Value Based Payment Quality Measure Set
Measurement Year 2020

INTRODUCTION

The Measurement Year (MY) 2020 HIV/AIDS Quality Measure Set was created in collaboration with the HIV/AIDS Clinical Advisory Group (CAG), and the New York State (NYS) Value Based Payment (VBP) Workgroup. The goal of this measure set is to align with measures used in the Delivery System Reform Incentive Payment (DSRIP) Program, the Quality Assurance Reporting Requirements (QARR), and the Merit-based Incentive Payment System (MIPS), where applicable. The measure set was designed to encourage providers to meet high standards of patient-centered clinical care and coordination across multiple care settings throughout the HIV population.

MEASURE SELECTION AND FEASIBILITY

During the spring, summer, and fall of 2019, the HIV/AIDS CAG reconvened as part of the AIDS Institute’s Quality Advisory Committee and made recommendations to the State on quality measures, data collection, data reporting, and support required for providers to be successful in a VBP environment.

Beginning in June of 2017, the State initiated regular meetings of the VBP Measure Support Task Force. The goal of the Task Force is to make recommendations to the State to support and inform during the Annual Measure Review Cycle. Members of the Task Force include professionals from various Managed Care Organizations (MCOs), VBP Pilot Contractors, Clinical Subject Matter Experts, and State Agencies, along with other professionals who have experience in quality measurement and health information technology. The Task Force provides feedback to the Department of Health (DOH) on quality measure feasibility, reporting, and calculation.

Upon receiving the CAG recommendations and Task Force feedback, the State defined a final list of measures for inclusion in MY2020. For MY2020, 2 measures have been removed or replaced, 1 measure has been added, 1 measure has been recategorized, and 2 reclassified; culminating in a total of 40 Category 1 and 2 HIV/AIDS Quality Measures.

MEASURE CLASSIFICATION

Each measure has been designated by the State as Category 1, 2, or 3 with associated recommendations for implementation and testing for future use in VBP Arrangements. The measures below are classified by category based on an assessment of reliability, validity, and feasibility, and according to suggested methods of use (either Pay for Reporting (P4R) or Pay for Performance (P4P)).

Categorizing and Prioritizing Quality Measures

CATEGORY 1

Approved quality measures that are deemed to be clinically relevant, reliable, valid, and feasible.

CATEGORY 2

Measures that are clinically relevant, valid, and reliable, but where the feasibility could be problematic. These measures were investigated during the 2017 & 2018 pilot programs.

CATEGORY 3

Measures that are insufficiently relevant, valid, reliable and/or feasible.

Category 1

Category 1 quality measures as identified by the CAGs and accepted and deemed reportable by the State are to be reported by VBP Contractors to the MCO's. These measures are also intended to be used to determine the amount of shared savings for which VBP contractors are eligible.¹ At least one Category 1 P4P measure must be included in a VBP contract.

The State classified each Category 1 measure as either P4P or P4R:

- **P4P** measures are intended to be used in the determination of shared savings amounts for which VBP Contractors are eligible. In other words, these are the measures on which payments in VBP contracts may be based. Measures can be included in both the determination of the target budget and in the calculation of shared savings for VBP Contractors.
- **P4R** measures are intended to be used by the Managed Care Organizations (MCOs) to incentivize VBP Contractors for reporting data to monitor quality of care delivered to members under a VBP contract. Incentives for reporting should be based on timeliness, accuracy, and completeness of data. Measures can be reclassified from P4R to P4P through annual CAG and State review or as determined by the MCO and VBP Contractor.

Not all Category 1 measures will be reportable for the measurement year, as reporting on some of these measures will be phased in over the next few years. Please refer to the *Value Based Payment Reporting Requirements Technical Specifications Manual (MY2020)* for details as to which measures must be reported for the measurement year. This manual will be updated annually each fall, in line with the release of the final VBP measure sets for the subsequent year.

Categories 2 and 3

Category 2 measures have been accepted by the State based on agreement of clinical importance, validity, and reliability, but flagged as presenting concerns regarding implementation feasibility. Some of these measures have been further investigated in the VBP Pilots. The State required that VBP Pilots select and report a minimum of one Category 2 measure per VBP Arrangement for MY2019 (or have a State and Plan approved alternative). VBP Pilot participants will be expected to share meaningful feedback on the feasibility of Category 2 measures when the CAGs reconvene. The State has discussed measure testing approaches, data collection, and reporting requirements with VBP Pilots as a part of the Measure Support Task Force.

Measures designated as Category 3 were identified as unfeasible at this time or as presenting additional concerns including accuracy or reliability when applied to the attributed member population for an arrangement, therefore Category 3 measures are not included in the measure set.

MY 2020 HIV/AIDS QUALITY MEASURE SET

The measures and State-determined classifications provided on the following pages are recommendations for MY2020. Note that measure classification is a State recommendation and implementation is to be determined between the MCO and VBP Contractor.

Measure sets and classifications are considered dynamic and will be reviewed annually. Updates will include measure additions, deletions, recategorizations, and/or reclassifications from P4R to P4P or vice versa, based on experience with measure implementation in the prior year. During 2020, the CAGs and the VBP Workgroup will re-evaluate measures and provide recommendations for MY2020. Please see [Appendix A](#) for a full list of these changes.

Note: Additional changes may have been made to the names for some of the measures presented below to ensure alignment with the naming conventions used by the official measure steward. There have not been any changes to the measure specifications associated with these name changes

CATEGORY 1

The table below displays the Category 1 HIV/AIDS Quality Measure Set, arranged alphabetically, and includes measure title, measure steward, the National Quality Forum (NQF) number and/or other measure identifier (where applicable), and State-recommended classification for measure use. The measure set is redlined to highlight changes made between MY2019 and MY2020. Additions are made in red text while deletions or recategorizations are made with a strikethrough.

HIV/AIDS Measures	Measure Steward	Measure Identifier	Classification
Adherence to Mood Stabilizers for Individuals with Bipolar I Disorder	Centers for Medicare & Medicaid Services (CMS)	NQF 1880	P4P
Antidepressant Medication Management - Effective Acute Phase Treatment & Effective Continuation Phase Treatment	National Committee for Quality Assurance (NCQA)	NQF 0105	P4P
Asthma Medication Ratio	NCQA	NQF 1800	P4P
Breast Cancer Screening	NCQA	NQF 2372	P4P
Cervical Cancer Screening	NCQA	NQF 0032	P4P
Colorectal Cancer Screening	NCQA	NQF 0034	P4P
Comprehensive Diabetes Care: Eye Exam (retinal) Performed	NCQA	NQF 0055	P4P
Comprehensive Diabetes Care: Hemoglobin A1c (HbA1c) Poor Control (>9.0%)	NCQA	NQF 0059	P4P
Comprehensive Diabetes Care: Medical Attention for Nephropathy	NCQA	NQF 0062	P4P
Controlling High Blood Pressure	NCQA	NQF 0018	P4P

HIV/AIDS Measures	Measure Steward	Measure Identifier	Classification
Depression Remission or Response for Adolescents and Adults	NCQA		P4P
Diabetes Screening for People with Schizophrenia or Bipolar Disorder Who Are Using Antipsychotic Medications	NCQA	NQF 1932	P4P
HIV Viral Load Suppression	Health Resources and Services Administration (HRSA)	NQF 2082	P4P
Initiation and Engagement of Alcohol and Other Drug Abuse or Dependence Treatment	NCQA	NQF 0004	P4P
Initiation of Pharmacotherapy upon New Episode of Opioid Dependence	NYS	-	P4P
Medication Management for People with Asthma	NCQA	NQF 1799	P4P
Potentially Avoidable Complications in Patients with HIV/AIDS	Altarum Institute	-	P4R
Preventive Care and Screening: Body Mass Index (BMI) Screening and Follow-Up Plan	CMS	NQF 0421	P4R
Preventive Care and Screening: Influenza Immunization	American Medical Association Physician Consortium for Performance Improvement (AMA PCPI)	NQF 0041	P4R
Preventive Care and Screening: Screening for Clinical Depression and Follow-Up Plan	CMS	NQF 0418	P4R
Preventive Care and Screening: Tobacco Use: Screening and Cessation Intervention	AMA PCPI	NQF 0028	P4R

HIV/AIDS Measures	Measure Steward	Measure Identifier	Classification
Sexually Transmitted Infections: Screening for Chlamydia, Gonorrhea, and Syphilis	NYS	-	P4R
Statin Therapy for Patients with Cardiovascular Disease	NCQA	-	P4R
Use of Pharmacotherapy for Alcohol Abuse or Dependence	NYS	-	P4R
Use of Spirometry Testing in the Assessment and Diagnosis of COPD	NCQA	NQF 0577	P4R

CATEGORY 2

The table below displays the Category 2 HIV/AIDS Quality Measure Set and includes measure title, measure steward, and the NQF number and/or other measure identifier (where applicable). All Category 2 measures are classified as P4R in MY2020. The measure set is redlined to highlight changes made between MY2019 and MY2020. Additions are made in red text while deletions or recategorizations are made with a strikethrough.

HIV/AIDS Measures	Measure Steward	Measure Identifier
Asthma Action Plan	American Academy of Allergy, Asthma & Immunology (AAAAI)	-
Asthma: Assessment of Asthma Control – Ambulatory Care Setting	AAAAI	-
Asthma: Spirometry Evaluation	AAAAI	-
Continuing Engagement in Treatment Alcohol and Other Drug Dependence	NYS	-
Continuity of Care from Inpatient Detox to Lower Level of Care	NYS	-
Continuity of Care from Inpatient Rehabilitation for Alcohol and Other Drug Abuse or Dependence Treatment to Lower Level of Care	NYS	-
Depression Remission or Response for Adolescents and Adults*	TBD	-
Diabetes Screening	NYS	-
Hepatitis C Screening	HRSA	-
Housing Status	HRSA	-
Initiation of Pharmacotherapy upon New Episode of Alcohol Abuse or Dependence	NYS	-
Linkage to HIV Medical Care	NYS	-

HIV/AIDS Measures	Measure Steward	Measure Identifier
Medical Case Management: Care Plan	HRSA	-
Prescription of HIV Antiretroviral Therapy	HRSA	NQF 2083
Sexual History Taking: Anal, Oral, and Genital (HIV/AIDS)	NYS	-
Substance Abuse Screening	HRSA	-
Use of Opioid Dependence Pharmacotherapy	NYS	-

Appendix A

The tables below identify the changes to the Category 1 and Category 2 measures for the MY2020 HIV/AIDS Quality Measure Set.

CATEGORY 1 MEASURE CHANGES FROM 2019 TO 2020

Measure Name	Change	Rationale for Change
Depression Remission or Response for Adolescents and Adults	Measure moved to Cat 1 to Cat 2	Align with VBP Roadmap changes
Sexually Transmitted Infections: Screening for Chlamydia, Gonorrhea, and Syphilis	Classification change from P4P to P4R	Modification to measure specifications

CATEGORY 2 MEASURE CHANGES FROM 2019 TO 2020

Measure Name	Change	Rationale for Change
Depression Remission or Response for Adolescents and Adults	Measure moved from Cat 2 to Cat 1	Align with VBP Roadmap changes
Initiation of Pharmacotherapy upon New Episode of Alcohol Abuse or Dependence	Measure removed	Recommendation of CAG and Task Force
