VBP QIP Financing Update

- The State released a portion of **Cycle 2029** early on Monday, July 11th, 2016.
- The July 11th payment provided a six month (April 2016 - September 2016) gross advance of the State Fiscal Year (SFY) 2016-17 funding outlined in each individual VBP QIP Acceptance Letter, in order to ensure continued funding for VBP QIP in SFY 2016-17.
- It is the Department's expectation that MCOs begin sending the April through July 2016 VBP QIP payments at the new funding levels (if they have not already been completed), once contractual obligations have been met.
 - Group 2 public hospitals still require a completed indemnification letter before any payments can be effectuated.
 - All Group 2 hospitals require an executed contract before any payments can be effectuated.
- The State generated a receivable for the early transactions, and once the April 2016 Mainstream Managed Care premiums are approved by CMS, the State will recover the transactions in **Cycle 2038** on September 1st, 2016 from State payments to MCOs.
 - This recovery will reduce MCOs' normal September cycle payment by amount stated in the notifications sent out by DOH.
