**Narrative Text :**

PPS lead has created a new line item under 'cost of project implementation and administration' called 'administration' which is associated with our central service organization, which is the business offices for the PPS. This includes the project management office, care management office, and provider & community engagement functions.

**Instructions :**

Please enter and update target dates, as well as breakdown tasks with target dates for prescribed milestones. For milestones that are due within the reporting period, documentation is required to provide evidence of milestone achievement.

Any explanations regarding altered or missed target commitments must be included within the textbox, not as narrative within uploaded documentation. Note some milestones include minimum expected completion dates.

Milestone/Task Name	Status	Description	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter	AV
<b>Milestone #1</b> Finalize governance structure and sub-committee structure	Completed	This milestone must be completed by 9/30/2015. Governance and committee structure, signed off by PPS Board.	04/01/2015	09/30/2015	04/01/2015	09/30/2015	09/30/2015	DY1 Q2	YES
<b>Task</b> Step 1: Create governance structure as outlined in organization application. PPS governance to reflect the clinical (Hospital, CBO, FQHC, etc.) and geographical (Nassau-Suffolk border, Riverhead, North Fork, South Fork, etc.) diversity found in Suffolk County. Additional consideration will be given to the "health system framework" developed across the Suffolk PPS.	Completed	Step 1: Create governance structure as outlined in organization application. **Prescribed Milestones Narrative Text**

Milestone Name	Narrative Text
Finalize governance structure and sub-committee structure	<p>Three board members stepped off (1) Jeffrey Kraut (2) James Bernasko and (3) Michael O'Donnell. New board appointees are (1) Kristofer Smith (2) Jacqueline Mondros and (3) Terry O'Brien</p> <p>General Program Narrative: The Community Engagement Leadership Workgroup (the "Workgroup") met in February 16, 2016 and March 15, 2016. The Workgroup developed and agreed on the final draft of the SCC Community Engagement Plan (the "Plan"). The proposed Plan was submitted to the governance committee, the Community Needs Assessment, Outreach and Cultural Competency and Health Literacy Committee (the "Committee"), for review. The quarterly Committee meeting was held on February 22, 2016. The Committee reviewed the activities of the Community Engagement Workgroup to date including expanding partnerships and collaborations, the proposed community resources directory partnership as well as organizational workstream and project specific deliverables across the SCC portfolio. Additionally, the Committee reviewed and endorsed the Community Engagement Plan.</p> <p>Amy Solar-Greco, Project Manager for Project 2di CHAP, has joined the Community Engagement Workgroup.</p> <p>As previously reported, SCC has successfully finalized and executed partnership contracts/agreements with three CBO partners and continues the ongoing process of developing relationships with CBOs, based on identified project needs, and the opportunities that may lead to future agreements and/or contracts</p>
Establish a clinical governance structure, including clinical quality committees for each DSRIP project

**State University of New York at Stony Brook University Hospital (PPS ID:16)**

**Prescribed Milestones Narrative Text**

Milestone Name	Narrative Text
Finalize bylaws and policies or Committee Guidelines where applicable	no changes
Establish governance structure reporting and monitoring processes	
Finalize community engagement plan, including communications with the public and non-provider organizations (e.g. schools, churches, homeless services, housing providers, law enforcement)	
Finalize partnership agreements or contracts with CBOs	Response to IA Comment: The SCC previously reported the scope/plan for milestone 6 was completed: finalizing CBO partnership agreements or contracts. This was SCC's understanding for accomplishing this milestone. Since finalizing the documents, three (3) CBO partners have signed and executed contracts or agreements based on identified project needs and was identified in the CBO template. The CBO partner contracting process is an iterative process and we expect to continue to engage CBO partners via contracting opportunities throughout the project lifecycle. As per the IA's remediation comments and guidance, the SCC will extend the end date of this milestone to June 30, 2018.
Finalize agency coordination plan aimed at engaging appropriate public sector agencies at state and local levels (e.g. local departments of health and mental hygiene, Social Services, Corrections, etc.)	
Finalize workforce communication and engagement plan	
Inclusion of CBOs in PPS Implementation.

**✓ IPQR Module 2.3 - Major Risks to Implementation & Risk Mitigation Strategies**

**Instructions :**

Please describe the key challenges or risks that you foresee in implementing your governance structure and processes and achieving the milestones described above, as well as potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

Issue: The potential that the governance model developed won't be seen as truly representing the PPS providers or their needs Risk Mitigation: The establishment of the BOD as a governing body that is dedicated and unique to the PPS offers several advantages in ensuring the adequate governance and management of the PPS: i) It allows the responsibilities of the BOD to be dedicated and limited to the governance of the PPS. This ensures that the members of the BOD do not have broader responsibilities to any of the PPS participants that could potentially subject them to competing demands for their loyalty. Further, it enables the BOD's members to be held accountable to the PPS's stakeholders solely on their management of the PPS. ii) Moreover, it allows for the presence of representatives from critical stakeholder groups on the actual decision making body of the PPS. Nearly half of the BOD is composed of members who represent a stakeholder group that is critical to the PPS's success, and approximately 20% of the initial BOD is composed of physicians. The inclusion of representatives from such stakeholders will improve BOD's decision making by helping it consider issues from multiple viewpoints. The size of the initial BOD has been limited to 21 directors. This ensures that the BOD will have a sufficient number of positions to include a broad range of stakeholders and other individuals with the skills, experience, and qualities required to effectively manage its workload. The PAC, the PAC Executive Committee, and the 11 Project Committees will help ensure that stakeholders have forums to engage in collaborative decision-making, develop shared goals that drive collaborative activities. Through these committees, the stakeholders will have the means to develop recommendations and effectively influence the BOD's policies on the issues that are most critical to the achievement of the DSRIP goals. PAC meetings are scheduled periodically to allow all PPS partner organizations to provide input, voice concerns, and jointly develop solutions. Issue: The governance structure of the PPS may not remain up-to-date with changing needs of the PPS and thusly limit the ability to create an effective integrated delivery system. Risk mitigation: The BOD will conduct reviews of the performance of the PPS's governance bodies not less than annually. In evaluating the performance of such bodies, the BOD will obtain feedback from the members of such bodies as well as the coalition partners. The performance reviews will evaluate matters such as the governance body's contribution to the achievement of the DSRIP goals, the governance body's effectiveness in making decisions on a timely basis, and the inclusiveness, transparency, and accountability of the governing body's processes. Such performance reviews may indicate that a change in the governance structure is necessary to increase its effectiveness. Issue: Failure of effective communication may limit the ability of PPS providers to adopt new strategies and care processes needed to create the results the PPS requires. Risk mitigation: Multiple mechanisms will be used to engage all key stakeholder and providers on topics important to the PPS: a) Communications Strategies. The BOD will maintain a CNA and Outreach Committee charged with promoting stakeholder engagement, including Medicaid members. The Committee will develop a plan for engaging stakeholders through newsletters, email list serves, webinars, community lectures, and other public meetings and events.(b) Website. The PPS's website will include a webpage dedicated to stakeholder engagement. (c) Participation in Governance. Stakeholders, including patient advocates, will be represented on the PAC, the PAC Executive Committee, and the BOD, where they will have a meaningful voice and function as liaisons with the stakeholder groups they represent.

**✓ IPQR Module 2.4 - Major Dependencies on Organizational Workstreams**

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project  
DSRIP Implementation Plan Project**

**State University of New York at Stony Brook University Hospital (PPS ID:16)**

**Instructions :**

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

All other work streams will need to be successful in the implementation of their respective tasks to enable the PPS Governance system to be successful in the creation of a truly integrated delivery system of care and to . In particular, the financial sustainability and IT work streams are critical to the success of the PPS and will provide the forum for the governance work stream to operate effectively. A key role of the Governance system itself will be to provide clarity of purpose for all work streams and project teams, to provide effective oversight of their efforts and to help remove barriers that they may be facing.

**✓ IPQR Module 2.5 - Roles and Responsibilities**

**Instructions :**

Please list and elaborate upon the key people/organizations responsible for the development of your governance structure and processes and describe what their responsibilities involve.

<b>Role</b>	<b>Name of person / organization (if known at this stage)</b>	<b>Key deliverables / responsibilities</b>
PPS Executive Lead	Joseph Lamantia/Suffolk Care Collaborative	Provide guidance and oversight of governance structure issues across PPS
PPS Medical Director	Linda Efferen, MD/Suffolk Care Collaborative	Responsible for supporting oversight of clinical workforce components of the of overall Workforce Work stream
PPS Governance Project Lead	Jennifer Jamilkowski/Stony Brook Medicine	Oversight to Governance project plan, work stream, and milestones for PPS
Compliance Officer	Sarah Putney/Suffolk Care Collaborative	Lead Compliance Program, including chairing Compliance Sub-Committee; implementing Work Plan; training; hotline; monitoring; investigations; promoting culture of ethics and compliance with DSRIP requirements.
PPS Director, Network Development & Performance	Kevin Bozza/Suffolk Care Collaborative	Responsible for the Workforce & Community Engagement milestones as well as the Performance Evaluation, reporting, and Management structure for the PPS
Senior Manager Provider & Community Engagement	Althea Williams/Suffolk Care Collaborative	Responsible for the Community Engagement, CC/HL strategy, Lead of development, management and oversight of all CC/HL deliverables and strategies and implementation plans to ensure completeness, timeliness and effectiveness
Director, Project Management Office	Alyssa Scully/Suffolk Care Collaborative	Project Management Office will champion consistent project management practices and methodologies, which will help the Suffolk PPS execute the DSRIP portfolio. In addition, will support the DSRIP project stakeholders to as a source for project management expertise, support communications, and align like-scope requirements within multiple projects.
Board of Directors	Kenneth Kaushansky, MD, L. Reuven Pasternak, MD, Gary E. Bie, James Sinkoff, Joseph Lamantia, Michael Stoltz - patient advocate, Robert Heppenheimer -LTC, Gwen O'Shea- CBO, Jerrold Hirsch, Jeffrey Kraut, Michael O'Donnell, Brenda Farrell, Karen Boorshtein, LCSW - BH, Mary J. Zagajeski, MS, RN, Margaret M. McGovern, MD ,PhD, Harold Fernandez, MD, Jim Murry, Kristie Golden, PhD, LMHC, CRC, Jennifer Jamilkowski, MBA, MHS, Carol Gomes, MS, FACHE,CPHQ, James Bernasko MB, CHB,	Ultimate accountability for governance oversight of all PPS functions and governance structure itself

**State University of New York at Stony Brook University Hospital (PPS ID:16)**

**✔ Module 2.6 - IPQR Module 2.6 - Key Stakeholders**

**Instructions :**

Please identify the key stakeholders involved, both within and outside the PPS with regard to your governance structure and processes.

<b>Key stakeholders</b>	<b>Role in relation to this organizational workstream</b>	<b>Key deliverables / responsibilities</b>
<b>Internal Stakeholders</b>		
Joseph Lamantia	PPS Executive Lead	Overall leadership and guidance related to the Workforce Deliverables
Joseph Lamantia (Stony Brook), Jerry Hirsch (NSLIJ), Terry O'Brien (CHS)	Health System Leads of Suffolk PPS	Overall leadership of the enterprise strategy and deliverables across Suffolk PPS Health System framework
Ariel Hayes (NSLIJ), Jessica Wyman, (CHS)	Health System Project Management Office (PMO) Units (NSLIJ & CHS)	Implementation of deliverables across Suffolk PPS Health System framework
Alyssa Correale, Alyse Marotta, Amy Solar-Doherty, Ashley Meskill, Alyeah Ramjit, Samuel Lin	Suffolk Care Collaborative Project Management Office	PMO support for all organizational work stream milestones to include, budget & finance related projects, and tactical management of implementation in the PMO software.
Althea Williams, Senior Manager, Provider & Community Engagement, Suffolk Care Collaborative	Cultural Competency & Health Literacy Lead and Community Engagement Project Lead	Assure cultural competency and health literacy practices addressed within the communication methods of performance reporting
Kevin Bozza, Director Network Development & Performance, Suffolk Care Collaborative	Workforce Project Lead	Communication lead, Training lead, support management of workforce consultants and contracted deliverables, ensuring provider training occurs in a timely manner, obtain feedback from all PPS member organizations who participate in the Suffolk PPS for potential workforce related organizational changes
Lou De Onis, Interim Chief of Human Resources, Stony Brook Medicine	Human Resources Lead, Workforce Project Lead	Providing subject matter expertise in Human Resources across all workforce deliverables
Workforce Advisory Group	Workforce Advisory and Subject Matter Expertise Support Group	Subject matter experts, provide insight, information related to sources and destinations of redeployed staff, review workforce deliverables, support current and future state assessments
All PPS Coalition Partners (All unit level provider types enrolled in the Suffolk PPS including: PCP, non-PCP, Hospitals, Freestanding Inpatient/Rehab, SNF/Nursing Home, Clinics, Case Management/Health Homes, Behavioral Health, Substance Abuse, Pharmacy, Hospice, All Other)	Engaged Contracted Partner	Collaborate with Suffolk PPS Administration to adopt, support development and work to engage in project plans designed for particular unit level provider type. Accountable for reporting progress, CC/HL materials, and outcomes to meeting financial milestones within arrangement.

**New York State Department Of Health  
 Delivery System Reform Incentive Payment Project  
 DSRIP Implementation Plan Project**

**State University of New York at Stony Brook University Hospital (PPS ID:16)**

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
Key Community Based Organizations (CBOs)	Provide feedback to drafts of strategic plan for HL & CC, all 11 DSRIP projects and the CBO engagement programs	Provide information to the PPS on existing disparities and gaps in culturally competent care being provided
Kenneth Kaushansky, MD, L. Reuven Pasternak, MD, Gary E. Bie, James Sinkoff, Joseph Lamantia, Michael Stoltz - patient advocate, Robert Heppenheimer -LTC, Gwen O'Shea- CBO, Jerrold Hirsch, Kristopher Smith, MD, Michael O'Donnell, Brenda Farrell, Karen Boorshtein, LCSW - BH, Mary J. Zagajeski, MS, RN, Margaret M. McGovern, MD ,PhD, Harold Fernandez, MD, Jim Murry, Kristie Golden, PhD, LMHC, CRC, Jennifer Jamilkowski, MBA, MHS, Carol Gomes, MS, FACHE,CPHQ, Jacqueline Mondros, DSW	Board of Directors	Ultimate accountability for governance oversight of all PPS functions and governance structure itself
<b>External Stakeholders</b>		
Medicaid MCOs	Support of PPS efforts	Collaborate with the PPS to meet requirements related to coordinated care and value-based payment
NYS Office of Mental Health/Agencies	Supportive oversight of PPS	County and State agencies and regulatory bodies with oversight and influence in a number of DSRIP project requirements (ex. waivers or regulatory relief)
NYS DOH	Supportive oversight of PPS	Help ensure PPS success in meeting prescribed milestones and measure targets through collaborative oversight process
Patients & Families	Improved health outcomes as a result of the PPS enterprise PHM program	Engagement in strategies and provide feedback on all output

Delivery System Reform Incentive Payment Project  
DSRIP Implementation Plan Project**

**State University of New York at Stony Brook University Hospital (PPS ID:16)**

**✓ IPQR Module 2.7 - IT Expectations**

**Instructions :**

Please clearly describe how the development of shared IT infrastructure across the PPS will support this particular workstream and your ability to achieve the milestones described above.

As mentioned in the dependencies section, a shared IT infrastructure across the PPS will enhance the role of the governing bodies by supporting the ability of the PPS Providers to provide effective clinical care and care coordination for each PPS patient across the continuum of their needs. This will ultimately lead to improved quality, utilization and financial results within this population and will therefore help support the financial success and sustainability of the PPS itself. A key challenge to this infrastructure is the diverse range of current IT capabilities across the PPS and the limited participation in the local RHIO. As the PPS continues to develop its provider network, providing the necessary support to this infrastructure will be key in capturing all necessary clinical and utilization data needed for performance monitoring of the PPS and its financial results.

**✓ IPQR Module 2.8 - Progress Reporting**

**Instructions :**

Please describe how you will measure the success of this organizational workstream.

Success will be measured through the development of a robust performance reporting structure that will track, among other metrics, the ability of the PPS to meet the specified milestones on time, monitor the financial performance of the PPS, and track progress toward the goal of 90% value-based provider payments within the PPS. The results of these reports will be communicated back to the key stakeholders in a timely and appropriate manner (e.g., PPS-level, project-level, provider-level, etc.) to facilitate improvement across the PPS.

Finalize PPS finance structure, including reporting structure	<p>No Changes</p> <p>General Program Narrative:</p> <p>Financial Sustainability DOH milestone 2 has been completed. The Financial Sustainability Strategy Document was created and approved by the Board of Directors. The network financial health current state assessment will be performed on an annual basis for providers who did not qualify as a Financially Fragile &amp; Distressed Provider. For those that did, the assessment will be done semi-annually.</p> <p>Financial Sustainability DOH milestone 4 is due 9/30/16. The Value Based Payment Workgroup is working on creating a survey to send to our network partners. Once we receive the results, we will be able to develop a detailed baseline assessment of revenue linked to value based payment, preferred compensation modalities for different provider types and the MCO strategy.</p>
Perform network financial health current state assessment and develop financial sustainability strategy to address key issues.	
Finalize Compliance Plan consistent with New York State Social Services Law 363-d	
Develop detailed baseline assessment of revenue linked to value-based payment, preferred compensation modalities for different provider-types and functions, and MCO strategy.	As per State's latest guidance, the required completion date for this milestone has been moved to DY2Q2. The source of this guidance is the "Update: Required Deadlines for Domain 1 Organizational Milestones" document. We updated the "end date" in MAPP to reflect this guidance.
Finalize a plan towards achieving 90% value-based payments across network by year 5 of the waiver at the latest	
Put in place Level 1 VBP arrangement for PCMH/APC care and one other care bundle or subpopulation	
Contract 50% of care-costs through Level 1 VBPs, and >= 30%

**✓ IPQR Module 3.3 - Major Risks to Implementation & Risk Mitigation Strategies**

**Instructions :**

Please describe the key challenges or risks that you foresee in implementing these cross-cutting organizational strategies, including potential impacts on specific projects and, crucially, any risks that will undermine your ability to achieve outcome measure targets.

Issue: The redesign of the reimbursement system will require a substantive shift in provider behavior as payments will be performance and value driven. This will disrupt the historical fee-for-service system that rewards volume. This will require providers to redesign their business models to adjust to the new paradigm.  
Risk mitigation: Through learning collaborative, the PPS will engage providers across the spectrum of care to provide assistance as the healthcare system transforms. Additionally, the PPS Finance Committee will monitor member's financial reports to ensure that the PPS will be able to meet its goals. In the event that a provider becomes financially unstable, a corrective action plan will be established and the PPS will support such provider(s) as needed.

Issue: Providers within the PPS, particularly in underserved, rural areas, already face challenges maintaining their availability in this changing healthcare financing environment.  
Risk Mitigation: To ensure that the DSRIP goals are met, the Finance Committee of the PPS is developing a provider financial reporting system for operating and financial statistics which, on a quarterly basis, will be a key performance indicator of the financial health of providers in the PPS. The survey will be required for providers across the continuum-of-care, as providers overall are instrumental in achieving the DSRIP metrics and milestones. Any providers who are unable to meet the financial metrics will be required to submit a plan of correction to ensure financial stability. These providers will also be eligible to receive support from the PPS in order to implement their turn-around plan. The PPS has not identified any providers that are in need of financial restructuring at this time.

The funds flow design has been structured to support those providers that are essential to achieving the PPS' DSRIP goals. In addition to project related costs and incentive payments, financially fragile providers will be eligible for special situation / contingency funds. The Suffolk PPS will monitor the financial condition of all providers that are critical to the success of the DSRIP projects. The PPS will work with any provider(s) whose financial condition deteriorates to implement a corrective action plan that will ensure that the necessary resources remain in place to meet the PPS' DSRIP goals.

Issue: The potential that Medicaid MCOs will not be amenable to piloting new value-based payment methodologies.  
Risk mitigation: Issue already raised within multiple DOH venues as to how Medicaid MCOs will be accountable for ensuring that new payment methodologies will be developed. Plan to keep open lines of communications with all MCOs, provide evidence that the PPS can bring value through actually delivering tangible results over the course of the DSRIP program. Keep DOH apprised of MCO efforts or lack of effort.

**✓ IPQR Module 3.4 - Major Dependencies on Organizational Workstreams**

**Instructions :**

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project  
DSRIP Implementation Plan Project**

**State University of New York at Stony Brook University Hospital (PPS ID:16)**

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

An effective IT/data warehouse solution with analytics run off of that stored PPS data will be important to ensure that comprehensive data/trend monitoring processes are in place. The PPS will need to effectively track all utilization trends that ultimately impact financial results to ensure that adverse trends are reopened to quickly and effectively. An effective PPS Governance structure will be required to ensure that all participating PPS Providers have an opportunity to benefit from the PPS Integrated Delivery System model, and thereby support the sustainability of the peps as a whole. A Performance Reporting model will be a key component of efforts to create and maintain financial stability of the PPS, through a comprehensive monitoring process that includes corrective action processes as needed in case of adverse trends or adverse provider performance.

**☑ IPQR Module 3.5 - Roles and Responsibilities**

**Instructions :**

Please list and elaborate upon the key people/organizations responsible for this organizational workstream and describe what their responsibilities involve.

<b>Role</b>	<b>Name of person / organization (if known at this stage)</b>	<b>Key deliverables / responsibilities</b>
PPS Executive Lead	Joe Lamantia/Suffolk Care Collaborative	Responsible for oversight of overall Financial Sustainability Work stream
Business Manager for DSRIP Operations	Neil Shah/Suffolk Care Collaborative	Responsible for development, management of Financial operations and milestones to include accounts payable, treasury/banking, general ledger, reporting, audit
PPS Finance Project Lead	Bernie Cooke/Stony Brook Medicine	Ultimate accountability for governance oversight of the Finance strategy to include accounts payable, treasury/banking, general ledger, reporting, audit
PPS Medical Director	Linda Efferen, MD/Suffolk Care Collaborative	Responsible for supporting oversight of clinical components of the of overall DSRIP Portfolio. Support financial sustainability monitoring across clinical projects and programs.
Compliance Team	Key PPS Compliance Project Stakeholders	Oversee the development and implementation of the compliance plan of the PPS Lead and related compliance requirements of the PPS as they are defined.
Compliance Officer	Sarah Putney/Suffolk Care Collaborative	Lead Compliance Program, including chairing Compliance Sub-Committee; implementing Work Plan; training; hotline; monitoring; investigations; promoting culture of ethics and compliance with DSRIP requirements.
Financial Sustainability Team	Key PPS Finance Project Stakeholders	Lead development of Financial Sustainability Milestones including Budget and Funds Flow milestones
MCO Relations Team Lead	Steven Feldman MD/Stony Brook Medicine	Lead Communication Channel to MCO Partners
MCO/Value Based Payment Workgroup	Steven Feldman MD, Bernie Cooke, Linda Efferen MD & Joseph Lamantia	Will oversee the development and implementation of the VBP Roadmap as well as lead negotiations with MCO partners
Director, Project Management Office	Alyssa Scully/Suffolk Care Collaborative	Project Management Office will champion consistent project management practices and methodologies, which will help the Suffolk PPS execute the DSRIP portfolio. In addition, will support the DSRIP project stakeholders to as a source for project management expertise, support communications, and align like-scope requirements within multiple projects.
PPS Director, Network Development & Performance	Kevin Bozza/Suffolk Care Collaborative	Responsible for the Workforce & Community Engagement milestones as well as the Performance Evaluation, reporting, and

**✓ IPQR Module 3.7 - IT Expectations**

**Instructions :**

Please clearly describe how the development of shared IT infrastructure across the PPS will support this particular workstream.

A shared IT infrastructure across the PPS will support this workstream by tracking financial performance and sharing that data across the PPS. Through this monitoring process, progress toward achieving the financial milestones laid out above will also be tracked and reported back to key stakeholders. In addition to monitoring the financial health of the PPS, a shared IT infrastructure will support the ability of the PPS Providers to provide effective clinical care and care coordination for each PPS patient across the continuum of their needs. This will ultimately lead to improved quality, utilization and financial results within this population and will therefore help support the financial success and sustainability of the PPS itself. In addition, this infrastructure will be key in capturing all necessary clinical and utilization data needed for performance monitoring of the PPS and its financial results.

**✓ IPQR Module 3.8 - Progress Reporting**

**Instructions :**

Please describe how you will measure the success of this organizational workstream.

The PPS PMO will establish a robust performance reporting structure to track the progress of the PPS towards the specified milestones. This monitoring process will be aided by the creation of a Financially Fragile & Distressed Provider list to help the PPS more efficiently allocate its resources to support struggling PPS partners and improve financial performance. If identified as eligible to be placed on the Financially Fragile list, the PMO team will communicate with the appropriate PPS partner in a timely and appropriate manner. Finally, the performance reporting structure will monitor key financial performance indicators, such as progress across the PPS towards developing 90% value-based provider payment contracts.

**Section 04 – Cultural Competency & Health Literacy**

**✓ IPQR Module 4.1 - Prescribed Milestones**

**Instructions :**

Please enter and update target dates, as well as breakdown tasks with target dates for prescribed milestones. For milestones that are due within the reporting period, documentation is required to provide evidence of milestone achievement. Any explanations regarding altered or missed target commitments must be included within the textbox, not as narrative within uploaded documentation. Note some milestones include minimum expected completion dates.

Milestone/Task Name	Status	Description	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter	AV
<b>Milestone #1</b> Finalize cultural competency / health literacy strategy.	Completed	This milestone must be completed by 12/31/2015. Cultural competency / health literacy strategy signed off by PPS Board. The strategy should: -- Identify priority groups experiencing health disparities (based on your CNA and other analyses); -- Identify key factors to improve access to quality primary, behavioral health, and preventive health care -- Define plans for two-way communication with the population and community groups through specific community forums -- Identify assessments and tools to assist patients with self-management of conditions (considering cultural, linguistic and literacy factors); and -- Identify community-based interventions to reduce health disparities and improve outcomes.	04/01/2015	12/31/2015	04/01/2015	12/31/2015	12/31/2015	DY1 Q3	YES

**Prescribed Milestones Narrative Text**

Milestone Name	Narrative Text
Finalize cultural competency / health literacy strategy.	<p>General Program Narrative:            The Community Needs Assessment, Outreach and Cultural Competency Health Literacy Committee (the "Committee") conducted their quarterly meeting on February 22, 2016. The Committee reviewed the activities of the Cultural Competency and Health Literacy Workgroup to date as well as the targeted population needs assessment survey tool, and organizational workstream and project specific deliverables across the SCC portfolio. The Committee accepted the targeted population needs assessment survey tool which is expected to be utilized in the Project 2di CHAP program initiatives.</p> <p>The Cultural Competency and Health Literacy Advisory Workgroup (the "Workgroup") met in February 19, 2016 and March 18, 2016. The Workgroup identified an opportunity to leverage the expertise of the members and effectively manage the strategies to achieve CCHL in our communities and developed subgroups to address patient education, CCHL training, and CCHL education. Each sub-group meets prior to our monthly meetings and reports out to the larger Workgroup. The Workgroup activities during this reporting period included reviewing and making recommendations on the following items: project specific patient education materials, patient assessment surveys, Workforce/CCHL current state assessment survey initial findings, and training resources including vendors, online learning modules, videos and the PPSs' Learning Center platform for our website. The Workgroup accepted the targeted population needs assessment survey tool and some project specific patient education materials. The SCC Workforce Current State Assessment Survey findings has provided preliminary information identifying potential gaps and focus areas. This information is being used to develop future training programs. The framework for the cultural competency and health literacy training plan has been developed in conjunction with the Workforce Training Plan being submitted this quarter.</p> <p>SCC is a collaborative partner with the Long Island Health Collaborative-Population Health Improvement Plan (LIHC-PHIP) and their leadership staff participates in our Workgroup. This collaboration has resulted in an extensive interview process researching CCHL training vendors to support the workforce educational needs for SCC partners (hospitals, local department of healths, CBOs, etc.).</p> <p>On May 6, 2016 Althea Williams participated in the 'Reviving Haiti/YAM Health Fair' held at St. Ann's church. Althea presented an overview of the Suffolk Care Collaborative and it's CCHL initiatives to the community.</p> <p>Althea Williams, Sr. Manager for Provider and Community Engagement participated in the All PPS meeting held on February 17, 2016 and presented on the</p>

**✓ IPQR Module 4.3 - Major Risks to Implementation & Risk Mitigation Strategies**

**Instructions :**

Please describe the key challenges or risks that you foresee in implementing your cultural competency / health literacy strategy and addressing the specific health disparities you are targeting (based on your CNA), and achieving the milestones described above - including potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

Issue: The PPS will face a number of key challenges in assuring cultural competency (CC) across all providers. These include: 1) Limited knowledge of current PPS member performance & capability in CC; 2) Difficulties in operationalizing CC; 3) An unclear connection between a person's cultural bias & everyday decision making; & 4) lack of diversity in the workforce & staff turnover requiring ongoing training. Risk mitigation: To address these challenges, we will fully engage & educate key leaders & stakeholders in each PPS agency on an ongoing basis. The strategic plan will focus on: 1) Maintain an understand community needs & demographic groups: This will elucidate the cultural issues, demographic trends, & service gaps. Ongoing PPS-wide surveys (leveraging PPS-wide resources) will be conducted to evaluate the need for performance improvement & to establish specific training needs. 2) Assure information exchange relative to CC throughout the PPS: This is aimed at improving CC & informing the policies & procedures of the PPS. The PPS will host quarterly town hall meetings in-person & via webinar to inform staff of program milestones, population health trends, changing patient demographics & available resources. To provide PPS members with readily available information, EMR modules on the customs of diverse cultures will also be created. 3) Improve the delivery of both existing/new services geared towards these groups: The Committee will evaluate quality of care, patient satisfaction surveys & complaints, & recommend necessary corrective actions to ensure CC. 4) Develop recruitment, hiring & retention procedures of bilingual/bicultural staff, as well as training existing staff in CC. This will create an inclusive working environment by recruiting & promoting a racially, culturally & linguistically diverse workforce across all organizational levels & functions. Training programs will be specific to the needs of the populations served, using CLAS standards. All providers & agency staff will be trained by the end of DY3. Issue: Potential limited ability to engage CBOs in Suffolk in this program Risk mitigation: In the long-term, we will seek to build CC & HL training into the service delivery model of CBOs so that case managers & providers will routinely help clients improve their health literacy as part of their jobs. With a diverse population composed of multiple ethnicities throughout the county, we will pay particular focus on CBOs that work with low income, low literacy, & limited-English proficient communities. For decades, CBOs have played a vital role in providing culturally competent services to racial & ethnic minorities. This segment of the Medicaid population will rely on CBOs as a primary option for social, preventive & behavioral health services. Such CBOs are more likely to have higher levels of bilingual staff; extensive knowledge of cultural values & norms for target populations; experience integrating cultural practices that promote trust & confidence among patients/clients; & knowledge & access to informal, culturally-based social networks within communities that can support families. In building stronger partnerships & contracts with CBOs, the PPS will link funding levels to the provision of culturally competent care; increase funding to CBOs that provide preventive services; provide incentives for CBOs to assist in increasing the pipeline of bilingual providers; & develop & promulgate CC standards & metrics while also providing assistance to help CBOs achieve these standards. Issue: Limited data sources on Race, Ethnicity & Language (REAL) & the disparities associated with these differences. Risk Mitigation: The PPS will work to more effectively collect REAL data & will also work very closely with community providers & CBOs to obtain information on local disparities & how the PPS might fill identified gaps.

**✓ IPQR Module 4.4 - Major Dependencies on Organizational Workstreams**

**Instructions :**

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**State University of New York at Stony Brook University Hospital (PPS ID:16)**

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

An effective IT/data warehouse solution with associated analytics will be important to ensure that data on REAL disparities is available to the PPS for action. An effective PPS Governance structure will be key to ensuring that the issues of CC and HL are continually brought to the forefront in prioritizing efforts and resources. The CNA Governance Committee will be important to ensure that a body of key stakeholders produces effective oversight of the CC/HL PPS strategy and that it is effectively implemented. A key area of alignment will be with the Workforce work stream to ensure that key components of CC/HL training are effectively implemented for all new and redeployed PPS staff. Another area of alignment will be with Population Health Management to address the CC/HL needs of target populations and their disparities. An effective clinical integration strategy will support the ability to disseminate the key concepts of cultural competency throughout the integrated PPS and provide focused efforts to engage the provider network in cultural competency training.

**✓ IPQR Module 4.5 - Roles and Responsibilities**

**Instructions :**

Please list and elaborate upon the key people/organizations responsible for this workstream and describe what their responsibilities involve.

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities
PPS Executive Lead	Joseph Lamantia/Suffolk Care Collaborative	Responsible for oversight of overall Cultural Competency and Health Literacy (CC/HL) Work stream
PPS Medical Director	Linda Efferen, MD/Suffolk Care Collaborative	Group of PPS partner clinicians responsible for developing CC and HL training programs for clinicians
PPS Project Lead for Cultural Competency & Senior Manager Provider & Community Engagement	Althea Williams/Suffolk Care Collaborative	Responsible for the CC/HL strategy, Lead of development, management and oversight of all CC/HL deliverables and strategies and implementation plans to ensure completeness, timeliness and effectiveness
PPS Project lead for Cultural Competency	Cordia Beverley, MD/Stony Brook Medicine	Responsible for the CC/HL strategy, Oversight of all CC/HL strategies and implementation plans to ensure completeness, timeliness and effectiveness. Liaison between Cultural Competency & Health Literacy Advisory Group and the Community Needs Assessment, Outreach & Cultural Competency & Health Literacy Committee
Director of Network Development & Performance for the Suffolk Care Collaborative	Kevin Bozza/Stony Brook Medicine	Overall guidance of the Partner/Community Engagement, Performance Reporting Plan, responsible for project management of the Performance Reporting milestones to include linkages across 11 DSRIP projects
DSRIP Project Leads	Joseph Lamantia, Jim Murry, Steven Feldman, Eric Niegelberg, Bob Heppenheimer, Dianne Zambori, RN, Gwen O'Shea, Peg Duffy, Kristie Golden, Margaret Duffy, Josh Miller, MD, Ellen Miller, Susmita Pati, MD, Ernie Conforti	CC/HL Project Leads will collaborate with Project Leads across DSRIP portfolio to evaluate CC/HL needs across projects and support implementation.
Cultural Competency and Health Literacy Advisory Group	Althea Williams, Cordia Beverley, MD, Robbye Kinkade, Anthony Romano, Catherina Messina, Eileen McManys, Adam Gonzalez, Aldustus Jordan, Katherine Brieger, Marvin Colson, Roberta Leiner, Elinor Schoenfeld, Yvonna Spreckles	A group of representatives from cross-functional resources (e.g. CBO's, patient representative groups, DSRIP project leads, , etc.) responsible for drafting CC and HL Strategic Plan and collaborators to project deliverables and activities, (including recruitment and training), for Board approval
Community Needs Assessment, Outreach & Cultural Competency & Health Literacy Committee	Cordia Beverley, MD, Karen O'Kane, Drew Pallas, Roberta Leiner, Lori Andrade, Kristie Golden, Elaine Economopoulos, Randi Shubin-Dresner, Juliet Frodella, Lucy Kenny, Nancy Copperman, Ronald McManus	The charge of the committee shall be to provide guidance in identifying community health needs and ensuring that the projects and other initiatives are effective in addressing such needs.
Director, Project Management Office	Alyssa Scully, Suffolk Care Collaborative	Project Management Office will champion consistent project

**✓ IPQR Module 4.6 - Key Stakeholders**

**Instructions :**

Please identify the key stakeholders involved, both within and outside the PPS.

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
<b>Internal Stakeholders</b>		
Joseph Lamantia	PPS Executive Lead	Responsible for oversight of overall Cultural Competency and Health Literacy Work stream
Joseph Lamantia (Stony Brook), Jerry Hirsch (NSLIJ), Terry O'Brien (CHS)	Health System Leads of Suffolk PPS	Overall leadership of the enterprise CC/HL strategy and deliverables across Suffolk PPS Health System framework
Ariel Hayes (NSLIJ), Jessica Wyman, (CHS)	Health System Project Management Office (PMO) Units (NSLIJ & CHS)	Implementation of CC/HL deliverables across Suffolk PPS Health System framework
Linda Efferen, MD	PPS Medical Director	Overall leadership and guidance related to the Clinical Program Portfolio
Kevin Bozza, Director Network Development & Performance, Suffolk Care Collaborative	Workforce Project Lead	Communication lead, Training lead, obtain feedback from all PPS member organizations who participate in the Suffolk PPS for potential workforce related organizational changes
Key Community Based Organizations	Provide feedback to drafts of strategic plan for HL & CC	Provide information to the PPS on existing disparities and gaps in culturally competent care being provided
Cultural Competency and Health Literacy Advisory Group	CC/HL Advisory and Subject Matter Expertise Group	Subject matter experts, provide insight, review CC/HL deliverables, support current and future state assessments
Community Needs Assessment, Outreach & Cultural Competency & Health Literacy Committee	CC/HL Governance Body	Approval of all CC/HL deliverables and support communications of deliverables
Alyssa Scully	Director Project Management Office	Project Management Office will champion consistent project management practices and methodologies, which will help the Suffolk PPS execute the DSRIP portfolio. In addition, will support the DSRIP project stakeholders to as a source for project management expertise, support communications, and align like-scope requirements within multiple projects.
Alyssa Scully, Alyse Marotta, Amy Solar-Doherty, Ashley Meskill, Samuel Lin, Alyeah Ramjit	Suffolk Care Collaborative Project Management Office	PMO support for all organizational work stream milestones to include, budget & finance related projects, and tactical management of implementation in the PMO software.
All PPS Coalition Partners (All unit level provider types enrolled in the Suffolk PPS including: PCP, non-PCP, Hospitals, Freestanding)	Engaged Contracted Partner	Collaborate with Suffolk PPS Administration to adopt, support development and work to engage in project plans designed for particular unit level provider type. Accountable for reporting

Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**State University of New York at Stony Brook University Hospital (PPS ID:16)**

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
Inpatient/Rehab, SNF/Nursing Home, Clinics, Case Management/Health Homes, Behavioral Health, Substance Abuse, Pharmacy, Hospice, All Other)		progress, CC/HL materials, and outcomes to meeting financial milestones within arrangement.
Kenneth Kaushansky, MD, L. Reuven Pasternak, MD, Gary E. Bie, James Sinkoff, Joseph Lamantia, Michael Stoltz - patient advocate, Robert Heppenheimer -LTC, Gwen O'Shea- CBO, Jerrold Hirsch, Jeffrey Kraut, Michael O'Donnell, Brenda Farrell, Karen Boorshtein, LCSW - BH, Mary J. Zagajeski, MS, RN, Margaret M. McGovern, MD ,PhD, Harold Fernandez, MD, Jim Murry, Kristie Golden, PhD, LMHC, CRC, Jennifer Jamilkowski, MBA, MHS, Carol Gomes, MS, FACHE,CPHQ, James Bernasko MB, CHB, CDE	Board of Directors	Ultimate accountability for governance oversight of all CC/HL PPS functions and governance structure itself
<b>External Stakeholders</b>		
Patients & Families	Improved health outcomes as a result of the PPS enterprise PHM program	Recipient of communications in the future around outcomes
Cultural Competency Training Vendors	CC/HL training vendors to provide development of technical training curriculum, recruiting support	Training vendors will be identified for CC/HL training across the DSRIP project implementation and workforce
Medicaid MCOs	Feedback, coordination of effort	Work with the PPS to ensure information is made available on existing disparities in care and support a coordinated effort to address these
NYS DOH	Constructive oversight of the process	Provide direction and set expectations

**✓ IPQR Module 4.7 - IT Expectations**

**Instructions :**

Please clearly describe how the development of shared IT infrastructure across the PPS will support the development and implementation of your cultural competency / health literacy strategy and the achievement of the milestones described above.

The shared IT infrastructure across the PPS will help capture important patient-related data (including REAL) that will help support efforts by project teams and the PPS to address gaps in care. Specifically, the IT infrastructure will help identify hotspots and areas of high patient utilization which will help prioritize cultural competency and health literacy training.

**✓ IPQR Module 4.8 - Progress Reporting**

**Instructions :**

Please describe how you will measure the success of this organizational workstream.

The success of the CC/HL strategy will be measured initially through process measure that include completion of the identified milestones as outlined, as well as by the tracking and assessment of effectiveness of the training provided to providers, PPS staff and other key stakeholders. In addition the PPS will track its effectiveness in the collection of REAL data which can then be used through analytics to identify areas where disparities in care are more pronounced and need to be addressed. Finally, ongoing analytics will continue to track how well clinical disparities in care are being addressed in specific geographies or in specific cultural or ethnic populations

**IPQR Module 4.9 - IA Monitoring**

**Prescribed Milestones Narrative Text**

Milestone Name	Narrative Text
Perform current state assessment of IT capabilities across network, identifying any critical gaps, including readiness for data sharing and the implementation of interoperable IT platform(s).	<p>General Program Narrative:</p> <p>As per the SCC Implementation plan, we have successfully completed each of our IT Systems and Processes milestones and sub-steps that were scheduled for completion in DY1Q4. The principle focus for the SCC IT Task Force throughout the DY1Q4 reporting period was to gain consensus on our technical strategy and finalizing policies associated with achieving clinical data sharing, data confidentiality, system interoperability and change management across the PPS. That being said, SCC's Clinical Data Sharing and System Interoperability Roadmap document was completed, approved by the IT Governance committee and</p>

	<p>submitted to the DOH.</p> <p>We have also completed milestones pertaining to the submission of our "current state" System Security Plans (SSPs) which are required as part of IT Systems and Processes Milestone #5 in preparation for the receipt of DOH claims data and patient roster.</p> <p>On-Going IT Task Force Work for DY2Q1</p> <p>Moving into DY2Q1 the IT Task force has now turned its focus towards the completion of the SCC Change Management Strategy and IT Current State assessment documents, both of which have already been published in draft form and are close to being finalized. Once finalized these documents will be sent to the IT Governance committee for approval.</p> <p>Work also continues in the areas of technical on-boarding and data acquisition, data security and two factor user authentication.</p> <p>Data Acquisition: SCC IT project management and technical on-boarding teams continue to work with our engaged Coalition Partners as part of our standard data acquisition process. During the technical on-boarding meetings providers receive technical guidance (training) on our data ingestion strategy, clinical data integration requirements and our SCC interface specifications.</p> <p>In summary, data acquisition meetings continue to be held with engaged PPS partners and provider specific interface developments are well under way across several different coalition partners.</p> <p>All PPS partners currently involved with technical on-boarding have been extremely supportive and we are looking forward to working with other Partners as we continue to build out the SCC Integrated Delivery System.</p> <p>Suffolk PPS Interface Specifications: We have created three interface specifications (supporting Clinical and Claims Flat Files and HL7 formats). These specifications were created to help assure that we have a consistent representation of clinical data across all coalition partners. Usage of and adherence to our standard SCC interface specification continues to be a foundational cornerstone of our clinical data integration strategy.</p>
Develop an IT Change Management Strategy.	
Develop roadmap to achieving clinical data sharing and interoperable systems across PPS network	<p>Response to IA remediation: The Clinical Data Sharing and System Interoperability document has been approved by the IT council, which is SCC's IT Governance Committee, and is supported by the attached 'DSRIP IT Council Meeting Minutes 3-10 approving clinical data sharing and interoperable systems roadmap v1.pdf'. As per the March 10th IT council/governance meeting minutes the committee agreed for an allowance of 6 days for any feedback regarding the roadmap and if no feedback was received the roadmap would be approved. There were no feedback from the committee within that time period and thus the roadmap was approved as per the meeting minutes.</p> <p>The SCC created a document that lists the SCC coalition partners who have signed their SCC participation agreement which contains Exhibit D, the DEAA Confidentiality Provisions agreement. In section 7c, titled "Specific Requirements under Data Exchange Application and Agreement with DOH" of the</p>

New York State Department Of Health  
Delivery System Reform Incentive Payment Project

DSRIP Implementation Plan Project

State University of New York at Stony Brook University Hospital (PPS ID:16)

IPQR Module 5.3 - Major Risks to Implementation & Risk Mitigation Strategies

Instructions :

Please describe the key challenges or risks that you foresee in creating and implementing your IT governance structure, your plans for data sharing across your network, your approach to data security and confidentiality, and the achievement of the milestones described above, including the potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

Issue: PPS does not control RHIO/SHIN-NY timelines or the incremental costs to connect to the RHIO/SHIN-NY.  
Risk Mitigation: PPS to work with the Department of Health to mitigate risks from slippage of timeline or escalation of costs.

Issue: Concern on the part of PPS Participating providers as to the security and confidentiality of data sharing efforts.  
Risk Mitigation: Access to identifiable data will be limited to PPS providers and other authorized individuals responsible for clinical care, administration, DSRIP project and quality of care oversight through role-based access. De-identified and aggregate data will be available to appropriate members of the PPS as required to meet the objectives of the DSRIP project(s). For members requesting access to data an application and signed PPS Confidentiality Agreement is submitted to the IT Governance for approval. The PPS partners will sign three (3) agreements:

- 1) PPS Participant Agreement identifies the terms of the partnership and defines the policies and procedures related to data sharing;
- 2) PPS Business Associate Agreement;
- 3) PPS Data Use Agreements to further define the restrictions and requirements for data use, disclosure and protection.

Issue: Ability of the PPS IT system to handle already existing disparate EMR and case management systems, potentially limiting the ability to get to a fully interconnected IT system for patient care and coordination.  
Risk mitigation: Perform a thorough baseline assessment of all current systems that exist across the PPS. Offer easy to implement solutions for those PPS providers who have no particular preference so that the maximum number of providers can be on systems that easily align. The PPS will leverage two different technologies to provide access to relevant patient information to the appropriate individuals noted above. When data is needed by a PPS provider for patient care the provider will utilize the State RHIO for access to real-time clinical data. The established processes available through the RHIO including but not limited to patient consent, role-based access, integration with EMR's and patient locator service all ensure that confidentiality is maintained and access to the correct patient information by medical, behavioral and psychosocial healthcare providers is achieved. The PPS will ensure the PPS provider is signed up to the RHIO and adequately trained to exchange real-time patient information. When data is needed for care management the PPS partners will utilize the Care Management IT platform which leverages the same consent and role-based access processes as the RHIO to ensure compliance with federal and state regulations. Additionally, the Care Management IT platform is compliant with the CMS Data Use Agreement requirements to house Medicare Shared Savings Program data for its clients that are participating in ACO's. For PPS providers and other authorized individuals as noted above that do not have full EMR capabilities we will use the DIRECT product. Direct is a compliant web-based exchange which facilitates access to real-time patient information in the absence of an EMR.

IPQR Module 5.4 - Major Dependencies on Organizational Workstreams

Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**State University of New York at Stony Brook University Hospital (PPS ID:16)**

An effective PPS Governance structure will be required to ensure that all participating PPS Providers are fully aligned and will have an opportunity to benefit from the PPS Integrated Delivery System model with IT support and connectivity. An effective financial funds flow and sustainability model will also be key to ensure that participating providers have the incentive to work toward improvement in their EMR systems and with interconnectivity through the RHIO. A Physician Communication and Engagement plan that is effectively implemented will ensure that all participating PPS providers will have the ability to understand the support offered as well as to follow-through with obtaining that support. Additional considerations include the obtaining input from key clinical stakeholders to include in the development of the PPS wide IT infrastructure.

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**State University of New York at Stony Brook University Hospital (PPS ID:16)**

**✓ IPQR Module 5.5 - Roles and Responsibilities**

**Instructions :**

Please list and elaborate upon the key people/organizations responsible for this organizational workstream and describe what their responsibilities involve.

<b>Role</b>	<b>Name of person / organization (if known at this stage)</b>	<b>Key deliverables / responsibilities</b>
PPS Executive Lead	Joe Lamantia	Responsible for the creation of the Performance Evaluation, reporting, and Management structure for the PPS
PPS IT Project Lead	Jim Murry	Ultimate accountability for governance oversight of the IT strategy
PPS Data Security (IT) Officer	Stephanie Musso	Oversight on all data / system security
PPS Compliance Officer	Sarah Putney	Oversight on all data / system security/ compliance
Chief Medical Information Officer	Dr Gerald Kelly	Responsible for ensuring our IT builds map to current workflows. Leading IT product evaluations in clinical settings. Deliverables include IT functions that meet the needs of the project/clinician and program
PPS Medical Director	Dr. Linda Efferen	Roll-out of communication plan to PPS participating providers, support of PCMH work in PCP practices
PPS Cultural Competency Project lead	Dr. Cordia Beverley & Althea Williams	Roll-out of communication plan to attributed members and providing input for patient engagement strategies
PPS IT Project Team / Task Force	Kevin Conroy, Scott Mathesie, Keisha Wisdom, Daniel Miller, Jim Murry, Paula Fries, Colleen Lyons, Michael Oppenheim, Arthur Crowe, Jonas Hajagos	Development of IT strategy and content experts on key aspects of data sharing, IT change management, confidentiality considerations, risk management, progress reporting, etc.
Legal Counsel	George Choriatis	Development of data sharing agreement contracts, general legal counsel
PPS IT Team PMO Director	Belmira Milosevich	Project Management of IT development plan
Director, Project Management Office	Alyssa Scully	Project Management Office will champion consistent project management practices and methodologies, which will help the Suffolk PPS execute the DSRIP portfolio. In addition, will support the DSRIP project stakeholders to as a source for project management expertise, support communications, and align like-scope requirements within multiple projects.

**✓ IPQR Module 5.6 - Key Stakeholders**

**Instructions :**

Please identify the key stakeholders involved, both within and outside the PPS.

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
<b>Internal Stakeholders</b>		
Joseph Lamantia	Overall PPS Leadership	Ultimate accountability for PPS
Joseph Lamantia (Stony Brook), Jerry Hirsch (NSLIJ), Terry O'Brien (CHS)	Health System Leads of Suffolk PPS	Overall leadership of the enterprise Performance Reporting Compliance to schedule and deliverables across Suffolk PPS Health System framework
Ariel Hayes (NSLIJ), Jessica Wyman, (CHS)	Health System PMO Representatives (SCC PMO, NSLIJ PMO, CHS PMO)	Provide feedback to the design of the process and fully participate in the performance management process. Manage, communicate performance reporting plans and deliverables across Suffolk PPS Health System framework
Hospital Partner Network CIO Representatives	Support for collecting baseline info and then for implementation	Feedback on all IT plans created. Implementation of IT plan components within respective Hospital
Health System CIO Leads	Support for collecting baseline info and then for implementation	Within the Suffolk PPS Health System framework, ensure that all data/connectivity is in place to create a unified patient care process and reporting capability for the PPS
All PPS Coalition Partners (All unit level provider types enrolled in the Suffolk PPS including: PCP, non-PCP, Hospitals, Freestanding Inpatient/Rehab, SNF/Nursing Home, Clinics, Case Management/Health Homes, Behavioral Health, Substance Abuse, Pharmacy, Hospice, All Other)	Engaged Contracted Partner	Collaborate with Suffolk PPS Administration to adopt, support development and work to engage in project plans designed for particular unit level provider type. Accountable for reporting progress and outcomes to meeting financial milestones within arrangement.
Althea Williams, Senior Manager, Provider & Community Engagement, Suffolk Care Collaborative	Cultural Competency & Health Literacy Lead	Assure cultural competency and health literacy practices addressed within the communication methods of performance reporting
Alyssa Scully, Alyse Marotta, Amy Solar-Doherty, Ashley Meskill, Samuel Lin, Alyeah Ramjit	Suffolk Care Collaborative Project Management Office	PMO support for all organizational work stream milestones to include, budget & finance related projects, and tactical management of implementation in the PMO software.
<b>External Stakeholders</b>		
Patients & Families	Improved health outcomes as a result of the PPS enterprise PHM program	Recipient of communications in the future around outcomes
RHIOs	Program support	Ensure that the PPS has met all their requirements for sharing data

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**State University of New York at Stony Brook University Hospital (PPS ID:16)**

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
		and connectivity
Medicaid MCOs	Program support and coordinated efforts	Ensure that the PPS can connect with the MCO data and information systems necessary to support patient care across the continuum.
NYS DOH	Constructive oversight of the process	Provide direction and set expectations for workforce restructuring
NYS-OMH-OASAS	Constructive oversight across applicable projects	Coordination and alignment on strategy to engage attributed members in qualifying entities.
Suffolk County Health and Mental Health Department	Constructive oversight across applicable projects	Coordination and alignment on strategy to engage attributed members in qualifying entities

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**State University of New York at Stony Brook University Hospital (PPS ID:16)**

**✓ IPQR Module 5.7 - Progress Reporting**

**Instructions :**

Please describe how you will measure the success of this organizational workstream.

The ability of the PPS to meet the specified milestones on time will be tracked, monitored, reported, and communicated via an IT project plan. The PPS IT plan will be tracked monthly to ensure completion of all tasks within the specified timeframes outlined in this implementation plan and governing DRSIP requirement documents. The Project plan will be supplemented with quarterly reports on how well the other associated work streams have been supported in their efforts by the PPS IT plan. The IT task force will also use a Requirements Traceability Matrix (RTM) which will assure that all DSRIP IT requirements are accurately tracked from both DOH source documents and Operational Project plans created by the PPS Population Health PMO team.

The Performance Monitoring system will track performance compared to target on the ability of participating PPS providers to meet requirements that are IT related. These requirements include progress toward Electronic Medical Record implementation, PCMH Level 3 certification, patient engagement, etc. Oversight of this process will occur within the PPS Governance Committee structure, IT Committee.

**IPQR Module 5.8 - IA Monitoring**

**Instructions :**

**New York State Department Of Health  
 Delivery System Reform Incentive Payment Project  
 DSRIP Implementation Plan Project**

Milestone Name	Narrative Text
Establish reporting structure for PPS-wide performance reporting and communication.	<p>General Program Narrative:</p> <p>The Performance Evaluation and Management Workgroup continued to meet throughout DY1 Q4. The workgroup finalized the Performance Reporting Training Plan which was initially addressed in the SCC Performance Reporting and Improvement Plan but is described in more detail in the overall SCC Training Strategy and Plan. The SCC will orient partners to the performance reporting program during the onboarding process. The SCC onboarding program is available on the SCC website for reference <a href="https://suffolkcare.org/forpartners/onboarding">https://suffolkcare.org/forpartners/onboarding</a>. The onboarding program is also complimented by additional e-learning resources that will be made available on the SCC Learning Center. These e-learning resources include training modules orienting partners to the SCC patient engagement requirements as well as the SCC Performance Improvement Program. Additional IHI resources are available on the Learning Center and supplement the training modules developed by the SCC. The SCC continues to work with IT vendor, Cerner to build the measures and dashboards needed to support the intended concurrent quality monitoring program in addition to utilizing the MAPP dashboards to prioritize opportunities for improvement.</p>
Develop training program for organizations and individuals throughout the network, focused on clinical quality and performance reporting.

**✓ IPQR Module 6.3 - Major Risks to Implementation & Risk Mitigation Strategies**

**Instructions :**

Please describe the key challenges or risks that you foresee in implementing performance reporting structures and processes and effective performance management within your network, including potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

Issue: Potential lack of focus on performance management processes due to incomplete reporting structure.  
Risk Mitigation: The organizational units responsible for reporting results and recommending actions are the PPS Informatics Unit and the PPS Executive Unit. The Executive Unit is the population health administrative department that will oversee project implementation, management and evaluation. The PPS Informatics Unit is responsible for data collection, synthesis and interpretation, while the Executive Unit will focus on action as a result of that analysis. Both units will have active participation from clinicians and informaticists and will also work closely with and report to the PPS IT, Clinical and Financial Governance Bodies (subcommittees of the main Governing Body with delegated authority.). Progress updates will be made to governance bodies on the status of the development of the IT infrastructure, which is responsible for facilitating performance reporting across the PPS.

Additionally, dedicated time in governance meetings for RCE discussions will be reserved to ensure strong governance. For important and urgent decisions, the Executive Unit will have access to key decision makers in the governance bodies. At-least one representative on the three governance bodies will be from this unit. This unit interacts with individual Project Teams and PPS providers on a pre-scheduled basis so actionable results can be communicated to front line resources and feedback can be received.

Issue: Potential lack of PPS provider participation in the Rapid-Cycle Evaluation process to help drive performance improvement - due to lack of alignment of incentives for the creation of value-based results.  
Risk Mitigation: Provide all PPS providers with easily accessible data and information to help set them up for success in improving their performance. Scorecards will be developed for the PPS. These will be shared transparently within the PPS and incentives and improvement plans will be linked. Quality scorecards at project level will be shared transparently with project teams and partners. Areas of variation in clinical results or PPS provider performance will be addressed initially at the project level. Oversight of this process will be the responsibility of the Clinical Governance Body. The financial sustainability plan will tie-in Provider performance to future value-based contracting efforts to ensure that incentives are aligned.

**✓ IPQR Module 6.4 - Major Dependencies on Organizational Workstreams**

**Instructions :**

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

An effective PPS Governance structure will be required to ensure that all participating PPS Providers are fully aligned and will have an opportunity to benefit from the PPS Integrated Delivery System model through the improvement of their performance. An effective Financial funds flow and sustainability model will also be key to ensure that participating providers have the incentive to work toward improvement in all clinical, utilization

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**State University of New York at Stony Brook University Hospital (PPS ID:16)**

and satisfaction results. A Physician Communication and Engagement plan that is effectively implemented will ensure that all participating PPS providers will have the ability to understand the Performance Evaluation and Management process and how they can obtain support for their own improvement. The development of comprehensive IT systems, and accompanying processes, will be critical to the success of this work stream. The ability to track patients, and therefore create and track data, as they move through the PPS system will be essential to the success of the DSRIP initiative and will rely on the IT systems being developed. Furthermore, secure storage of this patient data will be essential so that the Project Management Office has a location that they can access in order to acquire and create the necessary reporting structure and deliverables.

**New York State Department Of Health**  
**Delivery System Reform Incentive Payment Project**  
**DSRIP Implementation Plan Project**

**State University of New York at Stony Brook University Hospital (PPS ID:16)**

**✓ IPQR Module 6.5 - Roles and Responsibilities**

**Instructions :**

Please list and elaborate upon the key people/organizations responsible for this organizational workstream and describe what their responsibilities involve.

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities
PPS Executive Lead	Joseph Lamantia/Suffolk Care Collaborative	Responsible for the creation of the Performance Evaluation, reporting, and Management structure for the PPS
PPS Medical Director	Linda Efferen MD/Suffolk Care Collaborative	Ultimate accountability for governance oversight of Clinical Quality, Clinical Performance metrics and monitoring, utilization and Patient Satisfaction performance
PPS Finance Project Lead	Bernie Cooke/Stony Brook Medicine	Ultimate accountability for governance oversight of financial performance
Performance Reporting Project Lead (Director of Network Development & Performance for the Suffolk Care Collaborative)	Kevin Bozza/Suffolk Care Collaborative	Overall guidance of the Performance Reporting Plan, responsible for project management of the Performance Reporting milestones to include linkages across 11 DSRIP projects
Compliance Officer	Sarah Putney/Suffolk Care Collaborative	Lead Compliance Program, including chairing Compliance Sub-Committee; implementing Work Plan; training; hotline; monitoring; investigations; promoting culture of ethics and compliance with DSRIP requirements.
PPS IT Project Lead	Jim Murry /Stony Brook Medicine	Creation of PPS wide IT system to track and store patient data
PPS IT Project Team / Task Force	Kevin Conroy, Scott Mathesie, Keisha Wisdom, Daniel Miller, Jim Murry, Paula Fries, Colleen Lyons, Michael Oppenheim, Arthur Crowe, Jonas Hajagos	Development of IT strategy and content experts on key aspects of data sharing, IT change management, confidentiality considerations, risk management, progress reporting. Including members of the biomedical informatics group.
Performance Evaluation and Management team	Ariel Hayes, North Shore-LIJ, Jessica Wyman, CHS, Corrinne Tramontana, CHS, Linda Efferen, MD, Stony Brook, Althea Williams, Stony Brook, Sam Lin, Stony Brook, Ned Micelli, Stony Brook, Janos Hajagos, Stony Brook, Alyssa Scully, Stony Brook	Development of Performance Evaluation and Reporting strategy addressing the PPS approach to Rapid Cycle Evaluation, creation and use of performance dashboards and performance reporting training.
Practitioner Engagement Team	Practitioner Engagement Team (TBD)	The Practitioner Engagement Team will develop a training/education plan about DSRIP and the PPS quality improvement agenda.
Director of PPS PMO	Alyssa Scully/Suffolk Care Collaborative	Project Management Office will champion consistent project management practices and methodologies, which will help the Suffolk PPS execute the DSRIP portfolio. In addition, will support the DSRIP project stakeholders to as a source for project management expertise, support communications, and align like-scope requirements within multiple projects.

**New York State Department Of Health**  
**Delivery System Reform Incentive Payment Project**  
**DSRIP Implementation Plan Project**

**State University of New York at Stony Brook University Hospital (PPS ID:16)**

**✓ IPQR Module 6.6 - Key Stakeholders**

**Instructions :**

Please identify the key stakeholders involved, both within and outside the PPS.

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
<b>Internal Stakeholders</b>		
Joseph Lamantia	PPS Executive Lead	Responsible for the creation of the Performance Evaluation, reporting, and Management structure for the PPS
Jim Murry	PPS IT Lead	Ensure that IT infrastructure supports Performance Reporting process
Joseph Lamantia (Stony Brook), Jerry Hirsch (NSLIJ), Terry O'Brien (CHS)	Health System Leads of Suffolk PPS	Overall leadership of the enterprise Performance Reporting Compliance to schedule and deliverables across Suffolk PPS Health System framework
Ariel Hayes (NSLIJ), Jessica Wyman, (CHS)	Health System PMO Representatives (SCC PMO, NSLIJ PMO, CHS PMO)	Provide feedback to the design of the process and fully participate in the performance management process. Manage, communicate performance reporting plans and deliverables across Suffolk PPS Health System framework
DSRIP Project Leads: Joseph Lamantia, Jim Murry, Steven Feldman, Eric Niegelberg, Bob Heppenheimer, Dianne Zambori, RN, Gwen O'Shea, Peg Duffy, Kristie Golden, Margaret Duffy, Josh Miller, MD, Ellen Miller, Susmita Pati, MD, Ernie Conforti	Develop measures, recipient of outcomes for continued performance improvement efforts	Help work with the PPS to ensure that the performance reporting deliverables are effectively rolled-out and meets the needs identified. Responsible for project leaders
All PPS Coalition Partners (All unit level provider types enrolled in the Suffolk PPS including: PCP, non-PCP, Hospitals, Freestanding Inpatient/Rehab, SNF/Nursing Home, Clinics, Case Management/Health Homes, Behavioral Health, Substance Abuse, Pharmacy, Hospice, All Other)	PPS clinical workforce (including all PPS unit level provider types)	Provide clinical insight and input on methodologies to improve performance reporting across PPS; Contractual commitments to timely quarterly reportin
Althea Williams, Senior Manager, Provider & Community Engagement, Suffolk Care Collaborative	Cultural Competency & Health Literacy Lead	Assure cultural competency and health literacy practices addressed within the communication methods of performance reporting
PPS Clinical Governance Committees	Evaluation and approval of Performance Reporting Deliverables prior to Board Review	Recipient of meaningful performance data from the Performance Evaluation and Management Team to facilitate the PPS' quality agenda

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**State University of New York at Stony Brook University Hospital (PPS ID:16)**

<b>Key stakeholders</b>	<b>Role in relation to this organizational workstream</b>	<b>Key deliverables / responsibilities</b>
Alyssa Scully, Alyse Marotta, Amy Solar-Doherty, Ashley Meskill, Samuel Lin, Alyeah Ramjit	Suffolk Care Collaborative Project Management Office	PMO support for all organizational work stream milestones to include, budget & finance related projects, and tactical management of implementation in the PMO software.
PPS Board of Directors	Final evaluation and approval of Performance Reporting Deliverables	Approves Performance Reporting and Communications Strategy
<b>External Stakeholders</b>		
Patients & Family Members	Improved health outcomes as a result of the PPS enterprise PHM program	Recipient of communications in the future around outcomes
Medicaid MCOs	Support and alignment of P4P incentives for providers	Align PPS Performance evaluation and management with already existing Medicaid MCOs P4P programs and ultimately with value-based contracts
Training Vendors	Training Vendors: Act as training support for PPS workforce	Develop technical and clinical training curriculum
NYS DOH	Constructive oversight of the process	Help ensure PPS success in meeting prescribed milestones and measure targets through collaborative oversight process

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**State University of New York at Stony Brook University Hospital (PPS ID:16)**

**✓ IPQR Module 6.7 - IT Expectations**

**Instructions :**

Please clearly describe how the development of shared IT infrastructure across the PPS will support your approach to performance reporting.

A PPS IT system that attempts to optimize the completeness and accuracy of clinical data acquisition will be very important to the success of all performance evaluation and improvement efforts for the PPS. The PPS will need to consider and address the variance that exists across the IT capabilities of PPS providers. In addition, will use results of audit and compliance reviews supporting data and procedural integrity and compliance. Additionally, simple Medicaid claims data will not be sufficient to detect emerging performance trends in a timely manner or to fully address all clinical parameters and results that are not available on claims. An approach to implementation that gets maximum access to data from participating providers and their electronic systems will be developed to ensure that all information used for performance reporting and RCE is robust. This approach will need to account for the diverse situations (e.g., geography, affiliation, infrastructure, etc.) that PPS providers are facing and the PPS will need to maintain flexibility throughout the development of this approach.

**✓ IPQR Module 6.8 - Progress Reporting**

**Instructions :**

Please describe how you will measure the success of this organizational workstream.

Progress will be measured through the development of a robust performance reporting structure that will track the ability of the PPS to meet specific milestones on time, monitor and improve the financial and clinical performance of the PPS as well as achieving gap to goal performance improvement for the Domain 2 and 3 measures. A collaborative progress reporting structure of this size has not been built in Suffolk County and oversight of this process will need input from all key stakeholders as it occurs within the overall PPS Governance structure, as well as the IT, Clinical and Finance Committee.

**Prescribed Milestones Narrative Text**

Milestone Name	Narrative Text
Develop Practitioners communication and engagement plan.	<p>SCC's RESPONSE TO IA COMMENT: The Practitioner Engagement and Communication Plan submitted in the DY1 Q4 report describes the SCC's plan to develop and maintain relationships with key professional groups throughout the PPS. These groups are described on page seven of the plan. The plan describes an engagement and communication strategy that crosses a participation spectrum with increasing levels of practitioner involvement i.e. inform, consult, involve, collaborate and empower. An engagement action plan is then described for each level of practitioner involvement which includes a performance indicator to measure our success.</p> <p>Action item 3.1 on page five of the plan speaks to "practitioner representation on key groups and forums within the Suffolk Care Collaborative". The performance indicator described in this section assures that "Professional Group Representatives are represented on SCC Governance Committees, DSRIP project committees and workgroups."</p> <p>The SCC maintains that this addresses the guidance provided in the DSRIP Reporting and Validation Protocols: Domain 1 Milestones – Minimal Standards which was considered when developing the plan. The guidance references "Provisions to include professional group representatives in the PPS's governing bodies".</p> <p>Professional group representatives are currently standing members of SCC Governance Committees. Dr. Maria Basile, who is an Executive Committee member of The Suffolk County Medical Society is a member of the SCC Clinical Governance Committee and one example of the SCC meeting this requirement.</p> <p>General Program Narrative: The Practitioner Engagement Workgroup finalized the Practitioner Communication and Engagement Plan which was endorsed by the Clinical Governance Committee in January and approved by the SCC Board on February 22nd. The plan provides a foundation for practitioner engagement efforts and a framework to guide future engagement activities. The Practitioner Engagement and Communication plan also addresses the initial training plan for providers related to DSRIP 101 education and an overall orientation to the SCC DSRIP projects and quality improvement agenda. For contracted partners the SCC has developed an onboarding program which provides education regarding the DSRIP projects, performance reporting requirements and other essential need-to-know topics for our partners. The onboarding program is available on the SCC website for reference <a href="https://suffolkcare.org/forpartners/onboarding">https://suffolkcare.org/forpartners/onboarding</a>. An overall SCC Training Strategy and Plan was developed which started with a training needs assessment and then identified courses, skills and processes that would need to be acquired by partners in order to successfully participate in the DSRIP projects. The SCC will be utilizing a blended learning approach to training and is currently building a learning center on the SCC website. Resources related to Cultural Competency, Health Literacy and PCMH will be available as well as e-learning modules including DSRIP 101 education. During DY1 Q4 ongoing education was provided to partners regarding the SCC and is reflected in the training template</p>

# New York State Department Of Health Delivery System Reform Incentive Payment Project

## DSRIP Implementation Plan Project

### State University of New York at Stony Brook University Hospital (PPS ID:16)

#### IPQR Module 7.3 - Major Risks to Implementation & Risk Mitigation Strategies

##### Instructions :

Please describe the current level of engagement of your physician community in the DSRIP program and describe the key challenges or risks that you foresee in implementing your plans for physician engagement and achieving the milestones described above. Describe any potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

Through a baseline assessment that was part of the CNA and through targeted interviews of higher volume PCP groups, physicians in the Suffolk PPS have been willing to engage in discussions regarding the need to redesign patient care processes and payment mechanisms to better serve the population and improve outcomes. In general, a true willingness exists to participate in all DSRIP projects; but engagement will be enhanced if current barriers are addressed. The PPS has identified the following challenges that stand in the way of successful implementation of this organizational component:

Issue: Potential lack of the full alignment of PPS providers needed to create an engaged set of participants in an integrated system of care (e.g., technology challenges, workforce-related risks, etc.). Lack of alignment driven by other competing priorities, current FFS reimbursement model with lack of financial alignment, limited resources, and expanding competition for services.

Risk mitigation: A number of the Suffolk PPS DSRIP goals address how the new integrated system will address these challenges and allow providers to see the value of participating in this program. They include: Develop a robust data infrastructure and advanced analytical capabilities, improve disease management, particularly for those with chronic disease, move providers away from the traditional fee-for service payment and toward value based payment, transform the PPS into a highly efficient integrated delivery system, and establish a solid foundation of team-based care across medical, behavioral, and social services.

Issue: Limited primary care resources in the County, particularly in more rural areas with make it harder to engage providers and produce results.

Risk Mitigation: Create a dedicated focus on improving access to primary care services through PPS efforts to redesign PCP practices to improve their efficiency as well as through targeted recruitment efforts in geographies with high need.

#### IPQR Module 7.4 - Major Dependencies on Organizational Workstreams

##### Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

For physician engagement to occur effectively several other work streams will need to contribute significant support. Starting with the Governance system of the PPS, physicians will need to have a voice in how the PPS functions and how its policies and processes affect their practices. The Clinical Committee in particular will need to be an effective venue to address and approve all key interventions, policies, and guidelines that will have to be implemented across all physician practices to ensure that all measure targets are met. The PPS IT infrastructure will be a very important mechanism for improvement of the patient care process with better coordination of care, and also will provide the physician with the data they need to better care for their population. IT support in implementing or optimizing EHR functionality will also play a key role. An effective financial sustainability plan with funds flow that ultimately moves to a value -based compensation model will be necessary to create and maintain

full physician engagement over the life of the DSRIP program and beyond.

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**State University of New York at Stony Brook University Hospital (PPS ID:16)**

**✓ IPQR Module 7.5 - Roles and Responsibilities**

**Instructions :**

Please list and elaborate upon the key people/organizations responsible for this organizational workstream and describe what their responsibilities involve.

<b>Role</b>	<b>Name of person / organization (if known at this stage)</b>	<b>Key deliverables / responsibilities</b>
PPS Executive Lead	Joseph Lamantia/Suffolk Care Collaborative	Responsible for overall guidance of Practitioner Engagement work stream
PPS Medical Director	Linda Efferen, MD/Suffolk Care Collaborative	Develop the Provider Communication Education & Engagement plan. Roll-out of communication plan to PPS participating providers, support of PCMH work in PCP practices
Practitioner Engagement Project Lead (Director of Network Development & Performance for the Suffolk Care Collaborative)	Kevin Bozza/Suffolk Care Collaborative	Responsible for acting as primary contact for PPS provider network and acting as liaison between PPS Executive Office and PPS provider network. Overall guidance of the Practitioner Engagement deliverables, responsible for project management of the Performance Reporting milestones to include linkages across 11 DSRIP projects
Practitioner Engagement Team	Multi-functional Representation across PPS partner network	The Practitioner Engagement Team will develop the provider engagement and communications plan. Develop a training strategy to educate PPS partners and professional groups about DSRIP and the PPS Quality Improvement Agenda.
Practitioner Champions	PPS Partner Network	Represent practitioners on the Practitioner Engagement Team to support the development of all deliverables (eg. Physicians, Nurses, Behavioral Health Specialists, Community Care Champions)
PPS IT Project Lead	Jim Murry/Stony Brook Medicine	Ultimate accountability for governance oversight of the IT strategy which will support physician engagement
MCO Relations Team Lead	Steven Feldman MD/Stony Brook Medicine	Support communications with MCOs, (ex. to define provider bonus payments). Collaborate with Provider Engagement Team to ensure these bonus payment structures are clear within provider community
Director of PPS PMO	Alyssa Correale/Suffolk Care Collaborative	Project Management Office will champion consistent project management practices and methodologies, which will help the Suffolk PPS execute the DSRIP portfolio. In addition, will support the DSRIP project stakeholders to as a source for project management expertise, support communications, and align like-scope requirements within multiple projects.
All PPS Coalition Partners (All unit level provider	PPS clinical workforce	Collaborate with Suffolk PPS Administration to adopt, support

**✓ IPQR Module 7.7 - IT Expectations**

**Instructions :**

Please clearly describe how the development of shared IT infrastructure across the PPS will support this particular workstream.

To mitigate any challenges caused by the cultural and geographical diversity across Suffolk County, a shared IT infrastructure will be developed by the PPS to support the ability of the PPS Providers to provide effective clinical care and care coordination for each PPS patient across the continuum of their needs. This shared infrastructure will allow for a base level of standardization reaching from the Nassau-Suffolk border to the East End of Suffolk County. Through consistent tracking of performance, this infrastructure will ultimately lead to physician engagement as well as improved quality, utilization and financial results within this population. In addition, this infrastructure will be key in capturing all necessary clinical and utilization data needed for performance monitoring of the PPS and its financial results and support individual physicians in their ability to be successful in a value-based payment model.

**✓ IPQR Module 7.8 - Progress Reporting**

**Instructions :**

Please describe how you will measure the success of this organizational workstream.

Progress will be measured based on the PPS' ability to meet the specific milestones on time and meeting the engagement strategy. Executed partner participation agreements, identifying practitioner "champions" to act as educators and promoters of our PPS, providing practitioner education regarding the SCC quality improvement agenda, building relationships with key professional groups will all be measures of success. The PPS Executive Team and the Provider Engagement team will play a key role in implementation and ongoing monitoring.

Develop population health management roadmap.	<p>General Program Narrative: The Population Health Management/Integrated Delivery System (PHM/IDS) Workgroup continues to meet monthly to work on the development of the Population Health Management Roadmap which is projected to be completed in the upcoming quarter. Collaboration and shared information related to the work completed through the Information Technology Task Force and the PCMH Certification Workgroup continues to inform further development of the roadmap. The IT Task Force received endorsement of the "Clinical Data Sharing and Interoperable Systems across the PPS" report which speaks to the technical onboarding of partner providers and key data points for shared access. These elements are crucial factors in the ability to perform Population Health Management and to utilize a variety of individual, organization and cultural interventions to help improve patient self-care, morbidity patterns, and the health care use of defined populations. The PCMH Certification Workgroup has also completed and presented to the Workgroup the "PCMH Current State Assessment" and the PHM/IDS Workgroup will utilize this information to populate the roadmap. Additionally, representatives from the Value Based Payment Team, Performance Reporting and Management Workgroup, the Care Management and Care Coordination Workgroup, the Transitions of Care Workgroup and the Community Engagement Leadership Workgroup participate in the Workgroup and report progress in their respective areas to further enhance and develop the approach to Population Health Management.</p>

# New York State Department Of Health Delivery System Reform Incentive Payment Project

## DSRIP Implementation Plan Project

### State University of New York at Stony Brook University Hospital (PPS ID:16)

#### ✓ IPQR Module 8.3 - Major Risks to Implementation & Risk Mitigation Strategies

##### Instructions :

Please describe the key challenges or risks that you foresee in implementing these cross-cutting organizational strategies, including potential impacts on specific projects and, crucially, any risks that will undermine your ability to achieve outcome measure targets.

Issue: Potential lack of initial data to prioritize provider groups for implementation. This leads to lack of PPS provider and patient engagement in the implementation steps needed to develop an integrated delivery system that can achieve the population health outcomes needed.  
Risk mitigation: A number of the Suffolk PPS DSRIP goals address how the new integrated system will address these challenges and allow providers to see the value of participating in this program. They include: Develop a robust data infrastructure and advanced analytical capabilities, improve disease management particularly for those with chronic disease, move providers away from the traditional fee-for service payment and toward value based payment, transform the PPS into a highly efficient integrated delivery system, and establish a solid foundation of team-based care across medical, behavioral, and social services. A transparent and inclusive governance structure will help address provider concerns along with funds flow processes that ultimately lead to a value-based payment system.

Issue: Difficulty creating an integrated IT infrastructure for the PPS with many disparate IT systems in existence and a large amount of variation in provider readiness to adopt new technologies.  
Risk mitigation: Perform a thorough baseline assessment of all current systems that exist across the PPS. Offer easy to implement solutions for those PPS providers who have no particular preference so that the maximum number of providers can be on systems that easily align. Create a Provider Engagement Team that will support PCP offices in their efforts to optimize the use of their EHRs, meet Meaningful Use standards, and attain Level 3 PCMH recognition. Align performance reporting and funds flow with tracking of value-based outcomes to help link funding of new technology and IT solutions to provider performance.

#### ✓ IPQR Module 8.4 - Major Dependencies on Organizational Workstreams

##### Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

An effective PPS Governance structure will be required to ensure that all participating PPS Providers are fully aligned and will have an opportunity to benefit from the PPS Integrated Delivery System model through the improvement of their performance. An effective Financial funds flow and sustainability model will also be key to ensure that participating providers have the incentive to work toward improvement in all clinical, utilization and satisfaction results. A Physician Communication and Engagement plan that is effectively implemented will ensure that all participating PPS providers will have the ability to understand what is needed for Population Health Management, including cultural competency and workforce considerations, and how they can obtain support for their own improvement. The PPS IT infrastructure will be a very important mechanism for improvement of the patient care process with better coordination of care, and also will provide the physician with the data they need to better care for their population. IT support in implementing or optimizing EHR functionality will also play a key role. An effective financial sustainability plan with funds flow that ultimately moves to a value-based compensation model will be necessary to create and maintain full physician engagement in

**✓ IPQR Module 8.5 - Roles and Responsibilities**

**Instructions :**

Please list and elaborate upon the key people/organizations responsible for this organizational work stream and describe what their responsibilities involve.

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities
PPS Executive Lead	Joseph Lamantia/Suffolk Care Collaborative	Responsible for draft of PPS bed reduction plan
PPS Medical Director	Linda Efferen, MD/Suffolk Care Collaborative	Responsible for obtaining feedback from PPS hospitals to create the final plan
PHM & Clinical Integration Organizational work stream lead	Linda Efferen, MD/Suffolk Care Collaborative	Provides leadership and guidance for the Population Health and Clinical Integration organizational workflows
Population Health Management Operating Workgroup	Key Project Stakeholders	Provides SME in Population Health Management, Integrated Delivery System and Clinical Integration organizational workflows
PPS Care Management Director	Kelli Vasquez/Suffolk Care Collaborative	Responsible for Population Health Management roadmap components around targeted populations and health disparities that need to be addressed. Create the implementation and tracking process for the bed reduction plan.
PPS Care Managers	Suffolk Care Collaborative	Care Management Program Operations
PCMH Certification Workgroup	Suffolk Care Collaborative	Responsible for PCMH Program for Suffolk PPS
PCMH Certification Program Lead	Althea Williams/Suffolk Care Collaborative	Develop the PCMH Certification Roadmap
Suffolk PPS Hospital Leadership	Suffolk County Hospital Leadership (CEOs)	Engage in the bed-reduction plan deliverable
Compliance Officer	Sarah Putney/Suffolk Care Collaborative	Lead Compliance Program, including chairing Compliance Sub-Committee; implementing Work Plan; training; hotline; monitoring; investigations; promoting culture of ethics and compliance with DSRIP requirements.
PPS Clinical Committee	Linda Efferen, MD, Karen Shaughness, Nejat Zeyneloglu, Maria Basile, MD, Sophia McIntyre, MD, Kristie Golden, Jeff Steigman, Juliet Frodella, Lou Harris, Robert Scanlon, MD, Tina Walch, MD, Mary-Ann Donohue-Ryan, Maureen Ruga	Ultimate accountability for governance oversight of Population Health Management
PPS Finance Committee Members	PPS Finance Committee Members: Gary Bie, Bernard Cooke, Jerry Hirsch, James Sinkoff, Robert Power, Robert Detor	Support of Finance strategy development. Ultimate accountability for governance oversight of the PPS bed reduction plan
PPS Director, Network Development & Performance	Kevin Bozza/Suffolk Care Collaborative	Responsible for the Workforce & Community Engagement milestones as well as the Performance Evaluation, reporting, and Management structure for the PPS
Director of PPS PMO	Alyssa Correale/Suffolk Care Collaborative	Project Management Office will champion consistent project management practices and methodologies, which will help the Suffolk PPS execute the DSRIP portfolio. In addition, will support

**✓ IPQR Module 8.6 - Key Stakeholders**

**Instructions :**

Please identify the key stakeholders involved, both within and outside the PPS.

<b>Key stakeholders</b>	<b>Role in relation to this organizational workstream</b>	<b>Key deliverables / responsibilities</b>
<b>Internal Stakeholders</b>		
Joseph Lamantia (Stony Brook), Jerry Hirsch (NSLIJ), Terry O'Brien (CHS)	Health System Leads of Suffolk PPS	Overall leadership of the enterprise PHM integration strategy and deliverables across Suffolk PPS Health System framework
Ariel Hayes (NSLIJ), Jessica Wyman, (CHS)	Health System PMO Units (NSLIJ & CHS)	Project Management Office function of Suffolk PPS Health System framework. Responsible for project management of enterprise Suffolk PPS work plans within health system.
Steven Feldman, Eric Niegelberg, Gwen O'Shea, Kristie Golden, Peg Duffy, Josh Miller, Ellen Miller, Carol Gomes	DSRIP Project Leads	Provide feedback to the design of the process and fully participate in the population health management process
CBOs in PPS	Connect patients to the clinical care available across the PPS	Provide oversight and guidance on improving patient engagement and patient outreach
Lou de Onis	"HR Lead of Suffolk PPS"	Provide HR support on workforce changes resulting from bed reductions
Joel Saltz MD, PhD, Mary Morrison Saltz, MD, Andrew White, PhD, Janos Hajagos, Jonas Almeida	PPS Biomedical Informatics (BMI) Data Project Team	Oversight of data analytics and predictive modeling support
Alyssa Correale, Laura Siddons, Amy Solar-Doherty, Ashley Meskill, Samuel Lin	Suffolk Care Collaborative Project Management Office	PMO support for all organizational work stream milestones to include, budget & finance related projects, and tactical management of implementation in the PMO software.
All PPS Coalition Partners (All unit level provider types enrolled in the Suffolk PPS including: PCP, non-PCP, Hospitals, Freestanding Inpatient/Rehab, SNF/Nursing Home, Clinics, Case Management/Health Homes, Behavioral Health, Substance Abuse, Pharmacy, Hospice, All Other)	PPS clinical workforce	Collaborate with Suffolk PPS Administration to adopt, support development and work to engage in project plans designed for particular unit level provider type. Provide input, insight, and clinical experience to improve PHM strategy across the PPS.
Althea Williams, Senior Manager, Provider & Community Engagement, Suffolk Care Collaborative	Cultural Competency & Health Literacy Lead	Assure cultural competency and health literacy practices addressed within PHM program
<b>External Stakeholders</b>		
Patients & Family Members	Improved health outcomes as a result of the PPS enterprise PHM	Engage in PHM Program

**New York State Department Of Health

Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**State University of New York at Stony Brook University Hospital (PPS ID:16)**

**✓ IPQR Module 8.7 - IT Expectations**

**Instructions :**

Please describe the current Population Health Management IT capabilities in place throughout your PPS network and what your plans are at this stage for leveraging these capabilities and/or developing new IT infrastructure.

The PPS will develop a shared IT infrastructure to support the ability of the PPS Providers to provide effective clinical care and care coordination for each PPS patient across the continuum of their needs. The IT infrastructure will include the develop of a Care Management documentation tool that will stratify risk, identify gaps in care, and better manage the care of patients across Suffolk County. This will ultimately lead to improved physician engagement as well as improved quality, utilization and financial results within this population. In addition, this infrastructure will be key in capturing all necessary clinical and utilization data needed for performance monitoring of the PPS and its financial results and support individual physicians in their ability to be successful in a value-based payment model.

**✓ IPQR Module 8.8 - Progress Reporting**

**Instructions :**

Please describe how you will measure the success of this organizational workstream.

The PPS PMO will establish a robust, PPS wide performance reporting structure to track the progress of the PPS towards the specified milestones. The Performance Monitoring system will track performance compared to target on the ability of participating PPS providers to meet requirements of the DSRIP projects (e.g. project-specific performance metrics, Domain 1 metrics, etc.) and to improve all population health measures. Progress with achieving level 3 certification for all relevant providers, developing the IT infrastructure required to support a population health management approach, addressing health disparities and achieving a bed reduction across the PPS will all be measures of success. Oversight of this Population Health Management workstream will occur within the PPS Governance Committee structure, Clinical Committee and Finance Committee. The PPS Executive Team, Physician Engagement Team and Care Management Team will play a key role in implementation and ongoing monitoring.

**Prescribed Milestones Narrative Text**

Milestone Name	Narrative Text
Perform a clinical integration 'needs assessment'.	<p>General Program Narrative:</p> <p>Members of the Population Health Operating Workgroup, in collaboration with the PMO, Project Managers and Leads continue to meet regularly and have completed the Clinical Integration Needs Assessment. Data was collected from multiple sources including surveys in the area of Transitions of Care, Behavioral Health and Primary Care Integration Readiness, access to care, PCMH recognition status, RHIO connectivity, EHR utilization, and current state care management models and compiled to inform and understand current functionalities and capabilities of partner providers.</p> <p>Members of the leadership teams for CHS (Robert Ginsberg), Northwell Health (Dr. Sandy Balwan: 516-465-2571) and Stony Brook University Hospital (Kelli Vasquez: 631-638-1379) worked together to provide details on the partner providers that will be or currently are clinically integrated. The IT Task Force collaborated on the development of this assessment by providing the "Clinical Data Sharing and Interoperable Systems across the PPS" report which highlights key data points for shared access, the plan for how to connect providers, as well as the key interfaces that will have an impact on clinical integration. The Clinical Integration Needs Assessment was reviewed and endorsed by the PHM/IDS Committee as well as by the Clinical Governance Committee. This Assessment will now be used to inform the development of the Clinical Integration Strategy by the PHM/IDS Workgroup.</p>
Develop a Clinical Integration strategy.

DSRIP Implementation Plan Project

State University of New York at Stony Brook University Hospital (PPS ID:16)

IPQR Module 9.3 - Major Risks to Implementation & Risk Mitigation Strategies

Instructions :

Please describe the key challenges or risks that you foresee in improving the level of clinical integration throughout your network and achieving the milestones described above. Describe potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

Issue: Difficulty creating an integrated IT infrastructure given issues with interoperability between many disparate IT systems and variation in provider readiness to adopt technology.  
Risk mitigation: A thorough baseline assessment of all participating providers will be conducted to identify systems in use across the PPS and identify common solutions. Create a Provider Engagement Team to support PCP offices in their efforts to optimize the use of EHRs, meet Meaningful Use standards, and attain Level 3 PCMH recognition.

Issue: Potential lack of the full alignment of PPS providers needed to create an engaged set of participants in an integrated system of care with effective clinical integration. Lack of alignment driven by other competing priorities, current FFS reimbursement model with lack of financial alignment, limited resources, and expanding competition for services.  
Risk mitigation: Easy to use tools that will improve clinical integration will be made available to PPS Providers. A number of the Suffolk PPS DSRIP goals address how the new integrated system will address these challenges and allow providers to see the value of participating in this program. They include: Develop a robust data infrastructure and advanced analytical capabilities, improve disease management, particularly for those with chronic disease, move providers away from the traditional fee-for service payment and toward value based payment, transform the PPS into a highly efficient integrated delivery system, and establish a solid foundation of team-based care across medical, behavioral, and social services. Issue: Lack of common standards, protocols and governance regarding the provision of Care Management and wide variation in Care Management provided  
Risk Mitigation: The PPS, in conjunction with the Population Health Management Operating Workgroup, will develop and deploy the Care Management (CM) program for the Suffolk Care Collaborative. Vendor support / input as subject matter expert(s) will be used to guide development of CM standards and protocols that are evidence based / best practice to use across the PPS, provide input in development of IT requirements, and identification of staff and training of CM staff.

IPQR Module 9.4 - Major Dependencies on Organizational Workstreams

Instructions :

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

An effective PPS Governance structure, as well as a strong Financial Sustainability plan, will be required to ensure that all participating PPS Providers are fully aligned and will have an opportunity to benefit from the PPS Integrated Delivery System model through the improvement of their performance. Additionally, the development of a shared IT infrastructure will support the rapid, safe transfer of patient information to PPS providers. The PPS IT infrastructure will be a very important mechanism for improvement of the patient care process with better coordination of care, and also will provide the physician with the data they need to better care for their population. IT support in implementing or optimizing EHR

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**State University of New York at Stony Brook University Hospital (PPS ID:16)**

functionality will also play a key role in maximizing the performance of the shared infrastructure. An effective financial sustainability plan with funds flow that ultimately moves to a value -based compensation model will be necessary to create and maintain full physician engagement throughout the duration of the DSRIP program. The Practitioner Engagement work stream will play a large role in clinical integration and incorporate the input, insight, and experience of the provider network across the PPS.

**New York State Department Of Health  
 Delivery System Reform Incentive Payment Project  
 DSRIP Implementation Plan Project**

**State University of New York at Stony Brook University Hospital (PPS ID:16)**

**✓ IPQR Module 9.5 - Roles and Responsibilities**

**Instructions :**

Please list and elaborate upon the key people/organizations responsible for this organizational workstream and describe what their responsibilities involve.

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities
PPS Executive Lead	Joseph Lamantia/Suffolk Care Collaborative	Responsible for overall guidance of Clinical Integration work stream
PPS Medical Director	Linda Efferen, MD/Suffolk Care Collaborative	Create the implementation and tracking process for the clinical integration assessment
PHM & Clinical Integration Organizational work stream lead	Linda Efferen, MD/Suffolk Care Collaborative	Provides leadership and guidance for the Population Health and Clinical Integration organizational workflows
PPS IT Lead	Jim Murry /Stony Brook Medicine	Responsible for capturing key findings from assessment regarding current state of interfaces and data sharing, and build support of these function into IT plan
PPS Care Management Director	Kelli Vasquez/Suffolk Care Collaborative	Responsible for the development of Care Transitions program and training on clinical integration. Create the implementation and tracking process for the clinical integration assessment.
Population Health Management Operating Workgroup	Key Project Stakeholders	Provides SME in Population Health Management, Integrated Delivery System and Clinical Integration organizational workflows
PPS Care Managers	Suffolk Care Collaborative	Care Management Program Operations
Director of Network Development & Performance for the Suffolk Care Collaborative	Kevin Bozza/Suffolk Care Collaborative	Responsible for acting as primary contact for PPS provider network and acting as liaison between PPS Executive Office and PPS provider network. Overall guidance of the Practitioner Engagement deliverables, responsible for project management of the Performance Reporting milestones to include linkages across 11 DSRIP projects. Responsible for oversight of Provider Engagement including communication, education, and training processes
Director of PPS PMO, Suffolk Care Collaborative	Alyssa Scully/Suffolk Care Collaborative	Project Management Office will champion consistent project management practices and methodologies, which will help the Suffolk PPS execute the DSRIP portfolio. In addition, will support the DSRIP project stakeholders to as a source for project management expertise, support communications, and align like-scope requirements within multiple projects.

**New York State Department Of Health  
 Delivery System Reform Incentive Payment Project  
 DSRIP Implementation Plan Project**

**State University of New York at Stony Brook University Hospital (PPS ID:16)**

**✓ IPQR Module 9.6 - Key Stakeholders**

**Instructions :**

Please identify the key stakeholders involved, both within and outside the PPS.

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
<b>Internal Stakeholders</b>		
Joseph Lamantia	Overall PPS Leadership	Ultimate accountability for PPS
Joseph Lamantia (Stony Brook), Jerry Hirsch (NSLIJ), Terry O'Brien (CHS)	Health System Leads of Suffolk PPS	Overall leadership of the enterprise Clinical Integration strategy and deliverables across Suffolk PPS Health System framework
Ariel Hayes (NSLIJ), Jessica Wyman, (CHS)	Health System PMO Units (NSLIJ & CHS)	Project Management Office function of Suffolk PPS Health System framework. Responsible for project management of enterprise Suffolk PPS work plans within health system.
Steven Feldman, Eric Niegelberg, Gwen O'Shea, Kristie Golden, Peg Duffy, Josh Miller, Ellen Miller, Carol Gomes	DSRIP Project Leads	Provide feedback to the design of the process and fully participate in the population health management process
Kevin Conroy, Scott Mathesie, Keisha Wisdom, Daniel Miller, Jim Murry, Paula Fries, Colleen Lyons, Michael Oppenheim, Arthur Crowe, Jonas Hajagos	Provide feedback on the various interfaces and data sharing mechanisms on their respective systems and support PPS effort to create standard tools and solutions that can be implemented by PPS Providers	PPS IT and Biomedical Informatics Committee
All PPS Coalition Partners (All unit level provider types enrolled in the Suffolk PPS including: PCP, non-PCP, Hospitals, Freestanding Inpatient/Rehab, SNF/Nursing Home, Clinics, Case Management/Health Homes, Behavioral Health, Substance Abuse, Pharmacy, Hospice, All Other)	PPS clinical workforce	Collaborate with Suffolk PPS Administration to adopt, support development and work to engage in project plans designed for particular unit level provider type. Provide input, insight, and clinical experience to improve clinical integration across the PPS.
Alyssa Scully, Alyse Marotta, Amy Solar-Doherty, Ashley Meskill, Samuel Lin, Alyeah Ramjit	Suffolk Care Collaborative Project Management Office	PMO support for all organizational work stream milestones to include, budget & finance related projects, and tactical management of implementation in the PMO software.
Althea Williams, Senior Manager, Provider & Community Engagement, Suffolk Care Collaborative	Cultural Competency & Health Literacy Lead	Assure cultural competency and health literacy practices addressed within PHM program
<b>External Stakeholders</b>		
Patients & Family Members	Improved health outcomes as a result of the PPS enterprise PHM program	Engage in PHM Program

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**State University of New York at Stony Brook University Hospital (PPS ID:16)**

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
Medicaid MCOs	Coordinated/shared efforts in developing value-based payment plans	The PPS will align with current MCO efforts to produce clinical integration as well as transitions of care and care coordination processes. Ensure alignment of effort.
Care Management Vendor	Provide CM training and resources to PPS	Provide support as needed to engage providers in CM platform

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**State University of New York at Stony Brook University Hospital (PPS ID:16)**

**✔ IPQR Module 9.7 - IT Expectations**

**Instructions :**

Please clearly describe how the development of shared IT infrastructure across the PPS will support this particular workstream.

A shared IT infrastructure across the PPS will support the ability of the PPS Providers to provide effective clinical care and care coordination for each PPS patient across the continuum of their needs. Learning what communication interfaces and data-sharing mechanisms are already in place, and then building out a tool kit to help support implementation of these clinical integration mechanisms across the PPS will be a key IT support function.

**✔ IPQR Module 9.8 - Progress Reporting**

**Instructions :**

Please describe how you will measure the success of this organizational workstream.

In addition to the metrics being tracked in other workstreams, the PPS PMO office will track the progress of the PPS to meet the specified milestones on time. Progress toward milestone completion will be monitored through the PPS wide reporting structure and will monitor project-specific performance metrics compared to baseline target scores. The progress reporting structure will also monitor the ability of participating PPS providers to meet requirements of the DSRIP projects, many of which are dependent on the presence of Clinical Integration, with effective data-sharing and care hand-offs across the continuum. Progress with data sharing and interoperability across the PPS, improving care transitions and communication among primary care, mental health and substance abuse providers, successful outcome with training providers and staff regarding clinical integration, tools and communication will all be measures of success. Oversight of this Clinical Integration work stream will occur as a part of the overall PPS governance within the Clinical Governance Committee. The PPS Executive Team and Care Management Team will play a key role in the implementation and ongoing monitoring of this progress reporting. The PMO office will also play a large role through the provision of infrastructure support that facilitates communication between providers to share best practices, a key driver of success.

**IPQR Module 9.9 - IA Monitoring:**

**Instructions :**

**New York State Department Of Health**  
**Delivery System Reform Incentive Payment Project**  
**DSRIP Implementation Plan Project**

**State University of New York at Stony Brook University Hospital (PPS ID:16)**

**Section 10 – General Project Reporting**

**IPQR Module 10.1 - Overall approach to implementation**

**Instructions :**

Please summarize your intended approach to the implementation of your chosen DSRIP projects, including considerations around how this approach will allow for the successful development of concurrently implementing DSRIP projects.

Our approach includes organizing a multi-disciplinary authoritative body to lead development of service interventions, protocols and programs that address significant community and population health problems. To train and support a care management infrastructure with an evidence-based approach to public health interventions, health services, and health policy. To educate and engage our providers in community and population health sciences. To reduce health disparities and improve measurable health outcomes through sustained community and organizational partnerships. The SCC has a Project Management Office (PMO) whose role is to provide an enterprise-wide approach to identify, prioritize and successfully execute the DSRIP project portfolio. The PMO's primary responsibility is to manage and control project constraints by ensuring project plans are implemented on schedule, within scope and on budget. The PMO utilizes Project Management Body of Knowledge (PMBOK®) based methodology as defined by the National Project Management Institute. Additional functions include, encouragement of collaboration amongst our PPS partner organizations, to support the DSRIP project teams as a source for project management leadership and expertise, to keep the project community informed through a robust communication strategy and to report required status reports to stakeholders including the NYS Department of Health. The PMO is staffed with full-time Project Managers assigned to every DSRIP project. This management role includes PPS wide monitoring of progress toward goals. Project Managers have drafted formal Project Management Plans (PMP) following a collaborative program design and development strategy. Once PMPs are initiated, results/management will be reported to PPS governance structures in compliance to the SCC Communication Plan. The PMO has initiated the roll-out of an enterprise portfolio management software, Performance Logic, to host all project plans and assign tasks to partners across the PPS network. This software tool will allow for a tactical, detailed, and task level management of the work break down structure of every project management plan. During this PMP development phase, the PMO designed and initiated project management templates and held routine meetings to collaborate with all key stakeholders, referenced in "Key Stakeholders." In an effort to eliminate duplication of concurrent projects across the 11 selected DSRIP project plans; the PMO has organized a system of Project Leads across all organizational work streams. All related-organizational-work-stream project requirements have been identified, and will be rolled-up and evaluated at a portfolio level. This approach will provide a standardization of like-project requirements, time/schedule and budgets where necessary. In addition, the DSRIP PMPs have been drafted ensuring all project requirements are met within the planned speed & scale parameters submitted. The PMO has operationalized a formal reporting structure to monitor, communicate and report progress on program implementation. Development of clinical programs will be driven by DSRIP projects, with governance and approval by the Clinical Governance Committee. Our portfolio management also includes: Director of Network Development & Performance to administer provider-facing tasks including communications and training; Community & Patient engagement staff to implement patient-facing tasks such as communications; PPS Care management structure with case managers, social workers and lay workers to support clinical interventions in all projects; and, IT PMO Team will assess all baseline IT needs, support/implement the development of new IT solutions across the PPS, including support of EHR optimization/MU requirements, as well as optimizing the use of the RHIO.

New York State Department Of Health  
Delivery System Reform Incentive Payment Project

DSRIP Implementation Plan Project

State University of New York at Stony Brook University Hospital (PPS ID:16)

IPQR Module 10.2 - Major dependencies between work streams and coordination of projects

**Instructions :**

Please describe how your approach will handle interdependencies between complementary projects, as well as between projects and cross-cutting PPS initiatives - for example, an IT infrastructure upgrade, or the establishment of data sharing protocols.

The Suffolk Care Collaborative currently follows the following methodology to manage interdependencies across the program portfolio. (1) Identifying the interdependency within a specific DSRIP projects (2) Categorizing them into aggregate groupings (ex. Communication requirements, training requirements, workforce requirements, Information technology requirements, etc.) (3) Project Manager obtain the inter-dependent task and will present to PMO (established structure to support cross collaboration between project manager and teams). (4) Resolution is made on how the inter-dependent task will be operationalized, (5) Project Manager to update project management plan to reflect resolution (6) Project Manager will communicate to project key stakeholders. The SCC central PMO provides clear direction and leadership throughout the management of inter-dependencies.

Beginning in the early program design and development process, many of these inter-dependent tasks were identified (shared or complementary work plan tasks). This was accomplished through an initial PMO strategy where work plan development included project leads and project managers in a white-board session. The output of this session pointed out to project teams where these implementation tasks appeared to mirror and/or need to be coordinated with tasks identified by other project teams. These were captured as dependencies on the project plan. We're gearing up to aggregate like-project requirements by project into portfolio PPS work plans by organizational work steam, identifying coordination requirements for complementary or interdependent tasks. We've provided a "support role" on our project plans for these particular tasks to flow to the respective organizational work stream project lead. For example, Jim Murry our Health Information Technology Organizational Work Stream Project Lead is a "support role" across the 11 DSRIP project plans for all Health Information Technology specific project requirements.

Additionally, cross-cutting PPS support resources are recognized in multiple areas with input from project committee and workgroups, provided to the central PMO. For example, workforce support will include hiring a Workforce Consultant to assist in re-training and re-deployment of existing workforce staff in collaboration with other key stakeholders (e.g., labor unions, etc.). Financial Sustainability and support resources will be another key work-stream that influences the success of all project budgets and resource allocations.

**✔ IPQR Module 10.3 - Project Roles and Responsibilities**

**Instructions :**

Please outline the key individuals & organizations that play a role in the delivery of your PPS's DSRIP projects, as well as what their responsibilities are regarding governance, implementation, monitoring and reporting on your DSRIP projects.

<b>Role</b>	<b>Name of person / organization (if known at this stage)</b>	<b>Key deliverables / responsibilities</b>
Executive Lead of Suffolk County PPS	Joseph Lamantia	Ensure that the PPS is successful in reducing avoidable hospital use by 25% over 5 years
Medical Director Suffolk County PPS	Linda Efferen, MD	Advise the PPS on all clinical issues
Director of Network Development & Performance, Suffolk Care Collaborative	Kevin Bozza	Responsible for acting as primary contact for PPS provider network and acting as liaison between PPS Executive Office and PPS provider network. Overall guidance of the Practitioner Engagement deliverables, responsible for project management of the Performance Reporting milestones to include linkages across 11 DSRIP projects. Responsible for oversight of Provider Engagement including communication, education, and training processes
Director of PPS Project Management Office, Suffolk Care Collaborative	Alyssa Scully	Lead PMO office, provide support to PPS projects to ensure that they are meeting requirements
Director Care Management, Suffolk Care Collaborative	Kelli Vasquez	Responsible for the development and execution of the PPS Care Management Program
Business Manager for DSRIP Operations	Neil Shah	Responsible for development, management of Financial operations and milestones to include accounts payable, treasury/banking, general ledger, reporting, audit
Senior Manager, Provider & Community Engagement, Suffolk Care Collaborative	Althea Williams	Assures cultural competency and health literacy practices are addressed, supports provider and community engagement initiatives
Clinical Project Manager, Suffolk Care Collaborative	Ashley Meskill	Organize and manage administrative components of multiple DSRIP projects
Project Manager, Suffolk Care Collaborative	Amy Solar-Doherty	Organize and manage administrative components of multiple DSRIP projects
Project Manager, Suffolk Care Collaborative	Alyse Marotta	Organize and manage administrative components of multiple DSRIP projects
Project Manger, Suffolk Care Collaborative	Samuel Lin	Support Project Portfolio and PMO Information System
IT PPS Project Team	Kevin Conroy, Scott Mathesie, Keisha Wisdom, Daniel Miller, Jim Murry, Paula Fries, Colleen Lyons, Michael Oppenheim, Arthur Crowe, Jonas Hajagos	Development of IT strategy and content experts on key aspects of data sharing, IT change management, confidentiality considerations, risk management, progress reporting.

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**State University of New York at Stony Brook University Hospital (PPS ID:16)**

<b>Role</b>	<b>Name of person / organization (if known at this stage)</b>	<b>Key deliverables / responsibilities</b>
PPS Biomedical Informatics (BMI) Data Project Team	Joel Saltz MD, PhD, Mary Morrison Saltz, MD, Andrew White, PhD, Janos Hajagos, Jonas Almeida	Oversight of Data Analytics and Predictive Modeling
Legal/Advisory	Rivkin Radler, LLP	Legal advisors for PPS
Liaison between PPS and MCOs	Dr. Steven Feldman	Lead monthly meetings and P4P discussions with MCOs
Project 2ai - IDS Project Lead	Joseph Lamantia	Manage project team and oversee implementation of Integrated Delivery System
Project 2ai - IDS Project Lead	Jim Murry	Manage project team and oversee implementation of Integrated Delivery System
Project 2biv - TOC Project Lead	Dr. Steven Feldman	Manage project team and provide content expertise to implementation of Transition of Care project
Project 2bvii - INTERACT Project Lead	Bob Heppenheimer	Manage project team and provide content expertise to implementation of Interact project
Project 2bvii - INTERACT Project Lead	Dianne Zambori, RN	Manage project team and provide content expertise to implementation of Interact project
Project 2bix - Observation Program Project Lead	Eric Niegelberg	Manage project team and provide content expertise to implementation of Observation project
Project 2di - PAM Activation Project lead	Gwen O'Shea	Manage project team and provide content expertise to implementation of PAM Activation project
Project 3ai - BH integration Project Lead	Kristie Golden	Manage project team and provide content expertise to implementation of BH and SBIRT project
Project 3bi - CVD Project Lead	Margaret Duffy	Manage project team and provide content expertise to implementation of CVD project
Project 3ci - Diabetes Project Lead	Josh Miller, MD	Manage project team and provide content expertise to implementation of Diabetes project
Project 3dii - Asthma Project Lead	Susmita Pati, MD	Manage project team and provide content expertise to implementation of Asthma project
Project 3dii - Asthma Project Lead	Ellen Miller	Manage project team and provide content expertise to implementation of Asthma project
Project 4aai - Prevent SA & Other Mental Emotional Behavioral Health Disorders Project Lead	Kristie Golden	Manage project team and provide content expertise to implementation of BH and SBIRT project
Project 4bii - Chronic Prevention Project Lead	Ernie Conforti	Manage project team and provide content expertise to implementation of Chronic Prevention project
Health Information Technology System & Processes Lead	Jim Murry	Build and Implement PPS-wide IT platform; develop process to ensure RHIO participation
Finance Organizational Work stream Lead	Bernie Cook	Determine Funds Flow and other financial considerations
Cultural Competency & Health Literacy Organizational Work stream Lead	Althea Williams	Engage Community Based Organizations and patient advocacy groups to represent needs of community

**State University of New York at Stony Brook University Hospital (PPS ID:16)**

<b>Role</b>	<b>Name of person / organization (if known at this stage)</b>	<b>Key deliverables / responsibilities</b>
Cultural Competency & Health Literacy Organizational Work stream Lead	Dr. Cordia Beverley	Engage Community Based Organizations and patient advocacy groups to represent needs of community
Workforce Organizational Work stream Lead	Kevin Bozza	Lead the development of the Workforce Strategic Plan
Workforce Organizational Work stream Lead/Human Resources Lead	Lou de Onis	Develop Workforce Strategic Plan and advise on all workforce issues
Compliance Organizational Work stream Lead	Sarah Putney (Compliance Officer)	Lead Compliance Program, including chairing Compliance Sub-Committee; implementing Work Plan; training; hotline; monitoring; investigations; promoting culture of ethics and compliance with DSRIP requirements.
Audit Organizational Work stream Lead	Suffolk Care Collaborative Audit Officer	Lead Audit Program, including develop guidelines for PPS Audit Plan, Chair Audit Governance Sub-committee, and ensure PPS is prepared for regular internal and external audits
Governance Organizational Work stream Lead	Jennifer Jamilkowski	Develop the Governance project plan and advise on all governance issues
Practitioner Engagement Organizational Work stream Lead	Kevin Bozza	Develop the Practitioner Communication and Engagement Plan and the training/education plan
Performance Reporting Organizational Work stream Lead	Kevin Bozza	Develop the Performance Reporting and Evaluation Plan and Education Program
Population Health Management Organizational Work stream Lead	Linda Efferen, MD	Develop the Population Health Management Roadmap
Clinical Integration Organizational Work stream Lead	Linda Efferen, MD	Develop the Clinical Integration Strategy and Roadmap
PCMH Certification Program Lead	Althea Williams	Develop the PCMH Certification Roadmap
Health System Leadership (NSLIJ & CHS)	Joseph Lamantia (Suffolk Care Collaborative), Jerry Hirsh (NSLIJ), Terry O'Brien (CHS)	Ensure that barriers to success are identified and removed as possible. Facilitate communication with lead applicant
Health System PMO Units (NSLIJ & CHS)	Ariel Hayes (NSLIJ), Jessica Wyman, (CHS)	Project Management Office function of Suffolk PPS Health System framework
Project Workgroup/Teams/Advisory Groups (Identified to date: Workforce Advisory Group, Cultural Competency & Health Literacy Advisory Group, Financial Sustainability Team, Compliance Team, MCO/Value Based Payment Team, Information Technology Task Force, Performance Evaluation & Management Team, Practitioner Engagement Team, Population Health Management Operating Workgroup, PCMH Certification Workgroup)	Multi-functional Representation across every group canvasses PPS partner network	Participates in creating and implementing project plans
11 DSRIP Project Committees (Project Committees include: Project 2ai, Project 2biv,	Multi-functional Representation across every group will canvasses PPS partner network	Oversight of project plans

**New York State Department Of Health

**DSRIP Implementation Plan Project**

**State University of New York at Stony Brook University Hospital (PPS ID:16)**

**IPQR Module 10.4 - Overview of key stakeholders and how influenced by your DSRIP projects**

**Instructions :**

In the below table, please set out who the key stakeholders are that play a major role across multiple DSRIP projects. Please give an indication of the role they play and how they impact your approach to delivering your DSRIP projects.

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
<b>Internal Stakeholders</b>		
Joseph Lamantia	Executive Lead of Suffolk County PPS	Overall Project Sponsor for PPS Project Portfolio
L. Reuven Pasternak, MD	Representative on PPS Board of Directors	Grant approval of final decisions within PPS
Kenneth Kaushansky, MD	Representative on PPS Board of Directors	Grant approval of final decisions within PPS
Gary E. Bie	Representative on PPS Board of Directors	Grant approval of final decisions within PPS
Jacqueline Mondros, DSW	Representative on PPS Board of Directors	Grant approval of final decisions within PPS
Carol Gomes, MS, FACHE, CPHQ	Representative on PPS Board of Directors	Grant approval of final decisions within PPS
Joseph Lamantia	Representative on PPS Board of Directors	Grant approval of final decisions within PPS
Jennifer Jamilkowski, MBA, MHS	Representative on PPS Board of Directors	Grant approval of final decisions within PPS
Kristie Golden, PhD, LMHC, CRC	Representative on PPS Board of Directors	Grant approval of final decisions within PPS
Jim Murry	Representative on PPS Board of Directors	Grant approval of final decisions within PPS
Harold Fernandez, MD	Representative on PPS Board of Directors	Grant approval of final decisions within PPS
Margaret M. McGovern, MD, PhD	Representative on PPS Board of Directors	Grant approval of final decisions within PPS
Jerrold Hirsch, PhD	Representative on PPS Board of Directors	Grant approval of final decisions within PPS
Kristopher Smith, MD	Representative on PPS Board of Directors	Grant approval of final decisions within PPS
James Sinkoff	Representative on PPS Board of Directors	Grant approval of final decisions within PPS
Terry O'Brien	Representative on PPS Board of Directors	Grant approval of final decisions within PPS
Brenda Farrell	Representative on PPS Board of Directors	Grant approval of final decisions within PPS
Karen Boorshtein, LCSW - BH	Representative on PPS Board of Directors	Grant approval of final decisions within PPS
Mary J. Zagajeski, MS, RN	Representative on PPS Board of Directors	Grant approval of final decisions within PPS
Michael Stoltz, LCSW - (patient advocate)	Representative on PPS Board of Directors	Grant approval of final decisions within PPS
Robert Heppenheimer - LTC	Representative on PPS Board of Directors	Grant approval of final decisions within PPS
Gwen O'Shea - CBO	Representative on PPS Board of Directors	Grant approval of final decisions within PPS
Linda Efferen, MD	PPS Medical Director, Suffolk Care Collaborative	Overall leadership and guidance related to the clinical program portfolio
Kevin Bozza	Director of Network Development & Performance, Suffolk Care Collaborative	Provides leadership and guidance related to the Workforce Study, Performance Reporting and Practitioner Engagement

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**State University of New York at Stony Brook University Hospital (PPS ID:16)**

<b>Key stakeholders</b>	<b>Role in relation to this organizational workstream</b>	<b>Key deliverables / responsibilities</b>
		organizational workflows
Alyssa Correale	Director of Project Management Office, Suffolk Care Collaborative	Lead PMO office, provide support to PPS projects to ensure that they are meeting requirements. Project Management Office will champion consistent project management practices and methodologies, which will help the Suffolk PPS execute the DSRIP portfolio. In addition, will support the DSRIP project stakeholders to as a source for project management expertise, support communications, and align like-scope requirements within multiple projects.
Business Manager for DSRIP Operations	Neil Shah	Responsible for development, management of Financial operations and milestones to include accounts payable, treasury/banking, general ledger, reporting, audit
Director Care Management	Director of PPS Care Management Program, Suffolk Care Collaborative	Provides leadership and guidance for the Population Health and Clinical Integration organizational workflows
Althea Williams	Senior Manager, Provider & Community Engagement, Suffolk Care Collaborative	Assures cultural competency and health literacy practices are addressed, supports provider and community engagement initiatives
Ashley Meskill	Clinical Project Manager, Suffolk Care Collaborative	Organize and manage administrative components of multiple DSRIP projects
Amy Solar-Doherty	Project Manager, Suffolk Care Collaborative	Organize and manage administrative components of multiple DSRIP projects
Alyse Marotta	Project Manager, Suffolk Care Collaborative	Organize and manage administrative components of multiple DSRIP projects
Samuel Lin	Project Manger, Suffolk Care Collaborative	Support Project Portfolio and PMO Information System
CHS Health System PMO	Administrative and operational Health System of PPS	Manage all aspects of CHS Health System and coordinate with PPS regarding key components of DSRIP initiative
NSLIJ Health System PMO	Administrative and operational Health System of PPS	Manage all aspects of NSLIJ Health System and coordinate with PPS regarding key components of DSRIP initiative
All PPS Coalition Partners (All unit level provider types enrolled in the Suffolk PPS including: PCP, non-PCP, Hospitals, Freestanding Inpatient/Rehab, SNF/Nursing Home, Clinics, Case Management/Health Homes, Behavioral Health, Substance Abuse, Pharmacy, Hospice, All Other)	Source of clinical knowledge	Participate in all PPS efforts to ensure coordination of care across all PPS providers
Kevin Conroy, Scott Mathesie, Keisha Wisdom, Daniel Miller, Jim Murry, Paula Fries, Colleen Lyons, Michael Oppenheim, Arthur Crowe, Jonas Hajagos	IT PPS Project Team	Responsible for developing the IT Strategy to support population health management and clinical integration.

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**State University of New York at Stony Brook University Hospital (PPS ID:16)**

<b>Key stakeholders</b>	<b>Role in relation to this organizational workstream</b>	<b>Key deliverables / responsibilities</b>
Joel Saltz MD, PhD, Mary Morrison Saltz, MD, Andrew White, PhD, Janos Hajagos, Jonas Almeida	PPS Biomedical Informatics (BMI) Data Project Team	Oversight of data analytics and predictive modeling support
Gina Bruce, Creative Strategy and Copywriting	Writer/Publications	Provides creative strategy and copywriting support for PPS communications
George Choriatis, Rivkin & Radler, LLP	Attorney Advisor	Development of data sharing agreement contracts, general legal counsel
Sarah Putney	Compliance Officer	Oversight of regulatory compliance program
Workforce Committee (Board of Directors Sub-Committee)	Sub-Committee of Board	Approval of all workforce deliverables and support communications of deliverables
Clinical Committee (Board of Directors Sub-Committee)	Sub-Committee of Board	Ultimate accountability for governance oversight of all clinical protocols and the performance monitoring program
Community Needs Assessment, Outreach, Cultural Competency & Health Literacy Committee (Board of Directors Sub-Committee)	Sub-Committee of Board	Provide guidance in identifying community health needs and ensuring that the projects and other initiatives are effective in addressing such needs in a culturally competent manner.
Health Information Technology & Biomedical Informatics Committee (Board of Directors Sub-Committee)	Sub-Committee of Board	Provide strategic direction for IT strategy and Data Analytics
Audit Committee (Board of Directors Sub-Committee)	Sub-Committee of Board	Oversight of financial reporting and disclosure
Compliance Committee (Board of Directors Sub-Committee)	Sub-Committee of Board	Oversight of compliance programs, policies and procedures
Finance Committee (Board of Directors Sub-Committee)	Sub-Committee of Board	Oversight of financial policies, goals, budgets and funds flow
Project Workgroup/Teams/Advisory Groups (Workforce Advisory Group, Cultural Competency & Health Literacy Advisory Group, Financial Sustainability Team, Compliance Team, MCO/Value Based Payment Team, Information Technology Task Force, Performance Evaluation & Management Team, Practitioner Engagement Team, Population Health Management Operating Workgroup, PCMH Certification Workgroup)	Multi-functional Representation of subject matter experts and SCC staff	Participates in creating and executin
Project Leads	Facilitate Project Plan	Oversight and leadership of the Project Plan and assuring milestones are met, provide subject matter expertise and support communication plan related to projects
11 DSRIP Project Committees	Multi-functional Representation across every group will canvasses PPS partner network	Oversight of the Project Plan
Executive Project Advisory Committee	Multi-functional Representation across the Continuum of Care for	Executive arm of the Project Advisory Committee

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**State University of New York at Stony Brook University Hospital (PPS ID:16)**

<b>Key stakeholders</b>	<b>Role in relation to this organizational workstream</b>	<b>Key deliverables / responsibilities</b>
	residents across Suffolk County	
Project Advisory Committee	Multi-functional Representation across every enrolled PPS partner organization (Over 800 Committee Members)	Advises the PPS about project plans and implementation
<b>External Stakeholders</b>		
Patients & Families	Recipient of services	Provides feedback on services provided
Patient Advocates	Contributor to project development, design of communications and key deliverables for patients	Provides feedback on development of services to be provided and assures process design is patient-centric, included in process improvement strategies
Uninsured Population	Recipient of services	Provides feedback on services provided
Suffolk County Residents	Key stakeholder and end user of programs and services	Recipients of improved services and provides feedback on services provided
Media	Communication Channel	Publications and communications
Labor Unions	Source of workforce expertise and representation of workforce	Provides expertise and input around job impacts resulting from DSRIP projects
Subject Matter Experts (SMEs)	Subject Matter Expert	Provide assistance in the development and execution of projects
Care Management Vendor	Care Management support	Provide support to implement Case Management infrastructure across PPS
Project Management Software Vendor	Performance Logic	Assist PMO office with managing projects from the development through implementation. Support ongoing monitoring and controlling of project plans across portfolio.
Workforce Training Vendors	Provide training for various work streams across PPS	Multiple training vendors will be identified for various types of training and certification across DSRIP projects
Cerner Information Technology Vendor	HealthIntent Information Technology Platform	The IT platform to achieve interoperability of patient information to achieve PPS population health management goals
Workforce Consultant	Content Expert	Assist PPS with developing the workforce strategy and transition roadmap
Health Homes	Source of current state expertise on management of the high risk Medicaid population in Suffolk County	Participate in all PPS efforts to ensure coordination of care across all PPS providers
Community-Based Organizations (CBOs)	Source of current knowledge of community needs and disparities present	Participate in all PPS efforts to ensure coordination of care across all PPS providers
Social Services	Support Services for Suffolk County Residents	Provides financial assistance and support services for eligible county residents
Suffolk County Agencies	Support Services for Suffolk County Residents	Provides opportunity for collaboration and best-practice sharing
All 25 NYS Performing Provider Systems (PPS)	25 NYS Performing Provider Systems (PPS)	Provides opportunity for collaboration and best-practice sharing
NYS Department of Health	Regulatory Oversight for DSRIP Program	Help ensure PPS success in meeting prescribed milestones and measure targets through collaborative oversight process
DSRIP Support Team (KPMG)	Source of expertise on DSRIP Program	Provides overall guidance and support to PPSs who are preparing

**State University of New York at Stony Brook University Hospital (PPS ID:16)**

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
		DSRIP application and project plans
Medicaid MCOs	Support of DSRIP efforts - coordination of care	Work with PPS Medicaid MCO relations team to identify opportunities to provide coordinated care and work toward value-based payment methodologies

New York State Department Of Health  
Delivery System Reform Incentive Payment Project

DSRIP Implementation Plan Project

State University of New York at Stony Brook University Hospital (PPS ID:16)

IPQR Module 10.5 - IT Requirements

Instructions :

Information technology will play a crucial role in the development of an effective, integrated performing provider system. It is likely that most projects will require some level of supporting IT infrastructure. Please describe the key elements of IT infrastructure development that will play a role in multiple projects.

The IT infrastructure plan for the Suffolk PPS will be created and approved by the PPS Board of Directors. The key elements of the IT infrastructure will include the following:

- Case Management Documentation tool
- EHR IT support process including integration and connectivity functions
- Analytics/decision support tool
- Patient registry tool
- PPS data warehouse
- PPS web-based patient portal
- IT support for connectivity to and use of the RHIO

The IT committee that was established under the governance of the PPS Board of Directors will establish a team to assess the baseline IT capabilities of participating partners across the PPS. Due to the number of different EMRs in existence across the PPS, a new build will not be possible at all sites. In place of building a new product, the IT committee will look for ways to build collaborative, integrative solutions in order to increase connectivity between the disparate systems. Connection to the RHIO will play a critical role producing better outcomes within the DSRIP program and will be emphasized throughout the development of the PPS wide IT infrastructure. The IT infrastructure will also play a critical role in supporting the documentation of key performance indicators (e.g., patient registries, care management documentation, etc.) and tracking the engagement of the patient population across Suffolk County. DSRIP program funding is tied to the achievement of these speed and scale numbers and as such, the IT infrastructure will be a key driver of success in achieving financial sustainability throughout the PPS.

IPQR Module 10.6 - Performance Monitoring

Instructions :

Please explain how your DSRIP projects will fit into your development of a quality performance reporting system and culture.

All PPS Providers will be engaged in the PPS Performance Reporting process to ensure that a quality culture around performance measurement and outcomes is created. All PPS Providers will receive easily accessible data and information to help set them up for success in improving their performance. Performance dashboards will be developed for the PPS. These will be shared transparently within the PPS and incentives and improvement plans will be linked. Performance dashboards at project level will be shared transparently with project teams and partners. Areas of variation in clinical results or PPS provider performance will be addressed initially at the project level. Oversight of this process will be the responsibility of the Clinical Governance Body with support from the Performance Evaluation and Management Team. The financial sustainability plan will tie-in Provider performance to future value-based contracting efforts to ensure that incentives are aligned.

Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**State University of New York at Stony Brook University Hospital (PPS ID:16)**

**✓ IPQR Module 10.7 - Community Engagement**

**Instructions :**

Please describe your PPS's planned approach for driving community involvement in the DSRIP projects, how you will contract with CBOs for these projects, how community engagement will contribute to the success of the projects, and any risks associated with this.

The foundation for community involvement will be based on the PPS governance approach; an inclusive approach to all community providers to receive their input and support through quarterly PAC meetings and then through representation on the PPS Board of Directors. CBOs will be included on project teams to help support design, implementation and ongoing monitoring of success.

CBOs will be contracted with the PPS to ensure that all the terms of a collaborative and supportive agreement are in place and transparent from the outset to ensure full, ongoing participation of these entities over the years of the DSRIP projects. This type of full community engagement will help each project attain its goals through effectively leveraging all aspects of patient and care support that will help remove barriers that would otherwise remain; support such as behavioral health services, social work services, care management services, educational opportunities, food support and housing support. The risks associated with this approach include the difficulty in linking all such organizations electronically, considering the many disparate IT systems that are in place, the lack of alignment in purpose due to different funding mechanism that do not always reward quality outcomes, as well as already limited resources within existing CBOs in certain geographies within the County. The PPS will address these risks through implementation planning within the project teams that identify and plan to overcome such gaps, with support from the PPS Governance structure, including Clinical, IT and Finance governance committees and from the PPS PMO.

**Section 11 – Workforce**

**✔ IPQR Module 11.1 - Workforce Strategy Spending (Baseline)**

**Instructions :**

Please include details on expected workforce spending on a semi-annual basis. Funds may be shifted from one funding type category to another within the workforce strategy spending table, as long as the PPS adheres to their overall spend commitments. However, the PPS may apply a 25% discount factor to the DY1 Workforce Strategy Spend target. If the PPS applies this discount in DY1, the PPS will be expected to reallocate those funds appropriately in DY2-4 to fully meet their DY1-4 total commitment.

Funding Type	Year/Quarter										Total Spending(\$)
	DY1(Q1/Q2)(\$)	DY1(Q3/Q4)(\$)	DY2(Q1/Q2)(\$)	DY2(Q3/Q4)(\$)	DY3(Q1/Q2)(\$)	DY3(Q3/Q4)(\$)	DY4(Q1/Q2)(\$)	DY4(Q3/Q4)(\$)	DY5(Q1/Q2)(\$)	DY5(Q3/Q4)(\$)

**Prescribed Milestones Narrative Text**

Milestone Name	Narrative Text
Define target workforce state (in line with DSRIP program's goals).	<p>General Program Narrative:</p> <p>The Suffolk Care Collaborative (SCC) continued to engage the Workforce Advisory Committee and Workforce Governance Committee throughout DY1 Q4 to complete the implementation plan deliverables. The SCC and consultants from KPMG facilitated current and target state meetings with key stakeholders from all eleven DSRIP projects. During the meetings job titles were identified for each project as well as the competencies and skills needed to meet the job requirements. The SCC needs additional time to finalize the target state, gap analysis and transition roadmap since partner organizations have not yet finalized incumbent position allocations to the PPS for each project. The SCC has recently begun contracting with partners and needs more time to understand the current workforce allocations and needs to support the DSRIP projects. The SCC and KPMG will be conducting working sessions in early May to continue developing target state projection models, the current state assessment report and the gap analysis. At the March 30th Workforce Governance Committee meeting there was consensus to utilize market-based compensation and benefits data in addition to surveying partners to inform the compensation and benefit analysis report for SCC. KPMG will be coordinating the compensation and benefits survey for our partners throughout DY2 Q1. The Workforce Communication and Engagement Plan is in draft form and reflects input from key stakeholders from across the PPS as well as from members of the Practitioner Engagement Workgroup and Workforce Advisory Committee. The SCC Training Strategy and Plan was approved by the Workforce Governance Committee on March 30th. The SCC facilitated a needs assessment across all DSRIP projects and Organization Work Streams to initiate the development of the Training Plan and Strategy. The needs assessment helped to identify the courses, skills and processes that would need to be acquired in order to successfully participate in the DSRIP projects. The SCC will be utilizing a blended learning approach to training and is currently building a learning center on the SCC website. Resources related to Cultural Competency, Health Literacy, and PCMH will be available on the Learning Center as well as e-learning modules initially focused on DSRIP 101 education and Performance Improvement. The SCC Training Strategy and Plan will be updated as needed as we learn more about our partners and their training needs through the contracting process.</p>

✓ IPQR Module 11.4 - Major Risks to Implementation & Risk Mitigation Strategies

Instructions :

Please describe the key challenges and risks that you foresee in achieving the milestones set out above, including potential impacts on specific projects and any risks that will undermine your ability to achieve outcome measure targets.

Issue: Need for significant new staff resources. Lack of sufficient numbers of clinical staff resources available within the County. Issues with more acute shortages in geographies that are rural in nature.  
Mitigation: With input from union representatives, HR leadership, and administrative leadership across our PPS, we have created a comprehensive workforce strategy that seeks to balance the supply and demand for staff with an emphasis on making, in a sustainable way, more care available in the community where it is need, provided by staff working at the top of their licensure. We will deploy three approaches to ensure that people with the appropriate skill sets are available to support the projects as dictated by their implementation plans:  
1. Hiring consultants for short-term, immediate needs.  
2. Retraining and redeploying existing workforce particularly where there is excess capacity, as well as recruiting new staff with appropriate training. For difficult to fill positions, we will consider signing bonuses, tuition reimbursement, mentoring and mid-year evaluations for promotion and bonuses.  
3. Leveraging attrition to meet workforce adjustments needs in that as positions turnover, they will be replaced with positions needed to support the DSRIP projects.  
Issue: Potential limitation in the ability to effectively retrain or redeploy staff due to limited knowledge in how to accomplish this or not enough resources to manage the plan.  
Mitigation: To minimize the effects of redeployment and retraining, our PPS will engage a workforce consultant to engage the PPS members, update and verify the data used to make workforce redeployment and retraining, and recruitment decisions and create a sophisticated communication / engagement plan that supports clear, real-time, transparent communication to the relevant employees, union leaders, and PPS partners. Redeployments will be minimized by primarily relying on attrition to make needed positions available to support the DSRIP projects. When contemplated, redeployment will be done per the workforce plan developed with union and partner HR leadership (disparate HR policies across varying PPS members will need to be addressed); keeping employees whole, when possible, working within the same organization and bargaining unit, receiving at least 95% of their current compensation, minimizing separations. When presented with a redeployment opportunity, employees will get a documented comparison of current versus new job responsibilities given existing collective bargaining agreements and NYS civil service law framework.  
Issue: Potential lack of support of the plan by key PPS stakeholders (including lack of IT acceptance among impacted workers).  
Mitigation: A very thorough communication process will be built to ensure that all key stakeholders are able to have input into the PPS workforce transition roadmap. Internally, the Governance model that includes transparency and an inclusive approach will help drive support of the participating PPS providers, particularly the involved hospitals. Externally the communication process will successfully engage other key stakeholders, including representatives of labor. Our PPS will be working with these representatives as partners to understand the collective bargaining agreement requirements and navigate the unique rights and obligations afforded therein related to retraining, redeployment, layoff or separation. Union leadership from a minimum of five locals have been participating members of the SCC PAC. The unions also have participated in providing feedback during the Workforce Application Task Force meeting. Ongoing labor representative participation in the PAC is recognized as essential as is their input into the workforce plan. Finally, ongoing training will occur among impacted workforce to provide proper levels of retraining and help develop proficiency in meeting demands of new positions.

**State University of New York at Stony Brook University Hospital (PPS ID:16)**

**☑ IPQR Module 11.5 - Major Dependencies on Organizational Workstreams**

**Instructions :**

Please describe any interdependencies with other organizational workstreams (IT Systems and Processes, Clinical Integration, etc.)

There is a key dependency on governance, which will need to be effectively implemented across the PPS to ensure that all participating PPS providers are aligned in purpose and support the efforts required to implement the workforce plan. A linkage of the workforce plan to funds flow will be important part of the overall PPS IDS strategy; providers that actively embrace the concepts outlined within the workforce plan, and therefore effectively redeploy and retrain staff, will incur additional use of resources /expense and this should on part by a factor in determining funds flow. There are also key dependencies on the IT work-stream as new staff will be required to help with the build of the PPS wide IT infrastructure and training will be needed to effectively retrain employees for system proficiency including cultural/ behavioral training in addition to technical training and upskilling.

**✓ IPQR Module 11.6 - Roles and Responsibilities**

**Instructions :**

Please list and elaborate upon the key people/organizations responsible for this organizational workstream and describe what their responsibilities involve.

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities
PPS Executive Lead	Joseph Lamantia, Chief of Operations for Population Health, Suffolk Care Collaborative	Responsible for oversight of overall Workforce Work stream
PPS Medical Director	Linda Efferen, MD, Medical Director, Suffolk Care Collaborative	Responsible for supporting oversight of clinical workforce components of the of overall Workforce Work stream
Workforce Governance Committee	Lou De Onis, Karen Shaughness, Thomas Cathcart, Phil Matecovsky, Rebecca Gordon, Brenda Farrell	Ultimate accountability for governance oversight of the Workforce strategy. Approve final decisions and action plans
Workforce Project Lead	Kevin Bozza, Director Network Development & Performance, Suffolk Care Collaborative	Responsible for Management of overall Workforce Work stream; Dedicated lead responsible for overseeing execution of all workforce deliverables; Will work in concert with PPS PMO
Labor Representation	Health Care Workers East - #1199, NYS Nurses Association (NYSNA), SB Medicine (UUP), CSEA, SB Medicine (PEF), SB Medicine (UUP) + will continue to grow...	Labor group(s) that can provide insights and expertise into likely workforce impacts, staffing models, and key job categories that will require retraining, redeployment, or hiring
Workforce Project Lead	Lou De Onis, Interim Chief of Human Resources, Stony Brook Medicine	Responsible for Management of overall Workforce Work stream; Dedicated lead responsible for overseeing execution of all workforce deliverables; Will work in concert with PPS PMO
Workforce Consultant	KPMG	Consulting firm responsible for the coordination and execution of workforce activities and analyses, reporting directly to the WF Project Manager
Workforce Advisory Group	Representatives of workforce stakeholders (e.g., labor representatives, Clinical Workforce, Non-Clinical Workforce, patient advocates, etc.). Organizations include: Brookhaven Memorial Hospital Medical Center, CSEA, Dominican Sisters Family Health Service, Inc., Eastern LI Hospital, Family Service League (Long Island Behavioral Association (LIBA)), Health & Welfare Council of Long Island (CBO) Community Based Organizations - REP), Health Care Workers East - #1199, Hudson River Health Care, John T. Mather Memorial Hospital, KPMG LLP, Nesconet Center for Nursing & Rehab and Hilaire Rehab & Nursing (Long-term Care/Home Health Care - ADVOCATE), North Shore LIJ Health System, NYS Nurses Association (NYSNA), Options for Community Living, Association for Mental Health & Wellness (Patient - ADVOCATE), Peconic Bay Medical Center/East End	A group of PPS individuals responsible for assisting with, providing insight, recommendations and subject matter/community-based expertise and/or supporting the execution of key portions of the Workforce Implementation Plan activities and deliverables

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project**

**DSRIP Implementation Plan Project**

**State University of New York at Stony Brook University Hospital (PPS ID:16)**

Role	Name of person / organization (if known at this stage)	Key deliverables / responsibilities
	Hospital Alliance, Stony Brook University Hospital, Stony Brook Medicine CSEA, Stony Brook Medicine PEF, Stony Brook Medicine UUP, Southampton Hos	
Senior Manager, Provider & Community Engagement	Althea Williams, Senior Manager, Provider & Community Engagement, Suffolk Care Collaborative	Management role to support the Director of Network Development & Performance leading and developing the Workforce Work stream deliverables
Director, Project Management Office	Alyssa Scully, Director Project Management Office, Suffolk Care Collaborative	Project Management Office will champion consistent project management practices and methodologies, which will help the Suffolk PPS execute the DSRIP portfolio. In addition, will support the DSRIP project stakeholders to as a source for project management expertise, support communications, and align like-scope requirements within multiple projects.

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project  
DSRIP Implementation Plan Project**

**State University of New York at Stony Brook University Hospital (PPS ID:16)**

**✓ IPQR Module 11.7 - Key Stakeholders**

**Instructions :**

Please identify the key stakeholders involved in your workforce transformation plans, both within and outside the PPS.

Key stakeholders	Role in relation to this organizational workstream	Key deliverables / responsibilities
<b>Internal Stakeholders</b>		
Joseph Lamantia	PPS Executive Lead	Overall leadership and guidance related to the Workforce Deliverables
Joseph Lamantia (Stony Brook), Jerry Hirsch (NSLIJ), Terry O'Brien (CHS)	Health System Leads of Suffolk PPS	Overall leadership of the enterprise workforce strategy and deliverables across Suffolk PPS Health System framework
Ariel Hayes (NSLIJ), Jessica Wyman, (CHS)	Health System Project Management Office (PMO) Units (NSLIJ & CHS)	Implementation of CC/HL deliverables across Suffolk PPS Health System framework
Linda Efferen, MD	PPS Medical Director	Overall leadership and guidance related to the Clinical Program Portfolio
Kevin Bozza, Director Network Development & Performance, Suffolk Care Collaborative	Workforce Project Lead	Communication lead, Training lead, support management of workforce consultants and contracted deliverables, ensuring provider training occurs in a timely manner, obtain feedback from all PPS member organizations who participate in the Suffolk PPS for potential workforce related organizational changes
Lou De Onis, Interim Chief of Human Resources, Stony Brook Medicine	Human Resources Lead, Workforce Project Lead	Providing subject matter expertise in Human Resources across all workforce deliverables
Workforce Advisory Group	Workforce Advisory and Subject Matter Expertise Support Group	Subject matter experts, provide insight, information related to sources and destinations of redeployed staff, review workforce deliverables, support current and future state assessments
Workforce Governance Committee	Workforce Governance Body	Approval of all workforce deliverables and support communications of deliverables
Suffolk Care Collaborative Project Management Office	Alyssa Scully Laura Siddons, Amy Solar-Greco, Ashley Meskill, Samuel Lin	PMO support for all organizational work stream milestones to include, budget & finance related projects, and tactical management of implementation in the PMO software.
Althea Williams, Senior Manager, Provider & Community Engagement, Suffolk Care Collaborative	Cultural Competency & Health Literacy Lead	Assure cultural competency and health literacy practices addressed within work-stream deliverable requirements
All PPS Coalition Partners (All unit level provider types enrolled in the Suffolk PPS including: PCP, non-PCP, Hospitals, Freestanding Inpatient/Rehab, SNF/Nursing Home, Clinics,	Engaged Contracted Partner	Collaborate with Suffolk PPS Administration to adopt, support development and work to engage in project plans designed for particular unit level provider type. Accountable for reporting progress, CC/HL materials, and outcomes to meeting workforce -

Delivery System Reform Incentive Payment Project  
DSRIP Implementation Plan Project**

**State University of New York at Stony Brook University Hospital (PPS ID:16)**

**✓ IPQR Module 11.8 - IT Expectations**

**Instructions :**

Please describe how the development of shared IT infrastructure across the PPS will support your plans for workforce transformation.

The successful implementation of a shared IT infrastructure across the PPS will be a pivotal catalyst for the type of changes in care delivery needed to produce more effective utilization of services and clinical outcomes for the population served. This movement toward value-based outcomes in care delivery will occur through redesign of care processes that move the patient care to the outpatient medical home setting where the care provided can be more coordinated, more effective and ultimately lead to a reduction in avoidable hospital admissions. This will allow the clinical work force to be redeployed where appropriate from the inpatient setting to the outpatient setting, where they can have more impact on the patient care provide. The IT infrastructure will also play a large role in the deployment of PPS wide training strategy and will play a role in tracking the workforce participation in new training programs, including IT platforms to track training progress (e.g. LMS system).

**✓ IPQR Module 11.9 - Progress Reporting**

**Instructions :**

Please describe how you will measure the success of this organizational workstream.

The Workforce Project Leads have developed a process to manage the data collection and ratification for the quarterly progress reports. Progress will be measured based in the ability of the PPS to meet the specified milestones on time and budget. The PPS workforce plan will be tracked monthly to ensure completion of all tasks, with supplementary quarterly reports of the workforce strategy budget compared to target, the workforce impact numbers, and the new hire employment analysis numbers; all intended to ensure that the PPS workforce plan is on track. Oversight of this process will occur within the PPS Workforce Governance Committee structure.

The reporting process of this work-stream will coordinate with the overall PPS reporting process led by the PPS PMO team. Together, the Workforce Project Team and the PMO team will identify and assign responsibility to key stakeholders to ensure that the process of reporting progress is accurately completed in a timely manner.

**IPQR Module 11.11 - Workforce Strategy Spending (Quarterly):**

**Instructions :**

Please include workforce spend dollar amounts for DY1. The workforce spend amounts should reflect only what was spent during the relevant quarters and is not cumulative across semi-annual periods. Funds may be shifted from one funding type category to another within the workforce strategy spending table; e.g., from Retraining to New Hires.

Benchmarks	
Year	Amount(\$)
Total DY1 Spending Commitment	5,405,000.00

Funding Type	Workforce Spending Actuals		Total Spending(\$)	Percent of Commitments Expended
	DY1(Q1/Q2)(\$)	DY1(Q3/Q4)(\$)		
Retraining	203,668.36	549,752.79	753,421.15	125.57%
Redeployment	201,339.64	414,117.20	615,456.84	123.09%
New Hires	928,946.86	2,024,859.53	2,953,806.39	100.81%

**Project 2.a.i – Create Integrated Delivery Systems that are focused on Evidence-Based Medicine / Population Health Management**

**✓ IPQR Module 2.a.i.1 - Major Risks to Implementation and Mitigation Strategies**

**Instructions :**

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

The creation of an Integrated Delivery System across Suffolk County poses many challenges including risks that present themselves as structural, technology diversity, care management, provider-specific, and patient risks. However, the Suffolk County PPS will rely on a collaborative governance structure and a transparent communication strategy that emphasizes two-way communication in order to begin addressing these challenges. A high-level assessment of risks related to this project can be found below, as well as recommendations to begin addressing these risks: **STRUCTURAL CHALLENGES:** Challenges center on PPS members that have concerns about sharing data. Additional challenges exist regarding the ability to meet requirements for Meaningful Use and RHIO connectivity. **STRUCTURAL REMEDIES:** Create a PPS IT Governance Team that develops data access and security standards and protocols addressing Provider concerns, support interventions assisting PCP practices in technology and EHR implementation, create best practice examples around advantages of RHIO participation and how patient RHIO consents can be obtained. **TECHNOLOGY DIVERSITY CHALLENGES:** The largest challenge for technology exists in the wide variation of Electronic Health Record systems and the ability to connect these disparate systems. **TECHNOLOGY DIVERSITY REMEDIES:** Communicate PPS transition vision for integrated technology model that increases system connectivity and interoperability while maintaining necessary system differentiation required. **CARE MANAGEMENT CHALLENGES:** Currently, there are no common standards, protocols and governance regarding the provision of Care Management. Wide variation exists in Care Management provided. **CARE MANAGEMENT REMEDIES:** Create a model for uniform PPS governance of CM standards and protocols. These protocols will incorporate current best practices across the PPS as well as integrating expertise from best practices across the industry. Training in any newly developed standards and protocols will come from the PPS wide Provider Engagement Team. **PROVIDER CHALLENGES:** Lack of provider financial alignment exists across PPS; reduced utilization reduces revenue across multiple provider types. Additionally, provider shortages are common within PPS particularly in primary care and behavioral health services. Lack of participation of smaller rural PCP practices in the IDS is a particular challenge. **PROVIDER REMEDIES:** Regular meetings will be established with MCOs to discuss the rewriting of provider contracts to include risk/rewards mechanism that create incentives for providers to move metrics on cost, quality and utilization. In the interim, the PPS has designated 75% of the received waiver revenue to be directed towards provider bonus payments to help provide short-term financial incentives until MCO discussions are finalized. IDS includes interventions to improve efficiency in PCP practices and capacity (PCMH). Geographic provider shortages addressed by the PPS, leveraging support from PPS providers who have expanded provider capacity in rural areas (HRH, Brookhaven Hospital). Increased PCP practice engagement promoted through communication of resource and financial support to support redesign efforts. **PATIENT CHALLENGES:** Patient factors unique to the Medicaid and Uninsured population, including health literacy gaps, social/family issues, transportation issues, and REL barriers, create barriers to accessing care. **PATIENT REMEDIES:** Protocols that ensure barriers are addressed in each phase of project implementation, with oversight by a Community Advisory group that includes representation from the patient population and advocacy groups. Telephonic and in-person translation services offered to overcome language barriers.

**IPQR Module 2.a.i.2 - Prescribed Milestones**

**Instructions :**

Please provide updates to baseline reporting on status, target dates, and work breakdown tasks for prescribed milestones. For milestones that are due and completed within the reporting period, documentation is required to provide evidence of project requirement achievement. Any explanations regarding altered or missed provider commitments should be included within the narrative box, not as text within uploaded documentation.

Project Requirements (Milestone/Task Name)	Prescribed Due Date	Reporting Level	Provider Type	Status	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
<b>Milestone #1</b> All PPS providers must be included in the Integrated Delivery System. The IDS should include all medical, behavioral, post-acute, long-term care, and community-based service providers within the PPS network; additionally, the IDS structure must include payers and social service organizations, as necessary to support its strategy.	DY3 Q4	Project	N/A	In Progress	04/01/2015	03/31/2018	04/01/2015	03/31/2018	03/31/2018	DY3 Q4
<b>Task</b> PPS includes continuum of providers in IDS, including medical, behavioral health, post-acute, long-term care, and community-based providers.		Project		In Progress	04/01/2015	03/31/2018	04/01/2015	03/31/2018	03/31/2018	DY3 Q4
<b>Task</b> Step 1: Complete full provider list of all Suffolk County PPS participants, defined by Provider type, with NPI, with Practice Site name		Project		Completed	04/01/2015	12/31/2015	04/01/2015	12/31/2015	12/31/2015	DY1 Q3
<b>Task</b> Step 2: Develop list of elements that will need to be part of each provider agreement/contract, create final contract		Project		Completed	04/01/2015	10/01/2015	04/01/2015	10/01/2015	12/31/2015	DY1 Q3
<b>Task</b> Step 3: Post PPS provider network directory on web site; maintain periodic audit trail report of log of changes to network list		Project		Completed	08/31/2015	09/15/2015	08/31/2015	09/15/2015	09/30/2015	DY1 Q2
<b>Task</b> Step 4: Create a process to track all executed Provider contractual agreements		Project		Completed	04/01/2015	08/31/2015	04/01/2015	08/31/2015	09/30/2015	DY1 Q2
<b>Task</b> Step 5: Initiate Outreach & Contracting Strategy to engage PPS partners in formal Participation Agreements (this shall include all medical, behavioral, post-acute, long-term care, and community-based service providers within the PPS network; additionally, including payers/MCO and social service organizations, as necessary to support strategy)		Project		Completed	08/01/2015	12/31/2015	08/01/2015	12/31/2015	12/31/2015	DY1 Q3
<b>Task</b>		Project		In Progress	08/01/2015	12/31/2016	08/01/2015	12/31/2016	12/31/2016	DY2 Q3

Project Requirements (Milestone/Task Name)	Prescribed Due Date	Reporting Level	Provider Type	Status	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
Health Management Operating workgroup to discuss the approach to ensuring patients receive appropriate health care and community support, including medical and behavioral health, post-acute care, long term care and public health services within the PPS/IDS infrastructure (hiring, mission/vision/values, goals). Identification of vision and modeling of future state care management program.										
<b>Task</b> Step 2: Health Information Technology - Develop plan for Clinically Interoperable system - CM platform/tool for a final PPS solution, as well as the planning for the development of SCC CM Program Phase 1 tool. Start-up of CM planning activities will commence as close to the start date of 6/1/2015 as possible .		Project		Completed	06/01/2015	09/30/2015	06/01/2015	09/30/2015	09/30/2015	DY1 Q2
<b>Task</b> Step 3: SCC leadership to hire vendor for early stage implementation and build of Suffolk Care Collaborative (SCC) Care Management (CM) Program		Project		Completed	06/01/2015	09/30/2015	06/01/2015	09/30/2015	09/30/2015	DY1 Q2
<b>Task</b> Step 4: Health Information Technology - Implement SCC CM Program Phase 1 platform/tool solution (tool operational)		Project		Completed	06/01/2015	12/31/2015	06/01/2015	12/31/2015	12/31/2015	DY1 Q3
<b>Task</b> Step 5: Development and Dissemination of SCC CM Program structure/clinical leadership/processes (handoffs, reporting structure, how CM program interfaces w/ day to day operations)- to yield successful implementation at engaged/contracted sites		Project		In Progress	06/01/2015	03/31/2016	06/01/2015	06/30/2016	06/30/2016	DY2 Q1
<b>Task</b> Step 6: Create graphics/diagrams of all SCC CM process flows and diagrams, as well as protocols and P&Ps that cover all planned PPS CM activity (demonstrating IDS processes).Circulate drafts with key project stakeholders and collaborate on model. Assure to align model to the various baseline and needs assessment taking place across various provider types engaged in the project.		Project		In Progress	06/01/2015	03/31/2016	06/01/2015	09/30/2016	09/30/2016	DY2 Q2
<b>Task</b> Step 7: PPS Care Management program leadership to collaborate with DSRIP Project Managers and Project leads across the DSRIP project portfolio to identify provider network gaps in the community support network		Project		In Progress	01/01/2016	06/30/2016	01/01/2016	06/30/2016	06/30/2016	DY2 Q1
<b>Task</b>		Project		In Progress	01/01/2016	09/30/2016	01/01/2016	09/30/2016	09/30/2016	DY2 Q2

**New York State Department Of Health

Project Requirements (Milestone/Task Name)	Prescribed Due Date	Reporting Level	Provider Type	Status	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
Step 8: Launch, Educate, Promote Communicate all CM process flows, protocols and polices to Engaged/Contracted PPS stakeholders involved (e.g. medical and behavioral health, post-acute care, long term care and public health entities)										
<b>Task</b> Step 9: Develop staffing model to meet anticipated program requirements for both "high risk" and "complex" patient populations. Develop hiring timeline to scale to other sites after immediate needs are met		Project		Completed	07/01/2015	03/31/2016	07/01/2015	03/31/2016	03/31/2016	DY1 Q4
<b>Task</b> Step 10: Develop process for CM's to communicate and collaborate across the PPS Health System framework, with Health Homes and MCOs. Initiate and monitor effectiveness of communication across multiple key stakeholders.		Project		Completed	06/01/2015	03/31/2016	06/01/2015	03/31/2016	03/31/2016	DY1 Q4
<b>Task</b> Step 11: Health Information Technology - Clinically Interoperable System is in place for Engaged/Contracted participating providers. PPS CM platform/tool is implemented - Development by SCC IT Task Force - to include HIE Systems support, if applicable, process work flows, documentation of process and workflow including responsible resources and other sources demonstrating implementation of the system.		Project		In Progress	10/01/2015	09/30/2016	10/01/2015	09/30/2016	09/30/2016	DY2 Q2
<b>Task</b> Step 12: CM vendor to provide training of Engaged/Contracted CM staff, including outreach/training as needed for CM partners such as Health Homes and Health Systems.(to include PPS process for tracking care outside of hospitals to ensure that all critical follow up services and appointment reminders are followed).		Project		In Progress	01/01/2016	09/30/2016	01/01/2016	09/30/2016	09/30/2016	DY2 Q2
<b>Task</b> Step 13: Collect and integrate into CM workflow project specific clinical protocols and requirements. (includes multiple IDS project work plan subtasks)		Project		In Progress	01/01/2016	09/30/2016	01/01/2016	09/30/2016	09/30/2016	DY2 Q2
<b>Task</b> Step 14: Develop and Document the written materials that will be used for SCC CM Program (IDS) training and develop system to track all training dates and the number of staff trained.		Project		In Progress	09/01/2015	03/30/2016	09/01/2015	09/30/2016	09/30/2016	DY2 Q2
<b>Task</b> Step 15: Health Information Technology - Create a reporting process from the CM tool that outlines key CM metrics including the % of discharged patients with a 30 day transition plan		Project		In Progress	10/01/2015	06/30/2016	10/01/2015	06/30/2016	06/30/2016	DY2 Q1

Project Requirements (Milestone/Task Name)	Prescribed Due Date	Reporting Level	Provider Type	Status	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
Step 5: Develop process to promote and ensure compliance and sustainability of PCMH standards (Develop communication channels with EHR team to address Meaningful Use compliance, etc.)										
<b>Task</b> Step 6: Current State Assessment - Begin Evaluation of current state of Engaged/Contracted Primary Care Practices within the PPS. Assessment to be performed by PCMH Certification Workgroup and PCMH Project Lead, and possible vendor. Assessment to evaluate things such as PCMH certification readiness assessment, IT Interoperability, Meaningful Use Readiness and Resource allocation readiness.		Project		In Progress	08/31/2015	03/31/2016	08/31/2015	09/30/2016	09/30/2016	DY2 Q2
<b>Task</b> Step 9: Merge all unit level provider type "PCP practice" tasks from the 11 DSRIP project plans and create a global provider outreach and engagement work plan to effectively implement provider interventions with uniformity of message and no duplication of effort. Individual project teams will provide subject matter expertise (for example, patient engagement definitions and specifications) and organizational work stream project leads to provide additional support (for example, IT interoperability needs for all PCP practices).		Project		In Progress	09/01/2015	06/30/2016	09/01/2015	06/30/2016	06/30/2016	DY2 Q1
<b>Task</b> Step 10: Develop schedule for Engaged/Contracted PCP partner alignment to PCP project requirements (PCMH Certification, Expanding Access and Meeting EMR Meaningful Use standards by the end of DY3). Align planned sequencing/targeting with "hot spot" suggestions rolled up from individual DSRIP project stakeholders		Project		In Progress	10/01/2015	06/30/2016	10/01/2015	06/30/2016	06/30/2016	DY2 Q1
<b>Task</b> Step 11: Initiate IDS Project plans with Engaged/Contracted partners (PCMH Certification, Expanding Access and Meeting EMR Meaningful Use Stage 2 standards by the end of DY3).		Project		In Progress	10/31/2015	06/30/2016	10/31/2015	06/30/2016	06/30/2016	DY2 Q1
<b>Task</b> Step 12: Initiate Care Management training of selected engaged/contracted PCP practices and integration into existing practice workflows (including EHRs and connecting patients back into PCP network after IP, BH, or other Non-PCP visit) throughout Suffolk County (Implemented by PPS network development and care management plan staff with support from		Project		In Progress	01/01/2016	09/30/2016	01/01/2016	09/30/2016	09/30/2016	DY2 Q2

care management leadership)										
<b>Task</b> Step 13: Access - Begin Evaluation of current state Primary Care Practice Redesign efforts within the PPS. Assessment to be performed by PCMH Certification Workgroup and PCMH Project Lead and efforts are designed to help overcome largest barriers to care in Suffolk County (included in PCMH interventions referenced herein) - Assessment to evaluate things such as centralized scheduling, expanded office hours, etc.		Project		In Progress	09/30/2015	06/30/2016	09/30/2015	06/30/2016	06/30/2016	DY2 Q1
<b>Task</b> Step 14: Access - Evaluate results of Primary Care Practice Redesign Current State Assessment and develop plan to support Engaged/Contracted PCPs to increase access (ex. leveraging care managers to increase capacity, after hours care options, PCP practices that already have extended hours). Utilize Community Needs assessment data to define high-need areas.		Project		In Progress	07/01/2016	12/31/2016	07/01/2016	12/31/2016	12/31/2016	DY2 Q3
<b>Task</b> Step 15: Access - Collaborate with Providers and Project Stakeholders on creating a PPS new provider capacity plan which records current plans, creates new plans based on need and then tracks all plans for physician and mid-level recruitment by PPS primary care practices. Also roll-up all individual project tasks that relate to new capacity or beds to ensure uniform effort and tracking across the PPS		Project		In Progress	01/01/2017	06/30/2017	01/01/2017	06/30/2017	06/30/2017	DY3 Q1
<b>Task</b> Step 17: Obtain Meaningful Use Stage 2 certification from CMS or NYS Medicaid, List of Participating NCQA-certified practices with Certification Documentation, and status reporting of recruitment of PCP's particular in high need areas, demonstrating improved access via CAHPS measurement.		Project		In Progress	04/01/2017	03/31/2018	04/01/2017	03/31/2018	03/31/2018	DY3 Q4
<b>Task</b> Step 18: Maintain Integrated Delivery System PCP practice support process for Engaged/Contracted PCMH providers		Project		In Progress	10/31/2015	03/31/2018	10/31/2015	03/31/2018	03/31/2018	DY3 Q4
<b>Task</b> Step 7: PCMH Certification Workgroup (in collaboration with vendor) will develop strategy for achieving NCQA Level 3 and/or APCM for Engaged/Contracted PCP partners		Project		Completed	10/01/2015	03/31/2016	10/01/2015	03/31/2016	03/31/2016	DY1 Q4
<b>Task</b> Step 8: Based on current state assessment results, PCMH vendor and PPS will initiate a phased transformation approach		Project		In Progress	11/01/2015	09/30/2017	11/01/2015	09/30/2017	09/30/2017	DY3 Q2

Milestone Name	Narrative Text
<p>All PPS providers must be included in the Integrated Delivery System. The IDS should include all medical, behavioral, post-acute, long-term care, and community-based service providers within the PPS network; additionally, the IDS structure must include payers and social service organizations, as necessary to support its strategy.</p>	<p>Care Management and HealtheCare™ Application Updates</p> <p>We continue to work with SCC's Care Management (CM) team to further refine the case management workflows supported in the HealtheCare™ application. Key enhancements have been prioritized by the SCC Care Management team and are now being reviewed by our IT staff for estimation and project planning purposes. One of the high priority enhancements identified by the CM team was further refinement to the High Risk Patient Identification (HRPI) algorithm. To this end, a new HRPI algorithm was developed, tested and seamlessly released into production in early March 2016. This new algorithm is now being used by all SCC care management staff.</p> <p>Production Deployment of the Stony Brook Hub Enterprise Data Warehouse</p> <p>The Stony Brook instance of the HealtheEDW™ was successfully deployed into production in February, of this year. The deployment of the Stony Brook Enterprise Data Warehouse (EDW) is a key foundational building block within our clinical data integration strategy as it will ultimately provide one of the three hub specific data feeds into the PPS wide SCC EDW.</p> <p>The SCC EDW will be the source of truth for all of SCC reporting requirements, including but not limited to patient engagement reports required for quarterly submission to the DOH. As we continue to sign on additional providers and integrate their clinical data into the Integrated Delivery System (IDS) the SCC EDW will also play a significant role in proactively providing reports to SCC's network performance team in advance of semi-annual or annual performance reports that will be published by the DOH.</p> <p>PCMH:          The PCMH Certification Workgroup (the "Workgroup") met in January 25th, February 29th, and March 21st. The Workgroup is engaged in milestone infrastructure across multiple DSRIP projects. The Workgroup developed and agreed on a PCMH Strategy Plan to achieve recognition. The Plan includes the scope of the project, monitoring and validation process, compliance and sustainability. The SCC Workforce Current State Assessment Survey findings has provided preliminary information from our PCP sites on their readiness towards achieving PCMH project requirements. Additionally, an assessment of Behavioral Health (BH) sites provided preliminary information on primary care services being provided in the BH sites. This information is being used to identify potential gaps and focus areas.</p> <p>Care Coordination:          As a component in the development of an Integrated Delivery System, the SCC Care Management and Care Coordination Workgroup met for the second time and expanded the group to include partner organizations providing care management and care coordination services across Suffolk County including representatives from Hospitals, SNFs, Health Homes, ACOs, CBOs, CMOs, Home Health Agencies, County programs, and OPWDD programs. A Charter for this Workgroup was developed to define the scope of work to be done and established quarterly meetings. To date, the group has created a Care Management and Care Coordination in Suffolk County Manual that will be used to provide guidance as to the services offered and populations served throughout the PPS. Definitions of Care Management and Care Coordination were agreed upon and a Progress Report template was created to be used for tracking progress toward becoming an IDS. The workgroup will work on mitigating barriers to patient care and ensuring that patients receive appropriate health care and community support including medical and behavioral health, post-acute care, long term care and public health services.</p>
<p>Utilize partnering HH and ACO population health management systems and capabilities to implement the PPS' strategy towards evolving into an IDS.</p>	
<p>Ensure patients receive appropriate health care and community support, including medical and behavioral health, post-acute care, long term care and public health services.</p>

**Prescribed Milestones Narrative Text**

Milestone Name	Narrative Text
Ensure that all PPS safety net providers are actively sharing EHR systems with local health information exchange/RHIO/SHIN-NY and sharing health information among clinical partners, including directed exchange (secure messaging), alerts and patient record look up, by the end of Demonstration Year (DY) 3.	
Ensure that EHR systems used by participating safety net providers meet Meaningful Use and PCMH Level 3 standards and/or APCM by the end of Demonstration Year 3.	
Perform population health management by actively using EHRs and other IT platforms, including use of targeted patient registries, for all participating safety net providers.	
Achieve 2014 Level 3 PCMH primary care certification and/or meet state-determined criteria for Advanced Primary Care Models for all participating PCPs, expand access to primary care providers, and meet EHR Meaningful Use standards by the end of DY 3.	
Contract with Medicaid Managed Care Organizations and other payers, as appropriate, as an integrated system and establish value-based payment arrangements.	
Establish monthly meetings with Medicaid MCOs to discuss utilization trends, performance issues, and payment reform.	
Re-enforce the transition towards value-based payment reform by aligning provider compensation to patient outcomes.	
Engage patients in the integrated delivery system through outreach and navigation activities, leveraging community health workers, peers, and culturally competent community-based organizations, as appropriate.

**Project 2.b.iv – Care transitions intervention model to reduce 30 day readmissions for chronic health conditions**

**✓ IPQR Module 2.b.iv.1 - Major Risks to Implementation and Mitigation Strategies**

**Instructions :**

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

**PATIENT CHALLENGES** 1) Lack of transportation results in missed follow-up appointments post hospital discharge. 2) Many patients need to be discharged to a SNF, however a number of long-term care facilities are reluctant to take Medicaid patients which delays the patient's disposition. 3) Homelessness places patients at risk of readmission due to increased difficulty of providing care management services to this population..

**PATIENT REMEDIES:** 1) Expansion of Suffolk County Accessible Transportation (SCAT) program; the PPS will work to streamline the process to make transportation services more accessible to the patient. 2) The PPS will forge collaborative relationships with all participating SNFs and ensure that the payment model creates alignment of the SNFs with the purpose of the PPS. 3) A Multi-disciplinary teaming process that includes a Social Worker from the time of admission will be built to address these potential issues. The social worker will work closely with PPS CBO's to reach patients in their communities in an effort to educate and engage them in their own health and monitor their progress towards adequate self-management of disease.

**PROVIDER CHALLENGES:** 1) Lack of available PCP or BH appointments for post-discharge visits. 2) Coordination of handoffs between multiple entities can be difficult and the patient may receive conflicting messages. 3) Providers might be at different stages of readiness for meeting project requirements

**PROVIDER REMEDIES:** 1) As relevant PPS providers move towards NCQA PCMH Level 3 status, additional appointments will be available as practices become more efficient. PCP recruiting efforts will occur and the collaborative with BH providers will ensure improved access. 2) Protocols will be established to ensure early notification of discharge and avoid duplication of effort. This will be accomplished in the following ways:

a) Hospital must alert PCP office, Health Homes and CM b) Discharge summaries transmitted electronically within 24 hours c) The PCP – Hospitalist communication exceeds simply the discharge summary. 3) PPS will develop provider prioritization plan to provide the appropriate training to providers and develop plan for a staged roll-out project implementation

**INFRASTRUCTURE CHALLENGES:** 1) Difficulty redeploying or hiring the CMs required for the program 2) Lack of interconnectivity and use between existing EHRs and the RHIO.

**INFRASTRUCTURE REMEDIES:** 1) The PPS will leverage existing Health Homes capability/capacity and then work together as a PPS to identify sources of CM's to redeploy and to hire. Training resources will be made available through the creation of a Provider Engagement team to engage the redeployed staff in appropriate training programs (e.g., online, in person, etc.). Additionally, The PPS is actively searching, through collaboration with a vendor, for enough CM's to be effective in providing CM services across Suffolk County. Overarching management structure will ensure appropriate risk stratification and effective use of CM resources. 2) Effective implementation of the PPS's IDS IT strategy, and an emphasis on continual improvement, will enable the PPS to create this route for information sharing and communication.

**IPQR Module 2.b.iv.2 - Patient Engagement Speed**

**Instructions :**

Enter the number of patients actively engaged through the current quarter. The number entered into the "Quarterly Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for DY1 Q4 should include patients previously reported in DY1 Q3 plus new patients engaged in DY1 Q4. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

Benchmarks	
Actively Engaged Speed	Actively Engaged Scale

Milestone Name	Narrative Text
Develop standardized protocols for a Care Transitions Intervention Model with all participating hospitals, partnering with a home care service or other appropriate community agency.	<p>General Program Narrative:            Throughout January, the SCC continued to work with Amy Boutwell, MD, MPP, Founder, Collaborative Healthcare Strategies; STAAR Initiative co-founder, Institute for Healthcare Improvement; senior physician consultant to the National Coordinating Center for the CMS QIO Care Transitions Theme; attending physician, Massachusetts General Hospital; instructor in medicine, Harvard Medical School. With her guidance we prepared throughout January for the Transition of Care Program Project Committee Meeting in February.</p> <p>On February 10th, 2016, the Transition of Care Program Project Committee met at the Islandia Marriott. The committee members participated in a workshop to develop the DSRIP Project 2biv &amp; 2bix TOC Model, facilitated by Dr. Boutwell. The meeting focused on the Baseline TOC Program Specifications. Dr. Boutwell walked the committee through each specification and facilitated a group discussion on the PPS approach to each specification.</p> <p>The SCC PMO took the baseline specifications recommendations from the Project Committee meeting, and compiled the work into the SCC TOC Model Narrative project document. This document outlines the model overview, Transition of Care Coordination Services, Communication Methodology for Care Coordination, Navigation Methodology Workflow diagrams, Roles &amp; Responsibilities, Training Methodology, Community Based TOC Partnerships, Observation Units, and the Program Reporting Procedure to the SCC.</p> <p>The Project Committee met on March 15th 2016, where they reviewed and approved the TOC Model Narrative. This meeting was an opportunity for the committee to ask questions and to offer comments on the draft TOC Model Narrative. The meeting was again facilitated by Dr. Boutwell where she reviewed the essential TOC Model elements that were agreed upon in the February 10th meeting. The Project Committee fully endorsed the TOC Model Narrative and recommended it for review and approval by the Clinical Governance Committee on March 21st, 2016 and the SCC Board of Directors on March 28th, 2016.</p>
Engage with the Medicaid Managed Care Organizations and Health Homes to develop transition of care protocols that will ensure appropriate post-discharge protocols are followed.	
Ensure required social services participate in the project.

Milestone Name	Narrative Text
Transition of care protocols will include early notification of planned discharges and the ability of the transition care manager to visit the patient in the hospital to develop the transition of care services.	
Protocols will include care record transitions with timely updates provided to the members' providers, particularly primary care provider.	
Ensure that a 30-day transition of care period is established.	
Use EHRs and other technical platforms to track all patients engaged in the project.

**Project 2.b.vii – Implementing the INTERACT project (inpatient transfer avoidance program for SNF)**

**✓ IPQR Module 2.b.vii.1 - Major Risks to Implementation and Mitigation Strategies**

**Instructions :**

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

The PPS conducted several surveys of the SNFs to inform project development. According to the survey results, 74% of the partner SNFs have some experience using the INTERACT program. Of these, however, not surprisingly, regular use of program tools varies greatly, and during project planning it became clear that most – if not all – of the SNFs that have experience with INTERACT tools have not thoroughly embedded the tools consistently within their operations to maximize impact. For example, some SNFs complete the SBAR only when a hospital transfer occurs, diluting its impact to avoid a hospital transfer. In summary, every SNF will benefit from a more thorough and robust training and monitoring protocol on the use of the various INTERACT tools. The following risks to the successful implementation of this project have been identified:

Issue: Of those who currently utilize INTERACT, most do so on paper. Additionally, wide variation in EMR systems exists among the PPS partners that have them. Among these facilities, many different EHR platforms are utilized.

Risk Mitigation: The PPS will develop a simple interface (e.g., using Direct Messaging, etc.) to link SNFs to hospital partners in the short term and this will be built upon as full connectivity becomes more of a reality. Consistent with PPS goals, electronic connectivity with hospital partners will be completed over the project lifetime. The SNFs will work with the local RHIO to ensure useful electronic communication. As INTERACT tools are embedded in EHR products, SNFs will move from paper to electronic use of these tools.

Issue: Efforts to engage the multiple staffing agencies relied upon by SNFs for weekend coverage to ensure that these weekend staff learn to properly use INTERACT tools may prove cumbersome

Risk Mitigation: The PPS will create and implement a Provider Engagement to train weekend staff in proper use of INTERACT tools and documentation through the PPS wide IT infrastructure.

Issue: Patients/families may be skeptical, or unaware, of the benefits from avoiding readmission

Risk Mitigation: All SNFs will provide orientation materials at facility admission outlining the policies and benefits of transfer avoidance, as well as materials on advance care planning.

**IPQR Module 2.b.vii.2 - Patient Engagement Speed**

**Instructions :**

Enter the number of patients actively engaged through the current quarter. The number entered into the "Quarterly Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for DY1 Q4 should include patients previously reported in DY1 Q3 plus new patients engaged in DY1 Q4. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

Benchmarks

Implement INTERACT at each participating SNF, demonstrated by active use of the INTERACT 3.0 toolkit and other resources available at <a href="http://interact2.net">http://interact2.net</a> .	<p>General Program Narrative:            In January, the SCC PMO and Performance Logic hosted a webinar training for the SNF Performance Logic users to orient them to the project management software tool. Two training sessions were held and it gave the SNF Performance Logic users an opportunity to see the SNF Implementation Plan as well as ask questions regarding the tool.</p> <p>Throughout January and February, the SCC and Director of Nursing Workgroup, developed an Implementation Manual to guide SNFs through implementation. The manual contains all project documents that must be returned to the PMO to be submitted to the DOH, as well as instructions and recommendations for implementation. On February 24th, 2016, the Director of Nursing Workgroup met to finalize the Implementation Manual.</p>

Milestone Name	Narrative Text
	On March 21, 2016, the SCC will be hosting a Project Committee meeting where we will be presenting the Implementation Manual, Unit Level Implementation Plan, and next steps for program implementation. Kevin Bozza, Director of Network Development and Performance will be presenting on SCC On-Boarding, Participation Agreements and Funds Flow Performance Payments. The SCC IT PMO will also give a brief presentation on IT Technical On-Boarding Process & Next Steps.
Identify a facility champion who will engage other staff and serve as a coach and leader of INTERACT program.	
Implement care pathways and other clinical tools for monitoring chronically ill patients, with the goal of early identification of potential instability and intervention to avoid hospital transfer.	
Educate all staff on care pathways and INTERACT principles.	
Implement Advance Care Planning tools to assist residents and families in expressing and documenting their wishes for near end of life and end of life care.	
Create coaching program to facilitate and support implementation.	
Educate patient and family/caretakers, to facilitate participation in planning of care.	
Establish enhanced communication with acute care hospitals, preferably with EHR and HIE connectivity.	
Measure outcomes (including quality assessment/root cause analysis of transfer) in order to identify additional interventions.	
Use EHRs and other technical platforms to track all patients engaged in the project.

**Project 2.b.ix – Implementation of observational programs in hospitals**

**✓ IPQR Module 2.b.ix.1 - Major Risks to Implementation and Mitigation Strategies**

**Instructions :**

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

**INFRASTRUCTURE CHALLENGES:** 1) Ability to implement best practices across the PPS. 2) Limited communication across diverse providers.  
**INFRASTRUCTURE REMEDIES:** 1) The PPS will leverage existing processes that have proven to be effective as well as focusing on staff/physician training to ensure best practices are being utilized. Additionally, a performance management process within the Quality Assurance program will be developed to monitor the admitting process and look for ways to improve. 2) Through it's IT strategy, the PPS will optimize use of EHR and the RHIO to provide for better communication between hospital and PCP or SNF or Intermediate Care Facility will create better communication linkages across the PPS. To mitigate any potential risks with the development of the IT infrastructure, the PPS will work closely and continuously with the IT vendor as well as develop short-term contingency strategies for project implementation should the overall development be delayed.

**PROVIDER CHALLENGES:** 1) Significant variation between hospitals for definition of OBS status 2) Facilities where even a "virtual" OBS unit can create issues with staffing and economies of scale due to their low volume of admissions. 3) Limited access to primary care visits, particularly in underserved areas. 4) The need for effective communication with a population with limited health literacy. 5) Overall provider participation.  
**PROVIDER REMEDIES:** 1) The PPS will establish protocols for identifying patients who qualify as OBS utilizing an IT system for decision-making for OBS status admission. To manage resources participating PPS providers will 2) Share best practices in the effective use of existing resources, including redeployed staff from other functions and 3) Increase primary care capacity through support by safety net PPS PCPs such as Hudson River Health. Additional PCP access will be available as practices become more efficient through implementation of PCMH/Advanced Medical Home. 4) The PPS will emphasize staff training on cultural competency, translate patient education materials and ensure 5th grade reading level. The PPS will emphasize a transition to value-based provider payments to more properly align financial incentives with the clinical goals of the DSRIP program. Finally, the Provider Engagement Team will also work with the PPS provider network to identify alternative solutions for incentivizing providers to increase participation.

**PATIENT CHALLENGES:** 1) Challenging socio-economic barriers and disparities in care. 2) Potential patient "no-shows" for post discharge appointments. 3) Issues with transportation that may delay an effective discharge.  
**PATIENT REMEDIES:** 1) Multidisciplinary teaming that includes a Social Worker from the time of admission can address these issues. 2) Link into an effective PPS 30-day TOC process. The PPS will leverage the relationship with Health Homes and with FQHCs who care for a significant volume of these patients. 3) Expansion of Suffolk County Accessible Transportation, help streamline the process to arrange transportation assistance to make it more accessible to the patients.

**IPQR Module 2.b.ix.2 - Patient Engagement Speed**

**Instructions :**

Enter the number of patients actively engaged through the current quarter. The number entered into the "Quarterly Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for DY1 Q4 should include patients previously reported in DY1 Q3 plus new patients engaged in DY1 Q4. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

Benchmarks	
Actively Engaged Speed	Actively Engaged Scale
DY3,Q4	8,866

	Year,Quarter	DY1,Q1	DY1,Q2	DY1,Q3	DY1,Q4
<b>PPS Reported</b>	Baseline Commitment	0	886	2,216	3,546
	Quarterly Update	703	1,370	2,400	3,505
	Percent(%) of Commitment		154.63%	108.30%	98.84%
<b>IA Approved</b>	Quarterly Update	0	910	2,400	3,488
	Percent(%) of Commitment		102.71%	108.30%	98.36%

**Warning: PPS Reported - Please note that your patients engaged to date (3,505) does not meet your committed amount (3,546) for 'DY1,Q4'**

Establish appropriately sized and staffed observation (OBS) units in close proximity to ED services, unless the services required are better provided in another unit. When the latter occurs, care coordination must still be provided.	<p>General Program Narrative:            Most recently, the TOC/OBS Workgroup has been engaged in developing communication methods to assist with addressing barriers, such as health literacy initiatives, cultural competency initiatives and language barrier initiatives. In addition to this, the workgroup is also engaged in creating an OBS Program Development Request, which will consist of an (1) Opportunity Assessment, (2) Clinical &amp; Financial Model Template and (3) an implementation plan narrative. The OBS Program Development Request will be presented at the upcoming TOC/OBS Workgroup meeting in June.</p> <p>Throughout this quarter, the SCC has continued engaging with hospital partners via the TOC/OBS Workgroup and TOC/OBS Committee. During the February committee meeting and in conjunction with Dr. Amy Boutwell, MD, MPP, there was collective engagement regarding the creation and further development of the DSRIP Project 2biv &amp; 2bix TOC Model. The committee met on March 15th, 2016, where they approved the final version of the TOC Model Narrative and where any other outstanding concerns/questions were addressed. Please refer to the TOC General Narrative for additional details.</p>
Create clinical and financial model to support the need for the unit.	
Utilize care coordination services to ensure safe discharge either to the community or a step down level of service, such as behavioral health or

**✓ IPQR Module 2.d.i.1 - Major Risks to Implementation and Mitigation Strategies**

**Instructions :**

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

The difficulty of activating and engaging the UI, LU and NU populations cannot be underestimated. It will require extensive coordination and communication across the system, dedication to all aspects of "case-finding", assessment, triage and case management, and ensuring that financially accessible primary care is available across the county. The actions taken to mitigate these risks will be as follows:

**Case-finding Issue:** The targeted population is difficult to locate and build relationships with, which could result in difficulty engaging them in PAM.  
**Case-finding Risk Mitigation:** Navigator-coaches will be recruited from and deployed to sites in hot-spots. They will be trained in outreach and PAM, and will have educational materials that are designed to address and improve health literacy. A special focus will be dedicated toward navigator-coaches developing relationships with CBOs in order to connect with patients in a more timely and sustainable manner. Additionally, all PPS partners will be engaged in identifying UI, LU and NU individuals, and linking them to navigators and/or case managers. Navigator-coaches, case managers and primary care staff will be trained in the use of PAM and the appropriate follow-up for individuals based on their PAM score.

**Case management Issue:** Current case management is siloed at the hospitals, CBOs and other PPS partners.  
**Case Management Risk Mitigation:** Creating an overarching case management infrastructure will better equip the PPS to ensure such services are provided in an integrated fashion to individuals regardless of where they "touch" the system, and that resources are deployed to the venues where they are most needed. The PPS IT infrastructure is being developed to include a care management documentation tool that will enable the CM workforce to manage their patients in a timely and clinically appropriate fashion.

**Provider Engagement Issue:** Lack of participation and outreach from the necessary amount of providers  
**Provider Engagement Risk Mitigation:** The PPS will need to engage PCPs across the county. Where gaps exist, the PPS will recruit practitioners and place them in those communities with a special focus placed on appropriately staffing "hotspot" communities. This will be done collaboratively with clinics, health centers and existing practices. To ensure that communication is maximized across the system, all partners will be linked electronically. The PPS will work toward connecting all providers through the RHIO, but will also develop a robust provider communication plan that allows the PPS provider network to provide input, insights and shared experiences to the appropriate stake holders (peers, administration, etc.). Regular meetings among CBOs, PCPs and case management will occur. Finally, the formation of a PPS wide MCO Relations team will utilize the provider feedback to better structure value-based provider payment methodologies to ensure that providers are being financially compensated for DSRIP participation.

**IPQR Module 2.d.i.2 - Patient Engagement Speed**

**Instructions :**

Enter the number of patients actively engaged through the current quarter. The number entered into the "Quarterly Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for DY1 Q4 should include patients previously reported in DY1 Q3 plus new patients engaged in DY1 Q4. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

Benchmarks

cohort's level of engagement										
<b>Task</b> Step 1: Engage Project 2di Workgroup to organize the Project 2di PAM Tool Performance Measurement Program		Project		In Progress	03/31/2016	05/01/2016	03/31/2016	05/01/2016	06/30/2016	DY2 Q1
<b>Task</b> Step 2: Ensure Project 2di PAM Tool Performance Measurement Program includes how to operationalize the PAM Tool. Including: screening patient status (UI, NU and LU) and collect contact information when he/she visits the PPS designated facility or "hot spot" area for health service. If the beneficiary is UI, does not have a registered PCP, or is attributed to a PCP in the PPS' network, assess patient using PAM® survey and designate a PAM® score.		Project		In Progress	03/31/2016	06/30/2016	03/31/2016	06/30/2016	06/30/2016	DY2 Q1
<b>Task</b> Step 3: Ensure Project 2di PAM Tool Performance Measurement Program highlights how member's score must be averaged to calculate a baseline measure for that year's cohort.		Project		In Progress	03/31/2016	06/30/2016	03/31/2016	06/30/2016	06/30/2016	DY2 Q1
<b>Task</b> Step 4: Identify a method with Insignia to follow cohorts for the entirety of the DSRIP program. To include determining specifications for unique identifiers.		Project		In Progress	03/31/2016	06/30/2016	03/31/2016	06/30/2016	06/30/2016	DY2 Q1
<b>Task</b> Step 5: Following the initiation of the PAM pilot program, initiate a calendar to follow cohorts annually.		Project		In Progress	03/31/2016	06/30/2016	03/31/2016	06/30/2016	06/30/2016	DY2 Q1
<b>Task</b> Step 6: Develop program procedures for training whereby on an annual basis, assess individual members' and each cohort's level of engagement, with the goal of moving beneficiaries to a higher level of activation.		Project		In Progress	03/31/2016	06/30/2016	03/31/2016	06/30/2016	06/30/2016	DY2 Q1
<b>Task</b> Step 7: Engage partnering MCOs to develop procedures for determining if the beneficiary is deemed to be LU & NU but has a designated PCP who is not part of the PPS' network, counsel the beneficiary on better utilizing his/her existing healthcare benefits, while also encouraging the beneficiary to reconnect with his/her designated PCP.		Project		In Progress	03/31/2016	06/30/2016	03/31/2016	06/30/2016	06/30/2016	DY2 Q1
<b>Task</b> Step 8: Project Manager to organize method to provide the current contact information to the beneficiary's MCO for outreach purposes.		Project		In Progress	06/30/2016	09/30/2016	06/30/2016	09/30/2016	09/30/2016	DY2 Q2
<b>Task</b>		Project		In Progress	09/30/2016	12/31/2016	09/30/2016	12/31/2016	12/31/2016	DY2 Q3

**Prescribed Milestones Narrative Text**

Milestone Name	Narrative Text
<p>Contract or partner with community-based organizations (CBOs) to engage target populations using PAM(R) and other patient activation techniques. The PPS must provide oversight and ensure that engagement is sufficient and appropriate.</p>	<p>General Program Narrative: In DY1Q3 the SCC CBO partners engaged in CHAP conducted a total of 2576 surveys. This meets our DY1 patient engagement target of 11,356 total surveys completed.</p> <p>On March 23rd, the CHAP Workgroup was pleased to welcome three CHAP participants (consumer beneficiaries) from the community to join a discussion about program development. They have had first-hand experience with the services we offer, including the PAM survey as well as Community Navigation. The Workgroup asked them to join the meeting to learn more about the specific challenges they face in obtaining health and/or social services, how they came to be involved in our program, and learn how we may continue to evolve our program to better meet the needs of the community.</p> <p>At the meeting, our discussion centered on the challenges our guests face when seeking health or social services in the local community. The issue of locating services in the area, and who to contact for information was identified as a major challenge. Eligibility and the question of health care costs was also a concern. Additionally, long wait times and not always knowing what questions to ask were brought up as barriers to access.</p> <p>While there are clearly many obstacles still left to overcome, all three of our guests noted that their situation was improved through their involvement in CHAP. One participant who was previously uninsured before participating in the program, is now a Medicaid beneficiary, and has been navigated to providers and services by Community Health Workers in her area. Another participant said he has a much clearer picture now of the services he is eligible for and how to attain those services. In the brief two months that he has been engaging in CHAP, he feels his situation has improved and that he is better able to manage his care.</p> <p>Additionally, Amy Solar-Greco, SCC Project Manager for Project 2di, has been collaborating with Althea Williams, Senior Manager of Provider and Community Engagement, to develop a strategy for conducting a survey with the 2di target population to assess community health needs. A potential partnership with the Nassau-Suffolk Hospital Council is being explored to deliver the survey.</p> <p>The SCC has also developed a Grievance Procedure for Medicaid recipients and project participants to report complaints and receive customer service. The SCC anticipates meeting the needs of its coalition partners, employees and patients in a timely, reasonable and consistent manner. In any instance where there is a concern coalition partners, employees or patients (and/or their immediate family or personal representatives) have the right to submit a complaint, verbally or in writing, 24 hours per day. SCC has adopted the process to help with any complaints or grievances related to experience with the SCC.</p>
Establish a PPS-wide training team, comprised of members with training in PAM(R) and expertise in patient activation and engagement.	
Identify UI, NU, and LU "hot spot" areas (e.g., emergency rooms). Contract or partner with CBOs to perform outreach within the identified "hot spot" areas.	
Survey the targeted population about healthcare needs in the PPS' region.	
Train providers located within "hot spots" on patient activation techniques, such as shared decision-making, measurements of health literacy, and cultural competency.	
Obtain list of PCPs assigned to NU and LU enrollees from MCOs. Along with the member's MCO and assigned PCP, reconnect beneficiaries to his/her designated PCP (see outcome measurements in #10). • This patient activation project should not be used as a mechanism to inappropriately move members to different health plans and PCPs, but

<p>rather, shall focus on establishing connectivity to resources already available to the member.</p> <ul style="list-style-type: none"> <li>• Work with respective MCOs and PCPs to ensure proactive outreach to beneficiaries. Sufficient information must be provided regarding insurance coverage, language resources, and availability of primary and preventive care services. The state must review and approve any educational materials, which must comply with state marketing guidelines and federal regulations as outlined in 42 CFR §438.104.</li> </ul>	
<p>Baseline each beneficiary cohort (per method developed by state) to appropriately identify cohorts using PAM(R) during the first year of the project and again, at set intervals. Baselines, as well as intervals towards improvement, must be set for each cohort at the beginning of each performance period.</p>	
<p>Include beneficiaries in development team to promote preventive care.</p>	
<p>Measure PAM(R) components, including:</p> <ul style="list-style-type: none"> <li>• Screen patient status (UI, NU and LU) and collect contact information when he/she visits the PPS designated facility or "hot spot" area for health service.</li> <li>• If the beneficiary is UI, does not have a registered PCP, or is attributed to a PCP in the PPS' network, assess patient using PAM(R) survey and designate a PAM(R) score.</li> <li>• Individual member's score must be averaged to calculate a baseline measure for that year's cohort.</li> <li>• The cohort must be followed for the entirety of the DSRIP program.</li> <li>• On an annual basis, assess individual members' and each cohort's level of engagement, with the goal of moving beneficiaries to a higher level of activation.             <ul style="list-style-type: none"> <li>• If the beneficiary is deemed to be LU &amp; NU but has a designated PCP who is not part of the PPS' network, counsel the beneficiary on better utilizing his/her existing healthcare benefits, while also encouraging the beneficiary to reconnect with his/her designated PCP.</li> </ul> </li> <li>• The PPS will NOT be responsible for assessing the patient via PAM(R) survey.</li> <li>• PPS will be responsible for providing the most current contact information to the beneficiary's MCO for outreach purposes.</li> <li>• Provide member engagement lists to relevant insurance companies (for NU &amp; LU populations) on a monthly basis, as well as to DOH on a quarterly basis.</li> </ul>

**Prescribed Milestones Narrative Text**

Milestone Name	Narrative Text
Increase the volume of non-emergent (primary, behavioral, dental) care provided to UI, NU, and LU persons.	
Contract or partner with CBOs to develop a group of community navigators who are trained in connectivity to healthcare coverage, community healthcare resources (including for primary and preventive services) and patient education.	
Develop a process for Medicaid recipients and project participants to report complaints and receive customer service.	
Train community navigators in patient activation and education, including how to appropriately assist project beneficiaries using the PAM(R).	
Ensure direct hand-offs to navigators who are prominently placed at "hot spots," partnered CBOs, emergency departments, or community events, so as to facilitate education regarding health insurance coverage, age-appropriate primary and preventive healthcare services and resources.	
Inform and educate navigators about insurance options and healthcare resources available to UI, NU, and LU populations.	
Ensure appropriate and timely access for navigators when attempting to establish primary and preventive services for a community member.	
Perform population health management by actively using EHRs and other IT platforms, including use of targeted patient registries, to track all patients engaged in the project.

**Project 3.a.i – Integration of primary care and behavioral health services**

**✓ IPQR Module 3.a.i.1 - Major Risks to Implementation and Mitigation Strategies**

**Instructions :**

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

**INFRASTRUCTURE CHALLENGES:** 1) The PPS will need to properly manage workforce transitions, including the hiring of more BH staff and retraining existing staff to adjust to new model. 2) Agencies may not be able to meet the demand as additional people in need are identified. 3) Demand for CM outstrips supply.

**INFRASTRUCTURE REMEDIES:**1) Experienced current staff within the PPS will train providers and develop curricula for future workforce. Stony Brook's Psychiatry Residency is developing a community-based Residency to expand the number of psychiatrists. The PPS will seek out interested participating partners to identify opportunities for collaboration while developing this program. The PPS will actively pursue collaborative relationships with labor unions 2) Address through workforce training and developing a web-based platform for disease self-management and telepsychiatry as an alternative solution for providing care. 3) As a part of the 2.a.i project, the PPS is developing a CM staffing plan to increase the care management capacity across Suffolk County to meet patient demand.

**PROVIDER CHALLENGES:** 1)Participating PCPs/FQHCs within the PPS may struggle with meeting and maintaining PCMH standards. 2) PCPs lack understanding of antidepressant medication management (AMM), documentation and treatment of BH conditions. 3) Lack of overall provider participation.

**PROVIDER REMEDIES:** 1) Leverage Current PCMH providers to provide technical assistance. Stony Brook practices have already achieved 2011 PCMH certification and will be relied upon to advise other practice partners on transitioning to Level 3. 2) Engage prescribing experts to provide education and work with payers to improve AMM HEDIS measures. 3) The PPS will increase provider participation by emphasizing efforts to align providers through pay for performance incentives. The Provider Engagement Team will also work with the PPS provider network to identify alternative solutions for incentivizing providers to increase participation. Finally, the formation of a PPS wide MCO Relations team will utilize the provider feedback to better structure value-based provider payment methodologies so that providers are being appropriately compensated for DSRIP participation.

**PATIENT CHALLENGES:** 1) Language, health literacy, cultural competency barriers prevent patients from receiving the care that they need in a timely manner 2) Food/housing issues for target population lead to increased likelihood of decreased health status 3) Transportation and health care access challenges.

**PATIENT REMEDIES:** 1) The PPS will provide access to Spanish speaking providers, patient materials translated, and at 5th grade reading level. The PPS will also emphasize staff training on cultural competency 2) The PPS will address food/housing issues through geographic collaborative linking sites with CM, housing providers, food pantries. 3) CM Service Dollars for legacy providers available for medical/non-medical transportation, but will build or expand additional resource.

**☑ IPQR Module 3.a.i.2 - Patient Engagement Speed**

**Instructions :**

Enter the number of patients actively engaged through the current quarter. The number entered into the "Quarterly Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for DY1 Q4 should include patients previously reported in DY1 Q3 plus new patients engaged in DY1 Q4. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

Benchmarks

Health practices and are available.											
<b>Task</b> Primary care services are co-located within behavioral Health practices and are available.			Provider	Mental Health	In Progress	04/01/2015	03/31/2018	04/01/2015	03/31/2018	03/31/2018	DY3 Q4
<b>Task</b> Step 1: Determine which behavioral health practices will participate in Model 2 including co-location of Primary Care Services			Project		Completed	04/01/2015	03/31/2016	04/01/2015	03/31/2016	03/31/2016	DY1 Q4
<b>Task</b> Step 2: Develop plan and funds flow model to support practice needs and scope of work for primary care practitioner			Project		Completed	07/01/2015	09/01/2015	07/01/2015	09/01/2015	09/30/2015	DY1 Q2
<b>Task</b> Step 3: Finalize contract template for contracting BH Providers and PCP practices participating in Model 2 - contract on ongoing basis			Project		Completed	08/01/2015	03/31/2016	08/01/2015	03/31/2016	03/31/2016	DY1 Q4
<b>Task</b> Step 4: Engage PCMH Lead and PCMH Certification Workgroup within the IDS Project Stakeholders to be engaged in milestone infrastructure (hiring, mission/vision/values, goals).			Project		Completed	06/01/2015	09/30/2015	06/01/2015	09/30/2015	09/30/2015	DY1 Q2
<b>Task</b> Step 5: Hire vendor or establish local resource base for PCMH certification support process			Project		Completed	08/31/2015	12/31/2015	08/31/2015	12/31/2015	12/31/2015	DY1 Q3
<b>Task</b> Step 6: Draft Current State Assessment Questionnaire for PCP sites (including practice operations/readiness towards achieving project requirements and a robust Health Information Technology PCP interoperability and integration assessment) and Behavioral Health sites to determine what primary care services are currently provided in the Behavioral Health Settings			Project		Completed	06/01/2015	12/31/2015	06/01/2015	12/31/2015	12/31/2015	DY1 Q3
<b>Task</b> Step 7: Current State Assessment - Begin Evaluation of current state of Engaged/Contracted Primary Care Practices within the PPS. Assessment to be performed by PCMH Certification Workgroup and PCMH Project Lead, and possible vendor. Assessment to evaluate things such as PCMH certification readiness assessment, IT Interoperability, Meaningful Use			Project		Completed	08/31/2015	03/31/2016	08/31/2015	03/31/2016	03/31/2016	DY1 Q4

Milestone Name	Narrative Text
<p>Co-locate behavioral health services at primary care practice sites. All participating primary care practices must meet 2014 NCQA level 3 PCMH or Advance Primary Care Model standards by DY 3.</p>	<p>General Program Narrative:            Efforts to implement DSRIP project 3ai in Suffolk County continued to advance in this past quarter. In January, the Project 3ai Workgroup met to discuss the progress of the project. A topic of particular interest at this meeting was the new telehealth parity law and how it impacts billing. The Implementation Specialist continued to foster the relationship between the SCC and the North Carolina Center of Excellence, who is assisting in the site assessments for this project. With the information that NCCOE provided, each site is set to begin planning for implementation.</p> <p>As the Phase 1 site evaluations have been completed (Approximately 25 sites), the Phase 2 sites have been selected (additional 25 sites for a total of 50 identified to date). The implementation specialist and project manager have selected 25 sites in the county, based on Medicaid lives, and will begin to schedule time for the NCCOE to visit each site for evaluation.</p> <p>To provide information to provider participants, and to inform on reporting expectations, the SCC has created a toolkit for each model: Model 1, Model 2, and Model 3. These toolkits provide an overview of the DSRIP project requirements, requirements for implementation, overview of the Primary &amp; Behavioral Health (PBHC) Integrated Program, instructions on how to submit documents and maintain the binder. It is meant to act as a guide and information source to which the sites can refer to for all of their DSRIP needs. In addition to receiving a hardcopy, partners will be able to access these toolkits electronically through our SCC Partner Portal. The toolkits have been approved by the Project Workgroup, and will be distributed at an upcoming committee meeting.</p>
Develop collaborative evidence-based standards of care including medication management and care engagement process.	
Conduct preventive care screenings, including behavioral health screenings (PHQ-2 or 9 for those screening positive, SBIRT) implemented for all patients to identify unmet needs.	
Use EHRs or other technical platforms to track all patients engaged in this project.	
Co-locate primary care services at behavioral health sites.	
Develop collaborative evidence-based standards of care including medication management and care engagement process.	
Conduct preventive care screenings, including behavioral health screenings (PHQ-2 or 9 for those screening positive, SBIRT) implemented for all patients to identify unmet needs.	
Use EHRs or other technical platforms to track all patients engaged in this project.	
Implement IMPACT Model at Primary Care Sites.	
Utilize IMPACT Model collaborative care standards, including developing coordinated evidence-based care standards and policies and procedures for care engagement.	
Employ a trained Depression Care Manager meeting requirements of the IMPACT model.	
Designate a Psychiatrist meeting requirements of the IMPACT Model.	
Measure outcomes as required in the IMPACT Model.

**Project 3.b.i – Evidence-based strategies for disease management in high risk/affected populations (adult only)**

**✓ IPQR Module 3.b.i.1 - Major Risks to Implementation and Mitigation Strategies**

**Instructions :**

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

The PPS has identified the following challenges that stand in the way of successful implementation of this project:

**PATIENT CHALLENGES:** 1) Within Suffolk County, large disparities in race, ethnicity, language and other cultural factors results in the need for diverse health literacy and patient education materials. 2) Lack of public transportation and limited transportation provided by community organizations results in missed follow-up appointments.

**PATIENT REMEDIES:** 1) Develop patient education materials at a 5th grade reading level. Translation services at health screenings and workshops. Use available resources such as Dr. Harold Fernandez, co-director of Stony Brook University Heart Institute, who can provide assistance in partnering with community leaders regarding solutions to address disparities. 2) Expansion of Suffolk County Accessible Transportation (SCAT), streamline process to make it more accessible. Outreach and educational efforts will be held in the community where these patients live.

**PROVIDER CHALLENGES:** 1) Lack of standardized communication and coordination processes when facilitating handoffs between multiple entities who will touch the patient. 2) Providers have difficulty impacting smoking; other attempts to address blood pressure are likely to be unsuccessful without addressing smoking first. 3) Obtaining PCP participation in progressing towards meeting project requirements 4) Lack of willingness to participate in additional IT training or delayed rollout of IT training programs

**PROVIDER REMEDIES:** 1)Develop a more effective OP CM structure and documentation platform with a dedicated practice support team to ensure accurate tracking, care coordination and follow-up of all targeted patients across the continuum of PPS providers. 2) Partner with community organizations that currently have successful smoking cessation programs. 3) The PPS will increase provider participation by emphasizing efforts to align providers through pay for performance incentives.4) PPS to engage providers to receive their input and insights on best practices for implementing IT training programs across the PPS.

**✓ IPQR Module 3.b.i.2 - Patient Engagement Speed**

**Instructions :**

Enter the number of patients actively engaged through the current quarter. The number entered into the "Quarterly Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for DY1 Q4 should include patients previously reported in DY1 Q3 plus new patients engaged in DY1 Q4. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

Benchmarks

Milestone Name	Narrative Text
Implement program to improve management of cardiovascular disease using evidence-based strategies in the ambulatory and community care setting.	<p>General Program Narrative:</p> <p>On February 23rd, 2016 the Project Committee met to review and approve the SCC Care Coordination Document outlining care coordination practices and strategies for the PPS. At this time the committee endorsed the document and was also notified of the workgroup consolidation with the Diabetes project. The SCC and our HUB partners identified significant overlap between the clinical projects and going forward we will be working together to design and develop the programs to ensure proper alignment. The committee was also updated on the plan to design the training approach and training curriculum in concert with the other clinical projects that will take place in the consolidated workgroup.</p> <p>Over the next few months, the workgroup will be developing a toolkit and training curriculum for providers who will be engaged in the project, most notably for primary care physicians. The toolkit will provide guidance on evidence based clinical protocols and guidance to achieve the DSRIP project requirements and provide training resources and references for providers to use when they are implementing the program. Office managers at each provider site will be trained by the SCC to then go into their respective practice and train providers, nurses, and ancillary staff on program requirements following the toolkit.</p> <p>Recently, Marie Frazzitta, DNP, FNP-C, MBA, Senior Director Chronic Disease Management, Northwell Health Solutions and Dr. Jean Cacciabaud, MD, Chief of</p>

Milestone Name	Narrative Text
	Cardiology at Southside Hospital, Ma Northwell Health Solutions are acting as Project Leadership for this program. Marie and Dr. Cacciabaudo have both been active and involved in the CWSMP for over a year and have offered their expertise as committee and workgroup members. They will now be taking on a larger role and helping to facilitate clinical program collaboration with the other clinical projects.
Ensure that all PPS safety net providers are actively connected to EHR systems with local health information exchange/RHIO/SHIN-NY and share health information among clinical partners, including direct exchange (secure messaging), alerts and patient record look up, by the end of DY 3.	
Ensure that EHR systems used by participating safety net providers meet Meaningful Use and PCMH Level 3 standards and/or APCM by the end of Demonstration Year 3.	
Use EHRs or other technical platforms to track all patients engaged in this project.	
Use the EHR to prompt providers to complete the 5 A's of tobacco control (Ask, Assess, Advise, Assist, and Arrange).	
Adopt and follow standardized treatment protocols for hypertension and elevated cholesterol.	
Develop care coordination teams including use of nursing staff, pharmacists, dieticians and community health workers to address lifestyle changes, medication adherence, health literacy issues, and patient self-efficacy and confidence in self-management.	
Provide opportunities for follow-up blood pressure checks without a copayment or advanced appointment.	
Ensure that all staff involved in measuring and recording blood pressure are using correct measurement techniques and equipment.	
Identify patients who have repeated elevated blood pressure readings in the medical record but do not have a diagnosis of hypertension and schedule them for a hypertension visit.	
Prescribe once-daily regimens or fixed-dose combination pills when appropriate.	
Document patient driven self-management goals in the medical record and review with patients at each visit.	
Follow up with referrals to community based programs to document participation and behavioral and health status changes.	
Develop and implement protocols for home blood pressure monitoring with follow up support.	
Generate lists of patients with hypertension who have not had a recent visit and schedule a follow up visit.	
Facilitate referrals to NYS Smoker's Quitline.

Milestone Name	Narrative Text
Perform additional actions including "hot spotting" strategies in high risk neighborhoods, linkages to Health Homes for the highest risk population, group visits, and implementation of the Stanford Model for chronic diseases.	
Adopt strategies from the Million Hearts Campaign.	
Form agreements with the Medicaid Managed Care organizations serving the affected population to coordinate services under this project.	
Engage a majority (at least 80%) of primary care providers in this project.

**Project 3.c.i – Evidence-based strategies for disease management in high risk/affected populations (adults only)**

**✓ IPQR Module 3.c.i.1 - Major Risks to Implementation and Mitigation Strategies**

**Instructions :**

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

The PPS has identified the following challenges that stand in the way of successful implementation of this project:

**PROVIDER CHALLENGES:** 1) Difficulty in engaging at least 80% of primary care practices within the PPS. 2) Difficulty addressing issues with medication errors: omissions, duplications, dosing errors or drug interactions. Medication errors are a large driver of readmissions, which will negatively impact the performance of the PPS 3) Ability to achieve PMCH Level 3 recognition by DY 03. The process requires a high degree of coordination and is a key deliverable of project 2.a.i, in addition to this project. 4) Address growing epidemic of Diabetes and Obesity. There is potential difficulty in identifying and engaging the appropriate patients. 5) Engaging PCPs to participate in this project. PCP participation is a key driver of success across all projects and a lack of participation among PCPs will negatively impact achievement of Speed and Scale commitments.

**PROVIDER REMEDIES:** 1) Show value to PCPs by improving access to comprehensive diabetes education and point-of-care testing (POC-HbA1c). Provide effective care management support. 2) Build medication reconciliation into diabetes care management program to occur at every transition of care: when new medications are ordered, existing orders are adjusted or patients report non-prescriptive medications. Medication adherence will be embedded in all case management protocols, pharmacist support, and will be part of the Stanford Chronic Care educational platform. 3) Provide practice support teams to engage PPS primary care practices to redesign their care delivery processes to move to Level 3 and Advanced Medical Home model. 4) Increase Stanford education resources and also increase CDE resources at a ratio of 2 CDEs to 1,000 people with diabetes in the target population (doubling current capacity in the county) 5) The PPS will increase provider participation by emphasizing efforts to align providers through pay for performance incentives.

**PATIENT CHALLENGES:** 1) Lack of available public transportation prevents patients from being able to access the necessary care at the appropriate time

**PATIENT REMEDIES:** 1) Deployment of POC-testing will prevent patients from extra traveling to physician's offices or clinical laboratories, enhancing compliance with national guidelines for regular testing/monitoring. The PPS will also look to partner with existing transportation resources within Suffolk County, such as Suffolk County Accessible Transportation (SCAT), to provide additional transportation resources to patients

**IPQR Module 3.c.i.2 - Patient Engagement Speed**

**Instructions :**

Enter the number of patients actively engaged through the current quarter. The number entered into the "Quarterly Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for DY1 Q4 should include patients previously reported in DY1 Q3 plus new patients engaged in DY1 Q4. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

Benchmarks	
Actively Engaged Speed	Actively Engaged Scale
DY3,Q4	12,094

	Year,Quarter	DY1,Q1	DY1,Q2	DY1,Q3	DY1,Q4
<b>PPS Reported</b>	Baseline Commitment	0	3,022	4,533	6,044
	Quarterly Update	0	4,964	6,683	13,430
	Percent(%) of Commitment		164.26%	147.43%	222.20%
<b>IA Approved</b>	Quarterly Update	0	4,964	6,683	13,423
	Percent(%) of Commitment		164.26%	147.43%	222.09%

**Narrative Text :**

For PPS to provide additional context regarding progress and/or updates to IA.

In keeping with the guidance provided in OCTOBER 2015 "Project 3ci and 3ei, Revised DSRIP Actively Engaged: Patient Engagement Definitions and Counting Criteria" SCC is reporting 13,430 unduplicated actively engaged patients in model 3ci only for periods DY1Q1,2,3 & 4. The roster comprises of patients in these last 4 quarters. In the previous reporting quarter, SCC reported unduplicated actively engaged patients for DY0Q4 and DY1 Q1,2 &3 and submitted a roster of patients for that period.

**IPQR Module 3.c.i.3 - Prescribed Milestones**

**Instructions :**

Please provide updates to baseline reporting on status, target dates, and work breakdown tasks for prescribed milestones. For milestones that are due and completed within the reporting period, documentation is required to provide evidence of project requirement achievement. Any explanations regarding altered or missed provider commitments should be included within the narrative box, not as text within uploaded documentation.

Project Requirements (Milestone/Task Name)	Prescribed Due Date	Reporting Level	Provider Type	Status	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
<b>Milestone #1</b> Implement evidence-based best practices for disease management, specific to diabetes, in community and ambulatory care settings.	DY3 Q4	Project	N/A	In Progress	04/01/2015	03/31/2018	04/01/2015	03/31/2018	03/31/2018	DY3 Q4
<b>Task</b> Evidence-based strategies for the management and control of diabetes in the PPS designated area are developed and implemented for all participating providers. Protocols for disease management are developed and training of staff is completed.		Project		In Progress	04/01/2015	03/31/2018	04/01/2015	03/31/2018	03/31/2018	DY3 Q4
<b>Task</b> Step 1: Establish team of key project stakeholders (including SMEs, internal and external stakeholders) to determine treatment protocols, policies, and procedures to develop Project 3.c.i care coordination model for the management and control of diabetes		Project		Completed	04/01/2015	12/31/2015	04/01/2015	12/31/2015	12/31/2015	DY1 Q3
<b>Task</b> Step 2: Determine clear work flow processes for the care management/care coordination function that will support the diabetes program. Ensure seamless coordination of patient outreach and care management effort across all involved providers in community and ambulatory care settings		Project		Completed	07/01/2015	12/31/2015	07/01/2015	12/31/2015	12/31/2015	DY1 Q3
<b>Task</b> Step 3: Identify treatment protocols and develop project 3.c.i care coordination model policies and procedures		Project		Completed	01/01/2016	03/31/2016	01/01/2016	03/31/2016	03/31/2016	DY1 Q4
<b>Task</b> Step 4: Present policies and procedures to Project 3.c.i committee for review		Project		Completed	01/01/2016	03/31/2016	01/01/2016	03/31/2016	03/31/2016	DY1 Q4
<b>Task</b> Step 5: Present policies and procedures to Clinical Governance Committee for review		Project		Completed	01/01/2016	03/31/2016	01/01/2016	03/31/2016	03/31/2016	DY1 Q4
<b>Task</b> Step 6: Implement policies and procedures at engaged/contracted participating PCP practices		Project		In Progress	04/01/2016	03/31/2017	04/01/2016	03/31/2017	03/31/2017	DY2 Q4
<b>Task</b>		Project		In Progress	09/01/2016	12/31/2016	09/01/2016	12/31/2016	12/31/2016	DY2 Q3

<b>Task</b> EHR meets connectivity to RHIO/SHIN-NY requirements.		Provider	Safety Net Mental Health	In Progress	04/01/2015	03/31/2018	04/01/2015	03/31/2018	03/31/2018	DY3 Q4

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project  
DSRIP Implementation Plan Project**

**State University of New York at Stony Brook University Hospital (PPS ID:16)**

<b>Project Requirements (Milestone/Task Name)</b>	<b>Prescribed Due Date</b>	<b>Reporting Level</b>	<b>Provider Type</b>	<b>Status</b>	<b>Original Start Date</b>	<b>Original End Date</b>	<b>Start Date</b>	<b>End Date</b>	<b>Quarter End Date</b>	<b>DSRIP Reporting Year and Quarter</b>
<b>Task</b> Step 1 (IT): Engage PPS Health Information Technology Project Leadership and the Project 2ai Stakeholders to collaborate on approach to initiate and design a program to support engaged/contracted safety net providers to ensure Electronic Health Record systems used by engaged/contracted partners meet Meaningful Use and PCMH level 3 standards.		Project		Completed	10/01/2015	12/31/2015	10/01/2015	12/31/2015	12/31/2015	DY1 Q3
<b>Task</b> Step 2 (IT): Draft Current State Assessment Questionnaire for PCP sites (including practice operations/readiness towards achieving project requirements and a robust Health Information Technology PCP interoperability and integration assessment)		Project		Completed	06/01/2015	09/30/2015	06/01/2015	09/30/2015	09/30/2015	DY1 Q2
<b>Task</b> Step 3 (IT): Current State Assessment/Health Information Technology - Begin Baseline Assessment of Engaged/Contracted Primary Care Practices (current state) within the PPS. Assessment to evaluate IT/EHR status and capabilities system requirements under Project 2ai. Results include gap analysis by contracted partner and scope of work needed to achieve meeting Meaningful Use and PCMH Level 3 Standards		Project		Completed	06/01/2015	03/31/2016	06/01/2015	03/31/2016	03/31/2016	DY1 Q4
<b>Task</b> Step 4 (IT): Align planned sequencing of Project 2ai Implementation with "hot spot" suggestions rolled up from individual project teams to support project engagement requirements		Project		Completed	01/01/2016	03/31/2016	01/01/2016	03/31/2016	03/31/2016	DY1 Q4
<b>Task</b> Step 5 (IT): Develop process to ensure compliance and sustainability of EHR requirements within PCMH & Meaningful Use standards (Develop communication channels to PPS IT Task Force to address Meaningful Use compliance, etc.)		Project		Completed	01/01/2016	03/31/2016	01/01/2016	03/31/2016	03/31/2016	DY1 Q4
<b>Task</b> Step 6 (IT): Health Information Technology - Develop process to demonstrate MU and DURSA certification at Engaged/Contracted safety net practices		Project		Completed	01/01/2016	03/31/2016	01/01/2016	03/31/2016	03/31/2016	DY1 Q4
<b>Task</b> Step 7 (IT): Health Information Technology - Create a planned roll-out of IT EHR support that correlates with the results of the baseline gap analysis of engaged/contracted partners		Project		In Progress	10/01/2016	12/31/2016	10/01/2016	12/31/2016	12/31/2016	DY2 Q3

Milestone Name	Narrative Text
Implement evidence-based best practices for disease management, specific to diabetes, in community and ambulatory care settings.	<p>General Program Narrative:            The SCC achieved DSRIP Year 1 Patient Engagement requirements engaging patients from partners including the HUB partners, Northwell and Catholic Health System.</p> <p>DWSP Project Lead, Dr. Joshua Miller, MD and Amy are participating in the New York Diabetes Coalition, charged with updating the Diabetes Prevention and Management Toolkit for Providers focusing on the Guidelines for Adult Diabetes Management. This guideline, which is a summary of guidelines for diabetes management based on the American Diabetes Association's Clinical Practice Recommendations and a health care provider chart tool for recording dates of diabetes examinations and tests, can serve as a standardized tool for supporting the implementation of project 3.c.i High-Risk Disease Management across participating PPS practices.</p> <p>The SCC continues to take the approach of adopting evidence-based guidelines to support training and implementation of clinical improvement practices in medical settings. Moreover, we are operationalizing a Stanford Peer Training Program in partnership with our existing community based program. The SCC is currently onboarding Provider Relations Managers to monitor Practice Site Implementation Plans and training requirements.</p> <p>To date, evidence-based guideline summaries are complete. PCP and Non-PCP practice site implementation plan is complete and clinical improvement program materials are in development. Next steps for the project include initiating the practice site Implementation Plan with our contracted/engaged practice sites. We will also continue to develop hot-spotting strategies, the Training Curriculum and program materials to support implementation.</p>
Engage at least 80% of primary care providers within the PPS in the implementation of disease management evidence-based best practices.

**Prescribed Milestones Narrative Text**

Milestone Name	Narrative Text
Develop care coordination teams (including diabetes educators, nursing staff, behavioral health providers, pharmacy, community health workers, and Health Home care managers) to improve health literacy, patient self-efficacy, and patient self-management.	
Develop "hot spotting" strategies, in concert with Health Homes, to implement programs such as the Stanford Model for chronic diseases in high risk neighborhoods.	
Ensure coordination with the Medicaid Managed Care organizations serving the target population.	
Use EHRs or other technical platforms to track all patients engaged in this project.	
Meet Meaningful Use and PCMH Level 3 standards and/or APCM by the end of Demonstration Year 3 for EHR systems used by participating safety net providers.

**Project 3.d.ii – Expansion of asthma home-based self-management program**

**✓ IPQR Module 3.d.ii.1 - Major Risks to Implementation and Mitigation Strategies**

**Instructions :**

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

The PPS has identified the following challenges that stand in the way of successful implementation of this project:

**PATIENT CHALLENGES:** Families eligible for Medicaid/uninsured are more likely to have challenges (e.g., low health literacy, difficulty obtaining medications, transportation problems, etc.) that contribute to increased risk for poor asthma-related health outcomes.  
**PATIENT REMEDIES:** Our multi-disciplinary teams will provide consistent asthma education at each encounter within the PPS (i.e. hospital/ED, office, home visit) and tailor interventions to address the unique challenges faced by each patient.

**PROVIDER CHALLENGES:** 1) Some PPS providers will experience barriers in implementing NHLBI asthma guidelines. 2) Some PPS providers may not have resources to address the cultural/linguistic needs of the diverse Suffolk County population. 3) Provider participation  
**PROVIDER REMEDIES:** 1) The project team will offer all PPS providers education and care redesign support required to meet project goals. This support will include a readiness assessment and guidance on best practices for achieving PCMH Level 3 status, including centralized scheduling, practitioners working at top of license, etc. 2) The PCP practice support teams will offer cultural competency training, including interpretation services use, for all practice staff. 3) Align providers through pay for performance incentives. The Provider Engagement Team will also work with the PPS provider network to identify alternative solutions for incentivizing providers to increase participation.

**INFRASTRUCTURE CHALLENGES:** 1) Consistency in hiring, training, and supervision of CHWs. 2) Potential difficulty exists in developing collaborative relationships across a diverse group of providers and community partners. If experienced, this could delay patients from receiving appropriate care in a timely manner.  
**INFRASTRUCTURE REMEDIES:** 1) Building upon our existing program, we will hire and train additional management personnel to provide consistent workforce training and supervision. 2) The project team will hold monthly meetings with all project participants, including community partners, to monitor progress and implement shared governance.

**IPQR Module 3.d.ii.2 - Patient Engagement Speed**

**Instructions :**

Enter the number of patients actively engaged through the current quarter. The number entered into the "Quarterly Update" area needs to reflect the cumulative method of counting within a DSRIP year. For example, the number reported in this field for DY1 Q4 should include patients previously reported in DY1 Q3 plus new patients engaged in DY1 Q4. Any explanations regarding altered or missed patient commitments must be included within the narrative box, not as text within uploaded documentation.

Benchmarks	
Actively Engaged Speed	Actively Engaged Scale
DY3,Q4	6,751

	Year,Quarter	DY1,Q1	DY1,Q2	DY1,Q3	DY1,Q4
<b>PPS Reported</b>	Baseline Commitment	0	674	2,180	2,697
	Quarterly Update	1,140	2,539	3,081	5,931
	Percent(%) of Commitment		376.71%	141.33%	219.91%
<b>IA Approved</b>	Quarterly Update	0	2,539	3,081	5,906
	Percent(%) of Commitment		376.71%	141.33%	218.98%

**IPQR Module 3.d.ii.3 - Prescribed Milestones**

**Instructions :**

Please provide updates to baseline reporting on status, target dates, and work breakdown tasks for prescribed milestones. For milestones that are due and completed within the reporting period, documentation is required to provide evidence of project requirement achievement. Any explanations regarding altered or missed provider commitments should be included within the narrative box, not as text within uploaded documentation.

Project Requirements (Milestone/Task Name)	Prescribed Due Date	Reporting Level	Provider Type	Status	Original Start Date	Original End Date	Start Date	End Date	Quarter End Date	DSRIP Reporting Year and Quarter
<b>Milestone #1</b> Expand asthma home-based self-management program to include home environmental trigger reduction, self-monitoring, medication use, and medical follow-up.	DY2 Q4	Project	N/A	In Progress	04/01/2015	03/31/2017	04/01/2015	03/31/2017	03/31/2017	DY2 Q4
<b>Task</b> PPS has developed a strategy for the collaboration of community medical and social services providers to assess a patient's home and provide self-management education for the appropriate control of asthma.		Project		In Progress	04/01/2015	03/31/2017	04/01/2015	03/31/2017	03/31/2017	DY2 Q4
<b>Task</b> Step 1: Identify scope of work with Project 3.d.ii workgroup and committee for an asthma home assessment program that will include, but is not limited to: home-based self- management recognition and reduction of environmental triggers; and patient educational materials.		Project		Completed	04/01/2015	08/31/2015	04/01/2015	08/31/2015	09/30/2015	DY1 Q2
<b>Task</b> Step 2: Engage the Cultural Competency & Health Literacy Advisory Group to review patient educational materials		Project		Completed	04/01/2015	08/31/2015	04/01/2015	08/31/2015	09/30/2015	DY1 Q2
<b>Task</b> Step 3: Present scope of work to Project 3.d.ii Committee		Project		Completed	04/01/2015	08/31/2015	04/01/2015	08/31/2015	09/30/2015	DY1 Q2
<b>Task</b> Step 4: Present scope of work to Clinical Governance committee for review and approval		Project		Completed	04/01/2015	08/31/2015	04/01/2015	08/31/2015	09/30/2015	DY1 Q2
<b>Task</b> Step 5: Identify and create list of community medical and social service providers to engage for Project 3.d.ii		Project		Completed	04/01/2015	08/31/2015	04/01/2015	08/31/2015	09/30/2015	DY1 Q2
<b>Task</b> Step 6: Develop budget and schedule for the collaboration of community medical and social services providers		Project		Completed	09/01/2015	12/31/2015	09/01/2015	12/31/2015	12/31/2015	DY1 Q3
<b>Task</b> Step 7: Identify metrics and deliverables to measure and monitor program, which will include, but is not limited to, rosters of patients that received home-care interventions		Project		Completed	09/01/2015	12/31/2015	09/01/2015	12/31/2015	12/31/2015	DY1 Q3

**New York State Department Of Health

Expand asthma home-based self-management program to include home environmental trigger reduction, self-monitoring, medication use, and medical follow-up.	<p>General Program Narrative:            The SCC achieved DSRIP Year 1 Patient Engagement requirements by engaging patients from partners including the HUB partners, Northwell and Catholic Health System.</p> <p>Through community partnerships, the SCC plans to initiate an Asthma-Home Environmental Trigger Assessment Program deployed by CHWs in our communities for high risk patients. The SCC is currently strategizing and developing a plan to promote the program to PPS medical practice sites and promote the use of Asthma Action Plans at medical practices.</p> <p>During DY1Q4 Home Environmental Trigger Assessment Program procedures and workflows were developed. On January 14th, 2016 the Project Committee met to review Intervention protocols, staff training materials, evidence-based guidelines and implementation plan. The Project Committee also reviewed care coordination policies and procedures.</p> <p>Next steps include formalizing partnerships to operationalize Home Environmental Trigger Assessment Program and engaging the project workgroup to create communication materials and pamphlets for program for our network of providers.</p>
Establish procedures to provide, coordinate, or link the client to resources for evidence-based trigger reduction interventions. Specifically, change the patient's indoor environment to reduce exposure to asthma triggers such as pests, mold, and second hand smoke.	
Develop and implement evidence-based asthma management guidelines.	
Implement training and asthma self-management education services, including basic facts about asthma, proper medication use, identification and avoidance of environmental exposures that worsen asthma, self-monitoring of asthma symptoms and asthma control, and using written asthma action plans.	
Ensure coordinated care for asthma patients includes social services and support.	
Implement periodic follow-up services, particularly after ED or hospital visit occurs, to provide patients with root cause analysis of what happened and how to avoid future events.	
Ensure communication, coordination, and continuity of care with Medicaid Managed Care plans, Health Home care managers, primary care providers, and specialty providers.	
Use EHRs or other technical platforms to track all patients engaged in

**Project 4.a.ii – Prevent Substance Abuse and other Mental Emotional Behavioral Disorders**

**✓ IPQR Module 4.a.ii.1 - Major Risks to Implementation and Mitigation Strategies**

**Instructions :**

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

**INFRASTRUCTURE CHALLENGES:** 1) Recruiting staff to meet demand and staff's adjustment to Project ASSERT/SBIRT will take time. To be addressed through existing/future workforce training, ongoing mentoring/technical assistance, engagement of Peers and establishment of web-based platform for disease self-management/tele-health. 2) Workflow issues in ED settings where time is a significant factor in throughput. IT can be leveraged to help. 3) The project will need to consider the role of parents/ caregivers/coalitions /teachers/lawmakers/ pastors/youth /peers, etc.

**INFRASTRUCTURE RISK MITIGATION** a) Work with schools to promote prevention activities/referral relationships. b) Leverage existing health educators to raise awareness of available resources. c) Leverage existing community health workers to address health literacy. d) Leverage community coalitions/prevention providers to support environmental strategies and the building of protective factors while reducing risk factors. e) Leverage a nationally competitive Drug Free Communities grants to promote sustainability.

**PROVIDER CHALLENGES:** 1) ED/Hospital physicians will need re-training about documentation of SUD/MEB to properly include screening/intervention processes on claims. 2) Difficulties engaging teens in treatment for SUDs. 3) Overcoming myths/attitudes about smoking cessation among those with mental illness. 4) Psychiatrists/Psychiatric Nurse Practitioners will need education about smoking cessation medications/prescriptions. 5) Encouraging overall provider participation.

**PROVIDER RISK MITIGATION:** 1) Integration/coding/billing experts will be engaged to provide consultation and training for PPS billing and coding staff. 2) Targeted Patient Engagement programs will be aimed at engaging teens in treatment. 3) Contingency Management/Harm Reduction approaches will be used as possible solutions/motivators. 4) Psychiatrists/Psychiatric Nurse Practitioners will need education about smoking cessation medications/prescriptions. 5) Providers will be encouraged and supported to participate through financial incentives, e.g. pay for performance.

**PATIENT CHALLENGES:** 1) Encouraging people to accept help and/or education (i.e. risking drinking/signs of depression needing to be addressed). 2) Language, health literacy, cultural competency barriers need to be overcome. 3) Transportation to/from appointments in order to engage in care. Capacity to conduct offsite/home visits will be developed by treatment providers.

**PATIENT RISK MITIGATION** 1)The PPS will develop a Patient Engagement team focused on helping and educating targeted populations 2)The PPS will provide access to Spanish speaking providers, translated patient materials and materials at a 5th grade reading level. Provide staff training on cultural competency. 3)Capacity to conduct offsite/home visits will be developed by treatment providers.

Milestone Name	Narrative Text
Milestone 1: Identification and engagement of community partners to collaborate in the SBIRT drug and alcohol abuse prevention efforts	<p>General Program Narrative:            The Suffolk Care Collaborative has engaged with 11 hospitals in Suffolk County to implement SBIRT in their Emergency Departments. Each of the 11 hospitals will host on-site either one or two 4-hour SBIRT training sessions, during which their Emergency Department staff will be trained by an OASAS (Office of Alcoholism and Substance Abuse Services) Certified Training Provider.</p> <p>Three hospitals, John T. Mather Memorial Hospital, Brookhaven Memorial Hospital, and Stony Brook Medicine have hosted SBIRT trainings for their ED staff. Following their training, these three hospitals have formally rolled out the SBIRT program in their Emergency Departments, and are actively screening patients and routinely performing the SBIRT process. In a recent Learning Collaborative (held at Project Committee meetings of 4a-ii), the 3 three hospitals who have recently implemented SBIRT, in addition to Southside Hospital, sat on a panel discussion to share their "Implementation Lessons Learned" with all Suffolk County Hospitals.</p>
Milestone 2: Implement SBIRT protocols in Suffolk County Hospital Emergency Departments to identify residents at high risk for substance misuse and abuse.	
Milestone 3: Engage with Prevention Resource Center to design and implement program to reduce underage drinking among Suffolk County youth following the National Strategic Prevention Planning Framework	
Milestone 4: Monitor Prevention Resource Center implementation of program to reduce underage drinking among Suffolk County Youth	
Milestone 5: Engage and implement tobacco-free regulations at participating Office of Mental Health (OMH) facilities to reduce

**Project 4.b.ii – Increase Access to High Quality Chronic Disease Preventive Care and Management in Both Clinical and Community Settings (Note: This project targets chronic diseases that are not included in domain 3, such as cancer)**

**✓ IPQR Module 4.b.ii.1 - Major Risks to Implementation and Mitigation Strategies**

**Instructions :**

Please describe what the major risks are for this project, as well as the actions you plan to take to mitigate them.

PATIENT/SOCIOECONOMIC ISSUES RISK #1 Limited public transportation results in patients not receiving preventive services, cancer prevention screenings, and missing follow-up appointments.  
SOLUTION: Convenient locations developed for on-site education/screening events, leverage the use of mobile screening resources, and engagement of transportation companies to expand availability of transport resources. Through expansion of Suffolk County Accessible Transportation (SCAT) program; the PPS will work to streamline the process to make transportation services more accessible to the patient.

PATIENT/SOCIOECONOMIC ISSUES RISK #2 Large disparities in Race/Ethnicity/Language and other cultural factors results in need for diverse health literacy/patient education materials that are not being met.  
SOLUTION: Explore and obtain existing resources and develop those needed with the assistance of national/state experts and PPS partners who know the community.

PRACTICE EFFECTIVENESS RISK #1 Lack of expanded hours to help improve access to education and screening services. Providers might also be resistant to changing their way of operating (e.g., expanded hours, delegating decision making, etc.)  
SOLUTION: Work with providers to expand access/hours through the efficiencies recognized within the implementation of the Patient Centered Medical Home model; leverage on-call systems and telehealth options. If providers are not currently using, or familiar with, telehealth technologies, they will receive additional training from the PPS Provider Engagement team. Provider Engagement Team also to work closely with PPS provider network throughout training process to ensure that feedback from the provider community is received and utilized, when appropriate.

PRACTICE EFFECTIVENESS RISK #2 Trend of clinical office staff not practicing at "top of license" to do education and schedule necessary screenings, which contributes to access issues.  
SOLUTION: Workforce training/mentoring and build efficiencies into workflows with clearer role definitions to be sure that the necessary education and screenings get accomplished.

PRACTICE EFFECTIVENESS RISK #3 Lack of education and awareness on the part of providers of current best practice prevention recommendations and community resources.  
SOLUTION: Provider and office staff education on current recommendations; create tool kits that providers can use to refer patients to available free or low cost education and screening resources in the community.

PRACTICE EFFECTIVENESS RISK #4 Lack of resources for PCPs to tackle myriad issues.  
SOLUTION: Align PCPs through pay for performance incentives. The PPS wide Provider Engagement Team will also work with the PPS provider network to identify alternative solutions (non-financial) for incentivizing providers to increase participation. This will occur through the two-way communication strategy and will seek input and insights from the PPS provider network.

CARE MANAGEMENT RISK #1  
1) Few warm handoffs or standard routes of communication or registries regarding patients who may be in need of education or screenings.  
SOLUTION: Leverage a PPS-wide care management documentation platform that includes a registry function and ultimately links with

Milestone Name	Narrative Text
Milestone 1: Identify and engage those at high risk for obesity in an effort to decrease the number of Suffolk County Residents who are obese	<p>General Program Narrative:            In this quarter, advancements towards integrating the Health Information Tool for Empowerment (HITE) have been made. The SCC has executed a formal sharing agreement with Greater New York Hospital Association, and are exploring options to embed HITE into our SCC website. A Community facing area of the SCC website is being developed, which will house the HITE tool. Providing access to the tool in the Community area of the website will allow for ease of access to Suffolk County residents to search for health and wellness services on our communities.</p>

New York State Department Of Health  
Delivery System Reform Incentive Payment Project  
DSRIP Implementation Plan Project

State University of New York at Stony Brook University Hospital (PPS ID:16)

**Attestation**

The Lead Representative has been designated by the Primary Lead PPS Provider (PPS Lead Entity) as the signing officiate for the DSRIP Quarterly Report. The Lead Representative has the authority to complete this attestation on behalf of the PPS network. The Lead Representative and PPS Lead Entity are responsible for the authenticity and accuracy of the material submitted in this report.

The Lead Representative of the Performing Provider System (PPS) must complete this attestation form in order for the project application to be accepted by the NYS Department of Health. Once the attestation is complete, the Quarterly Report will be locked down from any further editing. Do not complete this section until the entire Quarterly Report is complete.

If the Quarterly Report becomes locked in error and additional changes are necessary, please use the contact information on the Home Page to request that the Quarterly Report be unlocked.

To electronically sign this Quarterly Report, please enter the required information and check the box below:

I here by attest, as the Lead Representative of the 'State University of New York at Stony Brook University Hospital', that all information provided on this Quarterly report is true and accurate to the best of my knowledge, and that, following initial submission in the current quarterly reporting period as defined by NY DOH, changes made to this report were pursuant only to documented instructions or documented approval of changes from DOH or DSRIP Independent Assessor.

	Module 1.5 - Prescribed Milestones		
	Milestone #1 Complete funds flow budget and distribution plan and communicate with network	Pass & Complete	
Section 02	Module 2.1 - Prescribed Milestones		
	Milestone #1 Finalize governance structure and sub-committee structure	Pass & Complete	
	Milestone #2 Establish a clinical governance structure, including clinical quality committees for each DSRIP project	Pass & Complete	
	Milestone #3 Finalize bylaws and policies or Committee Guidelines where applicable	Pass & Complete	
	Milestone #4 Establish governance structure reporting and monitoring processes	Pass & Complete	
	Milestone #5 Finalize community engagement plan, including communications with the public and non-provider organizations (e.g. schools, churches, homeless services, housing providers, law enforcement)	Pass & Complete	
	Milestone #6 Finalize partnership agreements or contracts with CBOs	Pass & Ongoing	
	Milestone #7 Finalize agency coordination plan aimed at engaging appropriate public sector agencies at state and local levels (e.g. local departments of health and mental hygiene, Social Services, Corrections, etc.)	Pass & Ongoing	
	Milestone #8 Finalize workforce communication and engagement plan	Pass & Ongoing	
	Milestone #9 Inclusion of CBOs in PPS Implementation.	Pass & Ongoing	
Section 03	Module 3.1 - Prescribed Milestones		
	Milestone #1 Finalize PPS finance structure, including reporting structure	Pass & Complete	
	Milestone #2 Perform network financial health current state assessment and develop financial sustainability strategy to address key issues.	Pass & Complete	
	Milestone #3 Finalize Compliance Plan consistent with New York State Social Services Law 363-d	Pass & Complete	
	Milestone #4 Develop detailed baseline assessment of revenue linked to value-based payment, preferred compensation modalities for different provider-types and functions, and MCO strategy.	Pass & Ongoing	
	Milestone #5 Finalize a plan towards achieving 90% value-based payments across network by year 5 of the waiver at the latest	Pass & Ongoing	

**New York State Department Of Health**  
**Delivery System Reform Incentive Payment Project**  
**DSRIP Implementation Plan Project**

**State University of New York at Stony Brook University Hospital (PPS ID:16)**

Section	Module Name / Milestone #	Review Status	
	Milestone #6 Put in place Level 1 VBP arrangement for PCMH/APC care and one other care bundle or subpopulation	Pass & Ongoing	
	Milestone #7 Contract 50% of care-costs through Level 1 VBPs, and >= 30% of these costs through Level 2 VBPs or higher	Pass & Ongoing	
	Milestone #8 >=90% of total MCO-PPS payments (in terms of total dollars) captured in at least Level 1 VBPs, and >= 70% of total costs captured in VBPs has to be in Level 2 VBPs or higher	Pass & Ongoing	
Section 04	Module 4.1 - Prescribed Milestones		
	Milestone #1 Finalize cultural competency / health literacy strategy.	Pass & Complete	 
	Milestone #2 Develop a training strategy focused on addressing the drivers of health disparities (beyond the availability of language-appropriate material).	Pass & Ongoing	
Section 05	Module 5.1 - Prescribed Milestones		
	Milestone #1 Perform current state assessment of IT capabilities across network, identifying any critical gaps, including readiness for data sharing and the implementation of interoperable IT platform(s).	Pass & Ongoing	
	Milestone #2 Develop an IT Change Management Strategy.	Pass & Ongoing	
	Milestone #3 Develop roadmap to achieving clinical data sharing and interoperable systems across PPS network	Pass (with Exception) & Ongoing	  
	Milestone #4 Develop a specific plan for engaging attributed members in Qualifying Entities	Pass & Ongoing	
	Milestone #5 Develop a data security and confidentiality plan.	Pass & Ongoing	
Section 06	Module 6.1 - Prescribed Milestones		
	Milestone #1 Establish reporting structure for PPS-wide performance reporting and communication.	Pass & Complete	
	Milestone #2 Develop training program for organizations and individuals throughout the network, focused on clinical quality and performance reporting.	Pass & Complete	
Section 07	Module 7.1 - Prescribed Milestones		
	Milestone #1 Develop Practitioners communication and engagement plan.	Pass & Complete	 
	Milestone #2 Develop training / education plan targeting practioners and other professional groups, designed to educate them about the DSRIP program and your PPS-specific quality improvement agenda.	Pass & Complete	
Section 08	Module 8.1 - Prescribed Milestones		
	Milestone #1 Develop population health management roadmap.	Pass & Ongoing	
	Milestone #2 Finalize PPS-wide bed reduction plan.	Pass & Ongoing	
Section 09	Module 9.1 - Prescribed Milestones		
	Milestone #1 Perform a clinical integration 'needs assessment'.	Pass & Complete	 

**New York State Department Of Health  
 Delivery System Reform Incentive Payment Project  
 DSRIP Implementation Plan Project**

**State University of New York at Stony Brook University Hospital (PPS ID:16)**

Section	Module Name / Milestone #	Review Status	
	Milestone #2 Develop a Clinical Integration strategy.	Pass & Ongoing	
Section 11	Module 11.1 - Workforce Strategy Spending (Baseline)	Pass & Complete	
	Module 11.2 - Prescribed Milestones		
	Milestone #1 Define target workforce state (in line with DSRIP program's goals).	Pass & Ongoing	
	Milestone #2 Create a workforce transition roadmap for achieving defined target workforce state.	Pass & Ongoing	
	Milestone #3 Perform detailed gap analysis between current state assessment of workforce and projected future state.	Pass & Ongoing	
	Milestone #4 Produce a compensation and benefit analysis, covering impacts on both retrained and redeployed staff, as well as new hires, particularly focusing on full and partial placements.	Pass & Ongoing	
	Milestone #5 Develop training strategy.	Pass & Complete	
	Module 11.11 - Workforce Strategy Spending (Quarterly)	Pass & Ongoing	

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project  
DSRIP Implementation Plan Project**

**State University of New York at Stony Brook University Hospital (PPS ID:16)**

Project ID	Module Name / Milestone #	Review Status	
2.a.i	Module 2.a.i.2 - Prescribed Milestones		
	Milestone #1 All PPS providers must be included in the Integrated Delivery System. The IDS should include all medical, behavioral, post-acute, long-term care, and community-based service providers within the PPS network; additionally, the IDS structure must include payers and social service organizations, as necessary to support its strategy.	Pass & Ongoing	
	Milestone #2 Utilize partnering HH and ACO population health management systems and capabilities to implement the PPS' strategy towards evolving into an IDS.	Pass & Ongoing	
	Milestone #3 Ensure patients receive appropriate health care and community support, including medical and behavioral health, post-acute care, long term care and public health services.	Pass & Ongoing	
	Milestone #4 Ensure that all PPS safety net providers are actively sharing EHR systems with local health information exchange/RHIO/SHIN-NY and sharing health information among clinical partners, including directed exchange (secure messaging), alerts and patient record look up, by the end of Demonstration Year (DY) 3.	Pass & Ongoing	
	Milestone #5 Ensure that EHR systems used by participating safety net providers meet Meaningful Use and PCMH Level 3 standards and/or APCM by the end of Demonstration Year 3.	Pass & Ongoing	
	Milestone #6 Perform population health management by actively using EHRs and other IT platforms, including use of targeted patient registries, for all participating safety net providers.	Pass & Ongoing	
	Milestone #7 Achieve 2014 Level 3 PCMH primary care certification and/or meet state-determined criteria for Advanced Primary Care Models for all participating PCPs, expand access to primary care providers, and meet EHR Meaningful Use standards by the end of DY 3.	Pass & Ongoing	
	Milestone #8 Contract with Medicaid Managed Care Organizations and other payers, as appropriate, as an integrated system and establish value-based payment arrangements.	Pass & Ongoing	
	Milestone #9 Establish monthly meetings with Medicaid MCOs to discuss utilization trends, performance issues, and payment reform.	Pass & Ongoing	
	Milestone #10 Re-enforce the transition towards value-based payment reform by aligning provider compensation to patient outcomes.	Pass & Ongoing	
Milestone #11 Engage patients in the integrated delivery system through outreach and navigation activities, leveraging community health workers, peers, and culturally competent community-based organizations, as appropriate.	Pass & Ongoing		
2.b.iv	Module 2.b.iv.2 - Patient Engagement Speed	Pass & Ongoing	
	Module 2.b.iv.3 - Prescribed Milestones		
	Milestone #1 Develop standardized protocols for a Care Transitions Intervention Model with all participating hospitals, partnering with a home care service or other appropriate community agency.	Pass & Ongoing	
	Milestone #2 Engage with the Medicaid Managed Care Organizations and Health Homes to develop transition of care protocols that will ensure appropriate post-discharge protocols are followed.	Pass & Ongoing	
	Milestone #3 Ensure required social services participate in the project.	Pass & Ongoing	

**New York State Department Of Health**  
**Delivery System Reform Incentive Payment Project**  
**DSRIP Implementation Plan Project**

**State University of New York at Stony Brook University Hospital (PPS ID:16)**

Project ID	Module Name / Milestone #	Review Status	
	Milestone #4 Transition of care protocols will include early notification of planned discharges and the ability of the transition care manager to visit the patient in the hospital to develop the transition of care services.	Pass & Ongoing	
	Milestone #5 Protocols will include care record transitions with timely updates provided to the members' providers, particularly primary care provider.	Pass & Ongoing	
	Milestone #6 Ensure that a 30-day transition of care period is established.	Pass & Ongoing	
	Milestone #7 Use EHRs and other technical platforms to track all patients engaged in the project.	Pass & Ongoing	
2.b.ix	Module 2.b.ix.2 - Patient Engagement Speed	Pass & Ongoing	
	Module 2.b.ix.3 - Prescribed Milestones		
	Milestone #1 Establish appropriately sized and staffed observation (OBS) units in close proximity to ED services, unless the services required are better provided in another unit. When the latter occurs, care coordination must still be provided.	Pass & Ongoing	
	Milestone #2 Create clinical and financial model to support the need for the unit.	Pass & Ongoing	
	Milestone #3 Utilize care coordination services to ensure safe discharge either to the community or a step down level of service, such as behavioral health or assisted living/SNF.	Pass & Ongoing	
	Milestone #4 Ensure that all PPS safety net providers are actively sharing EHR systems with local health information exchange/RHIO/SHIN-NY and sharing health information among clinical partners, including Direct exchange (secure messaging), alerts and patient record look up by the end of Demonstration Year (DY) 3.	Pass & Ongoing	
	Milestone #5 Use EHRs and other technical platforms to track all patients engaged in the project.	Pass & Ongoing	
2.b.vii	Module 2.b.vii.2 - Patient Engagement Speed	Pass & Ongoing	
	Module 2.b.vii.3 - Prescribed Milestones		
	Milestone #1 Implement INTERACT at each participating SNF, demonstrated by active use of the INTERACT 3.0 toolkit and other resources available at <a href="http://interact2.net">http://interact2.net</a> .	Pass & Ongoing	
	Milestone #2 Identify a facility champion who will engage other staff and serve as a coach and leader of INTERACT program.	Pass & Ongoing	
	Milestone #3 Implement care pathways and other clinical tools for monitoring chronically ill patients, with the goal of early identification of potential instability and intervention to avoid hospital transfer.	Pass & Ongoing	
	Milestone #4 Educate all staff on care pathways and INTERACT principles.	Pass & Ongoing	
	Milestone #5 Implement Advance Care Planning tools to assist residents and families in expressing and documenting their wishes for near end of life and end of life care.	Pass & Ongoing	
	Milestone #6 Create coaching program to facilitate and support implementation.	Pass & Ongoing	
	Milestone #7 Educate patient and family/caretakers, to facilitate participation in planning of care.	Pass & Ongoing	
	Milestone #8 Establish enhanced communication with acute care hospitals, preferably with EHR and HIE connectivity.	Pass & Ongoing	
	Milestone #9 Measure outcomes (including quality assessment/root cause analysis of transfer) in order to identify additional interventions.	Pass & Ongoing	

**New York State Department Of Health  
Delivery System Reform Incentive Payment Project  
DSRIP Implementation Plan Project**

**State University of New York at Stony Brook University Hospital (PPS ID:16)**

Project ID	Module Name / Milestone #	Review Status	
	Milestone #10 Use EHRs and other technical platforms to track all patients engaged in the project.	Pass & Ongoing	
2.d.i	Module 2.d.i.2 - Patient Engagement Speed	Pass & Ongoing	
	Module 2.d.i.3 - Prescribed Milestones		
	Milestone #1 Contract or partner with community-based organizations (CBOs) to engage target populations using PAM(R) and other patient activation techniques. The PPS must provide oversight and ensure that engagement is sufficient and appropriate.	Pass & Ongoing	
	Milestone #2 Establish a PPS-wide training team, comprised of members with training in PAM(R) and expertise in patient activation and engagement.	Pass & Ongoing	
	Milestone #3 Identify UI, NU, and LU "hot spot" areas (e.g., emergency rooms). Contract or partner with CBOs to perform outreach within the identified "hot spot" areas.	Pass & Ongoing	
	Milestone #4 Survey the targeted population about healthcare needs in the PPS' region.	Pass & Ongoing	
	Milestone #5 Train providers located within "hot spots" on patient activation techniques, such as shared decision-making, measurements of health literacy, and cultural competency.	Pass & Ongoing	
	Milestone #6 Obtain list of PCPs assigned to NU and LU enrollees from MCOs. Along with the member's MCO and assigned PCP, reconnect beneficiaries to his/her designated PCP (see outcome measurements in #10). • This patient activation project should not be used as a mechanism to inappropriately move members to different health plans and PCPs, but rather, shall focus on establishing connectivity to resources already available to the member. • Work with respective MCOs and PCPs to ensure proactive outreach to beneficiaries. Sufficient information must be provided regarding insurance coverage, language resources, and availability of primary and preventive care services. The state must review and approve any educational materials, which must comply with state marketing guidelines and federal regulations as outlined in 42 CFR §438.104.	Pass & Ongoing	
	Milestone #7 Baseline each beneficiary cohort (per method developed by state) to appropriately identify cohorts using PAM(R) during the first year of the project and again, at set intervals. Baselines, as well as intervals towards improvement, must be set for each cohort at the beginning of each performance period.	Pass & Ongoing	
	Milestone #8 Include beneficiaries in development team to promote preventive care.	Pass & Ongoing	
Milestone #9 Measure PAM(R) components, including: • Screen patient status (UI, NU and LU) and collect contact information when he/she visits the PPS designated facility or "hot spot" area for health service. • If the beneficiary is UI, does not have a registered PCP, or is attributed to a PCP in the PPS' network, assess patient using PAM(R) survey and designate a PAM(R) score. • Individual member's score must be averaged to calculate a baseline measure for that year's cohort. • The cohort must be followed for the entirety of the DSRIP program. • On an annual basis, assess individual members' and each cohort's level of engagement, with the goal of moving beneficiaries to a higher level of activation. • If the beneficiary is deemed to be LU & NU but has a designated PCP who is not part of the PPS' network, counsel the beneficiary on better utilizing his/her existing healthcare benefits, while also encouraging the beneficiary to reconnect with his/her designated PCP.	Pass & Ongoing

Delivery System Reform Incentive Payment Project  
DSRIP Implementation Plan Project**

**State University of New York at Stony Brook University Hospital (PPS ID:16)**

Project ID	Module Name / Milestone #	Review Status	
	<ul style="list-style-type: none"> <li>• The PPS will NOT be responsible for assessing the patient via PAM(R) survey.</li> <li>• PPS will be responsible for providing the most current contact information to the beneficiary's MCO for outreach purposes.</li> <li>• Provide member engagement lists to relevant insurance companies (for NU &amp; LU populations) on a monthly basis, as well as to DOH on a quarterly basis.</li> </ul>		
	Milestone #10 Increase the volume of non-emergent (primary, behavioral, dental) care provided to UI, NU, and LU persons.	Pass & Ongoing	
	Milestone #11 Contract or partner with CBOs to develop a group of community navigators who are trained in connectivity to healthcare coverage, community healthcare resources (including for primary and preventive services) and patient education.	Pass & Ongoing	
	Milestone #12 Develop a process for Medicaid recipients and project participants to report complaints and receive customer service.	Pass & Ongoing	
	Milestone #13 Train community navigators in patient activation and education, including how to appropriately assist project beneficiaries using the PAM(R).	Pass & Ongoing	
	Milestone #14 Ensure direct hand-offs to navigators who are prominently placed at "hot spots," partnered CBOs, emergency departments, or community events, so as to facilitate education regarding health insurance coverage, age-appropriate primary and preventive healthcare services and resources.	Pass & Ongoing	
	Milestone #15 Inform and educate navigators about insurance options and healthcare resources available to UI, NU, and LU populations.	Pass & Ongoing	
	Milestone #16 Ensure appropriate and timely access for navigators when attempting to establish primary and preventive services for a community member.	Pass & Ongoing	
	Milestone #17 Perform population health management by actively using EHRs and other IT platforms, including use of targeted patient registries, to track all patients engaged in the project.	Pass & Ongoing	
	3.a.i	Module 3.a.i.2 - Patient Engagement Speed	Pass & Ongoing
Module 3.a.i.3 - Prescribed Milestones			
Milestone #1 Co-locate behavioral health services at primary care practice sites. All participating primary care practices must meet 2014 NCQA level 3 PCMH or Advance Primary Care Model standards by DY 3.		Pass & Ongoing	
Milestone #2 Develop collaborative evidence-based standards of care including medication management and care engagement process.		Pass & Ongoing	
Milestone #3 Conduct preventive care screenings, including behavioral health screenings (PHQ-2 or 9 for those screening positive, SBIRT) implemented for all patients to identify unmet needs.		Pass & Ongoing	
Milestone #4 Use EHRs or other technical platforms to track all patients engaged in this project.		Pass & Ongoing	
Milestone #5 Co-locate primary care services at behavioral health sites.		Pass & Ongoing	
Milestone #6 Develop collaborative evidence-based standards of care including medication management and care engagement process.		Pass & Ongoing	
Milestone #7 Conduct preventive care screenings, including behavioral health screenings (PHQ-2 or 9 for those screening positive, SBIRT) implemented for all patients to identify unmet needs.		Pass & Ongoing	
Milestone #8 Use EHRs or other technical platforms to track all patients engaged in this project.	Pass & Ongoing

	Milestone #9 Implement IMPACT Model at Primary Care Sites.	Pass & Ongoing	
	Milestone #10 Utilize IMPACT Model collaborative care standards, including developing coordinated evidence-based care standards and policies and procedures for care engagement.	Pass & Ongoing	
	Milestone #11 Employ a trained Depression Care Manager meeting requirements of the IMPACT model.	Pass & Ongoing	
	Milestone #12 Designate a Psychiatrist meeting requirements of the IMPACT Model.	Pass & Ongoing	
	Milestone #13 Measure outcomes as required in the IMPACT Model.	Pass & Ongoing	
	Milestone #14 Provide "stepped care" as required by the IMPACT Model.	Pass & Ongoing	
	Milestone #15 Use EHRs or other technical platforms to track all patients engaged in this project.	Pass & Ongoing	
3.b.i	Module 3.b.i.2 - Patient Engagement Speed	Pass & Ongoing	
	Module 3.b.i.3 - Prescribed Milestones		
	Milestone #1 Implement program to improve management of cardiovascular disease using evidence-based strategies in the ambulatory and community care setting.	Pass & Ongoing	
	Milestone #2 Ensure that all PPS safety net providers are actively connected to EHR systems with local health information exchange/RHIO/SHIN-NY and share health information among clinical partners, including direct exchange (secure messaging), alerts and patient record look up, by the end of DY 3.	Pass & Ongoing	
	Milestone #3 Ensure that EHR systems used by participating safety net providers meet Meaningful Use and PCMH Level 3 standards and/or ACPM by the end of Demonstration Year 3.	Pass & Ongoing	
	Milestone #4 Use EHRs or other technical platforms to track all patients engaged in this project.	Pass & Ongoing	
	Milestone #5 Use the EHR to prompt providers to complete the 5 A's of tobacco control (Ask, Assess, Advise, Assist, and Arrange).	Pass & Ongoing	
	Milestone #6 Adopt and follow standardized treatment protocols for hypertension and elevated cholesterol.	Pass & Ongoing	
	Milestone #7 Develop care coordination teams including use of nursing staff, pharmacists, dieticians and community health workers to address lifestyle changes, medication adherence, health literacy issues, and patient self-efficacy and confidence in self-management.	Pass & Ongoing	
	Milestone #8 Provide opportunities for follow-up blood pressure checks without a copayment or advanced appointment.	Pass & Ongoing	
	Milestone #9 Ensure that all staff involved in measuring and recording blood pressure are using correct measurement techniques and equipment.	Pass & Ongoing	
	Milestone #10 Identify patients who have repeated elevated blood pressure readings in the medical record but do not have a diagnosis of hypertension and schedule them for a hypertension visit.	Pass & Ongoing	
	Milestone #11 Prescribe once-daily regimens or fixed-dose combination pills when appropriate.	Pass & Ongoing	
Milestone #12 Document patient driven self-management goals in the medical record and review with patients at each visit.	Pass & Ongoing		
Milestone #13 Follow up with referrals to community based programs to document participation and behavioral and health	Pass & Ongoing		

**New York State Department Of Health  
 Delivery System Reform Incentive Payment Project  
 DSRIP Implementation Plan Project**

**State University of New York at Stony Brook University Hospital (PPS ID:16)**

Project ID	Module Name / Milestone #	Review Status	
	status changes.		
	Milestone #14 Develop and implement protocols for home blood pressure monitoring with follow up support.	Pass & Ongoing	
	Milestone #15 Generate lists of patients with hypertension who have not had a recent visit and schedule a follow up visit.	Pass & Ongoing	
	Milestone #16 Facilitate referrals to NYS Smoker's Quitline.	Pass & Ongoing	
	Milestone #17 Perform additional actions including "hot spotting" strategies in high risk neighborhoods, linkages to Health Homes for the highest risk population, group visits, and implementation of the Stanford Model for chronic diseases.	Pass & Ongoing	
	Milestone #18 Adopt strategies from the Million Hearts Campaign.	Pass & Ongoing	
	Milestone #19 Form agreements with the Medicaid Managed Care organizations serving the affected population to coordinate services under this project.	Pass & Ongoing	
	Milestone #20 Engage a majority (at least 80%) of primary care providers in this project.	Pass & Ongoing	
3.c.i	Module 3.c.i.2 - Patient Engagement Speed	Pass & Ongoing	 
	Module 3.c.i.3 - Prescribed Milestones		
	Milestone #1 Implement evidence-based best practices for disease management, specific to diabetes, in community and ambulatory care settings.	Pass & Ongoing	
	Milestone #2 Engage at least 80% of primary care providers within the PPS in the implementation of disease management evidence-based best practices.	Pass & Ongoing	
	Milestone #3 Develop care coordination teams (including diabetes educators, nursing staff, behavioral health providers, pharmacy, community health workers, and Health Home care managers) to improve health literacy, patient self-efficacy, and patient self-management.	Pass & Ongoing	
	Milestone #4 Develop "hot spotting" strategies, in concert with Health Homes, to implement programs such as the Stanford Model for chronic diseases in high risk neighborhoods.	Pass & Ongoing	
	Milestone #5 Ensure coordination with the Medicaid Managed Care organizations serving the target population.	Pass & Ongoing	
	Milestone #6 Use EHRs or other technical platforms to track all patients engaged in this project.	Pass & Ongoing	
	Milestone #7 Meet Meaningful Use and PCMH Level 3 standards and/or APCM by the end of Demonstration Year 3 for EHR systems used by participating safety net providers.	Pass & Ongoing	
3.d.ii	Module 3.d.ii.2 - Patient Engagement Speed	Pass & Ongoing	
	Module 3.d.ii.3 - Prescribed Milestones		
	Milestone #1 Expand asthma home-based self-management program to include home environmental trigger reduction, self-monitoring, medication use, and medical follow-up.	Pass & Ongoing	
	Milestone #2 Establish procedures to provide, coordinate, or link the client to resources for evidence-based trigger reduction interventions. Specifically, change the patient's indoor environment to reduce exposure to asthma triggers such as pests, mold, and second hand smoke.	Pass & Ongoing

**Narrative Text :**

We have exported IPP Module 1.8 Ongoing Funds Flow PIT Report. We have inputted the PPS PMO cost (provider category id # 13) for DY1 Q4. Since this category was not available during the DY1 Q1, Q2, and Q3 report, there was no data reported for those quarters when we exported the report. We have inputted this data for DY1 Q1, Q2, and Q3 in Module 1.8.

We have not populated the supplemental PIT because we have not flowed performance funds to providers that are not currently in PIT.
