#### Narrative Text:

The spreadsheet included in the MAPP file above will not function appropriately to reflect unexpended year 1 revenue expenditures across DSRIP years as was submitted in original implementation plan per guidance received. How do you want this to be handled when it is reviewed and revised?

**IPQR Module 1.2 - PPS Budget - Waiver Revenue (Quarterly)** 

#### Instructions:

Please include updates on waiver revenue budget items for this quarterly reporting period. Reported actual spending will be compared to baseline projections and deviations will be evaluated. Any explanations regarding deviations from baseline projections must be included within the textbox, not as narrative within uploaded documentation.

#### Narrative Text:

Please note the undistributed tab does not calculate correctly to allow undistributed revenuer to be distributed across the 5 years. The attached spreadsheet indicates the correct undistributed revenue calculation. The funds flow has not been finalized and is part of the planning within this implementation. The table below reflects dollars in the budget but until the individual project implementation plans are undertaken and the funds

**DSRIP Implementation Plan Project** 

**North Country Initiative (PPS ID:45)** 

flow activities above are carried out funds flow cannot be accurately placed in the categories identified. All Other is the largest category as this encompasses 1) all project implementation costs and 2) all costs for services not currently covered that the PPS intends to contract for under the NCI governance through the Safety Net lead for all partners as an integrated delivery system. The categories that are provider type specific are based on estimates of incentives, contingency, revenue loss, innovation and high performance buckets but are likely to change as the funds flow activities above are carried out and more accurate estimates are made.

**IPQR Module 1.5 - Prescribed Milestones** 

#### Instructions:

Please provide updates to baseline target dates and work breakdown tasks with target dates for required milestones. For milestones that are due within the reporting period, documentation is required to provide evidence of milestone achievement. Any explanations regarding altered or missed target commitments must be included within the textbox, not as narrative within uploaded documentation.

| Milestone/Task Name   | Status    | Description  | Original<br>Start Date | Original<br>End Date | Start Date | End Date   | Quarter<br>End Date | DSRIP<br>Reporting<br>Year and<br>Quarter | AV  |
|---|-----------|--|------------------------|----------------------|------------|------------|---------------------|---|-----|
| Milestone #1 Complete funds flow budget and distribution plan and communicate with network  | Completed | Funds Flow Budget and Distribution Plan, signed off by your Finance Committee, including details of your approach to funds flow on a whole-PPS and project-by-project basis; evidence of involvement of provider network in developing funds flow methodology. | 04/01/2015             | 03/31/2016           | 04/01/2015 | 03/31/2016 | 03/31/2016          | DY1 Q4                                    | YES |
| Task  1. Develop project by project analysis of what inputs, by which providers will create the highest performing team to accomplish project deliverables and what metrics will measure and be accomplished to attest to the performance. Determine weighting to each deliverable and each provider category within the deliverable to drive funds flow  | Completed | See task   | 04/01/2015             | 03/31/2016           | 04/01/2015 | 03/31/2016 | 03/31/2016          | DY1 Q4                                    |     |
| Task 2. Distribute the project revenue impact assessment (prepared as part of current state financial stability assessment) and the project-by- project analysis to network provider partners with explanation of the purpose of the matrix and how it will 1) be used to finalize revenue loss funds flow 2) expected impact of DSRIP projects and expectations of costs incurred by the PPS and individual provider types and 3) drive incentives | Completed | See task   | 04/01/2015             | 03/31/2016           | 04/01/2015 | 03/31/2016 | 03/31/2016          | DY1 Q4                                    |     |
| Task 3. Complete a preliminary PPS Level budget for Administration, Implementation, Revenue Loss, Cost of Services not Covered budget categories (Excludes Bonus, Contingency and High  | Completed | See task   | 04/01/2015             | 12/31/2015           | 04/01/2015 | 12/31/2015 | 12/31/2015          | DY1 Q3                                    |     |

| Performance categories)   |           |             |                        |                      |            |            |                     |   |    |
| Task  4. Review the provider level projections of DSRIP impacts and costs. During provider specific budget processes, develop preliminary budgets including completion of Provider Specific funds flow plan         | Completed | See task    | 04/01/2015             | 03/31/2016           | 04/01/2015 | 03/31/2016 | 03/31/2016          | DY1 Q4                                    |    |
| Task 5. Develop the funds flow approach and distribution plan with drivers and requirements for each of the funds flow budget categories  | Completed | See task    | 04/01/2015             | 03/31/2016           | 04/01/2015 | 03/31/2016 | 03/31/2016          | DY1 Q4                                    |    |
| Task 6. Distribute funds flow approach and distribution plan to Finance Committee and network participating providers for review and input  | Completed | See task    | 04/01/2015             | 03/31/2016           | 04/01/2015 | 03/31/2016 | 03/31/2016          | DY1 Q4                                    |    |
| Task 7. Revise plan based on consultation and finalize; obtain approval from Finance Committee  | Completed | See task    | 04/01/2015             | 03/31/2016           | 04/01/2015 | 03/31/2016 | 03/31/2016          | DY1 Q4                                    |    |
| Task 8. Prepare PPS, Provider and Project level funds flow budgets based upon final budget review sessions with network providers for review and approval by Finance Committee                                      | Completed | See task    | 04/01/2015             | 03/31/2016           | 04/01/2015 | 03/31/2016 | 03/31/2016          | DY1 Q4                                    |    |
| Task  9. Communicate approved Provider Level Funds Flow plan to each network provider. Incorporate agreed upon funds flow plan and requirements to receive funds into the PPS Provider Partner Operating Agreements | Completed | See task    | 04/01/2015             | 03/31/2016           | 04/01/2015 | 03/31/2016 | 03/31/2016          | DY1 Q4                                    |    |
| Task  10. Distribute Funds Flow policy and procedure, and schedule DSRIP period close requirements, along with expected Funds distribution schedule, to PPS network provider partners                               | Completed | See task    | 04/01/2015             | 03/31/2016           | 04/01/2015 | 03/31/2016 | 03/31/2016          | DY1 Q4                                    |    |
| Task 11. Roll out education and training sessions for providers regarding the funds flow plan, the  | Completed | See task    | 04/01/2015             | 03/31/2016           | 04/01/2015 | 03/31/2016 | 03/31/2016          | DY1 Q4                                    |    |

**IPQR Module 1.8 - PPS Budget - Non-Waiver Revenue (Quarterly)** 

#### Instructions:

Please include updates on non-waiver revenue budget items for this quarterly reporting period. Reported actual spending will be compared to baseline projections and deviations will be evaluated. Any explanations regarding deviations from baseline projections must be included within the textbox, not as narrative within uploaded documentation.

#### **Benchmarks**

**IPQR Module 1.10 - PPS Flow of Funds - Non-Waiver Revenue (Quarterly)** 

#### Instructions:

Please include updates on flow of funds for this quarterly reporting period by importing the PIT file and filling out the PPS PMO line manually. Reported actual fund distribution will be compared to baseline projections and deviations will be evaluated.

Any explanations regarding deviations from baseline projections must be included within the textbox, not as narrative within uploaded documentation.

#### **Benchmarks**

| Non-Waiver<br>Revenue DY4 | Total Non-Waiver<br>Revenue | Undistributed<br>Non-Waiver<br>Revenue YTD | Undistributed<br>Non-Waiver<br>Revenue Total |  |

#### **Section 02 – Governance**

**IPQR Module 2.1 - Prescribed Milestones** 

#### Instructions:

Please enter and update target dates, as well as breakdown tasks with target dates for prescribed milestones. For milestones that are due within the reporting period, documentation is required to provide evidence of milestone achievement.

Any explanations regarding altered or missed target commitments must be included within the textbox, not as narrative within uploaded documentation. Note some milestones include minimum expected completion dates.

| Milestone/Task Name  | Status    | Description   | Original<br>Start Date | Original<br>End Date | Start Date | End Date   | Quarter<br>End Date | DSRIP<br>Reporting<br>Year and<br>Quarter | AV  |
|--|-----------|---|------------------------|----------------------|------------|------------|---------------------|---|-----|
| Milestone #1 Finalize governance structure and sub- committee structure  | Completed | This milestone must be completed by 9/30/2015. Governance and committee structure, signed off by PPS Board. | 04/01/2015             | 09/30/2015           | 04/01/2015 | 09/30/2015 | 09/30/2015          | DY1 Q2                                    | YES |
| Task 1. Outline the PPS governance / organizational structure  | Completed | See Task  | 04/01/2015             | 09/30/2015           | 04/01/2015 | 09/30/2015 | 09/30/2015          | DY1 Q2                                    |     |
| Task 2. Documented explanation of why selected organizational structure is critical to the success of the PPS  | Completed | See Task  | 04/01/2015             | 09/30/2015           | 04/01/2015 | 09/30/2015 | 09/30/2015          | DY1 Q2                                    |     |
| Task 3. Identify the size of the 5 primary standing committees: Payer / Finance, HIT Governance, Medical Management(clinical), Compliance, Professional Education and Workforce.               | Completed | See Task  | 04/01/2015             | 09/30/2015           | 04/01/2015 | 09/30/2015 | 09/30/2015          | DY1 Q2                                    |     |
| Task 4. Select, Appoint and Install all members of the 5 standing committees: Payer / Finance, HIT Governance, Medical Management(clinical), Compliance, Professional Education and Workforce. | Completed | See Task  | 04/01/2015             | 09/30/2015           | 04/01/2015 | 09/30/2015 | 09/30/2015          | DY1 Q2                                    |     |

North Country Initiative (PPS ID:45)

#### IPQR Module 2.3 - Major Risks to Implementation & Risk Mitigation Strategies

#### Instructions:

Please describe the key challenges or risks that you foresee in implementing your governance structure and processes and achieving the milestones described above, as well as potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

Risk 1: Due the region's severe health provider shortages, retaining appropriate physician commitment on boards can be difficult. Mitigation:

NCI has a broad range of specialty CBO involved in committees to represent a broad spectrum of the region's needs & resources, so not all responsibilities fall on our primary care physicians. In addition a single clinical governance committee may have the role to serve as the clinical committee for multiple projects within their expertise.

Risk 2: With the large geographic area NCI covers physical attendance to meetings may be difficult.

Mitigation:

The use of video conferencing, teleconferencing, and webcasts has been defined and implemented by PPS.

Risk 3: Collecting participant level data from PPS partners.

Mitigation

- a.) NCI utilize a centralized platform (performance logic) to manage project planning implementation & reporting with real time data.
- b.) NCI will implement population health management tools for monitoring of clinical based data & evidenced based medicine.

Risk 4: Gaining agreement on evidence based clinical guidelines by the Medical Management (Clinical) Committee & the ability to monitor participant's adherence.

Mitigation:

Medical Management Committee will select National accepted evidence based clinical practice guidelines and utilize IT capabilities.

#### **IPQR Module 2.4 - Major Dependencies on Organizational Workstreams**

#### Instructions:

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

1. Practitioner, Community and Workforce Engagement: Across the entire PPS, a community engagement plan, including plans for two-way communication with stakeholders will be developed. This plan will include communication with all levels of the governance, regarding required trainings, recruitment and retention strategies (i.e. alignment with and awareness of federal and state initiatives), and new hires. The PPS governance structure will be responsible for agency coordination plans aimed at engaging appropriate and targeted workers who will most greatly impacted by project implementation. Practitioner engagement and involvement in the DSRIP program will also be a major interdependency with our

#### **DSRIP Implementation Plan Project**

#### North Country Initiative (PPS ID:45)

workforce transformation plans. As such, we will develop training and education plans targeting practitioners and other professional groups, designed to educate them about the DSRIP Program and our PPS-specific quality improvement agenda.

- 2. Financial Sustainability: Key people within organizations will need to be identified and held responsible for the financial sustainability of their entities, incorporating PPS strategies to address important, identified issues related to our network's financial health. The financial sustainability of PPS partners greatly impact governance.
- 3. Cultural Competency and Health Literacy: The implementation of cultural competence and health literacy strategies will require the identification and implementation of assessments and tools to assist patients with self-management of conditions, as well as the utilization of community-based interventions to reduce health disparities and improve outcomes. The PPS Governance will need to adopt a culturally competent training strategy for clinicians focused on evidence-based research addressing the drivers of health disparities for particular groups identified. We will also create training plans for other segments of the workforce (and others, as appropriate) regarding specific population needs and effective patient engagement approaches.
- 4. IT Systems and Processes: All projects and workstreams are dependent on the IT systems and processes, therefore, strategic implementation of these systems and processes is primarily dependent on workforce related to both clinical and technical training. The PPS will develop an IT change management strategy that is focused on a communication plan involving all stakeholders, including users. An education and training plan will be created and workflows for authorizing and implementing IT changes will be defined and standardized across the PPS. This training plan will support the successful implementation of new platforms and processes involving technical standards and implementation guidance for sharing and using a common clinical data set.
- 5. Performance Monitoring: Each entity will be required to report clinical and financial outcomes for specific patient pathways and project milestones. Key personnel will need to be trained to use clinical quality and performance dashboards as well as a centralized, continuously monitored reporting tool. Reporting, tracking, monitoring and course adjustments will need to be made by the organization and their workers, in partnership with the PPS Project Management Officer. The Governance structure will need to be proactive and rapidly reactive with improvement plans for areas of poor performance.

**DSRIP Implementation Plan Project** 

**North Country Initiative (PPS ID:45)** 

IPQR Module 2.7 - IT Expectations

#### Instructions:

Please clearly describe how the development of shared IT infrastructure across the PPS will support this particular workstream and your ability to achieve the milestones described above.

North Country Initiatives, ability to obtain information quickly on a patient's health, health care, and potential treatments is critically important. Additionally, the ability to share this information in a timely manner with other providers caring for the patient is essential to the delivery of safe, patient-centered, coordinated, and efficient health care. To meet this need, collaboration across the entire PPS is underway to develop and leverage: electronic health record (EHR) systems with decision support for clinicians, a secure platform for the exchange of patient information across health care settings, and data standards that will make shared information understandable to all users. Efforts are also underway to complete the implementation of a population health management tool that will allow our PPS to analyze, and aggregate real time data on our participants and those beneficiaries who opt in. NCI through the use of this tool will also be able to leverage information systems for mental health and substance abuse providers. Ensuring that the developing systems for mental health and substance abuse conditions are aligned with general, medical care needs is essential for improving the quality and continuity of care across the system. NCI's PPS will not be successful within DSRIP or any other Healthcare reform initiative if our information technology cannot produce reports on our ability to deliver safe, effective, patient-centered, timely health care. Those reports will be allow our PPS to take data and turn that information into healthcare decisions which will allow for improved patient outcomes and a reduction in healthcare cost.

All staff and participating providers will need to be trained on protecting health information through appropriate privacy and security practices. They will need to be trained on effective strategies to achieve ongoing, industrywide Health IT standards to include information tools, specialized network functions, and security protections for the interoperable exchange of health information. They will need to learn how to identify health IT standards for use by identifying and prioritizing specific uses for which health IT is valuable, beneficial and feasible. Overall, strong commitment from PPS to train, understand, and embrace the development of a shared, secure IT infrastructure will ultimately impact the successful use of IT functionality to improve outcomes.

It is vital to recognize the importance that our IT infrastructure has on our regions ability to reverse the cost curve and to improve the outcome of all the patients this region serves. Improvement in Information technology has been a commitment this region has made and will maintain throughout the regions transformation.

#### **IPQR Module 2.8 - Progress Reporting**

#### Instructions:

Please describe how you will measure the success of this organizational workstream.

The success of North Country Initiative governance will be measured against the timely achievement of the creation of the structures (Board of Directors, Committees Organizational chart), the recruitment of Board of Directors and committee members, the development and adoption of

Page 51 of 389

Run Date: 06/28/2019

#### **DSRIP Implementation Plan Project**

**North Country Initiative (PPS ID:45)** 

bylaws, policies and procedures for all key committees and sub-committees, and the development, negotiation and execution of all required provider agreements to allow NCI to begin operating as a PPS. Additionally, success will be measured by the establishment of the population health management tool and performance management systems (including data collection, analyses and reporting) to support effective and efficient decision-making. Our PPS will rely heavily on the IT infrastructure and tools that will help assist in project management and clinical reviews. Our project management officer and those PPS identified members will utilize a software program to help manage the 11 DSRIP projects, and financial obligations. Our clinical committees including but not limited to medical management, HIT, Care transitions committee will rely on the population health management software to capture data regarding the clinical measures, compliance with EBM (evidence-based medicine) protocol, and ultimately with the impact on the project goals and the overall NYS goal of reduction in avoidable hospital admissions.

North Country Initiative (NCI) has established a Project Management Office (PMO) staffed with a certified Project Management Officer and Program Manager. The PMO will utilize, Performance Logic, a project management performance based software platform for monitoring, controlling and reporting (weekly, monthly, quarterly) status / metrics associated with project milestones / deliverables. Performance Logic is specifically designed to the needs of the PPS with project management, implementation, planning, performance monitoring and results oriented project tracking / reporting. Performance Logic incorporates all aspects of DSRIP tracking enhancing NCI's ability to communicate with multiple team members and essential stakeholders.

| Assessment, based on feedback from provider and MCO stakeholder engagement sessions and survey results, providing an overview of the NCI PPS provider population (by provider type and specialty areas, a view of preferred compensation modalities, and a detailed overview of contracting options.   |           |   |                        |                      |            |            |                     |   |     |
| Task  14. Circulate the NCI PPS VBP Baseline Assessment for open comment among network providers to help ensure accuracy and understanding.  | Completed | Milestone: Finalize PPS VBP Baseline Assessment                                   | 04/01/2015             | 03/31/2017           | 04/01/2015 | 03/31/2017 | 03/31/2017          | DY2 Q4                                    |     |
| Task 15. Update, revise and finalize NCI PPS VBP Baseline Assessment.  | Completed | Milestone: Finalize PPS VBP Baseline Assessment                                   | 04/01/2015             | 03/31/2017           | 04/01/2015 | 03/31/2017 | 03/31/2017          | DY2 Q4                                    |     |
| Milestone #5  Develop an implementation plan geared towards addressing the needs identified within your VNA  | Completed | Submit VBP support implementation plan  | 04/01/2015             | 06/30/2017           | 04/01/2015 | 06/30/2017 | 06/30/2017          | DY3 Q1                                    | YES |
| Task  1. Analyze health care bundle populations and total cost of care data provided by the NYS Department of Health (DOH), to identify VBP opportunities that are more easily attainable and prioritize services moving into VBP.   | Completed | Milestone: Prioritize potential opportunities and providers for VBP arrangements. |                        | 06/30/2017           | 04/01/2015 | 06/30/2017 | 06/30/2017          | DY3 Q1                                    |     |
| Task  2. Identify VBP accelerators and challenges within NCI PPS related to the implementation of the VBP model, including existing ACO and MCO models with current VBP arrangements, existing bundled payments, or shared savings arrangements a, and necessary IT infrastructure that can be utilized to monitor VBP activity (accelerators); and contracting complexity, limited infrastructure with experience in VBP or abundance of low performing providers (challenges). | Completed | Milestone: Prioritize potential opportunities and providers for VBP arrangements. | 04/01/2015             | 06/30/2017           | 04/01/2015 | 06/30/2017 | 06/30/2017          | DY3 Q1                                    |     |
| Task   | Completed | Milestone: Prioritize potential opportunities and providers for                   | 04/01/2015             | 06/30/2017           | 04/01/2015 | 06/30/2017 | 06/30/2017          | DY3 Q1                                    |     |

|---|-----------|---|------------------------|----------------------|------------|------------|---------------------|---|----|
| 3. Align providers and PCMHs to potential VBP accelerators and challenges to identify which providers and PCMHs are best aligned to expeditiously engage in VBP arrangements.   |           | VBP arrangements.   |                        |                      |            |            |                     |   |    |
| Task 4. Identify providers and PCMHs within the PPS with the greatest ability to negotiate VBP arrangements and operate in a VBPO model. Providers and PCMHs will be divided into three categories (Advanced, Moderate and Low) based on 1) findings derived from the VBP Baseline Assessment, 2) their alignment with VBP accelerators and challenges, and 3) their ability to implement VBP arrangements for more easily attainable bundles of care based on DOH provided data. | Completed | lestone: Prioritize potential opportunities and providers for 8P arrangements.    |                        | 06/30/2017           | 04/01/2015 | 06/30/2017 | 06/30/2017          | DY3 Q1                                    |    |
| Task 5. Conduct engagement sessions between 'advanced' providers/PCMHs and MCOs to discuss the process and requirements necessary for engaging in VBP arrangements.   | Completed | Milestone: Prioritize potential opportunities and providers for VBP arrangements. | 04/01/2015             | 06/30/2017           | 04/01/2015 | 06/30/2017 | 06/30/2017          | DY3 Q1                                    |    |
| Task 6. Re-assess capability and infrastructure of providers and PCMHs that have been identified as 'advanced,' in order to assess for strengths and weaknesses in ability to continue as early adopters of VBP arrangements.   | Completed | Milestone: Prioritize potential opportunities and providers for VBP arrangements. | 04/01/2015             | 06/30/2017           | 04/01/2015 | 06/30/2017 | 06/30/2017          | DY3 Q1                                    |    |
| Task 7. Develop a realistic and achievable timeline for "Advanced" providers and PCMHs to become early adopters of VBP arrangements, taking into account findings of the baseline assessment, alignment with VBP accelerators, and ability to engage in VBP arrangements for the care bundles deemed more attainable and which are supported by DOH data.   | Completed | Milestone: Develop timeline for VBP adoption.                                     | 04/01/2015             | 06/30/2017           | 04/01/2015 | 06/30/2017 | 06/30/2017          | DY3 Q1                                    |    |
| Task  | Completed | Milestone: Develop timeline for VBP adoption.                                     | 04/01/2015             | 06/30/2017           | 04/01/2015 | 06/30/2017 | 06/30/2017          | DY3 Q1                                    |    |

#### **IPQR Module 3.3 - Major Risks to Implementation & Risk Mitigation Strategies**

#### Instructions:

Please describe the key challenges or risks that you foresee in implementing these cross-cutting organizational strategies, including potential impacts on specific projects and, crucially, any risks that will undermine your ability to achieve outcome measure targets.

There are challenges to implementing the organizational strategies required for the financial sustainability work stream that could impact the PPSs efforts to assess and monitor the financial health of the PPS. These challenges include:

- •Implementation of a financial reporting infrastructure
- •Obtaining buy-in of the NCI PPSs DSRIP project and funds plans
- •Inability to access data to perform or validate analytics related to project performance
- •Failure of PPS providers to meet the DSRIP reporting requirements
- •Fee for service transition to VBP
- •Implementation of ICD 10

The IT current state assessment identified varying levels of financial reporting capability. A shared reporting infrastructure is essential to having timely access to the financial metrics needed to monitor the financial health of the PPS. This is therefore a key risk for the PPS's Finance Function and they will be involved in the IT Function's implementation and management of a shared IT infrastructure throughout the network. In addition, links to sources of performance data will enable the PPS finance function to have timely access to both financial and performance data to identify trends that might negatively impact the PPS and to implement plans of corrective action.

The ability to receive financial metrics for PPS providers related to financial health, the timely reporting of data and metrics related to project status and performance is essential to meeting the PPS's DSRIP reporting requirements. The NCI will need to develop a Data and Technology work plan specifically related to the requirements that the finance function for DSRIP project metrics. In addition, NCI will distribute a Finance Calendar to all PPS providers regularly to ensure, partners understand the schedule for reporting information to the PPS as needed for submission to DOH. The NCI PPS recognizes the importance of having buy-in of the PPS partners to the functioning of the integrated delivery network and to the goals and objectives of. To obtain, and sustain, this important buy-in the PPS Board will develop strong lines of informative and meaningful communication to the providers. The NCI will establish a funds distribution plan that is transparent to the providers and ensure that all plan requirements and related processes and payment schedules are clearly understood and communicated regularly.

Transitioning away from a fee-for-service reimbursement methodology toward a VBP model mitigation: create opportunities to obtain outside expertise for education and outreach and through beginning with small wins. As NCI identified previously, NCI will engage partners to develop a flexible, multi-phased approach that enables the most effective method of VBP contracting. To address the complexities of VBP, the NCI will embrace the strong relationships that exist between individual providers and MCOs and we will enable our providers to contract directly with MCOs in our region. To successfully operate in a VBP arrangement, our partners must maintain a firm understanding of the varying degrees of risk sharing, capitation and fee for service. NCI will examine opportunities for standardization in contracting methodologies among MCOs, ultimately streamlining our and our partner's ability to establish VBP arrangements.

Implementation of ICD-10 coding in October 2015 may temporarily shift provider priorities, as payments to providers hinges on accurate coding. Time and resources will need to be spent to train and prepare practices for this conversion, otherwise, practices could experience a potentially devastating loss of productivity and revenue. ICD 10 Risk Mitigation: a) Establish a group to assess and monitor ICD-10 provider readiness and its potential impact on the implementation of chosen projects b) Develop contingency plan in the event that provider focus shifts to ICD-10

implementation

IPQR Module 3.4 - Major Dependencies on Organizational Workstreams

#### Instructions:

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

During NCI's preliminary assessment of the finance function for the NCI PPSs DSRIP application a number of interdependencies were identified with other work streams in the following key areas:

- 1. Governance A fully supportive governance process is essential to establishing the role of the NCI Finance Function. Fully established roles within the governance structure for Finance, Compliance and Audit will inform and drive the finance committee charter, its oversight of the finance function and approach to funds flow.
- 2. DSRIP Network Capabilities and Clinical Integration The successful implementation of the NCI's value based reform strategy, and execution of value based contracts, will require a developed and functioning integrated delivery network and buy-in of the network partners to the value based payment strategy.
- 3. Performance Monitoring The DSRIP process has extensive reporting requirements linked to DSRIP payments such as the quarterly reporting is a dependency for receiving DSRIP Process Payments. This reporting is dependent upon input and submission of reports and data from the individual network providers as well as other sources of data that will require the PPSs IT function to access.
- 4. DSRIP Projects The NCI PPS finance function must have an understanding of projects selected and participation level of providers for each (Provider Participation Matrix) in order to develop a meaningful funds plan for the PPS. In addition, the PPS and the providers must understand project costs, impacts and other needs as part of their process of evaluating financial stability and impact going forward.
- 5. IT Systems & Processes This work stream will be essential to providing technology to access data and to implement shared financial reporting infrastructure that is needed by NCI as well as the technology for reporting project level performance data that is closely linked to the payments received for DSRIP projects.
- 6. Workforce The impact of the DSRIP projects is still being reviewed as is the costs related to those impacts and the strategies of the PPS and each provider to mitigate that impact. NCI will work closely with the workforce work stream to ensure that the appropriate data related to the workforce strategy and impact is being gather and reported to meet the DSRIP requirements. NCI is responsible for communicating these requirements for tracking and reporting to all PPS providers to ensure that the PPS meets its requirement to report this information to DOH.

#### **IPQR Module 3.5 - Roles and Responsibilities**

#### Instructions:

Please list and elaborate upon the key people/organizations responsible for this organizational workstream and describe what their responsibilities involve.

| Role                                | Name of person / organization (if known at this stage)   | Key deliverables / responsibilities  |  |  |
|-------------------------------------|--|--|--|--|
| NCI Payer/Finance Committee         | Multi-Organization   | Development of Financial Strategies, including funds flow and VBP.   |  |  |
| Lead Entity Chief Financial Officer | Sean Mills   | Responsible for the day-to-day oversight of operations of the accounts payable and banking functions, including updating policies and procedures, monitoring the accounts payable system, and developing protocols around reporting and AP check write related to the DSRIP funds distribution. This function includes the maintenance of financial records for reports.   |  |  |
| NCI Financial Officer               | Unknown at this time. Responsibilities will be fulfilled by Lead Entity CFO and NCI Director until determined. | Responsible for development and management of the Financial objectives. Provides support for Finance/Payer Committee. The individual will provide guidance and oversight around the Funds Flow Plan, the Financial Stability Plan, and other relevant processes. The responsibilities include ensuring that funds are managed and distributed according to the approved plan, that reporting requirements are met and that communication regarding the Finance related functions is timely and accurate. |  |  |
| NCI DSRIP Compliance Officer        | TBD will be filled by the Lead Entity Compliance Officer in the interim  | Will oversee the development and implementation of the compliance plan of the PPS Lead and related compliance requirements of the PPS as they are defined. Scope would include the PPS Lead compliance plan related to DSRIP. The compliance role will report to the Executive Body.   |  |  |
| NCI Compliance Committee            | Multi-Organization   | Responsible to ensure Compliance programs are in place   |  |  |
| Lead Entity Compliance Officer      | Barbara Morrow   | Will fill Compliance Officer role is completed until NCI Compliance Officer is in place. Will provide oversight to NCI Compliance Officer  |  |  |
| NCI Director                        | Brian Marcolini  | Overall NCI Leadership. Coordinate overall development of VBP baseline assessment and plan for achieving value based payments. Coordinate approach and engagement of process to develop PPS VBP Baseline Assessment and Adoption Plan. Ultimately responsible for the development of the PPS VBP Baseline Assessment and Adoption Plan.  |  |  |
| NCI Project Management Officer      | Ray Moore  | Will ensure the tracking of partner performance for DSRIP  |  |  |

| Non-Partner Community Based Organizations          | Engagement and Recipients of communication plans.  | Understanding and buy-in   |  |
| Medicaid and Uninsured Patients, Community Members | Engagement to ensure positive impact on beneficiaries. Recipients of communication plans.  | Information to ensure projects and activities are effective and appropriately targeted                                     |  |

**DSRIP Implementation Plan Project** 

**North Country Initiative (PPS ID:45)** 

**IPQR Module 3.7 - IT Expectations** 

#### Instructions:

Please clearly describe how the development of shared IT infrastructure across the PPS will support this particular workstream.

The development of shared IT infrastructure across the NCI PPS will support the NCI Finance Officer and the financial sustainability of the network by providing the network partners with capability for sharing and submitting reports and data pertaining to project performance and other DSRIP related business in a secure and compliant manner. The NCI has begun the process of establishing a shared reporting platform across the network, which will be utilized to provide access and visibility to updates on key financial sustainability metrics at the provider and PPS level. The NCI also intends to link to the performance reporting mechanisms that will be utilized across the PPS to provide the NCI DSRIP Finance Committee with current data that may be utilized to track project performance levels and expected DSRIP payments.

Other shared IT infrastructure and functionality across the PPS that will support or contribute to the success of the NCI PPS Finance function includes:

- Population Health systems or technology that will support the need to access and report on data related to clinical services and outcomes for DSRIP required metrics and to meet the needs under value based payment arrangements.
- Care Coordination technology and systems that supports broad network integration of services and health management capabilities.

#### **IPQR Module 3.8 - Progress Reporting**

#### Instructions:

Please describe how you will measure the success of this organizational workstream.

The NCI will align our PPS financial management and sustainability progress reporting with the reporting and oversight structures in place for the DSRIP projects, through the NCI PPS Project Management Office. The PMO will be responsible for monitoring progress against project requirements and process measures at a provider level, and the preparation of status reports for the quarterly reporting process for DOH.

The PMO will be utilizing (Performance Logic) a project management performance based software platform for monitoring, controlling and reporting (weekly, monthly, quarterly) status / metrics associated with project milestones / deliverables. Performance Logic is specifically designed to the needs of the PPS with project management, implementation, planning, performance monitoring and results oriented project tracking / reporting. Performance Logic incorporates all aspects of DSRIP tracking enhancing NCI's ability to communicate with multiple team members and essential stakeholders.

The NCI will integrate into this process the financial reporting required to monitor and manage the financial health of the network over the course of the DSRIP program. The NCI PPS Finance Officer will be responsible for consolidating all of the specific financial elements of this project reporting into specific financial dashboards for the NCI PPS Board and for the tracking of the specific financial indicators the PPS is required to report on as

Page 71 of 389 Run Date: 06/28/2019

Page 72 of 389 Run Date: 06/28/2019

**DSRIP Implementation Plan Project** 

**North Country Initiative (PPS ID:45)** 

part of the financial sustainability assessments and the ongoing monitoring of the financial impacts of DSRIP on the providers. Through ongoing reporting, if a partner trends negatively or if the financial impacts are not in line with expectations, the NCI PPS Finance Officer will work with the NCI Finance Committee to engage the provider to understand the financial impact and develop plans for corrective action.

The NCI Finance Officer will provide regular reporting to the Lead Entity, the Finance Committee, Executive Body and network partners as applicable regarding the financial health of the NCI PPS and updates regarding the Financially Fragile Watch List and the Distressed Provider Plans currently in place.

#### 📨 IPQR Module 4.3 - Major Risks to Implementation & Risk Mitigation Strategies

#### Instructions:

Please describe the key challenges or risks that you foresee in implementing your cultural competency / health literacy strategy and addressing the specific health disparities you are targeting (based on your CNA), and achieving the milestones described above - including potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

Risk 1: Perception of importance by providers and stakeholders

Mitigation: Identify Peer Champions, utilize a stratified level of intensity with training appropriate and targeted to population served so value is reinforced by improved patient compliance

Risk 2: Understanding of health literacy and the provider role

Mitigation: Incorporation into overall communication plan/messaging so message is consistently reinforced, use of empirical studies that illustrate effect of health literacy on patient compliance

Risk 3: Clinician availability/time to take training

Mitigation: Align with other training and schedule of training, make training available in multiple formats, stratify level of intensity of training based on level of risk of patient population served

Risk 4: Provider Training overload with multiple DSRIP, ACO and other Clinical Integration requirements

Mitigation: Align trainings to consolidate and reinforce efforts

Risk 5: Technology limitations for online trainings

Mitigation: identification of limitations and resources available to conduct training

Risk 6: Willingness of agencies to adopt policy drafts adopted by board

Mitigation: Communication Plan regarding all DSRIP activities includes Health Literacy and Cultural Competency. Inclusion of Health Literacy and

Cultural competency in contractual participation requirements

### IPQR Module 4.4 - Major Dependencies on Organizational Workstreams

#### Instructions:

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

- 1.Governance: NCI Governance will need to adopt health literacy and cultural competency strategy and training plan and will need to incorporate health literacy and cultural competency policies.
- 2. Workforce: Health Literacy will need to be included as a core component in workforce training strategy so it is critical for the Health Literacy and Cultural Competency Committee work interface closely with the Workforce Committee
- 3. Practitioner Engagement, Clinical Projects, Clinical Integration and Care Coordination: If Clinical outcomes are to be met and care coordination is to meet its goals than the patient must be engaged and able to clearly understand the information provided to them. Also health literacy and cultural competency are a component of PCMH. Therefore health literacy and cultural competency must be recognized for its importance in the clinical work stream.
- 4. IT Systems & Processes: Technology provides an efficient means to train multiple people at disparate geographic locations and must be utilized

**DSRIP Implementation Plan Project** 

**North Country Initiative (PPS ID:45)** 

if the PPS is to be successful given the rural geography. Further technology will need to be able to track the training completion and support performance monitoring of improvements in patient outcomes.

- 5. Population Health Management: PHM tools can only be effective if their use drives health behavior change for patients through engagement. If patients do not understand and engage in their care than PHM fails
- 6. Patient Engagement: Patients cannot be engaged in their own care if they do not understand the care instructions being given to them or if they do not have the skills and or tools to carry out the instructions

### **IPQR Module 4.5 - Roles and Responsibilities**

#### Instructions:

Please list and elaborate upon the key people/organizations responsible for this workstream and describe what their responsibilities involve.

| Role   | Name of person / organization (if known at this stage)  | Key deliverables / responsibilities   |
|--|---|---|
| NCI Health Literacy and Cultural Competency<br>Committee | Aileen Martin, NRCIL Korin Scheible, MHA Natalie Burnham, CAH Larry Calkins, SVP Jennie Flanagan, CH lan Grant, FDRHPO April Halladay, FDRHPO Rachel Holmes, SMC Stefanie Jones, SBS Tracy Leonard, FDRHPO Faith Lustik, JCPHS Cindy Nelson, River Andrea Pfeiffer, River Jeff Reifensnyder, MIL Denise Young, FDRHPO | 1.Identify vulnerable groups facing health disparities 2.Identify strategy to improve access to primary, BH, and preventive care 3.Define plans for two-way communication between community and CBOs via open forums 4.Identify community-based interventions to reduce health disparities and improve outcomes 5.In collaboration with care management teams, identify tools to assist patients with disease self-management 6.Approve and submit Cultural Competency/Health Literacy strategy to PPS Board 7.In collaboration with workforce committee, develop training plan for clinicians, integrating evidence-based tools to address health disparities for specific groups 8.In collaboration with workforce committee, develop training plan for allied health professionals regarding unique population needs and effective patient engagement tools 9.Approve and submit Cultural Competency/Health Literacy training strategy to NCI board 10.Provide oversight, monitor implementation, evaluate strategy and training |
| HL&CC Committee Facilitator                              | Aileen Martin   | Facilitate HH & CC Committee Activities   |
| NCI Program Manager                                      | Celia Cook  | Serve as Liaison between Communication Planning Committee and HH & CC Committee   |
| Workforce & Care Management Liaison                      | Tracy Leonard   | Serve as Liaison between Workforce & Care Management Committees and HH & CC Committee   |
| CBOs with HH Expertise                                   | NRCIL,MHA, MIL, SBS, JCPH, SVP & others as identified   | Serve as facilitators and engagers with disparate populations and targeted providers  |

**☑** IPQR Module 4.6 - Key Stakeholders

#### Instructions:

Please identify the key stakeholders involved, both within and outside the PPS.

| Key stakeholders   | Role in relation to this organizational workstream   | Key deliverables / responsibilities   |  |  |  |
|--|--|---|--|--|--|
| Internal Stakeholders  |  |   |  |  |  |
| NCI Board of Managers  | Board Members  | Review and adopt policies   |  |  |  |
| NCI Communication Committee  | Include HH & CC in Communication Plan  | Communication Plan that addresses HH & CC   |  |  |  |
| NCI Director   | Responsible for overall oversight of all NCI Activities  | Ensure that all workstreams endorse and adopt HH&CC Policies as applicable  |  |  |  |
| NCI Care Management Committee  | Include HH & CC in Care Management Plan  | Care Management Plan that addresses HH & CC   |  |  |  |
| Safety Net hospital partners   | Adopt HH&CC Policies Implement HH & CC Training as applicable  | Trained staff, implemented policies to impact improved patient outcomes for disparate populations   |  |  |  |
| All PPS Partners   | Adopt HH&CC Policies Implement HH & CC Training as applicable  | Trained staff, implemented policies to impact improved patient outcomes for disparate populations   |  |  |  |
| External Stakeholders  |  |   |  |  |  |
| Fort Drum Regional Health Planning Organization                                | Contracted PMO staffing and Support, Coordination of Activate Community Based Engagement   | Facilitation of Activities  Data Analytics to identify disparate Hot Spots  Continuity & Credibility for Community Engagement with  Population Health Improvement Program and other Community  Based programs that engage disparate populations |  |  |  |
| Non-Partner Community Based Organizations                                      | Engagement Potential to provide service  | Understanding and buy-in  |  |  |  |
| Medicaid and Uninsured Patients, All Population for Population Health Projects | lation Participation in neighborhood and community engagement activities, potential community health worker roles of the future appropriately targeted |   |  |  |  |

**North Country Initiative (PPS ID:45)** 

IPQR Module 4.7 - IT Expectations

#### Instructions:

Please clearly describe how the development of shared IT infrastructure across the PPS will support the development and implementation of your cultural competency / health literacy strategy and the achievement of the milestones described above.

North Country Initiatives, ability to obtain information quickly on a patient's health, health care, and potential treatments is critically important. Additionally, the ability to share this information in a timely manner with other providers caring for the patient and the patient themselves is essential to the delivery of safe, patient-centered, coordinated, and efficient health care. To meet this need, collaboration across the entire PPS is underway to develop and leverage: electronic health record (EHR) systems with decision support for clinicians, a secure platform for the exchange of patient information across health care settings, Patient portals for patient engagement in their own care and data standards that will make shared information understandable to all users. Efforts are also underway to complete the implementation of a population health management tool that will allow our PPS to analyze, and aggregate real time data on our participants and those beneficiaries who do not opt out. NCI's PPS will not be successful within DSRIP or any other Healthcare reform initiative if our information technology cannot produce reports on our ability to deliver safe, effective, patient-centered, timely health care. Those reports will be allow our PPS to take data and turn that information into healthcare decisions such as where to focus our Health Literacy and Cultural Competency efforts which will allow for improved patient outcomes and a reduction in healthcare cost for the region. In addition, technology will be utilized to monitor and track training activities across the PPS.

### **IPQR Module 4.8 - Progress Reporting**

#### Instructions:

Please describe how you will measure the success of this organizational workstream.

The success of North Country Initiative Health Literacy and Cultural Competency Strategy will be ultimately measured by the PPSs ability to engage the patient population in managing their own care and in striving for health and thus achieving 1) reductions in unnecessary exacerbation of existing conditions resulting in ED and inpatient utilization and 2) the avoidance of disease onset/development. The process measures leading to this outcome will be the boards adoption of the Health Literacy and Cultural Competency Strategy and the Health Literacy and Cultural Competency Training Strategy, the numbers of providers and front-line workers trained, the number/percentage of partners to adopt policies, and the development and ongoing review of health education tools to meet the targeted populations needs. All of these measures and Metrics will be monitored by the PMO.

North Country Initiative (NCI) has established a Project Management Office (PMO) staffed with a certified Project Management Officer and Program Manager. The PMO will be utilizing (Performance Logic) a project management performance based software platform for monitoring, controlling and reporting (weekly, monthly, quarterly) status / metrics associated with project milestones / deliverables. Performance Logic is specifically designed to the needs of the PPS with project management, implementation, planning, performance monitoring and results oriented project tracking / reporting. Performance Logic incorporates all aspects of DSRIP tracking enhancing NCI's ability to communicate with multiple team members and essential stakeholders.

## **DSRIP Implementation Plan Project**

| Milestone/Task Name   | Status    | Description  | Original<br>Start Date | Original<br>End Date | Start Date | End Date   | Quarter<br>End Date | DSRIP<br>Reporting<br>Year and<br>Quarter | AV |
|---|-----------|--|------------------------|----------------------|------------|------------|---------------------|---|----|
| Task  10. Develop training plan for front-line and support staff, targeting capability gaps identified in current state assessment  | Completed | See Task   | 04/01/2015             | 03/31/2016           | 04/01/2015 | 03/31/2016 | 03/31/2016          | DY1 Q4                                    |    |
| Task 11. Finalize clinical data sharing and interoperability roadmap and report to the PPS/Regional CIO - Corey M. Zeigler  | Completed | See Task   | 04/01/2015             | 03/31/2016           | 04/01/2015 | 03/31/2016 | 03/31/2016          | DY1 Q4                                    |    |
| Task  11a. Roadmap should include steps necessary to achieve interoperable systems throughout the network, steps toward developing acceptable workarounds where full interoperability is not feasible within PPS project timelines, monitoring of progress in data sharing capability, and the steps necessary toward the development, negotiation, and execution of appropriate data agreements. | Completed | See Task   | 04/01/2015             | 03/31/2016           | 04/01/2015 | 03/31/2016 | 03/31/2016          | DY1 Q4                                    |    |
| Milestone #4  Develop a specific plan for engaging attributed members in Qualifying Entities  | Completed | PPS plan for engaging attributed members in Qualifying Entities, signed off by PPS Board. The plan should include your approach to outreach into culturally and linguistically isolated communities. | 04/01/2015             | 06/30/2016           | 04/01/2015 | 06/30/2016 | 06/30/2016          | DY2 Q1                                    | NO |
| Task 1. Establish patient engagement/consent governance responsibility  | Completed | See Task   | 04/01/2015             | 09/30/2015           | 04/01/2015 | 09/30/2015 | 09/30/2015          | DY1 Q2                                    |    |
| Task 2. Identify system needs, interfaces, and Action Plans for Existing/New Attributed Members   | Completed | See Task   | 04/01/2015             | 03/31/2016           | 04/01/2015 | 03/31/2016 | 03/31/2016          | DY1 Q4                                    |    |
| Task 3. In partnership with the Communication Committee perform a Gap analysis of existing communication channels used to engage with patients (Call, Text, Mail Etc.), comparing this to demographic information about member population (using CNA)   | Completed | See Task   | 04/01/2015             | 03/31/2016           | 04/01/2015 | 03/31/2016 | 03/31/2016          | DY1 Q4                                    |    |
| Task 4. Establish new patient engagement channels, potentially including new infrastructure (Portal,  | Completed | See Task   | 04/01/2015             | 06/30/2016           | 04/01/2015 | 06/30/2016 | 06/30/2016          | DY2 Q1                                    |    |

■ IPQR Module 5.3 - Major Risks to Implementation & Risk Mitigation Strategies

#### Instructions:

Please describe the key challenges or risks that you foresee in creating and implementing your IT governance structure, your plans for data sharing across your network, your approach to data security and confidentiality, and the achievement of the milestones described above, including the potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

The major risks to the IT Systems and Processes are; the disparity in systems and competing priorities. Given these risks, the NCI went through a series of meetings and identified appropriate risk mitigation strategies. The following risks were ranked most significant:

Risk 1: There are still some network partners utilizing paper-based records – these providers will be immediately selecting and purchasing an EHR utilizing CRFP capital funds. If the CRFP funds are unavailable, individual entities may have to cover the investment, which they do not have the capital to do and mya have to be heavily incentivized to do.

Risk 2: With so many partners in the PPS, there are extensive variations with EHR platforms, care management, and population health management systems. Our PPS is seeking financial and technological means to not only create a more standard infrastructure, but also one that will be set-up to meet the PCMH 2014 Level 3 standards by DY3. There is a critical need for a regional registry/PHM, which is currently under development – the PPS will hire 2 reporting analysts to accelerate the implementation and meet the reporting demands that are not supplied by the MAPP tool. The risks related to lack of standardization can also be mitigated by forming workgroups around common issues and initiatives that report up to an advisory group. The risks to effectively integrating care will also be hampered by the state and federal regulations that control what can be shared with whom and for how long, which will be a challenge to accommodate with current technologies. Some of this has been addressed with waivers, but others, especially the federal regulations will require further investigation and possibly additional investments in technology. In addition the PPS will engage a proven resource with extensive PCMH and Practice transformation experience to assist all providers.

Risk 3: Data Security Measures may not be in place. Although we are confident that our partners who have or will be signing data agreements will continue to ensure data security measures are in place, in order to mitigate data security risks, we will work with our partners to perform security audits and mitigate any issues that may arise from those audits. The risks can also be mitigated though a common technical, administrative and physical security framework developed, approved and adopted by all participants.

### **IPQR Module 5.4 - Major Dependencies on Organizational Workstreams**

#### Instructions:

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

It cannot be over stated that all projects and workstreams are dependent in the IT Systems & Processes. As is described throughout this implementation plan, the development of new and / or improved IT infrastructure is a crucial factor underpinning all other workstreams including, in particular, clinical integration, population health management and performance reporting. However, without the right business and financial support, the North Country Initiative (NCI) PPS will not be able to drive the technological infrastructure development program to ensure the success of these workstreams. The interaction between the NCI and the PPS's clinical governance structure (especially the Practitioner Champions) will be vital to ensure that the IT infrastructure developed meets the needs of individual practitioners, providers and – particularly

**DSRIP Implementation Plan Project** 

**North Country Initiative (PPS ID:45)** 

when it comes to population health management – the whole PPS network. During development of the IT future state, NCI will work closely with the NCI Finance Team to review available capital and DSRIP funding resources. Adding new technologies, interfaces, reporting and monitoring solutions, and other engagement channels within our PPS will also require additional IT/prcatice transformation staffing, which will depend heavily on the NCI Workforce Strategy team. THe PPS will need additional resources for IT support, analysis, and reporting. Along with the need for new IT staff and systems, training the workforce to use new and expanded systems effectively will be crucial.

**DSRIP Implementation Plan Project** 

**North Country Initiative (PPS ID:45)** 

**IPQR Module 5.7 - Progress Reporting** 

#### Instructions:

Please describe how you will measure the success of this organizational workstream.

North Country Initiative (NCI) has established a Project Management Office (PMO) staffed with a certified Project Management Officer and Program Manager. The PMO will be utilizing (Performance Logic) a project management performance based software platform for monitoring, controlling and reporting (weekly, monthly, quarterly) status / metrics associated with project milestones / deliverables. Performance Logic is specifically designed to the needs of the PPS with project management, implementation, planning, performance monitoring and results oriented project tracking / reporting. Performance Logic incorporates all aspects of DSRIP tracking enhancing NCI's ability to communicate with multiple team members and essential stakeholders. All IT metrics and measures as outlined below will be provided to the PMO and incorporated in the performance reporting.

Our IT Governance Committee has established expectations with all partners to supply key artifacts and monthly reports on key performance metrics. We will monitor the development and acquisition of key data sharing capabilities across the network and perform ongoing use and performance reports. These will be necessary to ensure continuing progress against our IT change management strategy. Follow-up specific IT questionnaires and surveys will be used periodically to identify any additional gaps, under/non-utilization, or the need for re-training. The individual partners (as applicable) will be responsible for engaging attributed members in QEs and will report on this to the PPS PMO. The HIT Advisory Committee will also report to the Medical Management Committee on the level of engagement of providers in new / expanded IT systems and processes, including data sharing and the use of shared IT platforms.

In addition, the HIT Advisory Committee will use the following ongoing performance reports to measure continuous performance of all partners:

- 1. Annual Gap Assessment Report Partner adoption of IT infrastructure, enablement of clinical workflows, and application of population analytics
- 2. Annual refresh of IT Strategic Plan
- 3. Annual Data Security Audit Findings and Mitigation Plan
- 4. Quarterly workforce training compliance report
- 5. Monthly Project Portfolio 'Earned Value' report for all IT related projects within DSRIP project portfolio
- 6. Monthly HIE usage report

Instructions:

7. Weekly Performance report on vendor agreed SLAs

HIT Advisory Committee will also conduct a quarterly survey of IT stakeholders (in particular the users of new infrastructure / systems) to derive qualitative assessments of user satisfaction.

### **IPQR Module 5.8 - IA Monitoring**

Page 99 of 389 **Run Date**: 06/28/2019

**DSRIP Implementation Plan Project** 

**North Country Initiative (PPS ID:45)** 

### **Section 06 – Performance Reporting**

**IPQR Module 6.1 - Prescribed Milestones** 

#### Instructions:

Please enter and update target dates, as well as breakdown tasks with target dates for prescribed milestones. For milestones that are due within the reporting period, documentation is required to provide evidence of milestone achievement.

Any explanations regarding altered or missed target commitments must be included within the textbox, not as narrative within uploaded documentation.

| Milestone/Task Name   | Status    | Description   | Original<br>Start Date | Original<br>End Date | Start Date | End Date   | Quarter<br>End Date | DSRIP Reporting Year and Quarter | AV |
|---|-----------|---|------------------------|----------------------|------------|------------|---------------------|----------------------------------|----|
| Milestone #1 Establish reporting structure for PPS-wide performance reporting and communication.  | Completed | Performance reporting and communications strategy, signed off by PPS Board. This should include: The identification of individuals responsible for clinical and financial outcomes of specific patient pathways; Your plans for the creation and use of clinical quality & performance dashboards Your approach to Rapid Cycle Evaluation | 04/01/2015             | 03/31/2016           | 04/01/2015 | 03/31/2016 | 03/31/2016          | DY1 Q4                           | NO |
| Task 1. Perform a current state assessment of existing reporting processes across the PPS and define target state outcomes.   | Completed | See Task  | 04/01/2015             | 12/31/2015           | 04/01/2015 | 12/31/2015 | 12/31/2015          | DY1 Q3                           |    |
| Task 2. Utilize Performance Logic's performance reporting systems and dashboards that provide multi-level detail for reports to the PMO, NCI Board and PPS entities. Monthly dashboard reports will accurately reflect current performance levels of the PPS. The various dashboards will be linked and will have drill-down capabilities within Performance Logic. | Completed | See Task  | 04/01/2015             | 03/31/2016           | 04/01/2015 | 03/31/2016 | 03/31/2016          | DY1 Q4                           |    |
| Task 3. Establish regular two-way reporting structure to govern the monitoring of performance based on both claims-based, non-hospital CAHPS DSRIP metrics and DSRIP population health metrics (using NCIs PPS-specific Performance Measurement Portal).  | Completed | See Task  | 04/01/2015             | 03/31/2016           | 04/01/2015 | 03/31/2016 | 03/31/2016          | DY1 Q4                           |    |

■ IPQR Module 6.3 - Major Risks to Implementation & Risk Mitigation Strategies

#### Instructions:

Please describe the key challenges or risks that you foresee in implementing performance reporting structures and processes and effective performance management within your network, including potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

Limits for the maximum degree of risk acceptable per project will be identified, documented and mitigated to reduce the degree of impact to Domain milestones / deliverables / metrics. Inclusion of all medical, behavioral, post-acute, long-term care, community-based and social service providers and payers within the PPS network to support our strategy, as measured by provider network list.(1). The primary risk is the uncertainty of not being able to physically produce final deliverables for each project's established speed-&-scale and detailed criteria. In order to mitigate this risk the North Country Initiative (NCI) has established a Project Management Office (PMO) staffed with a certified Project Management Officer and Program Manager. The PMO will be utilizing a project management performance based software platform to monitor, control and mitigate risks associated with project milestones / deliverables. (2). The PPS geographical location, demographics and large coverage area present a high risk in the reform of advance care coordination, management of chronic diseases, population health management and recruiting of qualified professionals. This risk will be mitigated through improved communications, IT systems upgrades, direct Stakeholder involvement and the NCI Board (s) ability to collaborate and work collectively to make informative strategic decisions and issue resolution. (3.) - Prevention and Quality — The region performs poorly compared to NYS on every single Prevention Quality Indicator. In addition, both Medicaid and uninsured indicate quality of care as the main reason for leaving region for care. Existing providers must modify practice of care to address quality prevention through patient centered medical home (PCMH) and must place a strong focus on cardiac, diabetes, COPD, and mental illness and substance abuse prevention due to the prevalence of these diseases and their impact on avoidable admissions and emergency room visits. NCI will mitigate risk by monitoring clinical performance, providing

### **IPQR Module 6.4 - Major Dependencies on Organizational Workstreams**

#### Instructions:

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

- 1. Governance: Performance reporting has significant dependence on the Governance workstream. Effective stakeholder involvement and a well defined organizational structure will enhance the PPSs ability to create a value based performance oriented culture that focuses on quality healthcare and establishes clear lines of responsibilities and accountability.
- 2. Workforce: Performance reporting will rely heavily on the abilities of the Workforce Strategy workstream to enhance the PPSs efforts to develop a consistent performance reporting culture that captures detailed training data of training conducted across the PPS network. Training on the use of critical systems and processes that promote operational excellence in quality healthcare will be vital. Organizations, Practitioners and key support staff will promote excellence of quality and will be a focal point of the PPSs training strategy for the Workforce workstream.
- 3. IT Systems and Processes: Accurate Performance reporting will depend on the PPSs ability to validate and verify data provided by Organizations, Practitioners, Clinics and key support staff. There will be a critical dependency for a successful implementation of a performance reporting culture and successful transformation of the PPSs IT Departments to ability customize existing systems, implement the new networks,

**DSRIP Implementation Plan Project** 

**North Country Initiative (PPS ID:45)** 

and IT systems that will be utilized in performance reporting of patient outcome metrics. The project effectiveness and satisfaction will be evaluated in a continuous basis to ensure actual project benefits are being realized.

4. Governance, Finance, Clinical & Practitioner Engagement: It will be critical to Performance Reporting that all workstreams take a holistic 360 project approach and continuously evaluate the effectiveness the project, stakeholder management, project team involvement and whether the project will achieve established / identified goals. Clinical Integration and Practitioner Engagement are essential to the PPSs intent to create a common performance culture throughout the NCI PPS network, and to institute the new performance reporting practices within business, as a standard of excellence clinical practice.

**DSRIP Implementation Plan Project** 

**North Country Initiative (PPS ID:45)** 

IPQR Module 6.7 - IT Expectations

#### Instructions:

Please clearly describe how the development of shared IT infrastructure across the PPS will support your approach to performance reporting.

North Country Initiatives ability to obtain information quickly on a patient's health, health care, and potential treatments is critically important. Additionally, the ability to share this information in a timely manner with other providers caring for the patient is essential to the delivery of safe, patient-centered, coordinated, and efficient health care. To meet this need, collaboration across the entire PPS is underway to develop and leverage: electronic health record (EHR) systems with decision support for clinicians, a secure platform for the exchange of patient information across health care settings, and data standards that will make shared information understandable to all users. Efforts are also underway to complete the implementation of a population health management tool that will allow our PPS to analyze, and aggregate real time data on our participants and those beneficiaries who opt in. NCI through the use of this tool will also be able to leverage information systems for mental health and substance abuse providers. Ensuring that the developing systems for mental health and substance abuse conditions are aligned with general, medical care needs is essential for improving the quality and continuity of care across the system. NCI's PPS will not be successful within DSRIP or any other Healthcare reform initiative if our information technology cannot produce reports on our ability to deliver safe, effective, patient-centered, timely health care. Those reports will be allow our PPS to take data and turn that information into healthcare decisions which will allow for improved patient outcomes and a reduction in healthcare cost.

All staff and participating providers will need to be trained on protecting health information through appropriate privacy and security practices. They will need to be trained on effective strategies to achieve ongoing, industrywide Health IT standards to include information tools, specialized network functions, and security protections for the interoperable exchange of health information. They will need to learn how to identify health IT standards for use by identifying and prioritizing specific uses for which health IT is valuable, beneficial and feasible. Overall, strong commitment from PPS to train, understand, and embrace the development of a shared, secure IT infrastructure will ultimately impact the successful use of IT functionality to improve outcomes.

It is vital to recognize the importance that our IT infrastructure has on our regions ability to reverse the cost curve and to improve the outcome of all the patients this region serves. Improvement in Information technology has been a commitment this region has made and will maintain throughout the regions transformation.

### IPQR Module 6.8 - Progress Reporting

#### Instructions:

Please describe how you will measure the success of this organizational workstream.

North Country Initiative (NCI) has established a Project Management Office (PMO) staffed with a certified Project Management Officer and Program Manager.

Page 108 of 389

Run Date: 06/28/2019

### **DSRIP Implementation Plan Project**

**North Country Initiative (PPS ID:45)** 

The PMO will be utilizing (Performance Logic) a project management performance based software platform for monitoring, controlling and reporting (weekly, monthly, quarterly) status / metrics associated with project milestones / deliverables. Performance Logic is specifically designed to the needs of the PPS with project management, implementation, planning, performance monitoring and results oriented project tracking / reporting. Performance Logic incorporates all aspects of DSRIP tracking enhancing NCI's ability to communicate with multiple team members and essential stakeholders.

Delivering analytics and reports for state submission on milestones by DSRIP year (DY), financial incentives and DSRIP clinical measure domains including: (1) Patient Safety (2) Clinical Process/Effectiveness (3) Efficient Use of Healthcare Resources (4) Population/Public Health (5) Clinical Process/Effectiveness (6) Care Coordination (7) DSRIP Efficiency (8) Speed & Scale Utilization.

Reports and Metrics will be constructed using standard data definitions to facilitate timely, accurate, and clinically informed reporting that provides project oversight and feedback across organizational levels within the PPS. Data will be compiled and formulated to meet the intent of NYS reporting procedures and Achievement Values. Monthly and Quarterly: NCI PMO will evaluate and validate each performance and process measure and milestone on whether the target / milestone was "achieved" or "not achieved". For targets / milestones that are "not achieved" further review will be conducted immediately to determine the root cause for "not achieved" and change management will be instituted if warranted to bring target / milestone to an "achieved" rating.

Domain 1: Project Milestones & Metrics are based largely on investments in technology, provider capacity and training, and human resources that will strengthen the ability of the PPS to serve its target populations and successfully meet DSRIP project goals.PPS project reporting will be conducted in two phases: A detailed Implementation Plan due in April 1, 2015 and ongoing Quarterly Reports throughout the entire DSRIP period. Both the initial Implementation Plan and Quarterly Reports shall demonstrate achievement towards the implementation of the IDS strategy and action plan, governance, completion of project requirements, scale of project implementation, and patient engagement progress in the project.

Quarterly Reports: PPS will submit quarterly reports on progress towards achievement of project requirements as defined in Domain 1 DSRIP Project Requirements Milestones & Metrics. Quarterly reports to the Independent Assessor will include project status and challenges as well as implementation progress. The format and content of the quarterly reports will be developed by the Independent Assessor and the Department of Health for the purpose of driving project payment upon completion of project milestones as indicated in the project application.

■ IPQR Module 7.3 - Major Risks to Implementation & Risk Mitigation Strategies

#### Instructions:

Please describe the current level of engagement of your physician community in the DSRIP program and describe the key challenges or risks that you foresee in implementing your plans for physician engagement and achieving the milestones described above. Describe any potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

1. Risk: Geographic spread of PPS Region fpr Clinical Champions

Mitigation: NCI Board and Committees includes Providers champions from across the PPS geographic region

2. Risk: Geographic spread for training

Mitigation: Training offered at Medical staff and other group settings. In addition a Webinar will be developed that can be utilized and accessed in a lunch and learn format

3. Risk: Change resistance

Mitigation: Diversified Clinical peer leaders, evidence-based changes, regular performance reports, incentives

### IPQR Module 7.4 - Major Dependencies on Organizational Workstreams

#### Instructions:

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

- 1. Performance Reporting and Clinical Integration: NCI communication plans for practitioner engagement depend on effective, rapid communication process and regular two-way communication channels including for performance reporting and clinical integration. If clinical outcomes are to be met, communication of clinical activities through practioner enagement must be utilized to address poor performing areas
- 2. Governance: The role of the Practitioner Champions is central to NCI plans for practitioner engagement. NCI Clinical Champions actively participate in the governance structure including the Executive Body on behalf of the practitioners and will be responsible for communicating information to those practitioners groups effectively. NCI practitioner engagement is dependent on an effective governance structure and processes.
- 3. Financial Sustainability, Budget and Funds Flow: Practioner engagement in the finance committees and the funds flow for performance and value based payment are the keys to changing the healthcare delivery system into a outcome focused system.
- 4. Workforce: Practitioners are a significant component of the helathcare workforce therefore the training of practioners is directly linked to the workforce workstream.
- 5. IT Systems and Processes: EMR, PHM (disease regsitry), and HIE Technology provides the efficient means standardize measure and improve PH outcomes and the information to inform performance reporting for practioner engagement.

### **IPQR Module 7.5 - Roles and Responsibilities**

### Instructions:

Please list and elaborate upon the key people/organizations responsible for this organizational workstream and describe what their responsibilities involve.

| Role  | Name of person / organization (if known at this stage)   | Key deliverables / responsibilities  |
|---|--|--|
| NCI Board                                   | Board Chair, Dr. Collins Kellogg<br>Board Members  | Inclusion of Providers in Governance and Committee Structure   |
| NCI Medical Management (Clinical) Committee | Chair, Dr. Steven Lyndaker<br>Members  | Review training webinar and materials  |
| NCI Program Manager                         | Celia Cook   | Development of Communication Plan Assistance in webinar and other communication material development   |
| NCI Project Management Officer              | Ray Moore  | Development of standard performance reports  |
| NCI Data Analyst                            | Jeff Bazinet   | Ensure disease registry capability for quality performance reporting for inclusion in standard reports |
| NCI Board Provider Champions                | Dr. Collins Kellogg Dr. Gary Hart Dr. Steven Lyndaker Dr. David Rechlin Dr. Mario Victoria Dr. Mark Parshall Dr. Michael Seidman Dr. Michael Woznicki Dr. Howard Meny Dr. Jack Rush Dr. Jason White Erin Cooney, LCSW-R Jeff Perrine, FNP Angela Doe, LMHC | Facilitate education of medical staffs and other provider groups on clinical integration               |
| NCI Director                                | Brian Marcolini  |  |
| Regional CIO<br>Workforce Lead              | Corey Zeigler Tracy Leonard  | Facilitate development of webinar and other education materials  |

**☑** IPQR Module 7.6 - Key Stakeholders

### Instructions:

Please identify the key stakeholders involved, both within and outside the PPS.

| Key stakeholders   | Role in relation to this organizational workstream   | Key deliverables / responsibilities  |  |  |
|--|--|--|--|--|
| Internal Stakeholders  |  | 1  |  |  |
| NCI Board  | Board Members  | Review and Accept Practitioner Communication and Training Plan   |  |  |
| NCI Communication Committee  | Include Practitioner Engagement in \two-way Communication Plan                             | Communication Plan that addresses Practitioner Engagement  |  |  |
| NCI Director   | Responsible for overall oversight of all NCI Activities                                    | Ensure that all workstreams endorse and adopt plans as applicable  |  |  |
| NCI Care Management Committee  | Inform training/education for practitioners regarding Care Management Plan                 | Care Management Plan included in training  |  |  |
| Safety Net hospital partners  Adopt and participate in plans and training as app |  | Trained medical professional staff, implemented plans to impact improved practitioner engagement   |  |  |
| All PPS Partners   | Adopt and participate in plans and training as applicable                                  | Trained medical professional staff, implemented plans to impact improved practitioner engagement   |  |  |
| External Stakeholders  |  |  |  |  |
| Fort Drum Regional Health Planning Organization                                  | Contracted PMO staffing and Support, Coordination of Activities Community Based Engagement | Facilitation of Activities Data Analytics for performance report Continuity & Credibility for Community Provider Practitioner Engagement |  |  |
| Non-Partner Community Based Organizations  | Engagement Potential to provide service  | Understanding and buy-in Ability to facilitate larger community understanding  |  |  |
| Medicaid and Uninsured Patients, All Population for Population Health Projects   | Trained, engaged providers support better outcomes for patients                            | Feedback on provider through CAHPS   |  |  |

Page 116 of 389

Run Date: 06/28/2019

**DSRIP Implementation Plan Project** 

**North Country Initiative (PPS ID:45)** 

**IPQR Module 7.7 - IT Expectations** 

#### Instructions:

Please clearly describe how the development of shared IT infrastructure across the PPS will support this particular workstream.

Health Information Technology or HIT platforms to support communication between practitioners will be critical for engaging practitioners in DSRIP and for the sharing of best practices. We are developing a PHM platform to support the NCI PPS to provide progress reporting and feedback on measures and chosen protocols.

The ability for providers to share clinical information easily is important, not just for improvements in clinical processes and outcomes but also for the ongoing buy-in of individual practitioners. It is critical that the IT infrastructure developed be integrated into practitioner workflow and is seen as a tool to improve care, not another non-value-add task they need to complete.

Improved IT infrastructure will also be important for the delivery of our practitioner engagement education and training materials. We are integrating telemedicine tools (video conferencing) and other collaborative tools to assist providers in sharing their knowledge, best practices and enhancing the learning environment across the PPS and beyond.

### IPQR Module 7.8 - Progress Reporting

#### Instructions:

Please describe how you will measure the success of this organizational workstream.

NCI will monitor Practioner Engagement through NCI governance inclusion, board and committee meeting attendence, communication plan development and communication plan activites completeion, the trainings/presentations/education developed and conducted for providers groups and the delivery of aggregate p[rovider group reporting.

These activities will be monitored by the PMO utilizing (Performance Logic) a project management performance based software platform for monitoring, controlling and reporting (weekly, monthly, quarterly) status / metrics associated with project milestones / deliverables. Performance Logic is specifically designed to the needs of the PPS with project management, implementation, planning, performance monitoring and results oriented project tracking / reporting. Performance Logic incorporates all aspects of DSRIP tracking enhancing NCI's ability to communicate with multiple team members and essential stakeholders.

Ensure care guidelines for providers are developed for priority clinical issues as required for PPS projects with clinical metrics to monitor progress in managing population health  | Completed | See Task  | 04/01/2015             | 12/31/2015           | 04/01/2015 | 12/31/2015 | 12/31/2015          | DY1 Q3                                    |    |
| Task 7. Reference and incorporate health literacy and cultural competency strategy for targeting and addressing health disparities  | Completed | See Task  | 04/01/2015             | 06/30/2016           | 04/01/2015 | 06/30/2016 | 06/30/2016          | DY2 Q1                                    |    |
| Milestone #2 Finalize PPS-wide bed reduction plan.  | Completed | PPS Bed Reduction plan, signed off by PPS Board. This should set out your plan for bed reductions across your network, including behavioral health units/facilities, in line with planned reductions in avoidable admissions and the shift of activity from inpatient to outpatient settings. | 04/01/2015             | 12/31/2016           | 04/01/2015 | 12/31/2016 | 12/31/2016          | DY2 Q3                                    | NO |
| Task 1. Perform a gap analysis to accurately determine current inpatient bed capacity/bed constraints across the PPS (determine optimal inpatient delivery model)   | Completed | See Task  | 04/01/2015             | 03/31/2016           | 04/01/2015 | 03/31/2016 | 03/31/2016          | DY1 Q4                                    |    |
| Task 2. Establish Service Utilization Monitoring Team made up of an assigned lead from each impacted hospital to provide oversight in measuring, evaluating, and recommending excess bed reductions to NCI Governing Board. (determine the number beds that can be reduced vs. percent of staffed beds.)                          | Completed | See Task  | 04/01/2015             | 06/30/2016           | 04/01/2015 | 06/30/2016 | 06/30/2016          | DY2 Q1                                    |    |
| Task 3. Each participating hospital facility will develop a strategic plan that outlines: medical village services, inpatient capacity transition plan, stakeholder engagement processes, capital improvement requirements, geographical location of medical village, marketing and consumer education and community involvement. | Completed | See Task  | 04/01/2015             | 09/30/2016           | 04/01/2015 | 09/30/2016 | 09/30/2016          | DY2 Q2                                    |    |
| Task  | Completed | See Task  | 04/01/2015             | 12/31/2016           | 04/01/2015 | 12/31/2016 | 12/31/2016          | DY2 Q3                                    |    |

■ IPQR Module 8.3 - Major Risks to Implementation & Risk Mitigation Strategies

#### Instructions:

Please describe the key challenges or risks that you foresee in implementing these cross-cutting organizational strategies, including potential impacts on specific projects and, crucially, any risks that will undermine your ability to achieve outcome measure targets.

- 1. Population Health Risk: Provider engagement/burnout
- Mitigation: Provide external support to assist practices. Develop by practice project plan to include all PCP DSRIP clinical guidelines, workflow changes and training directly into PCMH implementation (measure twice-cut once approach)
- 2. Population Health Risk: Providers not reporting discreetly in EMRs to allow clinical measures to be mapped to disease registry for reporting and tracking purposes.
- Mitigation: Engage data analysts for data quality analysis of every PHM interface by provider to determine if measure correctly mapped, if software can provide data discreetly and then develop per provider plan to improve discreet data element entry to EMR
- 3. Population Health Risk: PHM vendor inability to meet aggressive DSRIP schedule to deliver by provider reporting to inform incentive plan development. It is so easy to put disease registry capability on pare and a completely different matter to effectively map and launch from multiple disparate EMRs
- Mitigation: Service Level Agreements built into PHM contracts. Understanding and agreement of support level needed by both the PPS and vendor prior to implementation.
- 4. Bed Reduction Risk: Impact is higher or lower than anticipated during planning phase
- Mitigation: Regular ongoing monitoring prepared for RCE
- 5. Bed Reduction Risk: Increased insurance utilization and patient activation through PAM, initially increases instead of decreases bed utilization Mitigation: Performance monitoring identification of trends to inform planning on regular basis

### **IPQR Module 8.4 - Major Dependencies on Organizational Workstreams**

#### Instructions:

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

- 1. Governance: NCI Governance will need to oversee development of incentive plan to drive improved population health outcomes.
- 2. Financial Sustainability: The Bed Reduction plan is tied directly to the impact analysis and other financial activities being undertaking under the financial sustainability work stream. NCI Finance Committee will need to monitor financial impact assessment and ongoing metrics.
- 3. Budget and Funds Flow: Budget and funds flow are closely tied to both population health activities and bed reduction/revenue losses
- 4. Workforce: Support at provider level (as part of practitioner engagement training plan) to train providers to use and apply information learned from the registry; how to implement established care guidelines developed as part of project implementations will cross into workforce training sector
- 5. Practitioner Engagement, Clinical Projects, Clinical Integration and Care Coordination: If Population Health clinical outcomes are to be met all clinical activities must align and be prepared to address poor performing areas

**DSRIP Implementation Plan Project** 

**North Country Initiative (PPS ID:45)** 

6. IT Systems and Processes: EMR, PHM, and HIE Technology provides the only efficient means standardize measure and improve PH outcomes.

**Run Date:** 06/28/2019

**DSRIP Implementation Plan Project** 

**North Country Initiative (PPS ID:45)** 

**IPQR Module 8.5 - Roles and Responsibilities** 

### Instructions:

Please list and elaborate upon the key people/organizations responsible for this organizational work stream and describe what their responsibilities involve.

| Role   | Name of person / organization (if known at this stage)                                       | Key deliverables / responsibilities                             |
|--|--|---|
| NCI Data Analyst                                       | Jeff Bazinet   | Inventory available data sets and PHM disease registry capacity |
| FDRHPO PHIP Program Manager                            | Ian Grant  | Engage regional Population Health Improvement Program           |
| Regional Chief Information Officer                     | Corey Zeigler  | Evaluate IT capacity, identify gaps, develop plan               |
| Senior Nurse Informaticist                             | Liza Darou   | Establish NCI PPS PCMH Certification Team                       |
| NCI Medical Management (clinical) Committee            | Committee Members  | Ensure care guidelines are developed                            |
| Workforce Lead & Workforce Vendors                     | Tracy Leonard Greg Dewitt  | Ensure workforce assessment includes practice skills/resources  |
| NCI Health Literacy & Cultural Competency<br>Committee | Committee Members  | Ensure target population for health disparities are identified  |
| NCI Safety Net Hospital Partners                       | Samaritan Medical Claxton Hepburn Carthage Area River Hospital Massena Memorial Clifton Fine | Assign staff to service utilization monitoring team             |
| Service Utilization Monitoring Team                    | TB Assigned  | Monitor and report bed utilization and reduction metrics        |

**North Country Initiative (PPS ID:45)** 

**☑** IPQR Module 8.6 - Key Stakeholders

### Instructions:

Please identify the key stakeholders involved, both within and outside the PPS.

| Key stakeholders   | Role in relation to this organizational workstream                                       | Key deliverables / responsibilities   |
|--|--|---|
| Internal Stakeholders  |  |   |
| NCI Board of Managers  | Board Members  | Review and accept plans   |
| NCI Communication Committee  | Include PH in Communication Plan   | Communication Plan that addresses PH  |
| NCI Director   | Responsible for overall oversight of all NCI Activities                                  | Ensure that all work streams endorse and adopt plans as applicable  |
| NCI Care Management Committee  | Include PH as Base component for Care Management Plan                                    | Care Management Plan addresses Population Health  |
| Safety Net hospital partners   | Adopt and participate in plans and training as applicable                                | Trained staff, implemented plans to impact improved population health and achievement of bed reductions   |
| All PPS Partners   | Adopt and participate in plans and training as applicable                                | Trained staff, implemented plans to impact improved population health   |
| External Stakeholders  |  |   |
| Fort Drum Regional Health Planning Organization                                | Contracted PMO staffing and Support, Coordination of Activate Community Based Engagement | Facilitation of Activities Data Analytics to identify Continuity & Credibility for Community Engagement with Population Health Improvement Program and other Community Based programs |
| Non-Partner Community Based Organizations                                      | Engagement Potential to provide service  | Understanding and buy-in  |
| Medicaid and Uninsured Patients, All Population for Population Health Projects | Participation in neighborhood and community engagement activities                        | Information to ensure projects and activities are effective and appropriately targeted  |

Page 128 of 389 Run Date: 06/28/2019

**DSRIP Implementation Plan Project** 

**North Country Initiative (PPS ID:45)** 

**IPQR Module 8.7 - IT Expectations** 

#### Instructions:

Please describe the current Population Health Management IT capabilities in place throughout your PPS network and what your plans are at this stage for leveraging these capabilities and/or developing new IT infrastructure.

One of the key principles of our approach to population health management is that all care will become 'data-driven'. Our data & analytics team will be responsible for ensuring that practitioners have the data and the tools available to allow them to develop interventions and services that will address the wider determinants of population health for their local population. This effort will be facilitated by the use of a regional PHM solution and also plan to utilize the MAPP PPS-specific Performance Measurement Portal, which will help our team monitor performance of both claims-based, non-hospital CAHPS DSRIP metrics AND DSRIP population health metrics. The analysis of population-level outcome data will also be the basis for our assessment of the impact of population health management on the priority groups and clinical areas.

Our PPS is fully partnered with HealtheConnections (HeC), our RHIO, and leadership will require all partners to connect with HeC to service our attributed population. This effort will be conducted in tandem with the EHR platforms, care management, and population health management systems that we have already implemented, or are currently implementing.

### **IPQR Module 8.8 - Progress Reporting**

#### Instructions:

Please describe how you will measure the success of this organizational workstream.

The NCI will utilize a disease registry to monitor and manage population health from a clinical perspective. These clinical metrics along with all organizational measures and metrics will be monitored and reported by the NCI PMO as outlined below.

The North Country Initiative (NCI) has established a Project Management Office (PMO) staffed with a certified Project Management Officer and Program Manager. The PMO will be utilizing (Performance Logic) a project management performance based software platform for monitoring, controlling and reporting (weekly, monthly, quarterly) status / metrics associated with project milestones / deliverables. Performance Logic is specifically designed to the needs of the PPS with project management, implementation, planning, performance monitoring and results oriented project tracking / reporting. Performance Logic incorporates all aspects of DSRIP tracking enhancing NCI's ability to communicate with multiple team members and essential stakeholders.

**North Country Initiative (PPS ID:45)** 

### **Section 09 – Clinical Integration**

**IPQR Module 9.1 - Prescribed Milestones** 

### Instructions:

Please enter and update target dates, as well as breakdown tasks with target dates for prescribed milestones. For milestones that are due within the reporting period, documentation is required to provide evidence of milestone achievement.

Any explanations regarding altered or missed target commitments must be included within the textbox, not as narrative within uploaded documentation.

| Milestone/Task Name  | Status    | Description  | Original<br>Start Date | Original<br>End Date | Start Date | End Date   | Quarter<br>End Date | DSRIP<br>Reporting<br>Year and<br>Quarter | AV |
|--|-----------|--|------------------------|----------------------|------------|------------|---------------------|---|----|
| Milestone #1 Perform a clinical integration 'needs assessment'.  | Completed | Clinical integration 'needs assessment' document, signed off by the Clinical Quality Committee, including: Mapping the providers in the network and their requirements for clinical integration (including clinical providers, care management and other providers impacting on social determinants of health) Identifying key data points for shared access and the key interfaces that will have an impact on clinical integration Identify other potential mechanisms to be used for driving clinical integration | 04/01/2015             | 12/31/2015           | 04/01/2015 | 12/31/2015 | 12/31/2015          | DY1 Q3                                    | NO |
| Task  1. Map the providers in the network and their requirements for clinical integration (four pillars framework)as it relates to achievement of DSRIP projects - this will be done in partnership and referencing the other assessments/activities (IT, Workforce, VBP, Communication, care management, funds flow) that are being concurrently completed. | Completed | See Task   | 04/01/2015             | 09/30/2015           | 04/01/2015 | 09/30/2015 | 09/30/2015          | DY1 Q2                                    |    |
| Task 2. Incorporate clinical integration needs assessment into individual DSRIP project implementation planning and assessments to include the four pillars framework: provider leadership, aligned incentives; clinical and care management programs; technology/ data infrastructure to support integration  | Completed | See Task   | 04/01/2015             | 09/30/2015           | 04/01/2015 | 09/30/2015 | 09/30/2015          | DY1 Q2                                    |    |

### **IPQR Module 9.3 - Major Risks to Implementation & Risk Mitigation Strategies**

#### Instructions:

Please describe the key challenges or risks that you foresee in improving the level of clinical integration throughout your network and achieving the milestones described above. Describe potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

1. Risk: Geographic spread of Clinical Champion representation

Mitigation: NCI Board and Committees includes Providers champions from across the PPS geographic region

2. Risk: Geographic spread for training

Mitigation: Training offered at Medical staff and other group settings. In addition a Webinar will be developed that can be utilized and accessed in a lunch and learn format

3. Risk: Change resistance

Mitigation: Peer leaders, evidence-based changes, regular performance reports, office champions, incentives

4. Risk: Data gathering and interfaces with Disease registry

Mitigation: Data quality surveillance team deployed and other integration options being utilized like HIE.

### IPQR Module 9.4 - Major Dependencies on Organizational Workstreams

#### Instructions:

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

Clinical Integration is what DSRIP is attempting to achieve to improve care and reduce costs for the Medicaid population served. The four pillars of clinical integration are encompassing of all the DSRIP work streams. In particular:

- 1. Performance Reporting and Communication: NCI communication plans for practitioner engagement and clinical integration depends on effective, rapid communication process and regular two-way communication channels including performance reporting and clinical integration.
- 2. IT Systems and Processes: Without IT Systems it is impossible to have the effective clinical performance monitoring processes that are the bedrock of CI.
- 2. Governance: The role of the Practitioner Champions is central to NCI plans for clinical integration. NCI Clinical Champions must be empowered to actively participate in the governance structure including the Executive Body on behalf of the practitioners and communicating information back down to those practitioners effectively. The NCI clinical integration strategy is dependent on an effective governance structure and processes.

Page 136 of 389

**Run Date:** 06/28/2019

**DSRIP Implementation Plan Project** 

**North Country Initiative (PPS ID:45)** 

### **IPQR Module 9.5 - Roles and Responsibilities**

### Instructions:

Please list and elaborate upon the key people/organizations responsible for this organizational workstream and describe what their responsibilities involve.

| Role  | Name of person / organization (if known at this stage)   | Key deliverables / responsibilities   |
|---|--|---|
| NCI Board                                   | Board Chair, Dr. Collins Kellogg<br>Board Members  | Inclusion of Providers in Governance and Committee Structure  |
| NCI Medical Management (Clinical) Committee | Chair, Dr. Steven Lyndaker<br>Members  | Review training webinar and material, ensure proper selection and implementation of evidence based guidelines and protocols |
| NCI Program Manager                         | Celia Cook   | Development of Communication Plan Assistance in webinar and other communication material development                        |
| NCI Project Management Officer              | Ray Moore  | Development of standard performance reports   |
| NCI Data Analyst                            | Jeff Bazinet   | Ensure disease registry capability for quality performance reporting for inclusion in standard reports                      |
| NCI Board Provider Champions                | Dr. Collins Kellogg Dr. Gary Hart Dr. Steven Lyndaker Dr. David Rechlin Dr. Mario Victoria Dr. Mark Parshall Dr. Michael Seidman Dr. Michael Woznicki Dr. Howard Meny Dr. Jack Rush Dr. Jason White Erin Cooney, LCSW-R Jeff Perrine, FNP Angela Doe, LMHC | Facilitate education of medical staffs and other provider groups on clinical integration                                    |
| NCI Director                                | Brian Marcolini  |   |
| Regional CIO<br>Workforce Lead              | Corey Zeigler Tracy Leonard  | Facilitate development of webinar and other education materials   |

**☑** IPQR Module 9.6 - Key Stakeholders

### Instructions:

Please identify the key stakeholders involved, both within and outside the PPS.

| Key stakeholders   | Role in relation to this organizational workstream                                       | Key deliverables / responsibilities  |  |  |
|--|--|--|--|--|
| Internal Stakeholders  |  |  |  |  |
| NCI Board  | Board Members  | Review and Accept Practitioner Communication and Training Plan   |  |  |
| NCI Communication Committee  | Include Practitioner Engagement in \two-way Communication Plan                           | Communication Plan that addresses Practitioner Engagement  |  |  |
| NCI Director   | Responsible for overall oversight of all NCI Activities                                  | Ensure that all work streams endorse and adopt plans as applicable   |  |  |
| NCI Care Management Committee  | Inform training/education for practitioners regarding Care Management Plan               | Care Management Plan included in training  |  |  |
| Safety Net hospital partners   | Adopt and participate in plans and training as applicable                                | Trained medical professional staff, implemented plans to impact improved practitioner engagement   |  |  |
| All PPS Partners   | Adopt and participate in plans and training as applicable                                | Trained medical professional staff, implemented plans to impact improved practitioner engagement   |  |  |
| External Stakeholders  |  |  |  |  |
| Fort Drum Regional Health Planning Organization                                | Contracted PMO staffing and Support, Coordination of Activate Community Based Engagement | Facilitation of Activities Data Analytics for performance report Continuity & Credibility for Community Provider Practitioner Engagement |  |  |
| Non-Partner Community Based Organizations                                      | Engagement Potential to provide service  | Understanding and buy-in Ability to facilitate larger community understanding  |  |  |
| Medicaid and Uninsured Patients, All Population for Population Health Projects | Trained, engaged providers support better outcomes for patients                          | Feedback on provider through CAHPS   |  |  |

**DSRIP Implementation Plan Project** 

**North Country Initiative (PPS ID:45)** 

**IPQR Module 9.7 - IT Expectations** 

#### Instructions:

Please clearly describe how the development of shared IT infrastructure across the PPS will support this particular workstream.

Effective clinical integration will require relevant information to be readily accessible for providers across the patient care spectrum. For the providers, this will mean integration into new or expanded clinical data systems, such as population health management disease registry capability, which NCI will roll out across the primary care provider network. A core element of NCI's clinical integration needs assessment will be identifying where new or expanded data-sharing systems are required or where a different approach is required. At this stage, the immediate priorities (quick wins) include: medication reconciliation, patient transfers and transport, and outpatient clinic scheduling.

Achieving the buy-in of NCI's large community of downstream providers to the new work flows that fall under the clinical integration work stream will greatly depend on the providers and the individual practitioners having easily accessible methods of communicating with one another. We have secure messaging, weekly communication updates and other collaboration tools to ensure providers are aware of the project(s) and have a method to drive the success through their engaged guidance.

### **IPQR Module 9.8 - Progress Reporting**

#### Instructions:

Please describe how you will measure the success of this organizational workstream.

NCI will use the four pillars of Clinical Integration to monitor and evaluate our networks success. First, NCI will review, evaluate and confirm performance of our network to the standards and measures of DSRIP, specific disease programs, care protocols and clinical metrics utilizing disease registry capability. These will be tracked to ensure NCIs ability to meet the 4 pillars of clinical integration and to ensure incentives are paid out that are aligned with positive patient outcomes.

Secondly, NCI will monitor progress of PPS providers connected to the Health Information Exchange, Disease Registry and those utilizing Patient Portals and secure messaging for Domain 1 metrics through the PMO and performance logic software. Third, NCI will measure success through surveying providers to gain feedback on the effectiveness of clinical integration and care coordination within our region. Finally NCI understands that proper clinical integration within the DSRIP program will reduce hospitalizations (PQI's) and potentially preventable visits. NCI will have a coordinated plan that will monitor and assess our progress towards those milestones.

The North Country Initiative (NCI) has established a Project Management Office (PMO) staffed with a certified Project Management Officer and Program Manager. The PMO will be utilizing (Performance Logic) a project management performance based software platform for monitoring, controlling and reporting (weekly, monthly, quarterly) status / metrics associated with project milestones / deliverables. Performance Logic is specifically designed to the needs of the PPS with project management, implementation, planning, performance monitoring and results oriented project tracking / reporting. Performance Logic incorporates all aspects of DSRIP tracking enhancing NCI's ability to communicate with multiple team members and essential stakeholders.

**DSRIP Implementation Plan Project** 

**North Country Initiative (PPS ID:45)** 

### Section 10 – General Project Reporting

**IPQR Module 10.1 - Overall approach to implementation** 

#### Instructions:

Please summarize your intended approach to the implementation of your chosen DSRIP projects, including considerations around how this approach will allow for the successful development of concurrently implementing DSRIP projects.

The overall approach that the NCI PPS is taking towards the implementation of its 11 DSRIP projects is based on delegated governance, clinical leadership, meaningful communication, transparency, interoperable HIT, standardization of protocols, and aligned incentives with change management as the critical factor.

NCI fully understands the difficulty of what is being undertaken through DSRIP. This is a culture shift that flips the healthcare business model. The only way to successfully and sustainably achieve this shift is to approach it from a change management lens. The NCI implementation team has identified the 10 top keys to NCI's success to be applied to all projects:

- 1.Change management: Every single DSRIP project and workflow requires change management. Managing this type of change requires a shared NCI organizational culture that conveys a sense of identity for NCI partners, facilitates commitment to something larger than self-interest, enhances stability of the system while remaining flexible to change in response to new demands or strategies and serves as a mechanism for decision-making. The NCI will act as an integrated delivery system, adopting system-wide workflows, contracting for system-wide services, and implementing projects systematically across partners.
- 2.Proceed as if success is inevitable: We will proceed as if success is inevitable. And then make sure it is, by utilizing detailed tracking of milestones and metrics to ensure outcomes are being met and RCE course corrections are made.
- 3.Trust each other: NCI cannot and will not know all of the answers, this is new territory. We have to trust each other to watch each other's backs and look ahead for hazards. A strong delegated inclusive governance structure will put in place the processes for trust and decision-making.
- 4.We have the power to engage patients: NCI must identify the patients' needs and align our priorities with those needs. Patient engagement crosses all projects. Two-way patient engagement strategies will contribute to the success of all projects.
- 5. Confidence: We and only we, know how to do this for the population we serve. We will maintain confidence that together we either know or can find the answers we need to be successful. Sharing and adoption of best practices across projects is critical to success.
- 6. Accurate data and analysis of that data: Accurate data will be needed to drive all projects and lead to NCI's future success. That means EMR data going in must be clean, it must be mapped to disease registry accurately and it must be presented in manner that allows it to be used to drive decisions. Thus confidence, see 5.
- 7. Increased primary care access: We cannot succeed unless we expand primary care access in multiple ways. More providers, extended hours, new locations and ensuring physicians practice at the top of their licensure.
- 8. Value community based partners: Hospitals and physicians cannot do this alone. Community based providers must be active and engaged across all projects and involved in governance. They are catalysts and keys to DSRIP success.
- 9. Design for behavior change: When the system, beliefs or knowledge that creates a behavior changes, the behavior changes. This is true for providers, patients and communities. We need to identify design means to make the needed change easy for project success.
- 10. Understand the shared bucket: Transparency of funds flow is critical so that all understand the shared bucket and the expectations for their share. Effort equals reward based on project. In addition, understanding that our MCOs also have a shared bucket and how we can contribute to their success will be critical to VBP in the future.

By approaching the Project Implementations in a cohesive manner the NCI has the most potential to achieve all DSRIP outcomes and to be

Page 141 of 389

Run Date: 06/28/2019

**DSRIP Implementation Plan Project** 

**North Country Initiative (PPS ID:45)** 

prepared to sustain DSRIP created change into the future.

### IPQR Module 10.2 - Major dependencies between work streams and coordination of projects

#### Instructions:

Please describe how your approach will handle interdependencies between complementary projects, as well as between projects and cross-cutting PPS initiatives - for example, an IT infrastructure upgrade, or the establishment of data sharing protocols.

The NCI's approach to handling the major independencies between projects and workstreams is to handle these interdependencies as an integrated delivery system rather in separate partner silos. This approach will ensure that partners will not be working towards similar goals or project requirements independently, thereby doubling effort and potentially creating multiple approaches to solving the same issue. This integrated delivery system approach includes contracting for services in a centralized manner, centralized project leads, identification of clinical workflows and governance.

- 1. The NCI will contract for services in a centralized manner for all PPS partners with similar needs. This includes:
- a. EMR, HIE, PCMH and PHM implementation support. In this manner as the EMR is implement, PCMH workflows are included along with the clinical workflows for the projects under the guidelines identified by the Med Management Committee.
- In addition this ensures that rollout across the PPS is coordinated via a single staggered implementation plan allowing for maximum economy of scale and resources with maximum impact on project success.
- b. Services not currently covered like Diabetes Prevention Programs, Tobacco Cessation Programs, Diabetes and Psychiatry support for practices via telemedicine and care transitions/care management.
- c. Training and education such as PAM, Community Health Worker, Care Management Training, Health Literacy and Cultural Competency. In this manner all PPS staff will have the same training and same understanding creating a truly integrated
  - knowledge set and operational culture.
- 2. The NCI will have a centralized Project Lead for each Major workstream who will coordinate all activities with in that workstream between partners. These major cross cutting workstreams are: Care Coordination/Transitions, Workforce, IT Systems and Processes, Communication Planning, Community Engagement, Finance and Contracting and Population Health.
- 3. The NCI Medical Management Committee is identifying clinical workflow overlap and developing EMR specific toolkits for practices to streamline processes for value add. Clinical Leadership and clinical champions will be key to successful DSRIP implementations and outcomes.
- 4. The NCI has or will establish governance structures for all major workstreams that cut across multi sectors that require governance decisions. This includes clinical governance, HIT governance, data governance, workforce governance, compliance governance, and financial governance.

Page 142 of 389 Run Date : 06/28/2019

**DSRIP Implementation Plan Project** 

**North Country Initiative (PPS ID:45)** 

### **IPQR Module 10.3 - Project Roles and Responsibilities**

### Instructions:

Please outline the key individuals & organizations that play a role in the delivery of your PPS's DSRIP projects, as well as what their responsibilities are regarding governance, implementation, monitoring and reporting on your DSRIP projects.

| Role                         | Name of person / organization (if known at this stage)   | Key deliverables / responsibilities  |
|------------------------------|--|--|
| Safety Lead Applicant        | Samaritan Medical Center   | Compliance Officer and Plan Fiduciary Lead - funds distribution based on NCI Finance Committee and Board Governance Recommendations  |
| NCI Board Chairman           | Board Chair, Dr. Collins Kellogg   | Facilitate Board of Manager Activities, Lead Board spokesperson & Clinical Champion  |
| NCI Medical Director         | Dr. Steven Lyndaker  | Review training webinars and material Ensure selection and implementation of evidence based guidelines and protocols Develop and assist practice workflow strategies Clinical quality measures   |
| NCI Board Provider Champions | Dr. Collins Kellogg Dr. Gary Hart Dr. Steven Lyndaker Dr. David Rechlin Dr. Mario Victoria Dr. Mark Parshall Dr. Michael Seidman Dr. Michael Woznicki Dr. Howard Meny Dr. Jack Rush Dr. Jason White Erin Cooney, LCSW-R Jeff Perrine, FNP Angela Doe, LMHC | Physician/Provider Champions and leadership Facilitate education of medical staffs and other provider groups on clinical integration   |
| NCI Director                 | Brian Marcolini  | Overall NCI Leadership. Coordinate overall development of VBP baseline assessment and plan for achieving value based payments. Coordinate approach and engagement of process to develop PPS VBP Baseline Assessment and Adoption Plan.  Ultimately responsible for the development of the PPS VBP Baseline Assessment and Adoption Plan. |
| NCI Program Manager          | Celia Cook   | Documentation and facilitation of Communication and Community Engagement Plans   |

Page 148 of 389

**DSRIP Implementation Plan Project** 

**North Country Initiative (PPS ID:45)** 

**IPQR Module 10.5 - IT Requirements** 

#### Instructions:

Information technology will play a crucial role in the development of an effective, integrated performing provider system. It is likely that most projects will require some level of supporting IT infrastructure. Please describe the key elements of IT infrastructure development that will play a role in multiple projects.

It cannot be over stated that all projects and workstreams are dependent in the IT Systems & Processes. As is described throughout this implementation plan, the development of new and / or improved IT infrastructure is a crucial factor underpinning all other workstreams including, in particular, clinical integration, population health management and performance reporting. However, without the right business and financial support, the North Country Initiative (NCI) PPS will not be able to drive the technological infrastructure development program to ensure the success of these workstreams. The interaction between the NCI and the PPS's clinical governance structure (especially the Practitioner Champions) will be vital to ensure that the IT infrastructure developed meets the needs of individual practitioners, providers and – particularly when it comes to population health management – the whole PPS network. During development of the IT future state, NCI will work closely with the NCI Finance Team to review available capital and DSRIP funding resources. Adding new technologies, interfaces, reporting and monitoring solutions, and other engagement channels within our PPS will also require additional IT/practice transformation staffing, which will depend heavily on the NCI Workforce Strategy team. THe PPS will need additional resources for IT support, analysis, and reporting. Along with the need for new IT staff and systems, training the workforce to use new and expanded systems effectively will be crucial.

### **IPQR Module 10.6 - Performance Monitoring**

#### Instructions:

Please explain how your DSRIP projects will fit into your development of a quality performance reporting system and culture.

North Country Initiative (NCI) has established a Project Management Office (PMO) staffed with a certified Project Management Officer and Program Manager.

The PMO will be utilizing (Performance Logic) a project management performance based software platform for monitoring, controlling and reporting (weekly, monthly, quarterly) status / metrics associated with project milestones / deliverables. Performance Logic is specifically designed to the needs of the PPS with project management, implementation, planning, performance monitoring and results oriented project tracking / reporting. Performance Logic incorporates all aspects of DSRIP tracking enhancing NCI's ability to communicate with multiple team members and essential stakeholders.

Delivering analytics and reports for state submission on milestones by DSRIP year (DY), financial incentives and DSRIP clinical measure domains including: (1) Patient Safety (2) Clinical Process/Effectiveness (3) Efficient Use of Healthcare Resources (4) Population/Public Health (5) Clinical Process/Effectiveness (6) Care Coordination (7) DSRIP Efficiency (8) Speed & Scale Utilization as identified for the specific projects. Clinical monitoring and performance reporting will be supplemented by the utilization of PHM disease registry capability.

Reports and Metrics will be constructed using standard data definitions to facilitate timely, accurate, and clinically informed reporting that provides

### **DSRIP Implementation Plan Project**

**North Country Initiative (PPS ID:45)** 

project oversight and feedback across organizational levels within the PPS. Data will be compiled and formulated to meet the intent of NYS reporting procedures and Achievement Values. Monthly and Quarterly: NCI PMO will evaluate and validate each performance and process measure and milestone on whether the target / milestone was "achieved" or "not achieved". For targets / milestones that are "not achieved" further review will be conducted immediately to determine the root cause for "not achieved" and change management will be instituted if warranted to bring target / milestone to an "achieved" rating.

Domain 1: Project Milestones & Metrics are based largely on investments in technology, provider capacity and training, and human resources that will strengthen the ability of the PPS to serve its target populations and successfully meet DSRIP project goals.PPS project reporting will be conducted in two phases: A detailed Implementation Plan due in April 1, 2015 and ongoing Quarterly Reports throughout the entire DSRIP period. Both the initial Implementation Plan and Quarterly Reports shall demonstrate achievement towards the implementation of the IDS strategy and action plan, governance, completion of project requirements, scale of project implementation, and patient engagement progress in the project.

Quarterly Reports: PPS will submit quarterly reports on progress towards achievement of project requirements as defined in Domain 1 DSRIP Project Requirements Milestones & Metrics. Quarterly reports to the Independent Assessor will include project status and challenges as well as implementation progress. The format and content of the quarterly reports will be developed by the Independent Assessor and the Department of Health for the purpose of driving project payment upon completion of project milestones as indicated in the project application.

**DSRIP Implementation Plan Project** 

**North Country Initiative (PPS ID:45)** 

### **IPQR Module 10.7 - Community Engagement**

#### Instructions:

Please describe your PPS's planned approach for driving community involvement in the DSRIP projects, how you will contract with CBOs for these projects, how community engagement will contribute to the success of the projects, and any risks associated with this.

The North Country Initiative PPS has taken a comprehensive approach to Community Engagement which includes four key strategies:

- 1. Utilization of broad established existing community partnerships for planning and engagement including the Fort Drum Regional Health Planning Organization's comprehensive committee structure, the North Country Health Compass, the North Country Behavioral Health Care Network, the St. Lawrence County Health Initiative, the Prevention Councils including Seaway Valley, PIVOT, and Mountain View, and the North Country Prenatal Perinatal Network. This engagement strategy also includes the local government units, community services boards and public health agencies to ensure that all levels of community agencies and organizations are aware and engaged in the planning for activities to take place under DSRIP.
- 2. Two-way Community Communication Plan The NCI is developing a comprehensive two way communication plan that includes community engagement as a central component. This plan is being coordinated with the regional Population Health Improvement Program to ensure non-duplication, removal of confusion and maximum utilization of resources.
- 3. Community and Neighborhood Outreach During the Community Needs Assessment the NCI identified Key community organizations at the community level that have been engaged on the planning committees. In addition, in partnership with the PHIP the NCI will utilize Neighborhood coalitions and workgroups to inform the project activities.
- 4. Community Based Organization Services The NCI has many CBO partners who will provide services specifically for Patient Activation Measure (PAM), Community Health Worker, Health Literacy & Cultural Competency Assistance, Diabetes Prevention and Tobacco Cessation Programs.

### Section 11 - Workforce

**IPQR Module 11.1 - Workforce Strategy Spending (Baseline)** 

#### Instructions:

Please include details on expected workforce spending on a semi-annual basis. Funds may be shifted from one funding type category to another within the workforce strategy spending table, as long as the PPS adheres to their overall spend commitments. However, the PPS may apply a 25% discount factor to the DY1 Workforce Strategy Spend target. If the PPS applies this discount in DY1, the PPS will be expected to reallocate those funds appropriately in DY2-4 to fully meet their DY1-4 total commitment.

### IPQR Module 11.4 - Major Risks to Implementation & Risk Mitigation Strategies

#### Instructions:

milestones

Please describe the key challenges and risks that you foresee in achieving the milestones set out above, including potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

- "1. Risk: Collecting participant level training data from PPS partners
  - Mitigation: a) Utilize centralized platform to help manage project planning, implementation, monitoring and reporting with real-time data
- b) A standardized training process (reporting, timelines, rollout, etc.) will ensure appropriate individuals are aware of when and how trainings will be delivered to ensure we are meeting milestones in alignment with project speed.
  - c) Engage staff educators, human resource personnel and management to monitor the entities progress towards achieving
- 2. Risk: Retaining and applying training information
- Mitigation: a) Prioritized timeline based on project speed to ensure training information directly applied
- b)Transparent communication with project partners to facilitate their understanding of what, why and how, and in turn, they are informing our process with their first-hand experience and expertise.
  - c)Active involvement of frontline workers on committees to assist with planning and implementation
- d) Assist employees and entities to balance the responsibilities and needs of their day-to-day operations with PPS training requirements
- 3. Risk: Implementation of ICD-10 coding in October 2015 may temporarily shift provider priorities, as payments to providers hinges on accurate coding. Time and resources will need to be spent to train and prepare practices for this conversion, otherwise, practices could experience a potentially devastating loss of productivity and revenue- enough to jeopardize the financial stability of a practice. The primary changes in ICD-10 are related to organization and structure, code composition, and increased level of detail related to documentation. The time needed to provide the additional documentation support to support the patient's diagnosis could present challenges. Additionally, the hours of training required to understand how ICD-10 is structured and applied will depend on the size of the practice and the experience of the staff in coding. Time and training dollars could present some significant challenges, especially in our already lean workforce.

Mitigation: a) Establish a group to assess and monitor ICD-10 provider readiness and its potential impact on the implementation of chosen projects

- b) Develop contingency plan in the event that provider focus shifts to ICD-10 implementation
- 4. Risk: Rural, Federally designated Health Professional Shortage Area (HPSA). This challenge of being rural is further exacerbated by harsh winters and limited financial resources to incentivize providers to come and stay in our region. The recruitment and retention of physician and physician extenders to include behavioral health and dental providers remains a significant challenge.
  - Mitigation: a) Investment of dollars to incentivize providers, especially those who will serve the Medicaid population
- b) Creation of workforce committee who will focus on GME expansion, physician education and provider recruitment/retention strategies
- c) Increase awareness of, and alignment with federal and state initiative designed to support the training and placement of health care providers in underserved communities
- d) Balance facility specific recruitment strategies (i.e. loan forgiveness) by creating a standard set of guidelines to eliminate variation and prevent competition among PPS partners
- 5. Risk: Disparate Human Resource policies across different members within the PPS a potential threat as providers begin to work together for

### **DSRIP Implementation Plan Project**

**North Country Initiative (PPS ID:45)** 

the unlawful sharing of information, especially as it relates to compensation and benefits information in violation

#### **IPQR Module 11.5 - Major Dependencies on Organizational Workstreams**

#### Instructions:

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

- 1. Community and Practioner Engagement: Across the entire PPS, a community engagement plan, including plans for two-way communication with stakeholders will need to be developed. This plan will include communication with all levels of the workforce, regarding required trainings, recruitment and retention strategies (i.e. alignment with and awareness of federal and state initiatives), and new hires. The PPS governance structure will be responsible for agency coordination plans aimed at engaging appropriate and targeted workers who will most greatly impacted by project implementation. Practitioner engagement and involvement in the DSRIP program will also be a major interdependency with our workforce transformation plans. As such. we will develop training and education plans targeting practitioners and other professional groups, designed to educate them about the DSRIP Program and our PPS-specific quality improvement agenda.
- 2. Financial Sustainability: Key people within organizations will need to be identified and held responsible for the financial sustainability of their entities, incorporating PPS strategies to address important, identified issues related to our network's financial health. The financial sustainability of PPS partners greatly impacts the workforce.
- 3. Cultural Competency & Health Literacy: The implementation of cultural competence and health literacy strategies will require the identification and implementation of assessments and tools to assist patients with self-management of conditions, as well as the utilization of community-based interventions to reduce health disparities and improve outcomes. The PPS will develop a culturally competent training strategy for clinicians focused on evidence-based research addressing the drivers of health disparities for particular groups identified. We will also create training plans for other segments of the workforce (and others, as appropriate) regarding specific population needs and effective patient engagement approaches.
- 4. IT Systems & Processes: All projects and workstreams are dependent on the IT systems and processes, therefore, strategic implementation of these systems and processes is primarily dependent on workforce related to both clinical and technical training. The PPS will develop an IT change management strategy that is focused on a communication plan involving all stakeholders, including users. An education and training plan will be created and workflows for authorizing and implementing IT changes will be defined and standardized across the PPS. This training plan will support the successful implementation of new platforms and processes involving technical standards and implementation guidance for sharing and using a common clinical data set.
- 5. Performance Reporting: Each entity will be required to report clinical and financial outcomes for specific patient pathways and project milestones. Key personnel will need to be trained to use clinical quality and performance dashboards as well as a centralized, continuously monitored reporting tool. Reporting, tracking, monitoring and course adjustments will need to be made by the organization and their workers, in partnership with the PPS Project Management Officer.

### **IPQR Module 11.6 - Roles and Responsibilities**

#### Instructions:

Please list and elaborate upon the key people/organizations responsible for this organizational workstream and describe what their responsibilities involve.

| Role  | Name of person / organization (if known at this stage)   | Key deliverables / responsibilities  |
|---|--|--|
| Workforce Project Lead  | Tracy Leonard  | Lead the development of the PPS Workforce Assessment and Strategy  |
| Human Resource Directors/Recruitment<br>Managers (Workforce Strategies Committee) | "A. Tom Shatraw/Samaritan Medical Center B. Cathy Siedlecki/Carthage Area Hospital C. David Pavey/River Hospital D. Jonnie Dorothy/Massena Memorial Hospital E. Lou-Anne McNally/Claxton Hepburn Medical Center E. Clifton Fine Hospital F. Community Based Organization G. Behavioral Health Agencies H. FQHCs I. Labor Representatives " | "Workforce strategy, planning and oversight to include:  1. Help perform any necessary benchmarking of salary/benefits  2. As necessary, prepare packets with detailed comparison of current and target positions (salary, benefits, role, responsibilities, training)  3. As necessary, work with labor representatives to develop mutually agreed upon strategy for redeployment if necessary  4. Assist with the recruitment and hiring of new professionals  5. Serve on the HR workgroup  6. Assist with defining current and target workforce state to include data collection and gap analysis  7. Track and monitor training requirements completed by facility staff" |
| NCI Workforce Governance & GME Committee  | "A. Dr. David Rechlin/Samaritan Medical Center B. Carthage Area Hospital C. River Hospital D. Massena Memorial Hospital E. Claxton Hepburn Medical Center F. Clifton Fine Hospital"  | "Workforce strategy, planning and oversight to include:  1. Provide expertise and determine potential to grow GME Program  2. NCI Workforce Committee which will be focused on GME Expansion, Physician and Physician Extender Recruitment and Retention, and Medical Staff Continued Education"   |

**DSRIP Implementation Plan Project** 

**North Country Initiative (PPS ID:45)** 

IPQR Module 11.8 - IT Expectations

#### Instructions:

Please describe how the development of shared IT infrastructure across the PPS will support your plans for workforce transformation.

"The relationship between IT and Workforce is critical to our success. Once training strategies are developed and implemented, the NCI PPS will rely on IT systems such as a centralized platform to manage, monitor and report progress. This will require significant coordination and well-structured reporting on behalf of the PPS partners. Additionally, we will rely on IT systems to track staff vacancies, employee turnover and hiring as is outlined in the workforce transition roadmap. These IT systems will assist us in gathering real-time data and information related to workforce changes in a seamless, coordinated and timely fashion. The systems will also be used to collect, analyze and generate reports on workforce process measures.

In addition to the aforementioned, health care providers' ability to obtain information quickly on a patient's health, health care, and potential treatments is important. Additionally, the ability to share this information in a timely manner with other providers caring for the patient is essential to the delivery of safe, patient-centered, coordinated, and efficient health care. To meet this need, collaboration across the entire PPS is underway to develop and leverage: electronic health record (EHR) systems with decision support for clinicians, a secure platform for the exchange of patient information across health care settings (Regional Health Information Exchange), and data standards that will make shared information understandable to all users. Efforts are also underway to create and leverage information systems for mental health and substance abuse providers. Ensuring that the developing systems for mental health and substance abuse conditions are aligned with general, medical care needs is essential for improving the quality and continuity of care across the system. In essence, information technology plays a vital role in the safety, effectiveness, patient-centeredness, timeliness, efficiency, and equity of health care.

Understanding how to use and leverage strong IT infrastructures within our PPS are crucial to supporting consumers in illness/disease self-management, supporting providers in the delivery of evidence-based clinical care, coordinating care across clinicians, care settings and time, facilitating performance and outcome measurement, and educating clinicians. The workforce will need to be trained on protecting health information through appropriate privacy and security practices. They will need to be trained on effective strategies to achieve ongoing, industrywide Health IT standards to include information tools, specialized network functions, and security protections for the interoperable exchange of health information. They will need to learn how to identify health IT standards for use by identifying and prioritizing specific uses for which health IT is valuable, beneficial and feasible. Overall, strong commitment from the workforce within our PPS to train, understand, and embrace the development of a shared, secure IT infrastructure will ultimately impact the successful use of IT functionality to improve outcomes. Finally, the financial incentives associated with the investment of EHR systems will be important for safety net providers to support the implementation and adoption of health information technology systems."

**IPQR Module 11.9 - Progress Reporting** 

#### Instructions:

Please describe how you will measure the success of this organizational workstream.

Run Date: 06/28/2019

Page 167 of 389

**DSRIP Implementation Plan Project** 

**North Country Initiative (PPS ID:45)** 

The success of the PPS workforce strategy will predominately be measured in DY1/DY2 against milestones, action steps, target dates, and Domain 1 required workforce metrics. In succeeding years, emphasis will increasingly move from pay-for-reporting to pay-for-performance. Ultimately, the success of the workforce strategy will be measured against the PPS meeting its outcome metrics for each chosen DSRIP project. Key stakeholders will be identified to support the completion of workforce activities and they will be engaged in driving the completion of the defined milestones. As part of our workforce strategy, we will determine data collection/analysis methods and define a standardized process for collecting and reporting the data among all partners. The PPS will regularly measure if the investments made in the workforce strategy are having a positive impact on the ability of the PPS to meet its stated goals and project outcomes. To ensure success, the PPS will establish a centralized progress reporting platform to help manage project planning, implementation, monitoring and reporting to include the workforce strategy. This tracking functionality will provide comprehensive project management support that allows for easy tracking and reporting of project progress, with real-time data.

Instructions:

**DSRIP Implementation Plan Project** 

North Country Initiative (PPS ID:45)

Project 2.a.i – Create Integrated Delivery Systems that are focused on Evidence-Based Medicine / Population Health Management

☑ IPQR Module 2.a.i.1 - Major Risks to Implementation and Mitigation Strategies

#### Instructions:

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

- 1. Risk: Collecting participant level data from PPS partners
- Mitigation: a) Utilize centralized platform to help manage project planning, implementation, monitoring and reporting with real-time data
- b) A standardized process (reporting, timelines, rollout, etc.) will ensure appropriate individuals are aware of when and how trainings will be delivered to ensure we are meeting milestones in alignment with project speed.
- c) Engage staff educators, human resource personnel and management to monitor the entities progress towards achieving milestones.
- 2. Risk: Retaining and applying DSRIP training requirements across PPS
- Mitigation: a) Prioritized timeline based on project speed to ensure training information directly applied
- b) Transparent communication with project partners to facilitate their understanding of what, why and how, and in turn they are informing the process
- c) Active involvement on committees to assist with planning and implementation
- d) Assist employees and entities to balance the responsibilities and needs of their day-to-day operations with PPS training requirements
- 3. Risk: Implementation of ICD-10 coding in October 2015 may temporarily shift provider priorities, as payments to providers hinges on accurate coding. Time and resources will need to be spent to train and prepare practices for this conversion, otherwise, practices could experience a potentially devastating loss of productivity and revenue- enough to jeopardize the financial stability of a practice. The primary changes in ICD-10 are related to organization and structure, code composition, and increased level of detail related to documentation. The time needed to provide the additional documentation support to support the patient's diagnosis could present challenges to IT and PCMH rollouts as well as Provider engagement and training especially in our already lean practices.
- Mitigation: a) Establish a group to assess and monitor ICD-10 provider readiness and its potential impact on the implementation of chosen projects b) Develop contingency plan in the event that provider focus shifts to ICD-10 implementation
- 4. Risk: Primary Care Physician Shortages: Rural, Federally designated Health Professional Shortage Area (HPSA). This challenge of being rural is further exacerbated by harsh winters and limited financial resources to incentivize providers to come and stay in our region. The recruitment and retention of physician and physician extenders to include behavioral health and dental providers remains a significant challenge.
- Mitigation: a) Investment of dollars to incentivize providers, especially those who will serve the Medicaid population
- b) Creation of workforce committee who will focus on GME expansion, physician education and provider recruitment/retention strategies
- c) Increase awareness of, and alignment with federal and state initiative
- 5. Risk: Disparate IT Systems and capability of EMRs across PPS and particular workstreams with no or little EMR capability (i.e. BH, CBOs, LTC) Mitigation: a) Comprehensive needs assessment
- b) Staged plan for implementation encompassing largest volume Safety Net providers first

**DSRIP Implementation Plan Project** 

**North Country Initiative (PPS ID:45)** 

**IPQR Module 2.a.i.2 - Prescribed Milestones** 

#### Instructions:

Please provide updates to baseline reporting on status, target dates, and work breakdown tasks for prescribed milestones. For milestones that are due and completed within the reporting period, documentation is required to provide evidence of project requirement achievement. Any explanations regarding altered or missed provider commitments should be included within the narrative box, not as text within uploaded documentation.

| Project Requirements<br>(Milestone/Task Name)  | Prescribed<br>Due Date | Reporting<br>Level | Provider Type | Status    | Original<br>Start Date | Original<br>End Date | Start Date | End Date   | Quarter<br>End Date | DSRIP Reporting Year and Quarter |
|--|------------------------|--------------------|---------------|-----------|------------------------|----------------------|------------|------------|---------------------|----------------------------------|
| Milestone #1 All PPS providers must be included in the Integrated Delivery System. The IDS should include all medical, behavioral, post-acute, long-term care, and community-based service providers within the PPS network; additionally, the IDS structure must include payers and social service organizations, as necessary to support its strategy. | DY3 Q4                 | Project            | N/A           | Completed | 07/01/2015             | 06/30/2017           | 07/01/2015 | 06/30/2017 | 06/30/2017          | DY3 Q1                           |
| Task PPS includes continuum of providers in IDS, including medical, behavioral health, post-acute, long-term care, and community- based providers.   |                        | Project            |               | Completed | 07/01/2015             | 06/30/2017           | 07/01/2015 | 06/30/2017 | 06/30/2017          | DY3 Q1                           |
| Task  1. Create a comprehensive Sharepoint master database of all participating providers/partners within the PPS network list   |                        | Project            |               | Completed | 07/01/2015             | 09/30/2015           | 07/01/2015 | 09/30/2015 | 09/30/2015          | DY1 Q2                           |
| Task 2. Assign responsibility for maintaining/updating list  |                        | Project            |               | Completed | 07/01/2015             | 09/30/2015           | 07/01/2015 | 09/30/2015 | 09/30/2015          | DY1 Q2                           |
| Task 3. Ensure all critical areas are included in list   |                        | Project            |               | Completed | 07/01/2015             | 06/30/2016           | 07/01/2015 | 06/30/2016 | 06/30/2016          | DY2 Q1                           |
| Task 4. Develop participation agreements   |                        | Project            |               | Completed | 07/01/2015             | 06/30/2016           | 07/01/2015 | 06/30/2016 | 06/30/2016          | DY2 Q1                           |
| Task 5. Execute agreements   |                        | Project            |               | Completed | 07/01/2015             | 12/31/2016           | 07/01/2015 | 12/31/2016 | 12/31/2016          | DY2 Q3                           |
| Milestone #2 Utilize partnering HH and ACO population health management systems and capabilities to implement the PPS' strategy towards evolving into an IDS.  | DY2 Q4                 | Project            | N/A           | Completed | 04/01/2015             | 03/31/2017           | 04/01/2015 | 03/31/2017 | 03/31/2017          | DY2 Q4                           |
| Task PPS produces a list of participating HHs and ACOs.  |                        | Project            |               | Completed | 04/01/2015             | 12/31/2016           | 04/01/2015 | 12/31/2016 | 12/31/2016          | DY2 Q3                           |
| Task Participating HHs and ACOs demonstrate real service integration which incorporates a population management strategy towards evolving into an IDS.   |                        | Project            |               | Completed | 04/01/2015             | 03/31/2017           | 04/01/2015 | 03/31/2017 | 03/31/2017          | DY2 Q4                           |
| Task Regularly scheduled formal meetings are held to develop   |                        | Project            |               | Completed | 04/01/2015             | 03/31/2017           | 04/01/2015 | 03/31/2017 | 03/31/2017          | DY2 Q4                           |

| collaborative care practices and integrated service delivery.  |                        |                    |               |           |                        |                      |            |            |                     |  |
| Task 1. Develop and maintain list of participating HH and ACOs.  |                        | Project            |               | Completed | 04/01/2015             | 12/31/2015           | 04/01/2015 | 12/31/2015 | 12/31/2015          | DY1 Q3                                 |
| Task 2. Integrate Health Home and ACO into PPS Population Health Management strategy for Integrated Delivery System  |                        | Project            |               | Completed | 04/01/2015             | 12/31/2015           | 04/01/2015 | 12/31/2015 | 12/31/2015          | DY1 Q3                                 |
| Task 3. Develop regularly scheduled meetings which include the Health Home and ACO   |                        | Project            |               | Completed | 04/01/2015             | 03/31/2017           | 04/01/2015 | 03/31/2017 | 03/31/2017          | DY2 Q4                                 |
| Task 4. Create an IDS strategic plan that aligns the ACO, Health Home (HH) and Clinically Integrated Network (CIN) with shared protocols, measures and goals to achieve the objectives of the IDS population health management strategy. |                        | Project            |               | Completed | 04/01/2015             | 03/31/2017           | 04/01/2015 | 03/31/2017 | 03/31/2017          | DY2 Q4                                 |
| Milestone #3 Ensure patients receive appropriate health care and community support, including medical and behavioral health, post-acute care, long term care and public health services.   | DY2 Q4                 | Project            | N/A           | Completed | 04/01/2015             | 12/31/2016           | 04/01/2015 | 12/31/2016 | 12/31/2016          | DY2 Q3                                 |
| Task Clinically Interoperable System is in place for all participating providers.  |                        | Project            |               | Completed | 04/01/2015             | 12/31/2016           | 04/01/2015 | 12/31/2016 | 12/31/2016          | DY2 Q3                                 |
| Task PPS has protocols in place for care coordination and has identified process flow changes required to successfully implement IDS.  |                        | Project            |               | Completed | 04/01/2015             | 12/31/2016           | 04/01/2015 | 12/31/2016 | 12/31/2016          | DY2 Q3                                 |
| Task PPS has process for tracking care outside of hospitals to ensure that all critical follow-up services and appointment reminders are followed.   |                        | Project            |               | Completed | 04/01/2015             | 12/31/2016           | 04/01/2015 | 12/31/2016 | 12/31/2016          | DY2 Q3                                 |
| Task PPS trains staff on IDS protocols and processes.  |                        | Project            |               | Completed | 04/01/2015             | 12/31/2016           | 04/01/2015 | 12/31/2016 | 12/31/2016          | DY2 Q3                                 |
| Task 1. Identify appropriate partners for HIE  |                        | Project            |               | Completed | 04/01/2015             | 03/31/2016           | 04/01/2015 | 03/31/2016 | 03/31/2016          | DY1 Q4                                 |
| Task 2. Identify workflow changes to create integrated system  |                        | Project            |               | Completed | 04/01/2015             | 06/30/2016           | 04/01/2015 | 06/30/2016 | 06/30/2016          | DY2 Q1                                 |
| Task 3. Develop process workflow diagrams demonstrationg IDS processes including responsible providers   |                        | Project            |               | Completed | 04/01/2015             | 09/30/2016           | 04/01/2015 | 09/30/2016 | 09/30/2016          | DY2 Q2                                 |
| Task 4. Identify process to track post-hospitalization discharge plan follow-up care and appointment reminders are followed  |                        | Project            |               | Completed | 04/01/2015             | 12/31/2016           | 04/01/2015 | 12/31/2016 | 12/31/2016          | DY2 Q3                                 |

| Task PPS identifies targeted patients through patient registries and is able to track actively engaged patients for project milestone reporting.   |                        | Project            |               | Completed | 07/01/2015             | 09/30/2016           | 07/01/2015 | 09/30/2016 | 09/30/2016          | DY2 Q2                                 |
| Task  1. Conduct an assessment of the current practices and clinics to determine the needed infrastructure, training and implementation required to ensure all providers are fully utilizing EHRs to provide coordinated care across the PPS.                                    |                        | Project            |               | Completed | 07/01/2015             | 03/31/2016           | 07/01/2015 | 03/31/2016 | 03/31/2016          | DY1 Q4                                 |
| Task 2. Perform a gap analysis and a plan with budget to address the identified needs  |                        | Project            |               | Completed | 07/01/2015             | 03/31/2016           | 07/01/2015 | 03/31/2016 | 03/31/2016          | DY1 Q4                                 |
| Task 3. Begin implementations with prioritization based on attributed Medicaid population and provider engagement.   |                        | Project            |               | Completed | 07/01/2015             | 03/31/2016           | 07/01/2015 | 03/31/2016 | 03/31/2016          | DY1 Q4                                 |
| Task  4. During the implementation phase and all phases that follow, prepare a report to the governance committee to ensure that all risks, & issues are communicated and a plan is in place to address them   |                        | Project            |               | Completed | 07/01/2015             | 06/30/2016           | 07/01/2015 | 06/30/2016 | 06/30/2016          | DY2 Q1                                 |
| Task 5. Perform a post-go-live gap analysis and a plan with budget to address the identified needs   |                        | Project            |               | Completed | 07/01/2015             | 12/31/2017           | 07/01/2015 | 12/31/2017 | 12/31/2017          | DY3 Q3                                 |
| Task 6. Facilitate the practice's connection with the regional PHM platform to ensure the providers have access to quality measures and the ability to risk stratify their population in order to provide efficient, effective and high-quality care.                            |                        | Project            |               | Completed | 07/01/2015             | 03/31/2017           | 07/01/2015 | 03/31/2017 | 03/31/2017          | DY2 Q4                                 |
| Task 7. Perform a continual improvement (PDSA) cycle in order to improve documentation and other processes to target gaps in care for high risk patients.  |                        | Project            |               | Completed | 07/01/2015             | 09/30/2016           | 07/01/2015 | 09/30/2016 | 09/30/2016          | DY2 Q2                                 |
| Milestone #7 Achieve 2014 Level 3 PCMH primary care certification and/or meet state-determined criteria for Advanced Primary Care Models for all eligible participating PCPs, expand access to primary care providers, and meet EHR Meaningful Use standards by the end of DY 3. | DY3 Q4                 | Project            | N/A           | Completed | 04/01/2015             | 03/31/2018           | 04/01/2015 | 03/31/2018 | 03/31/2018          | DY3 Q4                                 |
| Task Primary care capacity increases improved access for patients seeking services - particularly in high-need areas.  |                        | Project            |               | Completed | 04/01/2015             | 03/31/2018           | 04/01/2015 | 03/31/2018 | 03/31/2018          | DY3 Q4                                 |

| Task 6. Facilitate the practice's connection with the HealtheConnections RHIO and the regional PHM platform to ensure they have access to all information the patient has consented to in order to provide efficient, effective and high- quality care.  |                        | Project            |   | Completed | 04/01/2015             | 03/31/2018           | 04/01/2015 | 03/31/2018 | 03/31/2018          | DY3 Q4                                 |
| Task 7. Perform a pre-MU and PCMH assessment of the current practices and clinics to determine the needed infrastructure, training and implementation required to ensure all providers are utilizing the EHR and operating as a PCMH in order to attest for MU and apply for NCQA PCMH by DSRIP DY3. |                        | Project            |   | Completed | 04/01/2015             | 03/31/2016           | 04/01/2015 | 03/31/2016 | 03/31/2016          | DY1 Q4                                 |

# **DSRIP Implementation Plan Project**

North Country Initiative (PPS ID:45)

Page 181 of 389 Run Date : 06/28/2019

| Project Requirements<br>(Milestone/Task Name)  | Prescribed<br>Due Date | Reporting<br>Level | Provider Type | Status    | Original<br>Start Date | Original<br>End Date | Start Date | End Date   | Quarter<br>End Date | DSRIP<br>Reporting Year<br>and Quarter |
|--|------------------------|--------------------|---------------|-----------|------------------------|----------------------|------------|------------|---------------------|--|
| Task 8. Begin MU attestations & PCMH recognitions with prioritization based on attributed Medicaid population and provider engagement.   |                        | Project            |               | Completed | 04/01/2015             | 12/31/2016           | 04/01/2015 | 12/31/2016 | 12/31/2016          | DY2 Q3                                 |
| Milestone #9 Establish monthly meetings with Medicaid MCOs to discuss utilization trends, performance issues, and payment reform.  | DY2 Q4                 | Project            | N/A           | Completed | 04/01/2015             | 03/31/2017           | 04/01/2015 | 03/31/2017 | 03/31/2017          | DY2 Q4                                 |
| Task PPS holds monthly meetings with Medicaid Managed Care plans to evaluate utilization trends and performance issues and ensure payment reforms are instituted.                  |                        | Project            |               | Completed | 04/01/2015             | 03/31/2017           | 04/01/2015 | 03/31/2017 | 03/31/2017          | DY2 Q4                                 |
| Task  1. Identify Medicaid MCOs in PPS service area  |                        | Project            |               | Completed | 04/01/2015             | 12/31/2015           | 04/01/2015 | 12/31/2015 | 12/31/2015          | DY1 Q3                                 |
| Task  2. Outreach to Medicaid MCOs for initial meeting   |                        | Project            |               | Completed | 04/01/2015             | 12/31/2015           | 04/01/2015 | 12/31/2015 | 12/31/2015          | DY1 Q3                                 |
| Task 3. Establish monthly meeting schedule with MCO to evaluate utilization trends and performance issues to ensure payment reforms are instituted                                 |                        | Project            |               | Completed | 04/01/2015             | 06/30/2016           | 04/01/2015 | 06/30/2016 | 06/30/2016          | DY2 Q1                                 |
| Task 4. Develop an agenda for meetings with MCOs to discuss a first draft business case that is in the interests of both organizations.  |                        | Project            |               | Completed | 04/01/2015             | 06/30/2016           | 04/01/2015 | 06/30/2016 | 06/30/2016          | DY2 Q1                                 |
| Milestone #10  Re-enforce the transition towards value-based payment reform by aligning provider compensation to patient outcomes.   | DY3 Q4                 | Project            | N/A           | Completed | 07/01/2015             | 03/31/2018           | 07/01/2015 | 03/31/2018 | 03/31/2018          | DY3 Q4                                 |
| Task PPS submitted a growth plan outlining the strategy to evolve provider compensation model to incentive-based compensation  |                        | Project            |               | Completed | 07/01/2015             | 03/31/2018           | 07/01/2015 | 03/31/2018 | 03/31/2018          | DY3 Q4                                 |
| Task Providers receive incentive-based compensation consistent with DSRIP goals and objectives.  |                        | Project            |               | Completed | 07/01/2015             | 03/31/2018           | 07/01/2015 | 03/31/2018 | 03/31/2018          | DY3 Q4                                 |
| Task     Develop plan to evolve provider compensation model to incentive based compensation  |                        | Project            |               | Completed | 07/01/2015             | 03/31/2018           | 07/01/2015 | 03/31/2018 | 03/31/2018          | DY3 Q4                                 |
| Task 2. Ensure plan includes incentives based on DSRIP project goals and acheivements  |                        | Project            |               | Completed | 07/01/2015             | 03/31/2018           | 07/01/2015 | 03/31/2018 | 03/31/2018          | DY3 Q4                                 |
| Task 3. Implement compensation and performance management system utilizing PHM system to drive incentive/compensation reward for positive quality improvement and improved patient |                        | Project            |               | Completed | 07/01/2016             | 03/31/2018           | 07/01/2016 | 03/31/2018 | 03/31/2018          | DY3 Q4                                 |

Instructions :

Page 187 of 389 Run Date : 06/28/2019

**DSRIP Implementation Plan Project** 

**North Country Initiative (PPS ID:45)** 

Project 2.a.ii – Increase certification of primary care practitioners with PCMH certification and/or Advanced Primary Care Models (as developed under the NYS Health Innovation Plan (SHIP))

☑ IPQR Module 2.a.ii.1 - Major Risks to Implementation and Mitigation Strategies

#### Instructions:

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

- 1. Risk: Collecting participant level data from PPS partners
- Mitigation: a) Utilize centralized platform to help manage project planning, implementation, monitoring and reporting with real-time data b) A standardized process (reporting, timelines, rollout, etc.) will ensure appropriate individuals are aware of the deliverables to ensure we are meeting milestones in alignment with project speed.
- 2. Risk: Implementation of ICD-10 coding in October 2015 may temporarily shift provider priorities, as payments to providers hinges on accurate coding. Time and resources will need to be spent to train and prepare practices for this conversion, otherwise, practices could experience a potentially devastating loss of productivity and revenue- enough to jeopardize the financial stability of a practice. The primary changes in ICD-10 are related to organization and structure, code composition, and increased level of detail related to documentation. The time needed to provide the additional documentation support to support the patient's diagnosis could present challenges to IT and PCMH rollouts as well as Provider engagement and training especially in our already lean practices.
- Mitigation: a) Establish a group to assess and monitor ICD-10 provider readiness and its potential impact on the implementation of chosen projects
  - b) Develop contingency plan in the event that provider focus shifts to ICD-10 implementation
- 3. Risk: Primary Care Physician Shortages: Rural, Federally designated Health Professional Shortage Area (HPSA).
- Mitigation: a) Ensure providers are supported by staff to ensure their activities are value-added and not staff-level tasks that can be delegated
  - b) Ensure the EHRs are optimized to efficiently support clinical workflow
  - c) Leverage community assets to support the medical home model.
- 4. Risk: Disparate IT Systems and capability of EMRs across PPS and particular workstreams with no or little EMR capability (i.e. BH, CBOs, LTC)

  Mitigation: a) Comprehensive needs assessment
  - b) Staged plan for implementation encompassing largest volume Safety Net providers first
- 5. Risk: Shortage of NCQA PCMH Content experts to support the primary care practice transformations
- Mitigation: a) Comprehensive needs assessment
  - b) Staged plan for implementation encompassing largest volume Safety Net providers first

#### IPQR Module 2.a.ii.2 - Patient Engagement Speed

#### Instructions:

Enter the number of patients actively engaged through the current quarter. The number entered into the "Quarterly Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for Q4 should include patients previously reported in Q3 plus new patients engaged in Q4. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

| Benchmarks |                        |                        |  |  |  |  |
|------------|------------------------|------------------------|--|--|--|--|
|            | Actively Engaged Speed | Actively Engaged Scale |  |  |  |  |
|            | DY3,Q4                 | 12,985                 |  |  |  |  |

|              | Year,Quarter             | DY4,Q1 | DY4,Q2  | DY4,Q3 | DY4,Q4 |
|--------------|--------------------------|--------|---------|--------|--------|
|              | Baseline Commitment      | 3,250  | 6,493   | 9,750  | 12,985 |
| PPS Reported | Quarterly Update         | 0      | 7,236   | 0      | 12,670 |
|              | Percent(%) of Commitment | 0.00%  | 111.44% | 0.00%  | 97.57% |
| IA Approved  | Quarterly Update         | 0      | 7,236   | 0      | 12,668 |
|              | Percent(%) of Commitment | 0.00%  | 111.44% | 0.00%  | 97.56% |

Marning: PPS Reported - Please note that your patients engaged to date (12,670) does not meet your committed amount (12,985) for 'DY4,Q4'

| Task a. ii. Phase 2 PCPs complete   |                        | Project            |               | Completed | 07/01/2015             | 09/30/2017           | 07/01/2015 | 09/30/2017 | 09/30/2017          | DY3 Q2                                 |
| Task a.iii. Phase 3 PCPs complete   |                        | Project            |               | Completed | 07/01/2015             | 09/30/2017           | 07/01/2015 | 09/30/2017 | 09/30/2017          | DY3 Q2                                 |
| Task  1. Safety-Net providers will utilize current EHR reporting mechanisms to run at least annual reports of targeted populations needing care services.   |                        | Project            |               | Completed | 07/01/2015             | 03/31/2017           | 07/01/2015 | 03/31/2017 | 03/31/2017          | DY2 Q4                                 |
| Task  2. Safety-Net providers will utilize said reports to perform patient outreach via EHR reminders, letters, and patient portal messaging systems.   |                        | Project            |               | Completed | 07/01/2015             | 03/31/2017           | 07/01/2015 | 03/31/2017 | 03/31/2017          | DY2 Q4                                 |
| Milestone #7 Ensure that all staff are trained on PCMH or Advanced Primary Care models, including evidence-based preventive and chronic disease management.   | DY3 Q4                 | Project            | N/A           | Completed | 07/01/2015             | 06/30/2017           | 07/01/2015 | 06/30/2017 | 06/30/2017          | DY3 Q1                                 |
| Task Practice has adopted preventive and chronic care protocols aligned with national guidelines.   |                        | Project            |               | Completed | 07/01/2015             | 06/30/2017           | 07/01/2015 | 06/30/2017 | 06/30/2017          | DY3 Q1                                 |
| Task Project staff are trained on policies and procedures specific to evidence-based preventive and chronic disease management.   |                        | Project            |               | Completed | 03/31/2016             | 06/30/2017           | 03/31/2016 | 06/30/2017 | 06/30/2017          | DY3 Q1                                 |
| a. Each Primary Care Site within the PPS will complete NCQA standard 3E-Implementing Evidence-based guidelines for a mental health condition, a chronic medical condition, and acute condition, a condition related to unhealthy behavior, well child or adult care, and appropriateness use/Overuse and overuse issues |                        | Project            |               | Completed | 07/01/2015             | 06/30/2017           | 07/01/2015 | 06/30/2017 | 06/30/2017          | DY3 Q1                                 |
| Task a. i. Phase 1 PCPs complete  |                        | Project            |               | Completed | 07/01/2015             | 06/30/2017           | 07/01/2015 | 06/30/2017 | 06/30/2017          | DY3 Q1                                 |
| Task a.ii. Phase 2 PCPs complete  |                        | Project            |               | Completed | 07/01/2015             | 06/30/2017           | 07/01/2015 | 06/30/2017 | 06/30/2017          | DY3 Q1                                 |
| Task a.iii. Phase 3 PCPs complete   |                        | Project            |               | Completed | 07/01/2015             | 06/30/2017           | 07/01/2015 | 06/30/2017 | 06/30/2017          | DY3 Q1                                 |
| Task  1. All staff members in each role at the Primary Care practice will view the educational PCMH 2014 webinar prior to initial PCMH Baseline Assessment and will attest to said viewing.   |                        | Project            |               | Completed | 07/01/2015             | 09/30/2016           | 07/01/2015 | 09/30/2016 | 09/30/2016          | DY2 Q2                                 |

### **Prescribed Milestones Narrative Text**

| Milestone Name  | Narrative Text |
|---|----------------|
| Ensure that all eligible participating PCPs in the PPS meet NCQA 2014       |                |
| Level 3 PCMH accreditation and/or meet state-determined criteria for        |                |
| Advanced Primary Care Models by the end of DSRIP Year 3.                    |                |
| Identify a physician champion with knowledge of PCMH/APCM                   |                |
| implementation for each primary care practice included in the project.      |                |
| Identify care coordinators at each primary care site who are responsible    |                |
| for care connectivity, internally, as well as connectivity to care managers |                |
| at other primary care practices.  |                |
| Ensure all PPS safety net providers are actively sharing EHR systems        |                |
| with local health information exchange/RHIO/SHIN-NY and sharing health      |                |
| information among clinical partners, including direct exchange (secure      |                |
| messaging), alerts and patient record look up by the end of                 |                |
| Demonstration Year (DY) 3.  |                |
| Ensure that EHR systems used by participating safety net providers meet     |                |
| Meaningful Use and PCMH Level 3 standards and/or APCM by the end of         |                |
| Demonstration Year 3.   |                |
| Perform population health management by actively using EHRs and other       |                |
| IT platforms, including use of targeted patient registries, for all         |                |
| participating safety net providers.   |                |
| Ensure that all staff are trained on PCMH or Advanced Primary Care          |                |
| models, including evidence-based preventive and chronic disease             |                |
| management.   |                |
| Implement preventive care screening protocols including behavioral          |                |
| health screenings (PHQ-2 or 9 for those screening positive, SBIRT) for all  |                |
| patients to identify unmet needs. A process is developed for assuring       |                |
| referral to appropriate care in a timely manner.                            |                |

### Project 2.a.iv – Create a medical village using existing hospital infrastructure

IPQR Module 2.a.iv.1 - Major Risks to Implementation and Mitigation Strategies

#### Instructions:

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

1) Risk: NCI Service region is already operationally lean and geographically large with multiple Critical Access Hospitals. In the DSRIP application, it was noted that while the region needed the Medical Village capability of integrated services there was only an expected 6-8 bed reduction due to the lean environment. With the expected additional service utilization through engagement of additional UI, LU and NU and additional Primary Care/Prevention utilization it is possible that bed utilization could temporarily grow through new identified critical issues.

Mitigation: Continue to critically analyze data to ensure capacity is right-sized to meet need – thus reducing specific bed capacity in a very targeted manner while maintaining ability of the region to retain essential capacity to meet population need.

2) Risk: Financially fragile hospital partners will fail prior to ability to change operations through medical village

Mitigation: Support financially fragile partners to develop financial sustainability plans in concert with VAPAP

3) Risk: Medical villages will be developed and underutilized

Mitigation: Ensure that medical villages are supported by CNA and community to be served through data analysis and community forums

4) Risk: EHR and PCMH implementations within Medical Villages will not be complete/successful

Mitigation: Comprehensive assessment and gap analysis will ensure that a successful implementation plan is carried out so that all PCMH submissions by providers serving Medical Villages are successful

5) Risk: Telemedical solutions are not embraced by community and/or providers

Mitigation: Aggressive education of providers. Public education campaign to engage public. Inclusion of telemedicine discussion in public forums. Telemedical physician champions are identified within medical villages utilizing telemedicine.

### IPQR Module 2.a.iv.2 - Patient Engagement Speed

#### Instructions:

Enter the number of patients actively engaged through the current quarter. The number entered into the "Quarterly Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for Q4 should include patients previously reported in Q3 plus new patients engaged in Q4. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

| Benchmarks             |                        |  |  |  |  |
|------------------------|------------------------|--|--|--|--|
| Actively Engaged Speed | Actively Engaged Scale |  |  |  |  |
| DY3,Q4                 | 3,250                  |  |  |  |  |

|              | Year,Quarter             | DY4,Q1 | DY4,Q2  | DY4,Q3 | DY4,Q4  |
|--------------|--------------------------|--------|---------|--------|---------|

**IPQR Module 2.a.iv.3 - Prescribed Milestones** 

#### Instructions:

Please provide updates to baseline reporting on status, target dates, and work breakdown tasks for prescribed milestones. For milestones that are due and completed within the reporting period, documentation is required to provide evidence of project requirement achievement. Any explanations regarding altered or missed provider commitments should be included within the narrative box, not as text within uploaded documentation.

| Project Requirements<br>(Milestone/Task Name)   | Prescribed<br>Due Date | Reporting<br>Level | Provider Type | Status    | Original<br>Start Date | Original<br>End Date | Start Date | End Date   | Quarter<br>End Date | DSRIP Reporting Year and Quarter |
|---|------------------------|--------------------|---------------|-----------|------------------------|----------------------|------------|------------|---------------------|----------------------------------|
| Milestone #1 Convert outdated or unneeded hospital capacity into an outpatient services center, stand-alone emergency department/urgent care center or other healthcare-related purpose.  | DY4 Q2                 | Project            | N/A           | Completed | 07/01/2015             | 03/31/2018           | 07/01/2015 | 03/31/2018 | 03/31/2018          | DY3 Q4                           |
| Task A strategic plan is in place which includes, at a minimum: Definition of services to be provided in medical village and justification based on CNA Plan for transition of inpatient capacity Description of process to engage community stakeholders Description of any required capital improvements and physical location of the medical village Plan for marketing and promotion of the medical village and consumer education regarding access to medical village services |                        | Project            |               | Completed | 07/01/2015             | 03/31/2018           | 07/01/2015 | 03/31/2018 | 03/31/2018          | DY3 Q4                           |
| Task Project must reflect community involvement in the development and the specific activities that will be undertaken during the project term.   |                        | Project            |               | Completed | 07/01/2015             | 03/31/2018           | 07/01/2015 | 03/31/2018 | 03/31/2018          | DY3 Q4                           |
| Task  1. Perform a gap analysis to accurately determine current inpatient bed capacity / bed constraints across the PPS (determine optimal inpatient delivery model)  |                        | Project            |               | Completed | 07/01/2015             | 03/31/2016           | 07/01/2015 | 03/31/2016 | 03/31/2016          | DY1 Q4                           |
| Task 2. Establish a Service Utilization monitoring team made up of an assigned lead from each impacted hospital to provide oversight in measuring, evaluating, and recommending excess bed reductions to the NCI Governing Board. (determine the number beds that can be reduced vs. percent of staffed beds)   |                        | Project            |               | Completed | 07/01/2015             | 06/30/2016           | 07/01/2015 | 06/30/2016 | 06/30/2016          | DY2 Q1                           |
| Task 3. Each participating hospital facility will develop a strategic plan that outlines: medical village services, inpatient capacity transition plan, stakeholder engagement processes, capital improvement requirements, geographical location of medical  |                        | Project            |               | Completed | 07/01/2015             | 12/31/2016           | 07/01/2015 | 12/31/2016 | 12/31/2016          | DY2 Q3                           |

|---|------------------------|--------------------|---------------|-----------|------------------------|----------------------|------------|------------|---------------------|--|
| village, marketing and consumer education and community involvement.  |                        |                    |               |           |                        |                      |            |            |                     |  |
| Task  4. The NCI PPS collaboratively compiles a strategic plan that outlines: medical village services, inpatient capacity transition plan, stakeholder engagement processes, capital improvement requirements, geographical locations of medical villages, marketing and consumer education and community involvement. |                        | Project            |               | Completed | 07/01/2015             | 12/31/2016           | 07/01/2015 | 12/31/2016 | 12/31/2016          | DY2 Q3                                 |
| Task 5. Each plan will detail community involvement: requirements / roles and responsibilities that will be completed during the project lifecycle  |                        | Project            |               | Completed | 07/01/2015             | 12/31/2016           | 07/01/2015 | 12/31/2016 | 12/31/2016          | DY2 Q3                                 |
| Task 6. Approval of Individual Strategic Plans by individual hospital boards  |                        | Project            |               | Completed | 07/01/2015             | 09/30/2016           | 07/01/2015 | 09/30/2016 | 09/30/2016          | DY2 Q2                                 |
| Task 7. Approval of Individual Strategic Plans by NCI Governing Board   |                        | Project            |               | Completed | 07/01/2015             | 12/31/2016           | 07/01/2015 | 12/31/2016 | 12/31/2016          | DY2 Q3                                 |
| Task 8. Approval of NCI PPS collaborative Medical Village Strategic Plan by NCI Governing Board   |                        | Project            |               | Completed | 07/01/2015             | 12/31/2016           | 07/01/2015 | 12/31/2016 | 12/31/2016          | DY2 Q3                                 |
| Task  9. Implementation of Individual Plans at each facility progress via reports tracked bi-monthly for task completion and inclusion in NCI PPS Medical Village plan reporting including community involvement  |                        | Project            |               | Completed | 07/01/2015             | 03/31/2018           | 07/01/2015 | 03/31/2018 | 03/31/2018          | DY3 Q4                                 |
| Milestone #2 Provide a detailed timeline documenting the specifics of bed reduction and rationale. Specified bed reduction proposed in the project must include active or "staffed" beds.   | DY2 Q4                 | Project            | N/A           | Completed | 04/01/2015             | 03/31/2017           | 04/01/2015 | 03/31/2017 | 03/31/2017          | DY2 Q4                                 |
| Task PPS has bed reduction timeline and implementation plan in place with achievable targeted reduction in "staffed" beds.  |                        | Project            |               | Completed | 04/01/2015             | 03/31/2017           | 04/01/2015 | 03/31/2017 | 03/31/2017          | DY2 Q4                                 |
| Task 1. Develop a PPS master plan the specifies bed reductions, facilities affected, and rationale for bed reductions   |                        | Project            |               | Completed | 04/01/2015             | 12/31/2016           | 04/01/2015 | 12/31/2016 | 12/31/2016          | DY2 Q3                                 |
| Task  2. Utilize gap analysis to develop strategic timeline for bed reductions: focusing on low impact / low population facilities first  |                        | Project            |               | Completed | 04/01/2015             | 12/31/2016           | 04/01/2015 | 12/31/2016 | 12/31/2016          | DY2 Q3                                 |
| Task 3. Detail bed reduction transition timeline  |                        | Project            |               | Completed | 04/01/2015             | 12/31/2016           | 04/01/2015 | 12/31/2016 | 12/31/2016          |  |
| Task  |                        | Project            |               | Completed | 04/01/2015             | 03/31/2017           | 04/01/2015 | 03/31/2017 | 03/31/2017          | DY2 Q4                                 |

### **Prescribed Milestones Narrative Text**

| Milestone Name   | Narrative Text |
|--|----------------|
| Convert outdated or unneeded hospital capacity into an outpatient              |                |
| services center, stand-alone emergency department/urgent care center or        |                |
| other healthcare-related purpose.  |                |
| Provide a detailed timeline documenting the specifics of bed reduction         |                |
| and rationale. Specified bed reduction proposed in the project must            |                |
| include active or "staffed" beds.  |                |
| Ensure that all eligible participating PCPs meet NCQA 2014 Level 3             |                |
| PCMH accreditation and/or meet state-determined criteria for Advanced          |                |
| Primary Care Models by the end of DSRIP Year 3.                                |                |
| Ensure that all safety net providers participating in Medical Villages are     |                |
| actively sharing EHR systems with local health information                     |                |
| exchange/RHIO/SHIN-NY and sharing health information among clinical            |                |
| partners, including direct exchange (secure messaging), alerts and             |                |
| patient record look up.  |                |
| Use EHRs and other technical platforms to track all patients engaged in        |                |
| the project.   |                |
| Ensure that EHR systems used in Medical Villages meet Meaningful Use           |                |
| Stage 2  |                |
| Ensure that services which migrate to a different setting or location (clinic, |                |
| hospitals, etc.) are supported by the comprehensive community needs            |                |
| assessment.  |                |

Project 2.b.iv – Care transitions intervention model to reduce 30 day readmissions for chronic health conditions

IPQR Module 2.b.iv.1 - Major Risks to Implementation and Mitigation Strategies

#### Instructions:

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

1. Risk: Federal HPSA designation, thus resulting in barriers to access to care, the lack of an assigned provider, or the inability to receive a timely appointment

#### Mitigation:

- a) Grow primary care capacity through the workforce strategy
- b) Back up providers so clinicians can operate at the top of their license
- c) Integrate behavioral health and primary care
- d) Use telehealth (telemedicine and remote monitoring) to expand access to care and help patients feel connected to care
- 2. Risk: Median household income is at least \$10,000 less than the state average (14-18% below the poverty level) and on average, 10% are unemployed

#### Mitigation:

- a) Identify supportive services for patients prior to discharge (i.e. health home, community-based organizations) to help address the lack of housing, transportation, or the means to pay a co-pay
- 3. Risk: Health Literacy and Cultural Competency

#### Mitigation:

- a) Health literacy and cultural competency training for providers
- b) Incorporation of the teach-back method and motivational interviewing
- 4. Risk: Varied, or lack of standardized roles, responsibilities, protocols, policies and procedures related to care coordination/care transitions depending on the time, place or provider
- a) Development of clearly defined roles and responsibilities (i.e. care coordinator, care transition manager, community health worker, patient navigator, etc.)
- b) Development and adoption of standardized protocols, policies and procedures
- 5. Risk: Willingness of partners to adopt standardized protocols, policies and procedures Mitigation:
- a) Engage hospitals, behavioral health agencies, private practices, the health home, FQHC's, long-term care facilities, etc. in multi-level governance structure that not only facilitiates buy-in, but informs the process.
- 6. Risk: Lack of reimbursement/a payment strategy for the transition of care services Mitigation:
- a) Engage with Medicaid Managed Care plans to develop payment agreements

Page 214 of 389 Run Date: 06/28/2019

# **DSRIP Implementation Plan Project**

**North Country Initiative (PPS ID:45)** 

- b) Increase referrals and utilization of the Health Home
- 7. Risk: Systematic Record Transition Process
- a) Increase utilization of E-Discharge for long-term care providers
- b) Ensure medical record is updated in interoperable EHR or updated in primary care provider record

#### IPQR Module 2.b.iv.2 - Patient Engagement Speed

#### Instructions:

Enter the number of patients actively engaged through the current quarter. The number entered into the "Quarterly Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for Q4 should include patients previously reported in Q3 plus new patients engaged in Q4. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

| Benchmarks             |                        |
|------------------------|------------------------|
| Actively Engaged Speed | Actively Engaged Scale |
| DY3,Q4                 | 6,080                  |

|              | Year,Quarter             | DY4,Q1 | DY4,Q2 | DY4,Q3 | DY4,Q4 |
|--------------|--------------------------|--------|--------|--------|--------|
|              | Baseline Commitment      | 1,520  | 3,040  | 4,560  | 6,080  |
| PPS Reported | Quarterly Update         | 0      | 2,631  | 0      | 5,258  |
|              | Percent(%) of Commitment | 0.00%  | 86.55% | 0.00%  | 86.48% |
| IA Approved  | Quarterly Update         | 0      | 2,631  | 0      | 5,254  |
|              | Percent(%) of Commitment | 0.00%  | 86.55% | 0.00%  | 86.41% |

Warning: PPS Reported - Please note that your patients engaged to date (5,258) does not meet your committed amount (6,080) for 'DY4,Q4'

| Milestone #2 Engage with the Medicaid Managed Care Organizations and Health Homes to develop transition of care protocols that will ensure appropriate post-discharge protocols are followed.   | DY3 Q2                 | Project            | N/A           | Completed | 07/01/2015             | 06/30/2017           | 07/01/2015 | 06/30/2017 | 06/30/2017          | DY3 Q1                                 |
| Task A payment strategy for the transition of care services is developed in concert with Medicaid Managed Care Plans and Health Homes.  |                        | Project            |               | Completed | 07/01/2015             | 06/30/2017           | 07/01/2015 | 06/30/2017 | 06/30/2017          | DY3 Q1                                 |
| Task Coordination of care strategies focused on care transition are in place, in concert with Medicaid Managed Care groups and Health Homes.  |                        | Project            |               | Completed | 07/01/2015             | 06/30/2017           | 07/01/2015 | 06/30/2017 | 06/30/2017          | DY3 Q1                                 |
| Task PPS has protocol and process in place to identify Health-Home eligible patients and link them to services as required under ACA.   |                        | Project            |               | Completed | 07/01/2015             | 06/30/2017           | 07/01/2015 | 06/30/2017 | 06/30/2017          | DY3 Q1                                 |
| Task  1. Establish agreements with Managed Care Organizations and Health Homes related to coordination of services for high risk populations, including those with mental illness, cardiovascular disease, COPD, diabetes and substance abuse   |                        | Project            |               | Completed | 07/01/2015             | 06/30/2017           | 07/01/2015 | 06/30/2017 | 06/30/2017          | DY3 Q1                                 |
| Task 2.Ensure a payment strategy for the transition of care services is developed in concert with Medicaid Managed Care Plans and Health Homes.   |                        | Project            |               | Completed | 07/01/2015             | 06/30/2017           | 07/01/2015 | 06/30/2017 | 06/30/2017          | DY3 Q1                                 |
| Task 3. Coordinate care transition strategies including focused referrals and increased utilization of MCO and Health Home services   |                        | Project            |               | Completed | 07/01/2015             | 03/31/2017           | 07/01/2015 | 03/31/2017 | 03/31/2017          | DY2 Q4                                 |
| Task  4. Document methods and strategies including identification of responsible resources at each stage of the workflow including the identification of health concerns and social disparities before discharge, thus providing continuity of care to enable future early intervention |                        | Project            |               | Completed | 07/01/2015             | 12/31/2016           | 07/01/2015 | 12/31/2016 | 12/31/2016          | DY2 Q3                                 |
| Task 5. Conduct periodic assessments and produce updates that provide feedback mechanism and monitor progress   |                        | Project            |               | Completed | 07/01/2015             | 06/30/2017           | 07/01/2015 | 06/30/2017 | 06/30/2017          | DY3 Q1                                 |

|---|------------------------|--------------------|---------------|-----------|------------------------|----------------------|------------|------------|---------------------|--|
| Task 6. Secure evidence of agreements related to coordination of care transition strategies with Health Homes to ensure patients are identified in the acute care setting and referred to the Health Home based on the presence of one or more chronic condition or one single qualifying condition of either HIV/AIDS or Serious Mental Illness. |                        | Project            |               | Completed | 07/01/2015             | 12/31/2016           | 07/01/2015 | 12/31/2016 | 12/31/2016          | DY2 Q3                                 |
| Task 7.Ensure PPS Protocols and processes in place to identify Health Home eligible patients and link them to services as required under ACA, thus addressing both clinical and social determinants of health that are highly correlated with admissions or readmissions.   |                        | Project            |               | Completed | 07/01/2015             | 12/31/2016           | 07/01/2015 | 12/31/2016 | 12/31/2016          | DY2 Q3                                 |
| Task 8. Train staff on protocols/processes, and include written documentation of materials and sign in sheets   |                        | Project            |               | Completed | 07/01/2015             | 06/30/2017           | 07/01/2015 | 06/30/2017 | 06/30/2017          | DY3 Q1                                 |
| Milestone #3 Ensure required social services participate in the project.  | DY3 Q2                 | Project            | N/A           | Completed | 07/01/2015             | 06/30/2017           | 07/01/2015 | 06/30/2017 | 06/30/2017          | DY3 Q1                                 |
| Task Required network social services, including medically tailored home food services, are provided in care transitions.   |                        | Project            |               | Completed | 03/31/2016             | 03/31/2016           | 03/31/2016 | 03/31/2016 | 03/31/2016          | DY1 Q4                                 |
| Task 1. Increase awareness of and leverage social service agencies such as the two FQHCs, the St. Lawrence Psych Mobile Integration Team, the Health Home, the Children's Home Crisis Intervention Team, Social Services, the Volunteer Transportation Center and medically tailored home food services in the care transition process.           |                        | Project            |               | Completed | 07/01/2015             | 03/31/2016           | 07/01/2015 | 03/31/2016 | 03/31/2016          | DY1 Q4                                 |
| Task  2. Generate a list of support services that will help facilitate the transition of care from the hospital to home or community residence, and from the home to primary care, thus ensuring services are provided at the right time, in the right place and in the most cost effective way.  |                        | Project            |               | Completed | 07/01/2015             | 03/31/2016           | 07/01/2015 | 03/31/2016 | 03/31/2016          | DY1 Q4                                 |
| Task 3.Engage community supportive services through meeting participation, panel presentations, electronic distribution of materials, etc.  |                        | Project            |               | Completed | 07/01/2015             | 03/31/2016           | 07/01/2015 | 03/31/2016 | 03/31/2016          | DY1 Q4                                 |
| Task 4.Document process and workflow including responsible resources at each stage of the workflow to ensure to ensure that   |                        | Project            |               | Completed | 07/01/2015             | 12/31/2016           | 07/01/2015 | 12/31/2016 | 12/31/2016          | DY2 Q3                                 |

# Project 2.d.i – Implementation of Patient Activation Activities to Engage, Educate and Integrate the uninsured and low/non-utilizing Medicaid populations into Community Based Care

☑ IPQR Module 2.d.i.1 - Major Risks to Implementation and Mitigation Strategies

#### Instructions:

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

Risk: The current system is fragmented, severely impacting the lives of those with significant burden of disease. In addition to a lack of linkages between inpatient and outpatient services, there are also disconnects between CBOs and primary care (PC), between preventive services and PC, and between PC and mental health and alcohol and substance abuse.

Mitigation: The PPS anticipates that by developing an intregrated delivery system and by integrating behavioral health and primary care, the region will benefit from reduced system fragmentation.

Risk: Many individuals that are at high risk have families and caregivers that want to help, however, the system is so complex and disconnected that families cannot effectively navigate it.

Mitigation: Community Health Workers/Navigators will be trained and deployed in hot spots to ensure patient activation, education, and connectivity to resources.

Risk: The most significant immediate need when addressing preventive care for the Medicaid and UI population will be to grow the PC, dental and behavioral health licensed health professional workforce. The NCI region has been federally designated a low-income Medicaid Health Professional Shortage Area (HPSA) and we cannot connect people to PC that does not exist.

Mitigation: The NCI workforce strategy will recruit, train and incentivize PCPs to serve our region, specifically the Medicaid population.

Risk: 14% of our population lacks basic literacy skills. The regional illiteracy rates coupled with the fact that NCI residents are older and have lower income levels than NYS highlight the need to improve health literacy in our region, as low literacy is linked to poor health outcomes, higher rates of hospitalizations, and infrequent use of preventive services.

Mitigation: The NCI will formally train on the PAM and regularly update assessments of communities and individual patients to ensure we are engaging and providing quality healthcare to the population. We will also train providers located within hot spots on techniques such as shared decision making, measurements of health literacy, and cultural competency.

#### IPQR Module 2.d.i.2 - Patient Engagement Speed

#### Instructions:

Enter the number of patients actively engaged through the current quarter. The number entered into the "Quarterly Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for Q4 should include patients previously reported in Q3 plus new patients engaged in Q4. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

| Benchmarks             |                        |  |  |  |  |  |  |  |  |
|------------------------|------------------------|--|--|--|--|--|--|--|--|
| Actively Engaged Speed | Actively Engaged Scale |  |  |  |  |  |  |  |  |
| DY3,Q4 2,400           |                        |  |  |  |  |  |  |  |  |

|              | Year,Quarter             | DY4,Q1 | DY4,Q2 | DY4,Q3 | DY4,Q4 |
|--------------|--------------------------|--------|--------|--------|--------|
|              | Baseline Commitment      | 600    | 1,200  | 1,800  | 2,400  |
| PPS Reported | Quarterly Update         | 0      | 1,181  | 0      | 2,090  |
|              | Percent(%) of Commitment | 0.00%  | 98.42% | 0.00%  | 87.08% |
| IA Approved  | Quarterly Update         | 0      | 1,131  | 0      | 2,035  |
| IA Approved  | Percent(%) of Commitment | 0.00%  | 94.25% | 0.00%  | 84.79% |

Marning: PPS Reported - Please note that your patients engaged to date (2,090) does not meet your committed amount (2,400) for 'DY4,Q4'

#### **DSRIP Implementation Plan Project**

**North Country Initiative (PPS ID:45)** 

**IPQR Module 2.d.i.3 - Prescribed Milestones** 

#### Instructions:

Please provide updates to baseline reporting on status, target dates, and work breakdown tasks for prescribed milestones. For milestones that are due and completed within the reporting period, documentation is required to provide evidence of project requirement achievement. Any explanations regarding altered or missed provider commitments should be included within the narrative box, not as text within uploaded documentation.

| Project Requirements<br>(Milestone/Task Name)  | Prescribed<br>Due Date | Reporting<br>Level | Provider Type | Status    | Original<br>Start Date | Original<br>End Date | Start Date | End Date   | Quarter<br>End Date | DSRIP Reporting Year and Quarter |
|--|------------------------|--------------------|---------------|-----------|------------------------|----------------------|------------|------------|---------------------|----------------------------------|
| Milestone #1 Contract or partner with community-based organizations (CBOs) to engage target populations using PAM(R) and other patient activation techniques. The PPS must provide oversight and ensure that engagement is sufficient and appropriate. | DY3 Q4                 | Project            | N/A           | Completed | 07/01/2015             | 12/31/2017           | 07/01/2015 | 12/31/2017 | 12/31/2017          | DY3 Q3                           |
| Task Partnerships with CBOs to assist in patient "hot-spotting" and engagement efforts as evidenced by MOUs, contracts, letters of agreement or other partnership documentation.   |                        | Project            |               | Completed | 07/01/2015             | 12/31/2017           | 07/01/2015 | 12/31/2017 | 12/31/2017          | DY3 Q3                           |
| Task 1. Identify CBO's in PPS's geographical area that can engage target populations.  |                        | Project            |               | Completed | 07/01/2015             | 09/30/2015           | 07/01/2015 | 09/30/2015 | 09/30/2015          | DY1 Q2                           |
| Task 2. Establish linkages with CBO's in the PPS's geographical targeted population areas  |                        | Project            |               | Completed | 07/01/2015             | 09/30/2015           | 07/01/2015 | 09/30/2015 | 09/30/2015          | DY1 Q2                           |
| Task 3. Develop engagement plan that outlines numbers of CBO's required, service requirements and alignment of CBO 's specific roles and responsibilities in achieving DSRIP deliverables pertaining to PAM  |                        | Project            |               | Completed | 07/01/2015             | 03/31/2016           | 07/01/2015 | 03/31/2016 | 03/31/2016          | DY1 Q4                           |
| Task 4. Partner with and contract CBO's to target population through PAM utilization.  |                        | Project            |               | Completed | 07/01/2015             | 06/30/2016           | 07/01/2015 | 06/30/2016 | 06/30/2016          | DY2 Q1                           |
| Task 5. Implement and utilize communications engagement plan to: inform, improve, sustain two-way communications.  |                        | Project            |               | Completed | 07/01/2015             | 12/31/2017           | 07/01/2015 | 12/31/2017 | 12/31/2017          | DY3 Q3                           |
| Task 6. NCI provides oversight and ensures sufficient engagement, quality measures and quarterly reporting.  |                        | Project            |               | Completed | 07/01/2015             | 12/31/2017           | 07/01/2015 | 12/31/2017 | 12/31/2017          | DY3 Q3                           |
| Milestone #2 Establish a PPS-wide training team, comprised of members with training in PAM(R) and expertise in patient activation and engagement.  | DY2 Q4                 | Project            | N/A           | Completed | 04/01/2015             | 03/31/2017           | 04/01/2015 | 03/31/2017 | 03/31/2017          | DY2 Q4                           |
| Task   |                        | Project            |               | Completed | 04/01/2015             | 12/31/2016           | 04/01/2015 | 12/31/2016 | 12/31/2016          | DY2 Q3                           |

#### **DSRIP Implementation Plan Project**

| Project Requirements<br>(Milestone/Task Name)   | Prescribed<br>Due Date | Reporting<br>Level | Provider Type | Status    | Original<br>Start Date | Original<br>End Date | Start Date | End Date   | Quarter<br>End Date | DSRIP<br>Reporting Year<br>and Quarter |
|---|------------------------|--------------------|---------------|-----------|------------------------|----------------------|------------|------------|---------------------|--|
| Patient Activation Measure(R) (PAM(R)) training team established.   |                        |                    |               |           |                        |                      |            |            |                     |  |
| Task  1. Determine ideal agencies and stakeholders to serve as PPS-wide PAM coaches   |                        | Project            |               | Completed | 04/01/2015             | 03/31/2016           | 04/01/2015 | 03/31/2016 | 03/31/2016          | DY1 Q4                                 |
| Task  2. Identify and train one master PAM coach for the entire PPS   |                        | Project            |               | Completed | 04/01/2015             | 06/30/2016           | 04/01/2015 | 06/30/2016 | 06/30/2016          | DY2 Q1                                 |
| Task 3. Train PPS-wide training team (PAM coaches) via Insignia Train-the-Trainer sessions  |                        | Project            |               | Completed | 04/01/2015             | 06/30/2016           | 04/01/2015 | 06/30/2016 | 06/30/2016          | DY2 Q1                                 |
| Task 4. Document names, roles, agencies, and location of PAM coaches  |                        | Project            |               | Completed | 04/01/2015             | 12/31/2016           | 04/01/2015 | 12/31/2016 | 12/31/2016          | DY2 Q3                                 |
| Task 5. Archive copies of training materials, sign-in sheets and other documentation  |                        | Project            |               | Completed | 04/01/2015             | 03/31/2017           | 04/01/2015 | 03/31/2017 | 03/31/2017          | DY2 Q4                                 |
| Milestone #3 Identify UI, NU, and LU "hot spot" areas (e.g., emergency rooms). Contract or partner with CBOs to perform outreach within the identified "hot spot" areas.              | DY2 Q4                 | Project            | N/A           | Completed | 04/01/2015             | 03/31/2017           | 04/01/2015 | 03/31/2017 | 03/31/2017          | DY2 Q4                                 |
| Task Analysis to identify "hot spot" areas completed and CBOs performing outreach engaged.  |                        | Project            |               | Completed | 04/01/2015             | 03/31/2017           | 04/01/2015 | 03/31/2017 | 03/31/2017          | DY2 Q4                                 |
| Task  1. Using PQI, Census and other DSRIP health data at the zip code level, identify "hot spot" areas and develop a map delineating regions with large populations of UI, NU and LU |                        | Project            |               | Completed | 04/01/2015             | 12/31/2016           | 04/01/2015 | 12/31/2016 | 12/31/2016          | DY2 Q3                                 |
| Task  2. Work with CBOs to develop outreach lists for UI, NU, LU populations and identify outreach strategy in "hot spots"  |                        | Project            |               | Completed | 04/01/2015             | 03/31/2017           | 04/01/2015 | 03/31/2017 | 03/31/2017          | DY2 Q4                                 |
| Milestone #4 Survey the targeted population about healthcare needs in the PPS' region.  | DY2 Q4                 | Project            | N/A           | Completed | 04/01/2015             | 03/31/2017           | 04/01/2015 | 03/31/2017 | 03/31/2017          | DY2 Q4                                 |
| Task Community engagement forums and other information-gathering mechanisms established and performed.  |                        | Project            |               | Completed | 04/01/2015             | 03/31/2017           | 04/01/2015 | 03/31/2017 | 03/31/2017          | DY2 Q4                                 |
| Task  a. Develop data collection instrument to gather feedback on healthcare needs in the region  |                        | Project            |               | Completed | 04/01/2015             | 03/31/2017           | 04/01/2015 | 03/31/2017 | 03/31/2017          | DY2 Q4                                 |
| Task b. Organize community forums to gather information from  |                        | Project            |               | Completed | 04/01/2015             | 03/31/2017           | 04/01/2015 | 03/31/2017 | 03/31/2017          | DY2 Q4                                 |

| Milestone #5 Train providers located within "hot spots" on patient activation techniques, such as shared decision-making, measurements of  | DY3 Q4     | Project   | N/A            | Completed | 07/01/2015 | 06/30/2017 | 07/01/2015 | 06/30/2017 | 06/30/2017 | DY3 Q1                  |
| health literacy, and cultural competency.  |            |           |                |           |            |            |            |            |            |                         |
| Task PPS Providers (located in "hot spot" areas) trained in patient activation techniques by "PAM(R) trainers".  |            | Project   |                | Completed | 07/01/2015 | 06/30/2017 | 07/01/2015 | 06/30/2017 | 06/30/2017 | DY3 Q1                  |
| Task a. Identify providers in "hot spot" areas   |            | Project   |                | Completed | 07/01/2015 | 03/31/2017 | 07/01/2015 | 03/31/2017 | 03/31/2017 | DY2 Q4                  |
| b. Deploy training team to conduct PAM training with PPS providers in "hot spot" areas   |            | Project   |                | Completed | 07/01/2015 | 06/30/2017 | 07/01/2015 | 06/30/2017 | 06/30/2017 | DY3 Q1                  |
| Milestone #6 Obtain list of PCPs assigned to NU and LU enrollees from MCOs. Along with the member's MCO and assigned PCP, reconnect beneficiaries to his/her designated PCP (see outcome measurements in #10).  • This patient activation project should not be used as a mechanism to inappropriately move members to different health plans and PCPs, but rather, shall focus on establishing connectivity to resources already available to the member.  • Work with respective MCOs and PCPs to ensure proactive outreach to beneficiaries. Sufficient information must be provided regarding insurance coverage, language resources, and availability of primary and preventive care services. The state must review and approve any educational materials, which must comply with state marketing guidelines and federal regulations as outlined in 42 CFR §438.104. | DY2 Q4     | Project   | N/A            | Completed | 04/01/2015 | 03/31/2017 | 04/01/2015 | 03/31/2017 | 03/31/2017 | DY2 Q4                  |
| Task Procedures and protocols established to allow the PPS to work with the member's MCO and assigned PCP to help reconnect that beneficiary to his/her designated PCP.  |            | Project   |                | Completed | 04/01/2015 | 03/31/2017 | 04/01/2015 | 03/31/2017 | 03/31/2017 | DY2 Q4                  |
| Task a. Obtain lists of PCPs assigned to NU and LU enrollees from Managed Care Organizations   |            | Project   |                | Completed | 04/01/2015 | 03/31/2017 | 04/01/2015 | 03/31/2017 | 03/31/2017 | DY2 Q4                  |
| Task b. Work with MCOs, PCPs and Community Health Workers to reconnect beneficiaries to designated PCPs  |            | Project   |                | Completed | 04/01/2015 | 03/31/2017 | 04/01/2015 | 03/31/2017 | 03/31/2017 | DY2 Q4                  |
| Milestone #7 Baseline each beneficiary cohort (per method developed by   | DY3 Q4     | Project   | N/A            | Completed | 07/01/2015 | 12/31/2017 | 07/01/2015 | 12/31/2017 | 12/31/2017 | DY3 Q3                  |

|--|------------------------|--------------------|---------------|-----------|------------------------|----------------------|------------|------------|---------------------|--|
| state) to appropriately identify cohorts using PAM(R) during the first year of the project and again, at set intervals. Baselines, as well as intervals towards improvement, must be set for each cohort at the beginning of each performance period.  |                        |                    |               |           |                        |                      |            |            |                     |  |
| Task For each PAM(R) activation level, baseline and set intervals toward improvement determined at the beginning of each performance period (defined by the state).  |                        | Project            |               | Completed | 07/01/2015             | 12/31/2017           | 07/01/2015 | 12/31/2017 | 12/31/2017          | DY3 Q3                                 |
| Task a. Develop timeline for PAM assessments (baseline, periodic, annual)  |                        | Project            |               | Completed | 07/01/2015             | 12/31/2015           | 07/01/2015 | 12/31/2015 | 12/31/2015          | DY1 Q3                                 |
| Task b. Work with CBOs to conduct baseline and periodic PAM assessment for each cohort of beneficiaries  |                        | Project            |               | Completed | 07/01/2015             | 12/31/2017           | 07/01/2015 | 12/31/2017 | 12/31/2017          | DY3 Q3                                 |
| Task c. Analyze data to create a baseline measure for each year's cohort   |                        | Project            |               | Completed | 07/01/2015             | 12/31/2017           | 07/01/2015 | 12/31/2017 | 12/31/2017          | DY3 Q3                                 |
| Task d. Use Flourish portal to assess project implementation and outreach  |                        | Project            |               | Completed | 07/01/2015             | 12/31/2017           | 07/01/2015 | 12/31/2017 | 12/31/2017          | DY3 Q3                                 |
| Milestone #8 Include beneficiaries in development team to promote preventive care.   | DY2 Q4                 | Project            | N/A           | Completed | 04/01/2015             | 03/31/2017           | 04/01/2015 | 03/31/2017 | 03/31/2017          | DY2 Q4                                 |
| Task Beneficiaries are utilized as a resource in program development and awareness efforts of preventive care services.  |                        | Project            |               | Completed | 04/01/2015             | 03/31/2017           | 04/01/2015 | 03/31/2017 | 03/31/2017          | DY2 Q4                                 |
| Task a. Identify patient members to partcipate in program development and awareness efforts  |                        | Project            |               | Completed | 04/01/2015             | 03/31/2016           | 04/01/2015 | 03/31/2016 | 03/31/2016          | DY1 Q4                                 |
| Task b. Recruit patient members to development team  |                        | Project            |               | Completed | 04/01/2015             | 06/30/2016           | 04/01/2015 | 06/30/2016 | 06/30/2016          | DY2 Q1                                 |
| Task c. Establish meeting logistics and goals  |                        | Project            |               | Completed | 04/01/2015             | 06/30/2016           | 04/01/2015 | 06/30/2016 | 06/30/2016          | DY2 Q1                                 |
| Milestone #9 Measure PAM(R) components, including:  Screen patient status (UI, NU and LU) and collect contact information when he/she visits the PPS designated facility or "hot spot" area for health service.  If the beneficiary is UI, does not have a registered PCP, or is attributed to a PCP in the PPS' network, assess patient using PAM(R) survey and designate a PAM(R) score. | DY3 Q4                 | Project            | N/A           | Completed | 07/01/2015             | 03/31/2018           | 07/01/2015 | 03/31/2018 | 03/31/2018          | DY3 Q4                                 |

#### **Prescribed Milestones Narrative Text**

| Milestone Name   | Narrative Text |
|--|----------------|
| Contract or partner with community-based organizations (CBOs) to             |                |
| engage target populations using PAM(R) and other patient activation          |                |
| techniques. The PPS must provide oversight and ensure that                   |                |
| engagement is sufficient and appropriate.                                    |                |
| Establish a PPS-wide training team, comprised of members with training       |                |
| in PAM(R) and expertise in patient activation and engagement.                |                |
| Identify UI, NU, and LU "hot spot" areas (e.g., emergency rooms).            |                |
| Contract or partner with CBOs to perform outreach within the identified      |                |
| "hot spot" areas.  |                |
| Survey the targeted population about healthcare needs in the PPS'            |                |
| region.  |                |
| Train providers located within "hot spots" on patient activation techniques, |                |
| such as shared decision-making, measurements of health literacy, and         |                |
| cultural competency.   |                |
| Obtain list of PCPs assigned to NU and LU enrollees from MCOs. Along         |                |
| with the member's MCO and assigned PCP, reconnect beneficiaries to           |                |
| his/her designated PCP (see outcome measurements in #10).                    |                |
| This patient activation project should not be used as a mechanism to         |                |
| inappropriately move members to different health plans and PCPs, but         |                |
| rather, shall focus on establishing connectivity to resources already        |                |
| available to the member.   |                |

**DSRIP Implementation Plan Project** 

**North Country Initiative (PPS ID:45)** 

#### **Prescribed Milestones Narrative Text**

| Milestone Name  | Narrative Text |
|---|----------------|
| Work with respective MCOs and PCPs to ensure proactive outreach to                    |                |
| beneficiaries. Sufficient information must be provided regarding                      |                |
| insurance coverage, language resources, and availability of primary and               |                |
| preventive care services. The state must review and approve any                       |                |
| educational materials, which must comply with state marketing guidelines              |                |
| and federal regulations as outlined in 42 CFR §438.104.                               |                |
| Baseline each beneficiary cohort (per method developed by state) to                   |                |
| appropriately identify cohorts using PAM(R) during the first year of the              |                |
| project and again, at set intervals. Baselines, as well as intervals towards          |                |
| improvement, must be set for each cohort at the beginning of each performance period. |                |
| Include beneficiaries in development team to promote preventive care.                 |                |
|   |                |
| Measure PAM(R) components, including:   |                |
| Screen patient status (UI, NU and LU) and collect contact information                 |                |
| when he/she visits the PPS designated facility or "hot spot" area for health service. |                |
| If the beneficiary is UI, does not have a registered PCP, or is attributed            |                |
| to a PCP in the PPS' network, assess patient using PAM(R) survey and                  |                |
| designate a PAM(R) score.   |                |
| Individual member's score must be averaged to calculate a baseline                    |                |
| measure for that year's cohort.   |                |
| The cohort must be followed for the entirety of the DSRIP program.                    |                |
| On an annual basis, assess individual members' and each cohort's level                |                |
| of engagement, with the goal of moving beneficiaries to a higher level of             |                |
| activation. • If the beneficiary is deemed to be LU & NU but has a                    |                |
| designated PCP who is not part of the PPS' network, counsel the                       |                |
| beneficiary on better utilizing his/her existing healthcare benefits, while           |                |
| also encouraging the beneficiary to reconnect with his/her designated PCP.            |                |
| The PPS will NOT be responsible for assessing the patient via PAM(R)                  |                |
| survey.   |                |
| PPS will be responsible for providing the most current contact                        |                |
| information to the beneficiary's MCO for outreach purposes.                           |                |
| Provide member engagement lists to relevant insurance companies (for                  |                |
| NU & LU populations) on a monthly basis, as well as to DOH on a                       |                |
| quarterly basis.  |                |

#### **Prescribed Milestones Narrative Text**

| Milestone Name  | Narrative Text |
|---|----------------|
| Contract or partner with CBOs to develop a group of community             |                |
| navigators who are trained in connectivity to healthcare coverage,        |                |
| community healthcare resources (including for primary and preventive      |                |
| services) and patient education.  |                |
| Develop a process for Medicaid recipients and project participants to     |                |
| report complaints and receive customer service.                           |                |
| Train community navigators in patient activation and education, including |                |
| how to appropriately assist project beneficiaries using the PAM(R).       |                |
| Ensure direct hand-offs to navigators who are prominently placed at "hot  |                |
| spots," partnered CBOs, emergency departments, or community events,       |                |
| so as to facilitate education regarding health insurance coverage, age-   |                |
| appropriate primary and preventive healthcare services and resources.     |                |
| Inform and educate navigators about insurance options and healthcare      |                |
| resources available to UI, NU, and LU populations.                        |                |
| Ensure appropriate and timely access for navigators when attempting to    |                |
| establish primary and preventive services for a community member.         |                |
| Perform population health management by actively using EHRs and other     |                |
| IT platforms, including use of targeted patient registries, to track all  |                |
| patients engaged in the project.  |                |

#### Project 3.a.i – Integration of primary care and behavioral health services

IPQR Module 3.a.i.1 - Major Risks to Implementation and Mitigation Strategies

#### Instructions:

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

"Risk 1: Disconnect between behavioral health, primary care and social support services (training, referrals and access to care) Mitigation:

- a) NCI's workforce strategy will grow primary care and behavioral health capacity and back up providers so they can operate at the top of their license
- b) Team-base model utilized for PCMH aligns providers
- c) Utilize EHRs, the HIE and the RHIO to ensure secure, systematic record transfer
- d) Increase referrals and utilization of the health home and enhance coordination with community-based organizations to help address the medical or social barriers that often time results in preventable ED visits
- e) Train primary care providers to use evidence-based practices in screening (i.e. SBIRT and PHQ-9) for and treating depression, anxiety or other conditions that can be effectively managed in primary care settings

Risk 2: Behavioral health patients have high rates of co-occurring diabetes, cardiac and respiratory diseases Mitigation:

- a) Develop and implement standardized protocols
- b) Identify the appropriate supportive services for the patient prior to discharge
- c) Incorporate health literacy, cultural competency, motivational interviewing and the teach back method to activate self-care/management
- d) Expand the use of tele-health remote monitoring to help patients feel connected to care

Risk 3: Capital Costs - if capital grants are not awarded, the medical village co-location and FQHC/Primary Care clinic colocation project will be significantly impacted

Mitigation:

a) Seek alternative funding sources other options such as Impact Model expansion vs colocation

Risk 4: Regulatory barriers regarding co-location and patient transfers

Mitigation:

a) Waiver requested - awaiting approval"

#### IPQR Module 3.a.i.2 - Patient Engagement Speed

#### Instructions:

Enter the number of patients actively engaged through the current quarter. The number entered into the "Quarterly Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for Q4 should include patients previously reported in Q3 plus new patients engaged in Q4. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

| d. Implement the PCMH processes, procedures,   |                        |                       |                    |               |           |                        |                      |            |            |                     |   |
| protocols and written policies.  |                        |                       |                    |               |           |                        |                      |            |            |                     |   |
| Task e. Complete the NCQA Level 3 PCMH submissions   |                        |                       | Project            |               | Completed | 04/01/2015             | 03/31/2018           | 04/01/2015 | 03/31/2018 | 03/31/2018          | DY3 Q4                                    |
| Task f. All practices meet NCQA 2014 Level 3 PCMH and/or APCM standards. Receive the NCQA Level 3 PCMH Recognition Certificates  |                        |                       | Project            |               | Completed | 04/01/2015             | 03/31/2018           | 04/01/2015 | 03/31/2018 | 03/31/2018          | DY3 Q4                                    |
| Task  2. Working with the NCI 2aii project team, provide list of participating NCQA-certified and/or physicians/practitioners along with their certification documentation   |                        |                       | Project            |               | Completed | 04/01/2015             | 03/31/2018           | 04/01/2015 | 03/31/2018 | 03/31/2018          | DY3 Q4                                    |
| Task 3. Working with the NCI 2aii project team, provide list of practitioners and licensure performing services at PCMH and/APCM sites including behavioral health practice schedules  |                        |                       | Project            |               | Completed | 04/01/2015             | 03/31/2018           | 04/01/2015 | 03/31/2018 | 03/31/2018          | DY3 Q4                                    |
| Milestone #2 Develop collaborative evidence-based standards of care including medication management and care engagement process.   | DY2 Q4                 | Model 1               | Project            | N/A           | Completed | 04/01/2015             | 03/31/2017           | 04/01/2015 | 03/31/2017 | 03/31/2017          | DY2 Q4                                    |
| Task Regularly scheduled formal meetings are held to develop collaborative care practices.   |                        |                       | Project            |               | Completed | 04/01/2015             | 12/31/2016           | 04/01/2015 | 12/31/2016 | 12/31/2016          | DY2 Q3                                    |
| Task Coordinated evidence-based care protocols are in place, including medication management and care engagement processes.  |                        |                       | Project            |               | Completed | 04/01/2015             | 12/31/2016           | 04/01/2015 | 12/31/2016 | 12/31/2016          | DY2 Q3                                    |
| Task  1.Collaborate with NCI Behavioral Health Committee, 2aii project team, Medical Management Committee and participating providers to develop strategies for project milestones   |                        |                       | Project            |               | Completed | 04/01/2015             | 09/30/2016           | 04/01/2015 | 09/30/2016 | 09/30/2016          | DY2 Q2                                    |
| Task  2. Working in collaboration with the NCI Medical Management and Care Coordination Committees, evaluate existing evidence-based standards of care including medication management and care management processes to determine NCI strategies |                        |                       | Project            |               | Completed | 04/01/2015             | 12/31/2016           | 04/01/2015 | 12/31/2016 | 12/31/2016          | DY2 Q3                                    |

#### **DSRIP Implementation Plan Project**

| Project Requirements<br>(Milestone/Task Name)   | Prescribed<br>Due Date | Project<br>Model Name | Reporting<br>Level | Provider Type                              | Status    | Original<br>Start Date | Original<br>End Date | Start Date | End Date   | Quarter<br>End Date | DSRIP<br>Reporting<br>Year and<br>Quarter |
|---|------------------------|-----------------------|--------------------|--|-----------|------------------------|----------------------|------------|------------|---------------------|---|
| Task 3. Provide meeting schedules, agendas, minutes and list of attendees   |                        |                       | Project            |  | Completed | 04/01/2015             | 03/31/2017           | 04/01/2015 | 03/31/2017 | 03/31/2017          | DY2 Q4                                    |
| Task  4. Provide evidence-based practice guidelines as well as policies and procedures related to care protocols (as recommended by NCI's Care Coordination Committee), including medication management and care engagement processes |                        |                       | Project            |  | Completed | 04/01/2015             | 03/31/2017           | 04/01/2015 | 03/31/2017 | 03/31/2017          | DY2 Q4                                    |
| Milestone #3 Conduct preventive care screenings, including behavioral health screenings (PHQ-2 or 9 for those screening positive, SBIRT) implemented for all patients to identify unmet needs.  | DY3 Q4                 | Model 1               | Project            | N/A  | Completed | 07/01/2015             | 03/31/2018           | 07/01/2015 | 03/31/2018 | 03/31/2018          | DY3 Q4                                    |
| Task Policies and procedures are in place to facilitate and document completion of screenings.  |                        |                       | Project            |  | Completed | 07/01/2015             | 03/31/2018           | 07/01/2015 | 03/31/2018 | 03/31/2018          | DY3 Q4                                    |
| Task Screenings are documented in Electronic Health Record.   |                        |                       | Project            |  | Completed | 07/01/2015             | 03/31/2018           | 07/01/2015 | 03/31/2018 | 03/31/2018          | DY3 Q4                                    |
| Task At least 90% of patients receive screenings at the established project sites (Screenings are defined as industry standard questionnaires such as PHQ-2 or 9 for those screening positive, SBIRT).                                |                        |                       | Project            |  | Completed | 07/01/2015             | 03/31/2018           | 07/01/2015 | 03/31/2018 | 03/31/2018          | DY3 Q4                                    |
| Task Positive screenings result in "warm transfer" to behavioral health provider as measured by documentation in Electronic Health Record.  |                        |                       | Provider           | Practitioner - Primary Care Provider (PCP) | Completed | 03/31/2016             | 03/31/2018           | 03/31/2016 | 03/31/2018 | 03/31/2018          | DY3 Q4                                    |
| Providers Associated with Completion:  Agustin Honeylee Duque   |                        |                       |                    |  |           |                        |                      |            |            |                     |   |
| Task Ensure NCI project workforce is trained to conduct preventive care screenings such as the PHQ2 or 9 and the SBIRT  |                        |                       | Project            |  | Completed | 07/01/2015             | 03/31/2017           | 07/01/2015 | 03/31/2017 | 03/31/2017          | DY2 Q4                                    |
| Task Develop strategy for preventive care screenings for all patients including behavioral health screenings (PHQ2 or 9 for those screening positive, SBIRT)  |                        |                       | Project            |  | Completed | 07/01/2015             | 03/31/2017           | 07/01/2015 | 03/31/2017 | 03/31/2017          | DY2 Q4                                    |

| Task  1. All participating Primary care practices achieved NCQA 2014 Level 3 PCMH or Advanced Primary Care Model Practices by the end of DY3. |                        |                       | Project            |                | Completed | 07/01/2015             | 03/31/2018           | 07/01/2015 | 03/31/2018 | 03/31/2018          | DY3 Q4                                    |
| Task 1.a. All practices meet NCQA 2014 Level 3 PCMH and/or APCM standards.  |                        |                       | Project            |                | Completed | 07/01/2015             | 03/31/2018           | 07/01/2015 | 03/31/2018 | 03/31/2018          | DY3 Q4                                    |
| Task 1ai. Assess all participating PCPs to determine their preparedness for NCQA 2014 Level 3 PCMH.   |                        |                       | Project            |                | Completed | 07/01/2015             | 03/31/2016           | 07/01/2015 | 03/31/2016 | 03/31/2016          | DY1 Q4                                    |
| Task  1aii. Preform a gap analysis on the results to determine the scope of work/needed assistance for each PCP.                              |                        |                       | Project            |                | Completed | 07/01/2015             | 03/31/2016           | 07/01/2015 | 03/31/2016 | 03/31/2016          | DY1 Q4                                    |
| Task 1aiii. Create a project plan/timeline for each PCP   |                        |                       | Project            |                | Completed | 07/01/2015             | 03/31/2016           | 07/01/2015 | 03/31/2016 | 03/31/2016          | DY1 Q4                                    |
| Task 1aiv. Implement the PCMH processes, procedures, protocols and written policies   |                        |                       | Project            |                | Completed | 07/01/2015             | 09/30/2017           | 07/01/2015 | 09/30/2017 | 09/30/2017          | DY3 Q2                                    |
| Task 1av. Complete the NCQA Level 3 PCMH submissions  |                        |                       | Project            |                | Completed | 07/01/2015             | 03/31/2018           | 07/01/2015 | 03/31/2018 | 03/31/2018          | DY3 Q4                                    |
| Task 1avi. All practices meet NCQA 2014 Level 3 PCMH and/or APCM standards. Receive the NCQA Level 3 PCMH Recognition Certificates            |                        |                       | Project            |                | Completed | 07/01/2015             | 03/31/2018           | 07/01/2015 | 03/31/2018 | 03/31/2018          | DY3 Q4                                    |
| Task  2. Working with the NCI 2aii project team, provide list of participating NCQA-certified and/or APC-approved physicians/practitioners    |                        |                       | Project            |                | Completed | 07/01/2015             | 03/31/2018           | 07/01/2015 | 03/31/2018 | 03/31/2018          | DY3 Q4                                    |

|---|------------------------|-----------------------|--------------------|---------------|-----------|------------------------|----------------------|------------|------------|---------------------|---|
| including certification documentation   |                        |                       |                    |               |           |                        |                      |            |            |                     |   |
| Task  3. Working with NCI 2aii project team, provide list of practitioners and licensure performing services at behavioral health site including behavioral health practice schedules   |                        |                       | Project            |               | Completed | 07/01/2015             | 03/31/2018           | 07/01/2015 | 03/31/2018 | 03/31/2018          | DY3 Q4                                    |
| Task  4. Complete site and facility development at Behavioral Health site to accommodate Primary Care   |                        |                       | Project            |               | Completed | 07/01/2015             | 03/31/2018           | 07/01/2015 | 03/31/2018 | 03/31/2018          | DY3 Q4                                    |
| Task 4a. Ensure regulatory issues are identified and addressed  |                        |                       | Project            |               | Completed | 07/01/2015             | 03/31/2017           | 07/01/2015 | 03/31/2017 | 03/31/2017          | DY2 Q4                                    |
| Task 4b. Ensure physical plant issues identified and addressed  |                        |                       | Project            |               | Completed | 07/01/2015             | 03/31/2018           | 07/01/2015 | 03/31/2018 | 03/31/2018          | DY3 Q4                                    |
| Milestone #6  Develop collaborative evidence-based standards of care including medication management and care engagement process.   | DY2 Q4                 | Model 2               | Project            | N/A           | Completed | 04/01/2015             | 03/31/2017           | 04/01/2015 | 03/31/2017 | 03/31/2017          | DY2 Q4                                    |
| Task Regularly scheduled formal meetings are held to develop collaborative care practices.  |                        |                       | Project            |               | Completed | 04/01/2015             | 12/31/2016           | 04/01/2015 | 12/31/2016 | 12/31/2016          | DY2 Q3                                    |
| Task Coordinated evidence-based care protocols are in place, including a medication management and care engagement process.   |                        |                       | Project            |               | Completed | 04/01/2015             | 12/31/2016           | 04/01/2015 | 12/31/2016 | 12/31/2016          | DY2 Q3                                    |
| Task  Collaborate with NCI Behavioral Health Committee, 2aii project team, Medical Management Committee and participating providers to develop strategies for project milestones  |                        |                       | Project            |               | Completed | 04/01/2015             | 09/30/2016           | 04/01/2015 | 09/30/2016 | 09/30/2016          | DY2 Q2                                    |
| Task Working in collaboration with the NCI Medical Management and Care Coordination Commitees, evaluate existing evidence-based standards of care including medication management and care management processes to determine NCI strategies |                        |                       | Project            |               | Completed | 04/01/2015             | 12/31/2016           | 04/01/2015 | 12/31/2016 | 12/31/2016          | DY2 Q3                                    |
| Task  |                        |                       | Project            |               | Completed | 04/01/2015             | 03/31/2017           | 04/01/2015 | 03/31/2017 | 03/31/2017          | DY2 Q4                                    |

**DSRIP Implementation Plan Project** 

| Project Requirements<br>(Milestone/Task Name)  | Prescribed<br>Due Date | Project<br>Model Name | Reporting<br>Level | Provider Type                              | Status    | Original<br>Start Date | Original<br>End Date | Start Date | End Date   | Quarter<br>End Date | DSRIP Reporting Year and Quarter |
|--|------------------------|-----------------------|--------------------|--|-----------|------------------------|----------------------|------------|------------|---------------------|----------------------------------|
| Provide meeting schedules, agendas, minutes and list of attendees  |                        |                       |                    |  |           |                        |                      |            |            |                     |                                  |
| Task Provide evidence-based practice guidelines as well as policies and procedures related to care protocols (as recommended by NCI's Care Coordination Committee), including medication management and care engagement processes  |                        |                       | Project            |  | Completed | 04/01/2015             | 03/31/2017           | 04/01/2015 | 03/31/2017 | 03/31/2017          | DY2 Q4                           |
| Milestone #7 Conduct preventive care screenings, including physical and behavioral health screenings.  | DY3 Q4                 | Model 2               | Project            | N/A  | Completed | 07/01/2015             | 03/31/2018           | 07/01/2015 | 03/31/2018 | 03/31/2018          | DY3 Q4                           |
| Task Screenings are conducted for all patients. Process workflows and operational protocols are in place to implement and document screenings.   |                        |                       | Project            |  | Completed | 07/01/2015             | 03/31/2018           | 07/01/2015 | 03/31/2018 | 03/31/2018          | DY3 Q4                           |
| Task Screenings are documented in Electronic Health Record.  |                        |                       | Project            |  | Completed | 07/01/2015             | 03/31/2018           | 07/01/2015 | 03/31/2018 | 03/31/2018          | DY3 Q4                           |
| Task At least 90% of patients receive primary care services, as defined by preventive care screenings at the established project sites (Screenings are defined as physical health screenings for primary care services and industry standard questionnaires such as PHQ-2 or 9 for those screening positive, SBIRT for behavioral health). |                        |                       | Project            |  | Completed | 07/01/2015             | 03/31/2018           | 07/01/2015 | 03/31/2018 | 03/31/2018          | DY3 Q4                           |
| Task Positive screenings result in "warm transfer" to behavioral health or primary care provider as indicated by screening as measured by documentation in Electronic Health Record (EHR).   |                        |                       | Provider           | Practitioner - Primary Care Provider (PCP) | Completed | 03/31/2016             | 03/31/2018           | 03/31/2016 | 03/31/2018 | 03/31/2018          | DY3 Q4                           |
| Providers Associated with Completion:  |                        |                       |                    |  |           |                        |                      |            |            |                     |                                  |

IPQR Module 3.a.i.5 - IA Monitoring
Instructions :

#### **DSRIP Implementation Plan Project**

**North Country Initiative (PPS ID:45)** 

Project 3.b.i – Evidence-based strategies for disease management in high risk/affected populations (adult only)

☑ IPQR Module 3.b.i.1 - Major Risks to Implementation and Mitigation Strategies

#### Instructions:

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

1.) Risk: Changing the behavior of Medicaid patients.

Mitigation: a.) Establishing a schedule for community outreach and creating awareness on services and supports available. b.) Providing health literacy and competency training for members providing care, c. coordinating with PHIP activities to ensure the people residing in high-risk hotspots are engaged at the neighborhood and community level.

2.) Risk: Adding clinical decision support into EMR systems

Mitigation: a.)A plan has been established to not turn on all CDS, just those that impact the evidence based guidelines chosen. b.) HIT implementation specialist will work with office to assist in the proper use of CDS

3.) Risk: Adoption of PCMH 2014 standards

Mitigation: a.) PCMH certified content experts will be deployed to assist offices in obtaining PCMH level 3 2014 certification.

4.) Risk: Access to Blood Pressure screenings and variation in screening techniques

Mitigation: Automated blood pressure cuffs for easy screening have been identified by the Medical Management Committee of the PPS with input from the regions cardiologists. This has been included in capital request to ensure uniformity and access to screening.

5.) Risk: Existing provider gaps and access to care issues

Mitigation: a.) The workforce committee has established a plan for recruitment and retainment of new provider's b.) Enhancements to GME program c.) Care coordination to assist the chronically ill with access to care.

#### IPQR Module 3.b.i.2 - Patient Engagement Speed

#### Instructions:

Enter the number of patients actively engaged through the current quarter. The number entered into the "Quarterly Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for Q4 should include patients previously reported in Q3 plus new patients engaged in Q4. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

| Benchr                 | narks                  |
|------------------------|------------------------|
| Actively Engaged Speed | Actively Engaged Scale |
| DY3,Q4                 | 7,263                  |

|              | Year,Quarter             | DY4,Q1 | DY4,Q2  | DY4,Q3 | DY4,Q4 |
|--------------|--------------------------|--------|---------|--------|--------|
|              | Baseline Commitment      | 1,815  | 3,632   | 5,447  | 7,263  |
| PPS Reported | Quarterly Update         | 0      | 3,854   | 0      | 5,996  |
|              | Percent(%) of Commitment | 0.00%  | 106.11% | 0.00%  | 82.56% |
| IA Approved  | Quarterly Update         | 0      | 3,854   | 0      | 5,994  |
| IA Approved  | Percent(%) of Commitment | 0.00%  | 106.11% | 0.00%  | 82.53% |

Marning: PPS Reported - Please note that your patients engaged to date (5,996) does not meet your committed amount (7,263) for 'DY4,Q4'

| Assess EMR systems limitations and capabilities for     incorporation of FAIs  |                        |                    |               |           |                        |                      |            |            |                     |  |
| incorporation of 5A's  |                        |                    |               |           |                        |                      |            |            |                     |  |
| Task 2. Promote direct conversation of 5A's between patient /clinician   |                        | Project            |               | Completed | 04/01/2015             | 06/30/2016           | 04/01/2015 | 06/30/2016 | 06/30/2016          | DY2 Q1                                 |
| Task  3. Identify and Stratify population into tobacco use and non-tobacco categories.   |                        | Project            |               | Completed | 04/01/2015             | 09/30/2016           | 04/01/2015 | 09/30/2016 | 09/30/2016          | DY2 Q2                                 |
| Task 4. Formulate data collection to create patient tobacco use listings   |                        | Project            |               | Completed | 04/01/2015             | 09/30/2016           | 04/01/2015 | 09/30/2016 | 09/30/2016          | DY2 Q2                                 |
| Task 5. Train staff to incorporate EHR to prompt the use of 5A's of tobacco control  |                        | Project            |               | Completed | 04/01/2015             | 12/31/2016           | 04/01/2015 | 12/31/2016 | 12/31/2016          | DY2 Q3                                 |
| Task 6. Implement an automated or work driver scheduling system to facilitate tobacco control protocols.   |                        | Project            |               | Completed | 04/01/2015             | 12/31/2016           | 04/01/2015 | 12/31/2016 | 12/31/2016          | DY2 Q3                                 |
| Task 7. Practioners and Clinics document in EHR system patient tobacco use status  |                        | Project            |               | Completed | 04/01/2015             | 12/31/2016           | 04/01/2015 | 12/31/2016 | 12/31/2016          | DY2 Q3                                 |
| Milestone #6 Adopt and follow standardized treatment protocols for hypertension and elevated cholesterol.  | DY2 Q4                 | Project            | N/A           | Completed | 04/01/2015             | 03/31/2017           | 04/01/2015 | 03/31/2017 | 03/31/2017          | DY2 Q4                                 |
| Task Practice has adopted treatment protocols aligned with national guidelines, such as the National Cholesterol Education Program (NCEP) or US Preventive Services Task Force (USPSTF).     |                        | Project            |               | Completed | 04/01/2015             | 12/31/2016           | 04/01/2015 | 12/31/2016 | 12/31/2016          | DY2 Q3                                 |
| Task  1. Practices will provide opportunities for follow-up blood pressure checks without a copayment or advanced appointment.   |                        | Project            |               | Completed | 04/01/2015             | 12/31/2016           | 04/01/2015 | 12/31/2016 | 12/31/2016          | DY2 Q3                                 |
| Task  2. Make hypertension control a priority in practices and health systems and identify the protocol's in achieving control of blood pressure for hypertensive patients                   |                        | Project            |               | Completed | 04/01/2015             | 06/30/2016           | 04/01/2015 | 06/30/2016 | 06/30/2016          | DY2 Q1                                 |
| Task 3. Identify patients who have repeated elevated blood pressure readings in their medical record but do not have a diagnosis of hypertension and schedule them for a hypertension visit. |                        | Project            |               | Completed | 04/01/2015             | 09/30/2016           | 04/01/2015 | 09/30/2016 | 09/30/2016          | DY2 Q2                                 |
| Task 4. Generate lists of patients with hypertension who have not had a recent visit and schedule a follow up visit.   |                        | Project            |               | Completed | 04/01/2015             | 09/30/2016           | 04/01/2015 | 09/30/2016 | 09/30/2016          | DY2 Q2                                 |
| Task 5. Provide training to ensure attainment of correct blood pressure  |                        | Project            |               | Completed | 04/01/2015             | 06/30/2016           | 04/01/2015 | 06/30/2016 | 06/30/2016          | DY2 Q1                                 |

|--|------------------------|--------------------|---------------|-----------|------------------------|----------------------|------------|------------|---------------------|--|
| Task All primary care practices in the PPS provide follow-up blood pressure checks without copayment or advanced appointments.   |                        | Project            |               | Completed | 03/31/2016             | 06/30/2017           | 03/31/2016 | 06/30/2017 | 06/30/2017          | DY3 Q1                                 |
| Task     1. Provide patient training to ensure attainment of correct blood pressure measurements   |                        | Project            |               | Completed | 07/01/2015             | 06/30/2016           | 07/01/2015 | 06/30/2016 | 06/30/2016          | DY2 Q1                                 |
| Task 2. Practices will provide opportunities for follow-up blood pressure checks without a copayment or advanced appointment.  |                        | Project            |               | Completed | 07/01/2015             | 09/30/2016           | 07/01/2015 | 09/30/2016 | 09/30/2016          | DY2 Q2                                 |
| Task 3. Incorporate coaching and self-management into patient educations and follow-up visits  |                        | Project            |               | Completed | 07/01/2015             | 06/30/2017           | 07/01/2015 | 06/30/2017 | 06/30/2017          | DY3 Q1                                 |
| Milestone #9 Ensure that all staff involved in measuring and recording blood pressure are using correct measurement techniques and equipment.  | DY2 Q4                 | Project            | N/A           | Completed | 04/01/2015             | 03/31/2017           | 04/01/2015 | 03/31/2017 | 03/31/2017          | DY2 Q4                                 |
| Task PPS has protocols in place to ensure blood pressure measurements are taken correctly with the correct equipment.  |                        | Project            |               | Completed | 04/01/2015             | 12/31/2016           | 04/01/2015 | 12/31/2016 | 12/31/2016          | DY2 Q3                                 |
| Task 1. Conduct training to ensure attainment of correct blood pressure measurements   |                        | Project            |               | Completed | 04/01/2015             | 06/30/2016           | 04/01/2015 | 06/30/2016 | 06/30/2016          | DY2 Q1                                 |
| Task 2. Document blood pressure readings in EMR system   |                        | Project            |               | Completed | 04/01/2015             | 09/30/2016           | 04/01/2015 | 09/30/2016 | 09/30/2016          | DY2 Q2                                 |
| Task 3. Conduct annual assessment and attestation of health care staffs understanding of correct blood pressure measurement techniques and equipment.  |                        | Project            |               | Completed | 04/01/2015             | 03/31/2017           | 04/01/2015 | 03/31/2017 | 03/31/2017          | DY2 Q4                                 |
| Milestone #10 Identify patients who have repeated elevated blood pressure readings in the medical record but do not have a diagnosis of hypertension and schedule them for a hypertension visit. | DY3 Q4                 | Project            | N/A           | Completed | 07/01/2015             | 06/30/2017           | 07/01/2015 | 06/30/2017 | 06/30/2017          | DY3 Q1                                 |
| Task PPS uses a patient stratification system to identify patients who have repeated elevated blood pressure but no diagnosis of hypertension.   |                        | Project            |               | Completed | 07/01/2015             | 06/30/2017           | 07/01/2015 | 06/30/2017 | 06/30/2017          | DY3 Q1                                 |
| Task PPS has implemented an automated scheduling system to facilitate scheduling of targeted hypertension patients.  |                        | Project            |               | Completed | 07/01/2015             | 06/30/2017           | 07/01/2015 | 06/30/2017 | 06/30/2017          | DY3 Q1                                 |
| Task PPS provides periodic training to staff to ensure effective patient   |                        | Project            |               | Completed | 07/01/2015             | 06/30/2017           | 07/01/2015 | 06/30/2017 | 06/30/2017          | DY3 Q1                                 |

|--|------------------------|--------------------|---------------|-----------|------------------------|----------------------|------------|------------|---------------------|--|
| identification and hypertension visit scheduling.  |                        |                    |               |           |                        |                      |            |            |                     |  |
| Task  1. Generate lists of patients with hypertension who have not had a recent visit and schedule a follow up visit.  |                        | Project            |               | Completed | 07/01/2015             | 12/31/2016           | 07/01/2015 | 12/31/2016 | 12/31/2016          | DY2 Q3                                 |
| Task  2. Make hypertension control a priority in practices and health systems and identify the protocol's in achieving control of blood pressure for hypertensive patients |                        | Project            |               | Completed | 07/01/2015             | 12/31/2016           | 07/01/2015 | 12/31/2016 | 12/31/2016          | DY2 Q3                                 |
| Task 3. Conduct pre-visit planning to ensure blood pressure is a focus of patient visits   |                        | Project            |               | Completed | 07/01/2015             | 12/31/2016           | 07/01/2015 | 12/31/2016 | 12/31/2016          | DY2 Q3                                 |
| Milestone #11  Prescribe once-daily regimens or fixed-dose combination pills when appropriate.   | DY2 Q4                 | Project            | N/A           | Completed | 04/01/2015             | 03/31/2017           | 04/01/2015 | 03/31/2017 | 03/31/2017          | DY2 Q4                                 |
| Task PPS has protocols in place for determining preferential drugs based on ease of medication adherence where there are no other significant non-differentiating factors. |                        | Project            |               | Completed | 04/01/2015             | 12/31/2016           | 04/01/2015 | 12/31/2016 | 12/31/2016          | DY2 Q3                                 |
| Task 1. Encourage patients to use medication reminders.  |                        | Project            |               | Completed | 04/01/2015             | 12/31/2016           | 04/01/2015 | 12/31/2016 | 12/31/2016          | DY2 Q3                                 |
| <ul><li>Task</li><li>2. Ensure patients understand their risks if they do not take medications as directed.</li></ul>  |                        | Project            |               | Completed | 04/01/2015             | 06/30/2016           | 04/01/2015 | 06/30/2016 | 06/30/2016          | DY2 Q1                                 |
| Task 3. Confirm medication benefits with patients.   |                        | Project            |               | Completed | 04/01/2015             | 06/30/2016           | 04/01/2015 | 06/30/2016 | 06/30/2016          | DY2 Q1                                 |
| Task 4. Educate patients on the use of medication reminders.   |                        | Project            |               | Completed | 04/01/2015             | 12/31/2016           | 04/01/2015 | 12/31/2016 | 12/31/2016          | DY2 Q3                                 |
| Task 5. Implement protocols for determining preferential drugs based on ease of medication adherence where there are no other significant non-differentiating factors.     |                        | Project            |               | Completed | 04/01/2015             | 12/31/2016           | 04/01/2015 | 12/31/2016 | 12/31/2016          | DY2 Q3                                 |
| Task 6. Provide once daily regimens or fixed-dosed combination pills when appropriate.   |                        | Project            |               | Completed | 04/01/2015             | 12/31/2016           | 04/01/2015 | 12/31/2016 | 12/31/2016          | DY2 Q3                                 |
| Task 7. Conduct frequent / routine follow-ups with patients  |                        | Project            |               | Completed | 04/01/2015             | 03/31/2017           | 04/01/2015 | 03/31/2017 | 03/31/2017          | DY2 Q4                                 |
| Milestone #12  Document patient driven self-management goals in the medical record and review with patients at each visit.   | DY3 Q4                 | Project            | N/A           | Completed | 07/01/2015             | 06/30/2017           | 07/01/2015 | 06/30/2017 | 06/30/2017          | DY3 Q1                                 |
| Task Self-management goals are documented in the clinical record.  |                        | Project            |               | Completed | 07/01/2015             | 06/30/2017           | 07/01/2015 | 06/30/2017 | 06/30/2017          | DY3 Q1                                 |

|---|------------------------|--------------------|---------------|-----------|------------------------|----------------------|------------|------------|---------------------|--|
| Task PPS provides periodic training to staff on person-centered methods that include documentation of self-management goals.                        |                        | Project            |               | Completed | 07/01/2015             | 06/30/2017           | 07/01/2015 | 06/30/2017 | 06/30/2017          | DY3 Q1                                 |
| Task 1. Print visit summaries and follow-up guidance for patients.  |                        | Project            |               | Completed | 07/01/2015             | 12/31/2016           | 07/01/2015 | 12/31/2016 | 12/31/2016          | DY2 Q3                                 |
| Task 2. Generate lists of patients with hypertension who have missed recent appointments. Send phone, mail, e-mail, or text reminders.              |                        | Project            |               | Completed | 07/01/2015             | 06/30/2017           | 07/01/2015 | 06/30/2017 | 06/30/2017          | DY3 Q1                                 |
| Task 3. Provide patients who have hypertension with a written self-management plan at the end of each office visit.                                 |                        | Project            |               | Completed | 07/01/2015             | 06/30/2017           | 07/01/2015 | 06/30/2017 | 06/30/2017          | DY3 Q1                                 |
| Task 4. Encourage or provide patient support groups.  |                        | Project            |               | Completed | 07/01/2015             | 06/30/2017           | 07/01/2015 | 06/30/2017 | 06/30/2017          | DY3 Q1                                 |
| Task 5. Use all staff interactions with patients as opportunities to assist in self-management goal-setting and practices                           |                        | Project            |               | Completed | 07/01/2015             | 06/30/2017           | 07/01/2015 | 06/30/2017 | 06/30/2017          | DY3 Q1                                 |
| Milestone #13 Follow up with referrals to community based programs to document participation and behavioral and health status                       | DY3 Q4                 | Project            | N/A           | Completed | 07/01/2015             | 09/30/2017           | 07/01/2015 | 09/30/2017 | 09/30/2017          | DY3 Q2                                 |
| changes.  Task  PPS has developed referral and follow-up process and adheres to process.  |                        | Project            |               | Completed | 07/01/2015             | 09/30/2017           | 07/01/2015 | 09/30/2017 | 09/30/2017          | DY3 Q2                                 |
| Task PPS provides periodic training to staff on warm referral and follow-up process.  |                        | Project            |               | Completed | 07/01/2015             | 09/30/2017           | 07/01/2015 | 09/30/2017 | 09/30/2017          | DY3 Q2                                 |
| Task Agreements are in place with community-based organizations and process is in place to facilitate feedback to and from community organizations. |                        | Project            |               | Completed | 07/01/2015             | 09/30/2017           | 07/01/2015 | 09/30/2017 | 09/30/2017          | DY3 Q2                                 |
| Task 1. Establish agreements with community-based organizations.  |                        | Project            |               | Completed | 07/01/2015             | 12/31/2016           | 07/01/2015 | 12/31/2016 | 12/31/2016          | DY2 Q3                                 |
| Task 2. Conduct periodic training to staff on warm referral and follow-up process.  |                        | Project            |               | Completed | 07/01/2015             | 09/30/2017           | 07/01/2015 | 09/30/2017 | 09/30/2017          | DY3 Q2                                 |
| Task 3. Establish a process to facilitate feedback to and from community organizations.   |                        | Project            |               | Completed | 07/01/2015             | 09/30/2017           | 07/01/2015 | 09/30/2017 | 09/30/2017          | DY3 Q2                                 |
| Task 4. Develop a referral and follow-up process.   |                        | Project            |               | Completed | 07/01/2015             | 09/30/2017           | 07/01/2015 | 09/30/2017 | 09/30/2017          | DY3 Q2                                 |
| Task 5. Ensure adherence to CBO referral process.   |                        | Project            |               | Completed | 07/01/2015             | 09/30/2017           | 07/01/2015 | 09/30/2017 | 09/30/2017          | DY3 Q2                                 |

|---|------------------------|--------------------|---------------|-----------|------------------------|----------------------|------------|------------|---------------------|--|
| Task 6. When applicable utilize electronic referrals to CBO's from primary care offices.  |                        | Project            |               | Completed | 07/01/2015             | 09/30/2017           | 07/01/2015 | 09/30/2017 | 09/30/2017          | DY3 Q2                                 |
| Milestone #14  Develop and implement protocols for home blood pressure monitoring with follow up support.   | DY2 Q4                 | Project            | N/A           | Completed | 04/01/2015             | 03/31/2017           | 04/01/2015 | 03/31/2017 | 03/31/2017          | DY2 Q4                                 |
| Task PPS has developed and implemented protocols for home blood pressure monitoring.  |                        | Project            |               | Completed | 04/01/2015             | 12/31/2016           | 04/01/2015 | 12/31/2016 | 12/31/2016          | DY2 Q3                                 |
| Task PPS provides follow up to support to patients with ongoing blood pressure monitoring, including equipment evaluation and follow-up if blood pressure results are abnormal.             |                        | Project            |               | Completed | 04/01/2015             | 12/31/2016           | 04/01/2015 | 12/31/2016 | 12/31/2016          | DY2 Q3                                 |
| Task PPS provides periodic training to staff on warm referral and follow-up process.  |                        | Project            |               | Completed | 04/01/2015             | 03/31/2017           | 04/01/2015 | 03/31/2017 | 03/31/2017          | DY2 Q4                                 |
| Task     1. Medical Management Committee to review and select nationally recognized protocols for blood pressure monitoring.  |                        | Project            |               | Completed | 04/01/2015             | 06/30/2016           | 04/01/2015 | 06/30/2016 | 06/30/2016          | DY2 Q1                                 |
| Task 2. Provide regular customized support and advice (e.g., medication titration, lifestyle modifications) based on patient blood pressure readings.                                       |                        | Project            |               | Completed | 04/01/2015             | 12/31/2016           | 04/01/2015 | 12/31/2016 | 12/31/2016          | DY2 Q3                                 |
| Task 3. Implement clinical support protocols / systems that incorporate regular transmission of patients' home blood pressure readings and customized clinician feedback into patient care. |                        | Project            |               | Completed | 04/01/2015             | 12/31/2016           | 04/01/2015 | 12/31/2016 | 12/31/2016          | DY2 Q3                                 |
| Task 4. Train staff to administer specific clinical support interventions as available (e.g., telemonitoring, patient portals, counseling, Web sites).                                      |                        | Project            |               | Completed | 04/01/2015             | 12/31/2016           | 04/01/2015 | 12/31/2016 | 12/31/2016          | DY2 Q3                                 |
| Task 5. Incorporate regular transmission of patient home blood pressure readings through patient portals, telemonitoring, log books to clinicians and EHR systems.                          |                        | Project            |               | Completed | 04/01/2015             | 12/31/2016           | 04/01/2015 | 12/31/2016 | 12/31/2016          | DY2 Q3                                 |
| Milestone #15 Generate lists of patients with hypertension who have not had a recent visit and schedule a follow up visit.  | DY2 Q4                 | Project            | N/A           | Completed | 04/01/2015             | 03/31/2017           | 04/01/2015 | 03/31/2017 | 03/31/2017          | DY2 Q4                                 |
| Task PPS has implemented an automated scheduling system to facilitate scheduling of targeted hypertension patients.   |                        | Project            |               | Completed | 04/01/2015             | 03/31/2017           | 04/01/2015 | 03/31/2017 | 03/31/2017          | DY2 Q4                                 |

# **DSRIP Implementation Plan Project**

| Project Requirements<br>(Milestone/Task Name)   | Prescribed<br>Due Date | Reporting<br>Level | Provider Type | Status    | Original<br>Start Date | Original<br>End Date | Start Date | End Date   | Quarter<br>End Date | DSRIP<br>Reporting Year<br>and Quarter |
|---|------------------------|--------------------|---------------|-----------|------------------------|----------------------|------------|------------|---------------------|--|
| Task     Generate lists of patients with hypertension who have missed recent appointments. Send phone, mail, e-mail, or text reminders.   |                        | Project            |               | Completed | 04/01/2015             | 12/31/2016           | 04/01/2015 | 12/31/2016 | 12/31/2016          | DY2 Q3                                 |
| Task 2. Print visit summaries and follow-up guidance for patients.  |                        | Project            |               | Completed | 04/01/2015             | 12/31/2016           | 04/01/2015 | 12/31/2016 | 12/31/2016          | DY2 Q3                                 |
| Task  3. Implement an automated or work driver scheduling system to facilitate scheduling of targeted hypertension patients.  |                        | Project            |               | Completed | 04/01/2015             | 12/31/2016           | 04/01/2015 | 12/31/2016 | 12/31/2016          | DY2 Q3                                 |
| Milestone #16 Facilitate referrals to NYS Smoker's Quitline.  | DY2 Q4                 | Project            | N/A           | Completed | 04/01/2015             | 03/31/2017           | 04/01/2015 | 03/31/2017 | 03/31/2017          | DY2 Q4                                 |
| Task PPS has developed referral and follow-up process and adheres to process.   |                        | Project            |               | Completed | 04/01/2015             | 12/31/2016           | 04/01/2015 | 12/31/2016 | 12/31/2016          | DY2 Q3                                 |
| Task 1. Develop a referral and follow-up process and that adheres to the 5A's process   |                        | Project            |               | Completed | 04/01/2015             | 12/31/2016           | 04/01/2015 | 12/31/2016 | 12/31/2016          | DY2 Q3                                 |
| Task 2. Refer Smokers to NYS Smokers Quit line through EHR/FAX  |                        | Project            |               | Completed | 04/01/2015             | 09/30/2016           | 04/01/2015 | 09/30/2016 | 09/30/2016          | DY2 Q2                                 |
| Task 3. Post smoking cessation information in waiting rooms   |                        | Project            |               | Completed | 04/01/2015             | 09/30/2016           | 04/01/2015 | 09/30/2016 | 09/30/2016          | DY2 Q2                                 |
| Task  4. Providers will establish and conduct follow-up visits  |                        | Project            |               | Completed | 04/01/2015             | 12/31/2016           | 04/01/2015 | 12/31/2016 | 12/31/2016          | DY2 Q3                                 |
| Task 5. Implement EHRs that will require providers to ask and advise patients about smoking   |                        | Project            |               | Completed | 04/01/2015             | 12/31/2016           | 04/01/2015 | 12/31/2016 | 12/31/2016          | DY2 Q3                                 |
| Milestone #17 Perform additional actions including "hot spotting" strategies in high risk neighborhoods, linkages to Health Homes for the highest risk population, group visits, and implementation of the Stanford Model for chronic diseases. | DY3 Q4                 | Project            | N/A           | Completed | 07/01/2015             | 06/30/2017           | 07/01/2015 | 06/30/2017 | 06/30/2017          | DY3 Q1                                 |
| Task If applicable, PPS has Implemented collection of valid and reliable REAL (Race, Ethnicity, and Language) data and uses the data to target high risk populations, develop improvement plans, and address top health disparities.            |                        | Project            |               | Completed | 07/01/2015             | 06/30/2017           | 07/01/2015 | 06/30/2017 | 06/30/2017          | DY3 Q1                                 |
| Task If applicable, PPS has established linkages to health homes for targeted patient populations.  |                        | Project            |               | Completed | 07/01/2015             | 06/30/2017           | 07/01/2015 | 06/30/2017 | 06/30/2017          | DY3 Q1                                 |
| Task If applicable, PPS has implemented Stanford Model through partnerships with community-based organizations.   |                        | Project            |               | Completed | 07/01/2015             | 06/30/2017           | 07/01/2015 | 06/30/2017 | 06/30/2017          | DY3 Q1                                 |

Project 3.c.i – Evidence-based strategies for disease management in high risk/affected populations (adults only)

IPQR Module 3.c.i.1 - Major Risks to Implementation and Mitigation Strategies

#### Instructions:

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

1.) Risk: Changing the behavior of Medicaid patients.

Mitigation: a.) Establishing a schedule for community outreach and creating awareness on services and supports available. b.) Providing health literacy and competency training for members providing care.

2.) Risk: Adding clinical decision support into EMR systems

Mitigation: a.)A plan has been established to not turn on all CDS, just those that impact the evidence based guidelines chosen. b.) HIT implementation specialist will work with office to assist in the proper use of CDS

3.) Risk: Adoption of PCMH 2014 standards

Mitigation: a.) PCMH certified content experts will be deployed to assist offices in obtaining PCMH level 3 2014 certification.

4) Risk: Only three Certified Diabetes Educators (CDEs) across entire PPS geography and remote clinic locations

Mitigation: The PPS has included Telemedical equipment to deployed across the PPS Provider is the Capital Application to ensure remote video access to CDE for PCMH Teams

5.) Risk: Existing provider gaps and access to care issues

Mitigation: a.) The workforce committee has established a plan for recruitment and retainment of new provider's b.) Enhancements to GME program c.) Care coordination to assist the chronically ill with access to care.

#### IPQR Module 3.c.i.2 - Patient Engagement Speed

#### Instructions:

Enter the number of patients actively engaged through the current quarter. The number entered into the "Quarterly Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for Q4 should include patients previously reported in Q3 plus new patients engaged in Q4. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

|--|------------------------|--------------------|---------------|-----------|------------------------|----------------------|------------|------------|---------------------|--|
| Task 3. Implement care coordination teams that include nursing staff, pharmacists, dieticians, community health workers, and Health Home care managers where applicable.   |                        | Project            |               | Completed | 04/01/2015             | 03/31/2017           | 04/01/2015 | 03/31/2017 | 03/31/2017          | DY2 Q4                                 |
| Task 4. Validate Care coordination processes are in place.   |                        | Project            |               | Completed | 04/01/2015             | 03/31/2017           | 04/01/2015 | 03/31/2017 | 03/31/2017          | DY2 Q4                                 |
| Milestone #4 Develop "hot spotting" strategies, in concert with Health Homes, to implement programs such as the Stanford Model for chronic diseases in high risk neighborhoods.  | DY2 Q4                 | Project            | N/A           | Completed | 04/01/2015             | 03/31/2017           | 04/01/2015 | 03/31/2017 | 03/31/2017          | DY2 Q4                                 |
| Task If applicable, PPS has Implemented collection of valid and reliable REAL (Race, Ethnicity, and Language) data and uses the data to target high risk populations, develop improvement plans, and address top health disparities. |                        | Project            |               | Completed | 04/01/2015             | 03/31/2017           | 04/01/2015 | 03/31/2017 | 03/31/2017          | DY2 Q4                                 |
| Task  If applicable, PPS has established linkages to health homes for targeted patient populations.  |                        | Project            |               | Completed | 04/01/2015             | 03/31/2017           | 04/01/2015 | 03/31/2017 | 03/31/2017          | DY2 Q4                                 |
| Task  If applicable, PPS has implemented Stanford Model through partnerships with community-based organizations.   |                        | Project            |               | Completed | 04/01/2015             | 03/31/2017           | 04/01/2015 | 03/31/2017 | 03/31/2017          | DY2 Q4                                 |
| Task 1. Develop improvement processes and plans that address top health disparities and improve workflow   |                        | Project            |               | Completed | 04/01/2015             | 03/31/2017           | 04/01/2015 | 03/31/2017 | 03/31/2017          | DY2 Q4                                 |
| Task 2. Assess and Stratify population into risk categories.   |                        | Project            |               | Completed | 04/01/2015             | 12/31/2016           | 04/01/2015 | 12/31/2016 | 12/31/2016          | DY2 Q3                                 |
| Task 3. Asses and Stratify data collection population based on (Race, Ethnicity, and Language) (REAL).   |                        | Project            |               | Completed | 04/01/2015             | 12/31/2016           | 04/01/2015 | 12/31/2016 | 12/31/2016          | DY2 Q3                                 |
| Task 4. Establish linkages to health homes for targeted patient populations  |                        | Project            |               | Completed | 04/01/2015             | 12/31/2016           | 04/01/2015 | 12/31/2016 | 12/31/2016          | DY2 Q3                                 |
| Task 5. Implement Stanford model through partnerships with community based organizations (CBO's).  |                        | Project            |               | Completed | 04/01/2015             | 03/31/2017           | 04/01/2015 | 03/31/2017 | 03/31/2017          | DY2 Q4                                 |
| Task 6. Conduct training on high risk populations, Stanford Model for chronic diseases and linkages to health homes.   |                        | Project            |               | Completed | 04/01/2015             | 03/31/2017           | 04/01/2015 | 03/31/2017 | 03/31/2017          | DY2 Q4                                 |
| Milestone #5 Ensure coordination with the Medicaid Managed Care organizations serving the target population.   | DY3 Q4                 | Project            | N/A           | Completed | 07/01/2015             | 03/31/2018           | 07/01/2015 | 03/31/2018 | 03/31/2018          | DY3 Q4                                 |

#### **DSRIP Implementation Plan Project**

| Project Requirements<br>(Milestone/Task Name)  | Prescribed<br>Due Date | Reporting<br>Level | Provider Type | Status    | Original<br>Start Date | Original<br>End Date | Start Date | End Date   | Quarter<br>End Date | DSRIP<br>Reporting Year<br>and Quarter |
|--|------------------------|--------------------|---------------|-----------|------------------------|----------------------|------------|------------|---------------------|--|
| Task PPS has agreement in place with MCO related to coordination of services for high risk populations, including smoking cessation services, hypertension screening, cholesterol screening, and other preventive services relevant to this project. |                        | Project            |               | Completed | 07/01/2015             | 06/30/2017           | 07/01/2015 | 06/30/2017 | 06/30/2017          | DY3 Q1                                 |
| Task  1. Establish agreement's with MCO related to coordination of services for high risk populations, including smoking cessation services, hypertension screening, cholesterol screening, and other preventive services relevant to this project.  |                        | Project            |               | Completed | 07/01/2015             | 06/30/2017           | 07/01/2015 | 06/30/2017 | 06/30/2017          | DY3 Q1                                 |
| Task 2. Documented evidence of agreements  |                        | Project            |               | Completed | 07/01/2015             | 06/30/2017           | 07/01/2015 | 06/30/2017 | 06/30/2017          | DY3 Q1                                 |
| Milestone #6 Use EHRs or other technical platforms to track all patients engaged in this project.  | DY2 Q4                 | Project            | N/A           | Completed | 04/01/2015             | 03/31/2017           | 04/01/2015 | 03/31/2017 | 03/31/2017          | DY2 Q4                                 |
| Task PPS identifies targeted patients and is able to track actively engaged patients for project milestone reporting.  |                        | Project            |               | Completed | 04/01/2015             | 09/30/2016           | 04/01/2015 | 09/30/2016 | 09/30/2016          | DY2 Q2                                 |
| Task PPS uses a recall system that allows staff to report which patients are overdue for which preventive services and to track when and how patients were notified of needed services.  |                        | Project            |               | Completed | 04/01/2015             | 03/31/2017           | 04/01/2015 | 03/31/2017 | 03/31/2017          | DY2 Q4                                 |
| Task  1. Identify and Stratify targeted patients and track actively engaged patients for project milestone reporting.  |                        | Project            |               | Completed | 04/01/2015             | 09/30/2016           | 04/01/2015 | 09/30/2016 | 09/30/2016          | DY2 Q2                                 |
| Task 2. Establish and utilize a recall system that allows staff to report which patients are overdue for which preventive services and track when and how patients were notified of needed services.   |                        | Project            |               | Completed | 04/01/2015             | 03/31/2017           | 04/01/2015 | 03/31/2017 | 03/31/2017          | DY2 Q4                                 |
| Task 3. Compile sample data collection of recall system and EHR completeness report to track project implementation and progress. (Recall Rosters, Roster of Identified Patients, Screenshots of Recall System)                                      |                        | Project            |               | Completed | 04/01/2015             | 03/31/2017           | 04/01/2015 | 03/31/2017 | 03/31/2017          | DY2 Q4                                 |
| Milestone #7 Meet Meaningful Use and PCMH Level 3 standards and/or APCM by the end of Demonstration Year 3 for EHR systems used by participating safety net providers.   | DY3 Q4                 | Project            | N/A           | Completed | 04/01/2015             | 03/31/2018           | 04/01/2015 | 03/31/2018 | 03/31/2018          | DY3 Q4                                 |
| Task EHR meets Meaningful Use Stage 2 CMS requirements (Note: any/all MU requirements adjusted by CMS will be incorporated   |                        | Project            |               | Completed | 04/01/2015             | 03/31/2018           | 04/01/2015 | 03/31/2018 | 03/31/2018          | DY3 Q4                                 |

Project 3.c.ii – Implementation of evidence-based strategies to address chronic disease - primary and secondary prevention projects (adults only)

☑ IPQR Module 3.c.ii.1 - Major Risks to Implementation and Mitigation Strategies

#### Instructions:

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

"The NCI PPS intends to implement the National Diabetes Prevention Program (NDPP) by leveraging existing partnerships with community-based organizations and by utilizing Electronic Health Records (EHRs) to identify and track pre-diabetic patients and individuals at risk of developing diabetes. Successful project implementation will therefore be contingent upon our partners and upon EHR functionality.

1.) Risk: Risks to implementation presented by our partners include their capacity to offer the class to the high number of regional residents that require intervention, their ability to offer the class at satellite locations (to overcome existing transportation challenges), and the financial sustainability of each program.

Mitigation: NCI is committed to the sustained delivery of the NDPP and will therefore mitigate the outlined risks by using DSRIP funds to offset the cost of expanding the programs and delivering them at the scope required to achieve measurable health improvement.

2.) Risk The region is characterized by a wide variety of EHR platforms, each with unique functionalities and challenges. One major EHR-based risk to implementation is the flexibility of a particular platform to add functionality allowing providers to seamlessly identify and refer high-risk and pre-diabetic patients to existing community-based prevention programming.

Mitigation: Our PPS has decided to mitigate that risk by conducting a comprehensive assessment of EHR functionality and developing a systematic plan to provide technical assistance to practices requiring added functionality to ensure that the target patient population is sufficiently identified, referred to services and tracked.

3.) Risk: Regional healthcare is currently provided in separate silos with limited ability to share records or care plans. Patients with chronic, complex conditions often have multiple and contradictory care plans with little to no communication between providers and settings. There are no agreed upon protocols for care transitions and little care management across the continuum. Due to the rural geography and transience of many high-risk patients once they leave the "teaching/engaging" moment at the hospital, the Health Home care managers are unable to find them to engage them in outpatient services and active participation in their care plans that would prevent future hospitalizations and ED use. In addition, there is a PC workforce shortage that requires a focused cross-system effort to increase capacity in order that we may serve those with chronic disease burdens. Because CBOs have little to no interaction with inpatient settings or PCPs, there is often a gap in leveraging community support services such as the NDPP. Patients need facilitated, smooth transitions and communication across all settings.

Mitigation: Implementation of a regional care transition project (2biv), regional delivery system integration (2ai) and a strategy to improve PCMH status (2aii)."

Page 294 of 389 **Run Date**: 06/28/2019

#### IPQR Module 3.c.ii.2 - Patient Engagement Speed

#### Instructions:

Enter the number of patients actively engaged through the current quarter. The number entered into the "Quarterly Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for Q4 should include patients previously reported in Q3 plus new patients engaged in Q4. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

#### Project 4.a.iii – Strengthen Mental Health and Substance Abuse Infrastructure across Systems

IPQR Module 4.a.iii.1 - Major Risks to Implementation and Mitigation Strategies

#### Instructions:

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

As evidenced by the CNA, mental illness is the single largest cause of Medicaid hospitalization and emergency room visits in the region, and the leading cause of all avoidable hospitalizations.

1.) Risk: The diagnosis of mental health and substance abuse disorders is sufficiently widespread presenting the risk that project resource allocation may become diluted.

Mitigation: The diversity of causal factors and the existence of several comorbidities prompted the PPS to focus the project 4.a.iii. on two specific areas: 1) school-aged youth, and 2)identified geographic pockets where poverty is co-localized with high rates of avoidable hospital use.

- 2.) Risk: The existing isolation of services and lack of coordination that plague regional prevention efforts, will present another critical risk to implementation. A strong and integrated mental health and substance abuse infrastructure requires efficient coordination of services. The PPS will partner with the North Country Behavioral Healthcare Network (NCBHN) to address the stated risk.
- 3.) Risk: Another risk to the successful implementation of project 4.a.iii is our reliance on stakeholders to adopt evidence-based practices and to align programming with regional needs.

Mitigation: To mitigate this risk and move our partners along in the process the PPS will coordinate this effort with project 3.a.i.

4.) Risk: Culture change will be one of our biggest challenges. Currently the region's prevention efforts are often provided in isolation of one another on a county by county basis. Services are not necessarily tied to the regional health assessment data. As a result efforts are not routinely targeted to the highest priority MEB need nor are they to the geographic areas of greatest need. Tying programming to regional needs data will be a significant change for many stakeholder agencies. Likewise agencies will need to adopt evidence based practices and commit to monitoring effectiveness over time. Geography and the associated travel time for meetings may also be a barrier.

Mitigation: Expanded use of web based meeting and video conferencing technology will be utilized. An administrative service agency will also need to be designated that can dedicate staff to implementing the project and keeping stakeholders engaged.

Project 4.b.ii – Increase Access to High Quality Chronic Disease Preventive Care and Management in Both Clinical and Community Settings (Note: This project targets chronic diseases that are not included in domain 3, such as cancer

IPQR Module 4.b.ii.1 - Major Risks to Implementation and Mitigation Strategies

#### Instructions:

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

Our PPS intends to promote prevention services related to chronic obstructive pulmonary disease (COPD) and colorectal cancer by leveraging existing partnerships with community-based organizations and by utilizing Electronic Health Records (EHRs) to identify and track high-risk patients. Successful project implementation will therefore be contingent upon our partners and upon EHR functionality.

Some risks to implementation presented by our partners include their capacity to offer programming to the high number of regional residents that require intervention, their ability to offer interventions at satellite locations (to overcome existing transportation challenges), and the financial sustainability of each program. Our PPS is committed to the sustained delivery of these programs and will therefore mitigate the outlined risks by leveraging resources to assist our partners to deliver programming at the scope required to achieve measurable health improvement.

1.) Risk: The region is characterized by a wide variety of EHR platforms, each with unique functionalities and challenges. One major EHR-based risk to implementation is the flexibility of a particular platform to add functionality allowing providers to seamlessly identify and refer high-risk patients to existing community-based prevention programming.

Mitigation: Our PPS has decided to mitigate that risk by conducting a comprehensive assessment of EHR functionality and developing a systematic plan to provide technical assistance to practices requiring added functionality to ensure that the target patient population is sufficiently identified, referred to services and tracked. This will be done in conjunction with 2.a.i and 2.a.ii.

2.) Risk: Prevention programs such as tobacco cessation are not covered services and are not receiving referrals.

Mitigation: NCI will utilize DSRIP funds to pay for prevention services for identified chronic diseases with a high incidence in the PPS service area. NCI will connect patients to community-based preventive services and adopt and use certified EHRs, especially those with clinical decision supports and registry functionally to send reminders to patients for preventive and follow-up care, including the identification of community resources to support disease self-management.

3.) Risk: Several practices do not have spirometry equipment to diagnose COPD.

Mitigation: There are financial incentives (a reimbursable service) to purchasing spirometry equipment. NCI will encourage providers to purchase equipment, thereby ensuring the sustainability of spirometry screening programs which are proven to increase the accuracy of COPD diagnosis and the accuracy of management of COPD.

4.) Risk: 60% of PCPs have either never attempted APC/PCMH certification, or have allowed 2008 standards to lapse. All participating PCPs will have to re-apply to be recognized under the 2014 NCQA standards by DY3.

#### **DSRIP Implementation Plan Project**

**North Country Initiative (PPS ID:45)** 

Mitigation: The strategies to address this challenge incorporated in Project 2.a.ii. will be duplicated here for non-safety net PCPs

5.) Risk: Resources are generally available in high density population centers. While approximately 28% of the region's total population lives within these communities, almost 60% of the Medicaid population lives in high population density regions. The remaining individuals must travel long distances to access care, a situation exacerbated by the average annual snowfall of over 200 inches.

Mitigation: The NCI will train, hire and resource care managers and CHWs to meet patients "where they are" through engagement, outreach and shared decision-making.

### **DSRIP Implementation Plan Project**

**North Country Initiative (PPS ID:45)** 

#### **IPQR Module 4.b.ii.2 - PPS Defined Milestones**

#### Instructions:

Please provide updates to baseline reporting on status, target dates, and work breakdown tasks for PPS-defined milestones.

| Milestone/Task Name   | Status    | Description   | Original<br>Start Date | Original<br>End Date | Start Date | End Date   | Quarter<br>End Date | DSRIP<br>Reporting<br>Year and<br>Quarter |
|---|-----------|---|------------------------|----------------------|------------|------------|---------------------|---|
| Milestone  1. Establish or enhance reimbursement and incentive models to increase delivery of high-quality chronic disease prevention and management services   | Completed | Establish or enhance reimbursement and incentive models to increase delivery of high-quality chronic disease prevention and management services   | 04/01/2015             | 03/31/2017           | 04/01/2015 | 03/31/2017 | 03/31/2017          | DY2 Q4                                    |
| Task a. Coordinate with Medical Management Committee to develop PPS-wide approach to incentivize clinicians to refer to preventive services   | Completed | Coordinate with Medical Management Committee to develop PPS-wide approach to incentivize clinicians to refer to preventive services   | 04/01/2015             | 03/31/2017           | 04/01/2015 | 03/31/2017 | 03/31/2017          | DY2 Q4                                    |
| Task b. Work with Medical Management Committee to identify opportunities to incorporate referral to preventive services in VBP planning   | Completed | Work with Medical Management Committee to identify opportunities to incorporate referral to preventive services in VBP planning   | 04/01/2015             | 06/30/2016           | 04/01/2015 | 06/30/2016 | 06/30/2016          | DY2 Q1                                    |
| Task c. Work with VBP workgroup to incorporate referral to preventive services in VBP planning  | Completed | Work with VBP workgroup to incorporate referral to preventive services in VBP planning  | 04/01/2015             | 03/31/2017           | 04/01/2015 | 03/31/2017 | 03/31/2017          | DY2 Q4                                    |
| Milestone 2. Offer recommended clinical preventive services   | Completed | Offer recommended clinical preventive services  | 04/01/2015             | 09/30/2017           | 04/01/2015 | 09/30/2017 | 09/30/2017          | DY3 Q2                                    |
| Task  a. Incorporate focused cancer screening policies/protocols into PPS primary care partners workflow during PCMH implementations, where appropriate, including standing orders that address the ordering, review, and follow-up or evidence- based cancer screening tests | Completed | Incorporate focused cancer screening policies/protocols into PPS primary care partners workflow during PCMH implementations, where appropriate, including standing orders that address the ordering, review, and follow-up or evidence-based cancer screening tests | 04/01/2015             | 09/30/2017           | 04/01/2015 | 09/30/2017 | 09/30/2017          | DY3 Q2                                    |
| Task b. Increase provider/care team knowledge of screening protocols and clinical practice guidelines by incorporating into NCI DSRIP Communication Plan  | Completed | Increase provider/care team knowledge of screening protocols and clinical practice guidelines by incorporating into NCI DSRIP Communication Plan  | 04/01/2015             | 12/31/2015           | 04/01/2015 | 12/31/2015 | 12/31/2015          | DY1 Q3                                    |
| Task c. Increase provider/care team knowledge of screening protocols and clinical practice guidelines   | Completed | Increase provider/care team knowledge of screening protocols and clinical practice guidelines by incorpation into PPS Primary Care workforce  | 04/01/2015             | 12/31/2015           | 04/01/2015 | 12/31/2015 | 12/31/2015          | DY1 Q3                                    |

#### **Attestation**

The Lead Representative has been designated by the Primary Lead PPS Provider (PPS Lead Entity) as the signing officiate for the DSRIP Quarterly Report. The Lead Representative has the authority to complete this attestation on behalf of the PPS network. The Lead Representative and PPS Lead Entity are responsible for the authenticity and accuracy of the material submitted in this report.

The Lead Representative of the Performing Provider System (PPS) must complete this attestation form in order for the project application to be accepted by the NYS Department of Health. Once the attestation is complete, the Quarterly Report will be locked down from any further editing. Do not complete this section until the entire Quarterly Report is complete.

If the Quarterly Report becomes locked in error and additional changes are necessary, please use the contact information on the Home Page to request that the Quarterly Report be unlocked.

| To electronically sign this Quarte | erly Report, please enter the required inform   | mation and check the box below: |      |   |

**DSRIP Implementation Plan Project** 

| Project ID | Module Name / Milestone #  | Review Status   |
|------------|--|-----------------|
|            | Module 2.a.i.2 - Prescribed Milestones   |                 |
|            | Milestone #1 All PPS providers must be included in the Integrated Delivery System. The IDS should include all medical, behavioral, post-acute, long-term care, and community-based service providers within the PPS network; additionally, the IDS structure must include payers and social service organizations, as necessary to support its strategy. | Pass & Complete |
|            | Milestone #2 Utilize partnering HH and ACO population health management systems and capabilities to implement the PPS' strategy towards evolving into an IDS.  | Pass & Complete |
|            | Milestone #3 Ensure patients receive appropriate health care and community support, including medical and behavioral health, post-acute care, long term care and public health services.   | Pass & Complete |
|            | Milestone #4 Ensure that all PPS safety net providers are actively sharing EHR systems with local health information exchange/RHIO/SHIN-NY and sharing health information among clinical partners, including directed exchange (secure messaging), alerts and patient record look up, by the end of Demonstration Year (DY) 3.                           | Pass & Complete |
| 2.a.i      | Milestone #5 Ensure that EHR systems used by participating safety net providers meet Meaningful Use and PCMH Level 3 standards and/or APCM by the end of Demonstration Year 3.   | Pass & Complete |
|            | Milestone #6 Perform population health management by actively using EHRs and other IT platforms, including use of targeted patient registries, for all participating safety net providers.   | Pass & Complete |
|            | Milestone #7 Achieve 2014 Level 3 PCMH primary care certification and/or meet state-determined criteria for Advanced Primary Care Models for all eligible participating PCPs, expand access to primary care providers, and meet EHR Meaningful Use standards by the end of DY 3.   | Pass & Complete |
|            | Milestone #9 Establish monthly meetings with Medicaid MCOs to discuss utilization trends, performance issues, and payment reform.  | Pass & Complete |
|            | Milestone #10 Re-enforce the transition towards value-based payment reform by aligning provider compensation to patient outcomes.  | Pass & Complete |
|            | Milestone #11 Engage patients in the integrated delivery system through outreach and navigation activities, leveraging community health workers, peers, and culturally competent community-based organizations, as appropriate.  | Pass & Complete |
|            | Module 2.a.ii.2 - Patient Engagement Speed   | Pass & Ongoing  |
|            | Module 2.a.ii.3 - Prescribed Milestones  |                 |
| 2.a.ii     | Milestone #1 Ensure that all eligible participating PCPs in the PPS meet NCQA 2014 Level 3 PCMH accreditation and/or meet state-determined criteria for Advanced Primary Care Models by the end of DSRIP Year 3.   | Pass & Complete |
|            | Milestone #2 Identify a physician champion with knowledge of PCMH/APCM implementation for each primary care practice included in the project.  | Pass & Complete |
|            | Milestone #3 Identify care coordinators at each primary care site who are responsible for care connectivity, internally, as well as connectivity to care managers at other primary care practices.   | Pass & Complete |
|            | Milestone #4 Ensure all PPS safety net providers are actively sharing EHR systems with local health information exchange/RHIO/SHIN-NY and sharing health information among clinical partners, including direct exchange (secure messaging),  | Pass & Complete |

|------------|--|-----------------|----------|
|            | Milestone #4 Transition of care protocols will include early notification of planned discharges and the ability of the transition care manager to visit the patient in the hospital to develop the transition of care services.  | Pass & Complete |          |
|            | Milestone #5 Protocols will include care record transitions with timely updates provided to the members' providers, particularly primary care provider.  | Pass & Complete |          |
|            | Milestone #6 Ensure that a 30-day transition of care period is established.  | Pass & Complete |          |
|            | Milestone #7 Use EHRs and other technical platforms to track all patients engaged in the project.  | Pass & Complete |          |
|            | Module 2.d.i.2 - Patient Engagement Speed  | Pass & Ongoing  | <u> </u> |
|            | Module 2.d.i.3 - Prescribed Milestones   |                 |          |
|            | Milestone #1 Contract or partner with community-based organizations (CBOs) to engage target populations using PAM(R) and other patient activation techniques. The PPS must provide oversight and ensure that engagement is sufficient and appropriate.   | Pass & Complete |          |
|            | Milestone #2 Establish a PPS-wide training team, comprised of members with training in PAM(R) and expertise in patient activation and engagement.  | Pass & Complete |          |
|            | Milestone #3 Identify UI, NU, and LU "hot spot" areas (e.g., emergency rooms). Contract or partner with CBOs to perform outreach within the identified "hot spot" areas.   | Pass & Complete |          |
|            | Milestone #4 Survey the targeted population about healthcare needs in the PPS' region.   | Pass & Complete |          |
|            | Milestone #5 Train providers located within "hot spots" on patient activation techniques, such as shared decision-making, measurements of health literacy, and cultural competency.  | Pass & Complete |          |
|            | Milestone #6 Obtain list of PCPs assigned to NU and LU enrollees from MCOs. Along with the member's MCO and assigned PCP, reconnect beneficiaries to his/her designated PCP (see outcome measurements in #10).   |                 |          |
| 2.d.i      | <ul> <li>This patient activation project should not be used as a mechanism to inappropriately move members to different health plans and PCPs, but rather, shall focus on establishing connectivity to resources already available to the member.</li> <li>Work with respective MCOs and PCPs to ensure proactive outreach to beneficiaries. Sufficient information must be provided regarding insurance coverage, language resources, and availability of primary and preventive care services. The state must</li> </ul> | Pass & Complete |          |
|            | review and approve any educational materials, which must comply with state marketing guidelines and federal regulations as outlined in 42 CFR §438.104.  |                 |          |
|            | Milestone #7 Baseline each beneficiary cohort (per method developed by state) to appropriately identify cohorts using PAM(R) during the first year of the project and again, at set intervals. Baselines, as well as intervals towards improvement, must be set for each cohort at the beginning of each performance period.   | Pass & Complete |          |
|            | Milestone #8 Include beneficiaries in development team to promote preventive care.   | Pass & Complete |          |
|            | Milestone #9 Measure PAM(R) components, including:  • Screen patient status (UI, NU and LU) and collect contact information when he/she visits the PPS designated facility or "hot spot" area for health service.  • If the beneficiary is UI, does not have a registered PCP, or is attributed to a PCP in the PPS' network, assess patient using PAM (R) survey and designate a PAM(R) score.  | Pass & Complete |          |
|            | Individual member's score must be averaged to calculate a baseline measure for that year's cohort.   |                 |          |

Page 337 of 389 Run Date : 06/28/2019

|------------|---|-----------------|----------|
|            | The cohort must be followed for the entirety of the DSRIP program.  |                 |          |
|            | • On an annual basis, assess individual members' and each cohort's level of engagement, with the goal of moving beneficiaries to  |                 |          |
|            | a higher level of activation. • If the beneficiary is deemed to be LU & NU but has a designated PCP who is not part of the PPS' network, counsel the beneficiary on better utilizing his/her existing healthcare benefits, while also encouraging the beneficiary to reconnect with his/her designated PCP. |                 |          |
|            | The PPS will NOT be responsible for assessing the patient via PAM(R) survey.  |                 |          |
|            | • PPS will be responsible for providing the most current contact information to the beneficiary's MCO for outreach purposes.  |                 |          |
|            | • Provide member engagement lists to relevant insurance companies (for NU & LU populations) on a monthly basis, as well as to DOH on a quarterly basis.   |                 |          |
|            | Milestone #10 Increase the volume of non-emergent (primary, behavioral, dental) care provided to UI, NU, and LU persons.  | Pass & Complete |          |
|            | Milestone #11 Contract or partner with CBOs to develop a group of community navigators who are trained in connectivity to healthcare coverage, community healthcare resources (including for primary and preventive services) and patient education.  | Pass & Complete |          |
|            | Milestone #12 Develop a process for Medicaid recipients and project participants to report complaints and receive customer service.   | Pass & Complete |          |
|            | Milestone #13 Train community navigators in patient activation and education, including how to appropriately assist project beneficiaries using the PAM(R).   | Pass & Complete |          |
|            | Milestone #14 Ensure direct hand-offs to navigators who are prominently placed at "hot spots," partnered CBOs, emergency departments, or community events, so as to facilitate education regarding health insurance coverage, age-appropriate primary and preventive healthcare services and resources.     | Pass & Complete |          |
|            | Milestone #15 Inform and educate navigators about insurance options and healthcare resources available to UI, NU, and LU populations.   | Pass & Complete |          |
|            | Milestone #16 Ensure appropriate and timely access for navigators when attempting to establish primary and preventive services for a community member.  | Pass & Complete |          |
|            | Milestone #17 Perform population health management by actively using EHRs and other IT platforms, including use of targeted patient registries, to track all patients engaged in the project.   | Pass & Complete |          |
|            | Module 3.a.i.2 - Patient Engagement Speed   | Pass & Ongoing  | <b>B</b> |
|            | Module 3.a.i.3 - Prescribed Milestones  |                 |          |
|            | Milestone #1 Co-locate behavioral health services at primary care practice sites. All participating eligible primary care practices must meet 2014 NCQA level 3 PCMH or Advance Primary Care Model standards by DY 3.   | Pass & Complete |          |
| .a.i       | Milestone #2 Develop collaborative evidence-based standards of care including medication management and care engagement process.  | Pass & Complete |          |
|            | Milestone #3 Conduct preventive care screenings, including behavioral health screenings (PHQ-2 or 9 for those screening positive, SBIRT) implemented for all patients to identify unmet needs.  | Pass & Complete |          |
|            | Milestone #4 Use EHRs or other technical platforms to track all patients engaged in this project.   | Pass & Complete |          |
|            | Milestone #5 Co-locate primary care services at behavioral health sites.  | Pass & Complete |          |

#### **Additional Project Scale Commitments**

#### Instructions:

Please indicate the scale of the categories below that meet all of the project requirements committed to in the Project Plan Application. Documentation must be submitted in Excel format in the quarter when the PPS provider speed commitments for a particular project are due. This documentation should include the target category(e.g. Medical Villages, Emergency Departments with Care Triage, Community-based navigators, etc.), the project ID(e.g. 2.a.iv,2.a.v,3.a.ii, etc.), and the name of the providers/entities/individuals associated with this project, if applicable.

| Project Scale Category                          | Project | Selected | Committed |
|---|---------|----------|-----------|
| Expected Number of Medical Villages Established | 2.a.iv  | 0        | 6         |
| PAM(R) Providers                                | 2.d.i   | 0        | 60        |
