New MEIPASS Function: Self-Retracton

We are pleased to announce a new **Self-Retracton** function available in [MEIPASS](#) that allows Eligible Professionals and Eligible Hospitals to retract their attestations and resubmit with changes.

Providers are no longer required to contact hit@health.ny.gov for manual rejections in order to make changes to submitted attestations.

Please refer to the  [Self-Retracton User Guide](#) for assistance.

NOTE: Attestations that have been approved and paid may not be retracted or adjusted in this manner. A future update to MEIPASS will allow Eligible Professionals to submit post-payment adjustments. Eligible Hospitals should refer to the [EH Payment Adjustment Walkthrough](#).
