instructions :

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

Barriers identified in our CNA include: wait time for appointments, lack of specialists, transportation and stigma. Patient engagement may also be negatively impacted by cultural differences, age, sex and socioeconomic status. Such factors leave community members at a disadvantage. The second risk is the capability to obtain and facilitate training, education and workforce resources. It will be vital to provide ongoing education, and providing training over such an expansive area is challenging. Provider and non-provider staff must be trained and demonstrate competency in preventive care initiatives. Community-based training resources will also need to be developed. Another risk is EHR compatibility across the PPS Network. IT capabilities and capacities vary across providers. A number of partnering organizations lack sophisticated IT infrastructure and EHR system connectivity, necessary to facilitate this project. The PMO will need protocols, consents, care teams, IT infrastructure, etc., Connections to RHIO/HIXNY/SHINY will be important in addressing this risk

To mitigate these risks, the PMO will:

- Activate WCC to provide resources to providers for collaboration, coordination, and patient engagement.
- Our workforce training vendor will provide extensive resources for the current workforce.
- Health Navigators will assist patients with their health care needs.
- The PMO will work with MCOs to ensure that cancer screenings are affordable and accessible
- Care teams will utilize protocols to track patient appointments and screening results.
- Mobile breast cancer screening vans will also be deployed in the regional "hot spots."
- Take advantage of developing EHR capabilities and EHR prompts.
- The PMO will also use, follow-up calls, health navigators and other case managers to process and address cancer screening results.
- The PPS and its partners have applied for capital funding to enhance IT infrastructure.

**New York State Department Of Health
Delivery System Reform Incentive Payment Project
DSRIP Implementation Plan Project**

Better Health for Northeast New York (PPS ID:1)

Attestation

The Lead Representative has been designated by the Primary Lead PPS Provider (PPS Lead Entity) as the signing officiate for the DSRIP Quarterly Report. The Lead Representative has the authority to complete this attestation on behalf of the PPS network. The Lead Representative and PPS Lead Entity are responsible for the authenticity and accuracy of the material submitted in this report.

The Lead Representative of the Performing Provider System (PPS) must complete this attestation form in order for the project application to be accepted by the NYS Department of Health. Once the attestation is complete, the Quarterly Report will be locked down from any further editing. Do not complete this section until the entire Quarterly Report is complete.

If the Quarterly Report becomes locked in error and additional changes are necessary, please use the contact information on the Home Page to request that the Quarterly Report be unlocked.

To electronically sign this Quarterly Report, please enter the required information and check the box below:

I here by attest, as the Lead Representative of the 'Better Health for Northeast New York', that all information provided on this Quarterly report is true and accurate to the best of my knowledge, and that, following initial submission in the current quarterly reporting period as defined by NY DOH, changes made to this report were pursuant only to documented instructions or documented approval of changes from DOH or DSRIP Independent Assessor.

Primary Lead PPS Provider:	ALBANY MEDICAL CTR HOSPITAL
Secondary Lead PPS Provider:	
Lead Representative:	Christine McIntyre
Submission Date:	03/15/2018 08:52 AM

Section	Module Name / Milestone #	Review Status	
Section 01	Module 1.1 - PPS Budget - Waiver Revenue (Baseline) - READ ONLY	Pass & Ongoing	
	Module 1.2 - PPS Budget - Waiver Revenue (Quarterly)	Pass & Ongoing	
	Module 1.3 - PPS Flow of Funds - Waiver Revenue (Baseline) - READ ONLY	Pass & Ongoing	
	Module 1.4 - PPS Flow of Funds - Waiver Revenue (Quarterly)	Pass & Ongoing	 
	Module 1.5 - Prescribed Milestones		
	Milestone #1 Complete funds flow budget and distribution plan and communicate with network	Pass & Complete	
	Module 1.7 - PPS Budget - Non-Waiver Revenue (Baseline)	Pass & Ongoing	
	Module 1.8 - PPS Budget - Non-Waiver Revenue (Quarterly)	Pass & Ongoing	
	Module 1.9 - PPS Flow of Funds - Non-Waiver Revenue (Baseline)	Pass & Ongoing	
	Module 1.10 - PPS Flow of Funds - Non-Waiver Revenue (Quarterly)	Pass & Ongoing	
Section 02	Module 2.1 - Prescribed Milestones		
	Milestone #1 Finalize governance structure and sub-committee structure	Pass & Complete	
	Milestone #2 Establish a clinical governance structure, including clinical quality committees for each DSRIP project	Pass & Complete	
	Milestone #3 Finalize bylaws and policies or Committee Guidelines where applicable	Pass & Complete	
	Milestone #4 Establish governance structure reporting and monitoring processes	Pass & Complete	
	Milestone #5 Finalize community engagement plan, including communications with the public and non-provider organizations (e.g. schools, churches, homeless services, housing providers, law enforcement)	Pass & Complete	
	Milestone #6 Finalize partnership agreements or contracts with CBOs	Pass & Complete	
	Milestone #7 Finalize agency coordination plan aimed at engaging appropriate public sector agencies at state and local levels (e.g. local departments of health and mental hygiene, Social Services, Corrections, etc.)	Pass & Complete	
	Milestone #8 Finalize workforce communication and engagement plan	Pass & Complete	
Milestone #9 Inclusion of CBOs in PPS Implementation.	Pass & Complete		
Section 03	Module 3.1 - Prescribed Milestones		
	Milestone #1 Finalize PPS finance structure, including reporting structure	Pass & Complete	
	Milestone #2 Perform network financial health current state assessment and develop financial sustainability strategy to address key issues.	Pass & Complete

DSRIP Implementation Plan Project

Better Health for Northeast New York (PPS ID:1)

Section	Module Name / Milestone #	Review Status	
	Milestone #3 Finalize Compliance Plan consistent with New York State Social Services Law 363-d	Pass & Complete	
	Milestone #4 Develop a Value Based Payments Needs Assessment ("VNA")	Pass & Complete	IA
	Milestone #5 Develop an implementation plan geared towards addressing the needs identified within your VNA	Pass & Complete	
	Milestone #6 Develop partner engagement schedule for partners for VBP education and training	Pass & Complete	
	Milestone #7 Provide appropriate information to partners and MCOs to encourage and support data sharing agreements between the providing partners and the MCOs	Pass & Ongoing	
	Milestone #8 Engage Community-based Organizations to increase patient engagement and literacy to promote VBP collaboration among CBOs and participating provider organizations	Pass & Ongoing	
Section 04	Module 4.1 - Prescribed Milestones		
	Milestone #1 Finalize cultural competency / health literacy strategy.	Pass & Complete	
	Milestone #2 Develop a training strategy focused on addressing the drivers of health disparities (beyond the availability of language-appropriate material).	Pass & Complete	
Section 05	Module 5.1 - Prescribed Milestones		
	Milestone #1 Perform current state assessment of IT capabilities across network, identifying any critical gaps, including readiness for data sharing and the implementation of interoperable IT platform(s).	Pass & Complete	
	Milestone #2 Develop an IT Change Management Strategy.	Pass & Complete	
	Milestone #3 Develop roadmap to achieving clinical data sharing and interoperable systems across PPS network	Pass & Complete	
	Milestone #4 Develop a specific plan for engaging attributed members in Qualifying Entities	Pass & Complete	
	Milestone #5 Develop a data security and confidentiality plan.	Pass & Complete	
Section 06	Module 6.1 - Prescribed Milestones		
	Milestone #1 Establish reporting structure for PPS-wide performance reporting and communication.	Pass & Complete	
	Milestone #2 Develop training program for organizations and individuals throughout the network, focused on clinical quality and performance reporting.	Pass & Complete	
Section 07	Module 7.1 - Prescribed Milestones		
	Milestone #1 Develop Practitioners communication and engagement plan.	Pass & Complete	
	Milestone #2 Develop training / education plan targeting practioners and other professional groups, designed to educate them about the DSRIP program and your PPS-specific quality improvement agenda.	Pass & Complete	
Section 08	Module 8.1 - Prescribed Milestones		
	Milestone #1 Develop population health management roadmap.	Pass & Complete	
	Milestone #2 Finalize PPS-wide bed reduction plan.	Pass & Complete

Better Health for Northeast New York (PPS ID:1)

Section	Module Name / Milestone #	Review Status	
Section 09	Module 9.1 - Prescribed Milestones		
	Milestone #1 Perform a clinical integration 'needs assessment'.	Pass & Complete	
	Milestone #2 Develop a Clinical Integration strategy.	Pass & Complete	
Section 11	Module 11.1 - Workforce Strategy Spending (Baseline)	Pass & Complete	
	Module 11.2 - Prescribed Milestones		
	Milestone #1 Define target workforce state (in line with DSRIP program's goals).	Pass & Complete	
	Milestone #2 Create a workforce transition roadmap for achieving defined target workforce state.	Pass & Complete	
	Milestone #3 Perform detailed gap analysis between current state assessment of workforce and projected future state.	Pass & Complete	
	Milestone #4 Produce a compensation and benefit analysis, covering impacts on both retrained and redeployed staff, as well as new hires, particularly focusing on full and partial placements.	Pass & Complete	
	Milestone #5 Develop training strategy.	Pass & Complete	
	Module 11.10 - Staff Impact	Pass & Ongoing	
	Module 11.11 - Workforce Strategy Spending (Quarterly)	Pass & Ongoing	

**New York State Department Of Health
 Delivery System Reform Incentive Payment Project
 DSRIP Implementation Plan Project**

Better Health for Northeast New York (PPS ID:1)

Project ID	Module Name / Milestone #	Review Status	
2.a.i	Module 2.a.i.2 - Prescribed Milestones		
	Milestone #1 All PPS providers must be included in the Integrated Delivery System. The IDS should include all medical, behavioral, post-acute, long-term care, and community-based service providers within the PPS network; additionally, the IDS structure must include payers and social service organizations, as necessary to support its strategy.	Fail	IA
	Milestone #2 Utilize partnering HH and ACO population health management systems and capabilities to implement the PPS' strategy towards evolving into an IDS.	Pass & Complete	
	Milestone #3 Ensure patients receive appropriate health care and community support, including medical and behavioral health, post-acute care, long term care and public health services.	Fail	IA
	Milestone #4 Ensure that all PPS safety net providers are actively sharing EHR systems with local health information exchange/RHIO/SHIN-NY and sharing health information among clinical partners, including directed exchange (secure messaging), alerts and patient record look up, by the end of Demonstration Year (DY) 3.	Fail	IA
	Milestone #5 Ensure that EHR systems used by participating safety net providers meet Meaningful Use and PCMH Level 3 standards and/or APCM by the end of Demonstration Year 3.	Fail	IA
	Milestone #6 Perform population health management by actively using EHRs and other IT platforms, including use of targeted patient registries, for all participating safety net providers.	Pass & Complete	
	Milestone #7 Achieve 2014 Level 3 PCMH primary care certification and/or meet state-determined criteria for Advanced Primary Care Models for all eligible participating PCPs, expand access to primary care providers, and meet EHR Meaningful Use standards by the end of DY 3.	Fail	IA
	Milestone #9 Establish monthly meetings with Medicaid MCOs to discuss utilization trends, performance issues, and payment reform.	Fail	IA
	Milestone #10 Re-enforce the transition towards value-based payment reform by aligning provider compensation to patient outcomes.	Pass & Complete	
	Milestone #11 Engage patients in the integrated delivery system through outreach and navigation activities, leveraging community health workers, peers, and culturally competent community-based organizations, as appropriate.	Pass & Complete	
2.a.iii	Module 2.a.iii.2 - Patient Engagement Speed	Pass & Ongoing	
	Module 2.a.iii.3 - Prescribed Milestones		
	Milestone #1 Develop a Health Home At-Risk Intervention Program, utilizing participating HHs as well as PCMH/APC PCPs in care coordination within the program.	Pass & Complete	
	Milestone #2 Ensure all eligible primary care providers participating in the project meet NCQA (2011) accredited Patient Centered Medical Home, Level 3 standards and will achieve NCQA 2014 Level 3 PCMH and Advanced Primary Care accreditation by Demonstration Year (DY) 3.	Fail	IA
	Milestone #3 Ensure that all participating safety net providers are actively sharing EHR systems with local health information exchange/RHIO/SHIN-NY and sharing health information among clinical partners, including direct exchange (secure messaging), alerts and patient record look up.	Fail	IA

**New York State Department Of Health
Delivery System Reform Incentive Payment Project
DSRIP Implementation Plan Project**

Better Health for Northeast New York (PPS ID:1)

Project ID	Module Name / Milestone #	Review Status	
	Milestone #4 Ensure that EHR systems used by participating safety net providers meet Meaningful Use and PCMH Level 3 standards and/or APCM.	Fail	IA
	Milestone #5 Perform population health management by actively using EHRs and other IT platforms, including use of targeted patient registries, for all participating safety net providers.	Pass & Complete	
	Milestone #6 Develop a comprehensive care management plan for each patient to engage him/her in care and to reduce patient risk factors.	Pass & Complete	
	Milestone #7 Establish partnerships between primary care providers and the local Health Home for care management services. This plan should clearly delineate roles and responsibilities for both parties.	Fail	IA
	Milestone #8 Establish partnerships between the primary care providers, in concert with the Health Home, with network resources for needed services. Where necessary, the provider will work with local government units (such as SPOAs and public health departments).	Fail	IA
	Milestone #9 Implement evidence-based practice guidelines to address risk factor reduction as well as to ensure appropriate management of chronic diseases. Develop educational materials consistent with cultural and linguistic needs of the population.	Pass & Complete	
2.a.v	Module 2.a.v.2 - Patient Engagement Speed	Pass & Ongoing	
	Module 2.a.v.3 - Prescribed Milestones		
	Milestone #1 Transform outdated (underperforming) nursing home capacity into a stand-alone emergency department/urgent care center or other healthcare-related purpose.	Pass & Ongoing	
	Milestone #2 Provide a clear statement of how the infrastructure transformation program will promote better service and outcomes (service volume, occupancy statistics, etc.) for the community based upon the community needs assessment including, evaluation of specific planning needs for any Naturally Occurring Retirement Community (NORC) occurring within the PPS.	Pass & Complete	
	Milestone #3 Provide a clear description of how this re-configured facility will fit into a broader integrated delivery system that is committed to high quality care and willing/able to participate in payment reform.	Pass & Complete	
	Milestone #4 Provide clear documentation that demonstrates housing plans are consistent with the Olmstead Decision and any other federal requirements.	Pass & Complete	
	Milestone #5 Identify specific community-based services that will be developed in lieu of these beds based upon the community need.	Pass & Complete	
	Milestone #6 Use EHRs and other technical platforms to track all patients engaged in the project.	Pass & Complete	
	Milestone #7 Ensure that all eligible participating PCPs meet NCQA 2014 Level 3 PCMH accreditation and/or meet state-determined criteria for Advanced Primary Care Models by the end of DSRIP Year 3.	Pass & Ongoing	
	Milestone #8 Ensure that all safety net providers participating in medical villages are actively sharing EHR systems with local health information exchange/RHIO/SHIN-NY and sharing health information among clinical partners, including direct exchange (secure messaging), alerts and patient record look up.	Pass & Ongoing	
2.b.iii	Module 2.b.iii.2 - Patient Engagement Speed	Pass & Ongoing	
	Module 2.b.iii.3 - Prescribed Milestones		

**New York State Department Of Health
Delivery System Reform Incentive Payment Project
DSRIP Implementation Plan Project**

Better Health for Northeast New York (PPS ID:1)

Project ID	Module Name / Milestone #	Review Status	
	Milestone #1 Establish ED care triage program for at-risk populations	Pass & Complete	
	Milestone #2 Participating EDs will establish partnerships to community primary care providers with an emphasis on those that are PCMHs and have open access scheduling. a. Achieve NCQA 2014 Level 3 Medical Home standards or NYS Advanced Primary Care Model standards by the end of DSRIP Year 3. b. Develop process and procedures to establish connectivity between the emergency department and community primary care providers. c. Ensure real time notification to a Health Home care manager as applicable	Fail	IA
	Milestone #3 For patients presenting with minor illnesses who do not have a primary care provider: a. Patient navigators will assist the presenting patient to receive an immediate appointment with a primary care provider, after required medical screening examination, to validate a non-emergency need. b. Patient navigator will assist the patient with identifying and accessing needed community support resources. c. Patient navigator will assist the member in receiving a timely appointment with that provider's office (for patients with a primary care provider).	Pass & Complete	
	Milestone #4 Established protocols allowing ED and first responders - under supervision of the ED practitioners - to transport patients with non-acute disorders to alternate care sites including the PCMH to receive more appropriate level of care. (This requirement is optional.)	Pass (with Exception) & Complete	IA
	Milestone #5 Use EHRs and other technical platforms to track all patients engaged in the project.	Pass & Complete	
	2.d.i	Module 2.d.i.2 - Patient Engagement Speed	Pass & Ongoing
	Module 2.d.i.3 - Prescribed Milestones		
	Milestone #1 Contract or partner with community-based organizations (CBOs) to engage target populations using PAM(R) and other patient activation techniques. The PPS must provide oversight and ensure that engagement is sufficient and appropriate.	Pass & Ongoing	
	Milestone #2 Establish a PPS-wide training team, comprised of members with training in PAM(R) and expertise in patient activation and engagement.	Pass & Complete	
	Milestone #3 Identify UI, NU, and LU "hot spot" areas (e.g., emergency rooms). Contract or partner with CBOs to perform outreach within the identified "hot spot" areas.	Pass & Complete	
	Milestone #4 Survey the targeted population about healthcare needs in the PPS' region.	Pass & Complete	
	Milestone #5 Train providers located within "hot spots" on patient activation techniques, such as shared decision-making, measurements of health literacy, and cultural competency.	Pass & Ongoing	
	Milestone #6 Obtain list of PCPs assigned to NU and LU enrollees from MCOs. Along with the member's MCO and assigned PCP, reconnect beneficiaries to his/her designated PCP (see outcome measurements in #10). • This patient activation project should not be used as a mechanism to inappropriately move members to different health plans and PCPs, but rather, shall focus on establishing connectivity to resources already available to the member. • Work with respective MCOs and PCPs to ensure proactive outreach to beneficiaries. Sufficient information must be provided regarding insurance coverage, language resources, and availability of primary and preventive care services. The state must review and approve any educational materials, which must comply with state marketing guidelines and federal regulations as	Pass & Complete

	outlined in 42 CFR §438.104.		
	Milestone #7 Baseline each beneficiary cohort (per method developed by state) to appropriately identify cohorts using PAM(R) during the first year of the project and again, at set intervals. Baselines, as well as intervals towards improvement, must be set for each cohort at the beginning of each performance period.	Pass & Ongoing	
	Milestone #8 Include beneficiaries in development team to promote preventive care.	Pass & Complete	
	Milestone #9 Measure PAM(R) components, including: <ul style="list-style-type: none"> • Screen patient status (UI, NU and LU) and collect contact information when he/she visits the PPS designated facility or "hot spot" area for health service. • If the beneficiary is UI, does not have a registered PCP, or is attributed to a PCP in the PPS' network, assess patient using PAM (R) survey and designate a PAM(R) score. • Individual member's score must be averaged to calculate a baseline measure for that year's cohort. • The cohort must be followed for the entirety of the DSRIP program. • On an annual basis, assess individual members' and each cohort's level of engagement, with the goal of moving beneficiaries to a higher level of activation. <ul style="list-style-type: none"> • If the beneficiary is deemed to be LU & NU but has a designated PCP who is not part of the PPS' network, counsel the beneficiary on better utilizing his/her existing healthcare benefits, while also encouraging the beneficiary to reconnect with his/her designated PCP. • The PPS will NOT be responsible for assessing the patient via PAM(R) survey. • PPS will be responsible for providing the most current contact information to the beneficiary's MCO for outreach purposes. • Provide member engagement lists to relevant insurance companies (for NU & LU populations) on a monthly basis, as well as to DOH on a quarterly basis. 	Pass & Ongoing	
	Milestone #10 Increase the volume of non-emergent (primary, behavioral, dental) care provided to UI, NU, and LU persons.	Pass & Ongoing	
	Milestone #11 Contract or partner with CBOs to develop a group of community navigators who are trained in connectivity to healthcare coverage, community healthcare resources (including for primary and preventive services) and patient education.	Pass & Ongoing	
	Milestone #12 Develop a process for Medicaid recipients and project participants to report complaints and receive customer service.	Pass & Complete	
	Milestone #13 Train community navigators in patient activation and education, including how to appropriately assist project beneficiaries using the PAM(R).	Pass (with Exception) & Complete	IA
	Milestone #14 Ensure direct hand-offs to navigators who are prominently placed at "hot spots," partnered CBOs, emergency departments, or community events, so as to facilitate education regarding health insurance coverage, age-appropriate primary and preventive healthcare services and resources.	Pass & Ongoing	
	Milestone #15 Inform and educate navigators about insurance options and healthcare resources available to UI, NU, and LU populations.	Pass & Ongoing	
	Milestone #16 Ensure appropriate and timely access for navigators when attempting to establish primary and preventive services for a community member.	Pass & Ongoing	
	Milestone #17 Perform population health management by actively using EHRs and other IT platforms, including use of targeted patient registries, to track all patients engaged in the project.	Pass & Complete

Project ID	Module Name / Milestone #	Review Status	
3.a.i	Module 3.a.i.2 - Patient Engagement Speed	Pass & Ongoing	
	Module 3.a.i.3 - Prescribed Milestones		
	Milestone #1 Co-locate behavioral health services at primary care practice sites. All participating eligible primary care practices must meet 2014 NCQA level 3 PCMH or Advance Primary Care Model standards by DY 3.	Pass (with Exception) & Complete	IA
	Milestone #2 Develop collaborative evidence-based standards of care including medication management and care engagement process.	Pass & Complete	
	Milestone #3 Conduct preventive care screenings, including behavioral health screenings (PHQ-2 or 9 for those screening positive, SBIRT) implemented for all patients to identify unmet needs.	Pass & Complete	
	Milestone #4 Use EHRs or other technical platforms to track all patients engaged in this project.	Pass & Complete	
	Milestone #5 Co-locate primary care services at behavioral health sites.	Pass & Complete	IA
	Milestone #6 Develop collaborative evidence-based standards of care including medication management and care engagement process.	Pass & Complete	
	Milestone #7 Conduct preventive care screenings, including physical and behavioral health screenings.	Pass & Complete	
	Milestone #8 Use EHRs or other technical platforms to track all patients engaged in this project.	Pass & Complete	
	Milestone #9 Implement IMPACT Model at Primary Care Sites.	Pass & Complete	
	Milestone #10 Utilize IMPACT Model collaborative care standards, including developing coordinated evidence-based care standards and policies and procedures for care engagement.	Pass & Complete	
	Milestone #11 Employ a trained Depression Care Manager meeting requirements of the IMPACT model.	Pass & Complete	
	Milestone #12 Designate a Psychiatrist meeting requirements of the IMPACT Model.	Pass & Complete	
	Milestone #13 Measure outcomes as required in the IMPACT Model.	Pass & Complete	
Milestone #14 Provide "stepped care" as required by the IMPACT Model.	Pass & Complete		
Milestone #15 Use EHRs or other technical platforms to track all patients engaged in this project.	Pass & Complete		
3.a.ii	Module 3.a.ii.2 - Patient Engagement Speed	Pass & Ongoing	
	Module 3.a.ii.3 - Prescribed Milestones		
	Milestone #1 Implement a crisis intervention program that, at a minimum, includes outreach, mobile crisis, and intensive crisis services.	Pass & Complete	
	Milestone #2 Establish clear linkages with Health Homes, ER and hospital services to develop and implement protocols for diversion of patients from emergency room and inpatient services.	Pass & Complete	
	Milestone #3 Establish agreements with the Medicaid Managed Care organizations serving the affected population to provide coverage for the service array under this project.	Pass & Complete	
Milestone #4 Develop written treatment protocols with consensus from participating providers and facilities.	Pass & Complete

Better Health for Northeast New York (PPS ID:1)

Project ID	Module Name / Milestone #	Review Status	
	Milestone #5 Include at least one hospital with specialty psychiatric services and crisis-oriented psychiatric services; expansion of access to specialty psychiatric and crisis-oriented services.	Pass & Complete	
	Milestone #6 Expand access to observation unit within hospital outpatient or at an off campus crisis residence for stabilization monitoring services (up to 48 hours).	Fail	IA
	Milestone #7 Deploy mobile crisis team(s) to provide crisis stabilization services using evidence-based protocols developed by medical staff.	Pass & Complete	
	Milestone #8 Ensure that all PPS safety net providers have actively connected EHR systems with local health information exchange/RHIO/SHIN-NY and share health information among clinical partners, including direct exchange (secure messaging), alerts and patient record look up by the end of Demonstration Year (DY) 3.	Fail	IA
	Milestone #9 Establish central triage service with agreements among participating psychiatrists, mental health, behavioral health, and substance abuse providers.	Pass & Complete	
	Milestone #10 Ensure quality committee is established for oversight and surveillance of compliance with protocols and quality of care.	Pass & Complete	
	Milestone #11 Use EHRs or other technical platforms to track all patients engaged in this project.	Pass & Complete	
3.b.i	Module 3.b.i.2 - Patient Engagement Speed	Pass & Ongoing	
	Module 3.b.i.3 - Prescribed Milestones		
	Milestone #1 Implement program to improve management of cardiovascular disease using evidence-based strategies in the ambulatory and community care setting.	Pass & Complete	
	Milestone #2 Ensure that all PPS safety net providers are actively connected to EHR systems with local health information exchange/RHIO/SHIN-NY and share health information among clinical partners, including direct exchange (secure messaging), alerts and patient record look up, by the end of DY 3.	Fail	IA
	Milestone #3 Ensure that EHR systems used by participating safety net providers meet Meaningful Use and PCMH Level 3 standards and/or APCM by the end of Demonstration Year 3.	Fail	IA
	Milestone #4 Use EHRs or other technical platforms to track all patients engaged in this project.	Pass & Complete	
	Milestone #5 Use the EHR to prompt providers to complete the 5 A's of tobacco control (Ask, Assess, Advise, Assist, and Arrange).	Fail	IA
	Milestone #6 Adopt and follow standardized treatment protocols for hypertension and elevated cholesterol.	Pass & Complete	
	Milestone #7 Develop care coordination teams including use of nursing staff, pharmacists, dieticians and community health workers to address lifestyle changes, medication adherence, health literacy issues, and patient self-efficacy and confidence in self-management.	Pass & Complete	
	Milestone #8 Provide opportunities for follow-up blood pressure checks without a copayment or advanced appointment.	Pass & Complete	
	Milestone #9 Ensure that all staff involved in measuring and recording blood pressure are using correct measurement techniques and equipment.	Fail	IA
Milestone #10 Identify patients who have repeated elevated blood pressure readings in the medical record but do not have a diagnosis of hypertension and schedule them for a hypertension visit.	Fail	IA

Additional Project Scale Commitments

Instructions:

Please indicate the scale of the categories below that meet all of the project requirements committed to in the Project Plan Application. Documentation must be submitted in Excel format in the quarter when the PPS provider speed commitments for a particular project are due. This documentation should include the target category(e.g. Medical Villages, Emergency Departments with Care Triage, Community-based navigators, etc.), the project ID(e.g. 2.a.iv,2.a.v,3.a.ii, etc.), and the name of the providers/entities/individuals associated with this project, if applicable.

Project Scale Category	Project	Selected	Committed
Emergency Departments with Care Triage	2.b.iii	3	4
Expected Number of Crisis Intervention Programs Established	3.a.ii	0	4
Expected Number of Medical Villages Established	2.a.v	0	4
PAM(R) Providers	2.d.i	0	68
