

June 30, 2021

Meaningful Use Registration for Public Health (MURPH) Service Update

The Enhanced Meaningful Use (EMU) Program is scheduled to end on **December 31st, 2021**. All EMU related registry support for New York State Department of Health (NYSDOH) and New York City Department of Health and Mental Hygiene (NYCDOHMH) **will cease on the aforementioned date** as well. Once the registry support for the program ends, your **Audit Report Card (ARC)** will serve as the only source of truth containing evidence of your program participation in case of an audit initiated by the Office of the Medicaid Inspector General (OMIG).

Audit Report Card Update & Download Deadlines

To ensure all program participants (Eligible Professionals (EPs) and Eligible Hospitals (EHs)) have access to their most accurate and up to date Audit Report Cards (ARC), we encourage all participants to review their ARC in [Meaningful Use Registration for Public Health \(MURPH\) system](#). If your review finds all the information listed in your ARC to be correct, no further action is required on your part. Should you find any discrepancies in your Meaningful use (MU) status with a registry, **please contact the Informatics Analysts at the registry directly** to remediate such discrepancies by **July 31st, 2021**. No changes will be allowed to ARC Meaningful Use Statuses beyond that date.

For **NEW** participants, the final day to register in the MURPH system is **July 30th, 2021**.
