## NY Medicaid EHR Incentive Program LISTSERV

### Regional Extension Centers (RECs)

Do you have questions about the program and its requirements? Do you need assistance with selecting and using Certified Electronic Health Record Technology (CEHRT)? Are you finding it difficult to meet the program objectives?

There is FREE support, provided by New York State Regional Extension Centers (RECs), for all practices and providers located within New York.

RECs were established nationwide to assist primary care providers in the adoption and meaningful use of electronic health records (EHRs). RECs work to optimize the use of EHRs so that providers can become meaningful users, engage in new health care transformation and quality initiatives, and participate in payment delivery reform programs.

New York State has two RECs that provide FREE support services to healthcare providers as they navigate the EHR adoption process and achievement of meaningful use.
