## 2014-Edition Certified EHR Technology: Payment Year 2014 Attestation Update

Providers attesting to Payment Year 2014 of the NY Medicaid EHR Incentive Program must acquire a 2014-Edition Certified EHR Technology to meet the Adopt, Implement or Upgrade (A/I/U) requirement in Participation Year 1 or demonstrate being a Meaningful EHR User for Participation Year 2 and beyond.

**Provider action may be required\***

### Providers in Payment Year 2014:

Providers **must** update their Payment Year 2014 attestation in MEIPASS to only include a valid 2014-Edition EHR Certification Number(s). Attestations that do not include a 2014-Edition EHR Certification Number(s) in Payment Year 2014 will be **rejected** resulting in severe delays and rework on the providers' behalf.

### Providers in Payment Year 2013:

Providers **must NOT** update their EHR Certification Number(s) if the Payment Year 2013 attestations are in the MEIPASS status (State Review, State Approval, or Payment Process). Updates to attestations that are in a review status will cause the attestations to be **reset or rejected** resulting in severe delays and rework on the providers' behalf. Once an attestation has been paid for Payment Year 2013, the provider should review the "Providers in Payment Year 2014" instructions.
