Re: New York State Plan Amendment (SPA) 23-0002

Dear Director Bassiri:

Enclosed please find a corrected approval package for your New York State Plan Amendment (SPA) submitted under transmittal number (TN) 23-0002. This SPA, Preventive Services: Community Health Workers and Certified Dietitians/Nutritionists, was originally approved on June 28, 2023. The approval package sent to New York included the following errors:

- The phrase “pregnant and post-partum women” in paragraph 1 of the original approval letter was included in error.

The enclosed corrected package contains the original signed letter, CMS-179, and the SPA pages.

If you have any questions, please contact Melvina Harrison at 212-616-2247 or via email at Melvina.Harrison@cms.hhs.gov.

Sincerely,

James G. Scott, Director
Division of Program Operations

cc: Regina Deyette, NYDOH

1905(a)(13) Other Diagnostic, Screening, Preventive, and Rehabilitative Services

Community Health Worker Services

Effective April 1, 2023, New York State Medicaid will provide coverage of Community Health Workers services provided in accordance with 42 CFR section 440.130(c).

Services

Community health worker services include health advocacy, health education and health navigation. Health advocacy includes addressing the individuals' needs, needed healthcare services, connection with community-based resources and programming, and support to ensure access to care that is high-quality, respectful, and equitable. Health education includes evidence-based and culturally-informed education to optimize the individual's health, to address barriers to accessing healthcare and/or community resources, and to facilitate knowledge, skills and abilities necessary to support informed decision-making. Health navigation includes referrals to community-based and healthcare organizations, screening completion, identification of social care needs, resource coordination, help with enrollment/maintaining enrollment in assistance programs, and assisting the individual to navigate the health system. The Community Health Worker will serve as a liaison between healthcare systems, social service providers, and community-based organizations to coordinate access to resources.

Provider qualifications

A Community Health Worker reflects the community served through lived experience that may include but is not limited to pregnancy and birth; housing status; mental health conditions or substance use; other chronic conditions; shared race, ethnicity, language, sexual orientation, or community of residence. Community Health Worker services are provided by individuals having completed required training and/or work experience as a Community Health Worker. Requirements include a minimum of 20 hours of training that includes the Centers for Disease Control-endorsed Community Health Worker core competencies and/or a minimum of 1,400 hours of work experience as a Community Health Worker in formal paid or volunteer role(s) in the previous three years. All Community Health Workers are required to complete basic HIPAA and mandated reporter trainings. Community Health Workers practice under the supervision of a Medicaid-enrolled, licensed provider. Community health worker services must be recommended by a physician or other licensed practitioner of the healing arts acting within his or her scope of practice under State law.

1905(a)(13) Other Diagnostic, Screening, Preventive, and Rehabilitative Services

Nutrition Services

Effective April 1, 2023, New York State Medicaid will provide coverage for nutrition services provided by certified dietitians and nutritionists in accordance with 42 CFR section 440.130(c).

Services

Covered services include individual assessments in nutritional history and dietary intake; anthropometric, biochemical, and clinical variables; feeding skills and feeding problems; food habits and food preferences; developing and monitoring appropriate plans to address the nutritional needs of an eligible member; and making referrals to appropriate community resources to carry out nutrition goals. Nutrition services must be recommended by a physician or other licensed practitioner of the healing arts acting within his or her scope of practice under State law.

Provider qualifications

Nutrition services are provided by qualified New York State certified dietitians/nutritionists acting within the scope of their profession.
