Re: SPA #14-09
Inpatient Hospital Services

Dear Mr. Cooley:

The State requests approval of the enclosed amendment #14-09 to the Title XIX (Medicaid) State Plan for inpatient hospital services to be effective January 1, 2014 (Appendix I). This amendment is being submitted based upon enacted legislation. A summary of the proposed amendment is contained in Appendix II.

This amendment is submitted pursuant to §1902(a) of the Social Security Act (42 USC 1396a(a)) and Title 42 of the Code of Federal Regulations (CFR), Part 447, Subpart C.

The State of New York pays for inpatient general hospital services using rates determined in accordance with methods and standards specified in an approved State Plan, following a public process, which complies with Social Security Act §1902(a)(13)(A).

Notice of the changes in the methods and standards for setting payment rates for general hospital inpatient services were given in the New York State Register on March 27, 2013.

It is estimated that the changes represented by 2014 payment rates for inpatient general hospital services will have no noticeable short-term or long-term effect on the availability of services on a statewide or geographic area basis, the type of care furnished, or the extent of provider participation.

In accordance with 42 CFR §447.272(c), New York assures that its aggregate disproportionate share hospital payments do not exceed the disproportionate share hospital payment limit.

In accordance with §1923(g) of the Social Security Act, New York assures that it has calculated facility specific limits for disproportionate share payments for each disproportionate share hospital. New York assures that it will not make disproportionate share payments to a hospital in excess of the facility specific limits established for such hospital.

Copies of pertinent sections of enacted State statute are enclosed for your information (Appendix III). In addition, responses to the five standard funding questions are also enclosed (Appendix V).

If you have any questions regarding this matter, please do not hesitate to contact John E. Ulberg, Jr., Medicaid Chief Financial Officer, Division of Finance and Rate Setting at (518) 474-6350.

Sincerely,

Jason A. Helgerson
Medicaid Director

b. Any errors regarding a medical facility's capital cost reimbursement.

c. Direct medical education (DME) and indirect medical education (IME) costs, as defined in the 86-1.15 Calculation of Trend Factor section of this Attachment, for hospitals where the teaching status has changed from non-teaching to teaching.

(i) The effective date of the initial rate adjustment will be the later of the first of the month following 60 days from the department's receipt of the written notification with documentation requesting a rate adjustment or July 1st of the program year.

5. The Department may refuse to accept or consider a rate appeal from a facility that:

a. is providing an unacceptable level of care as determined after review by the State Hospital review and Planning Council; or

b. is operated by the same management that operates a facility with regard to which a determination of an unacceptable level of care has been made in accordance with paragraph (a) of this subdivision; or

c. has been determined by the Department as being operated by a person or persons not properly established or licensed pursuant to the Public Health Law; or

d. is delinquent in the payment of a fine or penalty imposed on the facility pursuant to the Public Health Law.

6. Any hospital whose Medicaid inpatient rates are subject to this Subpart and which is determined by the federal Department of Health and Human Services to be no longer eligible for reimbursement pursuant to Title XVIII (Medicare) of the federal social security act shall have its Medicaid inpatient rates reduced by 10 percent and this rate reduction shall remain in effect until the first day of the month following the re-certification of the facility by the federal Department of Health and Human Services as eligible for reimbursement pursuant to Title XVIII of the federal Social Security Act. Such rate reductions shall be in addition to any revision of rates based on audit exceptions.

Appendix II
2014 Title XIX State Plan
First Quarter Amendment
Summary

SUMMARY
SPA #14-09

This State Plan Amendment proposes to adjust hospital inpatient payment rates as a result of newly established teaching hospitals.

Appendix III
2014 Title XIX State Plan
First Quarter Amendment
Authorizing Provisions

CHAPTER 56 OF THE LAWS OF 2013 - PART A

§ 33-a. Subparagraphs (ii) and (x) of paragraph (b) of subdivision 35 of section 2807-c of the public health law, as added by section 2 of part C of chapter 58 of the laws of 2009, are amended to read as follows:

(ii) Only those two thousand five base year costs which relate to the cost of services provided to Medicaid inpatients, as determined by the applicable ratio of costs to charges methodology, shall be utilized for rate-setting purposes**, provided, however, that the commissioner may utilize updated Medicaid inpatient related base year costs and statistics as necessary to adjust inpatient rates in accordance with clause (C) of subparagraph (x) of this paragraph**;

(x) Such regulations shall provide for administrative rate appeals, but only with regard to: (A) the correction of computational errors or omissions of data, including with regard to the hospital specific computations pertaining to graduate medical education, wage equalization factor adjustments, [~~and~~] (B) capital cost reimbursement**, and, (C) changes to the base year statistics and costs used to determine the direct and indirect graduate medical education components of the rates as a result of new teaching programs at new teaching hospitals and/or as a result of residents displaced and transferred as a result of teaching hospital closures**;

Appendix IV
2014 Title XIX State Plan
First Quarter Amendment
Public Notice

DAI will do business as Disability Rights New York (DRNY) andwill operate all of the P&A/CAP programs authorized under federal law. DRNY will continue to serve existing clients and cases of the current P&A system or refer them to other sources of legal advocacy as appropriate, without disruption.

The Governor has, simultaneously with this public notice, provided notice to CQCAPD as the existing P&A and CAP; the State Rehabilitation Advisory Council; and the State Independent Living Council. Interested persons may wish to write to CQCAPD to obtain a copy of its response to that notice. Such requests should be sent to the address above.

Public comment on this redesignation will be accepted until April 5, 2013. Comments should be sent to the following:

Protection and Advocacy Redesignation
The Capitol
Albany, NY 12224
Email: protectionandadvocacy@exec.ny.gov

A public hearing on the proposed redesignation will be held on April 9, 2013, at 1:00 p.m., Empire State Plaza, Meeting Rooms 3 and 4, Albany, New York.

For further information, contact: Protection and Advocacy Redesignation, The Capitol, Albany, New York 12224, Email: protectionandadvocacy@exec.ny.gov

PUBLIC NOTICE
Department of Health

The New York State Department of Health (DOH) is required by the provisions of the federal Beaches Environmental Assessment and Coastal Health (BEACH) Act to provide for public review and comment on the Department's beach monitoring and notification plan. The BEACH Act (Section 406(b) of the Clean Water Act) enacted a federal Environmental Protection Agency grant program available to states, such as New York, with coastal recreational waters. Coastal recreational waters include the Great Lakes and marine coastal waters that are designated for swimming, bathing, surfing, or similar water contact activities. The Act is not applicable to inland waters or waters upstream of the mouth of a river or stream having an unimpaired natural connection with the open sea.

The beach monitoring and public notification plan also includes information on the beach evaluation and classification process, including a list of waters to be monitored and beach ranking. Also included in this plan, is the sampling design and monitoring plan, including sampling location and sampling frequency. Lastly, the plan contains information on procedures for public notification and risk communication, including methods to notify the public of a swimming advisory or beach closure.

Any interested parties and/or agencies desiring to review and/or comment on the beach monitoring and notification plan for coastal recreational waters may do so by writing to: Timothy M. Shay, Section Chief, Department of Health, Center for Environmental Health, Bureau of Community Environmental Health and Food Protection, Empire State Plaza, Corning Tower Bldg., Rm. 1395, Albany, NY 12237, Fax (518) 402-7600

PUBLIC NOTICE
Department of Health

Pursuant to 42 CFR Section 447.205, the Department of Health hereby gives public notice of the following:

The Department of Health proposes to amend the Title XIX (Medicaid) State Plan for inpatient, long term care, and non-institutional services and prescription drugs to comply with recently proposed statutory provisions. The following significant changes and clarifications are proposed:

All Services

• Effective on and after April 1, 2013, no annual trend factor will be applied pursuant to the provisions of Public Health Law § 2807-c(10)(c) to rates of payment for hospital inpatient services, residential health care facility inpatient services, adult day health care outpatient services, hospital outpatient services and diagnostic and treatment care services, certified home health agencies, personal care services, adult day health care services provided to patients diagnosed with AIDS, personal care services provided in those local social services districts, including New York City, whose rates of payment for services is established by such social services districts pursuant to a rate-setting exemption granted by the Department, assisted living program services and hospice services. This includes the elimination of the trend factor effective for Medicaid rate periods April 1, 2013, and thereafter.

The annual decrease in gross Medicaid expenditures for state fiscal year 2013/14 is $436.4 million.

• Continues, effective for dates of service April 1, 2013, through March 31, 2015, all non-exempt Medicaid payments as referenced below will be uniformly reduced by two percent.

The annual decrease in gross Medicaid expenditures for state fiscal year 2013/14 is $714 million.

• The amount appropriated for Essential Community Provider Network and Vital Access Provider initiatives will be increased to $182 million in state fiscal year 2013/14 and subsequently decreased to $153 million in state fiscal year 2014/15. Included in this initiative is a $30 million reallocation of nursing home financially disadvantaged funding to the vital access provider initiative.

The annual increase in gross Medicaid expenditures for state fiscal year 2013/14 is $52 million.

• Consistent with Section 1202 of the Affordable Care Act, certain primary care providers (e.g., physicians, physician's assistants and nurse practitioners) will be reimbursed at the Medicare rate for Medicaid primary care services furnished in calendar years 2013 and 2014 in institutional and non-institutional settings, including nursing homes. This provision applies to evaluation and management (E&M) and vaccine administration services when delivered by a physician with a specialty designation of family medicine, general internal medicine, or pediatric medicine. The purpose of this provision is to encourage more physicians to participate in Medicaid, and thereby promote access to primary care services for current and new Medicaid beneficiaries to be served via coverage expansion in 2014.

It is estimated that the impact to the provider community will be a gross annual increase in state fiscal year 2013/14 of $227.9 million. This includes the State eliminating the physician's portion of the two percent reduction that was enacted as part of the 2011-2012 State Fiscal Year consistent with the Federal Regulation.

Institutional Services

• For the state fiscal year beginning April 1, 2013 through March 31, 2014, continues specialty hospital adjustments for hospital inpatient services provided on and after April 1, 2013, to public general hospitals, other than those operated by the State of New York or the State University of New York, located in a city with a population of over one million and receiving reimbursement of up to $1.08 billion annually. Payments to eligible public general hospitals may be added to rates of payment or made as aggregate payments.

• For state fiscal years beginning April 1, 2013 through March 31, 2016, additional medical assistance payments for inpatient hospital services may be made to public general hospitals operated by the State of New York or the State University of New York, or by a county which shall not include a city with a population over one million, and those public general hospitals located in the counties of Westchester, Erie, or Nassau, up to one hundred percent (100%) of each such public hospital's medical assistance and uninsured patient losses after all other medical assistance, including disproportionate share payments to such general hospitals. Payments may be added to rates of payment or made as aggregate payments. Payments will be based initially on reported reconciled data from the base year two years prior to the payment year adjusted for authorized Medicaid rate changes and further reconciled to actual reported data from such payment year.

• Extends current provisions for services April 1, 2013 through March 31, 2015, the reimbursable operating cost component for general hospital inpatient rates will be established with the 2006 final trend factor equal to the final Consumer Price Index (CPI) for all urban consumers less 0.25%.

• Continues, effective April 1, 2013 through March 31, 2015, budgeted capital inpatient costs of a general hospital applicable to the rate year shall be decreased to reflect the percentage amount by which the budgeted costs for capital related inpatient costs of the hospital for the base year two years prior to the rate year exceeded actual costs.

The annual decrease in gross Medicaid expenditures attributable to these initiatives for state fiscal year 2013/14 is $114.5 million.

• Effective April 1, 2013, rates of payments for general hospitals certified by the Office of Alcoholism and Substance Abuse Services who provide inpatient detoxification and withdrawal services and, for inpatient services provided for patients discharged on and after December 1, 2008, and who are determined to be in diagnosis-related groups as identified and published on the New York State Department of Health website will be made on a per diem basis. Such payments will be made in accordance with existing methodology previously noticed on June 10, 2009.

• The base period reported costs and statistics used for case based rate-setting operating cost components, including the weights assigned to diagnostic related groups, will be updated no less frequently than every four years and the new base period will be no more than four years prior to the first applicable rate period that utilizes such new base period provided, however, that the first updated base period shall begin on January 1, 2014.

• Effective January 1, 2014, the payment rates for hospital DRG exempt services may be adjusted periodically to reflect a more current cost and statistical base year including adjustments deemed necessary by the Commissioner.

• Effective January 1, 2014, hospital inpatient payment rates may be adjusted to include changes to the base year statistics and costs used to determine the direct and indirect graduate medical education components of the rates as a result of new teaching programs at new teaching hospitals and/or as a result of residents displace and transferred as a result of a teaching hospital closure.

• Continues, effective January 1, 2014, the current methodology established to incorporate quality related measures, including, but not limited to potentially preventable re-admissions (PPRs) and provide for rate adjustments or payment disallowances related to PPRs and other potentially preventable negative outcomes (PPNOs), shall be calculated in accordance with the existing methodology.

- Such methodology will be based on a risk adjusted comparison of the actual and the expected number of PPRs and other PPNOs in a given hospital and with benchmarks established by the Commissioner.

- Such rate adjustments or payment disallowances will result in an aggregate reduction in Medicaid payments of no less than $51 million for the period April 1, 2013 through March 31, 2014.

- Such aggregate reductions shall be offset by Medicaid payment reductions occurring as a result of decreased PPRs during the period April 1, 2013 through March 31, 2014 and as a result of decreased PPNOs during the period April 1, 2013 through March 31, 2014. Such rate adjustments or payment disallowances will not apply to behavioral health PPRs or to readmissions that occur on or after 15 days following an initial admission.

Long Term Care Services

• Continues, effective for periods April 1, 2013 through March 31, 2015, the total reimbursable state assessment on each residential health care facility's gross receipts received from all patient care services and other operating income on a cash basis for inpatient or health-related services, including adult day service, but excluding gross receipts attributable to payments received pursuant to Title XVIII of the federal Social Security Act (Medicare), at six percent. The extent to which a facility is reimbursed for the additional cost of the assessment is dependent upon Medicaid volume of services.

The annual increase in gross Medicaid expenditures attributable to these initiatives for state fiscal year 2013/14 is $420 million.

• Continues, effective April 1, 2013 through March 31, 2015, the provision that rates of payment for RHCFs shall not reflect trend factor projections or adjustments for the period April 1, 1996 through March 31, 1997.

• Extends current provisions to services April 1, 2013 through March 31, 2015, the reimbursable operating cost component for RHCFs rates will be established with the final 2006 trend factor equal to the final Consumer Price Index (CPI) for all urban consumers less 0.25%.

Continues, effective April 1, 2013 through March 31, 2015, long-term care Medicare maximization initiatives.

The annual decrease in gross Medicaid expenditures attributable to these initiatives for state fiscal year 2013/14 is $117 million.

• Extends the provision, cost reports submitted by facilities for the 2002 calendar year or any subsequent year used to determine the operating component of the 2009 rate will be subject to audit through December 31, 2018. Facilities will therefore retain all fiscal and statistical records relevant to such cost reports. Any audit of the 2002 cost report, which is commenced on or before December 31, 2018, may be completed subsequent to that date and used for adjusting the Medicaid rates that are based on such costs.

• For state fiscal years beginning April 1, 2013, continues additional payments to non-state government operated public residential health care facilities, including public residential health care facilities located in Nassau, Westchester, and Erie counties, but excluding public residential health care facilities operated by a town or city within a county, in aggregate amounts of up to $300 million. The amount allocated to each eligible public RHCF will be in accordance with the previously approved methodology, provided, however that, in consultation with impacted providers, of the funds allocated for distribution in state fiscal year beginning April 1, 2013, up to $32 million may be allocated proportionally to those public residential health care facilities which were subject to retroactive reductions in payments made for state fiscal year periods beginning April 1, 2006. Payments to eligible RHCF's may be added to rates of payment or made as aggregate payments.

Non-institutional Services

• For state fiscal year beginning April 1, 2013 through March 31, 2014, continues hospital outpatient payment adjustments that increase the operating cost components of rates of payment for hospital outpatient and emergency departments for public general hospitals other than those operated by the State of new York or the State University of New York, which are located in a city with a population of over one million. The eligibility criteria remain unchanged. The amount to be paid will be up to $287 million. Payments to eligible public general hospitals may be added to rates of payment or made as aggregate payments.

• Continues, effective April 1, 2013 through March 31, 2015, the provision that rates of payment for adult day health services shall not reflect trend factor projections or adjustments for the period April 1, 1996 through March 31, 1997.

• Extends current provisions to services April 1, 2013 through March 31, 2015, the reimbursable operating cost component for general hospital outpatient rates and adult day health care services provided by RHCFs rates will be established with the final 2006 trend factor equal to the final consumer price index (CPI) for all urban consumers less 0.25%.

• Extends current provisions for certified home health agency administrative and general cost reimbursement limits for the periods April 1, 2013 through March 31, 2015.

• Continues, effective April 1, 2013 through March 31, 2015, home health care Medicare maximization initiatives.

The annual decrease in gross Medicaid expenditures attributable to these initiatives for state fiscal year 2013/14 is $17.8 million.

• The current authority to adjust Medicaid rates of payment for services provided by certified home health agencies (CHHAs) for such services provided to children under 18 years of age and for services provided to a special needs population of medically complex and fragile children, adolescents and young disabled adults by a CHHA, AIDS home care programs, and hospice programs for purposes of supporting recruitment and retention of non-supervisory health care workers or any worker with direct patient care responsibility has been extended for the period April 1, 2013 through March 31, 2014. Payments shall not exceed in the aggregate, $100 million for such period, and shall be calculated in accordance with the previously approved methodology.

• Continues, for periods April 1, 2013 through March 31, 2016, the current provisions of the Statewide Health Care Home Program.

• Continues, effective for state fiscal year periods on and after April 1, 2013, the reduction of $25 million to the APG investment for general hospital outpatient services, general hospital emergency services and ambulatory surgical services.

• Effective April 1, 2013, individual psychotherapy services provided by licensed social workers to persons under the age of 21 and to persons requiring such services as a result of or related to pregnancy or giving birth, pursuant to federal approval, shall be reimbursed, provided, however, the Commissioner of Health is authorized to establish criteria for such services in accordance with federal law or regulation.

The annual increase in gross Medicaid expenditures for state fiscal year 2013/14 is $2.5 million.

• Effective April 1, 2013, real property capital construction costs will only be included in rates of payment for assisted living programs (ALPs) if: the facility houses exclusively ALP beds or the facility is operated by a not-for-profit corporation; the facility commenced operation after 1998 and at least 95% of the certified approved beds are provided to residents who are subject to the ALP; and the ALP is in a county with a population of no less than 280,000 persons.

The methodology used to calculate the rate for such capital construction costs shall be the same methodology used to calculate the capital construction costs at residential health care facilities for such costs, provided that the Commissioner may adopt rules and regulations which establish a cap on real property capital construction costs for those facilities that house exclusively ALP beds.

The Commissioner of Health is authorized to add up to 4,500 ALP beds to the gross number of ALP beds having been determined to be available as of April 1, 2012. Applicants eligible to submit an application shall be limited to adult homes established with, as of September 1, 2012, a certified capacity of 80 beds or more in which 25% or more of the resident population are persons with serious mental illness as defined in regulations promulgated the the Commissioner.

• Effective April 1, 2013, streamline and improve the cost-effectiveness of the Early Intervention Program (EIP) eligibility determination process by (1) requiring children referred with no qualifying diagnosis to be screened to determine whether a delay or disability is suspected; (2) using medical and other records to document eligibility for children referred with a qualifying diagnosis (e.g. Down syndrome, hearing loss); and (3) conducting partial evaluations for children previously referred to the EIP, evaluated, and found ineligible who are re-referred after 3 months and within six months of that determination (re-referrals prior to 3 months will not be accepted) with a concern in only one area of development, and new concerns in the child's developmental/medical status.

The annual decrease in gross Medicaid expenditures for state fiscal year 2013/14 is $960,000.

Prescription Drugs

• Effective July 1, 2013, for sole or multi-source brand name drugs the Estimated Acquisition Cost (EAC) is defined as Average Wholesale Price (AWP) minus seventeen and six-tenths (17.6) percent and the Average Acquisition Cost (AAC) with an appropriate dispensing fee(s) will be incorporated into the prescription drug reimbursement methodology.

The annual decrease in gross Medicaid expenditures for state fiscal year 2013/14 is $3.6 million.

• Effective April 1, 2013, the Department of Health will move to average actual acquisition cost (AAC) as the primary basis for reimbursement of prescription drugs submitted for payment to the medical assistance program. In the event AAC cannot be established for a particular drug, the Department will revert to the existing lower of methodology. Use of AAC allows the State to set reimbursement rates based on an actual acquisition cost (invoice data) and an appropriate dispensing fee.

• Effective October 1, 2013, the minimum supplemental rebate initiative would require manufacturers of brand name drugs to provide a minimum level supplemental rebate to the State or be subject to prior authorization of their drug.

The annual decrease in gross Medicaid expenditures for state fiscal year 2013/14 is $.90 million.

• Effective April 1, 2013, the e-prescription financial incentives of $.80 per dispensed electronic prescription paid to medical practitioners, clinics and the $.20 per dispensed electronic prescription paid to pharmacies for the purpose of encouraging the electronic transmission of prescriptions for drugs prescribed and dispensed in accordance with State and federal requirements will terminate.

The annual decrease in gross Medicaid expenditures attributed to this initiative for state fiscal year 2013/14 is $2.08 million.

The estimated annual net aggregate decrease in gross Medicaid expenditures attributable to reform and other initiatives contained in the budget for state fiscal year 2013/2014 is $648.8 million; and the estimated annual net aggregate increase in gross Medicaid expenditures attributable to an extension of pertinent disproportionate share (DSH) and upper payment limit (UPL) payments for state fiscal year 2013/2014 is $2.4 billion.

Copies of the proposed state plan amendments will be on file in each local (county) social services district and available for public review.

For the New York City district, copies will be available at the following places:

New York County
250 Church Street
New York, New York 10018

Queens County, Queens Center
3220 Northern Boulevard
Long Island City, New York 11101

Kings County, Fulton Center
114 Willoughby Street
Brooklyn, New York 11201

Bronx County, Tremont Center
1916 Monterey Avenue
Bronx, New York 10457

Richmond County, Richmond Center
95 Central Avenue, St. George
Staten Island, New York 10301

The public is invited to review and comment on this proposed state plan amendment.

For further information and to review and comment, please contact: Department of Health, Bureau of HCRA Operations and Financial Analysis, Corning Tower Building, Rm. 984, Empire State Plaza, Albany, NY 12237, (518) 474-1673, (518) 473-8825 (fax), spa_inquires@health.state.ny.us

PUBLIC NOTICE

New York City Deferred Compensation Plan/NYCE IRA

The New York City Deferred Compensation Plan/NYCE IRA (the "Plan") is seeking qualified vendors to provide daily or as necessary liquidity through the use of a low duration wrapped bond portfolio, an insurance company separate account portfolio and/or a commingled stable value fund for the Stable Income Fund investment option of the Plan. To be considered, vendors must submit their product information to Mercer Investment Consulting. Vendors should input or update their product information, as applicable, on Mercer's Global Investment Management Database (GIMD). The address for the website is: www.mercergimd.com. Vendors not already registered, please call Jay Livnat at (212) 345-2719 for a user I.D. and password to access the database. There is no fee for entering product information on the database. Please complete the submission of product information in the Mercer database no later than 4:30 P.M. Eastern Time on Friday, April 19, 2013. Also, please visit the Plan's website at www.nyc.gov/

Appendix V
2014 Title XIX State Plan
First Quarter Amendment
Responses to Standard Funding Questions

APPENDIX V
HOSPITAL SERVICES
State Plan Amendment #14-09

CMS Standard Funding Questions (NIRT Standard Funding Questions)

The following questions are being asked and should be answered in relation to all payments made to all providers under Attachment 4.19-A of your state plan.

1. **Section 1903(a)(1) provides that Federal matching funds are only available for expenditures made by States for services under the approved State plan. Do providers receive and retain the total Medicaid expenditures claimed by the State (includes normal per diem, supplemental, enhanced payments, other) or is any portion of the payments returned to the State, local governmental entity, or any other intermediary organization? If providers are required to return any portion of payments, please provide a full description of the repayment process. Include in your response a full description of the methodology for the return of any of the amount or percentage of payments that are returned and the disposition and use of the funds once they are returned to the State (i.e., general fund, medical services account, etc.)**

   Response: Providers do retain the payments made pursuant to this amendment. However, this requirement in no way prohibits the public provider, including county providers, from reimbursing the sponsoring local government for appropriate expenses incurred by the local government on behalf of the public provider. The State does not regulate the financial relationships that exist between public health care providers and their sponsoring governments, which are extremely varied and complex. Local governments may provide direct and/or indirect monetary subsidies to their public providers to cover on-going unreimbursed operational expenses and assure achievement of their mission as primary safety net providers. Examples of appropriate expenses may include payments to the local government which include reimbursement for debt service paid on a provider's behalf, reimbursement for Medicare Part B premiums paid for a provider's retirees, reimbursement for contractually required health benefit fund payments made on a provider's behalf, and payment for overhead expenses as allocated per federal Office of Management and Budget Circular A-87 regarding Cost Principles for State, Local, and Indian Tribal Governments. The existence of such transfers should in no way negate the legitimacy of these facilities' Medicaid payments or result in reduced Medicaid federal financial participation for the State. This position was further supported by CMS in review and approval of SPA 07-07C when an on-site audit of these transactions for New York City's Health and Hospitals Corporation was completed with satisfactory results.

2. **Section 1902(a)(2) provides that the lack of adequate funds from local sources will not result in lowering the amount, duration, scope, or quality of care and services available under the plan. Please describe how the state share of each type of Medicaid payment (normal per diem, supplemental, enhanced, other) is funded. Please describe whether the state share is from appropriations from the legislature to the Medicaid agency, through intergovernmental transfer agreements (IGTs), certified public expenditures (CPEs), provider taxes, or any other mechanism used by the state to provide state share. Note that, if the appropriation is not to the Medicaid agency, the source of the state share would necessarily be derived through either an IGT or CPE. In this case, please identify the agency to which the funds are appropriated. Please provide an estimate of total expenditure and State share amounts for each type of Medicaid payment. If any of the non-federal share is being provided using IGTs or CPEs, please fully describe the matching arrangement including when the state agency receives the transferred amounts from the local government entity transferring the funds. If CPEs are used, please describe the methodology used by the state to verify that the total expenditures being certified are eligible for Federal matching funds in accordance with 42 CFR 433.51(b). For any payment funded by CPEs or IGTs, please provide the following:**
    - **(i) a complete list of the names of entities transferring or certifying funds;**
    - **(ii) the operational nature of the entity (state, county, city, other);**
    - **(iii) the total amounts transferred or certified by each entity;**
    - **(iv) clarify whether the certifying or transferring entity has general taxing authority; and,**
    - **(v) whether the certifying or transferring entity received appropriations (identify level of appropriations).**

   Response: Payments made to service providers under the provisions of this SPA are funded through a general appropriation received by the State agency that oversees medical assistance (Medicaid), which is the Department of Health. The source of the appropriation is the Local Assistance Account under the General Fund/Aid to Localities.

3. **Section 1902(a)(30) requires that payments for services be consistent with efficiency, economy, and quality of care. Section 1903(a)(1) provides for Federal financial participation to States for expenditures for services under an approved State plan. If supplemental or enhanced payments are made, please provide the total amount for each type of supplemental or enhanced payment made to each provider type.**

   Response: The payments authorized for this provision are not supplemental or enhanced payments.

4. **Please provide a detailed description of the methodology used by the state to estimate the upper payment limit (UPL) for each class of providers (State owned or operated, non-state government owned or operated, and privately owned or operated). Please provide a current (i.e. applicable to the current rate year) UPL demonstration. Under regulations at 42 CFR 4447.272, States are prohibited from setting payment rates for Medicaid inpatient services that exceed a reasonable estimate of the amount that would be paid under Medicare payment principals.**

   Response: Based on guidance from CMS, the State submitted the 2012 inpatient UPL demonstration on October 30, 2013. The 2013 room analysis was submitted November 4, 2013. Both are currently under review by CMS.

5. **Does any governmental provider receive payments that in the aggregate (normal per diem, supplemental, enhanced, other) exceed their reasonable costs of providing services? If payments exceed the cost of services, do you recoup the excess and return the Federal share of the excess to CMS on the quarterly expenditure report?**

   Response: The rate methodology included in the approved State Plan for institutional services is prospective payment. We are unaware of any requirement under current federal law or regulation that limits individual provider payments to their actual costs.

ACA Assurances:

1. **Maintenance of Effort (MOE). Under section 1902(gg) of the Social Security Act (the Act), as amended by the Affordable Care Act, as a condition of receiving any Federal payments under the Medicaid program during the MOE period indicated below, the State shall not have in effect any eligibility standards, methodologies, or procedures in its Medicaid program which are more restrictive than such eligibility provisions as in effect in its Medicaid program on March 10, 2010.**

   MOE Period.
   - **Begins on: March 10, 2010, and**
   - **Ends on: The date the Secretary of the Federal Department of Health and Human Services determines an Exchange established by a State under the provisions of section 1311 of the Affordable Care Act is fully operational.**

   Response: This SPA complies with the conditions of the MOE provision of section 1902(gg) of the Act for continued funding under the Medicaid program.

2. **Section 1905(y) and (z) of the Act provides for increased FMAPs for expenditures made on or after January 1, 2014 for individuals determined**

eligible under section 1902(a)(10)(A)(i)(VIII) of the Act. Under section 1905(cc) of the Act, the increased FMAP under sections 1905(y) and (z) would not be available for States that require local political subdivisions to contribute amounts toward the non-Federal share of the State's expenditures at a greater percentage than would have been required on December 31, 2009.

Prior to January 1, 2014 States may potentially require contributions by local political subdivisions toward the non-Federal share of the States' expenditures at percentages greater than were required on December 31, 2009. However, because of the provisions of section 1905(cc) of the Act, it is important to determine and document/flag any SPAs/State plans which have such greater percentages prior to the January 1, 2014 date in order to anticipate potential violations and/or appropriate corrective actions by the States and the Federal government.

Response: This SPA would [ ] / would not [✓] violate these provisions, if they remained in effect on or after January 1, 2014.

3. **Please indicate whether the State is currently in conformance with the requirements of section 1902(a)(37) of the Act regarding prompt payment of claims.**

   Response: This SPA does comply with the requirements of section 1902(a)(37) of the Act regarding prompt payment of claims.

Tribal Assurance:

Section 1902(a)(73) of the Social Security Act the Act requires a State in which one or more Indian Health Programs or Urban Indian Organizations furnish health care services to establish a process for the State Medicaid agency to seek advice on a regular ongoing basis from designees of Indian health programs whether operated by the Indian Health Service HIS Tribes or Tribal organizations under the Indian Self Determination and Education Assistance Act ISDEAA or Urban Indian Organizations under the Indian Health Care Improvement Act.

IHCIA Section 2107(e)(I) of the Act was also amended to apply these requirements to the Children's Health Insurance Program CHIP. Consultation is required concerning Medicaid and CHIP matters having a direct impact on Indian health programs and Urban Indian organizations.

a) **Please describe the process the State uses to seek advice on a regular ongoing basis from federally recognized tribes Indian Health Programs and Urban Indian Organizations on matters related to Medicaid and CHIP programs and for consultation on State Plan Amendments waiver proposals waiver extensions waiver amendments waiver renewals and proposals for demonstration projects prior to submission to CMS.**

b) **Please include information about the frequency inclusiveness and process for seeking such advice.**
c) **Please describe the consultation process that occurred specifically for the development and submission of this State Plan Amendment when it occurred and who was involved.**

Response: Tribal consultation was performed in accordance with the State's tribal consultation policy as approved in SPA 11-06, and documentation of such is included with this submission. To date, no feedback has been received from any tribal representative in response to the proposed change in this SPA.
