		Cheese or	0	0-2 oz.
		Cottage Cheese or	0	0-8 Tbsp.
		Yogurt	0	0-4 oz.

¹ Ounce Equivalents (oz. eq.) are used to determine the quantity of creditable grains. For iron-fortified infant cereal, ½ oz. eq. is about 4 Tbsp. dry. For other grains, refer to *Crediting Foods in CACFP*. Solid foods are only required for infants when they are developmentally ready to accept them. The decision to feed specific foods should always be made in consultation with an infant's parent or guardian.
