**DSRIP Implementation Plan Project**

**Leatherstocking Collaborative Health Partners (PPS ID:22)**

Note that original table submitted in Excel version of implementation plan made the assumption that PPS would only receive 80% of total possible funding, in order to be conservative. Numbers in the table above differ from original submitted table in that full waiver revenue is listed above. Percentages for each category remain consistent.

**Narrative Text :**

The table above differs from the one submitted in the implementation plan in that the originally submitted plan estimated total revenue at 80% of the total based on an assumption of 80% success rate in meeting metrics. Percentages for each budget category have been adjusted upward to reconcile with the entire waiver amount (rather than 80%) listed.

**✔ IPQR Module 1.5 - Prescribed Milestones**

**Instructions :**

Please provide updates to baseline target dates and work breakdown tasks with target dates for required milestones. For milestones that are due within the reporting period, documentation is required to provide evidence of milestone achievement. Any explanations regarding altered or missed target commitments must be included within the textbox, not as narrative within uploaded documentation.

Milestone/Task Name	Status	Description	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter	AV
<b>Milestone #1</b> Complete funds flow budget and distribution plan and communicate with network	Completed	Funds Flow Budget and Distribution Plan, signed off by your Finance Committee, including details of your approach to funds flow on a whole-PPS and project-by-project basis; evidence of involvement of provider network in developing funds flow methodology.	04/01/2015	09/30/2015	04/01/2015	09/30/2015	09/30/2015	DY1 Q2	YES
<b>Task</b> 1. Finance Committee to re-assess funds flow categories after review of application and needs of PPS partners	Completed	Funds flow categories reassessed.	04/01/2015	06/30/2015	04/01/2015	06/30/2015	06/30/2015	DY1 Q1	
<b>Task</b> 2. Finance Committee to establish "Funds Flow Principles" for review at every meeting	Completed	Funds Flow principles developed.	04/01/2015	06/30/2015	04/01/2015	06/30/2015	06/30/2015	DY1 Q1	
<b>Task</b> 3. Finance Committee to establish draft budget for all funds flow categories	Completed	Draft Budget for funds flow categories completed.	04/01/2015	06/30/2015	04/01/2015	06/30/2015	06/30/2015	DY1 Q1	
<b>Task</b> 4. Establish meetings with Project Teams and Finance Committee to explain concepts of funds flow model and review budget templates	Completed	Meetings held with project teams and Finance committee.	04/01/2015	06/30/2015	04/01/2015	06/30/2015	06/30/2015	DY1 Q1	
<b>Task</b> 5. Determine from project teams the assessment of provider level involvement in project success over the demonstration years	Completed	Assessment completed.	04/01/2015	06/30/2015	04/01/2015	06/30/2015	06/30/2015	DY1 Q1	
<b>Task</b> 6. Distribute budget templates (project and institution level) to each project team for completion	Completed	Budget templates distributed.	04/01/2015	06/30/2015	04/01/2015	06/30/2015	06/30/2015	DY1 Q1	
<b>Task</b> 7. Host training and education sessions with each project team for budget completion	Completed	Education sessions completed.	04/01/2015	06/30/2015	04/01/2015	06/30/2015	06/30/2015	DY1 Q1

**✓ IPQR Module 2.3 - Major Risks to Implementation & Risk Mitigation Strategies**

**Instructions :**

Please describe the key challenges or risks that you foresee in implementing your governance structure and processes and achieving the milestones described above, as well as potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

Ineffective communication of DSRIP goals to engage key practitioners and community stakeholders in the governance process can reduce effectiveness of the initiative and disrupt the development of trust. This risk will be mitigated through timely communication plan processes, which will include town hall meetings, presentations, regular Partner meetings, website, access to leadership, having a voice in decisions, etc. The PPS will engage a Director-PPS and Patient Engagement to lead this work. We will also ensure communication of the importance of this transformative work, to further engage practitioners and community stakeholders in a shared vision. Expectations of partner and practitioner engagement will be outlined in an addendum to the partner agreement. Failure to meet expectations will result in reduction or elimination of DSRIP funds and/or potential removal from PPS.

Developing trust among key stakeholders; will be mitigated through development of a fair and transparent funds flow model, and a participative style of leadership to encourage participation of LCHP Partners, CBOs, and other stakeholders.

**✓ IPQR Module 2.4 - Major Dependencies on Organizational Workstreams**

**Instructions :**

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

In order to be successful, LCHP must employ an integrated approach in the pursuit of DSRIP objectives. For example, IT and Data Analytics, Workforce and Finance functions must adopt a philosophy of customer-orientation to the other functional committees as well as to the project teams. Therefore, collaboration and communication among LCHP entities will be paramount. LCHP will adopt a thematic approach in many respects in order to assure inclusion and coordination among the voluminous activities employed toward Program success and practitioner engagement. This will minimize the "silo effect" and lead to optimizing resources and work effort toward accomplishing goals and objectives. The previously-referenced communications plan will focus emphatically on the requirement for internal bi-directional communication and decision-making in this regard.

The culture of LCHP will be directed toward effective working relationships among all entities within the organization. Emphasis on team and interdependency and shared success will manifest the need to recognize the requirements for one another's success.

Under IT Systems and Processes, we are recommending an IT Governance Structure consisting of sub-committees or task forces that report to the ITDAC. Establishing this more detailed structure will require additional participation by partners, but we expect to pay off in terms of long-term efficiency.

**✅ IPQR Module 2.5 - Roles and Responsibilities**

**Instructions :**

Please list and elaborate upon the key people/organizations responsible for the development of your governance structure and processes and describe what their responsibilities involve.

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities
Lead Agency	Bassett Medical Center--Lead agency for LCHP--Leatherstocking Collaborative Health Partners	Completing structures, work processes, communication plans, compliance with DSRIP requirements, membership on EGB, multiple committees
LCHP Operations Team	Brett Wilhelm DSRIP; Management Team	Project implementation, DSRIP administration functions, management of LCHP care delivery system
Actualization of DSRIP Projects	Project Chair(s)/ Committees	Establishing work groups and completing project plans
Executive Governance Body (EGB)	EGB Committee Membership	Fulfillment of PPS governance functions, appoint power to all committee membership
Manager of Patient Engagement	Lucinda Levene, Bassett Medical Center (Lead Agency)	Stakeholder engagement
Organizational Support Teams	e.g., Finance, IT, Data Analytics, Workforce	Provide essential resources to project teams, LCHP administration for mission success
ACO, Medicaid Health Home	Bassett Medical Center--Lead agency for LCHP	Navigation, case management, protocol development

**Leatherstocking Collaborative Health Partners (PPS ID:22)**

**✔ Module 2.6 - IPQR Module 2.6 - Key Stakeholders**

**Instructions :**

Please identify the key stakeholders involved, both within and outside the PPS with regard to your governance structure and processes.

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
<b>Internal Stakeholders</b>		
Bassett Medical Center	Lead agency for LCHP (Leatherstocking Collaborative Health Partners); participants in EGB	Funding, leadership personnel; expertise in network development; committee chairs; EGB members
AO Fox Memorial Hospital	Lead agency affiliate hospital	AO Fox Nursing Home VP active member of INTERACT
Tri-Town Regional Hospital/O'Connor Hospital	Lead agency affiliate hospital	CEO chairs EGB; committee member; participant in projects
At Home Care	Lead agency affiliate agency	Active member of Hosp-Home Care Collaborations Committee
Springbrook	Leadership, participant	CEO Co-Chair EGB; CIO co-chair IT committee
Medicaid beneficiaries	Participant	PAC membership
County Mental Health Agencies and other LGUs	Participant	"PAC membership, committees participation as SME"
4 County Coalition	Directors of Community Services	Develop strategies to further the accomplishment of PPS objectives
Community Memorial Hospital	Leadership, participant	EGB member; PCMH member
Valley Health Services	Participant	EGB member
Ulster County Mental Health Assn	Leadership, participant	EGB member; MHSA
<b>External Stakeholders</b>		
Medicaid Beneficiaries	Consumers of care	Membership on PAC, participate in focus groups and feedback on patient satisfaction
NYS DOH	Administration of DSRIP Program	Administration of DSRIP Program

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project  
DSRIP Implementation Plan Project**

**Leatherstocking Collaborative Health Partners (PPS ID:22)**

**✓ IPQR Module 2.7 - IT Expectations**

**Instructions :**

Please clearly describe how the development of shared IT infrastructure across the PPS will support this particular workstream and your ability to achieve the milestones described above.

Interdependent IT infrastructure is essential for effective data sharing for milestone and metric reporting. It supports the decision-making process at various levels within the organization, and enables patient and provider service requirements to be fulfilled and reported to Executive Governance Body (EGB), e.g., referral management, performance improvement, financial management, interoperability, portal access for feedback and Partner reporting, website management, and sharing of information between and among Partners and LCHP leadership. This includes development of information sharing capabilities, data collection and analysis, and business intelligence in a consistent manner throughout the PPS. A survey of all PPS partner's IT capabilities will serve as a baseline and allow the PPS to perform a gap analysis. Significant capital investments will be required to close the gap in the development of the infrastructure of the PPS.

LCHP will leverage diverse resources to ensure interconnectivity, enabling real-time sharing of relevant information to support efficient and effective patient care, and two-way communications among PPS partners within this rural geography. Since it is unlikely that any single method of data-sharing will suffice for the diverse needs of LCHP, multiple methods will be used to coordinate patient care across the rural LCHP network.

It represents the foundation for successful performance of the clinical objectives of LCHP, including the Clinical Performance Committee, EGB, Project leadership, as well as the functions of Clinical Integration and Care Coordination.

**✓ IPQR Module 2.8 - Progress Reporting**

**Instructions :**

Please describe how you will measure the success of this organizational workstream.

Governance milestones will be regularly monitored and progress measured against commitments. Creation of necessary organizational structures--e.g., project teams, governance bodies--evidence they are functioning effectively and according to plan will be accomplished through regular conduct of meetings, preparation and distribution of minutes, creation of action plans, dashboard reporting. All will be posted on the website for review and comment, as well as to demonstrate active movement toward goals.

All policies and procedures will be developed and published, and adherence will be monitored.

Incorporation of project management principles will serve as an important method for accountability purposes. Every initiative—whether a selected project or an Organizational workstream—will be managed by the DSRIP Operations Team using a sophisticated project management tool (e.g., Microsoft Project). Each sub-project will be structured to reflect Milestones and committed due dates for that project, for each Partner (in the case of the 11 Projects) or each "committee" (in the case of Organizational initiatives such as Financial Sustainability). The % Complete for each will be

Milestone Name	Narrative Text
Finalize PPS finance structure, including reporting structure	
Perform network financial health current state assessment and develop financial sustainability strategy to address key issues.	
Finalize Compliance Plan consistent with New York State Social Services Law 363-d	
Develop a Value Based Payments Needs Assessment ("VNA")	
Develop an implementation plan geared towards addressing the needs identified within your VNA	
Develop partner engagement schedule for partners for VBP education and training	
7- Education on VBP in relation to Socio-economic Determinants	
8- Develop PPS VBP Strategic Plan while engaging partners either directly or indirectly

**✓ IPQR Module 3.3 - Major Risks to Implementation & Risk Mitigation Strategies**

**Instructions :**

Please describe the key challenges or risks that you foresee in implementing these cross-cutting organizational strategies, including potential impacts on specific projects and, crucially, any risks that will undermine your ability to achieve outcome measure targets.

Risks and mitigation strategies for such risks include:

There may be inadequate data to conduct negotiations with third-party payers. To mitigate it, we will procure adequate IT, business intelligence and data analytic resources to provide necessary information for negotiations with third-party payers.

Revenue stream may not be adequate to provide services necessary for population health management approach. With an adequate database, we will demonstrate to third-party payers the ability to deliver care in the new environment. The PPS will include a tiered approach with respect to assuming financial risk, utilizing an incremental approach by which partners would assume a greater revenue stream risk share over time.

Culture needs to shift to adapt to transformation of care delivery in the new environment. Through LCHP and partner leadership, we will develop a detailed approach to incorporate principles of population health management, mechanisms to monitor financial performance, including loss of revenue and provision for course correction, and embed appropriate incentives to reconfigure and reorient partner organizations in the new model of care delivery.

As much of the transformation under DSRIP there will be significant capital requirements for IT, cost accounting systems, predictive modeling software, etc. Inadequate capital support will place limits on the ability to achieve outcomes which may be progressive but inadequate in terms of accomplishment of the desired transformation.

**✓ IPQR Module 3.4 - Major Dependencies on Organizational Workstreams**

**Instructions :**

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

Due to the dramatic culture and practice shift that a move to value-based purchasing will entail, there will be a dependency on multiple workstreams within the PPS network. These will include, but may not be limited to: Clinical performance and integration, as provider understanding and acceptance of new payment model necessary; workforce, as the PPS will need the appropriate staffing and subject matter experts to perform this work; Information technology, as the PPS will need to obtain and track information relating to claims and metrics leading toward a VBP model; Finance and Compliance Committees will be an integral part of this transition.

**New York State Department Of Health  
 Delivery System Reform Incentive Payment Project  
 DSRIP Implementation Plan Project**

**Leatherstocking Collaborative Health Partners (PPS ID:22)**

**✔ IPQR Module 3.5 - Roles and Responsibilities**

**Instructions :**

Please list and elaborate upon the key people/organizations responsible for this organizational workstream and describe what their responsibilities involve.

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities
Executive Director, DSRIP Operations	Leonard Lindenmuth	Oversight and staffing of VPB Task force; leader in VBP transition
Chief Financial Officer, Lead Agency	Sue Andrews	Oversight of PPS financial activities
Director, DSRIP Finance Operations	Michael Sweet Bassett Medical Center--Lead agency for LCHP--Leatherstocking Collaborative Health Partners	Leading finance committee and VBP task force through transition and direct oversight of financial sustainability plan
Finance Committee	Members include Finance experts from several partner organizations including lead agency	Develop funds flow process; implement financial sustainability plan
Compliance Officer/Lead PPS	Bassett Medical Center--Lead agency for LCHP	Lead PPS in compliance matters; development and maintenance of compliance plan for PPS network.
Internal Auditors	Lead agency	Internal Audit of PPS Funds Flow Process
External Auditors	KPMG	External Audit of PPS Funds Flow Process
Community Based Organizations (CBOs)	Partner organizations; sometimes funds flow recipients	Active engagement in project development and eventual success
Local Government Agencies	Partner organizations	Active engagement in project development and eventual success

**New York State Department Of Health  
 Delivery System Reform Incentive Payment Project  
 DSRIP Implementation Plan Project**

**Leatherstocking Collaborative Health Partners (PPS ID:22)**

**✓ IPQR Module 3.6 - Key Stakeholders**

**Instructions :**

Please identify the key stakeholders involved, both within and outside the PPS.

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
<b>Internal Stakeholders</b>		
Chief Clinical Officer, Lead Agency	Culture change; leadership	Practitioner engagement, education about change in reimbursement/practice model
CFO and/or Finance leads for PPS partners	Financial lead	Responsible for leading change to VBP model with regard to finance-related/reimbursement strategies in PPS network
PPS Compliance Committee	Compliance lead	Responsible for developing and overseeing compliance program for PPS; quarterly reporting to Exec Gov Body
Workforce Committee	Oversight of all training strategies, including practitioner education / training described above	Input into practitioner education / training plan
IT/Data Analytics Committee	Provision of data and information to enable practitioners to complete their goals and objectives	Availability of information in a timely way and in the desired format
PPS Project Management Office	Bassett Medical Center--Lead agency for LCHP	Leading initiative; culture change
Finance Committee	Develop funds flow process; implement financial sustainability plan	Funds Flow Model
Executive Governance Body of PPS	Oversight of VBP plan and compliance planning	Responsible for review of reporting and oversight of compliance and finance committee with regard to transition to VBP
<b>External Stakeholders</b>		
MCOs	Insurers	Work with PPS to negotiate risk relationships with providers
NYS DOH	Administration of DSRIP Program	Administration of DSRIP Program

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project  
DSRIP Implementation Plan Project**

**Leatherstocking Collaborative Health Partners (PPS ID:22)**

**✅ IPQR Module 3.7 - IT Expectations**

**Instructions :**

Please clearly describe how the development of shared IT infrastructure across the PPS will support this particular workstream.

Information technology will play a key role in the financial sustainability of the PPS network. The dependence on shared information is a key to tracking metrics and system transformation. Additionally, moving to a population-health based model of care for our patients will be dependent on tracking and monitoring claims data, as well as clinical services and outcome metrics.

A well-established relationship, with clearly defined roles between IT and Finance is crucial to DSRIP success. Finance requires integration with a shared IT infrastructure in the following areas: 1) Data collection and reporting; 2) Ability to access financial information such as templates and funds flow; 3) Ability to collect data to determine and monitor status of financially fragile partners, and to deploy resources where necessary (e.g., web-based training, advisory services).

Due to the rural nature of the PPS and the large geographic footprint it is essential that technology be leveraged wherever possible to mitigate the potentially fragmented communications and data sharing fundamental to implementing and maintaining a stable, supportive environment.

**✅ IPQR Module 3.8 - Progress Reporting**

**Instructions :**

Please describe how you will measure the success of this organizational workstream.

Success of this workstream will be managed through routine reporting of the Finance Committee to the Executive Governance Body. Partner financial sustainability will be a key factor in the success of the PPS, so oversight of this is vital.

This workstream's success will be indicated by collection of metrics from our partners including performance measures, (i.e., domain 2 and 3 and claims based outcomes measures), progress measures - (domain 1 milestone achievement) and participation measures (are partners providing substantive contributions to ongoing project effort). We will continually monitor the level of engagement and involvement of providers in the performance reporting systems and processes that are established. We will define metrics to measure providers' involvement in the PPS performance reporting structure (e.g., active users of performance reporting IT systems, involvement in feedback discussions with Clinical Performance Committee about performance dashboards). We will also set targets for performance against these metrics. The Practitioner Champions and the Project-specific Leads will be held accountable for driving up these levels of involvement. Measurement methods for accountability include Salient dashboards, meeting attendance rosters, provision of additional supporting documentation as requested/required, etc.

**Section 04 – Cultural Competency & Health Literacy**

**✅ IPQR Module 4.1 - Prescribed Milestones**

**Instructions :**

Please enter and update target dates, as well as breakdown tasks with target dates for prescribed milestones. For milestones that are due within the reporting period, documentation is required to provide evidence of milestone achievement. Any explanations regarding altered or missed target commitments must be included within the textbox, not as narrative within uploaded documentation. Note some milestones include minimum expected completion dates.

Milestone/Task Name	Status	Description	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter	AV
<b>Milestone #1</b> Finalize cultural competency / health literacy strategy.	Completed	This milestone must be completed by 12/31/2015. Cultural competency / health literacy strategy signed off by PPS Board. The strategy should: -- Identify priority groups experiencing health disparities (based on your CNA and other analyses); -- Identify key factors to improve access to quality primary, behavioral health, and preventive health care -- Define plans for two-way communication with the population and community groups through specific community forums -- Identify assessments and tools to assist patients with self-management of conditions (considering cultural, linguistic and literacy factors); and -- Identify community-based interventions to reduce health disparities and improve outcomes.	04/01/2015	12/31/2015	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	YES
<b>Task</b> 1. Director-PPS Partner and Patient Engagement to develop work groups and engage stakeholders in defining the cultural competency needs and determining the focus for the PPS	Completed	Task in progress	04/01/2015	11/17/2015	04/01/2015	11/17/2015	12/31/2015	DY1 Q3	
<b>Task</b> 2. In attempt to identify populations and geographic areas where most work is needed, utilize CNA data and other key analyses, e.g. Upstate Health and Wellness Survey, Healthy People 2020, results from County Public Health	Completed	Task in progress	04/01/2015	12/10/2015	04/01/2015	12/10/2015	12/31/2015	DY1 Q3

# New York State Department Of Health Delivery System Reform Incentive Payment Project

## DSRIP Implementation Plan Project

### Leatherstocking Collaborative Health Partners (PPS ID:22)

#### ✔ IPQR Module 4.3 - Major Risks to Implementation & Risk Mitigation Strategies

##### Instructions :

Please describe the key challenges or risks that you foresee in implementing your cultural competency / health literacy strategy and addressing the specific health disparities you are targeting (based on your CNA), and achieving the milestones described above - including potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

Provider buy-in is a challenge due to need for providers to understand the needs of this population. Through an evidence-based, data-driven approach, information will be communicated to LCHP providers and staff that will enable collaboration and engagement in preparing tactics to address health disparity opportunities.

Measuring impact will be especially challenging as defining these metrics requires proficiency in areas typically unfamiliar to healthcare providers. However, we are committed through various means, such as collaborating with other PPS', to employing methodology to measure the levels of success.

We anticipate many geographical and logistical challenges within this rural area. Affordable, public transportation across the region is not easily available; this has been assigned to Navigators as a priority and awareness goal.

Since statistical information on these populations is scarce, it will be difficult to identify target population. There is no data gathering method, what information is available is generally anecdotal. We will leverage the data warehouse mechanism to collect population data for analysis, and development of tactics to address priority areas.

Patient Engagement will be a risk to this workstream. To mitigate this, Director of Patient and Partner Engagement will be charged with developing specific set of strategies that will compile an approach and function. Additionally, patients will be members of PAC, and focus groups will be held to assess patient engagement.

As a medical school and medical/surgical residency program, the Lead Agency needs to reflect that English may not be the primary language of the practitioner and patient populations, and adjust training programs accordingly.

#### ✔ IPQR Module 4.4 - Major Dependencies on Organizational Workstreams

##### Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

LCHP has identified a variety of online resources, including the NYLearnsPH.com Learning Management System (LMS) and the Empire State Public Health Training Center (ESPHTC), which it will incorporate into its comprehensive training program. A Learning Management System (LMS) has been implemented (HealthStream); an administrator for the system is in place; content-area experts will be identified, recruited, and trained.

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Leatherstocking Collaborative Health Partners (PPS ID:22)**

Training on cultural competency topics will impact on the Practioner Engagement, and Workforce and the IT/Data Analytics workstreams, who will play a role in training design and execution. Training delivered across a large, geographically distributed network requires the traditional IT support structures (i.e., network administrator, help desk, etc.). It also will require a named position to coordinate the various types of required training and keep content updated to reflect new needs (Workforce). System-specific topics modules will be needed and will require content-area experts from a variety of disciplines who themselves will need to be trained on how to create training modules. Practioner Engagement will be key to content development and successful outcomes.

While not major dependencies, under IT Systems & Processes we state an intent to acquire an automated survey instrument and a Learning Management system. Both of these will allow aspects of the Cultural Competency Strategy to be executed more quickly and efficienctly.

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Leatherstocking Collaborative Health Partners (PPS ID:22)**

**✔ IPQR Module 4.5 - Roles and Responsibilities**

**Instructions :**

Please list and elaborate upon the key people/organizations responsible for this workstream and describe what their responsibilities involve.

<b>Role</b>	<b>Name of person / organization (if known at this stage)</b>	<b>Key deliverables / responsibilities</b>
Research Department	Bassett Medical Center--Lead Agency for LCHP (Leatherstocking Collaborative Health Partners)	CNA analysis; PHIP engagement
Partner and Patient Engagement	Lucinda Levene, Bassett Medical Center Network Manager of Partner Engagement	Direct and oversee partner and patient engagement work, linguistics gaps
Practitioner Engagement	Lucinda Levene, Bassett Medical Center Network Manager of Partner Engagement	Practitioner training program development , Clinical Integration, and Cultural Competency
Medicaid Health Home	Bassett Medical Center--Lead Agency for LCHP (Leatherstocking Collaborative Health Partners)	Resource development
Bassett Institute for Learning	Bassett Medical Center (Diana Parker)	Provide guidance regarding development of training curriculum for health literacy - providers and patients
IT & Data Analytics (Business Intelligence) Department	Lead Agency	Analytical tools; online educational and training media; software procurement
Executive Governance Body	PPS	Oversight of implementation/metrics/ measurement
Bassett Medical Center	Leonard Lindenmuth, Executive Director, DSRIP	Project implementation oversight
Workforce Consultant	Anita Merrell-AHEC	Cultural Competency and Health Literacy

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Leatherstocking Collaborative Health Partners (PPS ID:22)**

**✅ IPQR Module 4.6 - Key Stakeholders**

**Instructions :**

Please identify the key stakeholders involved, both within and outside the PPS.

<b>Key stakeholders</b>	<b>Role in relation to this organizational workstream</b>	<b>Key deliverables / responsibilities</b>
<b>Internal Stakeholders</b>		
Diana Parker	Director, Bassett Institute for Learning	Assist in development of learning curriculum
Sara Albright	Vice President of Human Resources, Bassett Healthcare (Lead Agency)	Oversight of workforce development plan
<b>External Stakeholders</b>		
AHEC	Workforce consultant	Utilize proven methods of training for curriculum development/distance learning
Dr. David Strogatz	CNA Development Committee	Ongoing feedback regarding assessment of health disparities, and impact of plans to address same
Catholic Charities	CBO; Care coordination services	Community-based navigation
County Mental Health Departments (Otsego, Schoharie, Delaware, Madison, Herkimer)	Mental health providers	Participation in Projects 3.a.i; MESA 4.a.iii
Southern Tier Aids program	CBO	Community-based navigation

New York State Department Of Health  
Delivery System Reform Incentive Payment Project

DSRIP Implementation Plan Project

Leatherstocking Collaborative Health Partners (PPS ID:22)

✔ IPQR Module 4.7 - IT Expectations

Instructions :

Please clearly describe how the development of shared IT infrastructure across the PPS will support the development and implementation of your cultural competency / health literacy strategy and the achievement of the milestones described above.

IT and data analytics will support development of analytical tools, provide a structure for management of online educational and training media, and assist with software procurement such as the ability to access an external learning collaborative to promote available trainings and best practices.

Data collection and reporting - There is a need to connect partners within the PPS for the purpose of developing standardized workforce training requirements. AHEC will work with IT and Performance Reporting workstreams to identify and develop a workforce training program focused on enhancing cultural competency and health literacy, and delivery methods that adapt to the PPS' wide geographical footprint.

Learning collaborative - The ability to connect partners within LCHP and contiguous PPS' will encourage the use of existing best-practices and the sharing of training materials, eliminating the need to re-create curricula. We will explore ways to collaborate with other PPSs to leverage common training needs and curricula. The AHECs are pursuing outside funding opportunities to further develop a digital platform through Health Workforce New York (HWNY) that could serve as the framework for a learning collaborative that would support access on a PPS, regional, and statewide level.

Training - LCHP leadership will work with IT to assess partner capability for tracking training progress (who's been trained/retrained, etc.) and reporting to MAPPS. Training programs will be developed based on outcome of CNA and other key data analyses.

✔ IPQR Module 4.8 - Progress Reporting

Instructions :

Please describe how you will measure the success of this organizational workstream.

Annual review of the Community Needs Assessment will inform continued prioritization of target populations, and will assist in defining effectiveness of initiatives. When combined with specific Program metrics for target populations will further identify effectiveness of specific activities such as patient engagement and cultural support. Communication and information sharing with CBOs will afford opportunities to more effectively understand the extent to which initiatives have been successful.

Additionally, we will track the number of clinicians and staff educated in cultural competency principles, and obtain feedback regarding the practical application of what they learned.

**✅ IPQR Module 5.1 - Prescribed Milestones**

**Instructions :**

Please enter and update target dates, as well as breakdown tasks with target dates for prescribed milestones. For milestones that are due within the reporting period, documentation is required to provide evidence of milestone achievement.

Any explanations regarding altered or missed target commitments must be included within the textbox, not as narrative within uploaded documentation.

Milestone/Task Name	Status	Description	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter	AV
<b>Milestone #1</b> Perform current state assessment of IT capabilities across network, identifying any critical gaps, including readiness for data sharing and the implementation of interoperable IT platform(s).	Completed	Detailed IT current state assessment. Relevant QEs (RHIOs/HIEs) should be involved in performing this assessment.	04/01/2015	06/30/2016	04/01/2015	06/30/2016	06/30/2016	DY2 Q1	NO
<b>Task</b> 2. Assess IT capabilities of partners	Completed	Task in progress - partner IT survey in process.	07/01/2015	06/30/2016	07/01/2015	06/30/2016	06/30/2016	DY2 Q1	
<b>Task</b> 2.1-Establish current state reporting dimensions – including at least:	Completed	Task in progress - partner IT survey in process	07/01/2015	12/31/2015	07/01/2015	12/31/2015	12/31/2015	DY1 Q3	
<b>Task</b> 2.1.1-EHR and other patient-related software applications	Completed	Task in progress - partner IT survey in process	07/01/2015	12/31/2015	07/01/2015	12/31/2015	12/31/2015	DY1 Q3	
<b>Task</b> 2.1.2-User Adoption of clinical software (may use MU level as proxy)	Completed	Task in progress - partner IT survey in process	07/01/2015	12/31/2015	07/01/2015	12/31/2015	12/31/2015	DY1 Q3	
<b>Task</b> 2.1.3-Data interchange capabilities (e.g., HIE participation, DIRECT, integration engines, etc.)	Completed	Task in progress - partner IT survey in process	07/01/2015	12/31/2015	07/01/2015	12/31/2015	12/31/2015	DY1 Q3	
<b>Task</b> 2.1.4-Security and confidentiality (require partners to supply current [<1 yr] security risk assessment to facilitate) in compliance with DEAA requirements	Completed	Task in progress - partner IT survey in process	07/01/2015	12/31/2015	07/01/2015	12/31/2015	12/31/2015	DY1 Q3

criteria established in 2.1.1 above.									
<b>Task</b> 2.3-PPS to validate data submitted from partners and compile into comprehensive current state assessment	Completed	Task not started - awaiting completion of partner IT survey	10/01/2015	03/31/2016	10/01/2015	03/31/2016	03/31/2016	DY1 Q4	
<b>Task</b> 3. ITDAC to establish periodic reporting requirements from partners on changes to their individual IT capabilities, adoption, etc.	Completed	Task not started - awaiting completion of partner IT survey	10/01/2015	12/31/2015	10/01/2015	12/31/2015	12/31/2015	DY1 Q3	
<b>Task</b> 4. Establish the ITDAC and clarify its scope, duties and role within the LCHP Governance structure	Completed	Task completed. Committee established.	04/01/2015	09/30/2015	04/01/2015	09/30/2015	09/30/2015	DY1 Q2	
<b>Task</b> 4.1-Establish subcommittees to the ITDAC - Security, Change Control and Data Governance	Completed	Task completed. Subcommittees to be Security and Data Governance. For now Change Control will remain under the purview of the ITDAC committee.	07/01/2015	09/30/2015	07/01/2015	09/30/2015	09/30/2015	DY1 Q2	
<b>Task</b> 5. Develop an overall LCHP IT Strategic Plan	Completed	Task in progress	04/01/2015	06/30/2016	04/01/2015	06/30/2016	06/30/2016	DY2 Q1	
<b>Task</b> 6. Review the LCHP IT Strategic Plan with DSRIP program management and PPS partners	Completed	Task not yet started	04/01/2016	06/30/2016	04/01/2016	06/30/2016	06/30/2016	DY2 Q1	
<b>Task</b> 7. Identify gaps between minimum requirements and current state	Completed	Task not yet started	10/01/2015	03/31/2016	10/01/2015	03/31/2016	03/31/2016	DY1 Q4	
<b>Task</b> 8. Finalize the LCHP IT Strategic Plan	Completed	Task not yet started	04/01/2016	06/30/2016	04/01/2016	06/30/2016	06/30/2016	DY2 Q1	
<b>Task</b> 1. IT and Data Analytics Committee (ITDAC) to establish minimum EHR capabilities, EHR adoption, system integration/interoperability and security expectations for partners	Completed	At minimum, the Electronic Health Record for partners participating in the LCHP PPS as providers of hospital or primary care will be Meaningful Use ("MU") certified. The EHR will be capable of producing CCD (Continuity of Care) documents. With regard to the ability to exchange data, EHRs will be expected to have the capability of connecting with Health Information Exchanges (HIEs) such as HIXNY, HealthlinkNY, HealtheConnections, etc...  Partners will be expected to have Business Associates' Agreements (BAA) in place in order to ensure the security of any shared clinical data. Any shared Medicaid data provided	07/01/2015	09/30/2015	07/01/2015	09/30/2015	09/30/2015	DY1 Q2

# New York State Department Of Health Delivery System Reform Incentive Payment Project

## DSRIP Implementation Plan Project

### Leatherstocking Collaborative Health Partners (PPS ID:22)

#### ✅ IPQR Module 5.3 - Major Risks to Implementation & Risk Mitigation Strategies

##### Instructions :

Please describe the key challenges or risks that you foresee in creating and implementing your IT governance structure, your plans for data sharing across your network, your approach to data security and confidentiality, and the achievement of the milestones described above, including the potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

At this point in time, having not yet received confirmation of capital funding, it is not clear whether the PPS will have the capital and/or human resources to move forward with an integrated Software-as-a-Service platform across the network as discussed in original IT implementation plan. Current plans for clinical interoperability rely heavily on partner participation with a fully functioning HIE system, facilitated by IT subject matter experts within the PPS. If capital is approved and if IT human resources are identified, that that point in time the PPS could consider the development of a more integrated partner information technology infrastructure.

The availability of IT human resources is a potential risk with being able to achieve a variety of IT deliverables – specifically work items that involved modifications to current EMR programming as well as the development of clinical outcome dashboards.

DY1Q4 Update: We have received word that no IT capital projects were approved in the CRFP process. At this point in time, the PPS will be pursuing strategies that rely on existing infrastructure rather than new capital and build. Primary vehicles for data sharing will be encouraging partners to develop relationships with RHIO so that the SHIN-NY network becomes more robust. Where applicable, PPS will also look to expand use of Epic EMR through EpicCareLink, and of NetSmart care navigation platform.

#### ✅ IPQR Module 5.4 - Major Dependencies on Organizational Workstreams

##### Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

The PMO (Project Management Office)--DSRIP Operations Team, will depend on IT to set up and provide base-level support for products such as SharePoint for collaboration and Project Server to track large projects as well as custom reporting on progress, budgets, external dependencies, etc.

LCHP will ensure care quality and coordination using federally- and state-compliant data-sharing plans. To ensure that LCHP's PPS partners act in unison to safeguard data privacy and security, and to uphold all regulatory requirements including HIPAA privacy provisions, the LCHP has established the Information Technology and Data Analytics Committee (ITDAC). The ITDAC will finalize a data sharing plan to describe consent and change management approaches; incorporate federally- and state-compliant usage agreements; develop diverse data-sharing methods to ensure interconnectivity while guarding data security; outline processes for monitoring compliance with pertinent regulations and channels for implementing corrective action when necessary; and implement a consistent and universal data privacy and security training program.

To ensure privacy and security, all LCHP partners will uniformly use Business Associate and Data Use Agreements, which the ITDAC will finalize and oversee. LCHP will conduct an IT security audit to evaluation and mitigate risks. As LCHP will bring together diverse organizations and a diverse workforce, training will be necessary to ensure data privacy, security and universal adherence to HIPAA privacy provisions across LCHP.

# New York State Department Of Health Delivery System Reform Incentive Payment Project

## DSRIP Implementation Plan Project

### Leatherstocking Collaborative Health Partners (PPS ID:22)

LCHP will leverage diverse resources to ensure interconnectivity, enabling real-time sharing of relevant information to support efficient and effective patient care while meeting all security and privacy standards. Since it is unlikely that any single method of data-sharing will suffice for the diverse needs of LCHP, multiple methods will be used to coordinate patient care across the LCHP network and to ensure HIPAA privacy.

LCHP will explore a number of strategies including health information exchanges (HIEs) and HIE interconnections (leveraging the regional SHIN-NY/RHIO); direct messaging using Meaningful Use (MU)-compliant electronic health records (EHRs) and health standards profiles to share data with partners who do not have EMR/fax capability; a service bureau to provide EMR access to providers currently using paper records or non-MU certified products that preclude data sharing; data warehousing; an enterprise master patient indexing system to share patient identifiers and records across disparate systems; and population health software to track medical and social needs. We will also accommodate state/federal regulations regarding which data can be shared and with whom (e.g., behavioral health data sharing with PCPs).

The PPS has purchased "Performance Logic" as a DSRIP specific project management tool. At this point in time, it is envisioned that Performance Logic will serve as a portal through which partners can provide required updates such as progress on work plans, measures, and actively engaged patients. Training on this tool is underway. As per information outlined in the previous "Risk" section, any plans to move forward with any other consolidated IT platforms across the network are completely dependent upon capital and human resource availability.

Additional dependencies may include: - Finance, - Workforce, - Operational/Clinical stakeholder input. AHEC will work with IT and Performance Reporting workstreams to identify and develop a data collection process for workforce.

The IT function along with Governance, Change Control and the ITDAC is integral to support most of the related initiatives.

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Leatherstocking Collaborative Health Partners (PPS ID:22)**

**✓ IPQR Module 5.5 - Roles and Responsibilities**

**Instructions :**

Please list and elaborate upon the key people/organizations responsible for this organizational workstream and describe what their responsibilities involve.

<b>Role</b>	<b>Name of person / organization (if known at this stage)</b>	<b>Key deliverables / responsibilities</b>
Telecommunications manager	Telecommunications manager (Bassett Medical Center--Lead agency for LCHP--Leatherstocking Collaborative Health Partners)	Review data line contracts and order new service as necessary
Privacy Officer	Rob LaPolt, Privacy Officer (Bassett Medical Center--Lead Agency for LCHP)	Manage security/confidentiality program
Chief Medical Information Officer (CMIO)	Scott Cohen, MD, CMIO (Bassett Medical Center--Lead Agency for LCHP)	Oversight of IT and Data Analytics Committee activities; facilitate developing a plan for clinical interoperability
Network support/administration staff	Network Technology Division (Bassett Medical Center--Lead agency for LCHP)	Develop and execute data transfer testing plan
Systems analyst	Systems analyst (Bassett Medical Center--Lead agency for LCHP)	Create IT remediation plan based on test and inventory results
IT steering committee	ITDAC Members: Scott Cohen, Co-Chair Jack Sienkowicz, Co-Chair Edward Marryott Brian Miller Scott Groom Frank Tilke Robert Lapolt Michelle Sowich-Shanley Steve Klem	Develop change management process and achieve buy-in
Operations manager(s)	Operations manager(s) (Bassett Medical Center--Lead agency for LCHP)	Make indicated changes in existing policies and procedures to support new change management process
Network and database staff	Network Technology Division (Bassett Medical Center--Lead agency for LCHP)	Plan analysis and interoperability
Sub-committee of ITDAC plus other key stakeholders	ITDAC Subcommittee (Members not yet known)	HIE search and selection
PMO resources	PMO Resources to be assigned at time of project (Bassett Medical Center--Lead Agency for LCHP)	Manage HIE implementation and rollout
Technical staff	IT Technical staff (Bassett Medical Center--Lead agency for LCHP)	Execute HIE implementation and rollout
Administrative support	Brett Wilhelm, DSRIP Project Manager	Create and tabulate survey Poll partners for current security capabilities
Application development staff	Clinical Applications Group (Bassett Medical Center--Lead Agency for LCHP)	Create mobile signup application

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Leatherstocking Collaborative Health Partners (PPS ID:22)**

<b>Role</b>	<b>Name of person / organization (if known at this stage)</b>	<b>Key deliverables / responsibilities</b>
Search and selection personnel	IT management (Bassett Medical Center--Lead Agency for LCHP)	Identify, obtain, and implement kiosk software for signups
Content-area experts	Clinical Subject Matter Experts within PPS	Create appropriate training modules in LMS for navigators
Security/confidentiality committee	ITDAC has determined that currently this work will be accomplished by full committee membership - no subcommittee formed to date.	Oversee security program
Network and security staff	Rob LaPolt - Privacy Officer (Bassett Medical Center--Lead Agency for LCHP)	Implement security/confidentiality plan
External agency	Not yet known	Audit security/confidentiality plan compliance and perform penetration testing, etc.
Fixed asset staff from finance	Accounting Departments of Partners	Supply hardware inventory list

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Leatherstocking Collaborative Health Partners (PPS ID:22)**

**✅ IPQR Module 5.6 - Key Stakeholders**

**Instructions :**

Please identify the key stakeholders involved, both within and outside the PPS.

<b>Key stakeholders</b>	<b>Role in relation to this organizational workstream</b>	<b>Key deliverables / responsibilities</b>
<b>Internal Stakeholders</b>		
PPS Project Teams	PPS Project Teams	Rely on IT work to accomplish project requirements
PPS Performance Reporting Committee	PPS Performance Reporting Committee	Rely on IT work to accomplish project requirements
Key roles within partners to be involved from a Governance and Operational perspective include: - CEO - CIO - CFO - CMIO - CNO - Data, infrastructure and security leads - RHIO contacts, etc	CEO, CIO, CFO, CMIO, etc.	IT Governance, change management, IT and data architecture, data security, confidentiality plan data exchange plans, risk management and progress reporting
<b>External Stakeholders</b>		
NYS DOH	Administration of DSRIP Program	Administration of DSRIP Program
RHIO/HIE Providers, NYS	RHIO/HIE Providers, NYS	Will be impacted by IT Connectivity Execution
NYS-OMH	Subject Matter Expert (SME) with regard to mental health regulations	Guidance to PPS with regard to regulatory oversight of mental health regulations
NYS-OASAS	Subject Matter Expert (SME) with regard alcohol and substance abuse regulations	Guidance to PPS with regard to regulatory oversight and HIPAA Compliance for alcohol and substance abuse
Medicaid Beneficiaries	TBD	Participate and provide feedback

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Leatherstocking Collaborative Health Partners (PPS ID:22)**

**✓ IPQR Module 5.7 - Progress Reporting**

**Instructions :**

Please describe how you will measure the success of this organizational workstream.

Every initiative—whether a selected project or an Organizational workstream—will be managed by the DSRIP Operations Team using a sophisticated project management tool (e.g., Microsoft Project). Each sub-project will be structured to reflect Milestones and committed due dates for that project, for each Partner (in the case of the 11 Projects) or each "committee" (in the case of Organizational initiatives such as Financial Sustainability). The % Complete for each will be captured from the project management system data as part of regular progress reporting and rolled up into the DOH-specified progress reporting mechanism, using the performance reporting infrastructure and defined/standardized processes.

DY1Q4 update - project management tool selected by the PPS is "Performance Logic". At this point in time this software has been fully implemented within PMO Administrative team and is being used to track and report on progress for clinical and organizational projects.

Progress reporting may include:

- Tracking of IT Strategic Plan including workforce alignment and training, IT change strategy and IT budget
- Documentation of process and workflow demonstrating implementation of electronic health records across all partners
- Meaningful Use (MU) and PCMH level-3 tracking
- Documentation of patient engagement/communication system
- Evidence of use of telemedicine or other remote monitoring services
- Evidence of implementation of specific clinical workflows

**IPQR Module 5.8 - IA Monitoring**

**Instructions :**

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Leatherstocking Collaborative Health Partners (PPS ID:22)**

**Section 06 – Performance Reporting**

**✅ IPQR Module 6.1 - Prescribed Milestones**

**Instructions :**

Please enter and update target dates, as well as breakdown tasks with target dates for prescribed milestones. For milestones that are due within the reporting period, documentation is required to provide evidence of milestone achievement.

Any explanations regarding altered or missed target commitments must be included within the textbox, not as narrative within uploaded documentation.

Milestone/Task Name	Status	Description	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter	AV
<b>Milestone #1</b> Establish reporting structure for PPS-wide performance reporting and communication.	Completed	Performance reporting and communications strategy, signed off by PPS Board. This should include: -- The identification of individuals responsible for clinical and financial outcomes of specific patient pathways; -- Your plans for the creation and use of clinical quality & performance dashboards -- Your approach to Rapid Cycle Evaluation	04/01/2015	12/31/2016	04/01/2015	12/31/2016	12/31/2016	DY2 Q3	NO
<b>Task</b> 1. Create a consolidated list of reporting (performance, progress and actively engaged patients) requirements, both those related to individual projects and overall	Completed	Have identified reporting requirements.	04/01/2015	09/30/2015	04/01/2015	09/30/2015	09/30/2015	DY1 Q2

## DSRIP Implementation Plan Project

### Leatherstocking Collaborative Health Partners (PPS ID:22)

#### ✅ IPQR Module 6.3 - Major Risks to Implementation & Risk Mitigation Strategies

##### Instructions :

Please describe the key challenges or risks that you foresee in implementing performance reporting structures and processes and effective performance management within your network, including potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

Definition of metrics will first require agreement among Partners on how each metric is to be defined for each project, then a current state analysis of existing metrics/data elements and definition of gaps to realize metrics capture. There is a dependency on vendors' ability to enhance their systems timely, so manually providing metrics will be necessary in the meantime.

Unfamiliarity and complexity of data definitions from different data sources. Mitigation: Data Governance to define common terms and assure that data is mapped consistently.

Risk of varying utility of different data sets from a complex network of partners/providers. Mitigation: Data Governance to define common terms and assure that data is validated and mapped consistently.

Risk of cultural and communication variety among data source providers. Mitigation: Data Governance to assure that common data elements are mapped consistently and defined appropriately.

DY1 Second quarter - risks remain the same.

#### ✅ IPQR Module 6.4 - Major Dependencies on Organizational Workstreams

##### Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

There is a dependency on IT Systems and Processes to design and construct a reporting database, and to identify/implement a Learning Management System for training on metrics. These dependencies impact implementation timing, so collaborative/interdependent workplans will be developed to manage the effort.

This initiative will rely heavily on the ability to collect data from a variety of disparate sources, normalize it, report off of it. This will be dependent on the network choosing a single reporting platform and using data governance principles to ensure consistency. Will also need to include data definitions, data ownership, metrics and related calculations. The latter will need to reflect metric data elements that are agreed-upon by PPS partners, and accommodated in each partner's respective vendor system. These data elements either already exist, or will need to be added, per a current state/gap analysis.

Performance reporting is dependent on Governance, IT Systems, Workforce, Practitioner Engagement and Finance/Budget to succeed. Effective

# New York State Department Of Health Delivery System Reform Incentive Payment Project

## DSRIP Implementation Plan Project

### Leatherstocking Collaborative Health Partners (PPS ID:22)

governance will be required to ensure the consistent reporting of metrics by partners. IT Systems development will be a critical milestone of the ability of partners to report in an efficient and effective manner. Practitioners will need to be engaged in the project work and appropriately utilize prescribed methods of clinical data capture to ensure ability of partners to successfully report on meeting requirements. Finally, Finance and Budget will have a substantial impact on funds flow model which will, in turn, affect partner's ability to obtain required reporting systems.

AHEC will work with IT and Performance Reporting workstreams to identify and develop a data collection process for workforce. AHEC will also support development of training curriculum and competency for performance reporting.

DY1 Second quarter - dependencies remain the same.

DY1Q4 - AHEC has developed HWApps program for data collection for workforce. Training methodology is being considered by clinical performance committee in terms of identifying which groups need training on which aspects of performance measurement.

**✓ IPQR Module 6.5 - Roles and Responsibilities**

**Instructions :**

Please list and elaborate upon the key people/organizations responsible for this organizational workstream and describe what their responsibilities involve.

<b>Role</b>	<b>Name of person / organization (if known at this stage)</b>	<b>Key deliverables / responsibilities</b>
Network and database staff	Network and database staff (Bassett Medical Center--Lead agency for LCHP--Leatherstocking Collaborative Health Partners)	Data Analysis and planning; Analyze quality indicator and performance metrics
DSRIP Operations Team resources (Bassett Medical Center--Lead Agency for LCHP (Leatherstocking Collaborative Health Partners)	Brett Wilhelm, Director of Operations and Data Analytics, DSRIP (Bassett Medical Center--Lead agency for LCHP)	Oversight of project activities and of reporting process; Manage LMS (Learning Management System) implementation, course development and rollout; Develop and monitor LMS compliance by each Partner organization
Chief Medical Information Officer (CMIO)	Scott Cohen, MD (Bassett Medical Center--Lead Agency for LCHP)	Oversight of IT and Data Analytics Committee activities; facilitate developing a plan for clinical interoperability
Director, DSRIP Finance Operations	Michael Sweet (Bassett Medical Center--Lead Agency for LCHP)	Leading finance committee and VBP task force through transition and direct oversight of financial sustainability plan

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Leatherstocking Collaborative Health Partners (PPS ID:22)**

**✓ IPQR Module 6.6 - Key Stakeholders**

**Instructions :**

Please identify the key stakeholders involved, both within and outside the PPS.

<b>Key stakeholders</b>	<b>Role in relation to this organizational workstream</b>	<b>Key deliverables / responsibilities</b>
<b>Internal Stakeholders</b>		
Privacy Officer	Privacy Officer (in charge of IT security) - Rob Lapolt	Manage security/confidentiality program; Gatekeeper of PPS
PPS Project Teams	PPS Project Teams	Submit necessary documentation for performance reporting, working collaboratively with IT
Key roles within partners to be involved from a Governance and Operational perspective include: - CEO - CIO - CFO - CMIO - CNO - Data, infrastructure and security leads - RHIO contacts, etc	- CEO - CIO - CFO - CMIO - CNO - Data, infrastructure and security leads - RHIO contacts, etc	IT Governance, change management, IT and data architecture, data security, confidentiality plan data exchange plans, risk management and progress reporting
Partners	Data providers	Required reports consistent with metric definitions and data sources
Executive Governance Body of PPS	Oversight of VBP plan and compliance planning	Responsible for review of reporting and oversight of compliance and finance committee with regard to transition to VBP
<b>External Stakeholders</b>		
NYS DOH	Administration of DSRIP Program	Administration of DSRIP Program
Medicaid Beneficiaries (patients)	Service recipient	Participate and provide feedback
Managed Care Organizations (MCO)	Partner	Review of quality measures/metric reporting
Sub-committee of ITDAC plus other key stakeholders	ITDAC Subcommittees (currently include full ITDAC membership)	Data gathering
Technical staff	Business Intelligence Department - (Bassett Medical Center--Lead agency for LCHP)	Develop reporting tools
DSRIP Committee Chairs	DSRIP Committee Chairs - all projects	Champion adoption and design of dashboards and score cards

New York State Department Of Health  
Delivery System Reform Incentive Payment Project

DSRIP Implementation Plan Project

Leatherstocking Collaborative Health Partners (PPS ID:22)

✔ IPQR Module 6.7 - IT Expectations

Instructions :

Please clearly describe how the development of shared IT infrastructure across the PPS will support your approach to performance reporting.

LCHP will access metrics contained in the Medicaid Data Warehouse. Web-based performance dashboards will provide baseline performance data and data by region. LCHP will collect and incorporate into its monthly performance monitoring qualitative feedback obtained from consumers and the community through the LCHP website, the Consumer Subcommittee, the compliance hotline, town hall meetings, letters and phone calls. We will work with IT to define and develop clear expectation and rules for appropriate dissemination and collection of reporting data (performance, progress, actively engaged patients).

✔ IPQR Module 6.8 - Progress Reporting

Instructions :

Please describe how you will measure the success of this organizational workstream.

Every initiative—whether a selected project or an Organizational workstream—will be managed by the DSRIP Operations Team using Performance Logic - a project management software tool specifically designed for the DSRIP project. Each sub-project will be structured to reflect Milestones and committed due dates for that project, for each Partner (in the case of the 11 Projects) or each "committee" (in the case of Organizational initiatives such as Financial Sustainability). The % Complete for each will be captured from the project management system data as part of regular progress reporting and rolled up into the DOH-specified progress reporting mechanism, using the performance reporting infrastructure and defined/standardized processes.

Progress reporting of the Performance Reporting workstream will involve establishment of timelines and milestones and reporting against them.

IPQR Module 6.9 - IA Monitoring

Instructions :

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Leatherstocking Collaborative Health Partners (PPS ID:22)**

**Section 07 – Practitioner Engagement**

**IPQR Module 7.1 - Prescribed Milestones**

**Instructions :**

Please enter and update target dates, as well as breakdown tasks with target dates for prescribed milestones. For milestones that are due within the reporting period, documentation is required to provide evidence of milestone achievement.

Any explanations regarding altered or missed target commitments must be included within the textbox, not as narrative within uploaded documentation.

Milestone/Task Name	Status	Description	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter	AV
<b>Milestone #1</b> Develop Practitioners communication and engagement plan.	Completed	Practitioner communication and engagement plan. This should include: -- Your plans for creating PPS-wide professional groups / communities and their role in the PPS structure -- The development of standard performance reports to professional groups --The identification of profession / peer-group representatives for relevant governing bodies, including (but not limited to) Clinical Quality Committee	04/01/2015	03/31/2016	04/01/2015	03/31/2016	03/31/2016	DY1 Q4	NO
<b>Task</b> 1. Share DSRIP introduction presentation with stakeholders throughout PPS	Completed	Task completed	04/01/2015	06/30/2015	04/01/2015	06/30/2015	06/30/2015	DY1 Q1	
<b>Task</b> 2. Identify physician/provider stakeholders in PPS to engage in Clinical Quality Committee (a. k.a. Clinical Performance Committee)	Completed	Complete; Physician stakeholders are active participants on the clinical performance committee and tasks were identified to begin working on clinical quality initiatives.	04/01/2015	06/30/2015	04/01/2015	06/30/2015	06/30/2015	DY1 Q1	
<b>Task</b> 3. Ensure appropriate practitioner/clinician involvement in committees including, but not limited to, Clinical Performance Committee (e.g., Governance, Compliance, PAC, Workforce, ITDAC)	Completed	Task in Progress	04/01/2015	03/31/2016	04/01/2015	03/31/2016	03/31/2016	DY1 Q4	
<b>Task</b> 4. In development of internal and external communication plans, dedicate a portion of plan to physician/clinical engagement	Completed	Task in Progress	04/01/2015	12/31/2015	04/01/2015	12/31/2015	12/31/2015	DY1 Q3

DSRIP Implementation Plan Project

Leatherstocking Collaborative Health Partners (PPS ID:22)

✔ IPQR Module 7.3 - Major Risks to Implementation & Risk Mitigation Strategies

Instructions :

Please describe the current level of engagement of your physician community in the DSRIP program and describe the key challenges or risks that you foresee in implementing your plans for physician engagement and achieving the milestones described above. Describe any potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

Key stakeholder engagement & buy in; to mitigate this risk, the PMO office will continue to engage practitioners in implementation planning, outcomes, metrics and other deliverables.

Rural nature of LCHP PPS limits ability for in-person training/education; can utilize alternative delivery options such as WebEx and other remote technologies. Need to ensure a communication plan that is effectively tailored to reach key stakeholders (i.e., in person, e-mail, webex, etc.) that incorporate geographic limitations within the plan.

Culture shift with the conversion to protocols; to mitigate this risk, we'll ensure key practitioner engagement in evidence-based practices from the onset to build consensus. The rural nature of the PPS can influence the practitioner's sense of engagement in the project and management of outcomes. This can be mitigated through direct outreach to practitioner groups by LCHP and project leadership, peer sharing of best practices through printed and online newsletters. The funds flow model is being designed to recognize direct practitioner engagement.

Competing priorities continue to be an issue; to more effectively manage these concerns, we will seek to streamline communication in the most effective manner possible.

✔ IPQR Module 7.4 - Major Dependencies on Organizational Workstreams

Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

Practitioner engagement will be closely intertwined with many other workstreams. These include Clinical Integration, Population Health Management (working to improve the health of the population through culture change and a shift in thinking from fee-for-service to value-based reimbursement), Financial Sustainability (change in workflows= near term reduction in productivity; time away from clinic for requisite training=lower volumes/less money; shift to value-based reimbursement from fee-for service model); Cultural Competency and Health Literacy (practitioner engagement required to cultivate a transformation in the approach to healthcare delivery).

While not major dependencies, under IT Systems & Processes we state an intent to acquire an automated survey instrument and a Learning Management system. Both of these will allow aspects of the Provider Engagement Strategy to be executed more quickly and efficiently. The need to incorporate monitoring mechanisms is dependent upon development of the Performance Reporting tools and technologies.

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Leatherstocking Collaborative Health Partners (PPS ID:22)**

**✔ IPQR Module 7.5 - Roles and Responsibilities**

**Instructions :**

Please list and elaborate upon the key people/organizations responsible for this organizational workstream and describe what their responsibilities involve.

<b>Role</b>	<b>Name of person / organization (if known at this stage)</b>	<b>Key deliverables / responsibilities</b>
Chief Medical Information Officer	Scott Cohen MD, - Bassett Medical Center (Lead Agency for LCHP (Leatherstocking Collaborative Health Partners) and Partners	Chair of Practitioner Engagement Subcommittee of clinical performance committee
Hospitalist - Community Memorial	Robert DeLorme, MD, Community Memorial Hosp (Partner organization)	Prospective co-chair of Clinical Performance Committee
Chairs of Project Committees	Bassett Medical Center (Lead Agency for LCHP)	Training, Education, Practitioner Engagement
Senior Director of Care Coordination	Donna Anderson, Bassett Medical Center (Lead Agency for LCHP)	Coordinate and facilitate Clinical Coordination activities
Network Operations Manager of PPS Partner Engagement	Lucinda Levene, Bassett Medical Center (Lead Agency for LCHP)	Communication, Practitioner Engagement
Executive Governance Body (EGB)	Bassett Medical Center (Lead Agency for LCHP)	Oversight of Practitioner Engagement
DSRIP Clinical Director	James Anderson, PhD, Bassett Medical Center (Lead Agency for LCHP)	Engage practitioners including Behavioral Health, Primary Care, etc along with appropriate LGUs

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Leatherstocking Collaborative Health Partners (PPS ID:22)**

**✓ IPQR Module 7.6 - Key Stakeholders**

**Instructions :**

Please identify the key stakeholders involved, both within and outside the PPS.

<b>Key stakeholders</b>	<b>Role in relation to this organizational workstream</b>	<b>Key deliverables / responsibilities</b>
<b>Internal Stakeholders</b>		
Members of PPS Medical Staff	Healthcare practitioners	Achieve Metrics and Milestones in relation to projects they are involved in; engage in standardized protocol development across PPS
Jennie Gliha, VP HR, AO Fox, Zoe Aponte, Catskill Area Hospice, Susan Cipolla, HR Director, Catholic Charities, Richard Diodati, HR Director, Sitrin, Pam Levy, Director, Catskill Center for Independence, George Seuss, CEO ARC of Delaware County, Megan Staring, Asst. Director, Catskill Center for Independence, Cynthia Sternard, HR Community Memorial Hospital"	Workforce Committee	A group of cross-functional resources (e.g., WF PM, HR, DSRIP lead, Union representative) responsible for overall direction, guidance and decisions related to the workforce transformation agenda
IT and Data Analytics Committee	Provision of data and information to enable practitioners to complete their goals and objectives	Develop change management process and achieve buy-in; Availability of information in a timely way and in the desired format.
Community Based Organizations	Training, navigation, developing resources available across PPS; providing support services in hard to reach populations and geographic areas	Develop and conduct training programs to educate on protocols and other provider-related care delivery methods
<b>External Stakeholders</b>		
AHEC	Workforce consultant	Utilize proven methods of training for curriculum development/distance learning
NYS DOH	Statement of principles of DSRIP Program	Monitor DSRIP requirements
Medicaid Beneficiaries	Consumers of care	Membership on PAC, participate in focus groups and feedback on patient satisfaction

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Leatherstocking Collaborative Health Partners (PPS ID:22)**

**✅ IPQR Module 7.7 - IT Expectations**

**Instructions :**

Please clearly describe how the development of shared IT infrastructure across the PPS will support this particular workstream.

The shared IT infrastructure is a necessary ingredient for practitioner engagement. Practitioners will need access to clinical and operational information to conduct their work. This will facilitate the implementation of agreed-upon clinical protocols, the mining of the clinical database to identify desired groups of patients, and the implementation of tactics and strategies to support population health management and attention to particular patient care requirements. Clinical information will be accessed via existing EMR systems and their associated data sharing capability (e.g., Epic CareLink). State-based information exchanges such as HIX-NY and SHIN-NY will be critical for practitioners to share information and be fully engaged in the care transformation process.

**✅ IPQR Module 7.8 - Progress Reporting**

**Instructions :**

Please describe how you will measure the success of this organizational workstream.

By enhancing proven methods of practitioner engagement (functional committees, meetings, individual meetings) and developing the Clinical Performance Committee, the PPS will measure the level of practitioner participation in this initiative. It is expected that in areas such as protocol development, interface with organizational committees (e.g., ITDAC, Workforce, EGB) and feedback with respect to performance improvement opportunities there will be ample opportunity to measure and report on practitioner engagement.

**IPQR Module 7.9 - IA Monitoring**

DSRIP Implementation Plan Project

Leatherstocking Collaborative Health Partners (PPS ID:22)

✓ IPQR Module 8.3 - Major Risks to Implementation & Risk Mitigation Strategies

Instructions :

Please describe the key challenges or risks that you foresee in implementing these cross-cutting organizational strategies, including potential impacts on specific projects and, crucially, any risks that will undermine your ability to achieve outcome measure targets.

Implementation of this plan may require significant infusion of capital to meet the information technology requirements. Should that be the case, every effort will be made to identify sources of capital with no guarantee that such will be available.

Accomplish a major culture shift in terms of the provision of health care services; to mitigate this risk, the PPS will engage a proven health care consultant and will utilize education and orientation programs for all personnel to understand and adopt important population health approaches. The widespread and rural geography of the PPS make it more difficult to actively engage all partners to the degree necessary to transform population health delivery methods. To mitigate this risk, outreach by LCHP leadership will be critical in achieving this culture shift. Socioeconomic factors within the PPS (e.g., financial means, obesity, educational status) increase the difficulty of directly affecting outcomes. To mitigate this risk we will collaborate with the PHIP, CBOs, social service agencies to educate providers (challenged by reduced provider availability within the PPS).

Health care leaders are disinclined to reduce beds in practice and/or on operating certificates; to mitigate this risk, the PPS will embrace formal expense management processes to ensure underutilized resources, such as inpatient beds, are reduced in scale. Of note, through the development and evolution of the Bassett Healthcare Network, a significant "right-sizing" of inpatient capacity was undertaken. This resulted in the reduction of a significant number of beds, as well as the closure of a hospital.

Achievement of 90% VBP by DY5; to mitigate this risk, the PPS will develop a formal EGB-approved plan outlining the specific actions and requirements to transition to this new model of reimbursement. Accountability will be established and every effort will be made to adhere to the tenets of the plan. There is significant risk in this with respect to a potential willingness of third-party payers to negotiate an equitable transformation to a value-based reimbursement model. Support from the DOH and other forces will be critical to a successful transformation.

✓ IPQR Module 8.4 - Major Dependencies on Organizational Workstreams

Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

In order to successfully achieve a workable level of clinical integration across such a large system, HIE (Health Information Exchange) capabilities are a requirement for each partner. This ties closely with other integration needs, and should be designed accordingly with connectivity infrastructure initiatives.

The Workforce Committee will be a key stakeholder in the success of this initiative, ensuring there are adequate staff trained to do this work.

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Leatherstocking Collaborative Health Partners (PPS ID:22)**

Clinical Performance Committee will take a lead role in this initiative to ensure effective measurement and tracking of progress towards clinical integration.

Clinical leadership will ensure Practitioner Engagement as a necessary ingredient for buy-in to the enhanced model of care. With practitioner engagement, there will be a powerful and effective impact on other members of the PPS network in order to complete the culture shift necessary for successful adaptation.

Finance prioritization will be required to support the PPS in engaging in this work.

Implementation of the Population Health Management strategy is highly dependent upon the utilization of several IT programs and specialized personnel. The implementation of resources should be co-incident with the development and implementation of Population Health Management processes, procedures, workflows and workforce.

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Leatherstocking Collaborative Health Partners (PPS ID:22)**

**✓ IPQR Module 8.5 - Roles and Responsibilities**

**Instructions :**

Please list and elaborate upon the key people/organizations responsible for this organizational work stream and describe what their responsibilities involve.

<b>Role</b>	<b>Name of person / organization (if known at this stage)</b>	<b>Key deliverables / responsibilities</b>
Executive Director, DSRIP	Leonard Lindenmuth, Bassett Medical Center (Lead Agency for LCHP--Leatherstocking Collaborative Health Partners)	Leading initiative; culture change
LCHP Operations Team	Bassett Medical Center (Lead Agency for LCHP)	Leading initiative; culture change
Network Manager, PPS Partner Engagement	Lucinda Levene, Bassett Medical Center (Lead Agency for LCHP)	Education, organization, leadership of initiative
County Health Departments	PPS counties - Otsego, Schoharie, Delaware, Herkimer & Madison	Partner with PPS entities to actualize key components of the total population health management plan
Research Department	John May, MD Bassett Medical Center (Lead Agency for LCHP)	CNA development; population health management specialists
Executive Governance Body	Bassett Medical Center (Lead Agency for LCHP)	Oversight of implementation/metrics/ measurement

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Leatherstocking Collaborative Health Partners (PPS ID:22)**

**✅ IPQR Module 8.6 - Key Stakeholders**

**Instructions :**

Please identify the key stakeholders involved, both within and outside the PPS.

<b>Key stakeholders</b>	<b>Role in relation to this organizational workstream</b>	<b>Key deliverables / responsibilities</b>
<b>Internal Stakeholders</b>		
Clinical Performance Committee	PPS	Lead initiative; facilitate culture change
David Haswell, Martha Sunkenberg , Lisa Betrus , Christa Serafin, Laurie Neander , Stephanie Lao, Deanna Charles, Bonnie Post, Celeste Johns, Joseph Sellers, Mike Kettle , Chris Kjolhede, Philip Heavner, Marion Mossman, Roy Korn, Norine Hodges	PPS Project Chairs	Incorporate principles of population health management in project activities
Community Based Organizations	Provide education to communities in general and medicaid beneficiaries in particular; providing support services in hard to reach populations and geographic areas	Engage community members/Medicaid recipients in population health management initiatives
Project Advisory Committee	Community Engagement and advisor to Executive Governance Body; Voice of Medicaid Recipients	Engage community members/Medicaid recipients in population health management initiatives
John May, MD - PHIP	Research	Collaborator on population health efforts
<b>External Stakeholders</b>		
Geisinger	Consultant	Lead initiative; facilitate culture change; model best practices
MCOs	Insurance	Assist in development of VBP model
NYS DOH	State-wide organization	Guidance and support in affecting the transformation
Medicaid Beneficiaries	Consumers of care	Membership on PAC, participate in focus groups and feedback on patient satisfaction

# New York State Department Of Health Delivery System Reform Incentive Payment Project

## DSRIP Implementation Plan Project

### Leatherstocking Collaborative Health Partners (PPS ID:22)

#### ✅ IPQR Module 8.7 - IT Expectations

##### Instructions :

Please describe the current Population Health Management IT capabilities in place throughout your PPS network and what your plans are at this stage for leveraging these capabilities and/or developing new IT infrastructure.

The shared IT infrastructure is a necessary ingredient for total population health management. Practitioners, PPS partners, organizational leaders and other key stakeholders will need access to clinical and operational information to conduct their work. This will facilitate implementing agreed-upon clinical protocols, dashboard metrics and milestones, mining of the clinical database to identify desired groups of patients, and implementation of tactics and strategies to support population health management and attention to prevention, screening, early detection, and timely intervention for disease processes.

This initiative underscores the need for a population health management analytic system, that includes predictive analytic for a variety of data markers. Such systems are commercially available.

#### ✅ IPQR Module 8.8 - Progress Reporting

##### Instructions :

Please describe how you will measure the success of this organizational workstream.

A comprehensive set of dashboard measures will be identified and utilized in operational activities and project implementation. These measures will give testimony to the speed with which a culture of total population health management becomes embedded in the PPS structure. This information will be incorporated into the formal communication plan that governs information flow throughout the PPS. Further, through the availability of these continuous assessments, strategies will be adopted to ensure the assimilation of key principles in care delivery.

Reference will be made to numerous metrics which will assist in the evaluation of the success of the total population health management strategy. These measures will be identified through third-party payer relationships, reference to HEDIS, identifying and measuring successful outcomes based on patient stratification, metrics identified from public health agencies, Upstate Health and Wellness Survey, Smoking Cessation enrollment and successful outcomes, as well as reports received from the 11 project teams. The goal will be to track measures relating to the effectiveness of steps taken to improve the health of the population. Some examples of key population health metrics include # of patients who received tobacco cessation counseling; # of patients who are identified who are assigned to a PCP who keep their appointments; # of patients who go through SBIRT screening who are referred for treatment and keep the follow up appointment.

#### IPQR Module 8.9 - IA Monitoring

New York State Department Of Health  
Delivery System Reform Incentive Payment Project

DSRIP Implementation Plan Project

Leatherstocking Collaborative Health Partners (PPS ID:22)

✔ IPQR Module 9.3 - Major Risks to Implementation & Risk Mitigation Strategies

Instructions :

Please describe the key challenges or risks that you foresee in improving the level of clinical integration throughout your network and achieving the milestones described above. Describe potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

Obtaining buy-in and support from clinicians and other key stakeholders, which in turn could impact DSRIP project success. To mitigate this risk, it will be important to engage key clinical staff, partners and other key stakeholders in the early stages of development. To the extent possible, a consensus approach will be taken in the implementation of these key tactics and strategies.

Funding of external consultant will be required. This will be included in the project management budget for consideration.

Funding for EHR interoperability is a barrier. Funding from CRFP was been requested but it was recently identified that request has not been approved. Clinical Information Sharing will need to rely on solutions that do not require capital. ITDAC committee is working on this plan.

There are competing workloads and priorities. A culture shift will be required to ensure success in this project. To mitigate this risk, we'll engage an external consultant (as funding permits) and the Director of PPS Partner & Patient Engagement to assist in this work. Continuous communication with administrative and clinical leadership with respect to the required prioritization will be required for this initiative to proceed.

With respect to inadequate or unprepared workforce, we will collaborate with neighboring PPSs in our region to strive for equitable access for hard-to-recruit positions among PPSs, collaborate among projects for effective use of resources, redeployment and retraining strategies as indicated in Workforce Strategy Section.

Clinical Integration for the purpose of this effort is defined as coordination of care across a continuum of services, settings and partners to optimize the care delivery system through interoperability, access, and patient and practitioner engagement.

Clinical integration is needed to facilitate the coordination of patient care across conditions, providers, settings, and time in order to achieve care that is safe, timely, effective, efficient, equitable, and patient-centered.

✔ IPQR Module 9.4 - Major Dependencies on Organizational Workstreams

Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

In order to successfully achieve a workable level of clinical integration across such a large system, HIE (Health Information Exchange) capabilities are a requirement for each partner. This ties closely with other integration needs, and should be designed accordingly with connectivity infrastructure initiatives.

# New York State Department Of Health Delivery System Reform Incentive Payment Project

## DSRIP Implementation Plan Project

### Leatherstocking Collaborative Health Partners (PPS ID:22)

Workforce Committee will be a key stakeholder in the success of this initiative, ensuring there are adequate staff trained to do this work. Clinical Performance Committee will take a lead role in this initiative to ensure effective measurement and tracking of progress towards clinical integration.

Clinical leadership will ensure practitioner engagement as a necessary ingredient for buy-in to the enhanced model of care. With practitioner engagement, there will be a powerful and effective impact on other members of the PPS network in order to complete the culture shift necessary for successful adaptation.

Finance prioritization will be required to support the PPS in engaging in this work.

Clinical Integration workplan will include a reference to the need to address cultural competency and health literacy for all patient referral processes utilizing navigation and care coordination across the care continuum. This will be done in a patient centered manner addressing the need for each individual patient.

An important enabler of Clinical Integration is EHR integration across the PPS. While the proposed HIE strategy will transport data from one system to another, for that data to be meaningful to the receiving clinician, individual partners will need to adopt a common/consistent clinical terminology and standardize their collection of clinical data. These decisions then need to be reflected in the design and setup of the individual partners' EHRs in order to improve the usefulness of data shared between and among partners.

**✔ IPQR Module 9.6 - Key Stakeholders**

**Instructions :**

Please identify the key stakeholders involved, both within and outside the PPS.

<b>Key stakeholders</b>	<b>Role in relation to this organizational workstream</b>	<b>Key deliverables / responsibilities</b>
<b>Internal Stakeholders</b>		
Clinical Governance Committee	PPS	Lead initiative; facilitate culture change
All Partner types - Hospitals, Skilled Nursing Facilities, Home Care Entity, CBOs, etc.	Partners	Participation and collaboration of protocol development, use of best practices, etc.
Navigators and Care Coordinators	Link patients to healthcare services efficiently	Institutionalized care coordination and navigation
Training personnel	Ensure consistent training across providers	Deliver training programs to assure clinical competency per defined protocols
<b>External Stakeholders</b>		
Medicaid Beneficiaries and their families	Consumers of care	Membership on PAC, participate in focus groups and feedback on patient satisfaction

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Leatherstocking Collaborative Health Partners (PPS ID:22)**

**✔ IPQR Module 9.7 - IT Expectations**

**Instructions :**

Please clearly describe how the development of shared IT infrastructure across the PPS will support this particular workstream.

Clinical integration would not be possible without IT systems integration across the PPS, reflecting results of the assessments done within this workstream. LCHP members will need to share clinical and non-clinical patient data and information in order to integrate care across the continuum of patient access. All partners will have access to information and reports based on their structures and roles in patient care.

Clinical information will be accessed via existing EMR systems and their associated data sharing capability (e.g., Epic CareLink). State-based information exchanges such as HIX-NY and SHIN-NY will be critical for practitioners to share information and be fully engaged in the care transformation process.

**✔ IPQR Module 9.8 - Progress Reporting**

**Instructions :**

Please describe how you will measure the success of this organizational workstream.

A master project management tool will be utilized to monitor the progress of this initiative. The master document will consist of various subsets required for the success - for e.g., workforce development, EHR capabilities, and adoption of clinical integration strategies . Key performance indicators will be identified and monitored. These will include milestones for projects, identification of obstacles and resolutions of such, points of interdependencies with other LCHP (Leatherstocking Collaborative Health Partners) entities, etc.

**IPQR Module 9.9 - IA Monitoring:**

**Instructions :**

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Leatherstocking Collaborative Health Partners (PPS ID:22)**

**Section 10 – General Project Reporting**

**✅ IPQR Module 10.1 - Overall approach to implementation**

**Instructions :**

Please summarize your intended approach to the implementation of your chosen DSRIP projects, including considerations around how this approach will allow for the successful development of concurrently implementing DSRIP projects.

Leatherstocking Collaborative Health Partner's (LCHP) approach to implementation planning has been to engage partners in high level and detailed planning sessions. These sessions include developing common tasks for each project's requirements, with expected completion dates adjusted as needed by individual partners.

Committee-level project planning has been a highly collaborative effort among different projects, Finance, IT and Data Analytics, Workforce and Performance Reporting Committees; to identify overlapping resource needs, ensure effective use of resources/funds and achieve economies of scale. Project planning and execution workgroups have also involved affected stakeholders to ensure realistic goals and commitments. To assist this effort, tools and templates were developed to facilitate these workgroup sessions, then project plans were developed for review by interested stakeholders.

Throughout this effort, and continuing through subsequent detailed planning and execution, the DSRIP Operations Team has facilitated meetings, and has ensured continuity, objectivity and convergence. The Operations Team has also assisted in identifying areas of potential project overlap, such as staffing, to enable collaboration among projects and partners to reduce cost and achieve continuity and consistency of project operations.

A Project management tool for all projects will be used by the DSRIP Operations Team, to ensure tracking of tasks to complete project requirements/milestones/deliverables, assign start/end dates and resource responsibility for each task. This allows for resource leveling and tracking of task interdependencies, and also enables consistent collection of data for project progress reporting. The intention is for each organization to report on their own progress in a web-based type tool, and for this tool to also be used to collect artifacts as supporting documentation. The Project management tool will also be used to track tasks in the Organizational Section projects to ensure consistent reporting and data collection.

The Project management tool will be used to track Risks and Issues affecting project completion, ensuring each has an owner and documented results/mitigation.

The DSRIP Operations Team will prepare PPS-level status and performance reporting to EGB (Executive Governance Body for PPS)

DY1Q4 Update: Performance Logic software has been selected and implemented as the tool for project data collection and progress reporting. At this point in time it has been fully rolled out within PPS Project Administrative Team, with some limited use by other partners.

**✅ IPQR Module 10.2 - Major dependencies between work streams and coordination of projects**

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Leatherstocking Collaborative Health Partners (PPS ID:22)**

**Instructions :**

Please describe how your approach will handle interdependencies between complementary projects, as well as between projects and cross-cutting PPS initiatives - for example, an IT infrastructure upgrade, or the establishment of data sharing protocols.

There is direct collaboration and engagement among projects, Finance, IT and Data Analytics, Workforce and Performance Reporting Committees; to identify overlapping resource needs, ensure effective use of resources/funds and achieve economies of scale. The Operations Team has also assisted in identifying areas of potential project overlap, such as staffing, to enable collaboration among projects and partners to reduce cost and achieve continuity and consistency of project operations and avoid duplication of costs/effort.

This collaborative effort will identify where IT supporting infrastructure needs exist, and to mitigate financial burden on individual partners where possible. Standardization of data collected and monitored will ensure effective and consistent patient care delivery and transformation as well as enable consistent outcomes reporting among partners. This will also identify where unique partner-specific needs exist to ensure adequate resources are planned for.

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Leatherstocking Collaborative Health Partners (PPS ID:22)**

**✔ IPQR Module 10.3 - Project Roles and Responsibilities**

**Instructions :**

Please outline the key individuals & organizations that play a role in the delivery of your PPS's DSRIP projects, as well as what their responsibilities are regarding governance, implementation, monitoring and reporting on your DSRIP projects.

<b>Role</b>	<b>Name of person / organization (if known at this stage)</b>	<b>Key deliverables / responsibilities</b>
Executive Director, DSRIP	Leonard Lindenmuth, Bassett Medical Center--Lead agency for LCHP--Leatherstocking Collaborative Health Partners	Lead initiative; oversee projects
Senior Director, Care Coordination	Donna Anderson, Bassett Medical Center-Lead Agency for LCHP	Expertise in care coordination and transitions; culture change; leading initiative
DSRIP Project Management Office	Bassett Medical Center, Lead Agency for LCHP	Lead initiative; facilitate culture change
Director, DSRIP Operations and Data Analytics	Brett Wilhelm, Bassett Medical Center, Lead Agency for LCHP	Oversight of DSRIP Office operations for all projects; expertise in data management and reporting
Manager, PPS Partner & Patient Engagement	Lucinda Levene, Bassett Medical Center-Lead Agency for LCHP	Education, organization, lead initiative
Director, LCHP Financial Management	Michael Sweet - Bassett Medical Center-Lead Agency for LCHP	Expertise in and oversight for finance and accounting
Chief Clinical Officer	Steven Heneghan, MD Bassett Medical Center-Lead Agency for LCHP	Lead initiative; facilitate culture change
Chief Operating Officer	Andrew Manzer - Bassett Medical Center-Lead Agency for LCHP	Lead initiative; facilitate culture change
Chief Financial Officer	Michael Taegeres, Bassett Medical Center-Lead Agency for LCHP	Lead initiative; facilitate culture change

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Leatherstocking Collaborative Health Partners (PPS ID:22)**

**✔ IPQR Module 10.4 - Overview of key stakeholders and how influenced by your DSRIP projects**

**Instructions :**

In the below table, please set out who the key stakeholders are that play a major role across multiple DSRIP projects. Please give an indication of the role they play and how they impact your approach to delivering your DSRIP projects.

<b>Key stakeholders</b>	<b>Role in relation to this organizational workstream</b>	<b>Key deliverables / responsibilities</b>
<b>Internal Stakeholders</b>		
LCHP Project Teams (10 teams for 11 projects)	Plan and implement project milestones, engage partners involved in planning and deliver on the requirements	Project Implementation Plan and execution; direct team towards progress of projects
LCHP Finance Committee	Develop mechanism for distribution of funds; achieve 90% value-based payments	Completion of financial sections of Implementation Plan; Funds Flow and Distribution Model; Build financial structure for PPS; plan to achieve 90% value-based payment; Execute the above
IT and Data Analytics Committee	Ensure interoperability of EHR	Completion of IT and Performance Reporting sections of Implementation Plan; Engage in projects with stakeholders to accomplish plan, oversee technology infrastructure, and metric/reporting processes
LCHP PAC	Act as Quality Committee; in charge of Clinical Integration, Practitioner Engagement, and Clinical Governance	Ensure broad participation of partners in an advisory role; Assess project impact on the community
LCHP Operations Team	Coordinate, facilitate, guide and assist in implementation, communication, reporting, and administration of DSRIP-related activities	Liaison among projects, partners and State; Receive, interpret, and communicate information from State; Development of processes and tools to facilitate partner accountability; Provide LCHP leadership with program progress reporting; Evaluate usage of overlapping resources/funds/training/ expertise, etc., throughout the evolution and transformation of the DSRIP program
<b>External Stakeholders</b>		
None identified	None identified	None identified

New York State Department Of Health  
Delivery System Reform Incentive Payment Project

DSRIP Implementation Plan Project

Leatherstocking Collaborative Health Partners (PPS ID:22)

✔ IPQR Module 10.5 - IT Requirements

Instructions :

Information technology will play a crucial role in the development of an effective, integrated performing provider system. It is likely that most projects will require some level of supporting IT infrastructure. Please describe the key elements of IT infrastructure development that will play a role in multiple projects.

IT and Data Analytics Committee (ITDAC) has been engaged in project planning to build the IT infrastructure required for achieving project requirements. IT infrastructure is needed in two areas - 1. Clinical Interoperability; 2. Reporting Metrics to State. LCHP will leverage the planned Medicaid Data Warehouse for collecting required data for reporting purposes. ITDAC is engaged in planning and executing interoperability strategy. ITDAC is also responsible for making sure their strategy includes confidentiality, compliance and security related to data sharing. Web-based performance dashboards will provide baseline performance data. LCHP will collect and incorporate into its regular performance monitoring qualitative feedback obtained from consumers and the community through the LCHP communication plan.

✔ IPQR Module 10.6 - Performance Monitoring

Instructions :

Please explain how your DSRIP projects will fit into your development of a quality performance reporting system and culture.

Project Advisory Committee, is engaged in building the criteria for performance reporting as well as strategies to improve performance. We will work with IT to define and develop clear expectation and rules for appropriate dissemination and collection of reporting data (performance, progress, actively engaged patients).

# New York State Department Of Health Delivery System Reform Incentive Payment Project

## DSRIP Implementation Plan Project

### Leatherstocking Collaborative Health Partners (PPS ID:22)

#### ✅ IPQR Module 10.7 - Community Engagement

##### Instructions :

Please describe your PPS's planned approach for driving community involvement in the DSRIP projects, how you will contract with CBOs for these projects, how community engagement will contribute to the success of the projects, and any risks associated with this.

To ensure community and partner engagement, LCHP has recruited full-time Partner and patient engagement manager with following responsibilities:

- Develops, plans and implements programs, enforces grant compliance standards and develops systems to maximize provider collaborations throughout the DSRIP network.
- Leads development and sustainability of program proposals, new projects and management of ongoing initiatives.
- Engages community stakeholders in DSRIP planning, performance phases and deliverables.

Learning Collaboratives and focus groups are planned to engage the community in DSRIP initiatives. LCHP Communication Plan will outline community engagement. Stakeholders from CBOs have been very involved with project application planning and implementation planning. CBOs will be engaged in implementing and executing projects. For example, certain CBOs are "hot spots" for implementing projects such as Navigation (2.c.i) and PAM (2.d.i). Where circumstances permit, the LCHP PPS intends to include contributing CBOs in bonus and incentive payments; therefore execution of formal agency agreements will exist. Formalization of Funds Flow Model to include CBOs is essential to the success of projects, therefore it can be considered a risk.

#### IPQR Module 10.8 - IA Monitoring

**Section 11 – Workforce**

**IPQR Module 11.1 - Workforce Strategy Spending (Baseline)**

**Instructions :**

Please include details on expected workforce spending on a semi-annual basis. Funds may be shifted from one funding type category to another within the workforce strategy spending table, as long as the PPS adheres to their overall spend commitments. However, the PPS may apply a 25% discount factor to the DY1 Workforce Strategy Spend target. If the PPS applies this discount in DY1, the PPS will be expected to reallocate those funds appropriately in DY2-4 to fully meet their DY1-4 total commitment.

Funding Type	Year/Quarter										Total Spending (\$)
	DY1(Q1/Q2)(\$)	DY1(Q3/Q4)(\$)	DY2(Q1/Q2)(\$)	DY2(Q3/Q4)(\$)	DY3(Q1/Q2)(\$)	DY3(Q3/Q4)(\$)	DY4(Q1/Q2)(\$)	DY4(Q3/Q4)(\$)	DY5(Q1/Q2)(\$)	DY5(Q3/Q4)(\$)	
Retraining	125,000.00	125,000.00	325,000.00	325,000.00	437,500.00	437,500.00	250,000.00	250,000.00	112,500.00	112,500.00	2,500,000.00

Define target workforce state (in line with DSRIP program's goals).	
Create a workforce transition roadmap for achieving defined target workforce state.	
Perform detailed gap analysis between current state assessment of workforce and projected future state.	
Produce a compensation and benefit analysis, covering impacts on both retrained and redeployed staff, as well as new hires, particularly focusing on full and partial placements.	
Develop training strategy.

# New York State Department Of Health Delivery System Reform Incentive Payment Project

## DSRIP Implementation Plan Project

### Leatherstocking Collaborative Health Partners (PPS ID:22)

#### ✓ IPQR Module 11.4 - Major Risks to Implementation & Risk Mitigation Strategies

##### Instructions :

Please describe the key challenges and risks that you foresee in achieving the milestones set out above, including potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

All other organizational workstreams have some level of interdependency that must align with the workforce transformation plans, particularly in light of the fact that many workstreams (five in total) are required to develop a training strategy. The workforce workstream is constructing a training plan that incorporates the needs of all projects; thus, organizational workstream training needs must be incorporated into this overarching training plan to create cohesiveness and ensure integration.

The Workforce and the Governance workstream must have a well-defined relationship to establish appropriate reporting/approval procedures for making workforce decisions.

Another significant interdependency that exists is that of the workforce budget and the importance of directing funds to the providers in our network to support their training and redeployment needs, the connection between our PPS workforce committee and the financial workstreams is integral. To that end, we will ensure that the finance workstream has a member of workforce within the committee.

Workforce will need to be closely informed of the Physician Engagement workstream's ability to garner physician involvement and retention. This will impact the potential need to on-board new physician hires for project implementation if the project's needs cannot be met through the current physician population.

A responsibility of the Population Health Management workstream is to provide a PPS-wide bed reduction plan. The number of bed reductions will potentially have an affect on the number of worker reductions and placement of DSRIP-related positions.

The dependency on the IT workstream will be illustrated and discussed further in the "IT Expectations" section.

#### ✓ IPQR Module 11.5 - Major Dependencies on Organizational Workstreams

##### Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

All other organizational workstreams have some level of interdependency that must align with the workforce transformation plans, particularly in light of the fact that many workstreams (five in total) are required to develop a training strategy. The workforce workstream is constructing a training plan that incorporates the needs of all projects; thus, organizational workstream training needs must be incorporated into this overarching training plan to create cohesiveness and ensure integration.

**✓ IPQR Module 11.6 - Roles and Responsibilities**

**Instructions :**

Please list and elaborate upon the key people/organizations responsible for this organizational workstream and describe what their responsibilities involve.

<b>Role</b>	<b>Name of person / organization (if known at this stage)</b>	<b>Key deliverables / responsibilities</b>
DSRIP Executive Director	Leonard Lindenmuth, Bassett Health Network	Serves as liaison between the workforce committee and the LCHP (Leatherstocking Collaborative Health Partners) PPS Governance
Workforce Project Lead	Wendy Kiuber, Bassett Health Network Workforce lead for LCHP	Dedicated Project Manager accountable for development of IP and execution of all workforce-related activities
Workforce Consultant	Health Workforce NY	Responsible for the coordination and execution of workforce activities and analyses, reporting directly to the WF Project Manager
Workforce Committee	Chris Hulbert, Director of HR, Springbrook Zoe Aponte, Catskill Area Hospice Susan Cipolla, HR Director, Catholic Charities Richard Diodati, HR Director, Sitrin, Pam Levy, Director, Catskill Center for Independence Megan Staring, Asst. Director, Catskill Center for Independence Jennifer Montana, HR Community Memorial Hospital Joseph Cirusualo, Regional Primary Care Network	A group of cross-functional resources (e.g., WF PM, HR, DSRIP lead, Union representative) responsible for overall direction, guidance and decisions related to the workforce transformation agenda
Workforce work groups	Training Workgroup: Rich Diodati, Sitrin Diane Parker, Bassett Gail Warchol, Mohawk Valley Community College Debra Gaige, Oneonta Job Corps;  Comp & Benefits Workgroup: Denine Jacob, Bassett Jennifer Montana, Community Memorial Hospital  Gap Analysis Workgroup: Melanie Craig, Bassett Alice Savino, Workforce Development Board	A group of PPS individuals responsible for executing or supporting the execution of key portions of the Implementation Plan activities
WF Training Vendor	Health Workforce NY	The workforce training vendor will assist in executing the training strategy to include creation of a detailed workplan and development of a content acquisition.
Labor Representation	Labor/Union Representation	Labor group(s) that can provide insights and expertise into likely workforce impacts, staffing models, and key job categories that will

Workforce Project Chairs	Sara Albright, Bassett Healthcare Network VP HR Jennie Gliha, VP HR, AO Fox	Responsible for the oversight and approval of all workforce related activities

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**Leatherstocking Collaborative Health Partners (PPS ID:22)**

**✓ IPQR Module 11.7 - Key Stakeholders**

**Instructions :**

Please identify the key stakeholders involved in your workforce transformation plans, both within and outside the PPS.

<b>Key stakeholders</b>	<b>Role in relation to this organizational workstream</b>	<b>Key deliverables / responsibilities</b>
<b>Internal Stakeholders</b>		
Jennie Gliha, VP HR, Susan Cipolla, HR Director, Catholic Charities, Richard Diodati, HR Director, Sitrin, Cynthia Sternard, HR Community Memorial Hospital	HR Leads	Support data collection of compensation and benefit information; current state workforce information and potential hiring needs
Diana Parker (BHN), Richard Diodati (Sitrin)	Training Leads	Provide oversight and input to development of training needs assessment, and subsequent training strategy and plan
David Haswell, Martha Sunkenberg , Lisa Betrus , Christa Serafin, Laurie Neander , Stephanie Lao, Bonnie Post, John Migliore, Deanna Charles, Celeste Johns, Joseph Sellers, Mike Kettle , Chris Kjolhede, Philip Heavner, Marion Mossman, Roy Korn, Norine Hodges	DSRIP Project Chairs	Provide insights and information related sources and destinations of redeployed staff by project
Leonard Lindenmuth, DSRIP Executive Director	LCHP Operations Team	Oversight of Workforce Committees activities in relation to DSRIP requirements
IT and Data Analytics Committee	PPS IT	Facilitate IT capabilities in relation to training needs for PPS
<b>External Stakeholders</b>		
AHEC	Training Vendor	Technical training curriculum development; recruiting support
Lauren Wetterhahn (CNY CC); Lenore Boris (CCN); Tracy Leonard (NCI);	Workforce Leads from neighboring PPSs	Communicate best practices and resources
Central and Northern AHECs	Workforce Consultant	Coordination and execution of workforce activities and analyses
Heather Eichen	SUNY RP <sup>2</sup>	Facilitate post-secondary capacity for training needs; assist in achieving consistency of job titles across PPS boundaries

**New York State Department Of Health

DSRIP Implementation Plan Project**

**Leatherstocking Collaborative Health Partners (PPS ID:22)**

**✔ IPQR Module 11.8 - IT Expectations**

**Instructions :**

Please describe how the development of shared IT infrastructure across the PPS will support your plans for workforce transformation.

The success of the Workforce workstream will be measured by its ability to meet milestone target completion dates and develop an effective means of gathering number of redeployed, retrained, and hired staff and the workforce budget. Working in collaboration with the Performance Reporting team, the Workforce team will collect and report progress on a quarterly basis with respect to Domain 1 Process Measures.

The Health Workforce New York (HWNY) platform developed by the AHECs serves as a data collection and reporting tool for workforce measures. The internal workforce team will monitor the progress of the implementation plan through regular meetings and work plan review. HWNY works with LCHP partners to guide required workforce strategy spending and actual staff impact reporting via the HWApps reporting platform.

**✔ IPQR Module 11.9 - Progress Reporting**

**Instructions :**

Please describe how you will measure the success of this organizational workstream.

The success of the Workforce workstream will be measured by its ability to meet milestone target completion dates and develop an effective means of gathering number of redeployed, retrained, and hired staff and the workforce budget. Working in collaboration with the Performance Reporting team, the Workforce team will collect and report progress on a quarterly basis with respect to Domain 1 Process Measures.

The Health Workforce New York (HWNY) platform developed by the AHECs serves as a data collection and reporting tool for workforce measures. The internal workforce team will monitor the progress of the implementation plan through regular meetings and work plan review. HWNY works with LCHP partners to guide required workforce strategy spending and actual staff impact reporting via the HWApps reporting platform.

DSRIP Implementation Plan Project**

**Leatherstocking Collaborative Health Partners (PPS ID:22)**

**Project 2.a.ii – Increase certification of primary care practitioners with PCMH certification and/or Advanced Primary Care Models (as developed under the NYS Health Innovation Plan (SHIP))**

**✓ IPQR Module 2.a.ii.1 - Major Risks to Implementation and Mitigation Strategies**

**Instructions :**

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

Risk: Participating providers in PPS meet NCQA 2014 Level 3.1 partner converting EMR during PCMH implementation period places high demands on staff resources and creates barriers for data reporting  
Mitigation: Consultant support for partners/detailed plans for implementation and reporting needs/added staff resources  
Risk: Clinical Interoperability w/varying EHRs  
Mitigation: EHR connectivity is not present across PPS. LCHP Ops Team will work w/partners as DSRIP projects rely on EHR systems & other technical platforms to track patient engagement  
Risk: Identify Physician champions & attain CCE (certified content expert) status due to limited frequency & high demand for NCQA training/exams  
Mitigation: LCHP will use APCs in addition to MDs as champions  
Risk: Lack of RNs in workforce w/ambulatory experience  
Mitigation: A workforce impact consultant is engaged with LCHP to employ creative workforce strategies. The PPS will leverage Bassett's relationship with local colleges to create programs necessary to serve population. Utilizing expertise of the consultant, AHEC and the Collaborative Learning Committee, online and in-person training will be offered to retrain existing employees. Economies of scale will be implemented when training staff across the PPS. RNs will be hired without care coordination and other necessary experience. LCHP will work with AHEC on strategies to identify, attract and successfully recruit experienced RNs. All RN Care Managers will be trained with the intent to become certified  
Risk: Partner Engagement  
Mitigation: A non-safety net LCHP Partner has not been engaged in planning projects due to lack of designated resources to engage in planning and execution. LCHP Ops Team will reach out to partners who are deemed essential, and complete a funds flow model to better inform their involvement. Regular updates to partners through email, project and all partner meetings, and utilization of tools such as website, Constant Contact, survey tools and Health Workforce NY are some strategies used currently. All providers engaged in this project will work with the PCMH consultants on individualized plans to achieve NCQA recognition  
Risk: Negotiating contracts with MCOs for services not reimbursed/under-reimbursed  
Mitigation: To negotiate contracts with MCOs, there will be a need to combine efforts across LCHP PPS and with other PPSs to strengthen and consolidate the message and make patient care in DSRIP projects sustainable. NCQA recognition will be used to leverage MCOs when negotiating reimbursement

 Delivery System Reform Incentive Payment Project  
 DSRIP Implementation Plan Project**

**Leatherstocking Collaborative Health Partners (PPS ID:22)**

**✔ IPQR Module 2.a.ii.2 - Patient Engagement Speed**

**Instructions :**

Enter the number of patients actively engaged through the current quarter. The number entered into the "Quarterly Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for Q4 should include patients previously reported in Q3 plus new patients engaged in Q4. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

Benchmarks	
Actively Engaged Speed	Actively Engaged Scale
DY4,Q4	16,934

	Year,Quarter	DY4,Q1	DY4,Q2	DY4,Q3	DY4,Q4
PPS Reported	Baseline Commitment	4,519	9,038	12,986	16,934
	Quarterly Update	0	0	0	0
	Percent(%) of Commitment	0.00%	0.00%	0.00%	0.00%

Ensure that all eligible participating PCPs in the PPS meet NCQA 2014 Level 3 PCMH accreditation and/or meet state-determined criteria for Advanced Primary Care Models by the end of DSRIP Year 3.	
Identify a physician champion with knowledge of PCMH/APCM implementation for each primary care practice included in the project.	
Identify care coordinators at each primary care site who are responsible for care connectivity, internally, as well as connectivity to care managers at other primary care practices.	
Ensure all PPS safety net providers are actively sharing EHR systems with local health information exchange/RHIO/SHIN-NY and sharing health information among clinical partners, including direct exchange (secure messaging), alerts and patient record look up by the end of Demonstration Year (DY) 3.	
Ensure that EHR systems used by participating safety net providers meet Meaningful Use and PCMH Level 3 standards and/or APCM by the end of Demonstration Year 3.	
Perform population health management by actively using EHRs and other IT platforms, including use of targeted patient registries, for all participating safety net providers.	
Ensure that all staff are trained on PCMH or Advanced Primary Care models, including evidence-based preventive and chronic disease management.	
Implement preventive care screening protocols including behavioral health screenings (PHQ-2 or 9 for those screening positive, SBIRT) for all patients to identify unmet needs. A process is developed for assuring referral to appropriate care in a timely manner.	
Implement open access scheduling in all eligible primary care practices.

**Project 2.b.vii – Implementing the INTERACT project (inpatient transfer avoidance program for SNF)**

**✓ IPQR Module 2.b.vii.1 - Major Risks to Implementation and Mitigation Strategies**

**Instructions :**

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

Challenge 1: Availability of current data on nursing home-to-hospital transfers to measure the effectiveness of the project. Although the Skilled Nursing Facilities (SNFs) are collecting this information from DY1, we have not been capturing this data before. Therefore we are unable to provide a baseline for DY0.  
Mitigation: LCHP PPS will gather the data available from the beginning of DY1 and set up baseline for a time period in DY1 until we receive any communication otherwise.

Challenge 2: SNFs face high turn-over in their staff, which is a barrier to maintain an adequate level of competent staff to use the INTERACT tools and requires constant training.  
Mitigation: For new staff, the INTERACT Champion will train staff on a continuous basis. For turn-over with INETRACT Champion itself, the SNFs are able to reach out to the contracted trainers to catch up on training to use INTERACT tools. Written implementation plans and logs are in the process of being created and maintained for such circumstances.

Challenge 3: Clinical Interoperability - Varying EHRs among partners present a challenge in interconnectivity. Although SNF EHRs are connected to HIEs, they are unable to send any information to it. The SNFs can only view information.  
Mitigation: In our collaboration with other PPSs, we got in touch with Jeff Paul, the Project Manager for NY-RAH project, which has similar goals as this project as far as connectivity is concerned. Since they are further ahead in their project and have overcome challenges we are currently facing. We will consider their experience and approaches from their recent presentation.

Challenge 4: We maybe at a risk of not meeting our patient engagement target.  
Mitigation: Although we are currently meeting our patient engagement target, there is a possibility of us not meeting it in the future quarters due to the sudden rise in our commitment. We are in the process of leveraging some mergers of SNF entities in our PPS to include them as well in this project.

**Leatherstocking Collaborative Health Partners (PPS ID:22)**

**✔ IPQR Module 2.b.vii.2 - Patient Engagement Speed**

**Instructions :**

Enter the number of patients actively engaged through the current quarter. The number entered into the "Quarterly Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for Q4 should include patients previously reported in Q3 plus new patients engaged in Q4. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

Benchmarks	
Actively Engaged Speed	Actively Engaged Scale
DY3,Q4	2,869

	Year,Quarter	DY4,Q1	DY4,Q2	DY4,Q3	DY4,Q4
PPS Reported	Baseline Commitment	1,435	2,869	2,869	2,869
	Quarterly Update	0	0	0	0
	Percent(%) of Commitment	0.00%	0.00%	0.00%	0.00%
IA Approved	Quarterly Update	0	0	0	0
	Percent(%) of Commitment	0.00%	0.00%	0.00%	0.00%

**✅ IPQR Module 2.b.vii.3 - Prescribed Milestones**

**Instructions :**

Please provide updates to baseline reporting on status, target dates, and work breakdown tasks for prescribed milestones. For milestones that are due and completed within the reporting period, documentation is required to provide evidence of project requirement achievement. Any explanations regarding altered or missed provider commitments should be included within the narrative box, not as text within uploaded documentation.

Project Requirements (Milestone/Task Name)	Prescribed Due Date	Reporting Level	Provider Type	Status	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
<b>Milestone #1</b> Implement INTERACT at each participating SNF, demonstrated by active use of the INTERACT 3.0 toolkit and other resources available at <a href="http://interact2.net">http://interact2.net</a> .	DY3 Q4	Project	N/A	Completed	06/01/2015	03/31/2018	06/01/2015	03/31/2018	03/31/2018	DY3 Q4

Implement INTERACT at each participating SNF, demonstrated by active use of the INTERACT 3.0 toolkit and other resources available at <a href="http://interact2.net">http://interact2.net</a> .	
Identify a facility champion who will engage other staff and serve as a coach and leader of INTERACT program.	
Implement care pathways and other clinical tools for monitoring chronically ill patients, with the goal of early identification of potential instability and intervention to avoid hospital transfer.

**Prescribed Milestones Narrative Text**

Milestone Name	Narrative Text
Educate all staff on care pathways and INTERACT principles.	
Implement Advance Care Planning tools to assist residents and families in expressing and documenting their wishes for near end of life and end of life care.	
Create coaching program to facilitate and support implementation.	
Educate patient and family/caretakers, to facilitate participation in planning of care.	
Establish enhanced communication with acute care hospitals, preferably with EHR and HIE connectivity.	
Measure outcomes (including quality assessment/root cause analysis of transfer) in order to identify additional interventions.	
Use EHRs and other technical platforms to track all patients engaged in the project.

Project 2.b.viii – Hospital-Home Care Collaboration Solutions

✓ IPQR Module 2.b.viii.1 - Major Risks to Implementation and Mitigation Strategies

Instructions :

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

Risk:Pt engagement Mitigation:Education for pts to engage in their healthcare to identify & address social determinants. Referral tracking & pt follow-up in CBOs will be strategies used Risk:Physical Space Mitigation: Identify other projects that may have available space, consider overlapping needs to consolidate needs, and identify highest demand areas to be located. Risk:Partner Engagement Mitigation:Some LCHP Partners not engaged in project planning d/t uncertainty of projects/lack of designated resources to engage in planning/execution. LCHP Ops Team to confirm partner involvement in projects & complete funds flow model to inform their involvement. Updates to partners via email, project/all partner meetings, and utilization of tools such as website, Constant Contact/survey tools/Health Workforce NY are some strategies Risk:IT Technology including EHR interoperability/sharing of PHI/IT infrastructure Mitigation:Pt tracking & provider communications is challenged by variability of technology across LCHP project partners. Resources to acquire new technology to achieve interoperability are substantial. LCHP ITDAC will focus on standardization, assistance in joining partners to RHIOs, and developing electronic interfaces for HIE Risk:Transition planning w/medical professionals Mitigation:Build relationships among health providers in service area. LCHPs Ops Team w/Clinical Performance Committee (CPO), Collaborative Learning Committee(CLC), and ITDAC will engage home care agencies to develop/enhance relationships w/hospitals in and around PPS, w/goal of creating standardized clinical protocols and rapid guidance in the moment Risk:Funding for staff/training Mitigation:Request/align resources. Shared staffing and "train the trainer" method to be used to increase efficiency and avoid duplication Risk: Identifying/recruiting expertise in rural area Mitigation:LCHP will use creative regional recruitment/retention strategies to attract practitioners/nursing staff while emphasizing use of telemedicine to benefit patient care. LCHP PPS has engaged AHEC, workforce consultant. A global approach to staffing needs across LCHP and a creative approach for recruitment in a rural setting will be key to successful recruitment/retention of necessary staff Risk:Re-branding funding Mitigation:Project team will work w/LCHP PPS to request/resource re-branding plan. Dedicated marketing staff will assist DSRIP w/marketing needs across the PPS Risk:Standardized Protocols Mitigation:Care providers have various ways of addressing pt needs. Standardizing protocols across PPS may be a challenge due to large number of care providers/locations. Project team will collaborate with other teams on efforts, approach and implementation Risk:Capital Funding Mitigation:Involve sources like Robert Wood Johnson Foundation, PHIP (Population Health Improvement Program) team to assist in finding other funding Risk:Lack of mobile application Mitigation:Selection of tools to include off-line usage capabilities and increase mobility of home care Risk: Practitioner Engagement Mitigation: Detailed plan will be created by CPO to engage practitioners in DSRIP activities. Committee will have representation of various practitioners. LCHP will leverage existing practitioner groups such as Primary Care Council, Regional Medical Director Group and Clinical Leadership Group as models for clinical integration and practitioner engagement Risk:Contract negotiations Mitigation:In order to negotiate contracts with MCOs, efforts across project teams within LCHP PPS and other PPSs will be combined to strengthen and consolidate the message and make patient care in DSRIP projects sustainable, esp for services not reimbursed/under-reimbursed

**✔ IPQR Module 2.b.viii.2 - Patient Engagement Speed**

**Instructions :**

Enter the number of patients actively engaged through the current quarter. The number entered into the "Quarterly Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for Q4 should include patients previously reported in Q3 plus new patients engaged in Q4. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

Benchmarks	
Actively Engaged Speed	Actively Engaged Scale

**✅ IPQR Module 2.b.viii.3 - Prescribed Milestones**

**Instructions :**

Please provide updates to baseline reporting on status, target dates, and work breakdown tasks for prescribed milestones. For milestones that are due and completed within the reporting period, documentation is required to provide evidence of project requirement achievement. Any explanations regarding altered or missed provider commitments should be included within the narrative box, not as text within uploaded documentation.

Project Requirements (Milestone/Task Name)	Prescribed Due Date	Reporting Level	Provider Type	Status	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
<b>Milestone #1</b> Assemble Rapid Response Teams (hospital/home care) to facilitate patient discharge to home and assure needed home care services are in place, including, if appropriate, hospice.	DY3 Q2	Project	N/A	Completed	06/01/2015	09/30/2017	06/01/2015	09/30/2017	09/30/2017	DY3 Q2
<b>Task</b> Rapid Response Teams are facilitating hospital-home care collaboration, with procedures and protocols for: - discharge planning - discharge facilitation - confirmation of home care services		Project		Completed	06/01/2015	09/30/2017	06/01/2015	09/30/2017	09/30/2017	DY3 Q2
<b>Task</b> 1. Integrate Home Health Care services - possibly centralize for a single point of contact for rapid response - or, rapid referral to establish (all) services delivered in the home (home health, respiratory, DME, infusion, palliative care, hospice etc.)		Project		Completed	10/01/2015	09/30/2017	10/01/2015	09/30/2017	09/30/2017	DY3 Q2
<b>Task</b> 2. Identify roles needed for rapid response team and staffing plan to include medical director, nurse practitioner, clinical and non-clinical navigators, home care nurse(s), care coordinator/manager(s), clinical pharmacist, respiratory therapist, MSW, nutritionist, etc.		Project		Completed	06/01/2015	10/20/2015	06/01/2015	10/20/2015	12/31/2015	DY1 Q3
<b>Task</b> 3. Recruit and hire rapid response team-- clinical and non-clinical navigators, home care nurse(s), care coordinator/manager(s), clinical pharmacist, respiratory therapist, MSW, nutritionist, etc.		Project		Completed	09/01/2015	09/30/2017	09/01/2015	09/30/2017	09/30/2017	DY3 Q2
<b>Task</b> 4. Recruit Medical Director(explore: sharing this role) - expedite access for MD for orders, intervention, etc.		Project		On Hold	04/01/2015	03/31/2020	04/01/2015	03/31/2020	03/31/2020	DY5 Q4
<b>Task</b> 5. Recruit Rapid Response NP. Evaluate the option to re-purpose and/or recruit (1 per quadrant)		Project		Completed	06/01/2015	09/30/2017	06/01/2015	09/30/2017	09/30/2017	DY3 Q2
<b>Task</b> 6. Recruit Rapid Response Care Managers - re-deploy		Project		Completed	09/01/2015	09/30/2017	09/01/2015	09/30/2017	09/30/2017	DY3 Q2

Project Requirements (Milestone/Task Name)	Prescribed Due Date	Reporting Level	Provider Type	Status	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
(3.) RD to address nutritional issues, etc.										
<b>Task</b> 4. Explore further design of hi-risk patient interventions - to include rapid response collaboration with EMS - or, administration of medications in the home, stabilization and avoid transport pt to ED; MD/ NP home or remote visit(s); home care interventions, direct and remote visits, etc,		Project		Completed	09/30/2016	06/30/2017	09/30/2016	06/30/2017	06/30/2017	DY3 Q1
<b>Task</b> 5. Engage in appropriate contracts with entities within PPS and cross PPS to manage clinical information (e.g.-patient is seen at a non LCHP PPS site for care, the expectation to share this information back to LCHP providers is present).		Project		Completed	03/30/2016	09/30/2017	03/30/2016	09/30/2017	09/30/2017	DY3 Q2
<b>Milestone #9</b> Utilize telehealth/telemedicine to enhance hospital-home care collaborations.	DY3 Q2	Project	N/A	Completed	04/01/2015	09/30/2017	04/01/2015	09/30/2017	09/30/2017	DY3 Q2
<b>Task</b> Telehealth/telemedicine program established to provide care transition services, prevent avoidable hospital use, and increase specialty expertise of PCPs and staff.		Project		Completed	04/01/2015	09/30/2017	04/01/2015	09/30/2017	09/30/2017	DY3 Q2
<b>Task</b> 1. Project partners evaluate (minimum three interactive video telehealth devices) and select technology most suited to attain interoperability and project goals		Project		Completed	04/01/2015	05/01/2015	04/01/2015	05/01/2015	06/30/2015	DY1 Q1
<b>Task</b> 2. Select telehealth devices, peripheral equipment and negotiate lease with selected vendor		Project		Completed	05/01/2015	09/30/2017	05/01/2015	09/30/2017	09/30/2017	DY3 Q2
<b>Task</b> 3. Recruit telehealth RN project leader with responsibility for program implementation across care settings to include protocol / workflow development, provider education and outcomes monitoring / reporting		Project		Completed	10/01/2015	12/31/2015	10/01/2015	12/31/2015	12/31/2015	DY1 Q3
<b>Task</b> 4. Develop a project hub, or expand on existing / mature telehealth program in the rural region. Add interactive video with secure connectivity (PCs / laptops) across care settings (PCMH, home care) to enable remote interactive connection w/ patients for routine monitoring as well as provision of "face-to-face" specialty services (RPh, RT, RD, MSW) to monitor and manage care		Project		On Hold	04/01/2015	03/31/2020	04/01/2015	03/31/2020	03/31/2020	DY5 Q4
<b>Task</b> 5. Develop care protocols to enhance patient - specialty clinical		Project		Completed	03/01/2016	09/30/2017	03/01/2016	09/30/2017	09/30/2017	DY3 Q2

Milestone Name	Narrative Text
Ensure home care staff have knowledge and skills to identify and respond to patient risks for readmission, as well as to support evidence-based medicine and chronic care management.	
Develop care pathways and other clinical tools for monitoring chronically ill patients, with the goal of early identification of potential instability and intervention to avoid hospital transfer.	
Educate all staff on care pathways and INTERACT-like principles.	
Develop Advance Care Planning tools to assist residents and families in expressing and documenting their wishes for near end of life and end of life care.	
Create coaching program to facilitate and support implementation.	
Educate patient and family/caretakers, to facilitate participation in planning of care.	
Integrate primary care, behavioral health, pharmacy, and other services into the model in order to enhance coordination of care and medication management.	
Utilize telehealth/telemedicine to enhance hospital-home care collaborations.	
Utilize interoperable EHR to enhance communication and avoid medication errors and/or duplicative services.	
Measure outcomes (including quality assessment/root cause analysis of transfer) in order to identify additional interventions.	
Use EHRs and other technical platforms to track all patients engaged in the project.

**Leatherstocking Collaborative Health Partners (PPS ID:22)**

**Project 2.c.i – Development of community-based health navigation services**

**✓ IPQR Module 2.c.i.1 - Major Risks to Implementation and Mitigation Strategies**

**Instructions :**

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

Risk:Non-Clinical Resources  
Mitigation:Transportation, housing, food, etc will be relied upon for success.Social needs identified with participants & linked appropriately.Where demand for services is greater than what exists, PPS to assist CBOs to leverage non-clinical resources.(e.g.-transportation contracts across PPS to increase/expand services as identified)

Risk:Space  
Mitigation:New/repurposing space presents challenges in terms of cost. For efficiency, LCHP to combine projects 2.c.i. & 2.d.i. for navigators/support staff & deliver related services in shared space

Risk:Rural geographic area  
Mitigation:Embed navigators in CBOs in high traffic areas/hotspots w/consideration that they may not always be available/accessible to patient. Work with participants to stay connected

Risk:Funding  
Mitigation:Involve sources like Robert Wood Johnson Foundation, PHIP (Population Health Improvement Program) team to assist in finding other funding sources for needed resources to be successful.

Risk:Staff recruitment/retention  
Mitigation:Staffing poses challenge in rural area. Project committee will identify community leaders for assistance in recruiting former Medicaid consumers, who could be trained to fill positions for CBOs in their counties.Recruitment strategy would enhance the representativeness/diversity of LCHP workforce.LCHP will also avail of career fairs, external websites, CBOs and schools to advertise position openings.A workforce impact consultant, AHEC, will work closely with LCHPs Collaborative Learning Committee (CLC) & partners to employ creative workforce strategies. Utilizing expertise of workforce impact consultant, AHEC & CLC, online & in-person training will be offered to train/retrain employees. LCHP to leverage AHECs cross-PPS job opportunities

Risk:Clinical Resources  
Mitigation:Navigation is dependent on availability of clinical resources such as PCPs, Behavioral Health, etc. providers to accept/see patients in time frame needed.Collaboration across projects especially with care coordination

Mitigation:Low level of computer literacy among target population will be mitigated via simplified user interfaces/systems

Risk:Negotiate MCO contracts  
Mitigation:Combine efforts across project teams in/across PPSs to negotiate MCO contracts esp for non-reimbursed/under-reimbursed services to strengthen/consolidate message and make pt care in DSRIP projects sustainable.

**✔ IPQR Module 2.c.i.2 - Patient Engagement Speed**

**Instructions :**

Enter the number of patients actively engaged through the current quarter. The number entered into the "Quarterly Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for Q4 should include patients previously reported in Q3 plus new patients engaged in Q4. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

Benchmarks	
Actively Engaged Speed	Actively Engaged Scale
DY4,Q4	9,164

	Year,Quarter	DY4,Q1	DY4,Q2	DY4,Q3	DY4,Q4
PPS Reported	Baseline Commitment	3,207	6,414	7,789	9,164
	Quarterly Update	0	0	0	0
	Percent(%) of Commitment	0.00%	0.00%	0.00%	0.00%
IA Approved	Quarterly Update	0	0	0	0
	Percent(%) of Commitment	0.00%	0.00%	0.00%	0.00%

**✅ IPQR Module 2.c.i.3 - Prescribed Milestones**

**Instructions :**

Please provide updates to baseline reporting on status, target dates, and work breakdown tasks for prescribed milestones. For milestones that are due and completed within the reporting period, documentation is required to provide evidence of project requirement achievement. Any explanations regarding altered or missed provider commitments should be included within the narrative box, not as text within uploaded documentation.

Project Requirements (Milestone/Task Name)	Prescribed Due Date	Reporting Level	Provider Type	Status	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
<b>Milestone #1</b> Create community-based health navigation services, with the goal of assisting patients in accessing healthcare services efficiently.	DY2 Q4	Project	N/A	Completed	04/01/2015	03/31/2016	04/01/2015	03/31/2016	03/31/2016	DY1 Q4
<b>Task</b> Community-based health navigation services established.		Project		Completed	04/01/2015	03/31/2016	04/01/2015	03/31/2016	03/31/2016	DY1 Q4
<b>Task</b> 1. Define Navigation Services and develop workflows		Project		Completed	07/01/2015	03/31/2016	07/01/2015	03/31/2016	03/31/2016	DY1 Q4
<b>Task</b> 2. Identify existing navigation job descriptions across PPS and develop standardized roles and duties.		Project		Completed	08/01/2015	03/31/2016	08/01/2015	03/31/2016	03/31/2016	DY1 Q4
<b>Task</b> 3. Define job standards (roles based) and tasks associated with role.		Project		Completed	08/01/2015	03/31/2016	08/01/2015	03/31/2016	03/31/2016	DY1 Q4
<b>Task</b> 4. Create contract to existing health home contracts;		Project		Completed	04/01/2015	03/31/2016	04/01/2015	03/31/2016	03/31/2016	DY1 Q4
<b>Task</b> 5. Seek out community based office space to accommodate Navigation projects		Project		Completed	06/01/2015	03/31/2016	06/01/2015	03/31/2016	03/31/2016	DY1 Q4
<b>Milestone #2</b> Develop a community care resource guide to assist the community resources and ensure compliance with protocols, under direction from a collaborating program oversight group of medical/behavioral health, community nursing, and social support services providers.	DY2 Q4	Project	N/A	Completed	04/01/2015	12/31/2016	04/01/2015	12/31/2016	12/31/2016	DY2 Q3
<b>Task</b> Resource guide completed, detailing medical/behavioral/social community resources and care protocols developed by program oversight committee.		Project		Completed	04/01/2015	12/31/2016	04/01/2015	12/31/2016	12/31/2016	DY2 Q3
<b>Task</b> 1. Gather resource information, including collaboration with other resources such as 211		Project		Completed	04/01/2015	12/31/2016	04/01/2015	12/31/2016	12/31/2016	DY2 Q3
<b>Task</b> 2. Discuss Netsmart capability to accommodate resource		Project		Completed	04/01/2015	12/31/2016	04/01/2015	12/31/2016	12/31/2016	DY2 Q3

Milestone Name	Narrative Text
Create community-based health navigation services, with the goal of assisting patients in accessing healthcare services efficiently.	
Develop a community care resource guide to assist the community resources and ensure compliance with protocols, under direction from a collaborating program oversight group of medical/behavioral health, community nursing, and social support services providers.	
Recruit for community navigators, ideally spearheaded by residents in the targeted area to ensure community familiarity.	
Resource appropriately for the community navigators, evaluating placement and service type.	
Provide community navigators with access to non-clinical resources, such as transportation and housing services.	
Establish case loads and discharge processes to ensure efficiency in the system for community navigators who are following patients longitudinally.	
Market the availability of community-based navigation services.	
Use EHRs and other technical platforms to track all patients engaged in the project.

**Project 2.d.i – Implementation of Patient Activation Activities to Engage, Educate and Integrate the uninsured and low/non-utilizing Medicaid populations into Community Based Care**

**✓ IPQR Module 2.d.i.1 - Major Risks to Implementation and Mitigation Strategies**

**Instructions :**

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

Risk:Patient EngagementMitigation:A key challenge will be to engage a culturally diverse population that does not usually seek care at the right time/place/location.Locating these individuals is a challenge.PPS engagement with AHEC will assist w/language needs/training materials appropriate to target populationsRisk:Funding Mitigation:Funding for staffing is limited.Consolidation of staff resources across projects like 2ci/2di will exist.Contracts among parnters to share staff will lower costsRisk:FundingMitigation:Insignia will contract with state on behalf of all PPSs to provide training on the PAM toolRisk:Practitioner EngagementMitigation:Practitioners are not yet committed to DSRIP goals. Comprehensive practitioner communication/engagement plan to be created by Clinical Performance Committee to engage practitioners in the DSRIP initiatives. LCHP will also leverage existing gatherings of practitioners within partners to create PPS-wide professional groupsRisk:Transportation Mitigation: Integrating diverse/segmented programs for critically important services such as transportation will be a challenge.Navigators will have timely access to these resources, will collect information on new resources and report this information back to LCHP.Leveraging PHIP with expanding 211 resource will be ideal. Transportation services are not as available as demand for them. CBOs will work with each other and w/transportation agencies to increase/expand services to serve patient populationsRisk:Varying to no IT systemsMitigation:Lack of a common IT platform can limit effectiveness of program.Integration of PAM assessment within Care Management system will aid in consistency of system and increase efficiencies by only having to use one system.Limited access to PCs and internet within population can pose a challenge.Leveraging libraries and other public access sites in the field may assist.Paper copies of screening/assessments can be loaded into a computerized system when availableRisk:Staff RecruitmentMitigation:It is important to engage representatives from service areas CBOs, LCHP Committees and beneficiaries from hot spot locations to strategize on ways to recruit target population.LCHP will explore use of community champions to distribute information regarding available services to area food pantries, religious organizations and other agencies that offer services to those facing financial hardships and to network with community residents to raise awareness of available servicesRisk:Contracts with insurance companiesMitigation:Sharing of patient registries to connect with UI/LU/NU will be essential to success DSRIP.CBOs are committed to working with recipients and insurance companies to connect patients to clinical service providersRisk:Contract negotiation with MCOsMitigation:In order to negotiate contracts with MCOs, there is a need to combine efforts across project teams within LCHP PPS and across PPSs to strengthen and consolidate message and make patient care in DSRIP projects Risk:Partner EngagementMitigation:Some LCHP Partners, who are deemed essential, have not been engaged in planning projects due to ambiguity in funds flow, uncertainty of contribution to project requirements, lack of designated resources to engage in planning and execution, etc. LCHP Operations Team will confirm current partner involvement in projects, reach out to partners who are deemed essential, and complete a funds flow model to better inform their involvement. Regular updates to partners through email, project and all partner meetings, and utilization of tools such as website, Constant Contact, survey tools, Health Workforce NY, etc. are some strategies

**✔ IPQR Module 2.d.i.2 - Patient Engagement Speed**

**Instructions :**

Enter the number of patients actively engaged through the current quarter. The number entered into the "Quarterly Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for Q4 should include patients previously reported in Q3 plus new patients engaged in Q4. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

Benchmarks	
Actively Engaged Speed	Actively Engaged Scale

Contract or partner with community-based organizations (CBOs) to engage target populations using PAM(R) and other patient activation techniques. The PPS must provide oversight and ensure that engagement is sufficient and appropriate.	
Establish a PPS-wide training team, comprised of members with training in PAM(R) and expertise in patient activation and engagement.	
Identify UI, NU, and LU "hot spot" areas (e.g., emergency rooms). Contract or partner with CBOs to perform outreach within the identified "hot spot" areas.	
Survey the targeted population about healthcare needs in the PPS' region.	
Train providers located within "hot spots" on patient activation techniques, such as shared decision-making, measurements of health literacy, and cultural competency.	
Obtain list of PCPs assigned to NU and LU enrollees from MCOs. Along with the member's MCO and assigned PCP, reconnect beneficiaries to his/her designated PCP (see outcome measurements in #10). <ul style="list-style-type: none"> <li>• This patient activation project should not be used as a mechanism to inappropriately move members to different health plans and PCPs, but rather, shall focus on establishing connectivity to resources already available to the member.</li> <li>• Work with respective MCOs and PCPs to ensure proactive outreach to beneficiaries. Sufficient information must be provided regarding insurance coverage, language resources, and availability of primary and preventive care services. The state must review and approve any educational materials, which must comply with state marketing guidelines and federal regulations as outlined in 42 CFR §438.104.</li> </ul>	
Baseline each beneficiary cohort (per method developed by state) to appropriately identify cohorts using PAM(R) during the first year of the project and again, at set intervals. Baselines, as well as intervals towards improvement, must be set for each cohort at the beginning of each performance period.	
Include beneficiaries in development team to promote preventive care.

**DSRIP Implementation Plan Project**

**Leatherstocking Collaborative Health Partners (PPS ID:22)**

**Prescribed Milestones Narrative Text**

Milestone Name	Narrative Text
Measure PAM(R) components, including: <ul style="list-style-type: none"> <li>• Screen patient status (UI, NU and LU) and collect contact information when he/she visits the PPS designated facility or "hot spot" area for health service.</li> <li>• If the beneficiary is UI, does not have a registered PCP, or is attributed to a PCP in the PPS' network, assess patient using PAM(R) survey and designate a PAM(R) score.</li> <li>• Individual member's score must be averaged to calculate a baseline measure for that year's cohort.</li> <li>• The cohort must be followed for the entirety of the DSRIP program.</li> <li>• On an annual basis, assess individual members' and each cohort's level of engagement, with the goal of moving beneficiaries to a higher level of activation.               <ul style="list-style-type: none"> <li>• If the beneficiary is deemed to be LU &amp; NU but has a designated PCP who is not part of the PPS' network, counsel the beneficiary on better utilizing his/her existing healthcare benefits, while also encouraging the beneficiary to reconnect with his/her designated PCP.</li> </ul> </li> <li>• The PPS will NOT be responsible for assessing the patient via PAM(R) survey.</li> <li>• PPS will be responsible for providing the most current contact information to the beneficiary's MCO for outreach purposes.</li> <li>• Provide member engagement lists to relevant insurance companies (for NU &amp; LU populations) on a monthly basis, as well as to DOH on a quarterly basis.</li> </ul>	
Increase the volume of non-emergent (primary, behavioral, dental) care provided to UI, NU, and LU persons.	
Contract or partner with CBOs to develop a group of community navigators who are trained in connectivity to healthcare coverage, community healthcare resources (including for primary and preventive services) and patient education.	
Develop a process for Medicaid recipients and project participants to report complaints and receive customer service.	
Train community navigators in patient activation and education, including how to appropriately assist project beneficiaries using the PAM(R).	
Ensure direct hand-offs to navigators who are prominently placed at "hot spots," partnered CBOs, emergency departments, or community events, so as to facilitate education regarding health insurance coverage, age-appropriate primary and preventive healthcare services and resources.

**Project 3.a.i – Integration of primary care and behavioral health services**

**✓ IPQR Module 3.a.i.1 - Major Risks to Implementation and Mitigation Strategies**

**Instructions :**

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

Challenge 1: Bi-directionally shared records.  
Mitigation: Education about HIPAA laws and distinction between psychotherapy and progress notes.

Challenge 2: Historical separation (i.e. "siloeing") between intra-organization departments.  
Mitigation: Continued shared meetings and dialogue, hiring Medical and Administrative Directors to help shift the culture towards one more accepting of integration of behavioral and physical healthcare.

Delivery System Reform Incentive Payment Project  
DSRIP Implementation Plan Project**

**Leatherstocking Collaborative Health Partners (PPS ID:22)**

**✔ IPQR Module 3.a.i.2 - Patient Engagement Speed**

**Instructions :**

Enter the number of patients actively engaged through the current quarter. The number entered into the "Quarterly Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for Q4 should include patients previously reported in Q3 plus new patients engaged in Q4. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

Benchmarks	
Actively Engaged Speed	Actively Engaged Scale

**Project 3.a.iv – Development of Withdrawal Management (e.g., ambulatory detoxification, ancillary withdrawal services) capabilities and appropriate enhanced abstinence services within community-based addiction treatment programs**

**✅ IPQR Module 3.a.iv.1 - Major Risks to Implementation and Mitigation Strategies**

**Instructions :**

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

Challenge 1: Engaging providers to provide Medication-Assisted Treatment, or MAT.  
Mitigation: providing expert training and on-going support (e.g., Extension for Community Healthcare Outcomes, or ECHO) to providers who may be interested in providing these services. The PPS lead has hired an addictionologist to support providers with more extreme cases and to initiate care for these patients with plans to transfer them back to primary care when treatment has stabilized.

 Delivery System Reform Incentive Payment Project  
 DSRIP Implementation Plan Project**

**Leatherstocking Collaborative Health Partners (PPS ID:22)**

**✔ IPQR Module 3.a.iv.2 - Patient Engagement Speed**

**Instructions :**

Enter the number of patients actively engaged through the current quarter. The number entered into the "Quarterly Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for Q4 should include patients previously reported in Q3 plus new patients engaged in Q4. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

Benchmarks	
Actively Engaged Speed	Actively Engaged Scale
DY4,Q4	4,243

	Year,Quarter	DY4,Q1	DY4,Q2	DY4,Q3	DY4,Q4

Project 3.d.iii – Implementation of evidence-based medicine guidelines for asthma management

✓ IPQR Module 3.d.iii.1 - Major Risks to Implementation and Mitigation Strategies

Instructions :

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

<p>Challenge 1: No Regional Asthma coalition identified Mitigation: For our 5-county area, no regional asthma coalition was identified. Therefore meeting the milestone specifically to join an asthma coalition is not possible.</p> <p>Challenge 2: Recruitment of clinical and non-clinical staff Mitigation: LCHP will use creative regional recruitment and retention strategies, such as incentives, telemedicine for patient/provider access to attract providers, engaging a workforce impact consultant like AHEC, LCHP's Collaborative Learning Committee and partners. The PPS will leverage Bassett's relationship with local colleges, as well as nationally recognized universities, to create programs necessary to serve the population</p> <p>Challenge 3: Patient engagement Mitigation: Care coordinators, patient navigators, case managers, and health educators will be critical team members at community- based provider sites. These staff will engage patients in care, facilitate implementation of asthma action plans, and champion patient self-management for better asthma control. Referral tracking and patient follow-up will be part of the ongoing strategies used to engage and re-engage patients in care</p> <p>Challenge 4: Practitioner Engagement Mitigation: A comprehensive practitioner communication and engagement plan will be created by the Clinical Performance Committee to engage practitioners in the initiatives under DSRIP Program. This committee will have representation of different types of practitioners. LCHP will also leverage existing gatherings of practitioners within partners such as Grand Rounds, Primary Care Council, Regional Medical Director Group and Clinical Leadership Group as models for clinical integration and practitioner engagement in creating PPS-wide professional groups</p> <p>Challenge 5: Partner Engagement Mitigation: Some essential LCHP Partners are not engaged in planning projects due to ambiguity in funds flow, contribution to project requirements, lack of designated resources to engage in planning and execution, etc. LCHP Operations Team will confirm current partner involvement in projects, reach out to partners who are deemed essential, and complete a funds flow model to better inform their involvement. LCHP will regularly update partners through by using various tools</p> <p>Challenge 6: Clinical Interoperability - varying EHRs among partners present a challenge in interconnectivity. Additionally, involving new partners with varied EHRs later on in the process will add risk for clinically interoperability in the required timeline Mitigation: Patient registries will be required to track target patients and their care in the service area. Universal EHR connectivity is not present across service area providers. LCHP Operations Team will collaborate with partners since several proposed DSRIP projects will also rely on EHR systems and other technical platforms to track patient engagement. To address addition of new partners later on, LCHP Operations Team will</p>

**✔ IPQR Module 3.d.iii.2 - Patient Engagement Speed**

**Instructions :**

Enter the number of patients actively engaged through the current quarter. The number entered into the "Quarterly Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for Q4 should include patients previously reported in Q3 plus new patients engaged in Q4. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

Milestone Name	Narrative Text
Implement evidence-based asthma management guidelines between primary care practitioners, specialists, and community-based asthma programs (e.g., NYS Regional Asthma Coalitions) to ensure a regional population based approach to asthma management.	
Establish agreements to adhere to national guidelines for asthma management and protocols for access to asthma specialists, including EHR-HIE connectivity and telemedicine.	
Deliver educational activities addressing asthma management to participating primary care providers.	
Ensure coordination with the Medicaid Managed Care organizations and Health Homes serving the affected population.	
Use EHRs or other technical platforms to track all patients engaged in this project.

**Project 3.g.i – Integration of palliative care into the PCMH Model**

**✓ IPQR Module 3.g.i.1 - Major Risks to Implementation and Mitigation Strategies**

**Instructions :**

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

Challenge 1: Managing the fear that primary care providers' volumes would decrease due to adding longer visit types into their scheduling structure.  
Mitigation: The project has created a phased approach with three phases (pilot phase, phase 1 & 2) to ensure the shift is gradual and not all providers/partners are affected by the change of having longer visits. Each partner is slowly ramping up their trained providers who are willing and able to see patients for palliative care visits.

Challenge 2: The state's definition for Actively Engaged Patients limits the project to only primary care providers, and does not incentivize our Community Based Organizations to partake in the project.  
Mitigation: CBOs and PCPs are currently having ongoing discussions and negotiations to achieve the goals of this project by providing palliative care services to patients regardless of the limitations of the state's definition.

Challenge 3: Although all partners have adopted the use of the Medical Orders for Life-Sustaining Treatment (MOLST) form, there is no universal location for everyone to access the most up to date document.  
Mitigation: Each partner is looking into whether or not the MOLST can be uploaded into the RHIOs

Challenge 4: Costs, provider and trainers time.  
Mitigation: We have bundled goals of care, symptom management into one training that we hosted on a Saturday morning. This training provided Continuing Medical Education (CME) credits for those who attended. The lead agency recruited a palliative care provider (Nurse Practitioner) who ended up withdrawing his acceptance of employment. This result has delayed furthering the Palliative Care Program Training. Alternate training resources are currently being reviewed at the partner level.

**✔ IPQR Module 3.g.i.2 - Patient Engagement Speed**

**Instructions :**

Enter the number of patients actively engaged through the current quarter. The number entered into the "Quarterly Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for Q4 should include patients previously reported in Q3 plus new patients engaged in Q4. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

Benchmarks	
Actively Engaged Speed	Actively Engaged Scale
DY4,Q4	2,753

	Year,Quarter	DY4,Q1	DY4,Q2	DY4,Q3	DY4,Q4

Integrate Palliative Care into appropriate participating PCPs that have, or will have, achieved NCQA PCMH and/or APCM certification.	
Develop partnerships with community and provider resources including Hospice to bring the palliative care supports and services into the practice.	
Develop and adopt clinical guidelines agreed to by all partners including services and eligibility.	
Engage staff in trainings to increase role-appropriate competence in palliative care skills and protocols developed by the PPS.	
Engage with Medicaid Managed Care to address coverage of services.	
Use EHRs or other IT platforms to track all patients engaged in this project.

**Project 4.a.iii – Strengthen Mental Health and Substance Abuse Infrastructure across Systems**

**✅ IPQR Module 4.a.iii.1 - Major Risks to Implementation and Mitigation Strategies**

**Instructions :**

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

Significant Project Milestones

- Expand implementation of "collaborative care" in primary care settings, for adults and children.
- Develop models for integrated prevention interventions.

Challenge 1: Engagement from partners to provide training across our five County PPS

Mitigation: Creating a funds flow model that will incentivize partners to engaged in providing training opportunities throughout our five county PPS

Delivery System Reform Incentive Payment Project  
DSRIP Implementation Plan Project**

**Leatherstocking Collaborative Health Partners (PPS ID:22)**

**Project 4.b.i – Promote tobacco use cessation, especially among low SES populations and those with poor mental health.**

**✅ IPQR Module 4.b.i.1 - Major Risks to Implementation and Mitigation Strategies**

**Instructions :**

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

**Significant Project Milestones**

- Ongoing—train health care providers to ask the 5 As (Ask, Assess, Advise, Assist, and Arrange), and track follow-ups/results
- Pursue reimbursement for Smoking Cessation counseling by all provider types

**Challenge 1: Achieving smoker buy-in and monitoring compliance with policies.**

**Mitigation:** Develop a method to obtain good baseline data on number of current smokers in target population, track success in smoking cessation efforts, correlate success rates with techniques used, and flag individuals who quit and then start smoking again.

**Challenge 2: Risk to revenue for performing non-covered/non-reimbursed services; negotiating contracts with Medicaid MCOs is needed since many services are not reimbursed/under-reimbursed.**

**Mitigation:** Allow uniform, universal coverage; to negotiate contracts with MCOs, need to combine efforts across project teams within the PPS and across PPSs to strengthen/consolidate the message & sustain patient care in DSRIP projects.

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project  
DSRIP Implementation Plan Project**

DSRIP Implementation Plan Project

Leatherstocking Collaborative Health Partners (PPS ID:22)

Attestation

The Lead Representative has been designated by the Primary Lead PPS Provider (PPS Lead Entity) as the signing officiate for the DSRIP Quarterly Report. The Lead Representative has the authority to complete this attestation on behalf of the PPS network. The Lead Representative and PPS Lead Entity are responsible for the authenticity and accuracy of the material submitted in this report.

The Lead Representative of the Performing Provider System (PPS) must complete this attestation form in order for the project application to be accepted by the NYS Department of Health. Once the attestation is complete, the Quarterly Report will be locked down from any further editing. Do not complete this section until the entire Quarterly Report is complete.

If the Quarterly Report becomes locked in error and additional changes are necessary, please use the contact information on the Home Page to request that the Quarterly Report be unlocked.

To electronically sign this Quarterly Report, please enter the required information and check the box below:

I here by attest, as the Lead Representative of the 'Leatherstocking Collaborative Health Partners', that all information provided on this Quarterly report is true and accurate to the best of my knowledge, and that, following initial submission in the current quarterly reporting period as defined by NY DOH, changes made to this report were pursuant only to documented instructions or documented approval of changes from DOH or DSRIP Independent Assessor.

Primary Lead PPS Provider:	MARY IMOGENE BASSETT HSP
Secondary Lead PPS Provider:	
Lead Representative:	L J Lindenmuth
Submission Date:	09/10/2018 04:24 PM

DSRIP Implementation Plan Project**

**Leatherstocking Collaborative Health Partners (PPS ID:22)**

Project ID	Module Name / Milestone #	Review Status	
2.a.ii	Module 2.a.ii.2 - Patient Engagement Speed	Pass & Ongoing	
	Module 2.a.ii.3 - Prescribed Milestones		
	Milestone #1 Ensure that all eligible participating PCPs in the PPS meet NCQA 2014 Level 3 PCMH accreditation and/or meet state-determined criteria for Advanced Primary Care Models by the end of DSRIP Year 3.	Pass & Complete	
	Milestone #2 Identify a physician champion with knowledge of PCMH/APCM implementation for each primary care practice included in the project.	Pass & Complete	
	Milestone #3 Identify care coordinators at each primary care site who are responsible for care connectivity, internally, as well as connectivity to care managers at other primary care practices.	Pass & Complete	
	Milestone #4 Ensure all PPS safety net providers are actively sharing EHR systems with local health information exchange/RHIO/SHIN-NY and sharing health information among clinical partners, including direct exchange (secure messaging), alerts and patient record look up by the end of Demonstration Year (DY) 3.	Pass & Complete	
	Milestone #5 Ensure that EHR systems used by participating safety net providers meet Meaningful Use and PCMH Level 3 standards and/or APCM by the end of Demonstration Year 3.	Fail	
	Milestone #6 Perform population health management by actively using EHRs and other IT platforms, including use of targeted patient registries, for all participating safety net providers.	Pass & Complete	
	Milestone #7 Ensure that all staff are trained on PCMH or Advanced Primary Care models, including evidence-based preventive and chronic disease management.	Pass & Complete	
	Milestone #8 Implement preventive care screening protocols including behavioral health screenings (PHQ-2 or 9 for those screening positive, SBIRT) for all patients to identify unmet needs. A process is developed for assuring referral to appropriate care in a timely manner.	Pass & Complete	
Milestone #9 Implement open access scheduling in all eligible primary care practices.	Pass & Complete		
2.b.vii	Module 2.b.vii.2 - Patient Engagement Speed	Pass & Ongoing	
	Module 2.b.vii.3 - Prescribed Milestones		
	Milestone #1 Implement INTERACT at each participating SNF, demonstrated by active use of the INTERACT 3.0 toolkit and other resources available at <a href="http://interact2.net">http://interact2.net</a> .	Pass & Complete	
	Milestone #2 Identify a facility champion who will engage other staff and serve as a coach and leader of INTERACT program.	Pass & Complete	
	Milestone #3 Implement care pathways and other clinical tools for monitoring chronically ill patients, with the goal of early identification of potential instability and intervention to avoid hospital transfer.	Pass & Complete	
	Milestone #4 Educate all staff on care pathways and INTERACT principles.	Pass & Complete	
	Milestone #5 Implement Advance Care Planning tools to assist residents and families in expressing and documenting their wishes for near end of life and end of life care.	Pass & Complete	
Milestone #6 Create coaching program to facilitate and support implementation.	Pass & Complete		

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project  
DSRIP Implementation Plan Project**

**Leatherstocking Collaborative Health Partners (PPS ID:22)**

Project ID	Module Name / Milestone #	Review Status	
	Milestone #7 Educate patient and family/caretakers, to facilitate participation in planning of care.	Pass & Complete	
	Milestone #8 Establish enhanced communication with acute care hospitals, preferably with EHR and HIE connectivity.	Pass & Complete	
	Milestone #9 Measure outcomes (including quality assessment/root cause analysis of transfer) in order to identify additional interventions.	Pass & Complete	
	Milestone #10 Use EHRs and other technical platforms to track all patients engaged in the project.	Pass & Complete	
2.b.viii	Module 2.b.viii.2 - Patient Engagement Speed	Pass & Ongoing	
	Module 2.b.viii.3 - Prescribed Milestones		
	Milestone #1 Assemble Rapid Response Teams (hospital/home care) to facilitate patient discharge to home and assure needed home care services are in place, including, if appropriate, hospice.	Pass & Complete	
	Milestone #2 Ensure home care staff have knowledge and skills to identify and respond to patient risks for readmission, as well as to support evidence-based medicine and chronic care management.	Pass & Complete	
	Milestone #3 Develop care pathways and other clinical tools for monitoring chronically ill patients, with the goal of early identification of potential instability and intervention to avoid hospital transfer.	Pass & Complete	
	Milestone #4 Educate all staff on care pathways and INTERACT-like principles.	Pass & Complete	
	Milestone #5 Develop Advance Care Planning tools to assist residents and families in expressing and documenting their wishes for near end of life and end of life care.	Pass & Complete	
	Milestone #6 Create coaching program to facilitate and support implementation.	Pass & Complete	
	Milestone #7 Educate patient and family/caretakers, to facilitate participation in planning of care.	Pass & Complete	
	Milestone #8 Integrate primary care, behavioral health, pharmacy, and other services into the model in order to enhance coordination of care and medication management.	Pass & Complete	
	Milestone #9 Utilize telehealth/telemedicine to enhance hospital-home care collaborations.	Fail	
	Milestone #10 Utilize interoperable EHR to enhance communication and avoid medication errors and/or duplicative services.	Fail	
Milestone #11 Measure outcomes (including quality assessment/root cause analysis of transfer) in order to identify additional interventions.	Pass & Complete		
Milestone #12 Use EHRs and other technical platforms to track all patients engaged in the project.	Pass & Complete		
2.c.i	Module 2.c.i.2 - Patient Engagement Speed	Pass & Ongoing	
	Module 2.c.i.3 - Prescribed Milestones		
	Milestone #1 Create community-based health navigation services, with the goal of assisting patients in accessing healthcare services efficiently.	Pass & Complete	
	Milestone #2 Develop a community care resource guide to assist the community resources and ensure compliance with protocols, under direction from a collaborating program oversight group of medical/behavioral health, community nursing, and social support services providers.	Pass & Complete	

**New York State Department Of Health**  
**Delivery System Reform Incentive Payment Project**  
**DSRIP Implementation Plan Project**

**Leatherstocking Collaborative Health Partners (PPS ID:22)**

Project ID	Module Name / Milestone #	Review Status	
	Milestone #3 Recruit for community navigators, ideally spearheaded by residents in the targeted area to ensure community familiarity.	Pass & Complete	
	Milestone #4 Resource appropriately for the community navigators, evaluating placement and service type.	Pass & Complete	
	Milestone #5 Provide community navigators with access to non-clinical resources, such as transportation and housing services.	Pass & Complete	
	Milestone #6 Establish case loads and discharge processes to ensure efficiency in the system for community navigators who are following patients longitudinally.	Pass & Complete	
	Milestone #7 Market the availability of community-based navigation services.	Pass & Complete	
	Milestone #8 Use EHRs and other technical platforms to track all patients engaged in the project.	Pass & Complete	
2.d.i	Module 2.d.i.2 - Patient Engagement Speed	Pass & Ongoing	
	Module 2.d.i.3 - Prescribed Milestones		
	Milestone #1 Contract or partner with community-based organizations (CBOs) to engage target populations using PAM(R) and other patient activation techniques. The PPS must provide oversight and ensure that engagement is sufficient and appropriate.	Pass & Complete	
	Milestone #2 Establish a PPS-wide training team, comprised of members with training in PAM(R) and expertise in patient activation and engagement.	Pass & Complete	
	Milestone #3 Identify UI, NU, and LU "hot spot" areas (e.g., emergency rooms). Contract or partner with CBOs to perform outreach within the identified "hot spot" areas.	Pass & Complete	
	Milestone #4 Survey the targeted population about healthcare needs in the PPS' region.	Pass & Complete	
	Milestone #5 Train providers located within "hot spots" on patient activation techniques, such as shared decision-making, measurements of health literacy, and cultural competency.	Pass & Complete	
	Milestone #6 Obtain list of PCPs assigned to NU and LU enrollees from MCOs. Along with the member's MCO and assigned PCP, reconnect beneficiaries to his/her designated PCP (see outcome measurements in #10). <ul style="list-style-type: none"> <li>• This patient activation project should not be used as a mechanism to inappropriately move members to different health plans and PCPs, but rather, shall focus on establishing connectivity to resources already available to the member.</li> <li>• Work with respective MCOs and PCPs to ensure proactive outreach to beneficiaries. Sufficient information must be provided regarding insurance coverage, language resources, and availability of primary and preventive care services. The state must review and approve any educational materials, which must comply with state marketing guidelines and federal regulations as outlined in 42 CFR §438.104.</li> </ul>	Pass & Complete	
	Milestone #7 Baseline each beneficiary cohort (per method developed by state) to appropriately identify cohorts using PAM(R) during the first year of the project and again, at set intervals. Baselines, as well as intervals towards improvement, must be set for each cohort at the beginning of each performance period.	Pass & Complete	
	Milestone #8 Include beneficiaries in development team to promote preventive care.	Pass & Complete	
Milestone #9 Measure PAM(R) components, including: <ul style="list-style-type: none"> <li>• Screen patient status (UI, NU and LU) and collect contact information when he/she visits the PPS designated facility or "hot spot" area for health service.</li> </ul>	Fail		

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project  
DSRIP Implementation Plan Project**

**Leatherstocking Collaborative Health Partners (PPS ID:22)**

Project ID	Module Name / Milestone #	Review Status	
	<ul style="list-style-type: none"> <li>• If the beneficiary is UI, does not have a registered PCP, or is attributed to a PCP in the PPS' network, assess patient using PAM (R) survey and designate a PAM(R) score.</li> <li>• Individual member's score must be averaged to calculate a baseline measure for that year's cohort.</li> <li>• The cohort must be followed for the entirety of the DSRIP program.</li> <li>• On an annual basis, assess individual members' and each cohort's level of engagement, with the goal of moving beneficiaries to a higher level of activation.               <ul style="list-style-type: none"> <li>• If the beneficiary is deemed to be LU &amp; NU but has a designated PCP who is not part of the PPS' network, counsel the beneficiary on better utilizing his/her existing healthcare benefits, while also encouraging the beneficiary to reconnect with his/her designated PCP.</li> </ul> </li> <li>• The PPS will NOT be responsible for assessing the patient via PAM(R) survey.</li> <li>• PPS will be responsible for providing the most current contact information to the beneficiary's MCO for outreach purposes.</li> <li>• Provide member engagement lists to relevant insurance companies (for NU &amp; LU populations) on a monthly basis, as well as to DOH on a quarterly basis.</li> </ul>		
	Milestone #10 Increase the volume of non-emergent (primary, behavioral, dental) care provided to UI, NU, and LU persons.	Pass & Complete	
	Milestone #11 Contract or partner with CBOs to develop a group of community navigators who are trained in connectivity to healthcare coverage, community healthcare resources (including for primary and preventive services) and patient education.	Pass & Complete	
	Milestone #12 Develop a process for Medicaid recipients and project participants to report complaints and receive customer service.	Pass & Complete	
	Milestone #13 Train community navigators in patient activation and education, including how to appropriately assist project beneficiaries using the PAM(R).	Pass & Complete	
	Milestone #14 Ensure direct hand-offs to navigators who are prominently placed at "hot spots," partnered CBOs, emergency departments, or community events, so as to facilitate education regarding health insurance coverage, age-appropriate primary and preventive healthcare services and resources.	Pass & Complete	
	Milestone #15 Inform and educate navigators about insurance options and healthcare resources available to UI, NU, and LU populations.	Pass & Complete	
	Milestone #16 Ensure appropriate and timely access for navigators when attempting to establish primary and preventive services for a community member.	Pass & Complete	
	Milestone #17 Perform population health management by actively using EHRs and other IT platforms, including use of targeted patient registries, to track all patients engaged in the project.	Pass & Complete	
3.a.i	Module 3.a.i.2 - Patient Engagement Speed	Pass & Ongoing	
	Module 3.a.i.3 - Prescribed Milestones		
	Milestone #1 Co-locate behavioral health services at primary care practice sites. All participating eligible primary care practices must meet 2014 NCQA level 3 PCMH or Advance Primary Care Model standards by DY 3.	Fail	
	Milestone #2 Develop collaborative evidence-based standards of care including medication management and care engagement process.	Pass & Complete	
	Milestone #3 Conduct preventive care screenings, including behavioral health screenings (PHQ-2 or 9 for those screening positive, SBIRT) implemented for all patients to identify unmet needs.	Pass & Complete	

**New York State Department Of Health

**Additional Project Scale Commitments**

**Instructions:**

Please indicate the scale of the categories below that meet all of the project requirements committed to in the Project Plan Application. Documentation must be submitted in Excel format in the quarter when the PPS provider speed commitments for a particular project are due. This documentation should include the target category(e.g. Medical Villages, Emergency Departments with Care Triage, Community-based navigators, etc.), the project ID(e.g. 2.a.iv,2.a.v,3.a.ii, etc.), and the name of the providers/entities/individuals associated with this project, if applicable.

Project Scale Category	Project	Selected	Committed
Community-based navigators participating in project	2.c.i	0	70
Home Care Facilities	2.b.viii	3	3
PAM(R) Providers	2.d.i	54	27
